Acknowledgements

This Catalog was prepared and published by the Office of Academic Affairs in June 2021. Its goal is to provide a comprehensive, accurate, and useful catalog that changes on a daily basis, which fully describes the ever-changing academic programs, policies, regulations, and requirements of the University.

Although the publisher of this Catalog has made every reasonable effort to attain factual accuracy herein, no responsibility is assumed for editorial, clerical or printing errors, or errors occasioned by mistakes. The publisher has attempted to present information that, at the time of preparation for printing, most accurately describes the course offerings, faculty listings, policies, procedures, regulations, and requirements of the University. However, it does not establish contractual relations. The University reserves the right to alter or change any statement contained herein without prior notice.

We request that omissions and inaccuracies be brought to the attention of the Editor, as well as any suggestions and comments on the presentation and content.

About using this PDF Catalog:

This PDF has been formatted with navigation bookmarks. The navigation bookmarks on the left side of the screen function as an interactive table of contents. They will allow you to quickly find sections of interest and move easily throughout this document. You can expand and collapse the bookmarks by clicking on the +/- symbols.

If the Bookmarks Panel has been closed, you can reopen it by clicking on the Bookmarks icon:

The University of North Carolina at Charlotte is committed to equality of educational opportunity and does not discriminate against applicants, students, or employees based on race, color, religion, sex, sexual orientation, actual or perceived gender identity, gender expression, age, national origin, physical or mental disability, political affiliation, veteran status, or genetic information. In keeping with this commitment, UNC Charlotte actively seeks to promote diversity in its educational environment through its recruitment, enrollment, and hiring practices.
Welcome to UNC Charlotte, North Carolina’s urban research university. As you work toward your undergraduate or graduate degree program, please think of UNC Charlotte’s dedicated faculty and staff as your partners in your success. Their expertise and support, along with the many University resources and services available to you, will enable you to meet your academic, personal, and professional aspirations.

This is an exciting year in Niner Nation for a few reasons. First, you are back on campus! It’s also a big year because we are commemorating the 75th anniversary of our founding. We’ll have opportunities throughout the year to celebrate this milestone and the many accomplishments we’ve enjoyed during our first 75 years.

I’m sure you join with me in wishing a speedy “good riddance” to the pandemic that we all have had to navigate since Spring 2020. None of us could have ever imagined the set of challenges that it presented. Even so, I am proud of how the members of Niner Nation have come together in the face of these difficulties and worked to provide the safest environment possible for all of us, while also implementing creative measures that allowed for a flexible and robust learning environment.

I do appreciate that we have learned some lessons through these trying months about how to keep each other safe and how we can accomplish great things while using methods that look a bit different from what we’ve always done. You should know that, while we are back on campus together in Fall 2021, UNC Charlotte remains committed to providing a safe environment that is conducive to learning and enjoying all that a college experience entails.

One service that I believe you will find especially helpful in navigating your college experience is Niner Central, which is a one-stop shop for nearly any college-related issue that you can imagine. The physical location for Niner Central is at the front entrance of the Cone University Center. There you will find experts ready to assist with questions related to financial aid, billing/payments, course registration, transcripts, student records, etc. The Niner Central website (ninercentral.uncc.edu) also contains loads of information in one place to help you get the answers you need as quickly and easily as possible.

In joining the UNC Charlotte community—Niner Nation—you become part of a community in which students, faculty, and staff work collaboratively to identify and address the needs of the greater Charlotte region. We have a stake in the quality of life of the citizens of the communities we serve, so we constantly are pioneering new ways to drive economic growth and to meet the region’s environmental, health, and social needs.

We know that college is more than textbooks and classes, so we encourage you to become actively engaged on campus. Explore all the possibilities available – take advantage of leadership and volunteer opportunities; attend cultural events and lectures; participate in intramural sports; and, of course, we want to see you cheering on your Charlotte 49er athletic teams wherever they might be competing.

The light rail service on campus connects Niner Nation to Uptown Charlotte and all that it has to offer. And that includes quick and convenient access to the Dubois Center, UNC Charlotte’s campus in Center City, which is a hub for a number of our graduate programs. Its prime location also provides the University a place to convene civic, business, and community leaders around thought-provoking topics. Access to these leaders, and connections you may establish with them, could prove valuable to your educational pursuits and career prospects. Part of the transportation fee that you pay ensures your unlimited access to light rail, any city bus or shuttle, the Uptown trolley, and the campus shuttle system, “Niner Transit.”

Recent additions to our ever-growing campus include the University Recreation Center (UREC), the UNC Charlotte Marriott Hotel & Conference Center, and a brand new state-of-the-art science building.

I am beyond thrilled to be a part of Niner Nation, and I hope you feel the same way. So once again, welcome! I’m delighted that you’ve made UNC Charlotte your university of choice. Go Niners!

Sincerely,

Sharon L. Gaber
Chancellor
If this is your first year at UNC Charlotte, welcome to our dynamic community! If you are returning, we are pleased to welcome you back.

You are part of an engaged and enterprising university that is interconnected with North Carolina’s largest city. Because we are situated in a diverse, progressive city, our institution is alive with possibilities to learn and grow. Our distinguished faculty are here to provide you with a quality education that will open doors for you. Over the past few years, Niner Nation has proven itself to be a resilient and resourceful community. We have learned how to adjust and adapt. So, no matter what comes our way, we are dedicated to your education and are offering resources through college advising centers and the University Center for Academic Excellence to help you succeed. Please reach out to your academic advisor early and often, as they are here to help you stay on track to meet your goals.

Remember, too, that there is more to the collegiate experience than coursework. I encourage you to become involved in some of the many activities or student organizations. By getting involved, you will build relationships with both your fellow students and our faculty that you will cherish as you move on through the years.

I hope you will take advantage of the excellent resources available here, and explore all that our University has to offer. But don’t stop there – explore research, community engagement, and professional development opportunities in the greater Charlotte area and in the world beyond. We’re here to help you get started.

We are pleased that you have chosen UNC Charlotte. As our University continues to grow, we look forward to you continuing to grow with us as a person, a scholar, and a future alum.

Sincerely,

Joan F. Lorden
Provost and Vice Chancellor for Academic Affairs

UNC Charlotte’s academic year is divided into three terms: Fall, Spring, and Summer. These full terms are divided into half terms.

### FALL 2021
- **Aug 16**: Academic year begins
- **Aug 22**: New Student Convocation
- **Aug 23**: First day of classes (Full Term & First Half Term)
- **Aug 28**: First day of classes (Saturdays)
- **Sep 4**: No Saturday classes
- **Sep 6**: HOLIDAY: Labor Day
- **Oct 8**: Last day of classes (First Half Term)
- **Oct 11-12**: Fall Recess
- **Oct 14-15**: Final examinations (First Half Term)
- **Oct 20**: First day of classes (Second Half Term)
- **Nov 1**: Registration for Spring 2022 begins
- **Nov 24-27**: HOLIDAY: Thanksgiving
- **Dec 8**: Last day of classes
- **Dec 9**: Reading day
- **Dec 10-16**: Final examinations (Full Term & Second Half Term)
- **Dec 17-18**: Fall Commencement

### SPRING 2022
- **Jan 10**: First day of classes
- **Jan 17**: HOLIDAY: M.L. King, Jr. Day
- **Jan 22**: First day of classes (Saturdays)
- **Mar 7-12**: Spring Break
- **Mar 28**: Registration for Summer 2022 and Fall 2022 begins
- **Apr 15-16**: Spring Weekend
- **May 3**: Last day of classes
- **May 4**: Reading Day
- **May 5-12**: Final examinations
- **May 13-14**: Spring Commencement
- **May 16**: Academic year ends

### SUMMER 2022
- **May 23 - Jun 29**: Summer First Half Term*
- **May 23 - Aug 10**: Summer Full Term*
- **May 30**: HOLIDAY: Memorial Day
- **Jun 30 - Jul 3**: No classes
- **Jul 4**: HOLIDAY: Independence Day
- **Jul 5 - Aug 10**: Summer Second Half Term*

### Please note:
All dates are subject to change. No classes are held on the above noted holiday dates. A complete list of dates and deadlines is available online from the Office of the Registrar at registrar.uncc.edu/calendar. Please check this site for the most current information.
Introduction to the Catalog
Reader’s Guide to the Catalog

The University of North Carolina at Charlotte Undergraduate Catalog (hereby referred to as the "Catalog") is the official source of the University’s academic programs and courses. The Catalog should be used as a guide, in conjunction with an academic advisor, in planning a course of study and in meeting requirements for graduation.

Publication Schedule

The Catalog is published annually in the Spring for the following academic year, which begins in the Fall. Although course offerings and academic requirements at UNC Charlotte are continually under examination and revision, the Undergraduate Catalog is updated only once per year. This annual revision procedure helps ensure that users of the Catalog will not find unexpected changes during their academic planning processes.

The Undergraduate Catalog is Divided into Three Sections

The first section contains student information about attending the University, such as the academic calendar, the degree programs offered, admission, student conduct, degree requirements and academic policies, and financial information, including tuition and fees and financial aid.

The second (or curriculum) section describes the University’s academic programs in detail. The section is organized in alphabetical order by the seven academic colleges, followed by each individual department or program, plus the interdisciplinary School of Data Science and the Office of Undergraduate Education, which includes University College and the Honors College. The section ends with an alphabetical listing of all courses offered.

The third and final section contains information about student life on campus, academic resources, and student services, as well as a faculty directory and glossary of higher education terminology. Rounding out this section is an index, which is helpful in locating a topic quickly.

What’s New This Year

New Programs

New undergraduate degrees and programs that appear for the first time in this Catalog include:

- Bachelor’s Degrees with new Concentrations
  - B.S.C.P.E. in Computer Engineering with Concentration in Machine Learning
  - B.S.E.E. in Electrical Engineering with Concentration in Machine Learning
  - B.A. in Political Science with Comprehensive Social Studies Teacher Licensure

- Graduate Early Entry Programs
  - Early Entry: M.S. in Computer Engineering
  - Early Entry: Graduate Certificate in Gender, Sexuality, and Women’s Studies

Program Changes

Major changes to existing undergraduate degree programs include:

- B.F.A. in Art with Concentrations in Ceramics, Fibers, and Sculpture combined into one Concentration in 3D Interdisciplinary Studies: Art in Space
- B.S.B.A. in Management with Concentration in Talent Management renamed Concentration in Human Resource Management

Discontinued Programs

Discontinued undergraduate degrees and programs include:

- Bachelor of Architecture
- B.F.A. in Art with Concentration in Graphic Design
- B.S.C.E. in Civil Engineering with Concentration in Environmental/Water Resources Engineering
- B.S.C.E. in Civil Engineering with Concentration in Geotechnical Engineering
- B.S.C.E. in Civil Engineering with Concentration in Structures
- B.S.C.E. in Civil Engineering with Concentration in Transportation

Additional Changes

- Grade Replacement Policy was changed (see “Repeating Courses” under Grading and Related Policies in the Degree Requirements and Academic Policies section of the Catalog)
Catalog Policies and Disclaimers

The *UNC Charlotte Undergraduate Catalog* is not an irrevocable contract. Regulations published in it are subject to change by the University at any time without notice. University regulations are policy statements to guide students, faculty, and administrative officers in achieving the goals of the institution. Necessary interpretations of these policies will be made by the appropriate authorities with the interest of the students and the institution in mind. Students are encouraged to consult an advisor if they have questions about the application of any policy.

The University reserves the right to change any of the rules and regulations of the University at any time, including those relating to admission, instruction, and graduation. The University also reserves the right to withdraw curricula and specific courses, alter course content, change the calendar, and to impose or increase fees. All such changes are effective as proper authorities determine and may apply not only to prospective students, but also to those who are already enrolled in the University.

The requirements specified in this *Catalog* apply to students who commence their studies at UNC Charlotte during the 2021-2022 academic year and who remain in continuous enrollment at the institution until they graduate. If requirements are changed, students may elect to comply with the new requirements or to remain under the requirements by which they are governed at the time of the change. The choice to apply the new requirements must be declared by students at least one semester prior to graduation through their academic departments.

STUDENTS UNSURE OF WHICH CATALOG TO USE SHOULD CONSULT WITH THEIR ADVISOR.

Students who are readmitted to the University are bound by the program and degree requirements in force at the time of readmission.

Exceptions to these policies may be necessitated by changes in course offerings, degree programs, or by action of authorities higher than the University. In that event, every effort will be made to avoid penalizing the student.

Student Responsibility

Each student is responsible for the proper completion of his or her academic program, for familiarity with the *Catalog* for maintaining the grade point average required, and for meeting all other degree requirements. Students assume academic and financial responsibility for the courses in which they enroll and are relieved of these responsibilities only by formally terminating enrollment. The advisor will counsel, but the final responsibility remains that of the student.

A student is required to have knowledge of and observe all regulations pertaining to campus life and student behavior. Students are encouraged to familiarize themselves with academic terminology located in the Glossary section of this *Catalog*.

Email is the official form of communication at the University; each student is responsible for checking their uncc.edu email regularly, as well as maintaining communication with the University and keeping a current address and telephone number on file with the Office of the Registrar.

While associated with the University, each student is expected to participate in campus and community life in a manner that will reflect credibly upon the student and the University. The University has enacted two codes of student responsibility -- *The UNC Charlotte Code of Student Academic Integrity* and *The UNC Charlotte Code of Student Responsibility* -- which are summarized in this *Catalog* and available in full online at [legal.uncc.edu/policies/chapter-400](http://legal.uncc.edu/policies/chapter-400). As students willingly accept the benefits of membership in the UNC Charlotte academic community, they acquire obligations to observe and uphold the principles and standards that define the terms of UNC Charlotte community cooperation and make those benefits possible. This includes completion of institutional surveys as requested by the University for program assessment and improvement.

### Engineering Technology

- **Civil Engineering Technology**
  - Applied Energy and Sustainable Systems
  - Bachelor's in Engineering Technology (BSET)

- **Electrical Engineering Technology**
  - Applied Energy
  - Electromechanical
  - Bachelor's in Engineering Technology (BSET)

- **Fire and Safety Engineering Technology**
  - Fire Protection
  - Fire Safety
  - Occupational Safety
  - Bachelor's in Engineering Technology (BSET)

- **Mechanical Engineering Technology**
  - Applied Energy
  - Electromechanical
  - Bachelor's in Engineering Technology (BSET)

### College of Health and Human Services

- **Exercise Science**
  - Pre-Professional
  - Strength and Conditioning
  - Bachelor's (BS)

- **Health Informatics and Analytics**

- **Health Systems Management**
  - Bachelor's (BS)

- **Neurodiagnostics and Sleep Science**
  - Bachelor's (BS)

- **Nursing**
  - RN-to-BSN
  - Bachelor's in Nursing (BSN)

- **Outdoor Adventure Leadership**

- **Public Health**
  - Bachelor's in Public Health (BSPH)
  - Bachelor's in Nursing (BSN)
  - Bachelor's in Social Work (BSW)

### College of Liberal Arts & Sciences

- **Actuarial Mathematics**

- **Aerospace Studies**

- **African Studies**
  - Health and Environment
  - Bachelor's in African Studies (BA)

- **Anthropology**
  - Applied Anthropology
  - Bachelor's in Anthropology (BA)

- **American Studies**

- **Arabic Studies**

- **Biology**
  - Cell Biology/Physiology
  - Ecology/Environmental Biology
  - Microbiology
  - Bachelor's (BA, BS)

- **Biotechnology**

- **Capitalism Studies**

- **Chemistry**
  - Biochemistry
  - Education
  - Bachelor's in Chemistry (BA, BS)

- **Children’s Literature and Childhood Studies**

- **Chinese**

- **Classical Studies**

- **Cognitive Science**

- **Communication Studies**
  - Communication and Public Advocacy
  - Health Communication
  - Mass Media
  - Organizational Communication
  - Bachelor's in Communication Studies (BA)

- **Criminal Justice**
  - Crime Analytics
  - Bachelor's in Criminal Justice (BA)

**Accreditations**

Accreditation is important for the University to be able to receive and distribute state and federal funds. Also, accreditation is important for the acceptance and transfer of college credits. The Office of Assessment and Accreditation serves as the accreditation liaison for the University and is responsible for assuring that compliance with accreditation requirements is incorporated into planning and evaluation processes of the institution.

Institutional accrediting bodies conduct comprehensive reviews of institutions of higher education. This review ensures that “the institution (1) has a mission appropriate to higher education, (2) has resources, programs, and services sufficient to accomplish and sustain that mission, and (3) maintains clearly specified educational objectives that are consistent with its mission and appropriate to the degrees it offers and that indicate whether it is successful in achieving its stated objectives” (Principles of Accreditation: Foundations for Quality Enhancement). The accreditation granted encompasses the entire institution, including all degree programs, instructional sites, and online programs.

**UNC Charlotte**

UNC Charlotte is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award baccalaureate, master’s, and doctorate degrees. Questions about the accreditation of UNC Charlotte may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC’s website (www.sacscoc.org).

**College of Arts + Architecture**

The Bachelor of Architecture and Master of Architecture are accredited professional degree programs as recognized by the National Architectural Accrediting Board (NAAB).

The Bachelor of Arts in Art, Bachelor of Fine Arts in Art, Bachelor of Fine Arts in Graphic Design, and Bachelor of Arts in Art History are accredited degree programs as recognized by the National Association of Schools of Art and Design (NASAD).

The Bachelor of Arts in Music and Bachelor of Music are accredited degree programs as recognized by the National Association of Schools of Music (NASM).
The Bachelor of Arts in Dance is an accredited degree program as recognized by the National Association of Schools of Dance (NASD).

All arts education programs leading to K-12 licensure (art, dance, music, and theatre education) are accredited by their national accrediting body (the National Association of Schools of Art and Design, National Association of Schools of Dance, National Association of Schools of Music, and National Association of Schools of Theatre) and approved as Educator Preparation Programs by the North Carolina Department of Public Instruction (NCDPI).

**College of Business**
The programs in business and accounting are accredited by AACSB International, the Association to Advance Collegiate Schools of Business. AACSB International is the premier accrediting agency for bachelor’s, master’s, and doctoral degree programs in business administration and accounting.

**College of Education**
The College’s professional education programs for BK-12 teachers, counselors, and administrators are approved by the North Carolina Department of Public Instruction (NCDPI) and accredited by the Council for the Accreditation of Educator Preparation (CAEP).

Counseling programs in Counselor Education are accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

**College of Engineering**
The baccalaureate programs in civil, computer, electrical, mechanical, and systems engineering are accredited by the Engineering Accreditation Commission of ABET, www.abet.org.

The civil, electrical, and mechanical engineering technology baccalaureate programs are accredited by the Engineering Technology Accreditation Commission of ABET, www.abet.org.

The construction management baccalaureate program is accredited by the Engineering Technology Accreditation Commission and the Applied and Natural Science Commission of ABET, www.abet.org.

**College of Health and Human Services**
The baccalaureate degree in nursing/master’s degree in nursing/Doctor of Nursing Practice and/or post-graduation APRN certificate at the University of North Carolina at Charlotte is accredited by the Commission on Collegiate Nursing Education (www.ccneaccreditation.org).

The undergraduate nursing programs are approved by the North Carolina Board of Nursing.

The Nursing Anesthesia program is accredited by the Council on Accreditation of Nurse Anesthesia Education Programs (COA).

The Neurodiagnostics and Sleep Science program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Commission on Accreditation for Polysomnographic Technologist Education (CoA PSG).

The Exercise Science program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Commission on Accreditation for the Exercise Sciences (CoAES).

The Clinical Exercise Physiology concentration of the Master of Science in Kinesiology is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Commission on Accreditation for the Exercise Sciences (CoAES).

The Bachelor of Science in Respiratory Therapy (program #500001) and Master of Science in Respiratory Care (program #520001) at UNC Charlotte have been provisionally accredited by the Commission on Accreditation for Respiratory Care (coarc.com). CoARC accredits respiratory therapy education programs in the United States. To achieve this end, it utilizes an “outcomes-based” process. Programmatic outcomes are performance indicators that reflect the extent to which the educational goals of the program are achieved and by which program effectiveness is documented (coarc.com/students/programmatic-outcomes-data).

The Master of Health Administration program is accredited by the Commission on Accreditation of Healthcare Management Education (CAHME).

The Public Health programs (BSPH, MPH, Ph.D. in Public Health Sciences, and Ph.D. in Health Services Research) are accredited by the Council on Education for Public Health (CEPH).

Both the Bachelor of Social Work (BSW) and the Master of Social Work (MSW) are accredited by the Council on Social Work Education (CSWE).

**College of Liberal Arts & Sciences**
The Department of Chemistry is on the approval list of the American Chemical Society.

The Public Relations program within the Department of Communication Studies is certified by the Public Relations Society of America (PRSA).

The Clinical Psychology program within the Ph.D. in Health Psychology is accredited by the American Psychological Association (APA).

The Master of Public Administration program is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA).

**Graduate School**
The University is a member of the Council of Graduate Schools, the Conference of Southern Graduate Schools, and The North Carolina Conference of Graduate Schools.
About the University
In North Carolina, all of the public educational institutions that grant baccalaureate degrees are part of The University of North Carolina System. The oldest public university system in the nation, UNC traces its roots to the state’s 1776 constitution, which held that “All useful Learning shall be duly encouraged and promoted in one or more Universities.” Today, nearly 225,000 students are enrolled on 16 university campuses across the state and at the NC School of Science and Mathematics, the country’s first public, residential high school for gifted students.

History
Chartered by the North Carolina General Assembly in 1789, the University of North Carolina was the first public university in the United States to open its doors and the only one to graduate students in the eighteenth century. The first class was admitted in Chapel Hill in 1795. For the next 136 years, the only campus of the University of North Carolina was at Chapel Hill.

Additional institutions of higher education, diverse in origin and purpose, began to win sponsorship from the General Assembly beginning as early as 1877. Five were historically black institutions, and another was founded to educate Native Americans. Some began as high schools. Several were created to prepare teachers for the public schools. Others had a technological emphasis. One is a training school for performing artists.

The 1931 session of the General Assembly redefined the University of North Carolina to include three state-supported institutions: (1) the campus at Chapel Hill (now the University of North Carolina at Chapel Hill), (2) North Carolina State College (now North Carolina State University at Raleigh), and (3) Woman’s College (now the University of North Carolina at Greensboro). The new multi-campus University operated with one board of trustees and one president. By 1969, three additional campuses had joined the University through legislative action: (4) the University of North Carolina at Charlotte, (5) the University of North Carolina at Asheville, and (6) the University of North Carolina at Wilmington.

In 1971, legislation was passed bringing into the University of North Carolina the state’s ten remaining public senior institutions, each of which had until then been legally separate: (7) Appalachian State University, (8) East Carolina University, (9) Elizabeth City State University, (10) Fayetteville State University, (11) North Carolina Agricultural and Technical State University, (12) North Carolina Central University, (13) the North Carolina School of the Arts (now the University of North Carolina School of the Arts), (14) Pembroke State University (now the University of North Carolina at Pembroke), (15) Western Carolina University, and (16) Winston-Salem State University. In 1985, the NC School of Science and Mathematics was declared an affiliated school of the University; in July 2007, NCSSM by legislative action became a constituent institution of the University of North Carolina.

Board of Governors
The UNC Board of Governors is the policy-making body charged with “the general determination, control, supervision, management, and governance” of the University of North Carolina. Its 28 voting members are elected by the NC General Assembly for four-year terms. Former board chairs may continue to serve for limited periods as non-voting members emeriti. The president of the UNC Association of Student Governments or that student’s designee is also a non-voting member.

President and UNC System Office
The chief executive officer of the University of North Carolina System is the President. The President is elected by and reports to the Board of Governors. The President’s office is the operations level between the constituent institutions and the Board of Governors. The President has complete authority to manage the affairs and execute the policies of the University of North Carolina and its constituent institutions, subject to the direction and control of the Board of Governors.

Chancellors
Each of the UNC campuses is headed by a Chancellor who is chosen by the Board of Governors on the President’s nomination and is responsible to the President.

Board of Trustees
Each UNC campus has a local Board of Trustees that holds extensive powers over academic and other operations of its campus on delegation from the Board of Governors.

Shared Governance
The UNC System operates under an arrangement of shared governance that leverages the collective strengths of its campus chancellors and administrators, local boards of trustees, and the UNC President and Board of Governors. The UNC System also honors the important traditional role of the faculty in the governance of the academy.
History of the University of North Carolina at Charlotte

www.uncc.edu

UNC Charlotte is one of a generation of universities founded in metropolitan areas of the United States immediately after World War II in response to rising education demands generated by the war and its technology.

To serve returning veterans, North Carolina opened 14 evening college centers in communities across the state. The Charlotte Center opened Sept. 23, 1946, offering evening classes to 278 freshmen and sophomore students in the facilities of Charlotte’s Central High School. After three years, the state closed the centers, declaring that on-campus facilities were sufficient to meet the needs of returning veterans and recent high school graduates.

Charlotte’s education and business leaders, long aware of the area’s unmet needs for higher education, moved to have the Charlotte Center taken over by the city school district and operated as Charlotte College, offering the first two years of college courses. Later the same leaders asked Charlotte voters to approve a two-cent tax to support that college.

Charlotte College drew students from the city, Mecklenburg County and from a dozen surrounding counties. The two-cent tax was later extended to all of Mecklenburg County. Ultimately financial support for the college became a responsibility of the State of North Carolina.

As soon as Charlotte College was firmly established, efforts were launched to give it a campus of its own. With the backing of Charlotte business leaders and legislators from Mecklenburg and surrounding counties, land was acquired on the northern fringe of the city and bonds were passed to finance new facilities. In 1961, Charlotte College moved its growing student body into two new buildings on what was to become a 1,000-acre campus 10 miles from downtown Charlotte.

Three years later, the North Carolina legislature approved bills making Charlotte College a four-year, state-supported college. The next year, 1965, the legislature approved bills creating the University of North Carolina at Charlotte, the fourth campus of the statewide university system. In 1969, the University began offering programs leading to master’s degrees. In 1992, it was authorized to offer programs leading to doctoral degrees.

Today, with an enrollment ranking it fourth among the 17 schools in the UNC system, it is the largest public university in the greater Charlotte metropolitan region. A doctoral institution, UNC Charlotte serves the region through applied research, knowledge transfer, and engaged community service.

More than 1,100 full-time teaching faculty comprise the University’s academic departments, and the Fall 2020 enrollment was over 30,000 students, including almost 6,000 graduate students.

Mission, Vision, and Values of UNC Charlotte

chancellor.uncc.edu/institutional-planning/mission-statement

University Mission Statement
UNC Charlotte is North Carolina’s urban research university. It leverages its location in the state’s largest city to offer internationally competitive programs of research and creative activity, exemplary undergraduate, graduate, and professional programs, and a focused set of community engagement initiatives. UNC Charlotte maintains a particular commitment to addressing the cultural, economic, educational, environmental, health, and social needs of the greater Charlotte region.

University Vision and Values

In fulfilling our mission, we envision a University that promises:

- An accessible and affordable quality education that equips students with intellectual and professional skills, ethical principles, and an international perspective.
- A strong foundation in liberal arts and opportunities for experiential education to enhance students’ personal and professional growth.
- A robust intellectual environment that values social and cultural diversity, free expression, collegiality, integrity, and mutual respect.
- A safe, diverse, team-oriented, ethically responsible, and respectful workplace environment that develops the professional capacities of our faculty and staff.

To achieve a leadership position in higher education, we will:

- Rigorously assess our progress toward our institutional, academic, and administrative plans using benchmarks appropriate to the goals articulated by our programs and in our plans.
• Serve as faithful stewards of the public and private resources entrusted to us and provide effective and efficient administrative services that exceed the expectations of our diverse constituencies.
• Create meaningful collaborations among university, business, and community leaders to address issues and opportunities of the region.
• Develop an infrastructure that makes learning accessible to those on campus and in our community and supports the scholarly activities of the faculty.
• Pursue opportunities to enhance personal wellness through artistic, athletic, or recreational activities.
• Operate an attractive, environmentally responsible and sustainable campus integrated with the retail and residential neighborhoods that surround us.

Approved by the Board of Governors on April 11, 2014.

Graduation Rate Disclosure Statement

Our data shows that 65.1% of the full-time new freshmen who entered UNC Charlotte in Fall 2014 have received a baccalaureate from UNC Charlotte as of Fall 2020. In addition, another 2.2% were enrolled at UNC Charlotte in pursuit of their baccalaureate degree as of Fall 2020. This information is provided pursuant to requirements of the Student Right-to-Know and Campus Security Act of 1990.

Nondiscrimination

UNC Charlotte seeks to promote a fair, humane and respectful environment for its faculty, staff, students, contractors, and visitors. The University prohibits discrimination and harassment on the basis of race, color, religion, age, national origin, physical or mental disability, political affiliation, veteran status, genetic information, sex, sexual orientation, gender expression, or gender identity in its programs and activities, and in its employment and educational decisions.

If you have discrimination concerns, please see the UNC Charlotte Notice of Nondiscrimination for the contact information of individuals who may assist you. This notice and the University’s grievance procedures for making a complaint of discrimination may be found online at legal.uncc.edu/sites/legal.uncc.edu/files/media/NondiscriminationNotice.pdf.

University Structure

UNC Charlotte is organized into five administrative divisions: Academic Affairs, Business Affairs, Institutional Integrity, Student Affairs, and University Advancement. These divisions, as well as Athletics, all report to the Chancellor.

Academic Affairs

The Division of Academic Affairs provides administrative oversight and academic leadership. It includes Assessment and Accreditation; Enrollment Management; Faculty Affairs and Diversity Office; Institutional Research; International Programs; Library; OneIT; Research and Economic Development; Urban Research and Community Engagement; The Graduate School; Office of Undergraduate Education; and seven discipline-based colleges: the Colleges of Arts + Architecture, Business, Computing and Informatics, Education, Engineering, Health and Human Services, and Liberal Arts & Sciences.

Business Affairs

Business Affairs plans and provides essential human, financial, facility, and administrative support services to the University that are customer-focused, results-oriented, fiscally sound, and integrity-bound. The Division of Business Affairs includes Business Services; Facilities Management; Financial Services; Human Resources; Safety and Security; and Technical Operations and Planning.

Institutional Integrity

The Division of Institutional Integrity supports UNC Charlotte in its endeavors to achieve its academic mission and strategic plan while adhering to the University’s ethical, legal, and regulatory responsibilities. The Division of Institutional Integrity consists of the Office of Legal Affairs, the Office of Ethics and Compliance, the Title IX Office, the Internal Audit Department, and Enterprise Risk Management.

Student Affairs

The Division of Student Affairs advances the educational mission of the University by creating inclusive student-centered learning environments where students excel academically and develop personally into their best selves. The Division of Student Affairs consists of the Center for Counseling and Psychological Services (CAPS); Center for Wellness Promotion; Cone University Center; Dean of Students Office; Housing and Residence Life; Leadership & Community Engagement; New Student and Family Services; Office of Fraternity and Sorority Life; Office of Identity, Equity & Engagement; Popp Martin Student Union; Student Activity Center and Venue Management; Student Affairs Research & Assessment; Student Assistance and Support Services; Student Conduct & Academic Integrity; Student Health Center; Student Involvement; Student Niner Media; University Recreation; Venture Outdoor Leadership; and Veteran Services.

University Advancement

The Division of University Advancement supports the mission of the University by cultivating alumni, community, and government support and affinity, by raising funds for scholarships and major initiatives, by providing and coordinating community engagement opportunities, and by providing broad-based communications leadership that articulates the mission of the University to the region, state and nation. The Division includes Advancement Operations, Alumni Affairs, Community Relations, Constituent Relations, University Communications, University Development, and University Events.
Main Campus
The University of North Carolina at Charlotte is the largest institution of higher education in the Charlotte region and is a genuine urban university. The main campus is in University City, one of the fastest growing areas of the Charlotte region, located off WT Harris Boulevard on NC 49 near its intersection with US 29, and only eight miles from the interchange of Interstates 85 and 77. Campus facilities are comprised of contemporary buildings, including many constructed in the past ten years and more on the way. In addition to classrooms and well-equipped laboratories, the University offers arts and athletic facilities, dining facilities, and residence accommodations. The campus is designed for the pedestrian, and facilities are generally accessible to students with disabilities.

Center City
UNC Charlotte Center City functions as a gateway to the entire University of North Carolina at Charlotte and as such embodies UNC Charlotte’s urban identity in the heart of the greater Charlotte region. Architecturally, it reflects its mission as a premier institution of higher education; its context in this vibrant, rapidly urbanizing area; and its commitment to environmental sustainability.

Academically, UNC Charlotte Center City facilitates programs having an urban awareness and context, while providing vital learning opportunities for employees and residents of the urban center. Operationally, it incorporates the attributes we wish to instill in the entire University: excellence in programming, responsiveness to stakeholders, entrepreneurship, interdisciplinary productivity, inclusively, flexibility, and efficiency.

Albert & Freeman
The Energy Production and Infrastructure Center (EPIC) at UNC Charlotte was formed in response to the need from industry to supply highly trained engineers qualified to meet the demands of the energy industry – through traditional and continuing education, and provide sustainable support the Carolina energy industry by increasing capacity and support for applied research. EPIC is a highly collaborative industry/education partnership that produces a technical workforce, advancements in technology for the global energy industry while supporting the Carolinas’ multi-state economic and energy security. It was dedicated on November 16, 2012.

In October 2020, the EPIC building was named the Albert & Freeman Energy Production and Infrastructure Center to recognize and honor alumni Craig and Darla Albert. The generosity of the Alberts, especially throughout Exponent: The Campaign for UNC Charlotte, established both the Albert Engineering Leadership Scholars program and the Freeman Scholarship, both housed in the University’s Honors College.

The Albert Engineering Leadership Scholars Program invests in superior students who have demonstrated excellence in the areas of academic achievement, leadership and community engagement. Albert Scholars serve as the next generation of leaders who will make dynamic contributions to the field of engineering. The program offers students a full, four-year scholarship, along with academic support and the professional guidance necessary to achieve their educational and professional goals.

The Freeman Scholarship provides renewable scholarship support to students pursuing any major who are eligible for one of the University’s honors programs. The Freeman Scholarship is open to incoming first-year students eligible for a Federal Pell Grant or other federal grant aid programs. The scholarship places a strong emphasis on commitment to academics.

Craig Albert earned a bachelor’s degree in mechanical engineering from the Lee College of Engineering in 1985 and currently serves as president and chief operating officer of Bechtel Group Inc., the largest engineering and construction firm in the United States. He is responsible for the management and oversight of the firm’s global operations and serves on the company’s board of directors. Darla Albert earned a bachelor’s
degree in business administration from UNC Charlotte’s Belk College of Business in 1983.

EPIC is home to the Department of Civil and Environmental Engineering and Department of Electrical and Computer Engineering.

Atkins Library
Atkins Library, the third building to be constructed on the UNC Charlotte campus, is named for J. Murrey Atkins, the son of a prominent Gastonia family, successful Charlotte businessman and one of the University’s founding members.

Atkins, born in Russellville, Kentucky, graduated from Gastonia High School. At Duke University, he served as editor of the yearbook and earned a bachelor’s degree in 1927. He attended Harvard Law School and Columbia University and spent five years in New York with the Irving Trust Co. before returning to Charlotte. In 1935, he joined the city’s leading investment firm R.S. Dickson and Co., where he was president from 1954 until his death.

Atkins was involved with Charlotte College from its inception. He was chair of the college advisory committee for eight years and chair of the Charlotte Community College System when it was authorized in 1958. When UNC Charlotte became a four-year college, he served as chair of the Board of Trustees.

Sensitive to the social and educational needs of the community, Atkins believed that the Charlotte region needed a public institution of higher learning to stay competitive with other cities in the state. He used his business, financial and political contacts to help Charlotte College become that institution. “Charlotte College was started to meet an emergency and has continued as a necessity,” Atkins was fond of saying.

Charlotte College shared a library facility with Central High School. Mozelle Scherger was hired as the first full-time librarian in 1957, when a daytime instructional program was launched. When the college was formally accredited that fall, the number of volumes in the library exceeded 6,000.

Atkins believed the library should be central on the campus, central in student service and the very focal point of learning. When the library was first moved to the new campus, it was temporarily housed in the W. A. Kennedy Building.

The pioneering leader would not live to see the current library adorned with his name. He died Dec. 2, 1963, and the J. Murrey Atkins Library was dedicated on April 19, 1965. The state legislature appropriated $20.5 million for an expansion in 1995. It was re-dedicated in 2001.

Dalton Library Tower
The Harry L. Dalton Library Tower was completed and dedicated in 1971, and re-dedicated in 2001. It is named in honor of Harry Lee Dalton, distinguished Charlotte business leader and patron of the arts, whose gifts stimulated the development of the Library’s Special Collections.

Barnard
The Barnard Building was completed in 1969. It is named in honor of Bascom Weaver Barnard, a founder and first chairman of The Charlotte College Foundation, and first executive director of The Foundation of the University of North Carolina at Charlotte.

Bascom “Barney” Weaver Barnard established the Charlotte College Foundation and served as its first chair. His name features prominently in the early years of UNC Charlotte, and it adorns an 18,000 square-foot building completed in 1969, designed to serve as a facility for instruction and research.

Born Feb. 14, 1894, Barnard was a native of Asheville. He graduated from Trinity College (now Duke University) and completed a master’s degree from Princeton University in 1917. He returned to his alma mater, where he taught economics and served as alumni secretary and graduate manager of athletics until 1922. He eventually left academia for the private sector.

Starting in 1939, Barnard worked as an executive for American Commercial Bank (later NCNB, now Bank of America), American Discount Company and the American Credit Corporation while maintaining a busy roster of civic activities. He served on the board the Family and Children Service, the Salvation Army and as chair of the National Affairs Committee of the Charlotte Chamber of Commerce. In 1966, he received
one of Charlotte’s highest civic honors - the Civitan Distinguished Citizenship Award.

In that same year, Barnard founded Charlotte College Foundation, which by 1971 had raised $4.5 million for the fledgling University; since then, the foundation has since raised significantly more to support scholarship and academic programming at UNC Charlotte. He served as the foundation’s secretary and executive director and established the University’s Patrons of Excellence Program, which solicited gifts of $10,000 or more from individuals, foundations and corporations.

On May 30, 1971, the UNC Charlotte Academic Council presented Barnard with a resolution stating “Scholarships, professorships, research grants, additions to the library collection, faculty recruitment – all these and more have flourished at his hand. In short, he has helped to provide the margin that leads to excellence.” Barnard died Sept. 27, 1980.

The Barnard building is one of the five buildings that make up the original quad of UNC Charlotte. Today, Barnard is home to the Department of Anthropology, Adult Students and Evening Services, and Veteran Student Services.

Bioinformatics

The Bioinformatics Research Center opened in 2009 as a teaching and research building on the campus of the Charlotte Research Institute. It is a multifunctional facility which fosters an interdisciplinary academic and entrepreneurial program. The center also support the nearby “Biopolis” (the North Carolina Research Center) through biotechnology efforts in plant genomics, health, and gene-related research.

The Bioinformatics Building is home to the Department of Bioinformatics and Genomics.

Burson

Sherman Burson Jr. was the first Charles Stone Professor of Chemistry and the inaugural dean of the-then College of Arts and Sciences.

A native of Pittsburgh, Pa., Burson was born Christmas Eve 1923. His father, a Methodist minister, moved the family to Massachusetts, where Burson graduated from Harwich High School. Uncertain of his career goals, Burson considered becoming a surgeon, psychologist or medical researcher.

With little money for college, Burson took the advice of his high school principal and moved South where college costs were lower. He spent the 1941-42 academic year at the University of Alabama. When money ran out, he returned to Pennsylvania, where he worked in a steel mill during the day and attended the University of Pittsburgh at night. World War II was under way, and Burson entered the U.S. Army. A special program enabled him to continue studies at Louisiana State University; following the war, he returned to the University of Pittsburgh, where he completed a bachelor’s degree in chemistry.

He earned a doctorate in 1953. In 1957, after nearly five years in private industry, Burson decided to pursue a career in academia. He joined the faculty of Pfeiffer College in Misenheimer. At the urging of Bonnie Cone, Burson accepted a position at Charlotte College in 1963. He was a professor of chemistry and chair of the department when Charlotte College became the fourth campus of the University of North Carolina in 1965. It was under Burson that the department achieved accreditation from the American Chemical Society.

UNC Charlotte’s first chancellor, Dean Colvard, appointed Burson acting dean of the College of Science and Mathematics in 1973, and in 1980, Chancellor E.K. Fretwell named him dean of the newly formed College of Arts and Sciences (now the College of Liberal Arts & Sciences), formed by the merger of the College of Science and Mathematics with the College of Humanities and the College of Social and Behavioral Sciences. He held this post until retiring in June 1985.

Completed in summer 1985, the Sherman L. Burson Building was originally dedicated as the Physical Sciences Building. The 104,000-square-foot facility includes a 184-seat tiered lecture hall, a number of smaller lecture halls and laboratory space. Designed by Peterson Associates of Charlotte, the building was constructed by Butler and Sidbury Inc. for a little more than $8 million. At the time of its re-dedication in April 1999, the building was noted for its planetarium platform mounted on vibration-resistant pedestals, an underground Van de Graaf linear accelerator and reinforced concrete radiation labs.

The building’s design won a national architectural award and was included in the American School and Universities Architectural Portfolio for 1986.
The Burson building’s innovative architecture includes an extremely complex mechanical system which ensures safe exhaust of poisonous and noxious fumes. Today, Burson is home to the Department of Chemistry.

**Cameroon**

The C.C. Cameron Applied Research Center recognizes an individual whose civic and business leadership contributed to the development of UNC Charlotte and the entire UNC system.

Clifford Charles Cameron was born in Meridian, Miss. He later attended Louisiana State University, where he completed a bachelor’s degree in chemical engineering in 1941. Following service in World War II, he worked as an engineer for Standard Oil Co. At the urging of a war buddy, Cameron changed careers and became a mortgage banker in 1949. He entered this relatively new field with the creation of Cameron Mortgage Co. in Raleigh. The company merged with Brown-Hamel Mortgage Co. of Greensboro in 1955 and acquired the Carolina Realty Co. of Charlotte. This was the beginning of the Cameron-Brown Co. that would later combine with First Union.

Following that merger, Cameron moved to Charlotte, where he became chief executive officer of First Union in 1968. His affiliation with UNC Charlotte dates to 1967, when Cameron became a member of the board of directors of the UNC Charlotte Foundation. In the early 1980s, Cameron co-chaired UNC Charlotte’s first capital campaign and played a leadership role in the University’s Silver Anniversary Campaign. He also served as on the UNC Charlotte Board of Trustees and the UNC Board of Governors.

Through his involvement with the UNC Charlotte Foundation, Cameron is credited with helping to create University Place and the subsequent economic development that resulted. He also played a part in the development of the Ben Craig Center.

Chancellor emeritus E.K. Fretwell noted in a magazine article that “Cliff Cameron personifies corporate responsibility… He is giving of his management expertise, his leadership, his great prestige and his personal attention to assist the University of North Carolina at Charlotte in its quest for excellence.”

Before retiring as First Union chair in 1984, Cameron laid the groundwork for its growth as one of the nation’s top 20 banks. Committed to public service, Cameron served as an advisor to North Carolina governors for four decades. He was a member of Gov. Luther Hodge’s Business Development Corp., Gov. Dan Moore’s Council for Economic Development; Gov. Bob Scott’s Conservation and Development Board and Gov. Hunt’s Advisory Budget Commission and Transportation Study Commission. Under Gov. James Martin, Cameron served as an assistant for budget and management.

One of the University’s most prestigious scholarships bears the name of C.C. Cameron in recognition of First Union’s and his personal contributions that made the financial assistance possible. In honor of his service to the University and the state, UNC Charlotte awarded Cameron an honorary Doctor of Public Service in 1983.

Completed in 1990 and dedicated on September 25, 1991, the Cameron Applied Research Center contained roughly 74,000 square feet of laboratory, office, and conference space to support world-class research. At the time, the center was the focal point for the University’s outreach mission to the region. It provided businesses, agencies and organizations access to academic and applied research expertise. A multipurpose facility, the center was designed for maximum flexibility to accommodate evolving research projects. It features clean-room and vibration-free spaces, a 96-seat auditorium and a media center equipped for teleconference and distance learning.

In 2000, the center was renovated and expanded to add roughly 42,000 square feet of space.

Today, the building is known as Cameron Hall and is home to the University Writing Program, Writing Resources Center, and Department of Systems Engineering and Engineering Management.

**Cato**

Dedicated May 6, 2004, Cato Hall is often the first point of contact for prospective students interested in enrolling at the state’s urban research institution. Named for Wayland H. Cato Jr., the building houses Undergraduate Admissions, the Graduate School and the Chancellor’s Office, as well as internal audit and legal affairs.
A distinguished business leader and philanthropist, Cato was born in Ridge Spring, S.C., in 1923. His father, Wayland Cato Sr. worked for United Merchants and Manufacturers (UM&M), a New York-based textile conglomerate. The elder Cato moved his family to Augusta, Ga., in 1937, where the younger Cato attended the Academy of Richmond County, a compulsory ROTC military public school. He graduated with honors in 1940.

Cato Jr. enrolled at UNC-Chapel Hill and was elected to Beta Gamma Sigma, a national honorary scholastic commerce fraternity. He also joined the Naval Reserve Officers Training Corps. In 1944, Cato graduated in the top three percent of his class with a bachelor’s degree in commerce.

During World War II, he served nearly three years on active duty in the U.S. Navy, stationed aboard minesweepers in the Pacific Theatre.

Following his discharge, Cato joined his father and other family members in Charlotte. The elder Cato had left UM&M to start his own business, which became the Cato Corporation, a chain of women’s apparel stores. Cato Jr. became president and chief executive officer of the family business in 1960. He added the title chair of the board of directors in 1970. He retired as chair emeritus in 2004; his son John Cato was named CEO in 1999.

Cato Jr. also endowed a number of scholarship programs at the University. For his leadership in business in the Carolinas and service to the nation, state and community and for his commitment to learning and scholarship, Cato was awarded an honorary Doctor of Humane Letters during commencement in May 2002.

From 1995 to 2002, Cato Jr. was a director of the UNC Charlotte Foundation. Personally and corporately, he endowed a number of scholarship programs at the University. For his leadership in business in the Carolinas and service to the nation, state and community and for his commitment to learning and scholarship, Cato was awarded an honorary Doctor of Humane Letters during commencement in May 2002.

Conceived as the Humanities Office Wing, Cato Hall originally housed Undergraduate Admissions and the Graduate School, along with the Development Office and the departments of Communication Studies and Social Work. The three-story, 32,500-square-foot facility was built for $5.1 million using bonds approved by state voters in 2000 and other University funds.

Today, Cato is home to Graduate and International Admissions; Graduate School; Chancellor’s Office; Enrollment Management; Internal Audit; and Legal Affairs.

**Colvard**

The Colvard Building opened in 1979, and its steel-frame and curtain-wall construction and many energy saving features were considered progressive for its time. Harry Wolf of Wolf Associates designed the structure, and he won the 1980 South Atlantic Regional AIA Honor Award for his work. Among the energy-saving features Wolf utilized were vermiculite insulate roofing, insulated walls and a heat reclaimer. Also, the center arcade was designed for the horizontal and vertical movement of students in a space that did not need to be heated or cooled.

While many of Wolf’s design techniques are common today, 30 years ago they were considered forward-thinking. It is appropriate such a building honors Dean Wallace Colvard, UNC Charlotte’s first permanent chancellor, a man considered ahead of his time in many respects.

Born in 1913, Colvard was raised in the mountains of western North Carolina in Ashe County. President and salutatorian of his high school class, Colvard was the first member of his family to attend an institution of higher learning. He started at Berea College in 1931, where he earned a scholarship. He also met Martha Lampkin; they would wed in the college’s Danforth Chapel in 1939.

After completing his undergraduate degree, Colvard earned a master’s degree in endocrinology from the University of Missouri and a doctorate in agricultural economics from Purdue University. He also served as superintendent of North Carolina Agricultural Research Stations from 1938-46. In 1948, Colvard was hired to run North Carolina State University’s animal science program. Five years later, he became the dean of agriculture, a post he held until 1960, when he became president of Mississippi State University (MSU), where he unintentionally became part of college sports history. MSU had won three straight Southeastern Conference championships, but the institution declined to participate in the NCAA tournament rather than integrate, even briefly, on the basketball court. In 1963, Colvard defied a court injunction and allowed the MSU basketball team to compete in the tournament against a team with African-American players.

Colvard returned to his native state in 1966 after being named chancellor of UNC Charlotte. He embraced the challenge of turning a pioneering junior college into a university that had become the fourth member of the consolidated UNC system. As chancellor, he secured regional and national accreditation for University programs, helped create the University Research Park, added graduate programs, expanded the campus and oversaw the growth of the student body from 1,700 to 8,705
students.

He retired Dec. 31, 1978, but Colvard did not leave education behind. He helped build two other institutions: the School of Science and Mathematics at Durham and the hands-on museum Discovery Place. He died June 28, 2007.

Today, Colvard is home to the Departments of Communication Studies, Criminal Justice and Criminology, and Psychological Science; Public Policy program; Office of Undergraduate Education; University Advising Center; University College; Distance Education; Academic Diversity and Inclusion; Summer School; University Center for Academic Excellence; and the Urban Institute.

Cone University Center
Since first opening its doors in 1962, the Cone University Center has been a gathering place for students, faculty, staff, administrators, alumni and guests. As such, it is fitting that the facility bears the name of Bonnie Ethel Cone, the beloved mathematics teacher and visionary administrator who, perhaps more than anyone else, is credited as UNC Charlotte’s founder.

Born June 22, 1907, in Lodge, S.C, “Miss Bonnie,” as she was affectionately called, taught high school in South Carolina for 12 years before moving to Charlotte’s Central High School in 1940. During World War II, she taught math to men enrolled in the navy’s V12 program at Duke University, and she spent a year working as a statistical analyst for the Naval Ordnance Laboratory in Washington, D.C.

Cone’s background made her the perfect person to head one of the new extension centers established in the late 1940s to serve returning war veterans.

Cone directed the Charlotte Center and signed on as a part-time instructor in engineering and math.

Always a firm believer that Charlotte needed a public university, Cone was determined to see one built in the Queen City. She helped turn the temporary veteran’s center into a permanent two-year college. In 1963, she played a key role in convincing the North Carolina General Assembly to make Charlotte College a part of the University of North Carolina system. On July 1, 1965, Bonnie Cone stood beside Gov. Dan Moore to ring the bell announcing the official creation of the University of North Carolina at Charlotte.

“Miss Cone has provided the faith on which the college many times found its primary ability to exist,” said J. Murrey Atkins in a tribute. “She has stuck with it and never even thought of giving up when sometimes the sledding seemed pretty hard.”

Cone served as acting chancellor for nine months and remained committed and loyal to UNC Charlotte. She served as vice chancellor for student affairs and community relations until she retired in 1973. On June 29, as part of her retirement service, the UNC Charlotte Board of Trustees named the University Center in her honor. In retirement, Cone continued to raise money and support the University until her death in 2003.

Denny
In 1965, a new campus facility designed by Odell Associates was completed at a cost of $569,000. Five years later, the building was dedicated in honor of Mary Rebecca Denny, chair of the UNC Charlotte English Department for 14 years.

Denny was born on Aug. 12, 1896, on the family farm near the small town of Red Springs, N.C. She attended Salem College and taught English in several public schools in eastern North Carolina after completing her bachelor’s degree.
in 1917. She went on to earn a master’s degree from Duke University and become associate professor of English at Queens College. She left Queens in 1946 to become the first full-time faculty member at the Charlotte Center of the University of North Carolina (now UNC Charlotte).

Although the Charlotte Center was created to serve in an emergency situation, Denny believed that it would eventually provide more than a temporary opportunity for its students. She was right as the Charlotte Center became Charlotte College, one of the first two-year community colleges in North Carolina, in 1949.

During the next 15 years, Denny completed an impressive list of initiatives, including the creation of the college newspaper, the literary magazine and the college catalog. When Charlotte College became a four-year institution, Denny relinquished her role as department head, but she remained active with the Curriculum Committee. She retired in 1964, with the distinction of being the institution’s first professor emeritus.

At the October 9, 1970, dedication ceremony naming what was then the largest classroom building in her honor, UNC Charlotte trustees enthusiastically paid tribute - “We transform glass, steel and stone into a monument to your spirit – forthright, steadfast, energetic and humanitarian. May this building forever serve as a reminder of your commitment to the ideals of sound scholarship, integrity and excellence.”

Following her retirement, Denny returned to her family home in Red Springs, where she resided until her death in 1979.

The Denny building is one of the five buildings that make up the original quad of UNC Charlotte.

**Dubois**

With the retirement of UNC Charlotte’s fourth chancellor in 2020, the University’s Center City Building was renamed The Dubois Center at UNC Charlotte Center City (The Dubois Center) to recognize Chancellor Philip L. Dubois and First Lady Lisa Lewis Dubois. The building is regarded as a centerpiece to Dubois’ 15-year term as chancellor.

Dubois’ career in higher education spans more than 40 years. As a first-generation college student, he earned a bachelor’s degree in political science in 1972 from the University of California, Davis, and a master’s (1974) and doctoral (1978) degree in political science from the University of Wisconsin-Madison. Dubois returned to the University of California, Davis, to start his career in academia as an assistant professor, rising through faculty and administrative ranks to hold various positions, including full professor and associate vice chancellor for academic programs.

In 1991, Dubois was recruited to UNC Charlotte, where he spent five and a half years as provost and vice chancellor for academic affairs. Under his leadership, UNC Charlotte planned and implemented its first doctoral programs. He led the creation of a strategic academic plan, which included creating programs to reach more nontraditional students, recognizing that as an important goal for an institution founded to educate veterans.

In 1997, Dubois left UNC Charlotte to become president of the University of Wyoming, where he led the development and implementation of comprehensive academic, support services and capital construction plans, expanded the University’s role in statewide economic development, and improved student recruitment and retention.

In 2005, Dubois returned to UNC Charlotte and was named chancellor. During his 15-year tenure, he led the University through a 43% growth in enrollment, an expansion of academic programs, the implementation of diversity-related initiatives, growth in research funding and the construction and renovation of campus facilities. He increased the University’s visibility in the Charlotte region and beyond, with undergraduate enrollment reaching nearly 30,000 under his leadership, led the largest facility construction and renovation program in UNC Charlotte’s history, and under Dubois’ strategic direction, football was added to the University’s athletics offerings in 2013.

Dubois collaborated with elected officials and the Charlotte Area Transit System to make possible the construction of the light rail line from Center City Charlotte to the UNC Charlotte campus, increasing the connection and opportunities for partnership between the University and the rest of the city. He oversaw the implementation of new academic degree programs – 10 bachelor’s, 17 master’s, and 12 doctoral – and established or helped in the development of new offices to support students. To reach more non-traditional students, Dubois implemented the award-winning 49er Finish program, which helps students who left the University to complete their degrees, and partnered with Central Piedmont Community College to launch the 49erNext program, which creates a clear path for community college students to enroll at UNC Charlotte. Dubois worked with Charlotte Mecklenburg Schools to create two early colleges at UNC Charlotte, one for students interested in STEM fields and another for those interested in teaching.

The Dubois Center opened in Fall 2011 and is the only University of North Carolina classroom building conceived and designed specifically to serve the business, organizations, and people of an urban center. Its 25 state-of-the-art classrooms and design studios accommodate more than 1,300 students annually who earn bachelor’s or master’s degrees in business, architecture, urban design, education, public administration or health administration, plus about 2,600 more who participate in certificate and
other continuing education options. In addition, The Projective Eye Gallery, located near the lobby, regularly exhibits the work of artists known locally, nationally and internationally.

Duke Centennial
Duke Centennial Hall was dedicated on September 8, 2006, in honor of Duke Energy’s century of service and its commitment to leadership for the future.

Duke Energy’s history in the Carolinas dates back to 1904, when its first power station was built on the Catawba River. Cheap hydroelectric power helped transform the regional economy from agriculture to manufacturing.

In the 21st Century, our economy continues to change. Duke Energy partnered with UNC Charlotte to help establish the Charlotte Research Institute to advance technology, foster innovation, and drive economic growth in our region.

Duke Centennial is home to the College of Engineering and Department of Mechanical Engineering and Engineering Science.

Fretwell
The E.K. and Dorrie Fretwell Building honors the campus contributions of UNC Charlotte’s second chancellor and his wife.

At the time of its dedication on May 23, 1996, the 162,000-square-foot facility was the largest academic structure on campus. It contains approximately 250 faculty offices and classroom seating for about 2,100 students. Built for $18 million, the four-story facility was constructed with revenues from a bond issue approved by North Carolina voters in a November 1993 referendum.

The son of two teachers, E.K. Fretwell was born in New York City. He earned a bachelor’s degree at Wesleyan University, a master’s in teaching from Harvard University and a doctorate from Columbia University. An Associated Press correspondent, writer for the American Red Cross, vice consul for the American Embassy in Prague and middle and high school teacher, Fretwell entered education administration in 1956 as assistant commissioner for higher education for the New York State Board of Regents. He also served as dean for academic development at the City University of New York and president of the State University of New York College at Buffalo. In addition, he was president of the American Association for Higher Education and chair of the Carnegie Foundation for the Advancement of Teaching.

A national leader in education, Fretwell became UNC Charlotte’s second chancellor in January 1979. At the time, the University’s enrollment was around 8,700 students. By his retirement in June 1989, UNC Charlotte’s enrollment topped 13,000.

During his tenure, Fretwell merged the College of Humanities, Social, and Behavioral Sciences and College of Science and Mathematics into the College of Arts and Sciences (now the College of Liberal Arts & Sciences) and created the Graduate School. Besides enhancing UNC Charlotte’s national reputation for educational excellence, Fretwell increased the institution’s links to the community through the expansion of the Urban Institute and University Research Park, the development of University Place and establishment of the C.C. Cameron Applied Research Center.

Throughout his career, Fretwell relied upon his wife Dorrie; he was quoted often as saying they were a team. Born in Chicago, Dorrie Shearer Fretwell grew up in Evanston, Ill. She earned bachelor’s and master’s degrees in applied music at Drake University. Before her marriage, Fretwell studied voice at the American School of Music in Fontainebleau, France, and began her career as a professional soprano, performing as a soloist with choral societies, musical clubs and opera productions on stage and television. During her husband’s tenure in Buffalo, Fretwell served as vice chair of the board of the Buffalo Philharmonic Orchestra and vice president of the Girl Scouts. In Charlotte, she was on the board of Opera Carolina and the Charlotte Symphony. Among the initial enrollees of UNC Charlotte’s graduate program in clinical psychology, she was its first graduate. She went into practice with Carolina Psychological Services and published a number of articles related to
depression and headache management before retiring in 1996. She passed away December 30, 2011.

At the University’s formal ceremony to dedicate the E.K. and Dorrie Fretwell Building, Allan Ostar, president emeritus of the American Association of State Colleges and Universities, noted “as a magnificent center of learning, it is a fitting tribute to a towering educational leader.”

Today, Fretwell is home to the College of Liberal Arts & Sciences; Departments of English, Mathematics and Statistics, Political Science and Public Administration, and Sociology; American Studies, Liberal Studies, and Women’s and Gender Studies programs; and Disability Services.

Friday
The Ida and William Friday Building houses the Belk College of Business, and it honors the many contributions of William C. Friday to the University of North Carolina system.

Born in Raphine, Va., Friday grew up in the Gaston County town of Dallas, where he played baseball and basketball. He attended N.C. State University, graduating with a bachelor’s degree in textile manufacturing. As a senior, Friday met Ida Howell from Lumberton who was pursuing a bachelor’s degree in home economics at Meredith College. They married on May 13, 1942, and Bill Friday continued his education at UNC-Chapel Hill where he earned a law degree. Ida Friday also furthered her studies, obtaining a master’s in public health from UNC-Chapel Hill.

Friday spent the majority of his career in higher education. He was assistant dean of students at UNC-Chapel Hill, assistant to the president of the Consolidated University of North Carolina and secretary of the University of North Carolina. At age 36, Friday was named acting president of the UNC system. He would lead the system until 1986. During his tenure, he became recognized as one of America’s most respected and effective educational leaders. Through the 1963 Higher Education Act, Friday redefined the purpose of each institution of the UNC system (at the time, UNC-Chapel Hill, N.C. State University and UNC Greensboro; UNC Charlotte become the fourth member of the system in 1965). In 1972, he reorganized the entire system which had grown to include 16 campuses (now 17 after the addition of the N.C. School of Science and Mathematics).

On more than one occasion, Friday noted his achievements could not have been possible without his wife, Ida. He said, “It took two of us to do this.” As “first lady” of the UNC System, Ida Friday was active in community service, including president of the Chapel Hill Preservation Society, member of the board of the North Carolina Symphony Society, chair of the YMCA and YWCA at UNC-Chapel Hill and a member of the League of Women Voters.

Dedicated in 1982, the Friday Building incorporated the best classroom designs for teaching future business leaders for its time. UNC Charlotte faculty and staff, along with the architect, visited a number of institutions recognized for having leading business programs, including Harvard University, the University of Virginia and the University of Tennessee. The Friday Building’s classrooms are modeled after the case classrooms pioneered at the Harvard Graduate School of Business.

The 64,000-square-foot building was designed to accommodate a third floor, which was constructed in 1994-95 using $3 million from a state bond referendum approved by voters in 1993. Changes in the building code required the University to make the facility more earthquake resistant. The columns that grace Friday Building contribute to its distinctive look; they were added during the expansion at the suggestion of Chancellor Emeritus Jim Woodward.

Several other UNC institutions have honored the Fridays with buildings on their campuses, including N.C. State University (the William and Ida Friday Institute for Educational Innovation), UNC-Chapel Hill (the William and Ida Friday Center for Continuing Education) and UNC Wilmington (Friday Hall).

Today, Friday is home to the Belk College of Business and its academic departments and programs.

Gage
The Gage Undergraduate Admissions Center opened for the Fall 2019 semester. The two-story, 18,000-square-foot building welcomes prospective students and their families to campus. Additionally, the Center is home to the Office of Undergraduate Admissions and serves as the starting point for campus tours. This facility was made possible through an estate gift by the late Dr. Lucius G. Gage, Jr.
Dr. Gage was a Charlotte physician and a major benefactor to UNC Charlotte. He passed away in September 2011. He was educated in the Charlotte city schools and entered Duke University for his undergraduate degree after his junior year in high school. He then went on to Duke Medical School where he was recognized for exemplary performance. He completed his residency at the University of Virginia. Gage returned to Charlotte to practice medicine at the Nalle Clinic with his father, the late Dr. Lucius G. Gage, Sr., a founding partner, assuming the Director position in the Allergy and Arthritis Department.

Garinger
Elmer Henry Garinger was one of the visionary leaders who helped Charlotte College realize the dream of becoming a four-year, state-supported institution.

As superintendent of Charlotte City Schools, Garinger employed Bonnie Cone, UNC Charlotte founder, as a mathematics teacher at Central High School. Later, he would name her director of the Charlotte Center of the University of North Carolina, the institution that ultimately became UNC Charlotte.

Born July 13, 1891, in Mount Vernon, Mo., Garinger graduated from the local high school and continued his education at the University of Missouri. He completed a bachelor’s degree in 1916, and eventually, he earned a master’s degree and doctorate from Columbia University.

During his 40-year career with Charlotte City Schools that began in 1921, Garinger gained a national reputation as a leader in education. In 1949, he was named superintendent of Charlotte City Schools, and he took the lead in planning for the consolidation of the Charlotte and Mecklenburg County school systems, a goal achieved in 1959. Garinger served for a year as superintendent of the new system, retiring as superintendent emeritus.

Garinger’s association with UNC Charlotte continued throughout his life. He was instrumental in requesting the Charlotte Center be founded, and he was among the Charlotte leaders who worked to change the Charlotte Center to Charlotte College in 1949. When the institution was placed under the community college system in 1958, Garinger was named secretary of the first Board of Trustees of the Charlotte Community College System; he served in this capacity until 1963, when Charlotte College became a four-year, state-supported institution.

After retiring from the Charlotte-Mecklenburg Schools, Garinger worked to improve public education as a member of the N.C. House of Representatives, where he served two terms. In honor of Garinger’s service to public education and the University, UNC Charlotte’s Board of Trustees voted to name the first faculty building, constructed in 1965, in his honor. The Elmer Henry Garinger Building was dedicated in October 1970; a portrait of Garinger that hangs in the building was dedicated in March 1987.

He died in Charlotte on August 21, 1982.

The Garinger building is one of the five buildings that make up the original quad of UNC Charlotte. Today, Garinger is home to the Departments of Africana Studies and History.

Grigg
Dedicated on Sept. 8, 2006, William H. Grigg Hall is home to a number of Charlotte Research Institute offices and facilities, including the Center for Optoelectronics and Optical Communications.

Named for the chair emeritus of Duke Energy, Grigg Hall is a 96,820-square-foot, state-of-the-art academic and research facility. In 2002, the Duke Energy Foundation announced a $10 million gift to the University’s capital campaign in support of Charlotte Research Institute programs and initiatives. Construction of Grigg Hall began in 2003 with funding from the state’s $3.1 billion bond referendum approved by North Carolina voters in 2000.

During Grigg’s tenure with Duke Power, he guided the corporation through some of the most challenging times in the electric utility industry. He helped expand and diversify the company’s power plants and led the company’s response to competition, including the merger with PanEnergy in 1997 to create Duke Energy. Grigg was named Electric Utility CEO of the Year for 1995 by Financial World magazine.

Committed to civic leadership and quality education, Grigg has served countless community groups, including the Charlotte-Mecklenburg Hospital Authority, Foundation for the Carolinas and the Lynwood Foundation. In honor of his contributions to Charlotte and the greater community, Grigg Hall is named in his honor.
community, UNC Charlotte awarded Grigg an honorary doctorate of public service in December 1997.

The architectural firm of Perkins-Will, which has offices nationwide, designed Grigg Hall. Constructed for roughly $24 million, Grigg Hall features a 3,000-square-foot clean room, a controlled environmental space used for research and manufacturing. Clean, contamination-free rooms are used in various research settings – electronics and optics, as well as pharmaceuticals and DVD manufacturing.

Today, Grigg is home to the Department of Physics and Optical Science and Charlotte Research Institute.

Johnson

The Vickie and Gene Johnson Marching Band Center is home to the UNC Charlotte “Pride of Niner Nation” Marching Band.

The 6,700 square foot building houses a conference room, music library and four offices for the band staff. It also includes a storage room for drumline and colorguard equipment, as well as ample space to store musical instruments and uniforms for the entire marching band. The band began performing in Fall 2015 with 145 members, but will eventually grow to include 300-350 members.

Johnson Band Center (JBC) was designed by the award-winning architecture firm Watson Tate Savory. The design reflects the architectural characteristics of Storrs Hall and Robinson Hall, and the building serves as an architectural landmark for patrons going to and from events in the College of Arts + Architecture.

Johnson Band Center is one of a few buildings in the nation dedicated exclusively to a marching band.

Kennedy

The W.A. Kennedy Building was one of the first two facilities on campus. Designed by A. G. Odell Jr., the architect of Ovens Auditorium and Bojangles Coliseum, the building was named for Woodford A. “Woody” Kennedy. Sometimes called the “spiritual father of Charlotte College,” Kennedy was a member of the first advisory board of the institution in 1947. He was named to its eight-member board two years later. Without Kennedy’s perseverance, Charlotte College likely would have remained a two-year community college.

Kennedy believed that Charlotte deserved and needed a great university. He stated that a thousand additional high school graduates could go to college each year if the opportunities available in other parts of the state were available in Charlotte. With a zeal he once termed an obsession, Kennedy worked tirelessly to raise money and support to make that happen.

He encountered a lack of support among many of Charlotte’s business executives and disinterest from politicians. His rhetoric sometimes became strident, characterizing critics of the project as naysayers and deriding the state’s support as a ‘sop.’

At the time, the school operated with a part-time faculty who taught in part-time classrooms, and it was financed almost entirely by tuition paid by student loans until Kennedy pushed for and obtained the initial state funding in 1955.

As a member of the college’s site selection committee, he searched for a scenic location with room for growth and expansion; the committee ultimately settled on the present location of the UNC Charlotte campus. He told reporters, “I may not but you will live to see 10,000 students at Charlotte College.”

The statement proved prophetic. Kennedy died on May 11, 1958, the eve
of his installation as a trustee of Charlotte Community College. But his contribution was not forgotten. The trustees proposed that the first building on the new campus be named for him. The building was dedicated on Feb. 16, 1962.

When Kennedy Building first opened, it housed science laboratories (chemistry, physics, biology and geology), as well as labs for a variety of engineering courses. There were 10 classrooms, 12 faculty offices and a lecture room with elevated seating for 100. The building also served as a temporary library; its first floor contained 18,000 volumes while Atkins Library was being built.

Today, Kennedy houses the Center for Teaching and Learning and Information Technology Services.

King
Arnold K. King may be one of the few individuals to have a building named in his honor on two UNC system campuses. Ten years before UNC Charlotte dedicated the King Building for him, UNC Wilmington put King’s name on an administrative and classroom building. Such an honor is an indication of the vital role King played throughout the UNC system.

From his days as a student at UNC-Chapel Hill in the 1920s until his retirement as special assistant to UNC President William Friday, King was an integral part in the development of the University of North Carolina system. After receiving his bachelor’s degree, he continued his education at the University of Chicago, completing a master’s and doctorate. Returning to Chapel Hill, King served as a professor, graduate school administrator, head of summer sessions and vice president. He also was as acting chancellor for UNC Asheville in 1977.

King participated in a number of education-related study commissions, panels and boards across North Carolina and around the country. UNC President Friday and King were colleagues for more than 20 years. The UNC leader turned to King for his assessment when planning for the system’s future. King served as a liaison between Friday and Charlotte College during the institution’s transition to becoming the University of North Carolina at Charlotte. He later played the same role for UNC Asheville and UNC Wilmington.

In addition to his long service to the UNC system, King was one of the founders of N.C. Wesleyan College, and he was considered an expert on the history of the UNC system. In retirement, he wrote “The Multi-campus University of North Carolina Comes of Age: 1956-1986,” a historical bibliography of his three decades working in the system. He finished a 20-page manuscript on UNC’s University Day celebration just two days before his death.

The architectural firm of Odell Associates Inc. designed the building, which was constructed by F.N. Thompson Inc. in 1966 at a cost of $603,000. The King Building was originally named for Addison Hardcastle Reese. It was renamed for King following the dedication of Reese Building, which opened in 1982. Dr. King passed away on March 31, 1992, at the age of 90. A resolution in his memory noted, “Our University lost a part of its memory and conscience, and it lost a great friend.”

Today, King is home to the Dean of Students Office, Human Resources, Office of the Registrar, SOAR, and Student Affairs.

Macy
The Macy Building was one of the first two facilities constructed on the UNC Charlotte campus. It was named for Pierre Macy, professor of French and chair of the then Foreign Language Department. The 18,000-square-foot research and instructional facility was constructed concurrently with the Kennedy Building by Odell Associates in 1961 at a cost of $418,000.

Macy was born in France in 1899 and received degrees from the University of Nancy, the University of Dijon, and the University of Paris before making the United States his adopted home.

The noted author and translator arrived at Charlotte College in 1949 and almost single-handedly established and maintained the fledgling college’s Foreign Language Department (now the Department of Languages and Culture Studies).

Before joining the faculty of Charlotte College, Macy was chair of the Romance Language departments at Kentucky Wesleyan College, the University of Tulsa and the College of William and Mary. He returned to his alma mater, the University of Nancy, for one year as a visiting professor.

An integral faculty member of the college, Macy served on the curriculum committee, chaired the concerts and lectures committee, advised the French Club and later served on the University’s executive committee.

Students held Macy in such high regard that the 10th edition of the yearbook was dedicated to him in 1960 “for his deep understanding, patient guidance and personal interest in the students of Charlotte College. He has inspired us to greater achievements through his teaching and counseling, and he will be fondly remembered in our memories of
Macy served as the first commencement marshal for the newly established University. His dedication to UNC Charlotte went well beyond any specific position he held. He taught French three years after relinquishing the department chairmanship and stayed on the faculty two years after he reached retirement age.

At his 1969 retirement, he received the rare honor of being named a faculty emeritus from his colleagues. "The Foreign Language Department, carefully constructed by Dr. Macy over the years was clearly one of the solid blocks of the foundation of the new institution," read the tribute. He is further remembered today with the Pierre Macy Award for Excellence in French.

The Macy building is one of the five buildings that make up the original quad of UNC Charlotte. Today, Macy is home to the Department of Global Studies and Department of Religious Studies.

**McEniry**

Built to house the University’s earth and life sciences programs, the McEniry Building is named for UNC Charlotte’s first vice chancellor for academic affairs, William Hugh McEniry. The $4 million, 103,000-square-foot facility was completed July 7, 1975, to house the Departments of Geography and Earth Science and Biology.

Chancellor Dean Colvard hired McEniry (pronounced My-Canary) in 1967; Colvard was searching for a top-notch administrator with an arts and sciences background. Based upon numerous recommendations, Colvard recruited McEniry away from Stetson University where he had spent 27 years and served as a university dean. Ready for a new challenge, McEniry and his wife, Mary, relocated to North Carolina and settled into a 17-acre plot of land between the University and Huntersville they dubbed “Rural Simplicity.”

McEniry is credited with recruiting dedicated and talented faculty to UNC Charlotte, and he was active in a number of organizations, such as the North Carolina Association of Colleges and Universities and the College Entrance Board. He also served as president of the Southern Association of Colleges and Schools.

Dedicated to improving higher education for blacks, McEniry served as a trustee of Johnson C. Smith University. In addition, he personally financed scholarships for some black students and worked with the Ford Foundation to improve academics and the curricula for historically black colleges.

In 1973, McEniry agreed to serve as acting chancellor at Western Carolina University in Cullowhee until a permanent chancellor was hired. He passed away on March 15, 1974, at the age of 57.

The McEniry Building is just one lasting tribute to the University’s pioneering vice chancellor. Each year, a member of the graduating class with the highest GPA receives the W. Hugh McEniry Award for Academic Excellence. The North Carolina Association of Colleges and Universities named its top honor for the trailblazing educator - the Hugh McEniry Award for Outstanding Service to North Carolina Higher Education. Following McEniry’s death, Stetson University established the McEniry Award, a prestigious honor given a professor as selected by faculty members and students.

Today, McEniry is still home to the Department of Geography and Earth Sciences.

**Memorial Hall**

Memorial Hall is dedicated to fallen U.S. veterans. The building houses the Departments of Military Science (Army ROTC) and Aerospace Studies (Air Force ROTC). It serves as a memorial to commemorate UNC Charlotte students who have served in any branch of the Armed Services and lost their lives in service to the country.
Popp Martin Student Union

The UNC Charlotte Student Union originally opened its doors in 2009 as the community center of the University. On any campus, the union serves students, faculty, staff, alumni, and visitors. It provides services and conveniences that members of the college community need in their daily lives and creates an environment for getting to know and understand others through formal and informal associations. It was renamed the Karen A. Popp and Demond T. Martin Student Union in 2016 to honor the dedication and service of two extraordinary alumni, Karen Popp (’80) and Demond Martin (’97).

Karen A. Popp was born in North Carolina, but moved often because of her father’s successful career as a high school, college, and NFL football coach. Karen graduated cum laude from UNC Charlotte in 1980, then attended Oxford University in England on a Rotary International Scholarship where she studied law and rowed for her college. She then attended law school at UNC Chapel Hill, serving as an editor on the North Carolina Law Review, becoming a member of the Order of the Coif and graduating cum laude. She has had an exemplary career as an attorney in private practice and the government. Karen clerked for the Honorable Sam J. Ervin, III of the U.S. Court of Appeals for the Fourth Circuit, moved to New York City where she was a Wall Street lawyer at Sullivan & Cromwell, and then an Assistant U.S. Attorney in the Eastern District of New York. She moved to Washington, D.C. to serve in the Office of Legal Counsel at the U.S. Department of Justice, as Associate White House Counsel for President Bill Clinton and as a partner in the international law firm of Sidley Austin, where she led the White Collar corporate defense practice and was a member of the firm’s Executive Committee. Karen has received numerous professional awards, honors, and recognitions for being one of the best lawyers in the world and a trailblazer for women.

In part due to the UTOP experience, Demond came to campus with a sense of who he wanted to become, and was involved in leadership activities from the moment he arrived. He became SGA president as a sophomore — an unprecedented event at UNC Charlotte at the time. He also joined Alpha Phi Alpha fraternity, Mu Tau chapter and would serve as chapter president. In honor of his skill as an orator, the Chapter established the annual Demond T. Martin Oratorical contest. He would go on to win numerous awards and distinctions, but one of his most gratifying experiences was to be part of a group of student leaders who escorted Ms. Rosa Parks through the city of Charlotte to address students and to inspire a call to action. Demond received his Bachelor of Science degree in Accounting in 1997, having left a mark on the campus, both students and faculty alike.

PORTAL

The Partnership, Outreach, and Research to Accelerate Learning (PORTAL) building, which opened in February 2014, demonstrates UNC Charlotte’s commitment to foster partnerships with private industry. Designed to stimulate business growth and job creation along with promoting research and innovation and supporting the entrepreneurial ecosystem of the Charlotte region, PORTAL is a venue where entrepreneurs can collaborate with peers, faculty members, and students to harness the power of a research university to plan strategies that lead to business success.

PORTAL is outfitted with over 90,000 square feet of floor space dedicated to business innovation and partnership with front door access to the exceptional resources, facilities, and academic talent found on the UNC Charlotte campus. The building has a contemporary aesthetic and 4-story atrium bound by office suites, meeting rooms, and a cafe. Business tenant offices and suites start at about 200 square feet and are expandable as required. An abundance of naturally lit community gathering spaces – including glass enclosed meeting rooms located on two atrium transecting bridges – facilitate networking and idea exchange. Business tenants have access to any of PORTAL’s four meeting rooms on a scheduled basis.

Reese

Around Charlotte, Addison Hardcastle Reese is probably better known as a titan of the banking industry rather than for his passionate commitment to UNC Charlotte.

Born in Baltimore County, Md., on Dec. 28, 1908, Reese attended Johns Hopkins University but left after his junior year to begin his lifelong career in banking. He worked as a clerk, a senior national bank examiner and a bank vice president all before serving in the U.S. Air Force during World

Demond Martin spent his childhood in Columbus, Ohio, and Inglewood, California; but spent many of his most formative years in Mocksville, North Carolina. Demond was thrilled to be admitted into UNC Charlotte, immediately felt at home from his first visit. Coming from a small town, he fell in love with the campus and reveled in the opportunity to interact with students from such varied backgrounds. He took part in many campus activities, but it was his participation in the University Transitions Opportunity Program (UTOP) that introduced him to Dr. Herman Thomas, who became a lifelong mentor and challenged Demond to become a person of consequence — not for its own sake, but to best position himself to serve others.
Reese returned to banking after the war and was recruited to Charlotte in 1951 as executive vice president of American Trust Company. He was promoted to president in 1954 and organized a series of mergers that became the North Carolina National Bank, which has since evolved into the Bank of America. He also served on the board of the Federal Reserve and as a director of the International Monetary Conference.

Named to the Board of Advisors of the Charlotte Community College System in 1957, Reese was later elected to the college’s Board of Trustees. He chaired the Charlotte College Site Committee and worked with University founder Bonnie Cone and Pete McKnight to choose UNC Charlotte’s current location.

In 1963, Reese was appointed vice chair of the Charlotte College Board of Trustees and took over as chair following the death of J. Murrey Atkins. He spent a year as a member of the North Carolina Legislative Study Commission on Student Financial Aid and was a member of the UNC Charlotte Foundation.

In 1968, UNC Charlotte awarded its first honorary degrees. One went to Reese and the other went to Frank Porter Graham, former University of North Carolina president, U.S. senator and United Nations mediator.

Reese’s award recognized him as “a man of vision, who foresaw a university of excellence, where those of lesser vision saw only a struggling community college.”

The North Carolina Citizens Committee presented Reese with the 1974 Distinguished Citizenship Award. Reese also served on the boards of trustees for both the University of North Carolina and UNC Charlotte, serving as the chair of the latter from 1972 until his death in 1977.

Like the Colvard Building, the Reese Administration Building was designed by Harry Wolf of Wolf Associates. It was completed in 1982, and is named in Reese’s honor.

---

Robinson Hall for the Performing Arts is a state-of-the-art venue that affords the campus and the community access to a slate of contemporary and classical dance, music and theater offerings.

Named for Russell and Sally Dalton Robinson, the three-story, 118,000-square-foot facility contains classrooms, offices and performance and rehearsal spaces for the departments of dance, music and theatre. It was built and equipped for $28 million, financed through the statewide bond referendum approved by voters in 2000.

The hall’s first floor houses a 332-seat proscenium theater, which includes a 23-seat orchestra pit. The theatre has a 3,500-square-foot stage equipped with 18 trapdoors, a curtain 26 feet high and a 60-foot fly-loft for storing and changing scenery. There also is the Black Box Theatre. Throughout the building are rehearsal rooms and labs for costume, scenery and lighting design.

The Robinsons are both Charlotte natives, and they are considered among the most admired and effective community leaders. In addition to leadership roles at Christ Episcopal Church, they have supported professional, educational and charitable institutions, arts and cultural organizations and economic development services.

Russell Robinson II is founding partner of one of North Carolina’s largest law firms - Robinson, Bradshaw and Hinson. According to an article in the Charlotte Observer, Robinson majored in English at Princeton University but transferred to Duke University after two years. He went on to obtain his law degree from Duke in 1956. His firm has represented numerous businesses and organizations, including Belk Store Services Inc., the Duke Endowment, Duke Power and the Charlotte Housing Authority. His book “Robinson on North Carolina Corporation Law” is considered a necessity for any aspiring Tar Heel corporate lawyer.

A member of the UNC Charlotte Board of Trustees from 1987-97, Robinson served as chair for eight years. During his board tenure, Robinson was regarded by observers as a “quiet power” for the University; he focused on increasing public and private funding and obtaining UNC system authorization for doctoral degrees beyond joint Ph.D. programs.

In addition to his role as a trustee, Robinson was a director of the UNC Charlotte Foundation. He also has been a trustee of the Duke Endowment and chair of Duke University’s Board of Trustees.

Sally Dalton Robinson attended public schools in Charlotte, St. Mary’s School in Raleigh and Duke University. She was a member of Phi Beta Kappa and earned a bachelor’s degree in history. Among her many civic contributions, she served as an integral founding member of the Levine Museum of the New South and the St. Francis Jobs Program (now the BRIDGE Jobs Program). She also was on the board of the Charlotte
Symphony, the Arts and Science Council, McColl Center for the Visual Arts as well as other religious, charitable and economic organizations.

Dedicated November 3, 2004, Robinson Hall was designed by the Charlotte architectural firm of Jenkins Peer, Skanska and R.J. Leeper were general contractors, while the firm Biemann and Rowell was the mechanical contractor. Port City Electric served as the electrical contractor; the hall’s lighting and acoustical controls were among the most sophisticated in modern theater design at the time of construction.

Today, Robinson Hall is home to the Departments of Dance, Music, and Theatre; the Anne R. Belk Theater; and the Lab Theater.

Rowe
The Oliver Reagan Rowe Arts Building honors one of UNC Charlotte’s founding fathers. Completed in 1971, the 75,000 square-foot facility was constructed to house the then departments of Performing and Visual Arts. The building’s focal point is an eight-sided theatre that seats 350. It also includes a recital hall, classrooms, offices, practice rooms and a large lobby-gallery.

Rowe was born Dec. 12, 1902, in Newport, Tenn. He and his wife Maria would become avid supporters of the Charlotte arts community and UNC Charlotte. Rowe’s family moved to Charlotte when he was a child. After graduating from Central High School, Rowe attended UNC-Chapel Hill, where he completed a bachelor’s degree in electrical engineering. He returned to Charlotte and began work with the R.H. Bouligny engineering firm. He eventually became president of R.H. Bouligny Inc., Powell Manufacturing Co. and Powell Agri-Systems Ltd.

In the 1950s, Rowe supported consolidation of city and county schools, which won him the Charlotte News “Man of the Year Award” in 1958. That same year, Gov. Luther Hodges appointed Rowe to the first Board of Trustees for the Charlotte Community College System. He chaired the board’s finance committee, and he was instrumental in soliciting the largest single gift to the-then Charlotte College Foundation (now the Foundation of the University of North Carolina at Charlotte).

Between 1961 and 1963, Rowe made numerous speeches championing the cause of higher education for the Charlotte region. In 1964, the Charlotte Civitan Club presented its Distinguished Citizenship Award in recognition of Rowe’s efforts on behalf of the University.

During the rest of the 1960s, Rowe continued to find new causes for his leadership. A long-time music lover, Rowe began to support the opera and symphony. Eventually, he was elected president of the Charlotte Symphony Orchestra Society, and in 1973, he established, nurtured and financially supported the “Rowe String Quartet” at UNC Charlotte.

In 1987, Rowe was awarded an honorary Doctor of Human Letters. The citation reads in part that “Oliver Reagan Rowe Sr. was a founding father of the University of North Carolina at Charlotte. He helped to dream the dream and to make it come true ... With his vision, he painted a picture of a major state university when others around him saw only the two-year college then existing.”

Today, the Rowe Building is home to the Department of Art and Art History.

Smith
The Sheldon Phelps Smith Building honors an individual whose foresight helped to chart UNC Charlotte’s educational course.

Smith, vice president and general manager of the Douglas Aircraft Company’s Charlotte Division, served as a trustee of Charlotte College from 1958 to 1965. He is credited with bringing an engineering program to the institution. Through his generosity, Douglas Aircraft Co. engineers taught at Charlotte College on a released time basis; as many as nine part-time instructors from Douglas were in service at one time.

Born in Redlands, Calif., on March 26, 1910, Smith graduated from Pomona College in 1932 with a bachelor’s degree in physics. During World War II, he served as a lieutenant with the Engineering Division of the Navy Bureau of Aeronautics and was assigned to the missiles branch. Following the war, he was a missile project engineer with the Douglas Aircraft Co. Prior to moving to Charlotte, he
was an assistant design engineer for missiles at the company’s Santa Monica facility.

In addition to starting the University’s engineering program, Smith is credited with bringing graduate courses in mathematics and physics to the then Charlotte College through a cooperative agreement with N.C. State University.

As an advocate for the college, Smith once said, “If we marry the manpower development of this Charlotte College area of some 1 million people to the tremendous demand of technical industries for engineers and scientists, we will accomplish two ends: to help satisfy the great national requirements for engineers and scientists and to improve the usefulness and economic standards of the residents of North Carolina.”

Smith left Charlotte to become vice president of Douglas Aircraft and vice president of Douglas United Nuclear Corp. in Hanford, Wash. He died April 28, 1966.

The Smith Building, completed in 1966, was originally called the Engineering Building. The 71,000 square-foot, $1.6 million facility was the largest classroom and laboratory building on the campus at the time. When finished, it housed the Computer Center, Mathematics Department, the Geography and Geology Department (now Department of Geography and Earth Sciences) and the Engineering Program.

UNC Charlotte dedicated the building in honor of Smith on Dec. 15, 1968, in a ceremony held in the Cone University Center. The Smith family presented a portrait of the building’s namesake to be placed in the facility.

87,000-square-foot facility features a complex roof design, natural and artificial lighting systems, double helix stairs and exposure of structural and environmental systems. Home to the School of Architecture in the College of Arts and Architecture, Storrs Building is appropriately named for an individual who dedicated himself to helping build the University.

Storrs, born in 1918, dropped out of high school during the Great Depression. At the age of 15, he began work as a clerk at the Federal Reserve Bank of Richmond, Va. He would later resume his formal education, enrolling in the University of Virginia, where he completed undergraduate studies. He earned a master’s degree and doctorate in economics from Harvard University.

Originally from Nashville, Tennessee, Storrs joined the then North Carolina National Bank (NCNB) in 1960 as executive vice president. He would later serve as one of the architects who laid the foundation for NCNB to emerge as NationsBank (now Bank of America). Following the retirement of Addison Reese, Storrs became chair and CEO, and he would follow his predecessor’s example as a member of the UNC Charlotte Board of Trustees for nearly 12 years – the last four years as chair. His civic involvement included serving as president of the Business Foundation of North Carolina, vice president of the North Carolina Engineering Foundation and director of the North Carolina Textile Foundation. In 1990, he was inducted in the North Carolina Business Hall of Fame.

A recipient of the UNC Charlotte Distinguished Service Award, Storrs also has a scholarship in his name at the University of Virginia.

Formal groundbreaking for the $7.5 million Storrs Building was held Aug. 26, 1988. Dedication of the building was Oct. 29, 1990, and a ceremony to name the facility in honor of Storrs was held Sept. 16, 1992.

Today, the Storrs Building is home to the College of Arts + Architecture and School of Architecture.
Winningham

If one person can be credited for launching the tradition of bringing prominent speakers to the UNC Charlotte campus, then it is Edyth Farnham Winningham, one of the University’s pioneering faculty members.

Winningham, born Jan. 26, 1900, in Arthur, N.D., earned a bachelor’s degree in modern languages from the University of North Dakota. She later earned a master’s in political science from UNC-Chapel Hill, reportedly the first woman in the state to complete the degree.

Beyond teaching high school in North Dakota and North Carolina, Winningham served as a faculty member at the University of Wyoming, the Women’s College of the University of North Carolina (now UNC Greensboro) and the UNC College Center in Wilmington (now UNC Wilmington). Her connection to UNC Charlotte dates back to its time as Charlotte College. Winningham joined the faculty in 1947, and she spent the next two decades infecting everyone around her with her passion for politics and international affairs.

Winningham frequently stated that one of her dreams was to bring prominent thought-leaders to the campus to “open up windows” for the institution’s students. Her persistence paid off in 1966 with the establishment of the University Forum Council, which sponsored an event each year to bring noted speakers to the campus to address crucial issues facing contemporary society. She chaired the council until spring 1971, despite retiring in 1967 as professor emeritus. According to Special Collections, the final forum was held March 2, 1995. This 30th annual event focused on “Violence: Is Prevention the Key?”

Even after retiring, Winningham continued to lecture on world affairs and international education. She and her husband also established the James and Edyth F. Winningham Scholarship for undergraduate political science majors.

In 1970, Winningham’s service to the greater Charlotte community was recognized by the League of Women Voters. The organization singled her out for her instrumental role in forming closer ties between the University and the Charlotte community at large, and she was named WBT Radio’s Woman of the Year. In 1985, UNC Charlotte awarded her an honorary Doctor of Humane Letters. She died May 27, 1994.

The 10,507-square-foot classroom building which bears her name was constructed in 1965 by F.N. Thompson Inc.; the architectural firm Odell Associates designed the facility.

The Winningham building is one of the five buildings that make up the original quad of UNC Charlotte. Today, Winningham is home to the Department of Philosophy.

Woodward

As students at UNC Charlotte attend classes in the science and technology building on campus, they are walking into the physical manifestation of the work done by Chancellor Emeritus James Woodward and his wife Martha. On November 16, 2005, the building was formally dedicated to recognize the Woodwards’ 16 years of service and devotion to the University.

The James H. and Martha H. Woodward Hall is a direct result of their vision to help elevate UNC Charlotte to a research institution. The Woodwards worked together to raise awareness of the University’s vital role as an economic engine and build many new partnerships and friendships for the institution. As Chancellor from 1989 to 2005, Jim Woodward was the visionary, strategist, and master builder who guided UNC Charlotte’s development as a major research institution. Martha played a vital role in strengthening ties to UNC Charlotte through the hosting of thousands of guests regionally and nationally. Throughout their 16 years at the University, the Woodwards worked together to bring much needed attention to both the University’s strengths and to its resource needs.

Today, Woodward Hall is home to the College of Computing and Informatics; and Departments of Biological Sciences, Computer Science, and Software and Information Systems.
University Logo

UNC Charlotte’s logo has become one of the Charlotte region’s most distinctive insignia. The logo is suggestive of a “crown,” reminiscent of Queen Charlotte of England, for whom the city of Charlotte is named. The crown emphasizes UNC Charlotte’s relationship with the Queen City, alludes to academics with shapes that resemble an open book, and exudes excellence with a torch-like shape at the top, which can also be interpreted as the top of a graduation cap.

University Seal

UNC Charlotte became the fourth campus of the University of North Carolina in July of 1965. In the fall of 1965, the new UNC Charlotte seal was chosen by a committee of students (the three upper-class presidents), three faculty members, and the school publicity director, who served as chair. Final approval was given by Acting Chancellor Bonnie Cone.

UNC Charlotte seal’s elements are: the modern arches (the tulip design from the canopy of the Kennedy Building) at the top to symbolize that this is a twentieth century university; two Cs in the middle to represent Charlotte College, from which the new campus sprang; and the pine cone at the bottom for the Old North State [land of the longleaf pine]. The date on the seal is 1946, the year in which the institution began as the Charlotte Center of the University of North Carolina.

Alma Mater

UNC Charlotte’s Alma Mater has deep roots in the institution’s history. It was part of an “Academic Festival March” composed for UNC Charlotte by James Helme Sutcliffe, a Charlotte composer and music critic who lived in Germany at the time. Dr. Loy Witherspoon, professor of religious studies, commissioned the March in 1965 when he learned that Charlotte College would become a campus of The University of North Carolina. The March was first performed in 1967 at the installation of Dean W. Colvard as UNC Charlotte’s first chancellor. Afterwards, it was performed as a recessional at every Commencement during Dean W. Colvard’s tenure as chancellor. When UNC Charlotte founder Bonnie Cone heard the March, she said, “I can hear an alma mater in it,” referring to a hymn-like refrain. Dr. Robert Rieke, a professor of history, also heard an alma mater in it.

On a 1990 trip to Germany, Rieke visited Sutcliffe, picked up a recording of the March, and began writing words to fit the final refrain. On Christmas Eve 1991, he sent Bonnie Cone the words and music as a Christmas present to her and to the University, from which he had retired a year earlier. Chancellor James H. Woodward approved the composition as the University's Alma Mater in April 1992. It was sung for the first time at the following May Commencement and has been performed at every Commencement since.

Hail University! To you we sing our praise.
May Charlotte’s light dispel the night, illumine all our days.
In Carolina’s crown the brightest gem we see.
Without your power our finest hour would hold no victory.
So let us love your life and cherish your great name.
To aid your cause, uphold your laws, and your enduring fame.

The 49ers

The nickname, the 49ers, was chosen in recognition of the importance of the year 1949 in the history of the University. UNC Charlotte, which began as an off-campus center of the University of North Carolina at Chapel Hill, would have closed its doors in 1949 had Bonnie Cone and her supporters not convinced the N.C. Legislature that Charlotte needed a permanent college. Charlotte College was established that year. Additionally, the campus is located on N.C. Highway 49, and Charlotte has a rich gold mining history -- the term “49ers” symbolizes gold mining. A bronze statue of the 49ers Gold Miner sits at the bottom of the staircase between the College of Education and College of Health and Human Services buildings on campus. The statue recalls the region’s history as a gold mining center and symbolizes the pioneering spirit and determination that has led to UNC Charlotte’s dramatic growth.

49ers Fight Song

The fight song music was composed by former music faculty member Dr. Harry Bulow in 2001. It replaced one which belonged to the University of Texas at Austin, entitled “Texas Fight,” which had been used since the late 1960’s. The new fight song was played for five years before Dr. Laurence Marks, UNC Charlotte’s director of bands, composed a set of lyrics in 2006. Minor changes suggested by the campus administration, Athletics, and students were accepted by Marks and submitted for final approval by the Chancellor and the 49ers Fight Song, reflected below, was born.

Hail, Charlotte 49ers, proud as we can be
We stand to fight for the green and white,
Till we win the Victory (Go Niners!) We pledge our trust in you,
And wave your colors high  
The loyal Niner Nation cheers,  
Forever! We’ll Fight-Fight-Fight!

Mascot

A miner was chosen as the UNC Charlotte mascot as a nod to Reed Gold Mine in nearby Concord, the site of the first documented gold find in the United States in 1799. He was named Norm through popular student vote shortly after he was made mascot. Norm is rarely seen without his trusty pick-axe and never takes his slouch hat off.
Admission to the University
The University considers applications for admission without regard to race, color, national origin, religion, sex, sexual orientation, age, or disability. It reserves the right to withhold the admission of applicants who fail to meet any of the requirements for admission and to restrict enrollments as required by budgetary or other constraints.

Enrollment Management
The Division of Enrollment Management actively identifies, counsels, recruits, and enrolls a qualified and diverse population of undergraduate students and offers services that promote student retention and success. The Offices of Undergraduate Admissions, Student Financial Aid, University Registrar, Adult Students and Evening Services, University Scholarship Office, Niner Central, and Solutions Management report to the Associate Provost for Enrollment Management. These offices, in collaboration with faculty and staff in other administrative units, work to provide a seamless transition from admission to enrollment to graduation and beyond.

The Enrollment Management units interface with most campus entities, particularly the faculty, Academic Affairs, Student Affairs, Alumni Affairs, Academic Services, and Business Affairs. Additionally, these offices work regularly with external entities such as high schools, community colleges, government agencies, community groups, and relevant professional organizations. Visit the Enrollment Management website at enrollment.uncc.edu for more information.

Admissions Process
Applications for admission are reviewed when all required credentials are received. Incomplete applications will not be reviewed. Official transcripts must be received for the application to be reviewed. The review focuses on the academic history of the applicant and considers all relevant factors. The intent of the University is to offer admission to applicants whose credentials indicate a strong likelihood for success in their selected curricula. It is not possible to accommodate all the applicants who meet the minimum criteria, and some programs select the best qualified from those meeting the minimum requirements.

By delegation from the Chancellor, the Admissions Advisory Committee has the authority to grant limited exceptions to the standard entrance requirements set forth in this Catalog and prescribed by the University of North Carolina Board of Governors policies. Exceptions for student-athletes are made by the Chancellor after review and recommendation by the Director of Athletics, the Faculty Athletics Representative, and the Athletic Academic Center under the direction of the Provost and Vice Chancellor for Academic Affairs. Notification of the admissions decision is mailed as soon as the decision is made. Some programs have special admissions processes and may follow alternate timelines.

Students planning to live on campus should complete the online housing form at housing.uncc.edu after they receive confirmation of their acceptance in the mail.

Information about undergraduate programs is available from:

Office of Undergraduate Admissions
Gage Undergraduate Admissions and Visitors Center
University of North Carolina at Charlotte
9201 University City Boulevard
Charlotte, North Carolina 28223-0001
Telephone: 704-687-5507
Fax: 704-687-1664
E-mail: admissions@uncc.edu
Web: admissions.uncc.edu

International Admissions
International students should contact the Office of Undergraduate Admissions by telephone at 704-687-5507, by fax at 704-687-1664, or by email at intladmissions@uncc.edu. The primary focus is the admission of students on non-immigrant visas. Undergraduate Admissions processes applications, evaluates credentials, makes admissions decisions, and serves as consultant to prospective students, academic advisors, sponsors, and agencies representing international students and departments. When students are admitted, Undergraduate Admissions provides documentation to the International Student/Scholar Office for Immigration purposes. Application forms and additional information are available online at admissions.uncc.edu/international.

When to Apply
Applicants are advised to submit their applications for admission well in advance of the schedule below. The suggested deadline dates are based on the amount of time generally required to process an application and inform the applicant of the admission decision. Early application is generally advantageous and particularly for programs with limits on the number of new students that can be accepted.
Freshman Deadline Dates

<table>
<thead>
<tr>
<th>Applications Completed By:</th>

Deadlines for international students are earlier. Please refer to the Undergraduate Admissions website for current deadlines.

The University may alter the dates for acceptance of applications without further notice in accordance with available resources and the enrollment limitation established by the North Carolina General Assembly. For the most current deadlines, please refer to the Undergraduate Admissions website at admissions.uncc.edu.

Admission Application

The applicant is responsible for supplying all required credentials. Credentials must be official documents and not student copies. Nondisclosure of an applicant’s complete academic history will result in rejection of the application and/or immediate dismissal from the University.

Freshmen Applicants

For Freshman Admission, the application includes:

1) A completed online Application for Undergraduate Admission form
2) Application fee of $75 (nonrefundable and nondeductible)
3) Official high school transcript, GPA computed on a 4.0 scale, and senior courses in progress (A high school equivalency certificate or GED may be submitted in lieu of a high school diploma)
4) Official Scholastic Assessment Test (SAT) and/or American College Testing Program (ACT) scores. Unofficial SAT or ACT scores will be accepted to complete an application for admission, but admitted students must submit official test scores prior to registration
5) Essay
6) Additional credentials, specified below, for international applications

Transfer Applicants

For Transfer Admission, the application includes:

1) A completed online Application for Undergraduate Admission form
2) Application fee of $75 (nonrefundable and nondeductible)
3) Official high school transcript (This may be waived for applicants who have already completed an A.A., A.S., A.E., B.A., B.S., or B.F.A. degree)
4) One official transcript from every college attended, including summer sessions and any dual enrollment courses taken while enrolled in high school
5) Additional credentials, specified below, for foreign educated applicants

International Applicants

For Admission of International Applicants, the application also includes:

1) Official scores on the Test of English as a Foreign Language (TOEFL), Duo Lingo, PTE Academic, or International English Language Testing System (IELTS) if the applicant’s native language is something other than English
2) A course by course evaluation for all coursework completed outside of the United States
3) A Statement of Financial Responsibility showing the applicant’s financial resources while in the United States

Any student whose native language is not English will be required to submit proof of English language proficiency.

University Admission Requirements

Freshman Admission Requirements

Candidates for admission to freshman standing, including transfer applicants who present fewer than 24 hours of transferred credit, must:

1) Submit a completed application for admission. A completed application is defined as the application, test scores, essay, and the official transcripts from all schools attended.
2) Have graduated from an approved or accredited high school or have earned an equivalency certificate or G.E.D.
3) Present the following High School Course Units: 4 units in English, emphasizing grammar, composition and literature; 4 units in mathematics, including Algebra I, Algebra II, and geometry, and a higher level mathematics course for which Algebra II is a prerequisite; 2 units in social studies, including one unit in U.S. history; and 3 units in science, including at least one unit in a life or biological science (e.g., biology), at least one unit in a physical science (e.g., chemistry, physics, physical science), and at least one laboratory course; and 2 units of the same foreign language. It is recommended that the candidate for admission also complete a third unit of the same foreign language. Seniors should select a challenging academic schedule that includes English, math, science, social studies (history), and a foreign language.
4) Present a satisfactory combination of high school grades and SAT or ACT scores.
5) Present all college-level work completed in high school by submitting one official copy from any college or university attended.
6) Request official Advanced Placement (AP), International Baccalaureate (IB), and Cambridge Exam test results to be sent directly to the Office of Undergraduate Admissions (Code 5105).
7) Satisfy any additional requirements for acceptance into their chosen major (if any).
8) Present verification of specific immunizations required by North Carolina state law described later in this section of the Catalog. An Immunizations Form is available to download online at studenthealth.uncc.edu.

Transfer Admission Requirements
Candidates for admission as transfer students must:

1) Submit a completed application for admission. A completed application is defined as the application and the official transcripts from all schools attended, including summer sessions and dual enrollment courses from high school.
2) Satisfy the requirements for freshman admission if they do not present at least 24 hours of transferred credit accepted by UNC Charlotte.
3) Present the High School Course Units (required of all students under the age of 21) specified in the freshman Admission Requirements. Transfer applicants who did not complete the required course units in high school may earn an Associate in Arts, Associate in Science, Associate in Fine Arts, Associate of Engineering degree, or complete 24 hours of transferable credit.
4) Present an academic average of at least C (a grade point average of at least 2.0 on a 4.0 scale) on all post-secondary courses attempted, as calculated by the UNC Charlotte Office of Undergraduate Admissions.
5) Be in good standing at the last college or university attended.
6) Satisfy any additional requirements for acceptance into their chosen major (if any). For more information concerning selective major requirements, please consult the Admissions website at admissions.uncc.edu.
7) Present verification of specific immunizations required by North Carolina state law described later in this section of the Catalog. An Immunizations Form is available to download online at studenthealth.uncc.edu.

Refer to the Undergraduate Admissions website for the most current requirements.

IMPORTANT NOTE: Failure to indicate all institutions of higher education attended on any application for admission or readmission to UNC Charlotte is considered falsification of the application and will result in forfeiture of the transfer of all credits from those institutions attended, as well as possible disciplinary action.

Readmission of Former Students
For details on readmission of former students, please see the “Degree Requirements and Academic Policies” section of this Catalog.

Admission Requirements for Programs

Baccalaureate Programs
Additional requirements beyond acceptance into UNC Charlotte may be required for particular baccalaureate program majors. See the individual department and program listings for details.

Second Baccalaureate Degree
Students who have earned a bachelor’s degree from UNC Charlotte and wish to earn a second bachelor’s degree should apply for admission through the Office of the Registrar. Students who have earned a bachelor’s degree from a college or university accredited by an accepted accrediting body other than UNC Charlotte should apply through the Office of Undergraduate Admissions. The University automatically waives the General Education requirements for each second degree student. Students may apply for admission to a program leading to a second degree of the same level if the following requirements are met:

1) A completed application must be sent to the Office of Undergraduate Admissions in accordance with the published application dates.
2) The major field selected must be different from that of the first degree.
3) The degree sought must be different from the first when that degree was granted by UNC Charlotte.
4) The applicant must meet the requirements for acceptance into the selected field.

Undergraduate Certificate Programs
Students who wish to apply for undergraduate certificate programs should consult the Office of Undergraduate Admissions website at admissions.uncc.edu. If a student has already received a bachelor’s degree, he/she must meet second baccalaureate degree admissions requirements. Students who have not received a bachelor’s degree and have attended a college or university must meet transfer admissions requirements and be admitted to a degree program. Students with a high school diploma who have not attended a college or university must meet freshman requirements and be admitted to a degree program. Some certificate programs may have additional requirements. See the individual certificate listing for details.

Academic Proficiency and Placement
Based on academic records or placement tests, incoming first-year and new transfer students are assessed to determine their proficiency in the written use of English; their mathematical competency level; and their reading skill, vocabulary, and grammar of foreign languages. The objective is to place a student into courses that are commensurate with the student’s level of competency; students then register for the course level in which
they are placed.

Language Placement and Course Exemption Process
All new students can determine language placement or language course exemption by the following means: Language Placement Test, the CLEP Test, Advisor Contact or Certification of Proficiency. Students should visit Guidance on Language Placement and Course Exemption at languages.uncc.edu/Language-Placement-Course-Exemption to determine the correct process.

Language Placement and Course Exemption Policies
There are no language requirements associated with the General Education Program. Students are required to take language only if it is a requirement of their college or major department. The College of Arts + Architecture and the College of Liberal Arts & Sciences have a language requirement.

All students within these colleges are required to demonstrate proficiency in a language of their choice through at least the 1202 level. In order to meet this proficiency requirement, students may do one of the following:
- Complete the coursework at UNC Charlotte
- Achieve the appropriate score on the Language Placement Test
- Place out of or be considered exempt from the 1202 level through Certification of Proficiency process
- Transfer in the equivalent of 1201 and 1202 from another institution
- Earn transfer or transient credit for 1201 and complete the 1202 course, or complete 1201 and place out of or earn transfer or transient credit for 1202
- Transfer in with an A.A., A.S., or A.F.A. degree (for College of Liberal Arts & Sciences)

Although all students in the College of Arts + Architecture and College of Liberal Arts & Sciences are subject to the 1202 proficiency requirement, students in select departments will additionally have to satisfy a proficiency requirement through the intermediate (2000) level, or in rare cases, the advanced (3000) level. Students should consult with their major department to determine whether or not they are required to complete the intermediate or advanced proficiency requirement.

Mathematics Placement Procedures
All students, both freshmen and transfer, are placed into mathematics using their SAT or ACT scores if those scores are in Banner. Students without these scores in Banner, but who are transferring in the equivalent to college algebra, pre-calculus, or calculus credit, are placed based on the class level of the credit received. Students without these scores in Banner who are not transferring in the math credits required for their program of study must take a placement examination to determine their appropriate entry-level MATH course.

Writing Placement Procedures
Placement in WRDS 1104 and WRDS 1103 is based on High School performance and SAT/ACT scores. Students can see which WRDS class they are slated to take on their Banner advising transcript. WRO4 indicates that students should register for WRDS 1104. WRO3 indicates that they should register for WRDS 1103. In the absence of SAT/ACT scores, students will be placed in WRDS 1104.

All students may also use the Writing Resources Center (WRC) for additional support. To learn more about WRDS 1103, WRDS 1104, and the WRC, visit writing.uncc.edu.

Health Requirements

Health Insurance Requirements
Health insurance is required of all degree-seeking undergraduate students with six or more on-campus credit hours; all degree- or certificate-seeking graduate students with three or more on-campus credit hours; and all international students with an F-1 or J-1 visa, regardless of credit hours.

Students who are currently uninsured may enroll in the Student Health Insurance Plan by completing the enrollment form found on the Student Health Center website at studenthealth.uncc.edu. Pricing is available on the site as well.

Students with existing health insurance coverage must supply this information online to the Student Health Center every Fall and Spring semester by the posted due date. See the Student Health Center website above for details. Failure to comply will result in automatic enrollment in the Student Health Insurance Plan for the semester.

Immunization Requirements
To protect all students at UNC Charlotte, North Carolina state law requires proof of immunizations upon entering the University. Under North Carolina regulations, students not in compliance will be dropped from all courses. Upon learning of admission to the University, students should submit their immunization records immediately. Immunization Records must be uploaded via the Online Student Health Portal. Further details regarding the immunization requirements and the records submission process are available online from the Student Health Center at studenthealth.uncc.edu. Please consult the website for more detail about the requirements before submitting records to the
University. Although a health physical is not required for admission to the University, students are strongly encouraged to contact their healthcare provider or local health department to discuss additional recommendations for vaccinations.

**FOOTNOTE 1** Three doses of tetaun/diphtheria toxoid, of which one must be tetanus/diphtheria/pertussis (Tdap). Students enrolling in a 4-year college or university for the first time on or after July 1, 2008, must receive a tetanus/diphtheria/Pertussis (Tdap) vaccine.

**FOOTNOTE 2** – An individual attending school who has attained his or her 18th birthday is not required to receive polio vaccine.

**FOOTNOTE 3** – Measles vaccines are not required if any of the following occur: Diagnosis of disease prior to January 1, 1994; An individual who has been documented by serological testing to have a protective antibody titer against measles and submits the lab report; or An individual born prior to 1957; An individual who enrolled in college or university for the first time before July 1, 1994, is not required to have a second dose of measles vaccine.

**FOOTNOTE 4** – Mumps vaccine is not required if any of the following occur: An individual who has been documented by serological testing to have a protective antibody titer against mumps and submits the lab report; An individual born prior to 1957; or Enrolled in college or university for the first time before July 1, 1994. An individual entering college or university prior to July 1, 2008, is not required to receive a second dose of mumps vaccine.

**FOOTNOTE 5** – Rubella vaccine is not required if any of the following occur: 50 years of age or older; Enrolled in college or university before February 1, 1989; and before their 30th birthday; An individual who has been documented by serological testing to have a protective antibody titer against rubella and submits the lab report.

**FOOTNOTE 6** – Hepatitis B vaccine is not required if any of the following occur: Born before July 1, 1994. Serological testing to document protective antibody titer against Hepatitis B is not acceptable.

**FOOTNOTE 7** – Varicella vaccine is not required if any of the following occur: Documented physician diagnosis of disease, a student has been documented by serological testing to have a protective antibody titer against varicella and submits the lab report; or a student is born before April 1, 2001.

**Freshman and Transfer Students**

Immunization records are not sent with other admission records from your previous school. You must request your immunization records be sent directly to the Student Health Center.

**Withdrawal for Non-Compliance and Reinstatement**

Students who are not in compliance as determined by the Student Health Center (SHC) will be withdrawn from all of their classes by the Office of the Registrar at the end of the thirty (30) day period. Students are therefore strongly encouraged to submit their immunization records prior to the start of the semester. The SHC will also monitor students who are not in compliance but have been approved by the SHC for an extension to receive the necessary immunizations as indicated by a physician’s letter. Once the date for the extension expires, and if the student is still not in compliance, the SHC will notify the Office of the Registrar that the student has failed to comply with Immunization Requirements. The Office of the Registrar will then withdraw the student from their classes.

If a student is able to provide evidence to the SHC documenting compliance before the end of the last class day of the semester, he/she will be reinstated into their classes. This reinstatement pertains only to student enrollment status and does not in any way guarantee that the academic, financial, and/or other consequences of noncompliance with Immunization Requirements will be remedied. Such consequences may include, but are not limited to, impact on immigration status, financial aid eligibility, University housing, and 49er ID card accounts. Additionally, reinstated students might not be eligible to make up class work, assignments, tests, or exams as faculty are not obligated to allow make-up work. Furthermore, class work, assignments, tests, or exams missed as a result of being withdrawn for noncompliance with Immunization Requirements will not be a valid basis for a grade appeal.

Decisions under this policy cannot be appealed, and students will not be reinstated if they become compliant after the last class day of the semester.

**Contact Information**

Questions regarding these mandatory requirements may be directed to the Student Health Center Immunizations Department at 704-687-7424 or immuinfo@uncc.edu.

**Non-Traditional Academic Programs**

**Adult Students Admission Program (ASAP)**

Adult students, 24 years of age or older who have been out of school for five or more years and present appropriate educational credentials, are encouraged to make and application through the Office of Undergraduate Admissions. This unique program offers adults the opportunity for special admissions status, an academic advisor through the Office of Adult Students and Evening Services (OASES), and adult transitional support services throughout the first two years of their enrollment. Students who declare a major are advised through their major department.

The Office of Adult Students and Evening Services (OASES) serves as a principal resource for nontraditional and adult students and is
offers academic enrichment summer camps and youth programming. Employees of specific companies and organizations. The Office also helps with informational resources and programs to meet the needs of the workforce and regional employers. Professionals recently displaced or transitioning to a new career and area employers seeking training solutions for their workforce find value in professional-level training to help with informational resources and programs to meet the needs of the workforce and regional employers. The Office offers degree programs at the baccalaureate and graduate levels. Visit distanceed.uncc.edu for more details.

Summer School
Nearly a third of UNC Charlotte students spend their summers taking courses to reduce the time to graduation, conquer challenging courses in the major, or earn general education credit in the 5- or 11-week summer terms. Students benefit from the small class sizes, low student to faculty ratios, and the opportunity to focus on just one or two courses per summer. The online and on-campus course offerings are often flexible enough to allow for students to work or complete internships while earning credits toward graduation.

The Summer School program welcomes current graduate and undergraduate students in all disciplines. Undergraduate students enrolled in other institutions who have returned home for the summer and welcomed as visiting students. With over 1,000 online and on-campus courses offered each summer, we would love to have you join us as a Summer 49er.

Workforce Development
UNC Charlotte, the region’s urban public research university, is here to help with informational resources and programs to meet the needs of the workforce and regional employers. Professionals recently displaced or transitioning to a new career and area employers seeking training solutions for their workforce find value in professional-level training to learn new skills and refresh or enhance knowledge. Visit continuinged.uncc.edu for more details.

Pre-Collegiate Enrichment Program (PEP)
The Pre-Collegiate Enrichment Program (PEP) provides an opportunity for highly qualified students to take college credit courses while enrolled in secondary school. Records of credit earned will be maintained for use at the University or at another institution of higher learning. The program is designed for those students who have exhausted their course offerings at their high school and need to supplement their high school curriculum with college courses. The program is not designed for students who wish to take courses to fulfill high school requirements.

Applicants recommended for participation in the program usually have shown very advanced ability in particular academic areas. The recommendations are normally made by the secondary school principal and are reviewed by the Director of Undergraduate Admissions on an individual basis. PEP students are not permitted to live in campus housing.

Non-Degree Students
Non-degree students are those who are not seeking a degree at UNC Charlotte. On very rare occasions, if space is available, they may enroll in undergraduate courses at the University until they have attempted a total
of 18 credit hours with grade evaluation. Students who did not gain admission to a degree-seeking program will not be admitted as a non-degree student. Admission as a non-degree student is up to the discretion of the Office of Undergraduate Admissions. Regular degree students will have preference for places in classes. Non-degree students are expected to conform to the standards required of all students. After reaching the 18-hour limit, non-degree students must be reviewed and be acceptable for regular degree status before continuing at the University.

Non-degree students who have done previous college work (including UNC Charlotte) must be eligible to return to the institution last attended.

The student must be 18 years of age or over and must understand at the time of his/her registration that the work completed in non-degree student status will be evaluated in terms of major department and degree requirements only after the student’s formal admission to a degree program.

Visiting Students
Students enrolled at other colleges and universities who wish to take specific courses at the University in a given semester or term may be admitted as visiting students. They register on a space available basis after UNC Charlotte degree-seeking students and must submit a new application for each term they would like to attend as a visiting student.

New Student Orientation, Registration, and Convocation

Student Orientation, Advising, and Registration (SOAR)
Once admitted, new undergraduate students are encouraged to participate in one of the Student Orientation, Advising, and Registration (SOAR) sessions scheduled during the Summer and immediately prior to the start of the Fall and Spring semesters. Separate programs are offered for new first year students, transfer students, and their parents and family members. Activities include academic advising; introduction to academic support services, student organizations, and campus life; and registration for classes. Contact the Office of New Student and Family Services at 704-687-5509 or visit nsfs.uncc.edu for additional information.

International Student Orientation
An orientation, held at the beginning of every semester, is required for non-resident (F-1 and J-1 visas) students. Orientation topics include immigration, academics, cultural adjustment, and program opportunities. Contact the International Student/Scholar Office or visit their website online at isso.uncc.edu for more information.

Day of Convocation
The Day of Convocation is a day dedicated to welcome and introduce new undergraduate students (freshmen and transfers) to the UNC Charlotte community. It is typically the first day of classes. The day starts with students assembling with the Dean of their colleges for the Dean’s Welcome. Then, students walk as a group to the Dale Halton Arena to participate in the New Student Convocation ceremony. The ceremony is followed by departmental and collegiate activities. See studentconvocation.uncc.edu for more information.

New Student Convocation
The New Student Convocation is a ceremony attended by faculty, first-year course instructors, and students to officially welcome and induct new undergraduate students into the UNC Charlotte community of learners. During the convocation ceremony, students learn about UNC Charlotte’s history, mission, values, and academic expectations. Just as graduation marks the completion of a course of study, Convocation marks the beginning of the new students’ academic journey at UNC Charlotte. The New Student Convocation Ceremony is part of the Day of Convocation events.
University Regulation of Student Conduct
University Regulation of Student Conduct

As students willingly accept the benefits of membership in the UNC Charlotte community, they also commit to obligations to observe and uphold the principles and standards of conduct that reflect the values of the UNC Charlotte community.

At UNC Charlotte, University Policy 406, The Code of Student Responsibility, fulfills the duty of the Chancellor to regulate matters of student conduct in the University community. University Policy 407, The Code of Student Academic Integrity, governs student behavior relating to academic work. All UNC Charlotte students are expected to be familiar with both Codes and to conduct themselves in accordance with these requirements. Any person may report an alleged violation(s) of the Code online at incidentreport.uncc.edu. Individuals may report crimes or incidents involving imminent threat of harm to Police and Public Safety at 704-687-2200.

The University has also established a program for the prevention of the use of illegal drugs and alcohol abuse (University Policy 711), as well as a policy regulating smoking and tobacco product use on campus (University Policy 707). All UNC Charlotte students are obligated to be familiar with and to conduct themselves in accordance with the standards set forth in these policies.

Additionally, the Student Government Association has created a code called The Noble Niner that solidifies the high standard of morals, principles, and integrity that all students should strive to uphold the reputation of excellence at UNC Charlotte.

The Code of Student Academic Integrity

debug.legal.uncc.edu/policies/up-407

As students willingly accept the benefits of membership in the UNC Charlotte community, they also commit to obligations to observe and uphold the principles and standards of conduct that reflect the values of the UNC Charlotte community.

The Code of Student Academic Integrity governs the responsibility of students to maintain integrity in academic work, defines violations of the standards, describes procedures for handling alleged violations of the standards, and lists applicable penalties. Except in cases of Research Misconduct, as set forth in Chapter 3, Section III.2 of the Code, the following conduct, or complicity in the following conduct, is considered Academic Misconduct under the Code:

A) Cheating means using or attempting to use materials, or giving assistance or materials without Authorization to another in any academic exercise that could result in gaining or helping another to gain academic advantage. See examples.

B) Fabrication means providing fabricated information, including inventing or counterfeiting information, in any form in an academic exercise. See examples.

C) Falsification means altering without Authorization any data or information, regardless of communication method (e.g., e-mail or other electronic communication), in an academic exercise. See examples.

D) Misuse of Academic Materials means sharing, distributing, altering, acquiring, damaging, or making inaccessible academic materials without Authorization, that could result in gaining or helping another to gain an academic advantage. See examples.

E) Multiple Submission means submitting academic work or substantial portions of the same academic work (including oral reports) in more than one academic exercise without Authorization. See examples.

F) Plagiarism means presenting the words or ideas of another as one’s own words or ideas, including failing to properly acknowledge a source, unless the ideas or information are common knowledge. Plagiarism includes self-plagiarism, which is the use of one’s own previous work in another context without indicating that it was used previously. See examples.

G) Unauthorized Collaboration means sharing the work or effort in an academic exercise with another individual or individuals without Authorization. See examples.

H) Research Misconduct means a determination that Research Misconduct has occurred under University Policy 309, Responding to Allegations of Misconduct in Research and Scholarship and its Supplemental Procedures. (See Chapter 3, Section III of the Code.)

A full explanation of these definitions, and a description of procedures used in cases where student violations are alleged, is found in the complete text of University Policy 407, The Code of Student Academic Integrity, as it may be modified from time to time. Students are advised to contact the Dean of Students Office or visit legal.uncc.edu/policies/up-407 to ensure they consult the most recent edition.

The Code of Student Responsibility

legal.uncc.edu/policies/up-406

Philosophy and Purpose

The purpose of the Code is to uphold academic and community standards; encourage personal accountability and responsible decision making; promote student learning; and reduce and prevent behavior
that undermines student success and community safety.

The University is committed to providing a fair, impartial, and efficient process facilitated through compassionate conversations in which students are heard, respected, and treated with dignity. All students are responsible for conducting themselves in a manner that helps enhance an environment of learning in which the rights, dignity, value, and freedom of each member of the academic community are respected.

The University works to create and sustain an environment where freedom of speech and expression are supported and honored. The University has the discretion to regulate the time, place, and manner of exercising these and other Constitutionally protected rights. In administering this Code, the University will exercise care to preserve the freedom of speech and expression for all in the campus community.

As with the scales of justice, the University’s work in the area of student conduct is about balance. The University must balance students’ free speech rights with the desire to protect the Campus community from discriminatory words and actions. The University acknowledges that higher education student conduct and disciplinary systems have, historically, contributed to systemic racism. Therefore, the University must balance its commitment to preserving student rights, encouraging responsible growth and development of its students, protecting the rights of those targeted by student actions, and holding students accountable for their actions.

**Prohibited Conduct, Procedures, and Sanctions**

Chapter 5 of the Code (legal.uncc.edu/policies/up-406#ch5) includes a list of behaviors that are prohibited by the Code, including, but not limited to, acts of harm (injury, harassment, relationship violence, etc.), weapons violations, disruption of University activities, drug violations, fire safety, misrepresentation, false identification, theft, vandalism, alcohol violations, sexual misconduct, trespassing, disorderly conduct, hazing, and retaliation. For a full explanation of all conduct prohibited under the Code, consult Chapter 5 of the Code at legal.uncc.edu/policies/up-406#ch5.

**Important Note:** Any alleged conduct occurring on or after August 14, 2020 that meets the definition of one or more of the Title IX Violations (legal.uncc.edu/policies/up-406#TIXViolations) is not considered Sexual and Interpersonal Misconduct under University Policy 406, Code of Student Responsibility. Alleged Title IX Violations occurring on or after August 14, 2020, are processed according to University Policy 504, Title IX Grievance Policy (legal.uncc.edu/policies/up-504).

Chapter 6 of the Code (legal.uncc.edu/policies/up-406#ch6) provides the process for case referrals and adjudication methods.

Chapter 7 of the Code (legal.uncc.edu/policies/up-406#ch7) provides Conduct Procedures applicable for Formal Charge(s) adjudicated by a Hearing Panel or Administrative Hearing Officer under the Code.

Chapter 8 of the Code (legal.uncc.edu/policies/up-406#ch8) provides additional Conduct Procedures applicable to alleged Sexual and Interpersonal Misconduct.

Chapter 10 of the Code (legal.uncc.edu/policies/up-406#ch10) details possible sanctions imposed on Students or Student Organizations found responsible for violating the Code.

Chapter 11 of the Code (legal.uncc.edu/policies/up-406#ch11) provides information on appeals.

A full explanation of prohibited conduct, and a description of procedures used in cases where violations are alleged, including appeals processes, are found in the complete text of The Code of Student Responsibility, as it may be modified from time to time. Students are advised to contact the Office of Student Conduct and Academic Integrity or visit legal.uncc.edu/policies/up-406 to ensure they consult the most recent edition.

**The Program to Prevent Use of Illegal Drugs and Alcohol Abuse**

legal.uncc.edu/policies/up-711

Below is a brief summary of University Policy 711, Program to Prevent Use of Illegal Drugs and Alcohol Abuse. Visit legal.uncc.edu/policies/up-711 for a full version of that policy.

In keeping with efforts to maintain an environment that supports and encourages the pursuit and dissemination of knowledge, it is the policy of The University of North Carolina at Charlotte to consider the use of illegal drugs or alcohol abuse by students, faculty and staff or by others on premises under University control to be unacceptable conduct that adversely affects the educational environment.

To remind students, faculty, and staff of their responsibilities for maintaining a drug-free environment, this Policy will be distributed throughout the University community each year. Further, the University considers a sound awareness, education, and training program indispensable in combating illegal use of drugs and alcohol abuse, both as a preventive measure and as a remedy. The scope of the University program addresses the awareness needs of students, faculty, administrators, and other staff members and includes the following minimum components.

- The health hazards associated with the use of illegal drugs and alcohol abuse.
- The incompatibility of the use of illegal drugs or abuse of alcohol with maximum achievement of personal, social, and educational goals.
- The potential legal consequences (including both criminal law and University discipline) of illegal drug use and alcohol abuse.
- The effective use of available campus and community resources in dealing with illegal drug use and alcohol abuse problems.

The University’s program emphasizes collaboration with local resources, including the Center for Prevention Services, Dilworth Center for Chemical Dependency, Anuvia Prevention and Recovery Center,
McLeod Addictive Disease Center, Carolinas Medical Center Behavioral Health Services, Eastover Psychological and Psychiatric Group, The Insight Program, Alcoholics Anonymous, Narcotics Anonymous, Al-Anon, and Nar-Anon. To this end, the University shall participate in the Charlotte-Mecklenburg Drug Free Coalition and will work with local advisory boards to further collaborate between the University and the Charlotte community.

The University’s awareness, education, and training efforts stress prevention. The goal of these efforts is (1) to encourage non-users of illegal drugs and alcohol to continue to be non-users, (2) to encourage users of alcohol to do so safely and responsibly, and (3) to encourage users of illegal drugs to stop such use.

The use of illegal drugs and the abuse of alcohol are considered by the University to be problems that can be overcome. Therefore, the educational and rehabilitative services cited above are available on a confidential basis. However, the possession, sale, delivery, or manufacture of illegal drugs will not be tolerated on campus or off campus in the event that the interests of the University may be affected.

The University will cooperate fully with law enforcement agencies and will apply appropriate disciplinary procedures should a student violate criminal statutes with regard to illegal drugs or alcohol abuse. Violations may subject a student to prosecution and punishment by civil authorities and to disciplinary action by the University.

Upon receiving notice of a student’s violation of this Policy, the University will initiate disciplinary procedures under the Code of Student Responsibility.

---

**Smoking and Use of Tobacco Products on University Property**

legal.uncc.edu/policies/up-707

Below is a brief summary of University Policy 707, Smoking and Use of Tobacco Products on University Property. Visit legal.uncc.edu/policies/up-707 for a full version of that policy.

The University of North Carolina at Charlotte has a vital interest in maintaining a healthy and safe environment for its students, faculty, staff and visitors while respecting individual choice about smoking and use of tobacco products. Consistent with these concerns and with North Carolina law, the following Policy establishes restrictions on smoking and use of tobacco products on University Property and provides procedures for accommodating the preferences of both smokers and non-smokers.

For the purposes of this Policy:

A) “Smoking” is defined as the use or possession of a lighted cigarette, lighted cigar, lighted pipe, or any other lighted tobacco product, or the use of an electronic inhaler that employs a mechanical heating element, battery, or electronic circuit to heat a liquid nicotine solution contained in a vapor cartridge, such as an electronic cigarette, electronic cigar, electronic cigarillo, or an electronic pipe.

B) “Tobacco product” means a cigarette, a cigar, chewing tobacco, vapor product, or any other product that contains tobacco and is intended for inhalation, oral use, or nasal use. The term does not include nicotine patches, nicotine gum, nicotine lozenges, or other tobacco cessation products.

C) A “Building” is defined as any permanent or temporary structure utilized for the support, shelter or enclosure of people, animals, or property. “Buildings” include, but are not limited to: residence halls; classroom and office buildings; workshops; shuttle, light rail, and bus stops; all recreational and athletic facilities, including athletic fields, gymnasiums, and stadiums; parking decks; stairwells; inside and outside dining areas; vending areas; breezeways; and connectors.

D) A “University Building” is defined as any Building owned, leased as lessor, or the area leased as lessee and occupied by UNC Charlotte.

E) “University Property” means University Buildings and grounds owned, leased, operated, controlled, or supervised by UNC Charlotte.

F) A “University Vehicle” is defined as a vehicle owned or leased by UNC Charlotte.

G) A “Designated Smoking Area” is defined as an exterior area on the UNC Charlotte campus designated by the Chancellor or the Chancellor’s designee as a place for smoking. Designated Smoking Areas will be marked by proper signage, and are subject to the provisions in Section III of this Policy.

The following restrictions apply to smoking and use of tobacco products on University Property:

A) Smoking and use of tobacco products is prohibited within all University Buildings.

B) Smoking is prohibited within 100 linear feet of any University Building unless otherwise allowed under subsection III. D.

C) Smoking and use of tobacco products in University Vehicles is prohibited.

D) Smoking is permitted on University Property in Designated Smoking Areas. See the Smoking Policy Map at facilities.uncc.edu/our-services/maps/printable-campus-maps.

Additional restrictions on smoking or use of tobacco products required for safety reasons may be imposed by the University on a case-by-case basis. Areas with such restrictions will be identified by signage.

Cooperation and consideration between smokers and non-smokers, and between users and non-users of tobacco products is necessary to ensure the successful implementation of this Policy. Effective implementation of this Policy depends upon the courtesy, respect, and cooperation of all members of the University community.

Violation of this Policy may subject a student to conduct action under the Code of Student Responsibility.
Noble Niner Code

The Noble Niner Code was authored by the Student Government Association and describes the ideals which every Charlotte 49er student can ideally reach as he or she becomes a fully actualized individual.

It was approved by the UNC Charlotte Board of Trustees on April 20, 2007, and is now adopted as an official document of the University.

Scholarship
A Niner shall strive for academic excellence in and out of the classroom while maintaining academic honesty and ethical values.

Integrity
A Niner shall act to uphold and improve one’s self, the community, and the high standards of the institution.

Respect
A Niner shall welcome all aspects of individuality and self-worth while embracing the learning opportunities that diversity provides.

Accountability
A Niner shall hold others responsible for their actions while accepting responsibility for one’s own.

Dignity
A Niner shall appreciate the intrinsic value of the institution and work to preserve the 49er environment.

Honor
A Niner shall appreciate students, faculty, administration, and staff as contributing members of the University community.

Compassion
A Niner shall demonstrate genuine consideration and concern for the needs, feelings, ideas, and well-being of others.

Character
A Niner shall exemplify all qualities and traits that promote fellowship and camaraderie among the student body, faculty, staff, and administration.

Nobility
A Niner shall exhibit the virtues and values listed above which befit all members of our Niner Nation.
Each student is responsible for the proper completion of his or her academic program, for familiarity with the Catalog, for maintaining the grade point average required, and for meeting all other degree requirements. Students assume academic and financial responsibility for the courses in which they enroll and are relieved of these responsibilities only by formally terminating enrollment.

### Academic Advising

advising.uncc.edu

Each student at UNC Charlotte is assigned an academic advisor or advisory committee in the student’s major field of study. Students who have declared a major, minor, or pre-major should seek advising from their advisor in their College’s advising center or department. Students who have more than one major or minor should seek advice from each of their assigned advisors in each academic department. Students who have declared a major and are unable to identify their advisor should contact their major department.

Students who have not chosen or been admitted to a major or pre-major program are enrolled as students of University College (UCOL) and are assigned an advisor from the University Advising Center. The University Advising Center also provides services to students who are transitioning from one major to another. A student may learn how to find their assigned advisor by visiting advising.uncc.edu.

In helping students achieve their educational and career goals, advisors will focus on enhancing the students’ transition from high school or another college/university, will offer assistance in understanding University policies and procedures, and will refer students to campus services that will best ensure the students’ success both on campus and in meeting their career goals. The advisors will also facilitate the development of decision-making skills critical to success in college and life. Each student’s assigned advisor will communicate regularly with the student throughout the year about important dates, programs, and services that will help ensure success at UNC Charlotte. Students are encouraged to maintain contact with appropriate advisors throughout their university career.

The advisor assists the student to develop a plan of study based on the student’s prior preparation and objectives. The academic advisor will provide academic advice and counsel, but the final responsibility for ensuring that program requirements are met remains that of the student.

### Baccalaureate Degree Progression

#### Credit Hours

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement. UNC Charlotte adheres to the Carnegie unit, which is a nationally recognized equivalency that consists of not less than:

1) 750 minutes of classroom or direct faculty instruction and a minimum of 1500 minutes of out of class student work for one semester hour of credit. Each credit hour corresponds to 50 minutes per week of classroom or direct faculty instruction and 100 minutes of out of class work per week for a 15 week semester, or the equivalent amount of work over a different amount of time; or

2) At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities or instructional modes of delivery as established by the institution including distance education, hybrid, and face-to-face instruction, laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

#### Course Load

A student should complete an average of 15 credit hours each Fall and Spring semester to complete a bachelor’s degree in four academic years. Enrollment in more than 18 credit hours in a Fall or Spring semester requires advance approval (via Academic Petition at academicpetition.uncc.edu) of the dean of the student’s major college. An undergraduate student enrolled in 12 or more credit hours is considered to be a full-time student and must pay full tuition and fees. Enrollment in the Summer semester is optional; a maximum load for an undergraduate student enrolled in the Summer semester is 7 credit hours per half term for a total of 14 credit hours. Enrollment in more than 7 credit hours in a Summer half term or 14 credit hours in a Summer semester requires advance approval (via Academic Petition at academicpetition.uncc.edu) of the dean of the student’s major college. Successful academic achievement typically requires two or more hours of preparation per credit hour per week outside of class. For example, enrollment in 16 credit hours would require minimally 32 hours of preparation per week.
Student Classification
At the beginning of each semester, students working toward a bachelor’s degree are classified on the basis of earned credit hours:

<table>
<thead>
<tr>
<th>CLASSIFICATION</th>
<th>EARNED CREDIT HOURS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0-29</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30-59</td>
</tr>
<tr>
<td>Junior</td>
<td>60-89</td>
</tr>
<tr>
<td>Senior</td>
<td>90 or more</td>
</tr>
</tbody>
</table>

Baccalaureate Degree Requirements

Credit Hours and Major
All baccalaureate degrees require completion of 120 credit hours (except for programs that have applied for and received a waiver to exceed 120 credit hours from the UNC Charlotte Board of Trustees), including all requirements for a major field of study. Specific requirements for degrees and programs are presented under the college and departmental sections of this Catalog.

General Education
All baccalaureate degrees require completion of a common set of General Education requirements. Refer to the General Education Program section of this Catalog.

Residence Requirement
To graduate, a student must earn at least 25% of baccalaureate degree requirements at UNC Charlotte, including the last 12 credit hours of work in the major field and at least 6 credit hours of any minor field of study. Exceptions to these hour provisions may be made upon the recommendation of the student's major department and with the approval of the dean of the college of the student's major. (Please note: earning 25% of the degree at UNC Charlotte cannot be waived due to the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) accreditation standards.) Coursework taken in residence shall be construed to mean work offered by UNC Charlotte.

Grade Point Averages
To graduate, a student must be in good academic standing and have earned a grade point average of at least 2.0 and a grade point average of at least 2.0 in the major and in any minor. Some programs require a higher grade point average. The major/minor grade point average is calculated using only courses which satisfy the major/minor requirements. Courses must have been successfully completed and credit earned (subject to the University’s repeat policy under “Grading and Related Policies” section). Specific requirements for degrees and programs are presented under the college and departmental sections of the Undergraduate Catalog.

General Education

The General Education Program is central to UNC Charlotte's basic mission of providing all of its undergraduates with a liberal arts education. The Program approaches the liberal arts in its traditional meaning of learning the arts appropriate for living the educated, responsible life of a free (liberalis) citizen. It provides all undergraduate students, regardless of their majors, with the foundations of the liberal education they will need to be informed people who have the ability to act thoughtfully in society, the ability to make critical judgments, and the ability to enjoy a life dedicated to learning and the pleasures of intellectual and artistic pursuits.

The Program is designed to address five areas of liberal education. First, it helps students develop the foundational skills necessary for obtaining the full benefits of a college education: basic college-level writing, basic use of information technology, and basic college-level mathematical and logical skills. Second, it helps provide students with an understanding of the methods of scientific inquiry and the ways that knowledge is acquired and accredited in the life sciences, physical sciences, and social sciences. Third, the General Education Program addresses major themes related to living as a liberally educated person in the twenty-first century. Students take four Liberal Studies courses designed especially for the General Education Program. These courses are organized around major themes of liberal education: the arts and society, the Western cultural tradition, global understanding, ethical and cultural critique, and critical thinking and communication. Fourth, it helps students develop more specialized skills for disciplinary writing and oral presentations. Fifth, it helps students develop their ability to think critically and communicate clearly. Students should seek advice concerning completion of their General Education requirements from an advisor in their department or college.

The General Education Program is administered by University College but individual courses are taught by faculty from all of the colleges. Thus, requests for exceptions to any aspects of the General Education requirements for individual students must be approved by the Dean of University College, but matters relating to the course itself need to be addressed by the department and college offering the course. Some transfer students may be exempt from the General Education Requirements; see the “Transfer Credit and Advanced Academic Standing” heading later in this section for details.
I. Development of Fundamental Skills of Inquiry (9-10 credit hours)

First-Year Writing Courses (3-4 credit hours)
One first-year writing course is required. WRDS 1104 includes the same face-to-face content as WRDS 1103, but also includes an online writing studio that provides students with additional opportunities to develop skills. After completing one of these courses, students are expected to be able to write clearly and concisely in standard English and to be generally prepared to do college-level writing and editing.

Select one of the following:
WRDS 1103 - Writing and Inquiry in Academic Contexts I and II (3)
WRDS 1104 - Writing and Inquiry in Academic Contexts I and II with Studio (4)

Mathematical and Logical Reasoning (6 credit hours)
One 3 credit hour course in mathematics and a second 3 credit hour course selected from mathematics, statistics, deductive logic, or computer science are required.

Select one of the following:
MATH 1100 - College Algebra (3)
MATH 1102 - Introduction to Mathematical Thinking (3)
MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
MATH 1105 - Finite Mathematics (3)
MATH 1120 - Calculus (3)
MATH 1121 - Calculus for Engineering Technology (3)
MATH 1165 - Introduction to Discrete Structures (3)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 1340 - Mathematics for Elementary Teachers I (3)
MATH 1341 - Mathematics for Elementary Teachers II (3)

Plus one of the following:
ITSC 1110 - Introduction to Computer Science Principles (3)
MATH 1100 - College Algebra (3)
MATH 1102 - Introduction to Mathematical Thinking (3)
MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
MATH 1105 - Finite Mathematics (3)
MATH 1120 - Calculus (3)
MATH 1121 - Calculus for Engineering Technology (3)
MATH 1165 - Introduction to Discrete Structures (3)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 1340 - Mathematics for Elementary Teachers I (3)
MATH 1341 - Mathematics for Elementary Teachers II (3)
PHIL 2105 - Deductive Logic (3)
STAT 1220 - Elements of Statistics I (BUSN) (3)
STAT 1221 - Elements of Statistics I (3)
STAT 1222 - Introduction to Statistics (3)

Note: Most undergraduates at UNC Charlotte major in programs that require mathematics or statistics as related work. For these students, the related mathematics requirements determine the courses taken to meet the General Education requirement. Students in majors that do not require related work in mathematics normally take MATH 1100, followed by either MATH 1102 or PHIL 2105.

Basic Skills of Information Technology
Incoming students are expected to have already developed the basic computer skills necessary to use word processing software, email, and the Internet. By the end of their first semester at UNC Charlotte, students are expected to have developed the basic skills necessary to find and evaluate information from the internet and bibliographic and database sources in Atkins Library. These skills are developed in WRDS 1103 and WRDS 1104, and help with bibliographical and database search skills is available in the Information Commons of the Library. Basic tutorial help is also available at campus computer labs. Students are expected to exhibit ethical behavior in the use of computers. More advanced information literacy and technology skills are required by individual departments and majors.

II. Inquiry in the Sciences (10 credit hours)

Natural Sciences (7 credit hours)
These courses introduce students to the methods of various science disciplines. They provide an understanding of the current scientific knowledge of the world, how that knowledge is secured, and how scientific knowledge changes over time.

Select two courses, one of which must be taken with its corresponding laboratory (L) course:
ANTH 2141 - Principles of Biological Anthropology (4)
ANTH 2141L - Principles of Biological Anthropology Lab (0)
BINF 1101 - Introduction to Bioinformatics and Genomics (4) (includes both lecture and lab)
BIOL 1110 - Principles of Biology I (3)
BIOL 1110L - Principles of Biology I Laboratory (1)
BIOL 1115 - Principles of Biology II (3)

KINES 2168 - Human Anatomy and Physiology for the Health Professions (3)
One course in the Arts and Society is required. Art is indispensable to the structure and fabric of all societies, and each course examines this fundamental connection from the perspective of a specific art form.

Select one of the following:
- LBST 1101 - The Arts and Society: Dance (3)
- LBST 1102 - The Arts and Society: Film (3)
- LBST 1103 - The Arts and Society: Music (3)
- LBST 1104 - The Arts and Society: Theater (3)
- LBST 1105 - The Arts and Society: Visual Arts (3)

Liberal Studies Courses (9 credit hours)
These three 2000-level LBST courses chosen from the four categories below are required. Individual departments MAY choose to allow students to count one of their LBST courses towards the requirements for the major. Students should consult the Academic Plan of Study for the major, the degree audit, and an advisor about whether double counting is allowed and to which particular courses the department’s policy applies.

A) LBST 2101 - Western Cultural and Historical Awareness (3)
Each section of this course examines a major aspect of Western culture through the process of analyzing the present in terms of the past.

B) LBST 2102 - Global and Intercultural Connections (3)
All liberally educated people need to have the ability to understand the world from the point of view of more than one culture and be able to analyze issues from a global perspective.

C) LBST 221X - Ethical and Cultural Critique (Select ONE)
Each of these courses deals with an important contemporary issue, and each one gives significant attention to ethical analysis and cultural critique in the liberal arts.

Select one of the following:
- LBST 2211 - Ethical Issues in Personal, Professional, and Public Life (3)
- LBST 2212 - Literature and Culture (3)
- LBST 2213 - Science, Technology, and Society (3)
- LBST 2214 - Issues of Health and Quality of Life (3)
- LBST 2215 - Citizenship (3) (SL)

D) LBST 2301 - Critical Thinking and Communication (3)

IV. Advanced Communication Skills (6-9 credit hours)

Writing in the Disciplines (W) (6 credit hours)
Select six credit hours, including at least three credit hours in the major. These courses are spread throughout the curriculum and are indicated with a (W) after the course title. These courses assume that students have already developed the basic grammatical and compositional skills needed to write college-level English, and they build on these skills to develop writing strategies appropriate to the discipline of the department offering the course.

Oral Communication (O) (3 credit hours)
Select at least one course designated as an oral communication course. These courses are spread throughout the curriculum and are indicated with an (O) after the course title.
Note: If a course is designated as both a writing in the discipline course (W) and an oral communication course (O), a student may apply that course to both requirements.

V. Critical Thinking and Communication

This course continues the development of critical thinking and communication competencies begun in WRDS 1103 or WRDS 1104. Critical thinking and communication skills are recognized as core competencies for students earning a baccalaureate degree, regardless of major. While students continue to develop these skills in advanced courses in their major, the General Education program provides an important foundation. Therefore, all students must take one General Education course that carries the Critical Thinking and Communication (CTC) attribute. Students meet this requirement by taking LBST 2301; it will be one of the three LBST courses at the 2000 level students take; they will choose two others.

LBST 2301 - Critical Thinking and Communication (3)

Notes:
- Students must pass WRDS 1103 or WRDS 1104 with a grade of C or above AND have Sophomore standing or higher to register for LBST 2301.
- Transfer students may or may not have met the Critical Thinking and Communication (CTC) requirement in courses taken at previous institutions.
  - Transfer students who HAVE met this requirement will have the CTC attribute applied to a course accepted for transfer credit at UNC Charlotte. These students SHOULD NOT take LBST 2301 as part of their General Education requirements.
  - Transfer students who HAVE NOT met this requirement MUST meet this requirement by taking LBST 2301; depending on transfer credit, they will choose additional LBST courses at the 2000 level in order to fulfill that requirement.

Declaring Majors and Minors

Declaration of a Major(s)

Students must complete the requirements for an academic major in order to graduate from the University. Students must, therefore, enroll in a program leading to a baccalaureate degree, and, in some cases, they may choose an area of academic concentration within that degree. In order to be admitted to a degree program, a student must meet all requirements for acceptance into that major and submit an approved “Change of Major/Minor” form through the relevant department to the Office of the Registrar. Students may declare multiple majors presuming they meet the requirements for each degree. Students pursuing multiple majors are encouraged to meet with advisors in each department to ensure they are fulfilling degree requirements.

The choice of a major appropriate for a student’s interests, aptitudes, and career goals is a crucial decision during a student’s academic career. Undergraduate students may declare a major field of study or pre-professional program upon their enrollment at UNC Charlotte as freshmen or transfer students, or they may enroll in the University as undeclared students in University College (UCOL). Undeclared students should work closely with their advisor in the University Advising Center to identify and prepare for their chosen field of study, and for that reason, advising is required for all undeclared (UCOL) students each semester. All students should declare and be accepted into a major or a pre-professional program by the time they have earned 60 credit hours; transfer students entering with more than 60 credit hours should make that declaration upon enrollment or during their first semester of attendance. A delay in selecting a major and/or multiple changes of major often prevents graduation in a timely fashion.

Declaration of Minor(s)

Students who are working on a bachelor’s degree at UNC Charlotte have the option to enroll in a program leading to a minor (or minors) provided: (1) the minor field is different from the major field; (2) the student meets the requirements for acceptance into the minor program; and (3) the appropriate application for admission or the “Change of Major/Minor” form is approved and filed at the Office of the Registrar. Minors are optional and may not be mandated by an academic program/major.

Change of Degree Program, Major, Minor, Concentration

An undergraduate student may change the degree program, major, area of academic concentration, or minor in which they are enrolled and may enroll in a new program of study provided that space is available and that he/she meets the prerequisites for admission to the new program, and submit an approved “Change of Major/Minor” form through the relevant department to the Office of the Registrar. As noted above, changes in major, particularly those made after a student has earned 60 credit hours, may delay graduation.

Second Baccalaureate Degree or Major

Students who have earned bachelor’s degrees from UNC Charlotte or a college or university accredited by an accepted accrediting body may apply to a program leading to a second baccalaureate degree or major provided the major field selected is different from that of the first degree or the degree sought is different from the first granted by UNC Charlotte. In addition, the appropriate application for admission must be filed and approved.

Students seeking a second baccalaureate degree or major must: (1) satisfy residency requirement (refer to Residence section of Baccalaureate Degree Requirements) if their first degree was not earned at UNC Charlotte; (2) achieve a minimum grade point average of 2.0 on all work attempted toward the second degree or major; and (3) satisfy all department and college requirements for the degree or major sought. Students who hold a baccalaureate degree from a college or university accredited by an accepted accrediting body will not be required to satisfy the UNC Charlotte General Education Requirements for a second degree. Students will be issued a transfer credit report and will have their credit from their first degree evaluated. Students who are completing a second baccalaureate degree or major within the same degree (e.g., B.A., B.S.) are not awarded another diploma provided the first degree was earned at UNC Charlotte. Second majors are optional and may not be mandated by...
an academic program/major.

**Postbaccalaureate Minor**

Students who have earned a bachelor’s degree from UNC Charlotte may enroll in a program of study leading to a minor provided: (1) the minor field selected is different from any prior major or minor; (2) the student meets the requirements for acceptance into the minor program; and (3) the appropriate application for admission or a “Change of Major/Minor” form is approved and filed at the Office of the Registrar. Students who are completing a baccalaureate minor at UNC Charlotte are not awarded another diploma. Minors are optional and may not be mandated by an academic program/major.

---

### Registration

The Office of the Registrar is responsible for the management of the registration process by which students enroll in, drop, and withdraw from courses. Through the registration process, students assume academic and financial responsibility for the courses in which they enroll. They are relieved of these responsibilities only by formally terminating enrollment by dropping or withdrawing in accordance with deadlines specified in the Academic Calendar and the corresponding prorated refund schedule available on the Student Accounts website at finance.uncc.edu/student-accounts/refunds.

---

### Registration Appointment Times

Assignments are made according to student classification and cumulative hours earned for undergraduate students and can be viewed online at ninercentral.uncc.edu/courses-registration/registration-information.

### Registration Deadlines

University policies determine when students may enroll or adjust their enrollment in courses. General deadlines are shown below and specific deadlines for a given term are available online at registrar.uncc.edu/calendar.

### Add/Drop Period

The Add/Drop period runs through the 6th business day of the Fall and Spring semesters and on the 2nd business day for Summer full and half terms.

---

- Register for courses
- Drop a course(s) without record (and remain enrolled in other courses)
- Drop all courses without record
- Change the grade type to Audit or Pass/No Credit
- Opt out of using a grade replacement

After the Add/Drop Period students can withdraw from one or more courses in accordance with the Withdrawal policy.

### Prerequisites and Permits

All students, including visitors and non-degree students, are required to meet course prerequisites and to obtain the required permissions to enroll in courses through the department which sponsors the course.

### Auditing Courses

With the permission of the instructor, a student may audit any course in which space is available. Fees and procedures for this non-credit enrollment are the same as those for a credit enrollment. The procedure for adding, dropping, or withdrawing from an audit course is the same as for credit enrollments. No student will be allowed to change the designation of a course from audit to credit or from credit to audit after the sixth business day of a semester (or a proportional period for Summer sessions). Participation of auditors in course discussions and in tests or examinations is optional with the instructor. Students who audit receive no University credit, but they are expected to attend the course regularly.

### Early Entry to Graduate Programs

Exceptional undergraduate students at UNC Charlotte may be accepted into some certificate, master’s, and doctoral programs and begin work toward a graduate certificate or degree before completion of the baccalaureate degree. In those programs offering this option, an applicant may be accepted at any time after completion of 75 or more credit hours of their undergraduate coursework, although it is expected that at least 90 credit hours of undergraduate coursework will have been earned by the time the first graduate course is taken. These students will have provisional acceptance status in the graduate program, pending the award of the baccalaureate degree.

To be accepted to this program, the student must complete an application online at mygradschool.uncc.edu for the given graduate program and be approved for it. In addition, the student must complete the Early Entry Program Form online at graduateschool.uncc.edu/current-students/forms and have it approved by the Undergraduate Advisor, the Graduate Program Director, and the Graduate School. [Note: The Early Entry Program Form must be approved by the Graduate School before the student begins the Early Entry graduate coursework. Failure to obtain prior Graduate School approval negates the ability to “double count” courses in an accelerated Early Entry Program.] An undergraduate student must have at least a 3.2 overall GPA and have taken the appropriate graduate standardized test and earned an acceptable score. A given program may have more rigorous admissions criteria. If an Early Entry student has not met the normal admission requirements of a 3.0 overall undergraduate GPA at the end of his/her baccalaureate degree, she/he will be dismissed from the graduate program.
Students accepted into an Early Entry Program will be considered subject to the same policies that pertain to other matriculated graduate students. However, the undergraduate program will remain the student's primary program. Early Entry students are eligible only for undergraduate-level financial aid, grants, and tuition awards. Early Entry students are restricted to 15 credit hours of graduate-level coursework prior to the completion of the baccalaureate degree. No courses taken before admission to the graduate program may be applied to a graduate degree.

Some Early Entry Programs permit students to "double count" graduate-level coursework towards outstanding requirements for the undergraduate degree. The maximum number of graduate credits which may be “double counted" towards an undergraduate degree varies by program. However, under no circumstances will more than 12 credit hours be double-counted. Students use the Early Entry Program Form to detail which courses they plan to “double count" and which courses will be taken solely for graduate credit. Only those graduate-level courses which are applied towards the undergraduate degree are eligible for undergraduate-level financial aid.

Many graduate programs currently offer an Early Entry option. A list of Early Entry Programs may be found on the Graduate Admissions website at gradadmissions.uncc.edu/programs/early-entry. To be considered for Early Entry admission, a student must complete and submit an application via the Graduate School's admissions system at mygradschool.uncc.edu and provide supporting documents.

*Note: Students admitted to an Early Entry Program are not eligible to hold a graduate assistantship since they have not completed a baccalaureate degree. Students admitted into an Early Entry Program pay undergraduate fees and undergraduate tuition for all courses (graduate and undergraduate) for which they register until such time that the baccalaureate degree is completed (typically within two semesters).

Accelerated Master's Programs

Exceptional undergraduate students may be accepted into an Accelerated Master’s Program whereby they simultaneously pursue the baccalaureate and master’s degrees and gain invaluable mentoring and research experience along the way. The Accelerated Master’s Program may also be accelerated in which up to 12 credit hours earned at the graduate level may be substituted (“double counted”) for required undergraduate hours. A list of Accelerated Master's Programs may be found on the Undergraduate Admissions website at admissions.uncc.edu/academics/accelerated-masters-programs.

In the programs offering this option, an applicant may be considered for admission to the Master’s Program directly from high school with a minimum GPA 3.75 or above (on a 4.0 scale) and a minimum score of 1220 on the SAT. For details, see the Undergraduate Admissions website at admissions.uncc.edu/academics/accelerated-masters-programs.

*Note: Students admitted to an Accelerated Master’s Program (undergraduate + graduate degrees) are not eligible to hold a graduate assistantship until their final year of study when they are only taking graduate courses. In the Accelerated Master’s Program of study, when only graduate courses are taken (typically the final year of study), students are considered “graduate” students and are charged graduate tuition and fees.

Dual Undergraduate and Graduate Registration

First undergraduate degree students at UNC Charlotte who are required to take fewer than 12 credit hours of undergraduate work to fulfill all requirements for the bachelor's degree may be allowed during their final semester to enroll in certain courses for the purpose of obtaining graduate credit. Dually enrolled students will continue to be considered undergraduate students and be charged for the courses taken at the graduate level. To be considered for dual enrollment, students should submit the online graduate application for admission as a post-baccalaureate student, submit a Special Request to the Graduate School requesting permission to be considered for dual enrollment, and attach to the Special Request a program of study outlining the requirements of the first undergraduate degree. The total credit hours to be carried in this status shall not exceed 12 credit hours, of which no more than 6 may be for graduate credit. On the basis of work attempted prior to the final semester, such students must meet the grade point criteria for admission to a graduate degree program at the University. No course for which credit is applied to an undergraduate degree may receive graduate credit. Permission to take graduate courses under dual registration does not constitute admission to any graduate degree program at the University. (Undergraduate students may also take graduate courses if admitted to an Early Entry Program or an Accelerated Master’s Program.)

Note: Only UNC Charlotte students pursuing their first undergraduate degree are eligible for dual undergraduate and graduate registration. Fifth-year undergraduate students (i.e., students pursuing a second undergraduate degree) are not eligible for dual undergraduate and graduate enrollment.

Inter-Institutional Registration

An inter-institutional registration program is available, for a limited number of undergraduate and graduate students, with the University of North Carolina at Greensboro, North Carolina State University, University of North Carolina at Chapel Hill, Duke University, and North Carolina Central University. The registration process is initiated in the Office of the Registrar and requires the approval of the student's college dean.

Greater Charlotte Consortium

The Greater Charlotte Consortium is a partnership between UNC Charlotte and eleven other campuses: Belmont Abbey College; Central Piedmont Community College; Davidson College; Gaston College; Johnson & Wales University - Charlotte Campus; Livingstone College; Pfeiffer University; Queens University of Charlotte; Rowan Cabarrus Community College; Wingate University; and Winthrop University. This partnership is available to undergraduate students and allows registration and enrollment in courses not offered at UNC Charlotte, so that students remain on track to graduation. UNC Charlotte students who enroll in a course through the Greater Charlotte Consortium are billed by UNC Charlotte. An application and additional information can be found at greatercharlotteconsortium.org. Students should consult with their advisor to ensure that the credit earned through the Greater Charlotte Consortium will allow progress toward degree and compliance with all baccalaureate degree requirements.
Termination of Enrollment

Termination by the Student
Prior to the end of the Add/Drop Period, students may terminate enrollment in one or more courses by dropping them in accordance with the Registration policy. After the end of the Add/Drop Period, students may terminate enrollment in one or more courses by withdrawing from them in accordance with the Withdrawal and Cancellation of Enrollment policy.

Withdrawal and Cancellation of Enrollment Policy
Students are expected to complete all courses for which they are registered at the close of the Add/Drop Period. These courses will appear on the transcript, count as attempted hours, and except for withdrawals allowed under this policy, receive grades used in the GPA calculation. All types of termination, including withdrawal, withdrawal for extenuating circumstances, and Cancellation of Enrollment are subject to all financial aid and satisfactory academic progress rules.

Withdrawals (Without Extenuating Circumstances)
Students are allowed opportunities to withdraw from classes and receive a grade of W, subject to the following conditions:

Deadline
The deadline to withdraw from one or more courses (including withdrawal from all courses) is at the 60% completion point of the term. The precise date for each term will be published in the Academic Calendar. After this deadline, late withdrawal will only be allowed for approved extenuating circumstances.

Grade of W
A grade of W will be recorded for each withdrawal without extenuating circumstances. Courses marked W do not count in GPA calculations, but do count in attempted hour calculations for all undergraduate and graduate students.

W-Limit Hours (Undergraduate Students Only)
Undergraduate students may receive a grade of W for no more than 16 credit hours over the course of their Academic Careers. Students may only withdraw from a course if they have enough remaining “W-Limit Hours,” as shown in the following examples:

- A student has already received W grades for 14 credit hours and thus has only 2 W-Limit Hours left. The student may not withdraw from a 3-credit course, but could withdraw from a 1- or 2-credit course.
- Another student has 12 remaining W-Limit Hours and is currently taking five 3-credit courses. The student would like to withdraw from all courses but lacks approved extenuating circumstances, and thus must choose at least one course in which to stay enrolled.

Students who are unable to withdraw from a course but stop attending the course will be assigned a grade by the instructor for partial work.

Withdrawal for Extenuating Circumstances
Students who experience serious extenuating circumstances (personal or medical crisis or military deployment) may request a withdrawal for extenuating circumstances. The Dean of Students Office is responsible for developing and communicating standards and procedures in conjunction with the Colleges that govern these decisions (see UNC Charlotte Academic Procedure: Cancellation of Enrollment and Effects of Withdrawal from Courses). The student must submit the request during the term the crisis begins. If approved, a grade of WE will be recorded for each course. Courses marked WE do not count in GPA calculations, but do count in attempted hour calculations. If not approved, the student may appeal to the appropriate office (see UNC Charlotte Academic Procedure: Cancellation of Enrollment and Effects of Withdrawal from Courses online at provost.uncc.edu/policies/withdrawal-procedure).

Undergraduate Students Only: Undergraduate students who withdraw under approved extenuating circumstances will receive “WE” grades that do not count against their 16-hour limit.

Cancellation of Enrollment
A Cancellation of Enrollment results in removal of all enrollments from all courses for the term. Under Cancellation of Enrollment, courses do not appear on the transcript, count as attempted hours, or receive grades used in the GPA calculation.

Cancellation of Enrollment may occur at the approved request of a student, or through the removal of a student by the University for reasons that include but are not limited to: academic ineligibility, failure to pay tuition and fees, student conduct sanctions, documented emergency, or military deployment. A student may also choose to cancel his/her own enrollment prior to the first day of classes in accordance with UNC Charlotte Academic Procedure: Cancellation of Enrollment and Effects of Withdrawal from Courses.

More Information
For more information about withdrawing at UNC Charlotte, visit the Withdrawal Services website at withdrawal.uncc.edu.

Termination by the University
The University maintains the right to terminate a student’s enrollment in a course for a variety of reasons including, but not limited to: course schedule changes, course cancellation due to low enrollment, or the student’s nonfulfillment of course prerequisites. The University maintains the right to terminate a student’s enrollment in all courses in a term for a variety of reasons including, but not limited to: academic suspension, suspension for violation of the Code of Student...
Classroom Attendance

Instructors determine the classroom policies (including attendance regulations) for their courses as long as such policies do not conflict with the University’s Classroom Attendance policy. In general, students are expected to punctually attend all scheduled sessions in the courses for which they are registered, to demonstrate civil behavior while in class, and to complete all of the course requirements. Instructors may outline additional and more specific standards in the course syllabus, especially when attendance is part of the grading criteria for the class. Additionally, there may be University-sanctioned events or activities, which are considered as excused absences. A University-sanctioned event or activity shall be one in which a student represents the University to external constituencies in academic or extracurricular activities. This policy does not supersede individual program attendance policies that are aligned with accreditation or licensure requirements.

Student Responsibilities
1) Notification.  
   a) A student must inform the instructor concerning any excused absence no later than the last day of the add/drop period, except when newly added or unforeseen circumstances occur (e.g., a playoff event, an invited professional opportunity).  
   b) Student experiences that cannot be made up should be discussed with the instructor at the onset of the course to ensure that continued enrollment is feasible while the opportunity to drop the class exists.  
   c) Notification/Documentation of planned excused absences must be made in writing and delivered by the student electronically or in a face-to-face meeting with the instructor of each class that the student is requesting an excused absence.  
   d) Notification must take place before the absence.
2) Students who receive an excused absence shall be afforded the opportunity to earn full credit for the missed exam or assignment within a reasonable timeframe as determined by the instructor.  
3) Students are responsible for fulfilling any course requirements and coursework that occur during the time they are absent from class.  
4) Students are expected to maintain satisfactory progress in the course.

Instructor Responsibilities  
1) If student responsibilities are met, the instructor will honor valid University-excused absences (not to be included in other individual instructor excused absences policies) and permit the student to make up missed work in whatever manner the instructor deems appropriate.  
2) The instructor may impose appropriate academic penalties if the student fails to satisfactorily complete the assignment or examination within a reasonable timeframe.  
3) Required activities outside of class hours that are used for graded participation must be stated in the syllabus. If the required activity falls on a specific date/time, the instructor must provide an alternative assignment, unless the activity is foundational to the course (e.g., a theater performance produced by the class). Such foundational class activities should be included in the course “Notes” in the Banner Schedule. If the activity is one that can be completed over the course of the term and is not limited to a specific date/time, no alternative assignment is required.

Additional absences from class may be excused by the instructor for such reasons as personal illness or family/medical emergencies. Whenever possible, students are expected to seek the permission of the instructor prior to absences. Absences for religious holidays fall under University Policy 409: Religious Accommodation for Students; see legal.uncc.edu/policies/up-409 for details.

Grading

Instructors assign grades on the basis of their evaluation of the academic performance of each student enrolled in their courses. At the end of the term, the grades are reported to the Office of the Registrar which is responsible for maintaining student academic records and making grades available to students.

Grades

Letters are used to designate the quality of student academic achievement.

Grade of FX (Academic Dishonesty Violation)
For details on the use of the FX grade, please see University Policy 407, Code of Student Academic Integrity, Section IV - Penalties at legal.uncc.edu/policies/up-407#IV.

Grade of I (Incomplete)
The grade of I is assigned at the discretion of the instructor when a student who is otherwise passing has not, due to circumstances beyond his/her control, completed all the work in the course. The missing work must be completed by the deadline specified by the instructor, and no later than 12 months. If the I is not removed during the specified time, a grade of F, U, or N, as appropriate is automatically assigned. The grade of I cannot be removed by enrolling again in the same course, and students should not re-enroll in a course in which they have been assigned the grade of I.

Grade of IP (In Progress)
The grade of IP is based on coursework for courses that extend over more than one semester. For example, a course that requires enrollment for two consecutive semesters would be eligible for an IP grade in the first term (i.e., Undergraduate Senior Project). A grade of IP should not be given for coursework to be completed in a given term. It cannot be substituted for a grade of I. The IP grade expires after six years, and if no final grade has been awarded by that time, the IP grade will default to a grade of N (no credit).

Grade of W (Withdrawal) or WE (Withdrawal with Extenuating Circumstances)
No grade will be given for a course dropped on or before the last day to drop a course without record. After this period, students may only withdraw from a course in accordance with the conditions and deadlines in the Withdrawals policy. Students who withdraw without extenuating circumstances will receive a grade of W and are allowed no more than 16 credit hours of W grades over their academic careers. Students who withdraw under formally recognized extenuating circumstances will receive a grade of WE, indicating that the withdrawn hours do not count against the student’s W-limit hours. Post-deadline withdrawal is only allowable for recognized extenuating circumstances. Unsatisfactory academic performance itself is not an extenuating circumstance. The grade of W or WE is posted on the academic transcript.

Pass/No Credit Option
Every student will be permitted during his/her undergraduate years to select up to a total of four courses (at most one per academic year) in which he/she can receive an evaluation of H (honors), P (pass), or N (no credit). This option is designed to encourage curiosity, exploration, and experimentation in areas where a student has strong interest but little or no previous experience. The Pass/No Credit option only applies to courses normally graded on an A-F scale, and it cannot be used on courses taken by a student for credit toward his/her major or minor or to satisfy University General Education requirements. [Note: courses designated by the faculty to be graded on a Pass/No Credit basis may count for the major.] To exercise this option, the student must declare his/her intention to take a Pass/No Credit option by completing the appropriate form at the Office of the Registrar by the 6th business day of the Fall and Spring semesters, and the 2nd business day for the first and second Summer sessions; this form requires the approval of the chair of the student’s major department. Courses completed with the grade of Honors or Pass will count toward the hours needed for graduation, but they will not be considered in the computation of the grade point average.

Unsatisfactory Grade Reports
Unsatisfactory Grade Report notifications are sent via email to students in the middle of each semester for courses in which the student is performing below average and a grade has been reported. Students should also seek feedback from instructors. Unsatisfactory grades are available through the secure student access pages of My UNC Charlotte online at my.uncc.edu.

Final Grades
Final grades are available through the secure student access pages of My UNC Charlotte online at my.uncc.edu.

Final Grade Changes and Appeals from Final Course Grades
When a final course grade other than Incomplete (I) is officially reported by the instructor at the end of an academic term, the grade is recorded by the Office of the Registrar and can be changed only if the grade has been assigned arbitrarily or impermissibly as defined in University Policy 410, Policy and Procedures for Student Appeals of Final Course Grades, available online at legal.uncc.edu/policies/up-410.

Students should follow the procedures outlined in the policy if they believe that the final course grade that has been assigned is incorrect. The policy requires the student to discuss the grade with the instructor as soon as possible after the grade is received. Students should note, however, that the University is not obliged to respond to a grade appeal unless the student files it with the appropriate department chairperson or interdisciplinary program director within the first four weeks following the last day of the regular semester or the summer term in which the grade was received. When a grade is assigned consistent with University policy, only the instructor has the right to change the grade except as provided in the Incomplete grade policy. When an instructor reports a grade change for a grade other than I, the online “Change of Grade” form must be approved by his/her department chair and college dean, or the assigned designee of the department chair and/or college dean.

Repeating Courses
A student may receive credit for a course one time only, unless the course description specifies that it “may be repeated for credit.” However, subject to College or program restrictions, students can repeat a previously completed course to earn a higher grade. A student seeking to repeat a course for which they have already earned credit (earned a passing grade) must receive a Repeat Course Override. A Repeat Course Override requires approval of the student’s advisor, department chair, and dean.

Grade Replacement will automatically be applied for the first two courses (maximum of 8 credit hours) repeated where the previous grade earned was a C or below. Under Grade Replacement, both grades earned for the course will be reflected on the transcript. However, only the higher of the
two grades for the course will be used in GPA calculations. For any course repeated without Grade Replacement, the most recent grade earned will be used for prerequisite purposes and ALL GRADES earned for the course will be reflected on the transcript and will be used in overall GPA calculations.

Grade Replacement will not be applied to:

- Any course repeated where the previous grade was earned prior to Fall 2007
- Any course other than the first two courses repeated where the previous grade earned was a C or below
- Courses that may be repeated for credit, except for special topics courses where the student is enrolled in the same topic for which they originally received the grade to be replaced
- Courses for which the initial grade was received owing to an admitted or adjudicated academic dishonesty violation (this exception is not subject to appeal or academic petition)

For Grade Replacement to apply, the course to be repeated and the repeat course must have their grades assigned by UNC Charlotte. Grade Replacement will not be processed after a student graduates.

When the course being repeated is a course with an associated lab, the lecture and lab must be repeated concurrently to only consume one of the two allowable grade replacements.

If a student is repeating a course where Grade Replacement would have applied and the student withdraws from the course or from the University, the previous final course grade will be the grade of record for the course and not a W. Any such withdrawal still consumes one of the two grade replacements permitted under this policy. However, a course that is dropped before the end of the Add/Drop period or a course for which the student receives a WE (withdrawal with extenuating circumstances) does not consume one of the allotted replacements.

Students will be notified after the last day to add or drop a course for the term or half-term about any grade replacements in effect for that term or half-term. Students wishing to opt out of using a grade replacement must comply as instructed by the Office of the Registrar and by the withdrawal deadline for the term or half-term. They must similarly comply with the instructions provided and by the withdrawal deadline if they wish to apply grade replacement to a different course being repeated during the same term.

Note: Since credit hours can be awarded only once for a course, repeated courses can affect athletic eligibility, academic standing, veteran’s benefits, and financial aid status.

**Credit Hours**
Credit hours are the number of hours a course is allocated. The majority of undergraduate courses have three (3) credit hours, while labs and other courses may have one, two, four, or more credit hours. Attempted, passed, and earned credit hours are reported on transcripts.

**Quality Points**
Quality points, also known as grade points, are determined by multiplying the number of points assigned to each grade (A = 4, B = 3, C = 2, D = 1, F = 0) by the number of credit hours associated with that course. Refer to the example below.

**GPA Hours**
GPA hours, also known as quality hours, are the total number of credit hours in the graded courses the student has attempted, except for those for which a grade of I, IP, W, P, AU, or N is recorded. Refer to the example below.

**Grade Point Average (GPA)**
The grade point average for an undergraduate student is determined by adding all accumulated quality points together, and then dividing by the total number of GPA hours the student has attempted, excluding those for which the student received a grade of I, IP, W, H, P, AU, or N. In computing the grade point average, only those credits attempted at UNC Charlotte or through the Greater Charlotte Consortium (GCC) are included. Refer to the example below.

GPA = Quality Points/GPA Hours; 25/15=1.666

**Grade Point Average Calculator**
To calculate grade point averages, visit ninercentral.uncc.edu/grades-transcripts-graduation/gpa-calculator.

---

**Academic Standing**

This policy statement applies only to undergraduates: “student” should be read as “undergraduate student” throughout. Newly admitted students begin in good academic standing. Each student’s academic standing is evaluated at the end of every Fall or Spring semester for which the student was enrolled, based on hours attempted at UNC Charlotte only. The possible results of this evaluation are described below:

**Academic Standing**
A student will have one of the following types of academic standing:

**Good Academic Standing**
To remain in good academic standing, a student must maintain: (1) a cumulative grade point average (GPA) of at least 2.0 and (2) a cumulative
ratio of earned to attempted credit hours of at least two-thirds.

**Good Academic Standing Warning**
A student who meets the cumulative requirements for good academic standing but performs below a 2.0 GPA in the semester of the evaluation or performs below the two-thirds cumulative ratio of earned to attempted hours is given a “good academic standing warning.” This indicates potential academic problems and is communicated to the student and to the student’s advisor and major department(s). Good academic standing warnings do not appear on the student’s permanent academic record, and the transcript notation will reflect “good academic standing.”

**Academic Probation**
A student whose cumulative GPA is below 2.0 is placed on academic probation. This status is noted on the student’s permanent academic record with the semester of the evaluation and continues until the next evaluation opportunity.

**Academic Suspension**
A student on academic probation whose cumulative GPA remains below 2.0 at the next evaluation is suspended from the University, unless the student’s GPA for that semester is at least 2.3, in which case the student remains on probation instead. Academic suspension is noted on the student’s permanent academic record.

**Exception for Summer Enrollment**
Students who are on academic suspension are permitted to enroll in Summer Term classes, but they are not eligible to enroll for Fall or Spring semesters until they have applied and been approved for reinstatement or readmission.

**Academic Distinctions**

**Chancellor’s List**
The Chancellor’s List recognizes undergraduate degree-seeking students with superb records of academic performance. To qualify for the Chancellor’s List during the Fall or Spring semester, a full-time student must be in good academic standing and earn a grade point average of at least 3.8 in 12 or more credit hours graded A, B, or C, with no grade less than C. A part-time student must be in good academic standing and earn a combined fall and spring grade point average of at least 3.8 in 12 or more credit hours graded A, B, or C, with no grade less than C. To qualify for the Chancellor’s List as a part-time student, a student must enroll on a part-time basis in both fall and spring semesters in the same academic year.

Students who receive the grade of AU, H, or P are not excluded from recognition as long as 12 hours are completed with grades of A, B, or C. Students who receive the grade of D, F, I, NR, or N are not eligible for recognition. Chancellor’s List recognition appears on the student’s academic record (official transcript).

**Dean’s List**
The Dean’s List recognizes undergraduate degree-seeking students with outstanding records of academic performance. To qualify for the Dean’s List during the Fall or Spring semester, a full-time student must be in good academic standing and earn a grade point average of at least 3.4 and not more than 3.79 in 12 or more credit hours graded A, B, or C, with no grade less than C. A part-time student must be in good academic standing and earn a combined Fall and Spring grade point average of at least 3.4 and not more than 3.79 in 12 or more credit hours graded A, B, or C, with no grade less than C. To qualify for the Dean’s List as a part-time student, a student must enroll on a part-time basis in both Fall and Spring semester in the same academic year.

Students who receive the grade of AU, H, or P are not excluded from recognition as long as 12 hours are completed with grades of A, B, or C. Students who receive the grade of D, F, I, NR, or N are not eligible for recognition. Dean’s List recognition appears on the student’s academic record (official transcript).

**Graduation with Distinction**
Students may earn undergraduate degrees at different levels of distinction: Cum Laude (“With Honor”), Magna Cum Laude (“With Great Honor”), and Summa Cum Laude (“With Highest Honor”). Each of the undergraduate degrees is awarded Cum Laude when the graduating student’s cumulative GPA is 3.4 or more but less than 3.7. Magna Cum Laude when it is at least 3.7 but less than 3.9, and Summa Cum Laude when it is at least 3.9. To be eligible to graduate with distinction, a student must be in good academic standing and have a grade point average computed on at least 48 credit hours completed in residence at UNC Charlotte. Students who have fewer than 48 credit hours completed in residence at UNC Charlotte may petition the Office of the Provost to receive graduation with distinction.

**Readmission of Former Students**
The following individuals must make application for readmission to the University prior to the semester or summer term for which registration is sought: a former student who has graduated, a former student who has been suspended for academic or disciplinary reasons, and a student who has not been enrolled for 12 consecutive months after the semester last attended at UNC Charlotte. (Example of the latter: last enrolled Fall semester 2020; not enrolled Spring or Fall 2021; to enroll in Spring 2022, students must apply in Fall 2021.) Readmission is not automatic; students applying for readmission must meet the requirements of the major in which they wish to return. Application should be submitted online at welcomebackcunl.unc.edu in accordance with the published dates. Official transcripts from any institution attended during the student’s absence from the University must be submitted prior to enrollment.
Forgiveness Policy
Undergraduate students who have a break in enrollment from UNC Charlotte for a minimum period of 24 consecutive months or undergraduate students who have a break in enrollment from UNC Charlotte for a minimum of one regular semester and earn an Associate of Arts (AA), an Associate of Science (AS), an Associate of Fine Arts (AFA), or an Associate of Engineering (AE) degree are eligible for readmission with forgiveness. Students may be readmitted one time only under this policy.

The Forgiveness Policy will be applied automatically upon readmission if the student is eligible. Students electing not to apply the Forgiveness Policy may request to waive the policy in its entirety at the time of readmission only.

If a student is readmitted with forgiveness, only those courses for which the student has received a grade of C or above (or H or P) can be used for academic credit. Readmission under the forgiveness policy also resets the student’s W-limit hours (see Withdrawals Policy under the “Termination of Enrollment” heading in this section) to the full 16 hours. The GPA will be based only on the courses that return with the student and the courses taken after readmission. Eligibility for continued enrollment is determined as in the case of transfer students. To qualify for graduation with honors, a readmitted student must have a GPA computed on at least 48 hours taken in residence on which the UNC Charlotte GPA is based.

Second Baccalaureate Major/ Baccalaureate Minor
Students who have earned a bachelor’s degree from UNC Charlotte may apply for readmission into a program leading to a second major, minor, or second degree (see the “Declaring Undergraduate Majors and Minors” heading in this section). Students readmitted for a second degree are not eligible for application of the forgiveness policy toward the first degree.

Academic Appeal and Grievance Procedures
Academic appeals and grievances are generally addressed by the college where the appeal or grievance arises or, if no particular college is appropriate, by the Office of the Registrar. Undergraduate students may appeal an academic suspension by submitting a written statement online to the Office of the Registrar at registrar.uncc.edu/students/academic-suspension.

Decisions about suspension appeals are made by the chair of the department in which the student is enrolled or the dean of University College if the student’s major is undeclared. For all other academic appeals, including recommendations of approval, undergraduate students must complete an Academic Petition online at academicpetition.uncc.edu.

For additional information on grievances, see University Policy 411, “Student Grievance Procedure,” online at legal.uncc.edu/policies/up-411.

Transfer Credit and Advanced Academic Standing
Evaluation of transfer credits, advanced standing, CLEP, AP, Cambridge, and IB are coordinated through the Office of Undergraduate Admissions. Prospective students who desire further information about policies and procedures for awarding credit should contact the Office of Undergraduate Admissions or utilize the “Transfer Credit Advisor” tool online at admissions.uncc.edu.

UNC Charlotte will accept appropriate undergraduate credits earned through AP, IB, CLEP, Cambridge, armed forces service schools, and college level courses completed prior to graduation from high school. In addition, UNC Charlotte will accept or transfer appropriate undergraduate credits earned at a college or university accredited by an accepted accrediting body or through credit by examination. Credit toward a degree is not awarded for Continuing Education Units (CEUs) or for remedial level college courses.

Advanced Placement Course Credit (AP)
The University will accept appropriate undergraduate credits earned through Advanced Placement Program Tests completed prior to graduation from high school. Students must request that official Advanced Placement test results be sent directly to the Office of Undergraduate Admissions for evaluation (UNC Charlotte code 5105). Prospective students who desire further information about policies and procedures for awarding credit should view score requirements and other related information at admissions.uncc.edu. No more than 8 credit hours can be awarded for any single Advanced Placement exam.

International Baccalaureate Program (IB)
The University will award credit for subjects in which students score appropriate scores on the IB examinations. View score requirements at admissions.uncc.edu.

Cambridge Exams
The University will award credit for subjects in which students score appropriate scores on Cambridge examinations. View score requirements at admissions.uncc.edu.

College Level Examination Program (CLEP) General Examination
An undergraduate student may receive up to 23 credit hours of elective credit. CLEP credit will be awarded according to UNC Charlotte policy in place at the time of evaluation. View score requirements at admissions.uncc.edu. The amount of CLEP credit that is applicable to a
specific degree program is determined by the department offering the program.

Transfer Credit from Other Institutions
Official transcripts are evaluated in the Office of Undergraduate Admissions and the results are provided to the applicant and to the major department/college. Determining the applicability of transferred credits to major or program requirements is the responsibility of the department chairperson or program director. General rules governing transfer credit:

1) Only courses taken at a college or university accredited by an accepted accrediting body will be considered for transfer credit.
2) Provisional transfer credit may be granted for study at foreign institutions or a college or university not accredited by an accepted accrediting body, but must be validated by 30 credit hours of successful performance in residence at UNC Charlotte.
3) Courses for which credit is accepted must be appropriate for approved University programs and curricula in which the student is enrolled.
4) No credit below C level will be accepted; grade points and averages do not transfer.
5) Transfer credit is awarded only upon receipt in the UNC Charlotte Office of Undergraduate Admissions of an official transcript from the institution where the credit was earned.

Students who hold a baccalaureate degree from a college or university accredited by an accepted accrediting body will not be required to satisfy the UNC Charlotte General Education Requirements for a second degree. Students will be issued a transfer credit report and will have their credit from their first degree evaluated.

Credit from Two-Year Institutions
The University accepts a maximum of 64 credit hours from two-year institutions for undergraduate students. Remedial and technical courses will not transfer.

Transient Study
Courses undertaken by UNC Charlotte undergraduate degree students at a college or university accredited by an accepted accrediting body may be transferred to the University subject to the following regulations:

1) The University is not obligated to accept any credit from another institution unless the student has obtained the prior approval of the dean of the college in which he/she is enrolled. A “Permit for Transient Study” form should be completed and filed in the UNC Charlotte Office of the Registrar prior to enrollment at another institution.
2) No credit will be accepted for courses below C level for undergraduate students.
3) The student must request that an official transcript be sent to the UNC Charlotte Office of the Registrar upon completion of the course. A form for this purpose is available in the Office of the Registrar at the institution where the course is taken.
4) Students in the College of Liberal Arts & Sciences and students in the University College are not permitted to take courses at another educational institution in the Fall or Spring semester if they are enrolled full-time (12 credits or more) at UNC Charlotte in the same semester, unless it is a course not offered at UNC Charlotte (e.g., American Sign Language).
5) Grades do not transfer.

Credit by Examination
A student currently enrolled at UNC Charlotte may pass a specially prepared challenge examination and receive credit for a University course without having to do the normal course work. The student contacts the chair of the department in which credit is sought to request administration of an examination. Since it may not be appropriate to award credit by examination for some courses, the decision to offer an examination is that of the department. If the chair authorizes an examination, the student is instructed to pay the required fee for credit by examination and to bring the receipt of payment to the examination. Hours earned through credit by examination will be indicated on the transcript, but no grade points will be awarded. Hours attempted will be assigned equal to the hours earned. Failure on such an examination will incur no grade point penalty or hours attempted. A department may allow a student to take examinations for courses not offered at UNC Charlotte, if it deems it appropriate to do so. No student may challenge a course for which either a passing or failing grade has been received at UNC Charlotte.

Credit for Military Training
The University will approve academic credit for military training equivalent to UNC Charlotte courses required for the students’ major, minor, or General Education requirements. The credit must be approved by the student’s major department chair, college dean, and the department that offers the course.

Documentation of the training, such as a license of completion, Joint Services Transcript, or notation on the student’s DD Form 214, is required. The same requirements apply to transfer or military training credit approved by another institution. Contact the Office of the Registrar for further information.

Exemptions from General Education Requirements
First-Year Writing Requirements
Students will be deemed to have fulfilled the First-Year writing requirement (WRDS 1103 or WRDS 1104) if either of the following apply:

1) Exemption from first-year writing (without credit) at another college or university
2) 64 or more transferred credit hours from U.S. institution(s) of higher education

Some exceptions may apply for students with transferred credit hours from institutions where English is not the language of instruction.

Lower-Division Requirements
Some transfer students are exempt from the lower-division General Education requirements* if they are admitted to the University in Fall 2003 or thereafter. These include:

---

*These requirements may vary depending on the institution and the major field of study.
• Students from North Carolina Community Colleges who receive an Associate of Arts (AA), Associate of Science (AS), Associate of Fine Arts (AFA), or Associate of Engineering (AE) degree
• Students from North Carolina Community Colleges who have completed the 44 hour general education core. (Comprehensive Articulation Agreement, CAA)
• Students who graduate from a North Carolina Community College with an Associate of Applied Science (AAS) and enroll at UNC Charlotte in an approved 2+2 degree completion program (This exemption becomes invalid if the student changes programs)

Transfer students from out-of-state and private institutions of higher education who receive an Associate Degree from that institution will have the degree evaluated for the same General Education exemption on a case by case basis by the Office of Undergraduate Admissions. The criteria used in the evaluation will be the amount of college-level English, math, natural science, social science, and humanities course work that is included in the degree’s curriculum. Curriculums that are more technical in nature or lack key features of the UNC Charlotte General Education core may not be approved for an exemption from lower-division General Education requirements, but individual courses will be accepted towards the UNC Charlotte requirements.

"Lower-division General Education requirements" refers to courses in composition, mathematics and logic, natural and physical sciences, social sciences, liberal studies (LBST), critical thinking and communication, and three (3) credit hours designated as writing intensive and one to three (1 to 3) credit hours designated as oral communications. Students MUST still complete three credit hours in the major designated as Writing Intensive (W) to satisfy all General Education requirements for graduation.

Critical Thinking and Communication (CTC) Requirement
See the General Education Program for details on transfer credit and the CTC requirement.

Reverse Transfer
North Carolina’s Reverse Transfer Program is designed to award an associate degree to students who previously attended a North Carolina Community College (NCCC) and fulfilled the associate degree requirements while working towards a bachelor’s degree at a University of North Carolina institution. This program is a state initiative in which a student can combine credit previously earned at a NCCC with credit they have earned at participating four-year universities to apply for an Associate’s Degree from the NCCC they attended initially.

If a student is awarded the Associate in Arts, Associate in Science, Associate in Fine Arts, or Associate in Engineering degree through the Reverse Transfer program, UNC Charlotte will honor the degree to satisfy lower-division General Education requirements. All students, regardless of transfer status, will still have to take a “writing in the discipline” course in their major. It is the student’s responsibility to understand their own community college requirements for completing an Associate in Arts, Associate in Science, Associate in Fine Arts, or Associate in Engineering degree. For more details, see the Academic Policy and Procedure online at provost.uncc.edu/policies/reverse-transfer.

Graduation
graduation.uncc.edu

Application for the Degree
Each student must make an application for his/her degree no later than the filing date specified in the academic calendar online at registrar.uncc.edu/printable-calendar. The application may be submitted online through the Office of the Registrar at my.uncc.edu. The diploma and transcript will reflect the term in which all requirements were completed, and the diploma will be mailed to the student’s address of record.

Commencement Ceremonies
Students completing their degree requirements in May participate in the May ceremony. Students completing degrees in a summer term, as well as those completing in December, participate in the December ceremony. Undergraduate students who wish to attend commencement must attend the ceremony within their college. All students must have a valid UNC Charlotte ID or a government issued photo ID and their UNC Charlotte ID number to participate in commencement.

Teacher Licensure
Students who have completed degree requirements and obtained passing scores on appropriate exit tests (e.g., Principles of Teaching and Learning, Praxis II Subject Assessments) must apply for licensure through the Teacher Education Advising and Licensure (TEAL) Office in the College of Education. TEAL will process and submit application packets including Praxis scores, final transcripts, and required fees to the North Carolina Department of Public Instruction (NCDPI). Licenses are mailed directly to applicants by NCDPI.

Commencement Marshals
At each Commencement ceremony, the University honors the juniors with the highest grade point averages by inviting them to serve as the marshals who lead the processions of graduates, faculty members, and
the platform party. To select students for this honor, the University considers juniors who have completed 75 credit hours of degree work, enrolled full-time (12 or more credit hours per semester) during the two most recent semesters, and are able to attend the ceremony.

Academic Records and Transcripts

The Office of the Registrar is responsible for maintaining the official academic records for all students. Upon request by a student through Banner Self-Service, an official transcript of the academic record will be issued to the person or institution designated, provided that all the student's obligations to the University have been settled satisfactorily. For active students, transcripts can be ordered by logging in to my.uncc.edu and selecting Banner Self Service. For former students who have been away for more than 12 months, transcripts can be ordered through the University's transcript provider, Credential Solutions, at www.credentials-inc.com/CGI-BIN/dvcgitp.pgm?ALUMTRO002975. A one-time authentication will be required for inactive students.

Family Educational Rights and Privacy Act (FERPA) Annual Notification

A full explanation of FERPA rights and responsibilities at UNC Charlotte is found in the complete text of University Policy 402, Student Education Records (FERPA) at legal.uncc.edu/policies/up-402, as that policy may be modified from time to time.

I. RIGHTS

In establishing University Policy 402, Student Education Records, UNC Charlotte adheres to a policy of compliance with the Family Educational Rights and Privacy Act of 1974, also known as FERPA, a federal law that affords students the following rights with respect to their education records:

A. To inspect and review the student’s education records:

Students should submit to the Office of the Registrar, dean of their college, chair of their major academic department, or other appropriate official written requests that identify the record(s) they wish to inspect. University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

B. To consent to disclosure of the student’s education records to third parties, except to the extent that FERPA authorizes disclosure without consent, as follows:

1. Directory Information. Directory information (as defined in Section I of University Policy 402), including student images and email addresses, may appear in public documents and may otherwise be disclosed without student consent unless a student submits a request form to the Registrar to withhold such information from disclosure. A request for non-disclosure will be honored by the University indefinitely, unless the student submits to the Registrar a written revocation of such request for non-disclosure.

2. University Officials. University officials with legitimate educational interests in the student’s education records are allowed access to student education records. A “legitimate educational interest” is defined as an interest that is essential to the general process of higher education, including teaching, research, public service, academic advising, general counseling, discipline, job placement, financial assistance, medical services, and academic assistance activities. University officials who may have access to only those education records in which they have legitimate educational interests include, but are not limited to, personnel in the following offices:

- Undergraduate Admissions
- Graduate Admissions
- Office of University Registrar
- Office of Undergraduate Education
- Financial Aid
- Financial Services
- Auxiliary Services
- Student Employment Office
- University Center for Academic Excellence
- Career Center
- Counseling Center
- Office of Adult Students and Evening Services
- Disability Services
- OneIT, for technical support associated with maintaining student education records only
- Internal Audit
- Office of Enrollment Management
- Office of Director of Athletics
- Office of Vice Chancellor for Student Affairs
- Office of Vice Chancellor for Business Affairs
- Office of Dean of Students
- Office of Dean of Graduate School
- Office of International Programs
- Offices of Chairpersons of Departments
- Offices of Deans of Colleges
- Offices of Directors of Interdisciplinary Units
- Office of Provost
- Office of Chancellor
- Office of Legal Affairs
• Campus Police, for internal law enforcement or health and safety purposes only
• University Advancement
• Teaching and Learning Connection
• Academic counselors and advisors
• Campus Behavioral Intervention Team
• Office of Institutional Research
• Faculty members
• Other academic and administrative personnel, as approved by the Chancellor

3. Parents of Dependents. Parents of a student who is a dependent for federal tax purposes, as defined by Section 152 of the Internal Revenue Code of 1954, may have access to that student’s education records without prior consent of the student. Parents may demonstrate the tax dependency of a student only by submitting to the University a copy of the first and signature pages of their most recently filed federal income tax return (with personal financial data removed). Alternatively, a student may demonstrate tax dependency, and thus allow parental access to the student’s records without prior consent of the student, by submitting to the University a signed statement of their tax dependency. If a dependent student’s parents are divorced, both parents may have access to the student’s records, so long as at least one parent claims the student as a dependent.

4. Other Institutions. The University may release a student’s education records to officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled, so long as the disclosure is for purposes related to the student’s enrollment or transfer.

5. Financial Aid. The University may release a student’s education records to persons or organizations in connection with that student’s application for, or receipt of, financial aid, but only to the extent necessary for such purposes as determining eligibility, amount, conditions, and enforcement of terms or conditions of such financial aid.

6. Accreditation Agencies. The University may release students’ education records to accreditation organizations or agencies for purposes necessary to carry out their accreditation functions.

7. Judicial Orders. Information concerning a student shall be released in response to a judicial order or lawfully issued subpoena, subject to the conditions set forth in 34 CFR § 99.31(a)(9). The University will make reasonable efforts to notify the student of a subpoena before complying with it, except that the University shall not notify a student of a subpoena if it is from a federal grand jury or is for law enforcement purposes, and it provides that the University shall not disclose to any person the existence or contents of the subpoena or any information furnished in response to the subpoena.

8. Litigation. If the University initiates legal action against a parent or student, or if a parent or student initiates legal action against the University, the University may disclose to the court, without a court order or subpoena, the education records of the student that are relevant for the University to proceed with the legal action as plaintiff or to defend itself in such legal action.

9. Health and Safety. The University may, subject to the conditions set forth in 34 CFR § 99.36, disclose student information to appropriate persons, including parents of a student, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

10. Student Conduct Hearing Results.

a. Disclosure to Victims: The University may disclose to an alleged victim of any crime of violence (as that term is defined in Chapter 1, Section 16 of Title 18, United States Code), or a non-forcible sex offense, the final results of any student conduct proceeding conducted by the University against the alleged perpetrator of such crime or offense with respect to such crime or offense, regardless of whether the alleged perpetrator was found responsible for violating the University’s rules or policies with respect to such crime or offense.

b. Disclosure to Third Parties: The University may disclose the final results of any student conduct proceeding against a student who is an alleged perpetrator of any crime of violence or non-forcible sex offense (as those terms are defined in 34 C.F.R. 99.39), if the student is found responsible on or after October 7, 1998, for violating the University’s rules or policies with respect to such crime or offense. Such disclosure shall include only the name of the student, the violation committed, and any sanction imposed by the University on that student. Such disclosure may include the name of any other student, such as a victim or witness, only with the written consent of that other student.

11. Alcohol and Drug Violations. The University may disclose to a parent or legal guardian of a student, information regarding any violation of any Federal, State, or local law, or of any rule or policy of the University, governing the use or possession of alcohol or a controlled substance, regardless of whether that information is contained in the student’s education records, if the student is under the age of 21 at the time of disclosure to the parent, and the University determines that the student is responsible for a student conduct violation with respect to such use or possession.

12. Federal, State, and Local Officials and Educational Authorities. Subject to the requirements of 34 CFR § 99.35, the University may disclose education records to authorized representatives of (i) The Comptroller General of the United States; (ii) The Attorney General of the United States; (iii) The Secretary; or (iv) State and local educational authorities.

13. Institutional Studies. The University may disclose education records, but only under the conditions set forth in 34 CFR § 99.31(a)(6), to organizations conducting studies for, or on behalf of, educational agencies or institutions to (A) Develop, validate, or administer predictive tests; (B) Administer student aid programs; or (C) Improve instruction.

14. Contractors. The University may disclose education records to a contractor, consultant, volunteer, or other party to whom the
University has outsourced institutional services or functions, provided that the outside party:

- Performs an institutional service or function for which University would otherwise use employees;
- Is under the direct control of the University with respect to the use and maintenance of education records; and
- Is subject to the requirements of Section 99.33(a) governing the use and redisclosure of Personally Identifiable Information from education records.

15. Registered Sex Offenders. The University may disclose education records concerning sex offenders and other individuals required to register under Section 170101 of the Violent Crime Control and Law Enforcement Act of 1994, 42 U.S.C. 14071, if the information was provided to the University under 42 U.S.C. 14071 and applicable Federal guidelines.

C. To request amendment of the student’s education records to ensure that they are not inaccurate or misleading:

A student who wishes to ask the University to amend a record should write the University Registrar, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student’s right to a hearing. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

D. To be notified of the student’s privacy rights under FERPA, as indicated by this Notification.

E. To file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, DC 20202-8520

II. DEFINITIONS

“Directory Information” means information in a student’s education record that would not generally be considered harmful or an invasion of privacy if disclosed. At UNC Charlotte, directory information consists of the student’s name, major field of study, dates of attendance, enrollment status, and degrees and awards (including scholarships) received.

Photographs, videos, or other media containing a student’s image or likeness (collectively, “student images”) and University-issued student electronic mail addresses (“email addresses”) are designated by UNC Charlotte as “Limited Use Directory Information.” Use and disclosure of Limited Use Directory Information will be restricted to:

1. publication in official University publications or on social media sites or websites hosted or maintained by, on behalf of, or for the benefit of the University, including the University’s online directory and internal email system;
2. University officials who have access, consistent with FERPA, to such information and only in conjunction with a legitimate educational interest; and
3. external parties contractually affiliated with the University, provided such affiliation requires the sharing of Limited Use Directory Information.

In addition, the following shall be considered Limited Use Directory Information that may be disclosed only to other students enrolled in the same course (regardless of whether such students are enrolled in the same class section or break-out group) that has been audio or video recorded by the University, for instructional and educational purposes only:

1. name, to the extent it is referenced or captured during the audio or video recording;
2. any photograph or image of the student captured during the audio or video recording;
3. any audio or video recording of the student participating in the course; and
4. any online chats or other recorded communications among participants in the course captured during the audio or video recording.

A student who requests to withhold this Limited Use Directory Information from disclosure pursuant to Section II.B.1 below may limit the extent to which they will be able to participate in the course.

To protect the privacy of other students, students are not permitted to make their own recordings of class sessions or to share or distribute University recordings of class sessions.

“Education Records” include records directly related to a student that are maintained by UNC Charlotte. Education records do not include:

1. Records of instructional, administrative, and educational personnel that are in the sole possession of the maker (i.e. file notes of conversations), are used only as a personal memory aid, and are not accessible or revealed to any individual except a temporary substitute;
2. Records of the UNC Charlotte campus police;
3. Student medical and counseling records created, maintained, and used only in connection with provision of medical treatment or counseling to the student, that are not disclosed to anyone other than the individuals providing the treatment. (While a student may not inspect their medical records, these records may be reviewed by a physician of the student’s choice);
4. Employment records unrelated to the student’s status as a student;
5. Records created or received by an educational agency or institution after an individual is no longer a student in attendance, and that are not directly related to the individual’s attendance as a student;
6. Grades on peer-graded papers before they are collected and recorded by a teacher.
“Personally Identifiable Information” includes, but is not limited to:

- The student’s name;
- The name of the student’s parent or other family members;
- The address of the student or student’s family;
- A personal identifier, such as the student’s social security number, student identification number, or biometric record;
- Other indirect identifiers, such as the student’s date of birth, place of birth, and mother’s maiden name;
- Other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or
- Information requested by a person who the University reasonably believes knows the identity of the student to whom the education record relates.

“Student” means an individual who is or who has been in attendance at UNC Charlotte. It does not include persons who have been admitted but did not attend the University. For the purposes of this policy, “attendance” includes attendance in person or by paper correspondence, videoconference, satellite, Internet, or other electronic information and telecommunications technologies for students who are not physically present in the classroom; and the period during which a person is working under a UNC Charlotte work-study program.

III. COMPLIANCE

UNC Charlotte intends to comply fully with these requirements. University Policy 402, Student Records, explains the procedures for compliance. Students may obtain copies of the policy in the Office of the Registrar or online at legal.uncc.edu/policies/up-402. That policy includes a list of the locations of all education records maintained by the institution.

All questions concerning this FERPA Annual Notification may be directed to the attention of the Office of the Registrar.
Undergraduate Tuition and Fees

UNC Charlotte is a publicly supported institution and primarily receives its revenue from the State of NC appropriations, in addition to tuition and fees. It is the combination of tuition and fees that primarily supports the operations and expansion of UNC Charlotte. Tuition and fees are approved by the Student Representatives, UNC Charlotte Board of Trustees, and the UNC Board of Governors. Tuition rates are also approved by the NC General Assembly. These fees are mandatory to every student and cannot be waived.

Tuition and fees are billed by credit hour for Fall, Spring, and Summer terms. 12 or more credit hours are considered full-time for undergraduate students, and 9 or more credit hours are considered full-time for graduate students.

Charges for tuition and fees vary according to the student’s status as a resident or non-resident of North Carolina. A non-resident student pays a higher rate of tuition than a legal resident. For more details, see the heading for Residence Status for Tuition Purposes later in this section.

Following are tuition and required fees for 2021-2022. For a complete list, visit ninercenral.uncc.edu. (At the time of publication of this Catalog, the tuition and fees for the 2021-2022 academic year are pending legislative concurrence.)

The University reserves the right, with the approval of proper authorities, to make changes in tuition and fees at any time. The University also reserves the right to correct any clerical errors on a student’s account. For the most current listing of tuition and fees at The University of North Carolina at Charlotte, see ninercenral.uncc.edu.

### Fixed Tuition Program

The Fixed Tuition program provides eligible, in-state undergraduate students with the same tuition rate for a specific period of continuous enrollment. The Fixed Tuition program only includes tuition and not fees. Fees may be increased annually.

For eligible Freshmen seeking a 4-year bachelor’s degree, the tuition rate will be fixed for eight consecutive semesters. For eligible Transfer students, the tuition rate will be fixed for a prorated period of time based on the prior credit they have earned or transferred in from other institutions. Students may view their fixed tuition eligibility period in Banner Self Service (under Student Services/Student Accounts > Fixed Tuition Information).

For more information, visit ninercenral.uncc.edu/billing-payments-refunds/tuition-and-fees/fixed-tuition-program.

### Residence Status for Tuition Purposes

Tuition charges are based upon classification of a student as a resident or a non-resident of North Carolina for tuition purposes. The North Carolina Residency Determination Service (RDS), the sole authority for residency determinations, shall determine whether a student is a resident or non-resident for tuition purposes.
Residency Application Procedure
A new, incoming, or current student who wishes to request a residency classification will apply using the Residency Determination Service (RDS). RDS is the entity responsible for all new classifications of residency in North Carolina. To begin the process, visit www.NCresidency.org. ALL student inquiries about initial determinations, reconsiderations, or appeals, should be directed to RDS. Students may contact RDS at 844-319-3640 or rdsinfo@ncresidency.org.

Appeal Procedure
A new, incoming, or current student who has exhausted the residency application procedure and has been classified as a non-resident for tuition purposes, may request further consideration of that decision to the Residency Determination Service (RDS). RDS is the entity responsible for all classifications of residency in North Carolina. ALL student inquiries about initial determinations, reconsiderations or appeals, should be directed to RDS. Students may contact RDS at 844-319-3640 or rdsinfo@ncresidency.org.

Required Fees
The required fees included in the Tuition and Fees table above are explained below.

49er Card Access Fee
This fee supports the University’s 49er Card operations and support. The ID card is not only used for identification purposes, but also as a library card and as a campus card for dining and vending purchases. This fee does not cover a replacement card of a lost or stolen card.

Ed and Tech Fee
This fee is directly related to the infrastructure supporting student technology needs across campus including hardware and software applications, supplies for educational materials, web services, laboratory expenses and equipment, public student computing labs, central email and Internet services, training classes and classrooms, and central help desk services.

Food Service Facilities Fee
This fee provides funds to support year round access, maintenance, repairs, and operation of campus dining facilities.

Health Services Fee
This fee funds health and counseling services for students, which includes the operations of the Student Health Center, the Center for Counseling and Psychological Services, and the Center for Wellness Promotion.

Safety and Security Fee
This fee provides funding for several of the recommendations made by the UNC Board of Governors’ 2013-14 UNC [system-wide] Campus Security Initiative report which include, but are not limited to: (1) campus police officer and telecommunicator compensation; (2) highly qualified and trained investigators and hearing officers for reports of serious offenses, such as sexual violence; (3) Title IX and Clery Act compliance coordination; (4) substance abuse counselors, case managers, and/or other counseling staff; and (5) system-level safety and security training, coordination, and audit functions. The fee may also provide funding to meet some additional campus-specific safety and security needs consistent with the report’s recommendations. The structure for this fee allows $26 of the $30 collected from each student per academic year to fund campus level and shared-services activities, while $4 of the $30 is allocated by the UNC General Administration for system-wide coordination, trainings, and other shared services functions.

Transportation Service Fee
This charge supports funding for Niner Transit (campus shuttle system), the Niner Paratransit service, and the CATS Access Pass. The services provide UNC Charlotte with efficient and safe campus transportation, reduce vehicular congestion, and decrease the demand for proximity parking.

UNC System Student Association Fee
This fee is a University of NC system-wide fee charged to all system students to support the University Of North Carolina Association of Student Governments. This association is a student led advocacy group whose main purpose is to ensure that the benefits of the University of North Carolina are extended to the people of North Carolina, as far as practicable, free of expense.

University Fee
This is a consolidated fee that relates to University debt service payments (to construct new facilities and purchase administrative computing systems) and to support other activities/operations including Athletics programs and events, Student Activity Center operations, and Cone University Center operations. The following fees are consolidated into the University Fee:

- Athletics - Funds intercollegiate athletics, including salaries and maintenance and operation of athletic facilities.
- Student Activities - Funds non-academic student services (student unions, intramural facilities, student organizations, newspapers, yearbooks, and entertainment programs).
- Debt Service - Funds the principal and interest for capital projects. Examples for UNC Charlotte include the Student Union, Football Stadium, and Student Activity Facility.
Special Fees
The following additional major or course fees are charged to cover the cost of supplies or special materials:

<table>
<thead>
<tr>
<th>Major/Course</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>College of Arts + Architecture Student Fee</td>
<td>$125*</td>
</tr>
<tr>
<td>College of Computing and Informatics Student Fee</td>
<td>$112.50*</td>
</tr>
<tr>
<td>College of Engineering Student Fee</td>
<td>$150*</td>
</tr>
<tr>
<td>College of Health and Human Services Student Fee</td>
<td>$125*</td>
</tr>
<tr>
<td>Experiential Learning Fee/Co-op</td>
<td>$60</td>
</tr>
<tr>
<td>International Student Fee (students with Visa type F or J)</td>
<td>$100</td>
</tr>
<tr>
<td>KNES 1290 - First Aid: Responding to Emergencies</td>
<td>$20</td>
</tr>
<tr>
<td>KNES 2219 - Scuba Diving</td>
<td>$60</td>
</tr>
<tr>
<td>KNES 2220 - Advanced Scuba Diving</td>
<td>$35</td>
</tr>
</tbody>
</table>

* These fees apply to students enrolled in 6+ credit hours; students enrolled in 1-5 credit hours are charged half the fee listed.

Application Fee
A $60 application fee must be submitted with the application for admission. The fee is nondeductible and nonrefundable.

Credit by Examination Fee
A written examination for a course requires a fee of $15. A laboratory examination requiring the arrangement of such things as laboratory materials will require a fee of $25. A combination of a laboratory and written examination will require a fee of $30.

Matriculation Fee
Instead of paying separate fees for such things as new student convocation, commencement, and hardcopy academic transcripts, UNC Charlotte students pay a matriculation fee and receive these and other services at no charge. Students are charged the $125 matriculation fee upon entry into a baccalaureate, graduate certificate/master’s, and doctoral program at UNC Charlotte.

Dining, Housing, and Parking
aux.uncc.edu
housing.uncc.edu
pats.uncc.edu

Dining and Meal Plans
Meal Plans, the 49er Account, and the Optional Dining Account all reside on the UNC Charlotte 49er ID Card.

Overview of Meal Plans
All first-year students living on campus, regardless of their housing assignment, are required to purchase The Daily Plan. This meal plan must be purchased each semester of occupancy.

Upper-class students assigned to residence halls without private kitchens are also considered to be living in “required housing” and must choose a meal plan as part of the housing contract. These residences include Holshouser, Hunt, Sanford, Scott, Hawthorn, Laurel, Lynch, Oak and the suites in Belk, Levine, Miltimore, Wallis and Witherspoon.

For a listing of available dining locations, menus, Meal Plans, and Meal Plans Policies, visit aux.uncc.edu/dining/meal-plans.

Housing
Below are the 2021-2022 semester rates for housing at UNC Charlotte. Rates include rent, utilities (including internet, cable, and laundry) and membership in the Resident Students Association (RSA). Prices and plans are subject to change. Housing types are based on availability. Current pricing can be found online at housing.uncc.edu/apply/rates.

</tr>
</tbody>
</table>
Admission to UNC Charlotte does not guarantee residence hall space. Arrangements for on-campus housing are made, after admission, with the Office of Housing and Residence Life. Shared Residence Hall space is not available to spouses or children of enrolled students.

**Housing Deposit**
A $200 deposit must be submitted with all housing contracts. The deposit is not applied toward payment of fees. It is refunded only after the student has left on-campus housing and only if the student has met all financial obligations to the University. In the case of contract cancellation, the date of receipt of the written request for cancellation will determine, in part, the student’s financial obligation to the University (please see the Housing Contract for the current academic year for specific terms and cancellation dates).

**Parking**
Students attending UNC Charlotte (and faculty and staff) are required to register their motor vehicle(s) in order to park on campus. Vehicle registration and virtual permit purchase is available online. Virtual permits are required at all times when parked on campus, unless parked in a visitor parking area. For students, two categories of virtual permits are issued: Resident, for students living on-campus, and Commuter, for students living off-campus.

The 2021-2022 annual rate for a resident or full-time commuter student is $480. Please see pats.uncc.edu for a complete list of fees, permit information, and where each type of permit allows you to park. Full-time virtual permits are valid from August 1 of one year through August 14 of the following year. Semester permits are available for those graduating in December or wish to only purchase one semester at a time.

Parking permits are available to purchase for the fall semester only or the full academic year. Discount remote lot and night permits are also available to commuters. Night permits are valid only after 3 p.m. Parking before 3 p.m. requires parking and payment in a visitor space.

The primary factor that determines permit prices is the cost of new deck construction and replacing flat lots with decks. Neither tuition dollars nor state funds are used toward parking facilities; therefore, parking fees must pay for construction and maintenance of all decks, lots, and associated operations.

**Penalties for Parking Violations**
- Parking and Traffic regulations are enforced 24 hours a day, seven days a week. Currently, permits are enforced at all times, and meters are enforced from 5 a.m. on Monday through 10 p.m. on Friday.
- Violators of University parking regulations are subject to penalties ranging from $20 to $480, depending on the severity of the violation.
- If a citation is not paid or appealed within ten (10) business days, the penalty will be applied to the student’s University account. Subsequent registration may be withheld for non-payment.
- Copies of parking regulations and the citation penalty list are posted on the PaTS website.

The Parking and Transportation Services website, pats.uncc.edu, has current UNC Charlotte parking ordinances, parking policy information, virtual permit and citation FAQs. It is also a source for transportation information, updates, and changes or disruptions to campus parking and transportation.

**Financial Aid**
finaid.uncc.edu

UNC Charlotte administers financial aid without regard to race, color, national origin, religion, gender, sexual orientation, age, or disability.

The University offers a comprehensive program of student financial aid (scholarships, grants, loans, and part-time employment) to assist both graduate and undergraduate students in meeting educational expenses. Reasonable educational expenses include tuition and fees, room and board, books, supplies, transportation, miscellaneous personal expenses, and expenses related to maintenance of a student’s dependents.
Eligibility
The programs of student financial aid are administered according to a nationally accepted policy that the family, meaning parents (or those acting in place of parents) and/or spouse, is responsible for a student's educational expenses. Therefore, eligibility for financial aid will be determined by a comparison of a budget (educational expenses as defined above) for the period of attendance with what the student's family can reasonably be expected to contribute.

A financial aid applicant will be considered for available assistance for which he/she is eligible if the student:

1) Completes the application process and related forms only after thoroughly reading all instructions.
2) Completes the admission application process and is accepted for enrollment at UNC Charlotte.
3) Is working toward a degree or certificate and not simply taking courses.

Satisfactory Academic Progress (SAP) Policy
Federal and state regulations require that students maintain a certain level of academic performance in order to be eligible for and keep their financial aid. This is known as Satisfactory Academic Progress (SAP). All students who wish to qualify for financial aid must meet three standards known as SAP. These standards include:

1) Minimum cumulative Grade Point Average (GPA)
2) Minimum credit hour completion rate
3) Completion of a degree or program of study within a maximum number of credit hours

All prior coursework, attempted and earned, is reviewed in the determination of SAP. Students who have been readmitted as a result of the Forgiveness Policy are still subject to Satisfactory Academic Progress standards for all attempted coursework at UNC Charlotte.

For more complete details on Satisfactory Academic Progress, see the Financial Aid website at ninercen.tar.uncc.edu/financial-aid-loans/keeping-your-aid/satisfactory-academic-progress.

Application Process
To apply for the following programs, students must complete the Free Application for Federal Student Aid using the instructions provided online at www.fafsa.gov. The federal school code for UNC Charlotte is 002975.

- Federal Direct Student Loan
- Federal Pell Grant*
- Federal Perkins Loan
- Federal Supplemental Educational Opportunity Grant*
- Federal TEACH Grant
- Federal Work Study
- UNC Need-Based Grant*
- NC Education Lottery Scholarship*
- University Loans

*For undergraduate students only

Renewal Process
Renewal of financial aid is based upon a student making satisfactory academic progress. The Free Application for Federal Student Aid is required each year that a student applies for financial aid.

Financial Aid Programs
When students apply for financial aid through FAFSA, they receive an aid offer (or "package") that includes a combination of these types of aid, based on their financial need and eligibility. Students may earn more than one type of financial aid. For details about the below financial aid options, please visit finaid.uncc.edu.

Grants
Federal
Federal Grants, with the exception of TEACH, are awarded to students demonstrating significant financial need as determined by the FAFSA. TEACH is not a need-based grant and could require repayment if the recipient does not fulfill the service agreement.

Completion of the FAFSA is required for grant funding. Grant funding does not have to be repaid, however, the availability of grant funding can be limited. Completing the FAFSA by March 1 will ensure the maximum financial aid award.

- Pell Grant
- Federal Work Study (FWS)
- Supplemental Educational Opportunity Grant (FSEOG)
- TEACH Grant (requires repayment if Agreement to Serve is not fulfilled)

State
State grants are awarded to North Carolina residents based on funding availability and need. Recipients are determined by the state of North Carolina and must be seeking their first undergraduate degree. Restrictions regarding credit hours and semesters completed may apply.

- North Carolina Education Lottery Scholarship (ELS)
- University of North Carolina Need-Based Grant

Institutional
Students that apply for financial aid by the established priority date of March 1 are considered for institutional need-based awards provided funding is available.

- State Appropriated Grant (SAG)
- Tuition Assistance Grant (TAG)

Loans
Loans are funds that students borrow from the federal government or other lenders and that must be repaid when students are out of school. Repayment begins six months after students graduate, withdraw, or drop
below full-time. We recommend that students borrow only what they need.

- Federal Direct Loan Program
- Perkins Loan
- Federal PLUS Direct Loans
- Alternative Loans

**Federal Work Study**

Federal Work-Study is a work program through which students earn money to help them pay for school. Since Federal Work-Study funding is limited, it is not included in all student awards. Priority is given to students with higher calculated financial eligibility who indicate on the FAFSA that they are interested in student employment. Students can work a maximum of 20 hours per week.

**Other Assistance**

**Education for the Vocationally Disabled**

Vocationally disabled students are eligible for aid provided by the North Carolina State Division of Vocational Rehabilitation. This aid takes the form of services that include vocational counseling and guidance and placement. Payment of expenses such as training, medical treatment, room and board, books, fees, and tuition may be available. A vocational rehabilitation officer is available in Charlotte for interviewing applicants. Appointments may be made by contacting Vocational Rehabilitation Services at 704-568-8804. Their offices are located at 5501 Executive Center Drive in Charlotte.

**Veterans Benefits**

UNC Charlotte’s Veterans Student Services Office (VSSO) works with the Veterans Administration to assist in administering the various programs of benefit to veterans or eligible relatives of veterans. The VSSO Certifying Official certifies enrollment and transmits necessary credentials and information to the proper Veterans Administrative Office.

Admission to the University should be obtained before the student makes application for veteran's benefits. Applicants must be accepted into a degree program to receive benefits.

In order to be eligible for the full monthly allowance under any of the above laws, an undergraduate student must be enrolled for 12 or more semester hours and a graduate student must be enrolled for nine or more semester hours. Those enrolled on a part-time basis will be eligible for part-time compensation. Students are responsible for reporting any change in enrollment status to the VSO Certifying Official.

For details about available programs, please visit veterans.uncc.edu or call the VA’s toll-free number at 1-800-827-1000.

**Children of Veterans**

The North Carolina Department of Veterans Affairs awards scholarships for the children of certain deceased or disabled veterans. Those awarded "full" scholarships are entitled to tuition, mandatory fees, board allowance, and room allowance; those awarded "limited" scholarships are entitled to tuition and mandatory fees. Written requests for benefits information may be directed to: VA Atlanta Regional Office, Post Office Box 100022, Decatur, GA 30031-7002 (telephone 888-442-4551).

Before the time of registration, each eligible student who wishes to enter the University should: (1) apply for admission following University procedures and (2) apply for a scholarship award to the North Carolina Department of Veterans Affairs.

---

**Scholarships**

[Visit scholarships.uncc.edu](scholarships.uncc.edu)

UNC Charlotte provides all new freshmen, transfer, and returning undergraduate and graduate students the opportunity to apply for scholarships at the start of each academic year. Scholarships can be merit-based or need-based, and may also focus on other criteria defined by the individual donor or donors who fund the award. Scholarships can be used to offset tuition, room and board, books, or study abroad experiences, and do not have to be repaid.

UNC Charlotte committed to offering students an elite scholarship resource on campus by establishing the University Scholarship Office in 2015. This designated student resource office exists to make it easier for students to find and apply for scholarship opportunities, while serving as the single point of contact to students, parents, faculty, and staff with scholarship-related questions.

**NinerScholars Portal**

NinerScholars serves as the common application system for all scholarships offered by a college, department, office, or program at UNC Charlotte. NinerScholars uses the University's student information system to build a scholarship profile specific to each student's academic history and current status. The Portal then compares a student's profile to the criteria for each UNC Charlotte scholarship, matches them with those scholarships they are eligible for, and provides the student with the ability to apply in real-time.

The NinerScholars Portal gives students direct access to apply for more than 1,000 scholarship opportunities with one application, through one online system. To access the NinerScholars Portal, learn more about the scholarship opportunities below, or take advantage of additional scholarship resources, visit the University Scholarship Office website at scholarships.uncc.edu.

**Scholarship Opportunities**

**University Scholarships**

Each year, UNC Charlotte awards more than 1,200 merit and need-based scholarships to recognize outstanding students for prior and sustained academic achievement, and provide assistance to students with demonstrated financial need. Students must apply for all University Scholarships in addition to completing an admissions application. Scholarships are applied for through the NinerScholars Portal, which can be accessed at scholarships.uncc.edu. To be considered for need-based scholarships, a student must complete a Free Application for Federal Student Aid (FAFSA) for the upcoming academic year and have no outstanding requirements or financial obligations to the University. University Scholarships may be used to offset tuition, room and board, books, or study abroad experiences depending on the specific terms of the fund and do not have to be repaid.
**External Scholarships**
The University Scholarship Office maintains comprehensive opportunities to help students research and apply for scholarship opportunities that are administered and awarded by public and private corporations, philanthropic organizations, or individual donors. These resources include free search engines and a database of specific scholarship opportunities, which are open to students with varying majors, GPAs, or professional goals. These resources can be found at scholarships.uncc.edu.

**Levine Scholars Program**
The Levine Scholars Program is UNC Charlotte’s most prestigious merit scholarship program established in 2009 by benefactors Sandra and Leon Levine. The inaugural class of Levine Scholars entered in the Fall semester of 2010 and a new cohort of approximately 20 students is selected to join the program each year. Levine Scholars carry a high honor, one that bestows tremendous opportunities and assumes high expectations of its recipients – as students, as leaders within the university, and as citizens of the global community. No matter what their interests, Levine Scholars find campus and community partners eager to embrace their contributions and enhance their education through hands-on experiences. To complement classroom learning, Levine Scholars participate in rich and varied opportunities in the vibrant commercial and cultural center of Charlotte. To learn more about the Levine Scholars, visit levinescholars.uncc.edu.

**Honors College Scholarships**

**Albert Engineering Leadership Scholars Program**
The Albert Engineering Leadership Scholars Program was established by Craig Albert (’85) to invest in the next generation of engineering student leaders, and to produce graduates distinguished by their excellence in applied learning, campus involvement, and professional development. This scholarship is awarded to incoming freshmen and is renewable for up to three additional years contingent upon maintaining a cumulative GPA of 3.0, continuing full-time enrollment, and meeting program requirements. The Albert Scholars receive an award equal to the cost of tuition, room and board, and books.

**Freeman Scholarship**
The Freeman Scholarship was established by Craig and Darla Albert (’85 and ’83) in 2019. Freeman Scholars are impressive, thoughtful, and persistent in overcoming challenges. They all demonstrate intellectual curiosity and a strong academic foundation; community-mindedness and dedication to service; and capacity for reflection, leadership, and growth. Recipients of the Freeman Scholarship are awarded an in-state tuition and fees for three additional years, membership in a multi-year honors program and support from the Honors College, and access to honors housing in Levine Hall.

**Johnson Scholarship**
In establishing the Johnson Scholarship, Gene and Vickie Johnson (’71 and ’82) intend to create a perpetual endowment for the purpose of increasing opportunity at UNC Charlotte for middle-income students whose families do not qualify for federal grant aid programs and may struggle to afford a college education. Johnson Scholars may be enrolled in any major and must be eligible for one of the University’s honors programs. In addition, recipients must have substantial unmet financial need and come from middle-income families who exceeded the threshold for federal grant aid. Recipients are awarded in-state tuition and fees renewable for three additional years.

**Martin Scholars Program**
The Martin Scholars Program is one of UNC Charlotte’s leading merit scholarship programs, established in 2016 through the generosity of UNC Charlotte alumni Demond T. and Twakia “Kia” Martin (’97 and ’98). Martin Scholars are promising, motivated students from underrepresented groups who demonstrate the highest level of financial need in pursuing a college education. Awards are made to new freshman and transfer students, as well as continuing students. Martin Scholarships are renewable, and award amounts range with the purpose being to eliminate the burden of student loans for each recipient.

To learn more about these Honors Programs scholarships, visit honorscollege.uncc.edu/honors-programs. Eligible students can access the application for these and all other University scholarships at scholarships.uncc.edu.

---

**Payment**

ninercnetal.uncc.edu

The Office of the Bursar bills students for tuition, room and board, and various other University charges. Student with a balance receive an email to their UNC Charlotte email address informing them that their bill is available online at my.uncc.edu. It is the student’s responsibility to regularly check their UNC Charlotte email account. Failure to receive a billing statement or view their account online will not exempt students from having their registration cancelled for non-payment or from having a hold placed on their account blocking them from receiving their transcript and diploma.

Payment can be made by cash, check, online from a checking or savings account (eCheck), or by credit card (Visa, MasterCard, American Express, or Discover). All payments must be in U.S. currency. Remittance should be made payable to “UNC Charlotte” and identified with the student name and ID number.

UNC Charlotte offers a payment plan which allows students to spread out their tuition and fees, on-campus housing and dining, and other charges billed to the student’s account into multiple installment payments.

**Returned Check Policy**
If a check is returned by the bank, students are notified via their UNC Charlotte email account, indicating that a penalty of $25 has been assessed to their student account. A hold is placed on the student’s record until the returned check is covered and the penalty is paid.

A student who pays a previous balance with a check in order to have a registration hold flag lifted will have their registration cancelled if the check is returned by the bank for any reason.

**Parent Information/Authorized Payers**
Authorized Payers are family and friends that have been given the ability to access the Student Account information only. In compliance with the Family Educational Rights and Privacy Act of 1974 (FERPA), student financial records may not be shared with a third party without the student’s written consent. Adding an authorized payer is the student’s written consent that an individual may view their account information and
make payments on their behalf. Please note that authorized payers DO NOT have access to a student’s stored payment methods, academic records, or other personal information.

Students can add Authorized Payers by logging in to my.uncc.edu and then clicking the “View or Add Authorized Payer” button located in the My Student Account block.

Authorized Payers will receive an email informing them that they have been granted access to the student’s account information. The email notification will include access information that will be used when accessing the information from the Payment/Billing Suite at ecom.uncc.edu/C21561_tsa/web/login.jsp.

---

**Refunds**

[ninercentral.uncc.edu](http://ninercentral.uncc.edu)

**Fall and Spring Semesters**

Students who officially withdraw (drop all courses) from the University during the Fall or Spring semester will receive a refund as follows:

<table>
<thead>
<tr>
<th>Period of Withdrawal</th>
<th>Percent of Tuition and Fees Refunded</th>
</tr>
</thead>
<tbody>
<tr>
<td>Before last day to Add/Drop course(s) with no grade</td>
<td>100%</td>
</tr>
<tr>
<td>Period 1*</td>
<td>90%</td>
</tr>
<tr>
<td>Period 2*</td>
<td>50%</td>
</tr>
<tr>
<td>Period 3*</td>
<td>25%</td>
</tr>
<tr>
<td>Period 4*</td>
<td>0%</td>
</tr>
</tbody>
</table>

*Generally, each period is two weeks in length; however, for specific dates of each period, please visit the Refunds Schedule on the Niner Central website at ninercentral.uncc.edu/billing-payments-refunds/refunds-reductions-hours/refunds-withdrawal.

**Summer Terms**

Students who officially withdraw (drop all courses) from the University during a Summer term will receive a refund as follows:

<table>
<thead>
<tr>
<th>Period of Withdrawal (Summer Terms)</th>
<th>Percent of Tuition and Fees Refunded</th>
</tr>
</thead>
<tbody>
<tr>
<td>Period 1*</td>
<td>100%</td>
</tr>
<tr>
<td>Period 2</td>
<td>0%</td>
</tr>
</tbody>
</table>

*Generally, the first period is very short due to the condensed Summer terms; however, for specific dates of each period, please visit the Refunds Schedule on the Niner Central website at ninercentral.uncc.edu/billing-payments-refunds/refunds-reductions-hours/refunds-withdrawal.

**Exceptions**

Charges are refundable by administrative action on a prorated basis for the unexpired portion of the term for the following reasons: death of the student, withdrawal for adequate medical reason as certified by the University’s Student Health Center or family doctor, death in the immediate family that necessitates student withdrawal, and dismissal or suspension from school. Immediate family is defined as wife, husband, parent, child, brother, sister, grandparent, and grandchildren, and includes step-, half- and in-law relationships. Appropriate documentation must be submitted to the Dean of Students.

---

**Appeal Procedure for Refunds**

Students are provided an opportunity to appeal charges associated with tuition, fees, housing, and dining. The student will have the burden of proving a case for appeal by a preponderance of evidence. Appeals will not be considered that arise from a student’s error on registration or situations resulting from a deliberate decision or series of decisions by the student, such as a failure to be aware of deadlines and/or due dates. Full reductions or refunds are typically not granted for students who attend any portion of a semester. Appeals must be substantiated with supporting documentation or verification of extenuating circumstances that warrant basis for the appeal. Extenuating circumstances may include personal or family emergencies as a result of the illness or death of a family member, medical and/or mental health reasons, orders requiring military service, or errors committed by the University. At both levels of appeal, review and consideration for a decision will be based upon the information provided in the appeal as well as the supporting documentation accompanying the appeal. Appeals submitted without supporting documentation will not be processed for review and consideration until supporting documentation is provided. Students must submit a first level appeal within one calendar year from the date the fee was initially charged to the student. The second level of appeal must be submitted within ten (10) business days of the delivery of the first appeal decision. See thd.uncc.edu for more details.
College of Arts + Architecture
The primary mission of the College of Arts + Architecture is to provide programs that prepare graduates for careers as architects, artists, leaders, cultural administrators, and innovators in our emerging creative economy. The college draws together in a single academic unit disciplines with common histories, methods of inquiry, and potential for contributions to the community. It serves to enhance creative, professional, and cultural production within the University of North Carolina at Charlotte and to help lead the creative economy in the region and state. The college is responsive to both cross-cultural exchange and interdisciplinary research and programming and seeks to provide new connections to the public realm and new opportunities for community leadership. The arts and architecture have a long history of collaboration; they require analysis and interpretation of information and media, and they demand imagination regarding the realms of communication, technology, economic change, and diversity.

The College of Arts + Architecture consists of one school and four departments, which share basic educational values and academic aspirations:
- School of Architecture
- Department of Art and Art History
- Department of Dance
- Department of Music
- Department of Theatre

### Degree Programs
All first-time, full-time freshmen entering the College of Arts + Architecture and UNC Charlotte in the Fall semester are required to take COAA 1101 (Student Success in Architecture, Art, Performance, and Design) during their first semester in the college.

All students in the College of Arts + Architecture must also satisfy the requirements for the degree program(s) in which they are enrolled. Students should consult with their academic advisor and chosen department to make certain they fully understand all degree requirements.

### Foreign Language Requirement
All students who earn a degree within the College of Arts + Architecture are required to demonstrate proficiency in the language of their choice through the 1202 level. Proficiency can be demonstrated in one of the following ways:

- Completing the required coursework at UNC Charlotte
- Completing three years of the same foreign language in high school through level three
- Achieving a satisfactory score on the foreign languages placement test (in Spanish, French, or German)
- Through approved transfer or transient credit earned at a college or university accredited by an accepted accrediting body
- A combination of the above methods (e.g., placing out of or earning transfer or transient credit for 1201 and completing the 1202 course, completing 1201 and placing out of or earning transfer or transient credit for 1202)

The following courses meet the College of Arts + Architecture’s foreign language requirement. Please note that the below courses also have prerequisites that students must meet prior to enrolling in the courses.

- ARBC 1202 - Elementary Arabic II (3)
- CHNS 1202 - Elementary Chinese II (3)
- FARS 1202 - Elementary Farsi II (3)
- FREN 1202 - Elementary French II (3)
- GERM 1202 - Elementary German II (3)
Grek 1202 - Elementary Ancient Greek II (4)
Itln 1202 - Elementary Italian II (3)
Japn 1202 - Elementary Japanese II (3)
Latn 1202 - Elementary Latin II (4)
MDK 1202 - Elementary Modern Greek II (4)
Port 1202 - Elementary Portuguese II (3)
Russ 1202 - Elementary Russian II (3)
Span 1202 - Elementary Spanish II (4)
Swah 1202 - Elementary Swahili II (4)

* This requirement applies to all students entering any degree program within the College of Arts + Architecture except those students in the B.F.A. in Art and the Music Education concentrations within the B.M. in Music.

**Arts and Architecture Honors Program**

With the founding of the College of Arts + Architecture (CoA+A), an Arts and Architecture Honors Program (AAHP) was established to provide an enriched academic and interdisciplinary experience for the college’s most talented and self-motivated undergraduate students. The AAHP is one of the primary initiatives that formally brings students together all units of the CoA+A. The AAHP furthers the CoA+A’s goals of providing creative leadership for the University of North Carolina at Charlotte and greater Charlotte communities by encouraging and developing the full potential of its outstanding students. AAHP students take an active and engaged role in their own education within an interdisciplinary curriculum built on the shared nature of the built, visual, and performing arts. AAHP students not only explore connections between their various artistic disciplines, but also between the arts and the community. For additional details and application forms, visit the College of Arts + Architecture Honors website at coaa.uncc.edu/college/honors.

**Course Requirements**

**Introductory Course (2 credit hours)**
AAHP 2600 - Introductory Honors Seminar (2)

**Elective Honors Courses (6 credit hours)**
Select two courses from the following. Notes: For UWRT and LBST courses, they must be the Honors section (H) of these courses. Also, one of these courses is almost always WRDS 1103 (Honors section).

WRDS 1103 - Writing and Inquiry in Academic Contexts I and II (3)
LBST 1101 - The Arts and Society: Dance (3)
LBST 1102 - The Arts and Society: Film (3)
LBST 1103 - The Arts and Society: Music (3)
LBST 1104 - The Arts and Society: Theater (3)
LBST 1105 - The Arts and Society: Visual Arts (3)
LBST 2102 - Global and Intercultural Connections (3)
LBST 2211 - Ethical Issues in Personal, Professional, and Public Life (3)
LBST 2215 - Citizenship (3) (SL)
HONR 3700 - Honors College Topics (3)
HONR 3702 - Seminar in Cultural Values and Social Issues (3) (W)

**Seminar Courses (6 credit hours)**
Select two of the following (at least one of which is not from the student’s department):
AAHP 3701 - Honors Seminar in Dance (3)
AAHP 3702 - Honors Seminar in Architecture (3)
AAHP 3703 - Honors Seminar in Music (3)
AAHP 3704 - Honors Seminar in Theatre (3)
AAHP 3705 - Honors Seminar in Art and Art History (3)
AAHP 3706 - Interdisciplinary Honors Seminar (3)

**Thesis Course (3 credit hours)**
AAHP 3900 - Honors Thesis (3)

This is an independent study course an AAHP student enrolls in with his or her Honors Thesis Advisor. It is taken during the student’s final semester, and they must earn a grade of A. A student selects a Thesis Advisor during the Application to Candidacy process. Enrolling in this course is done only during a student’s final semester and is required for completing the honors thesis and our program. All AAHP coursework must be completed before enrolling in AAHP 3900. AAHP 3900 is offered to an AAHP student after he or she successfully completes the Application to Candidacy process. The Application to Candidacy process is required for all students at UNC Charlotte completing an honors thesis. Please note: the Application to Candidacy process is undertaken during a
student's penultimate semester (i.e., the semester before she or he enrolls in AAHP 3900). The process begins with a consultation with the AAHP Director. The process, which includes writing and researching a thesis proposal as well as forming a thesis committee of three faculty members, must be signed off on and submitted to the Honors College by Reading Day of the semester. Students do not receive any AAHP course credit for the Application to Candidacy work they undertake during the semester before enrolling in AAHP 3900. See coaa.uncc.edu/college/honors for more details and the Application to Candidacy form.

**Grade Requirements**

In order to graduate with the Arts + Architecture honors distinction, candidates must have a 3.5 cumulative GPA and complete the requirements outlined above.
School of Architecture

soa.uncc.edu

Undergraduate Programs

- **B.A. in Architecture**
- **Minor in Architectural History and Criticism**
- **Early Entry: Master of Architecture (M.Arch.)**

The mission of the School of Architecture (SoA) is to advance excellence in architectural education through innovative research, teaching, and design practices. The School seeks to further the discourse between the theory and practice of architecture through the education and training of students, the work and research of the faculty, and ongoing engagement with the University, the profession, and the community. Architecture encompasses the constructed environment at all scales.

To prepare undergraduate students to become future community and architectural leaders, the School of Architecture seeks to provide both a liberal and a professional education based on a holistic view of the built environment. The studio/seminar sequence in the Core Program emphasizes both writing and making to introduce students to alternative and complementary methods of investigating design problems. The professional degree path in the Advanced Program culminates in studios that emphasize self-direction and provide directed instruction on matters of importance to contemporary practice and theory, and includes courses in advanced building technology, professional practice, and digital practices.

Accreditation

The School of Architecture maintains accredited status through the National Architectural Accrediting Board, which reviews the curriculum, facility, faculty, and program resources annually. In addition, the NAAB conducts an intensive site visit every eight years. The School has maintained full accreditation standards as prescribed by this board and includes the following required statement:

"In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit professional degree programs in architecture offered by institutions with U.S. regional accreditation, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted an eight-year, three-year, or two-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may require a preprofessional undergraduate degree in architecture for admission. However, the preprofessional degree is not, by itself, recognized as an accredited degree."

University of North Carolina at Charlotte, School of Architecture, offers the following NAAB-accredited degree programs:

- **Master of Architecture (M.Arch.)**
  - M.Arch. 1 Track (non-preprofessional degree + 96 credit hours)
  - M.Arch. 2 Track (pre-professional degree + 60 graduate credit hours)
  - M.Arch. Advanced Standing Track (UNC Charlotte pre-professional B.A. in Architecture + 40 credit hours)

Next accreditation visit for all programs: 2024.

Areas of Academic Focus

Required and elective courses provide opportunities for topical study of issues, themes, subdisciplines, and methods, both current and historic to architectural practices: theoretical concerns, urban design, landscape, representation, building technology, digital practice and fabrication, environmental issues, community practice, and constructional/making concerns. The School of Architecture faculty offer expertise and instruction in the following areas:

1) **Design** - Studios and seminars provide both analytical and synthetic educational experiences along with the opportunity to pursue intense study of physical-environmental subject(s). These courses link humanistic, physical phenomena, social-psychological, behavioral, perceptual, and aesthetic studies. Design courses focus on a sophisticated and detailed study of building and site design arising from the representational methods intrinsic to architecture as well as investigation and criticism of contemporary practice and practitioners as it pertains to the understanding, design, and making of architecture.

2) **History and Theory** - These courses provide an understanding of the relationships between culture and its physical architectural manifestations from ancient to contemporary times. Courses focus on interpretive lenses, research methods, and writing strategies for the historical analysis and criticism of architecture. History and theory courses explore how these activities inform and relate to contemporary architectural practice, as well as how related disciplines in the social sciences and humanities inform an understanding of the built environment.

3) **Building Technology** - These courses provide a quantitative and qualitative understanding of building materials, structural theory and design, environmental systems issues and principles, and building systems integration. Courses explore emerging issues of sustainable design and the development of innovative building envelopes and systems that utilize both new and traditional materials, technology, and construction methods. Seeking to explore the historical as well as contemporary realms of thermal, tactile and visual issues of architectural technology, students address appropriate material selection, methods of daylighting, passive and active systems for heating and cooling with consideration of both qualitative and quantitative outcomes.

4) **Digital Design, Fabrication, and Visualization** - These courses provide practical and theoretical training on matters of basic and advanced computational practices, including instruction in scripting and digital fabrication. These courses provide practical and theoretical training on matters of basic and advanced computational
practices, including instruction in scripting and digital fabrication. Courses focus on computation as it affects materiality, process, and interaction. Work in this concentration focuses on the responsible material constraints of digital manufacturing techniques, the ways in which our methodologies are affected by computation, and the ways in which digital technology is changing the expectations for interaction in our designed spaces and urban conditions.

5) Urbanism - These courses focus on the critical role of architecture in the city -- the processes and specific intents of physical interventions in urban landscapes and infrastructures. Through the design of groups of buildings as well as larger scale urban areas, issues of policy, politics, finance, planning, place, and culture are introduced as part of the essential conception and history of the city fabric.

Independent Studies
When appropriate, students may earn credit by pursuing a self-directed, faculty-approved study of a particular, significant architectural topic or subject.

Research Studies
Students may earn credit through participation in directed faculty research projects.

Rome Program and Education Abroad Opportunities
The School of Architecture conducts an international, semester-based program in Rome, Italy. This program provides a fully integrated curriculum in the Spring semester of the 4th year of the B.A. in Architecture program.

Additionally, the School encourages foreign study and exchange arrangements through the Office for International Programs. In the past, School of Architecture students have studied at Kingston University (London, England); Lund Institute of Technology (Lund, Sweden); University of Technology (Delft, Netherlands); Tongji University (Shanghai, China); and the Royal Danish Academy of Fine Arts (Copenhagen, Denmark).

Bachelor of Arts in Architecture
The undergraduate Bachelor of Arts in Architecture is a 4-year pre-professional foundation degree, which requires 128 credit hours. Students who wish to become registered architects must also earn a professional NAAB-accredited degree. Graduates of UNC Charlotte’s B.A. in Architecture who maintain a 3.25 GPA may qualify for Advanced Standing in the Master of Architecture program, which leads to an accredited professional degree in a five-year timeframe (128+40). Information on the Master of Architecture degree program may be found in the UNC Charlotte Graduate Catalog.

Admission Requirements
Freshmen and Transfers
- **Minimum GPA:** n/a (Freshmen); 2.0 (Transfers)
- **Declaration of Major:** Applicants must first apply to UNC Charlotte indicating the Architecture major as their intended major. UNC Charlotte applications must be complete by January 31. Applicants must also submit a second application to the School of Architecture (SoA) by the posted deadlines. Students already enrolled at UNC Charlotte access the SoA Application from the School of Architecture’s website. The SoA Undergraduate Admission Review includes an evaluation of the UNC Charlotte and SoA applications by a faculty committee with qualified applicants granted a personal interview (which will include a presentation of their portfolio of creative work). All SoA admission decisions are completed by April 1 for entry beginning in the Fall semester.

Undergraduate admission to the School of Architecture is to the four-year Bachelor of Arts in Architecture (B.A. in Architecture) -- a pre-professional foundation degree that serves as a foundation for the 12-month M.Arch. degree (Advanced Standing). There are also options for dual-degrees and post-professional graduate studies in Urban Design, Geography, Business/Real Estate Development, and Computing and Information Systems. Students who do not intend to pursue an accredited professional architecture degree may elect a modified undergraduate curriculum that allows greater academic flexibility.

Students who maintain a minimum GPA (3.25 in architectural studies through the Fourth Year) are automatically recommended for acceptance into the graduate Master of Architecture program. Students with an “automatic admit” to the Advanced Standing M.Arch. program may enter the Summer term following completion of the B.A. degree program, or may defer one year and enroll in the subsequent academic year. Students who do not have minimum GPA for the “automatic admit” must submit a separate application for admission to the graduate Master of Architecture program.

Degree Requirements
**College Prospect for Success Course (2 credit hours)**
*All new freshmen in the College of Arts + Architecture must take the following:*
- COAA1101 - Student Success in Architecture, Art, Performance, and Design (2)

**General Education Courses (37-41 credit hours)**
For details on required courses, refer to the General Education program. Courses to meet these requirements are incorporated in the curriculum structure. However, as part of their General Education Requirements, students in the B.A. in Architecture program must complete the following:
- MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
- PHYS 1101 - Introductory Physics I (3)
- PHYS 1101L - Introductory Physics I Laboratory (1)

**Foreign Language Requirement (0-8 credit hours)**
Students in this major within the College of Arts + Architecture are required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

**Core Program**
All undergraduate students in the School of Architecture complete a three-year core sequence of courses designed to provide a solid understanding of fundamental issues, knowledge, and skills related to architecture. These courses include a series of coordinated architecture design studios, skill-building seminars, a four-semester sequence of
architectural history (three survey courses and one history topic elective), and four courses in building technology (one course in Architectural Materials, two courses in Structures, and one course in Environmental Systems Principles). Students who do not intend to pursue an accredited professional degree (the M.Arch.) must complete only the Core Program and earn a non-pre-professional version of the Bachelor of Arts in Architecture. This alternative allows greater academic flexibility for students to augment their architectural studies with coursework from other University departments, allowing double major or minor in other disciplines, or preparation for graduate studies in related fields (such as planning, urban design, landscape architecture, or architectural history).

**Advanced Program**
Students who intend to pursue an accredited professional degree (the M.Arch.) must complete the Advanced Program and earn a pre-professional version of the Bachelor of Arts in Architecture. This presents opportunities for greater depth of inquiry, breadth of understanding and synthesis through advanced architectural design and electives. Concentrated primarily in the Fourth Year of study, the Advanced Program includes an intensive building design studio in which students learn advanced computing skills, various topical design studios in which faculty steer focused research agendas, and additional courses in technology, history, and other topics that engage contemporary architecture. The following courses are not required for the B.A. in Architecture degree, but are required for subsequent accredited degrees, such as the Master of Architecture at UNC Charlotte:

- **ARCH 1101 - Architecture Design Studio I (6)**
- **ARCH 1102 - Architecture Design Studio II (5)**
- **ARCH 1602 - Writing Reading Thinking Architecture (3)**
- **ARCH 2101 - Architecture Design Studio III (3) (0)**
- **ARCH 2102 - Architecture Design Studio IV (5)**
- **ARCH 3101 - Architecture Design Studio V (5)**
- **ARCH 3102 - Architecture Design Studio VI (3)**
- **ARCH 4050 - Architecture Topics (1 to 4)**
- **ARCH 4201 - Architectural History I (3)**
- **ARCH 4202 - Architectural History II (3)**
- **ARCH 4203 - Architectural History III (3)**
- **ARCH 4204 - History/Theory Topics (3) (W)**
- **ARCH 4301 - Material and Assembly Principles (5)**
- **ARCH 4302 - Environmental Systems Principles (3)**
- **ARCH 4303 - Structural Principles (3)**
- **ARCH 4604 - Computational Methods (3)**

**Degree Total = 128 Credit Hours**

**Advising**
The advising program consists of two tiers: Staff Academic Advisor (Core Program advising) and Associate Director (Advanced Program advising).

**Grade Requirements**
Students with a Major in Architecture and Minor in Architectural History and Criticism must take an additional 6 credit hours of related

---

One grade of D in any studio is permissible. A second grade of D or F in a subsequent studio requires repeating the course. Successive D and/or F grades in a studio that is taken for a second time results in suspension from the Architecture program.

To graduate with a Bachelor of Arts in Architecture degree, an overall GPA of 2.0 must be achieved in all courses offered by the School.

Students may not repeat an ARCH course more than once. Students are permitted one opportunity to repeat any architecture course. Earning a grade of F in the same course twice results in suspension from the Architecture program.

Students who are suspended from the University due to deficiencies in their academic performance will be suspended from the Architecture program. If a student is readmitted to the University, they are not automatically readmitted into the Architecture program; they must appeal to the School of Architecture for reinstatement. Students who are readmitted to the University under the Forgiveness Policy must also appeal to the School of Architecture for reinstatement into the Architecture program.

**Honors Program**
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section in this Catalog.

**Minor in Architectural History and Criticism**
The Minor in Architectural History and Criticism is open to students of any major and requires the completion of 18 credit hours of coursework. The requirements vary for architecture majors and non-majors.

**Minor Requirements for Architecture Majors**
Architecture majors must complete the requirements for the minor within their B.A. in Architecture 4-year degree.

**Foundation Courses (6 credit hours)**
Completion of the following courses with a grade of B or above is necessary to declare the minor. However, these 6 credit hours do not count towards the minor for architecture majors.

- **ARCH 4201 - Architectural History I: Prehistory-1750 (3)**
- **ARCH 4202 - Architectural History II: 1750-Present (3)**

**Required Courses (12 credit hours)**
For architecture majors, ARCH 4203 and ARCH 4204 may count towards both the minor and the major.

- **ARCH 4203 - Architectural History III: Survey of Contemporary Theory (1950-Present) (3)**
- **ARCH 4204 - History/Theory Topics (3) (W)**
- **ARCH 4204 - History/Theory Topics (3) (W) (repeated with change of topic)**
- **ARCH 4600 - Architectural History and Criticism Methodologies (3)**

**Elective Courses (6 credit hours)**
Students with a Major in Architecture and Minor in Architectural History and Criticism must take an additional 6 credit hours of related
coursework selected from the list below. Special topics or other courses not on this list may be approved by the Academic Advisor for Architecture. One course may count towards both the Minor in Architectural History and Criticism and another minor.

AFRS 2105 - Black Images in the Media in the U.S. (3)
AFRS 2111 - Yoruba Language and Culture I (3)
AFRS 2112 - Yoruba Language and Culture II (3)
AFRS 2156 - African Civilization (3)
AFRS 2206 - African Literature, Music, and Art (3) (W)
AFRS 3121 - Contemporary African Art (3)
AFRS 3261 - Psychology of the Black Experience (3)

**Minor Requirements for Non-Architecture Majors**

*Foundation Courses (6 credit hours)*

Completion of the following courses with a grade of B or above is necessary to declare the minor.*

---

2021-2022 UNC Charlotte Undergraduate Catalog | College of Arts + Architecture | 91
ARCH 4201 - Architectural History I: Prehistory-1750 (3)
ARCH 4202 - Architectural History II: 1750-Present (3)

Required Courses (12 credit hours)
Two of the following courses may be counted towards the Minor in Architectural History and Criticism and another major or minor.

ARCH 4203 - Architectural History III: Survey of Contemporary Theory (1950-Present) (3)
ARCH 4204 - History/Theory Topics (3) (W)
ARCH 4204 - History/Theory Topics (3) (W) (repeated with change of topic)
ARCH 4600 - Architectural History and Criticism Methodologies (3)

Total = 18 Credit Hours

Grade Requirements
Students must maintain a minimum GPA of 3.0 in all courses counted toward the minor.

Early Entry: Master of Architecture
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
• Completion of at least 98 undergraduate credit hours
• Minimum 3.25 overall undergraduate GPA
• Acceptable scores on the appropriate graduate standardized test (e.g., GRE)
• Submit application online at mygradschool.uncc.edu and provide supporting documents
• Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
• Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
• Maintain a minimum 3.0 overall undergraduate GPA
• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

More Information
For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

Academically talented high school seniors and UNC Charlotte undergraduate freshmen are encouraged to apply to an Accelerated Master’s Program to begin work toward both undergraduate and graduate degrees in their Freshman year.

Admission Requirements
• Minimum high school GPA of 3.75 (on a 4.0 scale)
• Minimum score of 1220 on current SAT
• Completion of the School of Architecture’s secondary application (including the submittal of a 6 to 10 page portfolio of creative work) and acceptance into the SoA

Continued Enrollment Requirements
Students must maintain a strong academic record at both the undergraduate and graduate levels with a cumulative undergraduate GPA of 3.2 or higher (3.25 in the major) and a cumulative graduate GPA of 3.0 or higher. Students accepted into the Accelerated master’s program are subject to the same policies that pertain to other matriculated graduate students.

Double-Counted Courses
Up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be “double counted” toward both the undergraduate and graduate degrees.

More Information
For additional details on the Accelerated Master’s Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/accelerated-masters.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
The degree programs are structured upon the following premises:

- Students need a basic level of skill and aesthetic sensitivity in a variety of studio disciplines.
- Students need an awareness of the common core of historical and theoretical knowledge in the arts.
- Students need in-depth knowledge to critically synthesize formal and conceptual aspects of work in a specific area of study.

Studio Art and Graphic Design courses are open to Art and Graphic Design majors only. Most Art History courses are open to any major in the department.

Transfer Credit
All transfer courses are automatically reviewed by the Office of Undergraduate Admissions. Students seeking to appeal the official transfer designations for ARTx courses must provide the Department Academic Advisor with copies of the official course descriptions and a syllabus for each course requested for consideration. Portfolios of creative work from each of the individual studio courses may also be required.

Bachelor of Arts in Art
The Bachelor of Arts (B.A.) in Art requires 120 credit hours and is recommended for those interested in a double major, or for those intending to pursue a career in a discipline other than art. It is not intended for students interested in an in-depth study in a single studio area.

Admission Requirements
Freshmen and Transfers
- **Minimum GPA:**
  - New freshmen and transfers - N/A
  - Internal transfers (students already enrolled at UNC Charlotte)
    - minimum cumulative GPA of 2.0
- **Other:** All prospective studio students must apply for Art major status by submitting a digital portfolio of creative work to the department. Portfolios are reviewed once per year in the Spring semester.
- **Declaration of Major:** All freshmen seeking admission to the B.A. degree program must first submit a completed application for Fall admission to the University by January 31 to be eligible to submit a digital portfolio for consideration during the Priority Review in early March. Applicants who miss the January 31 deadline must submit a completed application for Fall admission to the University by March 1 to be eligible to submit a portfolio for consideration during the Space Available Review in mid-April. For the most current deadlines, refer to the Undergraduate Admissions website. Students who are not admitted may re-submit their portfolio the following year (only one resubmission is allowed).
- **Transferable Credit Hours:** Determined by UNC Charlotte Undergraduate Admissions. Students seeking to apply coursework taken at other institutions to the Art major must provide copies of the official course description and a syllabus for each course requested for consideration.

Students cannot take any studio course without having Art major status. All studio classes are reserved for Art majors only.

Degree Requirements
College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
- COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (35 credit hours)
For details on required courses, refer to the General Education program.

Students intending to earn either the B.F.A. in Art or the B.A. in Art should take three ARTH 120x courses, and one ARTH course (ARTH 1211, ARTH 1212, or ARTH 2110) in the first semester of their Freshman year. All of the General Education courses should be organized around the Art requirements. It is usually not possible to graduate in four years without taking this number of Art courses right away. Prerequisite sequencing dictates the time to graduation, and all students should become thoroughly familiar with the course descriptions.

Foreign Language Requirement (0-8 credit hours)
Students in this major within the College of Arts + Architecture are
required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

**Major Courses (39 credit hours)**

**Basic Foundation Studios (12 credit hours)**
- ARTB 1201 - 2D Design (3)
- ARTB 1202 - 3D Design (3)
- ARTB 1203 - Drawing 1 (3)
- ARTB 1206 - Conceptual Practices (3)

**Elective Studio Courses (15 credit hours)**
Select five of the following: Students must successfully complete the Basic Foundation Studios courses listed above to enroll in upper-level courses. At least 9 credit hours must be taken at UNC Charlotte.

- ARTx any 2000-level 2D studio course*
- ARTx any 2000-level 3D studio course**
- ARTx any 2000- or 3000-level studio course
- ARTx any 2000- or 3000-level studio course
- ARTx any 2000- or 3000-level studio course

*Options for 2000-Level 2D Courses:
- ARTD 2134 - Figure Drawing I (3)
- ARTD 2139 - Drawing II (3)
- ARTG 2181 - Graphic Design I (3)
- ARTL 2186 - Illustration I (3)
- ARTM 2105 - 4D (3)
- ARTP 2131 - Painting I (3)
- ARTR 2161 - Photo-Mechanical Print Media (3)
- ARTR 2162 - Drawing/Expression in Print Media (3)
- ARTT 2191 - Photographic Media I - Darkroom (3)

**Options for 2000-Level 3D Courses:
- ARTC 2171 - Ceramic Handbuilding (3)
- ARTC 2172 - Ceramic Wheel I (3)
- ARTF 2151 - Fibers I (3)
- ARTG 2104 - Installation Art (3)
- ARTZ 2141 Methods and Materials in Sculpture
- ARTZ 2306 - Introduction to 3D Modeling and Digital Fabrication (3)

**Art History Courses (9 credit hours)**
- ARTH 1211 - Art History Survey I (3)
- ARTH 1212 - Art History Survey 2 (3)
- ARTH 2110 - Contemporary Art History (3)

**Senior Seminar (3 credit hours)**
- ARTA 4600 - Senior Seminar (3) (O, W)*

*This Senior level course should be taken with the last Elective Studio during a student’s last one or two semesters of study at UNC Charlotte. Senior Seminar fulfills one of the two Writing Intensive (W) requirements in General Education, as well as the Oral Communication (O) requirement.

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

---

**Degree Total = 120 Credit Hours**

**Academic Advising**
All Art, Graphic Design, and Art History majors are required to meet with the Academic Advisor in the Department of Art and Art History each semester. Students will not be able to register for any course at UNC Charlotte without attending the mandatory advising meetings. The Academic Advisor is available year-round.

Career mentoring in studio, graphic design, art history, and art education is offered by individual faculty members who are active professionals in those areas of study. Contact is best done by email or telephone. Most professors are available for appointments from the first day of classes until the last day of classes each Fall and Spring semester. Requirements for degrees and minors, as well as 4-year B.F.A. calendars, are available in the Department of Art and Art History office and online at art.uncc.edu.

Students seeking to confirm that General Education graduation requirements are met should use DegreeWorks in My UNC Charlotte (my.uncc.edu). Those seeking confirmation of Art requirements must contact the Academic Advisor.

**Grade Requirements**
To graduate with a B.A. in Art, students must achieve a minimum GPA of 2.0 in all courses required for the major.

**Honors Program**
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

---

**Bachelor of Fine Arts in Art**

**with Concentration in 3D Interdisciplinary Studies: Art in Space**

This Bachelor of Fine Arts (B.F.A.) in Art provides in-depth study in the concentration area. Because it requires 79 credit hours of courses within the Department of Art and Art History, and because many of the concentration courses are sequential, it is important to begin taking three studio art courses and one art history course during the first semester of study. Students should not complete the General Education courses before beginning the courses in the major. This will delay time to graduation. Four-year schedules differ for each concentration and are available online or in the departmental office.

**Admission Requirements**

**Continuing Students**

- **Minimum GPA:**
  - New freshmen and transfers - N/A
  - Internal transfers (students already enrolled at UNC Charlotte) - minimum cumulative GPA of 2.0
- **Pre-Major/Prerequisite Courses:** Art majors must successfully complete ARTB 1201, ARTB 1202, ARTB 1203, ARTB 1204, and ARTB 1206, and then may enroll in ARTA 3201 (this course may be repeated once). During the course, students assemble a portfolio of work and written documentation, which they submit to the B.F.A. Review Committee. Students may not take advanced studio courses without successfully completing this course and having gained acceptance into the B.F.A. program.
• Declaration of Major: All freshmen seeking admission to the B.F.A. degree program must first submit a completed application for Fall admission to the University by January 31 to be eligible to submit a digital portfolio for consideration during the Priority Review in early March. Applicants who miss the January 31 deadline must submit a completed application for Fall admission to the University by March 1 to be eligible to submit a portfolio for consideration during the Space Available Review in mid-April. For the most current deadlines, refer to the Undergraduate Admissions website. Students who are not admitted may re-submit their portfolio the following year (only one resubmission is allowed). See above for Pre-major/Prerequisite Courses.

Degree Requirements

College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (35 credit hours)
For details on required courses, refer to the General Education program.

Foreign Language Requirement (0-3 credit hours)
Students in this major are required to demonstrate proficiency in the language of their choice through the 1201 level. Proficiency can be demonstrated in one of the following ways:

- Completing the required coursework at UNC Charlotte
- Completing three years of the same foreign language in high school through level three
- Achieving a satisfactory score on the foreign languages placement test (in Spanish, French, or German)
- Through approved transfer or transient credit earned at a college or university accredited by an accepted accrediting body

Major Courses (79 credit hours)

Basic Foundation Studios (15 credit hours)
ARTB 1201 - 2D Design (3)
ARTB 1203 - Drawing I (3)
ARTB 1202 - 3D Design (3)
ARTB 1204 - Digital Foundations (3)
ARTB 1206 - Conceptual Practices (3)

Art History Courses (15 credit hours)
ARTH 1211 - Art History Survey I (3)
ARTH 1212 - Art History Survey II (3)
ARTH 2110 - Contemporary Art History (3)
ARTH xxx - Art History Elective Course (3)

Elective Course (3 credit hours)
Students should take any type of course in the department (except ARTE 2121). If an Art History course is selected, students automatically earn a Minor in Art History, but they will need to declare the minor in the Department of Art and Art History advising office.

Advanced Elective Courses (6 credit hours)
Two Department of Art and Art History courses are required at the 3000 or 4000 level. These courses have prerequisites at the 2000 level (or above).

Concentration Courses (30 credit hours)

Concentration Introductory Studio Courses (15 credit hours)
Students must take at least one introductory course from each of the three content areas: ARTC, ARTF, ARTZ

ARTC 2171 - Ceramics Handbuilding (3)
or ARTF 2151 - Fibers I (3)
or ARTZ 2141 - Methods and Materials in Sculpture (3)
or ARTZ 2306 - Introduction to 3D Modeling and Digital Fabrication (3)
1 course from any of these areas: ARTC, ARTF, ARTZ (3)
1 additional course from any of these areas: ARTC, ARTF, ARTZ (3)
1 additional course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)
1 additional course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)

Concentration Advanced Studio Courses (15 credit hours)

Students must complete the advanced courses in their chosen concentration. Some courses are sequential and require B.F.A. status as one of the prerequisites.

ARTC 3171 - Ceramic Sculpture (3)
or ARTC 3172 - Ceramics Wheel II (3)
or ARTF 3352 - Fibers: Surface Design (3)
or ARTF 3353 - Fibers: Constructed Textiles (3)
or ARTZ 3142 - Sculpture: Metal Fabrication and Bronze Casting (3)
or ARTZ 3243 - Sculpture: Wood and Stone Carving (3)
or ARTZ 3306 - Advanced 3D Modeling and Digital Fabrication (3)
1 additional 3000-level course from any of these areas: ARTC, ARTF, ARTZ (3)
1 additional 3000-level course from any of these areas: ARTC, ARTF, ARTZ (3)
1 additional 3000-level course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)
1 additional 3000-level course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)

Senior Experience (9 credit hours)
Students should take the following courses simultaneously:
ARTA 4600 - Senior Seminar (3) (O,W)
ARTA 4901 - Senior Thesis I: Creative Research
ARTA 4902 - Senior Thesis II: Advanced Creative Practice (3)
or ARTL 4981 - Illustration Projects (3)

B.F.A. Portfolio Review (1 credit hour)
ARTA 3201 - B.F.A. Portfolio Review (1)

Students should register for ARTA 3201 after completion of AR TB 1201, AR TB 1202, ARTB 1203, ARTB 1204, and ARTB 1206. Internal transfers are required to have a cumulative 2.0 GPA. Art major required. Art Education requirements are listed under the section for the B.F.A. in Art with Concentration in Art Education program. Students compile a portfolio of work and written information to apply to any concentration in the B.F.A. in Art. A passing grade reflects acceptance of portfolio and admission into the B.F.A. degree program. Those denied may retake the course once. If denied a second time, student must move on to B.A. in
Arts status. Students must pass course by 5th semester enrolled in the department or must move to B.A. in Art status. ARTA 3201 is graded on a Pass/No Credit basis.

Unrestricted Elective Courses (0-3 credit hours)
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Academic Advising
All Art, Graphic Design, and Art History majors are required to meet with the Academic Advisor in the Department of Art and Art History each semester. Students will not be able to register for any course at UNC Charlotte without attending the mandatory advising meetings. The Academic Advisor is available year-round.

Career mentoring in studio, graphic design, art history, and art education is offered by individual faculty members who are active professionals in those areas of study. Contact is best done by email or telephone. Most professors are available for appointments from the first day of classes until the last day of classes each Fall and Spring semester. Requirements for degrees and minors, as well as 4-year B.F.A. calendars, are available in the Department of Art and Art History office and online at art.uncc.edu.

Students seeking to confirm that General Education graduation requirements are met should use DegreeWorks in My UNC Charlotte (my.uncc.edu). Those seeking confirmation of Art requirements must contact the Academic Advisor.

Grade Requirements
To graduate with a B.F.A. in Art with Concentration in 3D Interdisciplinary Studies: Art in Space, students must achieve a minimum GPA of 2.0 in all courses required for the major.

Honors Program
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

Bachelor of Fine Arts in Art
with Concentration in Art Education
The Department of Art and Art History offers a program of Art and Education courses to prepare students for K-12 Art Education licensure in North Carolina. Students should contact the Arts Education Specialist as soon as possible for advising. A decision later than freshman year to seek licensure may result in a delayed graduation date. Forms for the degree requirements and licensure requirements are available in the department office or online at art.uncc.edu.

Admission Requirements
Continuing Students
- **Minimum GPA:** 2.7 overall GPA is required to apply to Teacher Education
- **Pre-Major/Prerequisite Courses:**
  - ARTE 2100 with grade of B or above
  - SPED 2100 with grade of C or above
- **Other:** Achieve passing scores on Praxis Core (or prove exemption via test scores)

- **Declaration of Major:** All applicants seeking admission to the B.F.A. program must be currently enrolled in the B.A. in Art degree program at UNC Charlotte (see the B.A. in Art for admission requirements). Students should complete the Application to Teacher Education, which includes a signed Professional Dispositions statement and clear criminal background check. Candidates then take ARTA 3201 (which may be repeated once). If completed successfully, students may begin upper-level coursework in Art and Education.

- **Progression Requirements:** To progress to student teaching, students must earn a minimum 2.75 GPA in all Art and Education courses and a minimum 2.5 GPA overall. All Art and Education coursework must be grade of C or above. Students must also earn a grade of B or above in Student Teaching and pass Praxis II: Art Content and Analysis to be recommended for licensure.

Degree Requirements
College Prospect for Success Course (32 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
- COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (32 credit hours)
For details on required courses, refer to the General Education program. Both Writing Intensive (W) courses and the Oral Communications (O) course are fulfilled by courses in the major.

Students intending to earn either the B.F.A. in Art or the B.A. in Art should take three ARTB 120x courses, and one ARTH course (ARTH 1211, ARTH 1212, or ARTH 2110) in the first semester of their Freshman year. All of the General Education courses should be organized around the Art requirements. It is usually not possible to graduate in four years without taking this number of Art courses right away. Prerequisite sequencing dictates the time to graduation, and all students should become thoroughly familiar with the course descriptions.

Foreign Language Requirement (0-6 credit hours)
Students in this major within the College of Arts + Architecture are required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

Major Courses (46 credit hours)
- **Foundation Courses (15 credit hours)**
  - ARTB 1201 - 2D Design (3)
  - ARTB 1202 - 3D Design (3)
  - ARTB 1203 - Drawing 1 (3)
  - ARTB 1204 - Digital Foundations (3)
  - ARTB 1206 - Conceptual Practices (3)
- **Art History Courses (9 credit hours)**
  - ARTH 1211 - Art History Survey 1 (3)
  - ARTH 1212 - Art History Survey 2 (3)
  - ARTH 2110 - Contemporary Art History (3)
- **Studio Courses (21 credit hours)**
  - Required Studio Courses (6 credit hours)
ARTP 2131 - Painting I (3)
  or ARTD 2139 - Drawing II (3)
ARTR 2161 - Photo-Mechanical Print Media (3)
  or ARTR 2162 - Drawing/Expression in Print Media (3)
  or ARTT 2191 - Photographic Media I - Darkroom (3)

Elective Studio Courses (15 credit hours)
One 2000-level course from ARTC (Ceramics), ARTF (Fibers), or ARTZ (Sculpture) (3)
One more 2000-level course from a different area than above of ARTC, ARTF, or ARTZ (3)
One elective course from any level, any studio area (3)
Two studio courses at the 3000-level from a single (i.e., the same) studio area (6)

BFA Portfolio Review Course (1 credit hour)
ARTA 3201 - BFA Portfolio Review (1)*

Concentration Courses (34 credit hours)
ARTE 2100 - Artists as Teachers (3)*
ARTE 3121 - Elementary Art Methods (3) (W)*
ARTE 3124 - Transcultural Identities and Art Education (3)*
ARTE 4122 - Secondary Art Methods (3) (O,W)*
ARTE 4125 - Creativity and Social and Emotional Learning in Art Education (4)
ARTE 4467 - Student Teaching in Visual Art (12)*
EDUC 4290 - Modifying Instruction for Learners with Diverse Needs (3)*
SPED 2100 - Introduction to Students with Special Needs (3)

*Transfer students must take these courses at UNC Charlotte.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Academic Advising
All Art, Graphic Design, and Art History majors are required to meet with the Academic Advisor in the Department of Art and Art History each semester. Students will not be able to register for any course at UNC Charlotte without attending the mandatory advising meetings. The Academic Advisor is available year-round.

Career mentoring in studio, graphic design, art history, and art education is offered by individual faculty members who are active professionals in those areas of study. Contact is best done by email or telephone. Most professors are available for appointments from the first day of classes until the last day of classes each Fall and Spring semester. Requirements for degrees and minors, as well as 4-year B.F.A. calendars, are available in the Department of Art and Art History office and online at art.uncc.edu.

Students seeking to confirm that General Education graduation requirements are met should use DegreeWorks in My UNC Charlotte (my.uncc.edu). Those seeking confirmation of Art requirements must contact the Academic Advisor.

Grade Requirements
Students must receive a grade of C or above in all courses applied to the major (a grade of B or above is required in ARTE 2100 for students in the Concentration in Art Education). Students cannot advance to the next course in a sequence until a grade of C or above is earned in prerequisite courses (a grade of B or above is required in ARTE 2100 for students in the Concentration in Art Education).

Honors Program
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

Bachelor of Fine Arts in Art with Concentration in Digital Media
This Bachelor of Fine Arts (B.F.A.) in Art provides in-depth study in the concentration area. Because it requires 79 credit hours of courses within the Department of Art and Art History, and because many of the concentration courses are sequential, it is important to begin taking three studio art courses and one art history course during the first semester of study. Students should not complete the General Education courses before beginning the courses in the major. This will delay time to graduation. Four-year schedules differ for each concentration and are available online or in the departmental office.

Admission Requirements
Continuing Students
- Minimum GPA:
  - New freshmen and transfers - N/A
  - Internal transfers (students already enrolled at UNC Charlotte) - minimum cumulative GPA of 2.0
- Pre-Major/Prerequisite Courses: Art majors must successfully complete ARTB 1201, ARTB 1202, ARTB 1203, ARTB 1204, and ARTB 1206, and then may enroll in ARTA 3201 (this course may be repeated once). During the course, students assemble a portfolio of work and written documentation, which they submit to the B.F.A. Review Committee. Students may not take advanced studio courses without successfully completing this course and having gained acceptance into the B.F.A. program.
- Declaration of Major: All freshmen seeking admission to the B.F.A. degree program must first submit a completed application for Fall admission to the University by January 31 to be eligible to submit a digital portfolio for consideration during the Priority Review in March. Applicants will be officially enrolled in the B.F.A. major once they have gained acceptance into the B.F.A. degree program. Students who are not admitted may re-submit their portfolio the following year (only one resubmission is allowed). See above for Pre-major/Prerequisite Courses.

Degree Requirements
College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (35 credit hours)
For details on required courses, refer to the General Education program.
Foreign Language Requirement (0-3 credit hours)
Students in this major are required to demonstrate proficiency in the language of their choice through the 1201 level. Proficiency can be demonstrated in one of the following ways:

- Completing the required coursework at UNC Charlotte
- Completing three years of the same foreign language in high school through level three
- Achieving a satisfactory score on the foreign languages placement test (in Spanish, French, or German)
- Through approved transfer or transient credit earned at a college or university accredited by an accepted accrediting body

Major Courses (79 credit hours)
Basic Foundation Studios (15 credit hours)
ARTB 1201 - 2D Design (3)
ARTB 1203 - Drawing I (3)
ARTB 1202 - 3D Design (3)
ARTB 1204 - Digital Foundations (3)
ARTB 1206 - Conceptual Practices (3)

Art History Courses (15 credit hours)
ARTH 1211 - Art History Survey I (3)
ARTH 1212 - Art History Survey II (3)
ARTH 2110 - Contemporary Art History (3)
ARTH xxxx - Art History Elective Course (3)
ARTH xxxx - Art History Elective Course (3)

Elective Course (3 credit hours)
Students should take any type of course in the department (except ARTE 2121). If an Art History course is selected, students automatically earn a Minor in Art History, but they will need to declare the minor in the Department of Art and Art History advising office.

Advanced Elective Courses (6 credit hours)
Two Department of Art and Art History courses are required at the 3000 or 4000 level. These courses have prerequisites at the 2000 level (or above).

Concentration Courses (30 credit hours)
Concentration Introductory Studio Courses (15 credit hours)
ARTM 2105 - 4D (3)
1 course from any of these areas: ARTC, ARTD, ARTZ (3)
1 additional course from any of these areas: ARTC, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)
1 additional course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)

Concentration Advanced Studio Courses (15 credit hours)
Students must complete the advanced courses in their chosen concentration. Some courses are sequential and require B.F.A. status as one of the prerequisites.

ARTM 3101 - Game Design and Graphics (3)
or ARTM 3102 - 3D Modeling and Animation (3)
or ARTM 3105 - Video Art (3)
ARTM 3205 - Interactive Art and Design (3)

ART 9 credit hours)
ART 2110 - Contemporary Art History (3)
ART 1212 - Art History Survey II (3)
ARTM 3205 - Interactive Art and Design (3)

ART 1 course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)

ART 1 additional 3000-level course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)

Senior Experience (9 credit hours)
Students should take the following courses simultaneously:
ARTA 4600 - Senior Seminar (3) (O,W)
ARTA 4901 - Senior Thesis I: Creative Research
ARTA 4902 - Senior Thesis II: Advanced Creative Practice (3)
or ARTL 4981 - Illustration Projects (3)

B.F.A. Portfolio Review (1 credit hour)
ARTA 3201 - B.F.A. Portfolio Review (1)

Students should register for ARTA 3201 after completion of ARTB 1201, ARTB 1202, ARTB 1203, ARTB 1204, and ARTB 1206. Internal transfers are required to have a cumulative 2.0 GPA. Art major required. Art Education requirements are listed under the section for the B.F.A. in Art with Concentration in Art Education program. Students compile a portfolio of work and written information to apply to any concentration in the B.F.A. in Art. A passing grade reflects acceptance of portfolio and admission into the B.F.A. degree program. Those denied may retake the course once. If denied a second time, student must move on to B.A. in Art status. Students must pass course by 5th semester enrolled in the department or must move to B.A. in Art status. ARTA 3201 is graded on a Pass/No Credit basis.

Unrestricted Elective Courses (0-3 credit hours)
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

ARTD 2134 - Figure Drawing I (3)
ARTD 2139 - Drawing II (3)
ARTP 2131 - Painting I (3)
1 course from any of these areas: ARTC, ARTF, ARTZ (3)
1 additional course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)

Concentration Advanced Studio Courses (15 credit hours)
Students must complete the advanced courses in their chosen concentration. Some courses are sequential and require B.F.A. status as one of the prerequisites.

ARTP 3131 - Abstract Painting (3)
ARTP 3132 - Figurative Painting (3)
ARTP 3161 - Mixed Media Painting (3)
1 additional 3000-level course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)
1 additional 3000-level course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)

Senior Experience (3 credit hours)
Students should take the following courses simultaneously:
ARTA 4600 - Senior Seminar (3) (O,W)
ARTA 4901 - Senior Thesis I: Creative Research
ARTA 4902 - Senior Thesis II: Advanced Creative Practice (3) or ARTL 4981 - Illustration Projects (3)

B.F.A. Portfolio Review (1 credit hour)
ARTA 3201 - B.F.A. Portfolio Review (1)

Students should register for ARTA 3201 after completion of ARTB 1201, ARTB 1202, ARTB 1203, ARTB 1204, and ARTB 1206. Internal transfers are required to have a cumulative 2.0 GPA. Art major required. Art Education requirements are listed under the section for the B.F.A. in Art with Concentration in Art Education program. Students compile a portfolio of work and written information to apply to any concentration in the B.F.A. in Art. A passing grade reflects acceptance of portfolio and admission into the B.F.A. degree program. Those denied may retake the course once. If denied a second time, student must move on to B.A. in Art status. Students must pass course by 5th semester enrolled in the department or must move to B.A. in Art status. ARTA 3201 is graded on a Pass/No Credit basis.

Unrestricted Elective Courses (0-3 credit hours)
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Academic Advising
All Art, Graphic Design, and Art History majors are required to meet with the Academic Advisor in the Department of Art and Art History each semester. Students will not be able to register for any course at UNC Charlotte without attending the mandatory advising meetings. The Academic Advisor is available year-round.

Career mentoring in studio, graphic design, art history, and art education is offered by individual faculty members who are active professionals in those areas of study. Contact is best done by email or telephone. Most professors are available for appointments from the first day of classes until the last day of classes each Fall and Spring semester. Requirements for degrees and minors, as well as 4-year B.F.A. calendars, are available in the Department of Art and Art History office and online at art.uncc.edu.

Students seeking to confirm that General Education graduation requirements are met should use DegreeWorks in My UNC Charlotte (my.uncc.edu). Those seeking confirmation of Art requirements must contact the Academic Advisor.

Grade Requirements
To graduate with a B.F.A. in Art with Concentration in Painting, students must achieve a minimum GPA of 2.0 in all courses required for the major.

Honors Program
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

Bachelor of Fine Arts in Art
with Concentration in Photography
This Bachelor of Fine Arts (B.F.A.) in Art provides in-depth study in the concentration area. Because it requires 79 credit hours of courses within the Department of Art and Art History, and because many of the concentration courses are sequential, it is important to begin taking three studio art courses and one art history course during the first semester of study. Students should not complete the General Education
courses before beginning the courses in the major. This will delay time to graduation. Four-year schedules differ for each concentration and are available online or in the departmental office.

Admission Requirements

Continuing Students
- **Minimum GPA:**
  - New freshmen and transfer - N/A
  - New transfer (students already enrolled at UNC Charlotte)
    - minimum cumulative GPA of 2.0
- **Pre-Major/Prerequisite Courses:** Art majors must successfully complete ARTB 1201, ARTB 1202, ARTB 1203, ARTB 1204, and ARTB 1206, and then may enroll in ARTA 3201 (this course may be repeated once). During the course, students assemble a portfolio of work and written documentation, which they submit to the B.F.A. Review Committee. Students may not take advanced studio courses without successfully completing this course and having gained acceptance into the B.F.A. program.
- **Declaration of Major:** All freshmen seeking admission to the B.F.A. degree program must first submit a completed application for Fall admission to the University by January 31 to be eligible to submit a digital portfolio for consideration during the Priority Review in early March. Applicants who miss the January 31 deadline must submit a completed application for Fall admission to the University by March 1 to be eligible to submit a portfolio for consideration during the Space Available Review in mid-April. For the most current deadlines, refer to the Undergraduate Admissions website. Students who are not admitted may re-submit their portfolio the following year (only one resubmission is allowed). See above for Pre-major/Prerequisite Courses.

Degree Requirements

College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (35 credit hours)
For details on required courses, refer to the General Education program.

Foreign Language Requirement (0-3 credit hours)
Students in this major are required to demonstrate proficiency in the language of their choice through the 1201 level. Proficiency can be demonstrated in one of the following ways:

- Completing the required coursework at UNC Charlotte
- Completing three years of the same foreign language in high school through level three
- Achieving a satisfactory score on the foreign languages placement test (in Spanish, French, or German)
- Through approved transfer or transient credit earned at a college or university accredited by an accepted accrediting body

Major Courses (79 credit hours)

Basic Foundation Studios (15 credit hours)
ARTB 1201 - 2D Design (3)
ARTB 1203 - Drawing 1 (3)
ARTB 1202 - 3D Design (3)

ARTB 1204 - Digital Foundations (3)
ARTB 1206 - Conceptual Practices (3)

Art History Courses (15 credit hours)
ARTH 1211 - Art History Survey I (3)
ARTH 1212 - Art History Survey II (3)
ARTH 2110 - Contemporary Art History (3)
ARTH 3393 - History of Photography (3)
  or ARTH 3694 - Histories of New Media (3)
ARTH xxxx - Art History Elective Course (3)

Elective Course (3 credit hours)
Students should take any type of course in the department (except ARTE 2121). If an Art History course is selected, students automatically earn a Minor in Art History, but they will need to declare the minor in the Department of Art and Art History advising office.

Advanced Elective Courses (6 credit hours)
Two Department of Art and Art History courses are required at the 3000 or 4000 level. These courses have prerequisites at the 2000 level (or above).

Concentration Courses (30 credit hours)

Concentration Introductory Studio Courses (15 credit hours)
ARTT 2191 - Photographic Media I - Darkroom (3)
  1 course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)
  1 additional course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)
  1 additional course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)
  1 additional course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)
  2 additional courses at the 3000-level from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTH 3694 - Histories of New Media (3)

Concentration Advanced Studio Courses (15 credit hours)
Students must complete the advanced courses in their chosen concentration. Some courses are sequential and require B.F.A. status as one of the prerequisites.

ARTT 3190 - Digital Photography (3)
ARTT 3191 - Camera and Light (3)
ARTT 4291 - Introduction to Creative Research in Photography (3)
  1 additional 3000-level course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)
  1 additional 3000-level course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)
  1 additional 3000-level course from any of these areas: ARTC, ARTD, ARTF, ARTG, ARTL, ARTM, ARTP, ARTR, ARTT, ARTZ (3)

Senior Experience (9 credit hours)
Students should take the following courses simultaneously:
ARTA 4600 - Senior Seminar (3) (W)
ARTA 4901 - Senior Thesis I: Creative Research
ARTA 4902 - Senior Thesis II: Advanced Creative Practice (3)
  or ARTL 4981 - Illustration Projects (3)

B.F.A. Portfolio Review (1 credit hour)
ARTA 3201 - B.F.A. Portfolio Review (1)

Students should register for ARTA 3201 after completion of ARTB 1201, ARTB 1202, ARTB 1203, ARTB 1204, and ARTB 1206. Internal transfers are required to have a cumulative 2.0 GPA. Art major required. Art Education requirements are listed under the section for the B.F.A. in Art.
with Concentration in Art Education program. Students compile a portfolio of work and written information to apply to any concentration in the B.F.A. in Art. A passing grade reflects acceptance of portfolio and admission into the B.F.A. degree program. Those denied may retake the course once. If denied a second time, student must move on to B.A. in Art status. Students must pass course by 5th semester enrolled in the department or must move to B.A. in Art status. ARTA 3201 is graded on a Pass/No Credit basis.

Unrestricted Elective Courses (0-3 credit hours)
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Academic Advising

To graduate with a B.F.A. in Art with Concentration in Cross-Disciplinary Arts, students must achieve a minimum GPA of 2.0 in all courses required for the major.

Honors Program
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

Bachelor of Arts in Art History
The Bachelor of Arts (B.A.) in Art History requires 120 credit hours.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Other: There is no portfolio submission to apply for this major.
- Declaration of Major: Students declare a Major in Art History by indicating this on the application to UNC Charlotte, or by filling out a Change of Major form to record Art History major status. Students already enrolled at UNC Charlotte must meet with the departmental Academic Advisor prior to declaring the major.
- Transferable Credit Hours: Determined by UNC Charlotte Undergraduate Admissions. Students seeking to apply coursework taken at other institutions to the Art History major must provide copies of the official course description and a syllabus for each course requested for consideration.

Matriculated and transfer students who do not meet requirements for admission to the program because of special circumstances may petition the Art History Faculty for acceptance into the program.

Degree Requirements
College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program.

Foreign Language Requirement (0-8 credit hours)
Students in this major within the College of Arts + Architecture are required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

Major Courses (15 credit hours)
ARTH 1211 - Art History Survey I (3)
ARTH 1212 - Art History Survey 2 (3)
ARTH 2110 - Contemporary Art History (3)
ARTH 2614 - Writing Seminar in Art History (3) (W)
ARTH 3114 - Art History Methods (3)
or ARTH 3115 - Honors Art History Methods (3)

Note: ARTH 1211 and ARTH 1212 are normally taken in the freshman year; ARTH 2110 and ARTH 2614 are normally taken in the sophomore year or as soon as possible after declaring the major. ARTH 3114 or ARTH 3115 (taught simultaneously) may be taken once the other major courses have been completed.

Restricted Elective Courses (18 credit hours)
Select from at least four different content areas listed below. A maximum of 6 credit hours of 2000-level courses is permitted.

Pre-Columbian Art Elective Courses
ARTH 2003 - Pre-Columbian Art (3)
ARTH 3318 - Mexico (Aztec) Art (3)

African Art Elective Courses
ARTH 2121 - Contemporary African Art (3)
ARTH 3328 - West African Art and Display (3)

Ancient Art Elective Courses
ARTH 3320 - Ancient Egypt and Near Eastern Art (3)
ARTH 3322 - Ancient Greek Art (3)
ARTH 3323 - Ancient Roman Art I (3)
ARTH 3324 - Ancient Roman Art II (3)

Early Modern Art Elective Courses
ARTH 2140 - Medieval Art (3)
ARTH 3349 - Gothic Art (3)
ARTH 3350 - Northern Renaissance Art (3)
ARTH 3351 - Italian Renaissance Art (3)
ARTH 3360 - Northern Baroque Art (3)

Modern and Contemporary Art Elective Courses
ARTH 3100 - Field Study in Visual Art (3)
ARTH 3381 - Modernism (3)
ARTH 3393 - History of Photography (3)
ARTH 3395 - African American Art (3)

Senior Seminar (3 credit hours)
Select one of the following:
ARTH 4601 - Problems in Pre-Columbian Art History (3)
ARTH 4602 - Problems in African Art History (3)
ARTH 4603 - Problems in Ancient Art History (3)
ARTH 4605 - Problems in Renaissance Art History (3)
ARTH 4609 - Problems in Modern and Contemporary Art History (3)

Related Courses (3 credit hours)
Select one of the following:
AFRS 2105 - Black Images in the Media (3)
AFRS 2206 - African Literature, Music and Art (3)
AMST 3090 - Topics in American Film (3)
AMST 3100 - Introduction to American Studies (3)
ANTH 2050 - Topics in Archaeology (3)
Majoring in Art
Freshmen, Transfers, and Current UNC Charlotte Students not Majoring in Art

- **Minimum Cumulative GPA:** 2.0 (for current UNC Charlotte students)
- **Other:** Submit a digital portfolio of work for review. Check the department website for deadlines and FAQs on submission requirements.
- **Declaration of Major:** The department accepts new students from these groups into the Graphic Design major for Fall semesters only. These students cannot declare a Graphic Design major in Spring semesters.

Current UNC Charlotte Students with Major in Art

- **Minimum Cumulative GPA:** 2.0
- **Declaration of Major:** Consult with the Graphic Design Program Director

**Note:** Most graphic design courses are open to Graphic Design majors only.

### Degree Requirements

#### College Prospect for Success Course (2 credit hours)

*All new freshmen in the College of Arts + Architecture must take the following:*

- COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

#### General Education Courses (35 credit hours)

For details on required courses, refer to the General Education Program.

Students intending to earn the B.F.A. in Graphic Design should take two ARTB 120x courses, and one ARTH course (ARTH 1211, ARTH 1212, or ARTH 2110) in the first semester of their freshman year. Proceed to take two ARTB 120x courses and one Introductory Major Course in the second semester of the freshman year. Sequencing these courses in the first
year will aid a student in graduating in four years. All of the General Education courses should be organized around the Graphic Design major requirements. Prerequisite sequencing dictates the time to graduation, and all students should carefully review the course descriptions.

**Foreign Language Requirement (0-3 credit hours)**
Students in this major are required to demonstrate proficiency in the language of their choice through the 1201 level. Proficiency can be demonstrated in one of the following ways:

- Completing the required coursework at UNC Charlotte
- Completing three years of the same foreign language in high school through level three
- Achieving a satisfactory score on the foreign languages placement test (in Spanish, French, or German)
- Through approved transfer or transient credit earned at a college or university accredited by an accepted accrediting body

**Major Courses (78 credit hours)**

**Basic Foundation Studios (12 credit hours)**
- ARTB 1201 - 2D Design (3)
- ARTB 1202 - 3D Design (3)
- ARTB 1203 - Drawing I (3)
- ARTB 1204 - Digital Foundations (3)

**Art History Courses (12 credit hours)**
- ARTH 1211 - Art History Survey I (3)
- ARTH 1212 - Art History Survey II (3)
- ARTH 2110 - Contemporary Art History (3)
- ARTH XXXX - Art History Elective (3)

**Introductory Major Courses (12 credit hours)**
All 2000-level courses have prerequisites of certain Basic Foundation Studios (see section above). The 2000-level courses are prerequisites for 3000- and 4000-level courses. Make sure to check the prerequisites and course descriptions for each course.

- ARTG 2180 - Design Thinking (3)
- ARTG 2181 - Graphic Design I (3)
- ARTG 2182 - Typography I (3)
- ARTM 2105 - 4D (3)

**Introductory Studio Elective Courses (9 credit hours)**
2000-level elective with any of these prefixes: ARTC, ARTF, ARTZ (3)
2000-level elective with any of these prefixes (different from first choice): ARTC, ARTF, ARTZ (3)
2000-level elective from any studio art concentration; ARTL, ARTP, ARTR, and ARTT recommended (3)

**Intermediate Major Courses (15 credit hours)**
All 3000-level courses have prerequisites of certain Introductory Major Courses (see section above). The 3000-level courses are prerequisites for 4000-level courses. Make sure to check the prerequisites and course descriptions for each course.

- ARTG 3183 - Graphic Design II (3)
- ARTG 3184 - Typography II (3)
- ARTG 3185 - UX/UI Design Strategies (3)
- ARTG 3186 - Communications Design (3)
- ARTM 3205 - Interactive Art and Design (3)

**Advanced Major Courses (9 credit hours)**
All 4000-level courses have prerequisites of certain Intermediate Major Courses (see section above). Make sure to check the prerequisites and course descriptions for each course.

- ARTG 4180 - Print Production (3)
- ARTG 4182 - Design Research (3)
- ARTG 4982 - Graphic Design Projects (3)

**Advanced Studio Elective Courses (6 credit hours)**
Two studio courses are required at the 3000- or 4000-level. These courses have prerequisites at the 2000-level (or above). In addition to regular studio courses from any concentration area, you may choose an internship, or independent study. Art History and Art Education courses do not count towards these requirements. Graphic Design majors are recommended to take courses with these prefixes: ARTL, ARTP, ARTR or ARTM, and/or to complete a graphic design internship for credit.

**Senior Seminar (3 credit hours)**
Students must have Senior status and be in the last one or two semesters in the degree program in order to register for the following course. It should be taken with the Graphic Design Projects course.

- ARTA 4600 - Senior Seminar (3) (O,W)

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

**Grade Requirements**
To graduate with a B.F.A. in Graphic Design, students must achieve a minimum GPA of 2.0 in all courses required for the major.

**Honors Program**
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

**Honors Program in Art History**
The optional honors credential may be awarded to students with a minimum overall GPA of 3.0 and a GPA of at least 3.25 in Art History courses (candidate must meet GPA requirements to apply to program and maintain them to graduate with the departmental honors designation).

Additionally, to receive Honors in Art History, a candidate must:

- Approach an Art History faculty member with their desire to apply to the program and discuss your expected area of research/topic.
- After securing an Art History faculty member’s agreement to serve as thesis advisor, students must register for ARTH 3115 (offered in Fall semesters only) and earn an A in that course. During the course, begin the Application to Candidacy process for graduating with honors, as directed by the Honors College.
- Earn a grade of A in “Problems in Art History” seminar.
- Register for ARTH 4700 and present an honors thesis based on in-
Depth research in primary sources to a committee composed of three members, at least two of whom must be Art History faculty. An honors candidate may fulfill requirements 3 and 4 either in sequence, or concurrently during the same semester, as schedules demand.

Upon successful completion, the honors notation will appear on a student’s official transcript.

**Minor in Art History**

The Minor in Art History requires 18 credit hours of ARTH courses. At least 12 of the credit hours towards the Minor in Art History must be taken at UNC Charlotte.

**Admission Requirements**

Students with any major (except Art History) may apply for the Minor in Art History. A GPA of 2.0 is required for admission.

Students pursuing a Minor in Art History must seek permission from instructors to register for any course with an “Art major” prerequisite. Permission is granted at the discretion of the instructor and is not guaranteed.

**Minor Requirements**

**Required Courses (6 credit hours)**

- ARTH 1211 - Art History Survey 1 (3)
- ARTH 1212 - Art History Survey 2 (3)

**Elective Courses (12 credit hours)**

Select any four ARTH courses.

**Total = 18 Credit Hours**

**Grade Requirements**

Students must earn a grade of D or above in all courses applied toward the Minor in Art History.

---

**Department of Dance**

dance.uncc.edu

**Undergraduate Programs**

- B.A. in Dance
  - Applied Dance
  - Dance Education
  - Performance, Choreography, and Theory
- Minor in Dance
- Professional Training Certificate in Dance
- Undergraduate Certificate in Advanced Dance Studies
- Undergraduate Certificate in Musical Theatre (see the individual Musical Theatre section)

In the Department of Dance, students find rigorous dance training and academic preparation and the flexibility and support needed to pursue individual interests and career paths. Faculty are diverse in their perspectives and trainings and innovative leaders in performance, choreography, dance scholarship, and teacher training. Our professional advisors help students navigate double majors and minors. Dance study is enhanced by state of the art facilities; the interdisciplinary nature of our College of the Arts + Architecture; study abroad opportunities; and the activities of a vibrant campus and the bustling, arts-minded city of Charlotte. The program is accredited by the National Association of Schools of Dance.

**Degree Programs**

The Department of Dance awards a Bachelor of Arts degree in Dance. All students receive a well-rounded experience of dance while concentrating in one of three areas:

1. Applied Dance
2. Performance, Choreography, and Theory
3. Dance Education with preparation for North Carolina K-12 Fine and Performing Arts, Dance Teacher licensure

Students who have diverse backgrounds and interests are highly valued for what they bring to the dance program. Dance advisors and faculty work carefully with students to create plans of study that suit individual needs.

Technique courses include classical ballet, modern dance, contemporary dance, hip hop, jazz, West African and African-Brazilian forms, and classical Indian dance. Students work with guest artists, faculty, and other students to perform in a 360-seat theatre, studio theatre, and in dance for the camera works. Students participate in faculty research projects. Field studies include travel across the Southeast and to New York City to study and perform and study abroad dance programs in the United Kingdom and in Italy.

Students have access to internships, major arts and education
institutions such as Charlotte Ballet and Blumenthal Performing Arts, and to professional touring artists. Alumni have varied careers, among them professional concert or commercial dancer, choreographer, K-12 educator, studio owner, college professor, community arts organizer, arts administrator, arts writer, arts marketer, dance therapist, and physical therapist.

The Department of Dance offers dance scholarships and work opportunities. Students attend summer programs on scholarship, including Martha Graham and Paul Taylor intensives and American Dance Festival.

**Bachelor of Arts in Dance with Concentration in Applied Dance**

The B.A. in Dance with Concentration in Applied Dance offers a Dance major with fewer credit hours than the Performance, Choreography, and Theory concentration. Applied Dance may help to Dance majors who wish to pursue coursework outside the department to prepare for careers such as dance therapy, arts marketing, and physical therapy for dance.

**Admission Requirements**

**Freshmen and Transfers**
- **Declaration of Major:** Students may declare the major at any time.
- **Progression Requirement:** Students complete a formal review in their third semester for continued status in the Major in Dance.
- **Transferable Credit Hours:** Determined by UNC Charlotte Undergraduate Admissions.

**Degree Requirements**

A minimum of 120 total earned credit hours is required for the degree. The B.A. in Dance with Concentration in Applied Dance requires 46-47 credit hours of coursework in the major. No more than 10 credit hours (five courses) may be double-counted with another major, minor, or General Education requirements.

**College Prospect for Success Course (2 credit hours)**

*All new freshmen in the College of Arts + Architecture must take the following:*

- COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

**General Education Requirement (37-41 credit hours)**

For details on required courses, refer to the General Education Program. One Writing Intensive (W) course is fulfilled by courses in the major. The Oral Communication (O) course may be fulfilled by courses in the major. Students in this major should take the following course that meets general education requirements and also satisfies requirements in the major:

- LBST 1101 - The Arts and Society: Dance (3)

**Foreign Language Requirement (0-8 credit hours)**

Students in this major are required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

**Major Courses (43-44 credit hours)**

**Movement Practice Courses (22-23 credit hours)**

- **African Diaspora Courses (6 credit hours)**
  - DANC 2226 - Vintage Jazz Dance (2)
  - DANC 2125 - African Dance (2) or DANC 2128 - African-Brazilian Dance (2)
  - DANC 2126 - Tap Dance (2) or DANC 2130 - Hip-Hop Dance (2)

- **Ballet Courses (6 credit hours)**
  - DANC 1209 - Ballet for Majors IA (2)
  - DANC 1210 - Ballet for Majors IB (2)
  - DANC 2209 - Ballet for Majors IIA (2) or DANC 2210 - Ballet for Majors IIB (2)

- **Modern Dance Courses (6 credit hours)**
  - DANC 1217 - Modern Dance for Majors IA (2)
  - DANC 1218 - Modern Dance for Majors IB (2)
  - DANC 2217 - Modern Dance for Majors IIA (2) or DANC 2218 - Modern Dance for Majors IIB (2)

**Advanced Movement Practice Courses (4-5 credit hours)**

Select one area of focus and complete both courses in that area:

1) Advanced African Diaspora Dance Courses (5 credit hours)
   - DANC 3252 - Ring Shout Dance Traditions (3)
   - DANC 3253 - Black Dance in the Americas (2)

2) Advanced Ballet Courses (4 credit hours)
   - DANC 3210 - Ballet for Majors III (2)
   - Additional course in Ballet at the 2000 level or above

3) Advanced Modern Dance Courses (4 credit hours)
   - DANC 3218 - Modern Dance for Majors III (2)
   - DANC 3229 - Contact Improvisation (2)
   - Additional course in Modern Dance at the 2000 level or above

**Creative Process Courses (8 credit hours)**

- DANC 1280 - Improvisation (2)
- DANC 2216 - Choreography I (3)
- DANC 3230 - Choreography II (3)

**Dance Theory Courses (9 credit hours)**

- DANC 2119 - Anatomy for Dancers (3)
- DANC 3221 - Dance History, Theory, and Critical Thinking (3) (W) or DANC 3222 - Dance History, Theory, and Critical Thinking II (3)
- DANC 3227 - Ballet Pedagogy (3) (O) or DANC 3328 - Teaching Dance: Theories and Practices (3) (O)
- DANC 3250 - Dance in Community (3) (O) or DANC 4110 - Communicating Across the Dance Discipline (3) (W)

**Performance and Production Courses (2 credit hours)**

- DANC 2401 - Production Practicum - Dance Running Crew (1)
- DANC 2402 - Performance Practicum (1) or DANC 2403 - Dancing for Choreographers (1)

**Music Fundamentals Course (2 credit hours)**

- DANC 2228 - Music and Dance (2)
Degree Requirements

College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (32 credit hours)
For details on required courses, refer to the General Education Program. Both Writing Intensive (W) courses and the Oral Communication (O) course are fulfilled by courses in the major. Students in this major should take the following course that meets General Education requirements and also satisfies requirements in the major:
LBST 1101 - The Arts and Society: Dance (3)

Foreign Language Requirement (0-6 credit hours)
Students in this major within the College of Arts + Architecture are required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

Major Courses (42 credit hours)

Movement Practice Courses (18 credit hours)
African Diaspora Courses (6 credit hours)
DANC 2226 - Vintage Jazz Dance (2)
DANC 2125 - African Dance (2)
or DANC 2128 - African-Brazilian Dance (2)
DANC 2126 - Tap Dance (2)
or DANC 2130 - Hip-Hop Dance (2)

Ballet Courses (6 credit hours)
DANC 1209 - Ballet for Majors IA (2)
DANC 1210 - Ballet for Majors IB (2)
DANC 2209 - Ballet for Majors IIA (2)
or DANC 2210 - Ballet for Majors IIB (2)

Modern Dance Courses (6 credit hours)
DANC 1217 - Modern Dance for Majors IA (2)
DANC 1218 - Modern Dance for Majors IB (2)
DANC 2217 - Modern Dance for Majors IIA (2)
or DANC 2218 - Modern Dance for Majors IIB (2)

Creative Process Courses (8 credit hours)
DANC 1280 - Improvisation (2)
DANC 2216 - Choreography I (3)
DANC 3230 - Choreography II (3)

Dance Theory Courses (9 credit hours)
DANC 2119 - Anatomy for Dancers (3)
DANC 3221 - Dance History, Theory, and Critical Thinking (3) (W)
DANC 3222 - Dance History, Theory, and Critical Thinking II (3)

Dance Pedagogy Courses (3 credit hours)
Select one of the following:
DANC 3227 - Ballet Pedagogy (3) (O)
DANC 3328 - Teaching Dance: Theories and Practices (3) (O)
DANC 3250 - Dance in Community (3) (O)

Bachelor of Arts in Dance with Concentration in Dance Education

The Bachelor of Arts (B.A.) in Dance with a Concentration in Dance Education prepares students for K-12 Dance Education licensure in North Carolina. It is designed for students who wish to become dance teachers in public schools, but also benefits dancers who want to teach in studios or community centers. Student teaching is possible in cooperation with the public schools of the Charlotte area.

Admission Requirements

Freshmen

- **Pre-Major**: Students seeking K-12 Dance Education licensure should contact the Arts Education Specialist within their first year. A later semester may result in a delayed graduation date.
- **Declaration of Major and Progression Requirements**: Students seeking K-12 Dance Education licensure must first earn a grade of C or above in EDUC 2100 and SPED 2100, have a cumulative GPA of 2.7, achieve passing scores on Praxis Core (or prove exemption via test scores), and complete the Application to Teacher Education, which includes a signed Professional Dispositions statement and clear criminal background check. Students are also required to complete a formal review in their third semester for continued status as a Dance Major. To progress to student teaching, students must earn a minimum 2.75 GPA in all Dance and Education courses and a minimum 2.5 GPA overall.

Transfers

- **Pre-Major**: The semester in which transfer students seeking K-12 Dance Education Licensure are eligible to declare the Concentration in Dance Education will be determined in consultation with their academic advisor.
- **Declaration of Major and Progression Requirements**: Students seeking K-12 Dance Education licensure must first earn a C or better in EDUC 2100 and SPED 2100, have a cumulative GPA of 2.7, achieve passing scores on Praxis Core (or prove exemption via test scores), and complete the Application to Teacher Education which includes a signed Professional Dispositions statement and clear criminal background check. Students are also required to complete a formal review in their third semester for continued status as a Dance major. To progress to student teaching, students must earn a minimum 2.75 GPA in all Dance and Education courses and a minimum 2.5 GPA overall.
- **Transferable Credit Hours**: Determined by UNC Charlotte Undergraduate Admissions.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
All DANC courses must be completed with no more than one grade of D and a major GPA of at least 2.75. Students must also have an overall (cumulative) 2.5 GPA or above.
Performance and Production Courses (2 credit hours)
DANC 2401 - Production Practicum - Dance Running Crew (1)
DANC 2402 - Performance Practicum (1)
or DANC 2403 - Dancing for Choreographers (1)

Music Fundamentals Course (2 credit hours)
DANC 2228 - Music and Dance (2)

Concentration Courses (36 credit hours)
DANC 3232 - Digital Skills for Artists (3)
or EIST 4100 - Computer Applications in Education (3)
DANC 4227 - Dance Education Methods for the Elementary School (3)
DANC 4257 - Dance Education Methods for the Secondary School (3)
(W)
DANC 4466 - Dance Curriculum Design (3)
DANC 4467 - Student Teaching/Seminar: K-12 Fine and Performing Arts: Dance (12) (O)
EDUC 2100 - Foundations of Education and Diversity in Schools (3)
EDUC 4290 - Modifying Instruction for Learners with Diverse Needs (3)
SPED 2100 - Introduction to Students with Special Needs (3)
ELED 3120 - The Elementary School Child (3)
or MDLG 3130 - The Early Adolescent Learner (3)
or SECD 4140 - Adolescence and Secondary Schools (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
All Dance and Education courses must be completed with a grade of C or above, with no more than one grade of D in Dance courses. A GPA of 2.75 or above in all required Dance Education Concentration courses. Students must also have an overall (cumulative) GPA of 2.5 or above. Additionally, to meet the requirements for this concentration, a second-year review must be passed in the third semester of study. Students must earn a grade of B or above in student teaching to be recommended for licensure.

Honors Program
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

Internship
Teacher education candidates participate in the yearlong internship during their final year of the program. During the first semester, students spend one day per week in an assigned classroom while completing coursework on campus. During the second semester of the internship, students complete full-time student teaching in the same classroom. Applications for this yearlong internship are due two semesters before student teaching.

Bachelor of Arts in Dance with Concentration in Performance, Choreography, and Theory
The Bachelor of Arts in Dance with Concentration in Performance, Choreography and Theory is a comprehensive program of classes in technique and performance, creative process, production, history, culture, and theory. Dance students begin their study in the freshman year. In addition to coursework, students have opportunities to perform in two fully produced concerts a year choreographed by faculty and guest artists.

Admission Requirements
Freshmen and Transfers
• Declaration of Major: Students may declare the major at any time.
• Progression Requirement: Students complete a formal review in their third semester for continued status in the Major in Dance.
• Transferable Credit Hours: Determined by UNC Charlotte Undergraduate Admissions.

Degree Requirements
A Major in Dance with a Concentration in Performance, Choreography, and Theory leading to the B.A. degree requires 120 credit hours, including 52-53 credit hours of dance content coursework.

College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program. Both Writing Intensive (W) courses are fulfilled by courses in the major. The Oral Communication (O) course may be fulfilled by courses in the major. Students in this major should take the following course that meets General Education requirements and also satisfies requirements in the major:
LBST 1101 - The Arts and Society: Dance (3)

Foreign Language Requirement (0-8 credit hours)
Students in this major within the College of Arts + Architecture are required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

Major Courses (52-53 credit hours)
Movement Practice Courses (22-23 credit hours)
African Diaspora Courses (6 credit hours)
DANC 2226 - Vintage Jazz Dance (2)
DANC 2125 - African Dance (2)
or DANC 2128 - African-Brazilian Dance (2)
DANC 2126 - Tap Dance (2)
or DANC 2130 - Hip-Hop Dance (2)

Ballet Courses (6 credit hours)
DANC 1209 - Ballet for Majors IA (2)
DANC 1210 - Ballet for Majors IB (2)
DANC 2209 - Ballet for Majors IA (2)
or DANC 2210 - Ballet for Majors IIB (2)
Modern Dance Courses (6 credit hours)
DANC 1217 - Modern Dance for Majors IA (2)
DANC 1218 - Modern Dance for Majors IB (2)
DANC 2217 - Modern Dance for Majors IIA (2)
or DANC 2218 - Modern Dance for Majors IIB (2)

Advanced Movement Practice Courses (4-5 credit hours)
Select one area of focus and complete both courses in that area:

1) Advanced African Diaspora Dance Courses (5 credit hours)
   DANC 3252 - Ring Shout Dance Traditions (3)
   DANC 3253 - Black Dance in the Americas (2)

2) Advanced Ballet Courses (4 credit hours)
   DANC 3210 - Ballet for Majors III (2)
   Additional course in Ballet at the 2000 level or above

3) Advanced Modern Dance Courses (4 credit hours)
   DANC 3218 - Modern Dance for Majors III (2)
or DANC 3229 - Contact Improvisation (2)
   Additional course in Modern Dance at the 2000 level or above

Creative Process Courses (8 credit hours)
DANC 1280 - Improvisation (2)
DANC 2216 - Choreography I (3)
DANC 3230 - Choreography II (3)

Dance Theory Courses (12 credit hours)
DANC 2119 - Anatomy for Dancers (3)
DANC 3228 - Music and Dance (2)
LBST 1101 - The Arts and Society: Dance (3)

Dance Pedagogy Course (3 credit hours)
Select one of the following:
DANC 3227 - Ballet Pedagogy (3) (O)
DANC 3250 - Dance in Community (3) (O)
DANC 3328 - Teaching Dance: Theories and Practices (3) (O)

Performance and Production Courses (5 credit hours)
Performance Courses (3 credit hours)
Select a total of 3 credit hours from the following repeatable courses:
DANC 2402 - Performance Practicum (1)
DANC 2403 - Dancing for Choreographers (1)

Production Courses (2 credit hours)
DANC 2401 - Production Practicum - Dance Running Crew (1)
THEA 2400 - Core-Level Production Practicum (1)

Music Fundamentals Course (2 credit hours)
DANC 2228 - Music and Dance (2)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation. Students may choose to pursue a minor or second major.

Degree Total = 120 Credit Hours

Grade Requirements
All DANC courses must be completed with no more than one grade of D and a major GPA of at least 2.75. Students must also have an overall (cumulative) 2.5 GPA or above.

Honors Program
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

Minor in Dance
Minor Requirements
A Minor in Dance consists of 23-24 credit hours.

Dance Core Courses (8 credit hours)
DANC 1212 - Ballet I (2)
DANC 1214 - Modern Dance I (2)
DANC 2125 - African Dance (2)
DANC 2226 - Vintage Jazz Dance (2)

Dance Theory Courses (5-6 credit hours)
Select two from the following:
DANC 2119 - Anatomy for Dancers (3)
DANC 2228 - Music and Dance (2)
LBST 1101 - The Arts and Society: Dance (3)

Dance Production Courses (2 credit hours)
Select from the following:
DANC 2401 - Production Practicum – Dance Running Crew (1)
DANC 2402 - Performance Practicum (1) (may be repeated)
DANC 2403 - Dancing for Choreographers (1)
THEA 2401 - Production Practicum (1) (may be repeated)

Dance Elective Courses (8 credit hours)
Select from the following:
DANC 1108 - Yoga (2)
DANC 1109 - Pilates (2)
DANC 2126 - Tap Dance (2)
DANC 2227 - Latin Dance Forms (2)
DANC 2227 - Contemporary Jazz Dance (2)
DANC 2403 - Dancing for Choreographers (1)
DANC 3100 - Pointe (2)
DANC 3229 - Contact Improvisation (2)

Among the possibilities for dance elective courses are non-major courses that “may be repeated for credit” and DANC 4001 (Special Topics) courses.

Total = 23-24 Credit Hours

Grade Requirements
All DANC courses must be completed with no more than one grade of D and a Minor in Dance GPA of at least 2.75.
Professional Training Certificate in Dance
In conjunction with Charlotte’s professional dance company, Charlotte Ballet, UNC Charlotte offers a Professional Training Certificate in Dance for students specializing in ballet performance. This unique partnership provides the student an association with a professional dance company while earning a college degree. The 16 credit hours earned in the Certificate are included in the requirements for the baccalaureate degree. Pre-college credit is also available to high school students.

Open by audition to a student in any academic major, the two-year Professional Training Certificate in Dance provides training with teachers at Charlotte Ballet. Rehearsal and performance opportunities are available in addition to classes in ballet technique, pas de deux, pointe, and variations. The Charlotte Ballet is an exceptional company whose Artistic Director, Jean-Pierre Bonnefoux, and Associate Director, Patricia McBride, include both classical and contemporary works in the repertory.

Certificate Requirements
DANC 3201 - Professional Training Certificate in Dance (4)
DANC 3202 - Professional Training Certificate in Dance (4)
DANC 4201 - Professional Training Certificate in Dance (4)
DANC 4202 - Professional Training Certificate in Dance (4)

Certificate Total = 16 Credit Hours

Undergraduate Certificate in Advanced Dance Studies
The Certificate for Advanced Dance Studies prepares dance students to work as community artists, educators, and advocates. It offers students who have completed dance degree requirements for the B.A. in Dance with a Concentration in Performance, Choreography, and Theory, or a Concentration in Dance Education the opportunity to deepen their work in performance, choreography, and related practices and to complete a culminating project.

Certificate Requirements
The certificate requires 21 credit hours beyond the requirements for the B.A. in Dance with Concentration in Performance, Choreography, and Theory or a B.A. in Dance with Concentration in Dance Education, unless otherwise noted.

Movement Practice Courses (4 credit hours)
Select a total of 4 credit hours of movement practice courses at the 2000 or 3000 level with mentor approval.

Performance Practicum Courses (2 credit hours)
DANC 2402 - Performance Practicum (1)
DANC 3402 - Performance Practicum (1)

Career Preparation Courses (6 credit hours)
DANC 3232 - Digital Skills for Artists (3) *(May be counted toward the requirements for the Dance Education concentration)*
DANC 4401 - Dance Teaching Practicum (3)

Leadership Course (3 credit hours)
Select one of the following:
COMM 3136 - Leadership, Service, and Ethics (3)

Capstone Courses (6 credit hours)
Students should complete DANC 4601 for 3 credit hours in the semester prior to DANC 4800 as preparation for the capstone project.

DANC 4601 - Individual Project (1 to 6)
DANC 4800 - Dance Capstone Project (3)

Certificate Total = 21 Credit Hours
Undergraduate Programs

- B.A. in Music
- Bachelor of Music
  - Composition
  - Elective Study in an Outside Field
  - Jazz Studies
  - Music Education, Choral/General
  - Music Education, Instrumental/General
  - Performance, Instrumental
  - Performance, Vocal
- Minor in Music Performance
- Undergraduate Certificate in Jazz
- Undergraduate Certificate in Musical Theatre (see the individual Musical Theatre section)

The Department of Music is a community of nationally recognized artists, scholars, and pedagogues who are committed to preparing students of diverse backgrounds and interests for healthy, productive, and successful lives as musical advocates and professionals. They leverage their location within both a major research university and a vibrant cultural metropolis to provide intellectual and artistic leadership through excellence in teaching, scholarly and creative activity, and service.

Located in a state-of-the-art teaching and performance facility, the department offers majors and minors intensive professional programs in all wind, string, and percussion instruments, in addition to world-class studies in piano, voice, opera and musical theatre, choral music, and jazz. The department offers numerous opportunities for UNC Charlotte students from all majors in all colleges to participate in bands, choirs, orchestras, and jazz ensembles.

Music students at UNC Charlotte take full advantage of the incomparable experience of studying music in a vibrant cosmopolitan city. As teachers, they gain real-world experience by working alongside many of the finest music educators in the country. As performers, they frequently appear in churches, jazz clubs, and other venues throughout the Charlotte-Mecklenburg region.

Partnerships with local arts organizations such as the Charlotte Symphony Orchestra and Opera Carolina allow our students to take masterclasses with world-renowned visiting artists, and even participate in professional performances. Students even have opportunities to hold jobs and internships with these organizations and others throughout the Charlotte region.

A major in music offers students comprehensive training in composition, education, jazz studies, performance, or liberal arts. Most music graduates move directly into the profession as teachers or performers, while others opt for advanced training in graduate programs or internships with professional organizations. A number of alums have used their undergraduate training as a foundation for other professions, including medicine and law.

UNC Charlotte is an associate member of the National Association of Schools of Music. The music education program is accredited by the National Council for Accreditation of Teacher Education and approved by the North Carolina Department of Public Instruction.

Admission Requirements

All students who wish to major or minor in music must audition and complete a series of placement examinations prior to acceptance (see the “Admissions” link at music.uncc.edu for details). Each student majoring in music, regardless of degree plan or concentration, is required to take private lessons (Applied Music), perform in an approved primary ensemble, and take Performance Class every semester enrolled.* For specific degree requirements, including those for the Sophomore Review and the appropriate culminating experience(s), please review the Department of Music Student Handbook.

*These requirements are not applicable for music education majors during the semester they are enrolled in Student Teaching.

Bachelor of Arts in Music

The Bachelor of Arts in Music degree is designed for students who want to combine intensive training in music with the exploration of other disciplines.

Admission Requirements

Freshmen and Transfers

- Minimum GPA: n/a
- Declaration of Major. Students are first admitted as Pre-Music majors. A formal audition is required for acceptance as a Music major (see the department website for audition dates). If the student is approved for acceptance after the audition, their major is changed to Music and they may proceed with major coursework.

- Progression Requirements: All students are required to pass a Sophomore Review (typically pursued the Spring semester of a student’s second year in the program). The Sophomore Review process consists of a Musicianship Evaluation and an Interview. Students who fail their Sophomore Review will be eligible to initiate a new Review the following semester. Students in the major must successfully complete the Sophomore Review before enrolling in any major courses at the 3000 or 4000 level.

- Transferable Credit Hours: Determined by UNC Charlotte Undergraduate Admissions.

Degree Requirements

The curriculum consists of 39 credit hours of General Education, including Foreign Language; 23 credit hours of musicianship courses, including music theory, ear training, piano, and music history; 18 credit hours of performance courses and music electives, including private lessons and ensembles; and 38 credit hours of electives—all of which can be applied to a minor or second major. For specific requirements, refer to the Department of Music Student Handbook. The culminating experience for this degree is either an academic Senior Project or Senior Music Internship.

For the Senior Project, students must complete a minimum of 3 credit...
hours of MUSC 4800 consisting of a single project. Students may repeat MUSC 4800 to achieve this requirement. In keeping with the diverse nature of scholarly/creative activities in music, the final product may vary to include a historical, theoretical, and/or technical research paper; a portfolio of original compositions; a lecture-recital; or a project of similar scope. In all cases, some written documentation of the ideas and process involved is required.

For the Senior Internship, students must complete a minimum of three credit hours of MUSC 4410. Students may repeat MUSC 4410 to achieve this requirement.

College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (31 credit hours)
For details on required courses, refer to the General Education program. Writing Intensive (W) courses and the Oral Communications (O) course are fulfilled by the Music History courses in the major.

Foreign Language Requirement (0-8 credit hours)
Students in this major within the College of Arts + Architecture are required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

Major Courses (41 credit hours)
Musicianship Courses (23 credit hours)
MUSC 1230 - Structure and Style of Music I (2)
MUSC 1230L - Aural Skills and Sight-Singing I (1)
MUSC 1231 - Structure and Style of Music II (2)
MUSC 1231L - Aural Skills and Sight-Singing II (1)
MUSC 1233 - Class Piano I (1)
MUSC 1234 - Class Piano II (1)
MUSC 2230 - Structure and Style of Music III (2)
MUSC 2230L - Aural Skills and Sight-Singing III (1)
MUSC 2231 - Structure and Style of Music IV (2)
MUSC 2231L - Aural Skills and Sight-Singing IV (1)
MUSC 3170 - Music History I (3) (W)
MUSC 3171 - Music History II (3) (O)
MUSC 4410 - Senior Music Internship (2 to 4) (W) (a minimum of 3 credit hours is required)
or MUSC 4800 - Senior Project Preparation (1 to 3) (W) (a minimum of 3 credit hours is required)

Performance and Music Elective Courses (16-18 credit hours)
MUPF 11xx - Primary Ensembles (1) (6 semesters)
MUPF 11xx - Secondary Ensembles (1) (2 semesters)
MUPF 12xx - Applied Music (1 to 2) (6-8 semesters)
MUSC 1300 - Performance Class (0) (4 semesters)
Any MUSC or MUPF course(s) at the 3000- or 4000-level (2)

Diction Courses (0-2 credit hours)
These courses are required only for students enrolled in MUPF 1253.

MUSC 2137 - Phonetics and Articulation for Singers I: Italian and Latin Diction (1)
MUSC 2138 - Phonetics and Articulation for Singers II: English Diction (1)

Restricted Elective Courses (30 credit hours)
Select 26 credit hours outside the Department of Music. Courses may used to complete a Minor or Second Major.

Unrestricted Elective Courses (8 credit hours)
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
Most music courses require grades of C or above to progress to subsequent levels of study; all required music courses must be passed with grades of C or above to graduate. For specific requirements, refer to the Department of Music Student Handbook.

Honors Program
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

Bachelor of Music with Concentration in Composition
The Bachelor of Music (B.M.) with a Concentration in Composition is designed for students who are planning careers as composers of contemporary art music.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: n/a
- Declaration of Major: Students are first admitted as Pre-Music majors. A formal audition is required for acceptance as a Music major (see the department website for audition dates). If the student is approved for acceptance after the audition, their major is changed to Music and they may proceed with major coursework.
- Progression Requirements: All students are required to pass a Sophomore Review (typically pursued the Spring semester of a student’s second year in the program). The Sophomore Review process consists of a Musicianship Evaluation, an Applied Performance Evaluation, and an Interview. Students who fail their Sophomore Review will be eligible to initiate a new Review the following semester. Students in the major must successfully complete the Sophomore Review before enrolling in any major courses at the 3000 or 4000 level.
- Transferable Credit Hours: Determined by UNC Charlotte Undergraduate Admissions.

Degree Requirements
The curriculum consists of 31 credit hours of General Education: 41 credit hours of music composition and basic musicianship; and 34-40 credit hours of supportive courses in music, including ensemble participation and performance studies. The culminating experience for this degree is a senior composition project.
College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (31 credit hours)
For details on required courses, refer to the General Education program. Both Writing Intensive (W) courses and the Oral Communications (O) course are fulfilled by the Music History courses in the major.

Foreign Language Requirement (0-8 credit hours)
Students in this major within the College of Arts + Architecture are required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

Music Composition and Basic Musicianship Courses (41 credit hours)

Music Composition Courses (19 credit hours)
MUSC 2240 - Introduction to Composition (1) (2 semesters)
MUSC 3130 - Counterpoint (2)
MUSC 4230 - Form and Analysis (3) (W)
MUSC 4231 - Post-Tonal Processes (3)
MUSC 4235 - Orchestration and Arranging (2)
MUSC 4240 - Composition (2)
MUSC 4241 - Advanced Composition (2)
MUSC 4800 - Senior Project Preparation (1 to 3) (W)

Basic Musicianship Courses (22 credit hours)
MUSC 1230 - Structure and Style of Music I (2)
MUSC 1230L - Aural Skills and Sight-Singing I (1)
MUSC 1231 - Structure and Style of Music II (2)
MUSC 1231L - Aural Skills and Sight-Singing II (1)
MUSC 1233 - Class Piano I (1)
MUSC 1234 - Class Piano II (1)
MUSC 2230 - Structure and Style of Music III (2)
MUSC 2230L - Aural Skills and Sight-Singing III (1)
MUSC 2231 - Structure and Style of Music IV (2)
MUSC 2231L - Aural Skills and Sight-Singing IV (1)
MUSC 2233 - Class Piano III (1)
MUSC 2234 - Class Piano IV (1)
MUSC 3170 - Music History I (3) (W)
MUSC 3171 - Music History II (3) (O)

Music Supportive Courses (34-38 credit hours)

Ensemble Participation and Performance Courses (26 credit hours)
MUPF 11xx - Primary Ensembles (1) (8 semesters)
MUPF 11xx - Secondary Ensembles (1) (2 semesters)
MUPF 12xx - Applied Music (2) (4 semesters)
MUPF 32xx - Advanced Applied Music (2) (4 semesters)
MUSC 1300 - Performance Class (0) (4 semesters)
MUSC 3300 - Advanced Performance Class (0) (4 semesters)

Other Supportive Courses (5 credit hours)
MUSC 2101 - Introduction to Music Business (2)
MUSC 2151 - Introduction to Music Technology (1)
MUSC 3134 - Fundamentals of Conducting (2)

Music Business or Technology Course (1 credit hour)
Select one of the following:
MUSC 1403 - Audio Engineering Practicum (1)
MUSC 2271 - Fundamental Recording Techniques (1)
MUSC 2410 - Music Internship (1 to 3)
Other approved course

Diction Courses (0-4 credit hours)
Diction Courses are required only for students enrolled in MUPF 1253.
MUSC 2137 - Phonetics and Articulation for Singers I: Italian and Latin Diction (1)
MUSC 2138 - Phonetics and Articulation for Singers II: English Diction (1)
MUSC 2237 - Phonetics and Articulation for Singers III: German Diction (1)
MUSC 2238 - Phonetics and Articulation IV: French Diction (1)

Techniques Courses (2 credit hours)
MUPF 1117 - Instrumental Lab Ensemble (0) (2 semesters)

Plus select two of the following outside the student’s primary instrument:
MUSC 1223 - Woodwind Techniques (1)
MUSC 1225 - Brass Techniques (1)
MUSC 1227 - String Techniques (1)
MUSC 1229 - Percussion Techniques (1)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation. Based upon the student’s interests, the following courses are recommended to supplement the Concentration in Composition:
MUSC 1237 - Class Voice (1)
MUSC 3136 - Instrumental Conducting (2)
Additional techniques courses

Degree Total = 120 Credit Hours

Grade Requirements
Most music courses require grades of C or above to progress to subsequent levels of study; all required music courses must be passed with grades of C or above to graduate. For specific requirements, refer to the Department of Music Student Handbook.

Honors Program
For details about the Arts + Architecture Honors Program, see the beginning of the College of Arts + Architecture section.

Bachelor of Music with Concentration in Elective Study in an Outside Field
The Bachelor of Music with Concentration in Elective Study in an Outside Field is designed for students who want to combine intensive training in music with the exploration of another discipline.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: n/a
- Declaration of Major: Students are first admitted as Pre-Music
majors. A formal audition is required for acceptance as a Music major (see the department website for audition dates). If the student is approved for acceptance after the audition, their major is changed to Music and they may proceed with major coursework.

- **Progression Requirements:** All students are required to pass a Sophomore Review (typically pursued the Spring semester of a student’s second year in the program). The Sophomore Review process consists of a Musicianship Evaluation, an Applied Performance Evaluation, and an Interview. Students who fail their Sophomore Review will be eligible to initiate a new Review the following semester. Students in the major must successfully complete the Sophomore Review before enrolling in any major courses at the 3000 or 4000 level.

- **Transferable Credit Hours:** Determined by UNC Charlotte Undergraduate Admissions.

### Degree Requirements

The curriculum consists of 31 credit hours of General Education, 0-8 credit hours of Foreign Language, and 57-61 credit hours of Music Courses. Additional requirements include 18 credit hours of Elective Studies from courses offered at UNC Charlotte. The culminating experiences for this degree include a Senior Recital and a choice between a (1) Senior Project or (2) Senior Internship.

### College Prospect for Success Course (2 credit hours)

*All new freshmen in the College of Arts + Architecture must take the following:*

COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

### General Education Courses (31 credit hours)

For details on required courses, refer to the General Education program. Both Writing Intensive (W) courses and the Oral Communications (O) course are fulfilled by courses in the major.

### Foreign Language Requirement (0-8 credit hours)

Students in this major within the College of Arts + Architecture are required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

### Major Courses (57-61 credit hours)

#### Basic Musicianship Courses (22 credit hours)

MUSC 1230 - Structure and Style of Music I (2)
MUSC 1230L - Aural Skills and Sight-Singing I (1)
MUSC 1231 - Structure and Style of Music II (2)
MUSC 1231L - Aural Skills and Sight-Singing II (1)
MUSC 1233 - Class Piano I (1)
MUSC 1234 - Class Piano II (1)
MUSC 2230 - Structure and Style of Music III (2)
MUSC 2230L - Aural Skills and Sight-Singing III (1)
MUSC 2231 - Structure and Style of Music IV (2)
MUSC 2231L - Aural Skills and Sight-Singing IV (1)
MUSC 2233 - Class Piano III (1)
MUSC 2234 - Class Piano IV (1)
MUSC 3170 - Music History I (3) (W)
MUSC 3171 - Music History II (3) (O)

#### Ensemble Participation and Performance Courses (26 credit hours)

MUPF 11xx - Primary Ensembles (1) (8 semesters)
MUPF 11xx - Secondary Ensembles (1) (2 semesters)
MUPF 12xx - Applied Music (2) (4 semesters)
MUPF 32xx - Advanced Applied Music (2) (3 semesters)
MUPF 44xx - Senior Recital Preparation (2)
MUSC 1300 - Performance Class (0) (4 semesters)
MUSC 3300 - Advanced Performance Class (0) (4 semesters)

#### Phonetics and Articulation Courses (0-4 credit hours)

These courses are required only for students enrolled in MUPF 1253.

MUSC 2137 - Phonetics and Articulation for Singers I: Italian and Latin Diction (1)
MUSC 2138 - Phonetics and Articulation for Singers II: English Diction (1)
MUSC 2237 - Phonetics and Articulation for Singers III: German Diction (1)
MUSC 2238 - Phonetics and Articulation IV: French Diction (1)

#### Elective Upper-Division Music Courses (6 credit hours)

Select any combination of music courses at the 3000- or 4000-level for the 6 credit hour requirement.

#### Capstone Experience (3 credit hours)

The culminating experience for this degree include a Senior Recital and a choice between a (1) Senior Project or (2) Senior Internship.

**Select one of the following:**

MUSC 4410 - Senior Music Internship (2 to 4) (W)
MUSC 4800 - Senior Project Preparation (1 to 3) (W)

#### Elective Study in an Outside Field Concentration Courses (18 credit hours)

Select 18 credit hours of electives in one academic discipline from courses offered at UNC Charlotte (e.g., 18 credit hours of Psychology, 18 credit hours of Business).

#### Unrestricted Elective Courses

As needed to complete the credit hours required for graduation.

### Degree Total = 120 Credit Hours

### Grade Requirements

Most music courses require grades of C or above to progress to subsequent levels of study; all required music courses must be passed with grades of C or above to graduate. For specific requirements, refer to the Department of Music Student Handbook.

### Honors Program

For details about the Arts + Architecture Honors Program, see the beginning of the College of Arts + Architecture section.

### Bachelor of Music with Concentration in Jazz Studies

The Bachelor of Music (B.M.) with a Concentration in Jazz Studies is designed for students who are planning careers as jazz musicians. The curriculum consists of 34 credit hours of General Education as well as a
Foreign Language proficiency; 56 credit hours in the Core Music Curriculum, including private lessons, ensembles, music theory, aural skills, piano, and music history; and 19-21 credit hours in Concentration Courses, including coursework in jazz improvisation, jazz arranging and composition, and jazz history. The culminating experiences for this degree are a junior and senior recital.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: n/a
- Declaration of Major: Students are first admitted as Pre-Music majors. A formal audition is required for acceptance as a Music major (see the department website for audition dates). If the student is approved for acceptance after the audition, their major is changed to Music and they may proceed with major coursework.
- Progression Requirements: All students are required to pass a Sophomore Review (typically pursued the Spring semester of a student’s second year in the program). The Sophomore Review process consists of a Musicianship Evaluation, an Applied Performance Evaluation, and an Interview. Students who fail their Sophomore Review will be eligible to initiate a new Review the following semester. Students in the major must successfully complete the Sophomore Review before enrolling in any major courses at the 3000 or 4000 level.
- Transferable Credit Hours: Determined by UNC Charlotte Undergraduate Admissions.

Degree Requirements
College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (31 credit hours)
For details on required courses, refer to the General Education program. Both Writing Intensive (W) courses and the Oral Communications (O) course are fulfilled by the Music History courses in the major.

Bachelor of Music with Concentration in Choral/General Music Education
The Bachelor of Music (B.M.) with a Concentration in Choral/General Music Education is designed for vocalists who wish to become public school choral directors or general music educators. The curriculum includes 31 credit hours of General Education; 61 credit hours of studies in music, including basic musicianship and performance studies; and 26
credit hours of professional education courses that lead to a K-12 teaching license in the State of North Carolina. The culminating experiences for this degree are a Senior Recital and Student Teaching.

**Admission Requirements**

**Freshmen and Transfers**
- **Minimum GPA:** n/a
- **Declaration of Major:** Students are first admitted as Pre-Music majors. A formal audition is required for acceptance as a Music major (see the department website for audition dates). If the student is approved for acceptance after the audition, their major is changed to Music and they may proceed with major coursework. Students must indicate Music Education at the time of audition to avoid a delayed graduation date.
- **Progression Requirements:** All students are required to pass a Sophomore Review (typically pursued the Spring semester of a student's second year in the program). The Sophomore Review process consists of a Musicianship Evaluation, an Applied Performance Evaluation, and an Interview. Students who fail their Sophomore Review will be eligible to initiate a new Review the following semester. Students in the major must successfully complete the Sophomore Review before enrolling in any major courses at the 3000 or 4000 level. In the same semester, students seeking K-12 Music Education licensure must earn a C or above in all MUED coursework, have a cumulative GPA of 2.75, achieve passing scores on Praxis Core (or prove exemption via test scores), and complete the Application to Teacher Education which includes a signed Professional Dispositions statement and clear criminal background check. To progress to student teaching, students must achieve a minimum 2.75 GPA in all Music and Education courses, a minimum 2.75 GPA overall, and successfully perform a Senior Recital.
- **Transferable Credit Hours:** Determined by UNC Charlotte Undergraduate Admissions.

**Degree Requirements**

**College Prospect for Success Course (2 credit hours)**

All new freshmen in the College of Arts + Architecture must take the following:

- COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

**General Education Courses (31 credit hours)**

For details on required courses, refer to the General Education program. Both Writing Intensive (W) courses and the Oral Communications (O) course are fulfilled by courses in the major.

**Music Studies Courses (61 credit hours)**

**Basic Musicianship Courses (22 credit hours)**

- MUSC 1230 - Structure and Style of Music I (2)
- MUSC 1230L - Aural Skills and Sight-Singing I (1)
- MUSC 1231 - Structure and Style of Music II (2)
- MUSC 1231L - Aural Skills and Sight-Singing II (1)
- MUSC 1233 - Class Piano I (1)
- MUSC 1234 - Class Piano II (1)
- MUSC 2230 - Structure and Style of Music III (2)
- MUSC 2230L - Aural Skills and Sight-Singing III (1)
- MUSC 2231 - Structure and Style of Music IV (2)
- MUSC 2231L - Aural Skills and Sight-Singing IV (1)

- MUSC 2233 - Class Piano III (1)
- MUSC 2234 - Class Piano IV (1)
- MUSC 3170 - Music History I (3) (W)
- MUSC 3171 - Music History II (3) (O)

**Performance Courses (23 credit hours)**

- MUPF 1120 - University Chorale (1) (7 semesters)
- MUPF 1253 - Applied Music: Voice (1 to 2) (4 semesters)
- MUPF 3253 - Advanced Applied Music: Voice (2) (2 semesters)
- MUPF 4453 - Senior Recital Preparation: Voice (2)
- MUSC 1300 - Performance Class (0) (4 semesters)
- MUSC 3300 - Advanced Performance Class (0) (3 semesters)

**Plus one of the following Secondary Ensembles:**

- MUPF 1121 - Chamber Singers (1) (2 semesters)
- MUPF 1122 - Men's Chorus (Mallard Creek Chorale) (1) (2 semesters)
- MUPF 1123 - Women's Chorus (Charlotteans) (1) (2 semesters)
- MUPF 1124 - Opera Workshop (1) (2 semesters)
- MUPF 1125 - Gospel Choir (1) (2 semesters)
- MUPF 1128 - Special Vocal Ensemble (1) (2 semesters)

**Other Music Studies Courses (16 credit hours)**

- MUSC 2137 - Phonetics and Articulation for Singers I: Italian and Latin Diction (1)
- MUSC 2138 - Phonetics and Articulation for Singers II: English Diction (1)
- MUSC 2151 - Introduction to Music Technology (1)
- MUSC 2237 - Phonetics and Articulation for Singers III: German Diction (1)
- MUSC 2238 - Phonetics and Articulation IV: French Diction (1)
- MUSC 3134 - Fundamentals of Conducting (2)
- MUSC 3135 - Choral Conducting (2)
- MUSC 3151 - Accompanying for Non-Pianists (1)
- MUSC 4094 - Instrumental Ensemble Techniques (1)
- MUSC 4137 - Vocal Pedagogy (3)
- MUSC 4235 - Orchestration and Arranging (2)

**Professional Education Courses (26 credit hours)**

- MUED 2100 - Introduction to Music Education (2)
- MUED 2141 - Music Development and Learning (2)
- MUED 2200 - Foundations of Music Education (2)
- MUED 4190 - Choral Methods (2)
- MUED 4190L - Choral Methods Lab (1)
- MUED 4192 - General Music Methods (2)
- MUED 4192L - General Music Methods Lab (1)
- MUED 4270 - Teaching Discipline: Assessment and Behavior in the Music Classroom (2)
- MUED 4467 - Student Teaching/Seminar: K-12 Music (12) (W)

**Unrestricted Elective Courses**

As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

**Grade Requirements**

Most music courses require grades of C or above to progress to subsequent levels of study; all Music and Education coursework must be passed with grades of C or above to graduate. Students must earn a grade of B or above in student teaching and pass Praxis II: Music Content...
and Instruction to be recommended for licensure. For specific requirements, refer to the Department of Music Student Handbook.

**Honors Program**
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

- MUSC 3136 - Instrumental Conducting (2)
- MUSC 4090 - Choral Ensemble Techniques (1)
- MUSC 4235 - Orchestration and Arranging (2)

**Professional Education Courses (25 credit hours)**
- MUED 2100 - Introduction to Music Education (2)
- MUED 2141 - Music Development and Learning (2)
- MUED 2200 - Foundations of Music Education (2)
- MUED 4192 - General Music Methods (2)
- MUED 4192L - General Music Methods Lab (1)
- MUED 4194 - Instrumental Methods (2)
- MUED 4194L - Instrumental Methods Lab (1)
- MUED 4270 - Teaching Discipline: Assessment and Behavior in the Music Classroom (2)
- MUED 4467 - Student Teaching/Seminar: K-12 Music (12) (W)
- MUPF 1117 - Instrumental Lab Ensemble (0) (4 semesters)
Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
Most music courses require grades of C or above to progress to subsequent levels of study; all required music courses must be passed with grades of C or above to graduate. For specific requirements, refer to the Department of Music Student Handbook.

Honors Program
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

Bachelor of Music with Concentration in Instrumental Performance
The Bachelor of Music (B.M.) with a Concentration in Instrumental Performance is designed for students who are planning careers as performing musicians. The culminating experiences for this degree program are Junior and Senior Recitals.

Admission Requirements
Freshmen and Transfers
• Minimum GPA: n/a
• Declaration of Major: Students are first admitted as Pre-Music majors. A formal audition is required for acceptance as a Music major (see the department website for audition dates). If the student is approved for acceptance after the audition, their major is changed to Music and they may proceed with major coursework.
• Progression Requirements: All students are required to pass a Sophomore Review (typically pursued the Spring semester of a student’s second year in the program). The Sophomore Review process consists of a Musicianship Evaluation, an Applied Performance Evaluation, and an Interview. Students who fail their Sophomore Review will be eligible to initiate a new Review the following semester. Students in the major must successfully complete the Sophomore Review before enrolling in any major courses at the 3000 or 4000 level.
• Transferable Credit Hours: Determined by UNC Charlotte Undergraduate Admissions.

Degree Requirements
College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (31 credit hours)
For details on required courses, refer to the General Education program. Both Writing Intensive (W) courses and the Oral Communications (O) course are fulfilled by Music History courses in the major.

Foreign Language Requirement (0-8 credit hours)
Students in this major within the College of Arts + Architecture are required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

Major Courses (54 credit hours)
Musicianship Courses (22 credit hours)
MUSC 1230 - Structure and Style of Music I (2)
MUSC 1230L - Aural Skills and Sight-Singing I (1)
MUSC 1231 - Structure and Style of Music II (2)
MUSC 1231L - Aural Skills and Sight-Singing II (1)
MUSC 1233 - Class Piano I (1)
MUSC 1234 - Class Piano II (1)
MUSC 2230 - Structure and Style of Music III (2)
MUSC 2230L - Aural Skills and Sight-Singing III (1)
MUSC 2231 - Structure and Style of Music IV (2)
MUSC 2231L - Aural Skills and Sight-Singing IV (1)
MUSC 2233 - Class Piano III (1)
MUSC 2234 - Class Piano IV (1)
MUSC 3170 - Music History I (3) (W)
MUSC 3171 - Music History II (3) (O)

Performance Courses (32 credit hours)
MUPF 11xx - Primary Ensembles (1) (8 semesters)
MUPF 11xx - Secondary Ensembles (1) (8 semesters)
MUPF 12xx - Applied Music and Advanced Applied Music (2) (4 semesters)
MUPF 32xx - Advanced Applied Music (2) (2 semesters)
MUPF 34xx - Junior Recital Preparation (2)
MUPF 44xx - Senior Recital Preparation (2)
MUSC 1300 - Performance Class (0) (4 semesters)
MUSC 3300 - Advanced Performance Class (0) (4 semesters)

Concentration Courses (20-22 credit hours)
MUSC 2101 - Introduction to Music Business (1)
MUSC 2151 - Introduction to Music Technology (1)
MUSC 2235 - Jazz Improvisation I (2)
or MUSC 4235 - Orchestration and Arranging (2)
MUSC 3130 - Counterpoint (2)
MUSC 3134 - Fundamentals of Conducting (2)
MUSC 3136 - Instrumental Conducting (2)
MUSC 413x - Pedagogy and Literature (3)
MUSC 4230 - Form and Analysis (3) (W)
MUSC 4231 - Post-Tonal Processes (3)

Business or Technology Concentration Course (1-3 credit hours)
Select one of the following:
MUSC 1403 - Audio Engineering Practicum (1)
MUSC 2271 - Fundamental Recording Techniques (1)
MUSC 2410 - Music Internship (1 to 3)
Another approved course

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
Most music courses require grades of C or above to progress to subsequent levels of study; all required music courses must be passed
with grades of C or above to graduate. For specific requirements, refer to the Department of Music Student Handbook.

Honors Program
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

Bachelor of Music with Concentration in Vocal Performance
The Bachelor of Music (B.M.) with a Concentration in Vocal Performance is designed for vocalists who are planning careers as performing musicians.

Admission Requirements
Freshmen and Transfers
- **Minimum GPA:** n/a
- **Declaration of Major:** Students are first admitted as Pre-Music majors. A formal audition is required for acceptance as a Music major (see the department website for audition dates). If the student is approved for acceptance after the audition, their major is changed to Music and they may proceed with major coursework.
- **Progression Requirements:** All students are required to pass a Sophomore Review (typically pursued the Spring semester of a student's second year in the program). The Sophomore Review process consists of a Musicianship Evaluation, an Applied Performance Evaluation, and an Interview. Students who fail their Sophomore Review will be eligible to initiate a new Review the following semester. Students in the major must successfully complete the Sophomore Review before enrolling in any major courses at the 3000 or 4000 level.
- **Transferable Credit Hours:** Determined by UNC Charlotte Undergraduate Admissions.

Degree Requirements
The curriculum consist of 31 credit hours of General Education; 36 credit hours of study in the major area of performance, including performance studies, ensemble participation, pedagogy, and recitals; and 44 credit hours of supportive courses in music, including basic musicianship. The culminating experiences for this degree are a Junior Recital and a Senior Recital.

College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (31 credit hours)
For details on required courses, refer to the General Education program. Both Writing Intensive (W) courses and the Oral Communications (O) course are fulfilled by Music History courses in the major.

Foreign Language Requirement (0-16 credit hours)
Students in this major are required to demonstrate proficiency through the 1202 level in TWO foreign languages of their choice, one of which must be French, German, Italian, or Spanish. Proficiency for each language can be demonstrated in one of the following ways:
- Completing the required coursework at UNC Charlotte
- Completing three years of the same foreign language in high school through level three
- Achieving a satisfactory score on the foreign languages placement test (in Spanish, French, or German)
- Through approved transfer or transient credit earned at a college or university accredited by an accepted accrediting body
- A combination of the above methods (e.g., placing out of or earning transfer or transient credit for 1201 and completing the 1202 course, completing 1201 and placing out of or earning transfer or transient credit for 1202)

Major Performance Courses (34 credit hours)
**Performance Courses (12 credit hours)**
MUPF 1253 - Applied Music: Voice (1 to 2) (4 semesters)
MUPF 3253 - Advanced Applied Music: Voice (2) (2 semesters)
MUSC 1300 - Performance Class (0) (4 semesters)
MUSC 3300 - Advanced Performance Class (0) (4 semesters)

**Ensemble Participation Courses (14 credit hours)**
MUPF 11xx - Secondary Ensembles (1) (6 semesters)
MUPF 1120 - University Chorale (1) (8 semesters)

**Pedagogy Course (3 credit hours)**
MUSC 4137 - Vocal Pedagogy (3)

**Recital Courses (4 credit hours)**
MUPF 3453 - Junior Recital Preparation: Voice (2)
MUPF 4453 - Senior Recital Preparation: Voice (2)

**Supportive Music Courses (37 credit hours)**
**Basic Musicianship Courses (22 credit hours)**
MUSC 1230 - Structure and Style of Music I (2)
MUSC 1230L - Aural Skills and Sight-Singing I (1)
MUSC 1231 - Structure and Style of Music II (2)
MUSC 1231L - Aural Skills and Sight-Singing II (1)
MUSC 1233 - Class Piano I (1)
MUSC 1234 - Class Piano II (1)
MUSC 2230 - Structure and Style of Music III (2)
MUSC 2230L - Aural Skills and Sight-Singing III (1)
MUSC 2231 - Structure and Style of Music IV (2)
MUSC 2231L - Aural Skills and Sight-Singing IV (1)
MUSC 2233 - Class Piano III (1)
MUSC 2234 - Class Piano IV (1)
MUSC 3170 - Music History I (3) (W)
MUSC 3171 - Music History II (3) (O)

**Other Supportive Music Courses (15 credit hours)**
MUSC 2101 - Introduction to Music Business (2)
MUSC 2137 - Phonetics and Articulation for Singers I: Italian and Latin Diction (1)
MUSC 2138 - Phonetics and Articulation for Singers II: English Diction (1)
MUSC 2151 - Introduction to Music Technology (1)
MUSC 2237 - Phonetics and Articulation for Singers III: German Diction (1)
MUSC 2238 - Phonetics and Articulation IV: French Diction (1)
MUSC 3134 - Fundamentals of Conducting (2)
MUSC 4037 - Vocal Literature (3)
MUSC 4230 - Form and Analysis (3) (W)

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

**Grade Requirements**
Most music courses require grades of C or above to progress to subsequent levels of study; all required music courses must be passed with grades of C or above to graduate. For specific requirements, refer to the Department of Music Student Handbook.

**Honors Program**
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

**Minor in Music Performance**
The Minor in Music Performance is designed for students who wish to enhance their skills as performing artists while working towards degrees in other fields. Music Performance minors participate in ensembles, receive private lessons, and take introductory courses in musicianship, as well as LBST 1103, which can also be used to satisfy a General Education requirement. The total unit requirement for the Minor in Music Performance is 18 credit hours. For specific requirements, refer to the Department of Music Student Handbook.

**Admission Requirements**
Interested students should contact the Performing Arts Academic Advisor as soon as possible for advising. Students interested in pursuing this minor must audition through the Department of Music (see the “Future Students” link at music.uncc.edu for details).

**Minor Requirements**

MUSC 2235 - Jazz Improvisation I (2)
MUSC 2236 - Jazz Improvisation II (2)
MUSC 2410 - Music Internship (1 to 3)

Total = 18 Credit Hours

Grade Requirements
All courses must be passed with grades of C or above to graduate with a Minor in Music Performance.

Undergraduate Certificate in Jazz
The Undergraduate Certificate in Jazz is designed for instrumentalists who wish to enhance their undergraduate study with intensive training in jazz. It is available to instrumentalists in any of the three music degree tracks (B.A. in Music, B.M. in Music Education, and B.M. in Music Performance) who wish to supplement their required instruction in classical music with elective training in jazz. The curriculum consists of 20 credit hours of jazz studies that combine instruction in performance and musicianship, including ensembles, lessons, improvisation, history, and a course in either arranging or pedagogy. For specific requirements, refer to the Department of Music Student Handbook.

Admission Requirements
Interested students should contact the Performing Arts Academic Advisor as soon as possible for advising. Students interested in pursuing this certificate must audition through the Department of Music (see the “Admissions” link at music.uncc.edu for details).

Certificate Requirements
Performance Courses (10 credit hours)
MUPF 1111 - Jazz Ensemble (4)
MUPF 1170 - Jazz Combo (2)
MUPF 126x - Applied Music (Jazz) (4) (4 semesters)

Musicianship Courses (10 credit hours)
MUSC 2235 - Jazz Improvisation I (2)
MUSC 2236 - Jazz Improvisation II (2)
MUSC 4138 - Jazz Pedagogy and Materials (3)
MUSC 4234 - Jazz Arranging and Composition (3)
MUSC 4298 - Jazz History (3) (W)

Certificate Total = 20 Credit Hours

Grade Requirements
All required courses must be passed with a grade of B or above to earn the Undergraduate Certificate in Jazz.

Musical Theatre

Undergraduate Programs
- Undergraduate Certificate in Musical Theatre

Musical Theatre is an interdisciplinary program between the Departments of Dance, Music, and Theatre. The term “musical theatre” is defined in a way that embraces the richness and diversity of this challenging interdisciplinary art form, which includes musical comedy, the musical play, new and alternative musical theatre, "Broadway opera," cabaret, and revue. Students receive technique training in acting complemented by training in vocal technique, musicianship, dance, and the study of the repertoire of musical theatre in print and recordings, as well as in rehearsal and performance.

Admission Requirements
Admission into the certificate is by audition only. Any courses in the Musical Theatre certificate completed prior to formal admission into the program will subsequently be applied towards the certificate.

Certificate Requirements
Required Courses (11 credit hours)
COAA 3150 - Musical Theatre History (3)
COAA 3350 - Musical Theatre Workshop (1) (four semesters for a total of 4 credit hours)
MUSC 1101 - Introduction to Aural Skills and Sight-Singing (1)
THEA 3207 - Acting for the Musical Theatre (3)

Restricted Elective Courses (8 credit hours)
Elective Voice Courses (4 credit hours)
Select from the following (4 semesters for a total of 4 credit hours):
MUPF 1270 - Applied Music: Musical Theatre (1)
MUSC 1237 - Class Voice (1)
MUSC 1240 - Class Voice for Musical Theatre (1)

Elective Dance Courses (4 credit hours)
Select two of the following:
DANC 1212 - Ballet I (2)
DANC 2126 - Tap Dance (2)
DANC 2227 - Contemporary Jazz Dance (2)

Certificate Total = 19 Credit Hours
Grade Requirements
All courses must be passed with a grade of C or above to earn the Undergraduate Certificate in Musical Theatre.

Department of Theatre
theatre.uncc.edu

Undergraduate Programs
- B.A. in Theatre
  - Applied Theatre
  - Design/Tech
  - Directing, Dramaturgy, and Dramatic Writing (3-D)
  - Performance
  - Theatre Education (K-12)
- Minor in Theatre
- Undergraduate Certificate in Musical Theatre (see the individual Musical Theatre section)

The Department of Theatre provides a student-focused liberal arts education that trains theatre artists, scholars and teachers to investigate current best practices and emerging entrepreneurial methods in professional theatre. Aligning with the university’s commitment to open-access education, we integrate the values of equity and inclusion to drive vibrant intellectual inquiry, ethical and informed community engagement, and innovative creative research practices.

Led by a faculty of nationally recognized theatre artists and scholars, the curriculum promotes creativity, inquisitiveness, critical thinking, communication skills (oral and written), and cultural competency through classroom experience, individual and collaborative study, and actualized stage productions. Students learn to participate in current critical discourse while engaging with the theory, history, and material conditions of performance; the program thus creates a rigorous intellectual environment firmly rooted in the theatrical art form.

Theatre majors develop a working knowledge of the art form by taking four semesters of core curriculum courses followed by an additional four semesters of study in one of the following concentrations: Performance; Design/Tech; Directing, Devising and Dramatic Writing (3-D); Applied Theatre; or Theatre Education (with the goal of attaining a North Carolina teaching license). All majors take a culminating 3-credit hour senior seminar during the final year.

In addition to required coursework, the department sponsors a wide range of master classes (led by theatre artists and scholars from around the world), lecture-discussions, workshops, and other learning opportunities. Throughout their training, students work both as faculty-mentored individuals and in collaborative groups, so that in addition to making significant contributions to the cultural life of the campus and the Charlotte region through departmental productions, they emerge ready for theatrical internships, graduate programs, or for employment in any profession which places value on critical and analytical thinking, collaborative practice, and effective communication skills.

As part of the curriculum, the department presents a season of faculty-directed, student-acted MainStage productions, workshop-level performances, and professional guest performance events. Auditions are open to all members of the University community. Performances are
held in Robinson Hall and Rowe Arts, which contain three performance spaces and specialized rehearsal, design, and construction laboratories, as well as additional classrooms and department offices.

Bachelor of Arts in Theatre with Concentration in Applied Theatre

Admission Requirements

Freshmen
- Declaration of Major: Students can declare the Theatre major on their application for enrollment, after being admitted to the University, or transfer in from another major on campus.

Transfers
- Declaration of Major: Students can declare the Theatre major on their application for enrollment, after being admitted to the University, or transfer in from another major on campus.
- Transferable Credit Hours: Determined by UNC Charlotte Undergraduate Admissions.

Degree Requirements

The Theatre major with a Concentration in Applied Theatre leading to the B.A. degree requires a total of 120 credit hours, including 45 credit hours of theatre courses. This is a structured curriculum. Students must take 26 credit hours of Core Courses before advancing to the prescribed 19 credit hours of the Concentration in Performance.

College Prospect for Success Course (2 credit hours)

All new freshmen in the College of Arts + Architecture must take the following:

COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (31-35 credit hours)

For details on required courses, refer to the General Education program.

Foreign Language Requirement (0-8 credit hours)

Students in this major within the College of Arts + Architecture are required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

Major Courses (26 credit hours)

Core Courses (14 credit hours)

THEA 1140 - The Theatre Experience (3)
THEA 1265 - Introduction to Stage Performance (3) (O)
THEA 1270 - Acting I (3) (O)
THEA 1300 - Play Analysis (3) (W)
THEA 2400 - Core-Level Production Practicum (1)
THEA 2600 - Majors Seminar (1)

Tech I Course (3 credit hours)

Select one of the following:

THEA 1215 - Theatre Tech I - Costume (3)
THEA 1225 - Theatre Tech I - Scenic (3)
THEA 1235 - Theatre Tech I - Lighting (3)
THEA 1245 - Theatre Tech I - Sound (3)

Design I Course (3 credit hours)

Select one of the following:

THEA 2210 - Costume Design I (3)
THEA 2230 - Scenic Design I (3)
THEA 2240 - Sound Design I (3)
THEA 2250 - Lighting Design I (3)

Theatre History Course (3 credit hours)

Select one of the following:

THEA 2310 - Theatre History I (3)
THEA 2311 - Theatre History II (3)

Elective Core Course (3 credit hours)

Select one of the following or take the Theatre History course not already selected above:

THEA 2310 - Theatre History I (3)
or THEA 2311 - Theatre History II (3)
THEA 2330 - Shakespeare in History (3) (W)
THEA 3310 - Dramaturgy (3) (W)
THEA 4001 - Topics in Theatre (1 to 6) (W)
THEA 4330 - Performance Theory (3) (W)

Concentration Courses (19 credit hours)

Required Concentration Courses (9 credit hours)

THEA 1360 - Applied Theatre in Communities and Schools (3)
THEA 4340 - Theatre Collaboration (3) (SL)
THEA 4375 - Devising/Directing Methods with Youth K-12 (3)

Elective Concentration Course I (3 credit hours)

Select one of the following:

AFRS 1100 - Introduction to Africana Studies (3)
EDUC 3200 - Service Learning Teaching Methods for K-12 Educators (3)
HCHR 2100 - Introduction to Holocaust, Genocide, and Human Rights Studies (3)
LTAM 1100 - Introduction to Latin America (3) (O)
RELS 1200 - World Religions (3)
WGST 1101 - Introduction to Women's Studies (3)

Elective Concentration Course II (3 credit hours)

Select one of the following:

THEA 3310 - Dramaturgy (3) (W)
THEA 4330 - Performance Theory (3) (W)
THEA 4800 - Directed Independent Study (1 to 3)

Senior Year Courses (4 credit hours)

Both of the following courses must be taken in the Senior year:

THEA 3400 - Concentration Level Practicum (1)
THEA 4620 - Senior Seminar (3)

Unrestricted Elective Courses

As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements

All Theatre (THEA) courses must be passed with a grade of C or above, with no more than one grade of D in Theatre courses.
Honors Program
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

Bachelor of Arts in Theatre with Concentration in Design/Tech

Admission Requirements
Freshmen
- Declaration of Major: Students can declare the Theatre major on their application for enrollment, after being admitted to the University, or transfer in from another major on campus.

Transfers
- Declaration of Major: Students can declare the Theatre major on their application for enrollment, after being admitted to the University, or transfer in from another major on campus.
- Transferable Credit Hours: Determined by UNC Charlotte Undergraduate Admissions.

Degree Requirements
The Theatre major with a Concentration in Design/Tech leading to the B.A. degree requires a total of 120 credit hours, including 45 credit hours of theatre courses. This is a structured curriculum. Students must take 26 credit hours of Core Courses before advancing to the prescribed 19 credit hours of the Concentration in Design/Tech.

College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 - Student Success in Architecture, Art, Performance, and Design (2)

General Education Courses (31-35 credit hours)
For details on required courses, refer to the General Education program.

Foreign Language Requirement (0-8 credit hours)
Students in this major within the College of Arts + Architecture are required to demonstrate proficiency in the language of their choice through the 1202 level. For details, refer to the College of Arts + Architecture Foreign Language Requirements at the beginning of this section.

Major Courses (26 credit hours)
Core Courses (14 credit hours)
THEA 1140 - The Theatre Experience (3)
THEA 1265 - Introduction to Stage Performance (3) (O)
THEA 1270 - Acting I (3) (O)
THEA 1300 - Play Analysis (3) (W)
THEA 2400 - Core-Level Production Practicum (1)
THEA 2600 - Majors Seminar (1)

Tech I Course (3 credit hours)
Select one of the following:
THEA 1215 - Theatre Tech I - Costume (3)
THEA 1225 - Theatre Tech I - Scenic (3)
THEA 1235 - Theatre Tech I - Lighting (3)
THEA 1245 - Theatre Tech I - Sound (3)

Design I Course (3 credit hours)
Select one of the following:
THEA 2210 - Costume Design I (3)
THEA 2230 - Scenic Design I (3)
THEA 2240 - Sound Design I (3)
THEA 2250 - Lighting Design I (3)

Theatre History Course (3 credit hours)
Select one of the following:
THEA 2310 - Theatre History I (3)
THEA 2311 - Theatre History II (3)

Elective Core Course (3 credit hours)
Select one of the following or take the Theatre History course not already selected above:
THEA 2310 - Theatre History I (3)
or THEA 2311 - Theatre History II (3)
THEA 2330 - Shakespeare in History (3) (W)
THEA 3310 - Dramaturgy (3) (W)
THEA 4001 - Topics in Theatre (1 to 6) (W)
THEA 4330 - Performance Theory (3) (W)

Concentration Courses (19 credit hours)
Elective Concentration Course I (3 credit hours)
Select one of the following:
THEA 3215 - Theatre Tech II - Costume (3)
THEA 3225 - Theatre Tech II - Scenic (3)
THEA 3235 - Theatre Tech II - Lighting (3)
THEA 3246 - Theatre Tech II - Sound (3)

Elective Concentration Course II (3 credit hours)
Select one of the following:
THEA 4210 - Costume Design II (3)
THEA 4230 - Scenic Design II (3)
THEA 4250 - Lighting Design II (3)

Elective Concentration Courses III (9 credit hours)
Select three of the following:
THEA 2215 - Stage Makeup (3)
THEA 2221 - Stage Management (3)
THEA 3211 - Visual Period Styles for Theatre (3)
THEA 3214 - Costume Crafts (3)
THEA 3222 - Theatre Drafting (3)
THEA 3251 - Theatre Production Management (3)
THEA 3256 - Drawing and Rendering for the Theatre (3)
THEA 3300 - Directing I (3)
THEA 4001 - Topics in Theatre (1 to 6) (W)
THEA 4225 - Computer-Aided Design for Theatre (3)
THEA 4400 - Internship in Theatre (3 to 6)
THEA 4601 - Individual Project (1 to 6)

Senior Year Courses (7 credit hours)
The following courses must be taken in the Senior year:
THEA 1235 - Theatre Tech I - Lighting (3)
THEA 3400 - Concentration Level Practicum (1)
THEA 4620 - Senior Seminar (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.
Degree Total = 120 Credit Hours

Grade Requirements.
All Theatre (THEA) courses must be passed with a grade of C or above, with no more than one grade of D in Theatre courses.

Bachelor of Arts in Theatre with Concentration in Theatre Education
The Bachelor of Arts (B.A.) in Theatre with a Concentration in Theatre Education prepares students for K-12 Theatre Education licensure in North Carolina. It is designed for students who wish to become theatre teachers in public schools.

Admission Requirements
Freshmen
- **Pre-Major Requirements:** Students seeking K-12 Theatre Education licensure should contact the Arts Education Specialist within their first year. A later semester may result in a delayed graduation date.
- **Declaration of Major:** Students begin by declaring a Major in Theatre and completing recommended coursework for the Theatre Education concentration in the first three semesters. Approximately third semester, students apply to Teacher Education, which requires a minimum GPA of 2.7, grades of C or above in both MDSK 2100 and THEA 1360, clear criminal background check, signed Professional Dispositions statement, and passing scores on Praxis Core (or proven exemption via test scores).

Transfers
- **Pre-Major Requirements:** The semester in which transfer students seeking K-12 Theatre Education Licensure are eligible to declare the Concentration in Theatre Education will be determined in consultation with their academic advisor.
- **Declaration of Major:** Students begin by declaring a Major in Theatre and completing recommended coursework for the Theatre Education concentration in the first three semesters. Approximately third semester, students apply to Teacher Education, which requires a minimum GPA of 2.7, grades of C or above in both MDSK 2100 and THEA 1360, clear criminal background check, signed Professional Dispositions statement, and passing scores on Praxis Core (or proven exemption via test scores).
- **Transferable Credit Hours:** Determined by UNC Charlotte Undergraduate Admissions.

Degree Requirements
The Theatre major with a Concentration in Theatre Education to the B.A. degree requires a total of 120 credit hours, including 71 credit hours of theatre and education courses. This is a structured curriculum. Students must take 26 credit hours of Core Courses before advancing to the prescribed 45 credit hours of the Concentration in Performance.

College Prospect for Success Course (2 credit hours)
All new freshmen in the College of Arts + Architecture must take the following:
COAA 1101 · Student Success in Architecture, Art, Performance, and Design (2)

Degree Total = 120 Credit Hours

Grade Requirements
Students must maintain a minimum cumulative GPA of 2.7 to remain in the program. All Theatre and Education coursework must be completed with grades of C or above, with no more than one grade of D in Theatre courses. A cumulative GPA of at least 2.75 is required to apply for student teaching senior year. Students must earn a grade of B or above in student teaching to be recommended for licensure.

Honors Program
For details about the Honors Program in Arts + Architecture, see the beginning of the College of Arts + Architecture section.

Minor in Theatre

Minor Requirements
A Minor in Theatre requires 18 credit hours.

Required Courses (6 credit hours)
THEA 1140 - The Theatre Experience (3)
THEA 1300 - Play Analysis (3) (W)

Elective Courses (12 credit hours)
Select four of the following:
THEA XXXX - Theatre Elective (3)
THEA XXXX - Theatre Elective (3)
THEA XXXX - Theatre Elective (3)
THEA XXXX - Theatre Elective (3)

Total = 18 Credit Hours

Grade Requirements
All courses in the minor must completed with grades of C or above (one grade of D allowed).
Belk College of Business
The vision of the Belk College of Business is to be a leading urban research business school. We are committed to creating an inclusive culture that inspires a passion for knowledge and intellectual growth as well as dedication to service. We engage in research that fosters innovative business theory, policy, and practice. In strategic partnership with the Greater Charlotte region, we educate our students to become leaders who are critical thinkers, ethically informed, and globally aware. In carrying out our mission, the Belk College of Business is committed to the following shared values:

- **Integrity:** We embrace integrity as the fundamental basis for trust, leadership, and organizational culture.
- **Knowledge and Innovation:** We are dedicated to encouraging intellectual curiosity, advancing knowledge, and promoting innovation.
- **Excellence:** We have a passion for excellence in business, research, and education.
- **Diversity and Inclusion:** We foster an environment that is based on mutual respect, broadens understanding, and builds trust.
- **Global Citizenship:** We promote ethically principled and sustainable global practices that foster economic and social value.

The College of Business consists of the following departments:

- Turner School of Accountancy
- Department of Business Information Systems and Operations Management
- Department of Economics
- Department of Finance
- Department of Management
- Department of Marketing

**Degree Programs**

**Majors**
The Belk College of Business offers undergraduate majors with additional concentrations for students at UNC Charlotte. Students who apply for and are accepted into the Belk College of Business are initially classified as Pre-Accounting (PACC), Pre-Business (PBUS), or Pre-Economics (PECO) majors. Students must have earned a minimum cumulative GPA of 2.5, and a minimum GPA of 2.5 in the Progression Requirements, in order to be accepted into one of the major programs. These majors include:

- Accounting
- Business Analytics
- Economics with Concentration in Business
- Economics with Concentration in Liberal Arts
- Finance with Concentration in Finance
- Finance with Concentration in Finance and Accounting
- Finance with Concentration in Real Estate
- Finance with Concentration in Risk Management and Insurance
- International Business
- Management with Concentration in Organizational Management
- Management with Concentration in Human Resource Management
- Management Information Systems
- Marketing with Concentration in Marketing
- Marketing with Concentration in Marketing Analytics
- Operations and Supply Chain Management

**Minors**
The Belk College of Business offers four minors for students at UNC Charlotte. Students must earn a minimum cumulative GPA of 2.5 in order to be accepted into the minor programs. Students must take all prerequisites for the courses required in the minor programs. These minors include:
- Economics
- International Management
- Management Information Systems
- Operations and Supply Chain Management

Accreditation
See the “Academic Programs” section of this Catalog for details about program accreditation.

Degree Requirements
All business degrees are composed of: (1) General Education Requirements, (2) Progression Requirements, (3) Core Requirements, (4) Major Requirements, and (5) Electives. To graduate from UNC Charlotte, students must attain a minimum 120 earned credit hours. “Non-Business Elective” and “General Elective” credit hours may be required to address any shortfall needed to meet the 120 earned hours. A Non-Business Elective can be any course offered by the University outside the Belk College of Business. A General Elective can be any course offered by the University that is not already fulfilling a degree requirement.

Catalog Policies
The Belk College reserves the right to impose new curriculum changes at any time. Students unsure of which catalog to use should consult with their Academic and Career Coach. Readmitted students are automatically considered under the program and degree requirements in force at the time of readmission.

Course Level and Prerequisite Restrictions
The Belk College restricts the registration of upper-division business courses (3000-level) to majors only who have attained Junior or Senior standing and satisfied course prerequisites. Course prerequisites are strongly enforced and cannot be waived. For one term, Pre-Accounting, Pre-Business, and Pre-Economics students with a minimum cumulative GPA of 2.5 and 60 earned credit hours may register for 3000-level business courses provided that all necessary prerequisites have been met. The Belk College reserves the right to remove students from any courses for which prerequisites (including minimum GPA requirements) have not been successfully met. Students enrolling in MGMT 3280 (Strategic Management) must have achieved Senior-level status and have completed all Core Courses with minimum grades of C or above. Pre-Accounting, Pre-Business, and Pre-Economics students may not enroll in MGMT 3280.

Grade Replacement and Repeat Policies
Students are permitted two attempts at any course in the Belk College of Business. An attempt is defined as a course that is completed with a final grade of A, B, C, D, or F. This includes all: (1) Progression Requirements, (2) Core Requirements, and (3) Major Requirements. Students who earn less than a grade of C within two attempts in any of these required courses will be ineligible to continue in the major. The Grade Replacement Policy may be applied for business courses; however, the repeated course(s) will still count as an attempt.

Residency Requirements
In addition to meeting University residency requirements, all students seeking undergraduate degrees in the Belk College must complete at least 50 percent of the Core and Major Requirements at UNC Charlotte. This will vary depending on the major program requirements.

Furthermore, at least half of the hours required for an undergraduate degree in the Belk College of Business must be taken outside of the Belk College in order to have a well-rounded and balanced university education and experience. These 60 hours are designated as “Non-Business.” In addition to the General Education Requirements, the following courses are designated as Non-Business: ECON 2101, ECON 2102, ECON 3125, MATH 1120, and STAT 1220.

Transfer and Second-Degree Students
The Belk College of Business major programs are designed to allow transfer students from community colleges and other institutions to enter the program and complete their degree requirements at UNC Charlotte. It is very important that students meet with an advisor at their community college or other institution to plan courses that will be accepted into the Belk College of Business. Due to AACSB accreditation standards, equivalency for upper-division business courses may be denied. Transfer credits allowed may be limited due to University and College residency requirements. Transfer equivalencies are granted upon application to UNC Charlotte.

Transfer Credit and Transient Study
Once a student is admitted into the Belk College of Business, they are prohibited from transferring in coursework (including Progression, Core, and Major Courses) from other institutions without prior approval. This policy applies to courses taken from any other institution, including those taken through UNC Online. Approvals are limited to 1000- and 2000-level courses taken during Summer terms and a maximum of six (6) credit hours of 3000-level courses taken during Summer terms. Approval may be denied due to University or College residency requirements. Equivalency for upper-division business courses may be denied.
Business Honors Program

The Business Honors Program (BHP) provides students with access to a range of opportunities designed to stimulate their thinking and broaden their exposure to topics related to business.

The Business Honors Program is committed to the highest principles of professionalism that guide our actions. We aspire to be a community of learners actively engaged in academic scholarship while demonstrating a high regard for others by modeling excellent ethical standards. We seek to promote service above self and to support and encourage, educate and mentor, value and empathize with others. We advocate these core values among the membership. The core values of the Business Honors Program are based upon a commitment to academic merit, integrity, respect, service above self and honor.

Admission Requirements

Students interested in being admitted to the Business Honors Program must complete an Application for Admission. Admission to the program is based on the student’s demonstrated honors potential and availability of space in the program. Honors potential is determined by examining GPA (minimum 3.5 for currently enrolled and transfer students), SAT or ACT scores (for new freshmen), courses completed, academic and other distinctions, activities, community service, and other related factors. All admitted students must earn and maintain a minimum 3.5 GPA at UNC Charlotte to be an active member of the program. Students failing to meet minimum requirements of the 3.5 GPA, attendance at BHP meetings, and participation in community service events will not be able to continue in the program.

Course Requirements

A minimum of 9 credit hours of honors courses are required to graduate with Business Honors. Business Honors students are required to complete additional honors coursework depending upon the student's point of entry as outlined below.

Students in the Business Honors Program must complete 3 of the 4 Business Honors courses offered. Business Honors courses may include:

- BUSN 1701 - Practicum I: Corporate Citizenship (1)
- BUSN 2701 - Practicum II: Professionalism and Service Seminar (1)
- BUSN 2702 - Practicum III: Leadership and Group Dynamics (1)
- BUSN 3701 - Practicum IV: Building Networks for Success (1)

And honors sections of:

- BUSN 1101 - Introduction to Business and Professional Development (3) or BUSN 1100 - Freshman Honors Seminar (1)
- COMM 3160 - Business Communications (3) (O,W)
- ECON 2101 - Principles of Economics - Macro (3)
- ECON 2102 - Principles of Economics - Micro (3)
- MGMT 3140 - Management and Organizational Behavior (3)
- MGMT 3280 - Strategic Management (3)
- MKTG 3110 - Principles of Marketing (3)
- OPER 3100 - Operations Management (3)

Students will be waived from taking honors sections of courses taken prior to entering the Business Honors Program. Other waivers must be approved in advance by the Director of the Business Honors Program. In addition, students entering the Business Honors Program as freshmen are required to complete 3 credit hours in an HONR course or an honors section of an LBST course. Students entering after the Freshman year are encouraged to take an HONR course or an honors section of an LBST course. Honors courses cannot be repeated. A grade of D or F in any honors course results in a student not being eligible to continue in the program.

Certification Requirements

To graduate with “Honors in Business,” a student must:

- Complete the minimum required honors courses and other requirements
- Complete the Application to Candidacy process for graduating with honors, as directed by the Honors College, one semester prior to graduation
- Receive a grade of at least A in BUSN 4701 or on the Senior Project in the Honors section of MGMT 3280
- Present a GPA of at least 3.5 overall and 3.2 in all honors courses for which a grade was assigned
- Participate in: (1) monthly meetings, (2) community service, (3) either study abroad or an internship; and (4) other requirements as set forth in the BHP Handbook
Advising

Academic and Career Coaches and Professional Development staff in the Niblock Student Center support all students in the Belk College of Business. Students meet one-on-one with their Academic and Career Coach and are encouraged to participate in professional development activities that support academic and career success. The Niblock Student Center is dedicated to helping students define their professional goals, engage in success strategies to prepare for the workforce, and complete their degree in a timely manner. Some of the support programs and services offered include:

- Workshops and other programs to promote the development of professional skills
- Events to facilitate student engagement with industry
- Academic courses that allow students to earn credit for qualifying internship experiences

Internships

Students may apply for academic credit for internship experiences. Internship coursework is graded and requires 150 hours of supervised work experience that directly aligns with a student’s declared major. Students may not apply for course credit if the work experience has already concluded, if a student is currently employed and is seeking credit with the same employer, or if the business is family-owned.

Minimum eligibility requirements include the following:

- Junior or Senior standing
- Declared Business Major
- Minimum 2.0 GPA
- ACCT 3312 with grade of C or above (for Accounting majors only)
- MKTG 3110 with grade of C or above (for Marketing majors only)

All application materials must be submitted by the application deadline. Upon review and approval of a qualified internship experience and satisfactory completion of eligibility requirements, students will be issued permission to register for the appropriate internship course.
Undergraduate Programs

• B.S. in Accounting

The Accounting program provides a learning environment in which students acquire conceptual and technical knowledge in the accounting and business areas as well as other essential capabilities for a successful accounting career. The undergraduate accounting curriculum is designed to enable students to:

a) effectively develop, measure, analyze, validate, and communicate financial and other information

b) understand the concepts and methods of economics, finance, marketing, quantitative methods, management, and information systems

c) develop skills, competencies and learning capacities that are essential for a broad education

Graduates should have an excellent foundation for careers in business and accounting. A student who plans to become licensed as a certified public accountant in North Carolina must complete an additional 30 credit hours of academic study beyond the undergraduate accounting education. A student can meet this requirement by completing the Master of Accountancy program (MACC). For details on the MACC, please see the UNC Charlotte Graduate Catalog.

Bachelor of Science in Accounting

Admission Requirements (Pre-Accounting)

Freshmen

Freshman admission is competitive. Students who apply for this major and are accepted into the Belk College of Business are initially classified as Pre-Accounting (PACC) majors. Students interested in pursuing a Major in Accounting should seek admission to the Pre-Accounting program to ensure appropriate advising and support. Students who complete the Progression Requirements listed below may declare an upper-division major in Accounting.

Transfers

Transfer students interested in pursuing a Major in Accounting should seek admission to the Pre-Accounting program. Transfer admission requirements for the Pre-Accounting major include the following:

- **Minimum GPA:** 2.5 overall and 2.5 in equivalent Progression Courses completed
- **Pre-Major/Prerequisite/Progression Courses:** See Progression Courses above

Degree Requirements

General Education Courses (37-41 credit hours)

For details on required courses, refer to the General Education program.

The following courses are required. Students may attempt each of these courses two times.

**Business Core Courses (24 credit hours)**

- BLAW 3150 - Business Law I (3)
- COMM 3160 - Business Communications (3) (O,W)
- FINN 3120 - Financial Management (3)
- INFO 3130 - Management Information Systems (3)
- MGMT 3140 - Management and Organizational Behavior (3)
- MGMT 3280 - Strategy Management (3)
- MKTG 3110 - Principles of Marketing (3)
- OPER 3100 - Operations Management (3)

**Major Courses (22 credit hours)**

- ACCT 3300 - Professional Development for Accountants (1)
ACCT 3311 - Intermediate Financial Accounting I (3)  
or ACCT 3323 - Intermediate Accounting I (3)  
ACCT 3312 - Intermediate Financial Accounting II (3)  
or ACCT 3324 - Intermediate Accounting II (3)  
ACCT 3325 - Intermediate Accounting III (3)  
ACCT 3330 - Managerial Accounting and the Decision Process (3)  
ACCT 3340 - Accounting Information Systems (3)  
ACCT 3350 - Internal Auditing (3)  
ACCT 4220 - Income Tax (3)  

Unrestricted Elective Courses  
As needed to complete the credit hours required for graduation.  

Degree Total = 120 Credit Hours  

Grade Requirements  
To obtain this degree, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the major. Students must earn a minimum grade of C in all required Progression, Core, and Major Courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.  

Internship  
Because the School of Accountancy is committed to experiential learning, it allows for Accounting majors to use one internship for academic credit. Permission of the Accounting Internship Coordinator is required before starting the internship. A minimum of ACCT 3312 or ACCT 3324 with a grade of C or above and an overall GPA of at least 2.5 are required. The student may not have a current or prior work history with the internship company.  

Early Entry: Master of Accountancy  
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.  

Admission Requirements  
• Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)  
• Minimum 3.2 overall undergraduate GPA  
• Acceptable scores on the appropriate graduate standardized test (e.g., GRE)  
• Submit application online at mygradschool.uncc.edu and provide supporting documents  
• Recommendation by the Graduate Program Director and approved by the Graduate School  

Continued Enrollment Requirements  
• Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester  
• Maintain a minimum 3.0 overall undergraduate GPA  

• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree  

Double-Counted Courses  
This Early Entry Program is also accelerated; up to 3 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 3 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.  

More Information  
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.  

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
Undergraduate Programs
• B.S.B.A. in Business Analytics
• B.S.B.A. in Management Information Systems
• B.S.B.A. in Operations and Supply Chain Management
• Minor in Management Information Systems
• Minor in Operations and Supply Chain Management
• Early Entry: M.S. in Data Science and Business Analytics (see the School of Data Science section)

The Department of Business Information Systems and Operations Management (BISOM) offers majors in three dynamic disciplines toward the Bachelor of Science in Business Administration (B.S.B.A.) degree and two minors. All businesses and not-for-profit organizations provide ample career opportunities in Business Analytics, Management Information Systems, and Operations and Supply Chain Management.

• The Major in Business Analytics involves collecting and analyzing data using computational, statistical, and mathematical models and methods to achieve competitive advantage. The program prepares students with the ability to unlock the potential of data to gain business insights, improve business decision making, and solve business problems. The major prepares graduates for jobs involving data-driven business intelligence, decision models, and big data analytics and for graduate education.

• The Major in Management Information Systems (MIS) prepares students to understand and use information systems that support improved decision making and business operations leading to enhanced quality of management and growth of the organization. The major produces graduates who bridge the gap between technical knowledge and business functions. Potential careers include systems/business analyst, consultant, data analyst, network specialist, systems developer, application programmer, project manager, technical support specialist, and Web designer. A minor is also offered in this area.

• The Major in Operations and Supply Chain Management (OSCM) focuses on the management of resources and processes of an organization to provide quality goods and services. While OSCM has always been important in manufacturing, service organizations have discovered the importance of being able to effectively and efficiently manage operations. OSCM prepares students for careers in the areas of supply chain management, production planning, project management, quality assurance, and operations. A minor is also offered in this area.

All three majors offer students an integrated background in the functional areas of business and focus on enhancing problem-solving and critical thinking skills using current technology. The majors in Business Analytics and Management Information Systems are designated STEM programs.

Bachelor of Science in Business Administration: Business Analytics
A Major in Business Analytics (BUAY) involves collecting and analyzing data using computational, statistical, and mathematical models and methods to achieve competitive advantage through better decisions in uncertain business environments. The BUAY major prepares graduates for jobs involving data-driven business intelligence, decision models, and big data analytics and for graduate education in Data Science and Business Analytics, Supply Chain Management, Mathematical Finance, Marketing, and Economics.

Who uses Business Analytics?
All businesses and not-for-profit organizations nowadays use Business Analytics. Thanks to the rapid development of information technology and telecommunications, these organizations have an opportunity to make use of various types of big data and sophisticated analytics tools at a cost more affordable than ever before. The numerous tools and techniques developed for descriptive, predictive, and prescriptive analytics help the organizations make informed decisions on day-to-day operations and long-term strategic planning.

Skills for Business Analytics majors include:
• Analytical problem solving
• Business process skills
• Communication skills
• Information technology skills
• Organizational skills

Admission Requirements (Pre-Business)
Freshmen
Freshman admission is competitive. Students who apply for this major and are accepted into the Belk College of Business are initially classified as Pre-Business (PBUS) majors. Students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program to ensure appropriate advising and support. Students who complete the Progression Requirements listed below may declare an upper-division Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management.

• Minimum GPA: 2.5 overall and 2.5 in Progression Courses listed below
• Pre-Major/Prerequisite/Progression Courses:
  • ACCT 2121
  • ACCT 2122 or ACCT 3323
  • BUSN 1101
  • ECON 2101
  • ECON 2102

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
To obtain this degree, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the major. Students must earn a minimum grade of C in all required Progression, Core, and Major Courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.

Bachelor of Science in Business Administration: Management Information Systems
A Major in MGIS involves the application of information technology and analytical skills to the solution of organizational problems and opportunities for innovation. MGIS graduates are prepared for positions in the design, planning, development, implementation, and management of information systems.

Who uses Management Information Systems?
All businesses use MGIS to make forecasts, manage day-to-day operations, schedule personnel and equipment, manage quality and inventory, work with suppliers, and undertake projects. In addition, management depends on information systems to collect and analyze data to make decisions. Data on customers, suppliers, competitors, and others are the main inputs to decision making at all levels of the organization. While all organizations have information systems needs, some industries have much greater reliance on them. These include banking, insurance, large-scale retailing, and communications.

Skills for Management Information Systems majors include:
- Analytical problem solving
- Business process skills
- Communication skills
- Information technology skills
- Organizational skills
Admission Requirements (Pre-Business)

Freshmen
Freshman admission is competitive. Students who apply for this major and are accepted into the Belk College of Business are initially classified as Pre-Business (PBUS) majors. Students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program to ensure appropriate advising and support. Students who complete the Progression Requirements listed below may declare an upper-division Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management.

- **Minimum GPA:** 2.5 overall and 2.5 in Progression Courses listed below
- **Pre-Major/Prerequisite/Progression Courses:**
  - ACCT 2121
  - ACCT 2122 or ACCT 3323
  - BUSN 1101
  - ECON 2101
  - ECON 2102
  - INFO 2130
  - MATH 1120, MATH 1121, MATH 1241, or MATH 1242
  - STAT 1220, STAT 1221, STAT 1222, or STAT 2122
  [A minimum grade of C is required for all Progression Courses. Students may attempt each of the Progression Courses listed above a maximum of two times. An attempt is defined as a course that is completed with a final grade of A, B, C, D, or F. Courses repeated under the UNC Charlotte Grade Replacement Policy are excluded from the GPA computation, but will count as an attempt. Otherwise, all grades earned in repeated courses are included in the GPA computation.]
- **Declaration of Major and/or Progression Requirements:** Junior standing (60 credit hours or more); Pre-Business Requirements listed above; and approved Change of Major form. Pre-Business students should submit Change of Major forms to an Academic and Career Coach in the Belk College of Business Niblock Student Center. Students who fail to declare their upper-division major on time will be prohibited from declaring their upper-division major in the College if their GPA falls below a 2.5. Students who do not meet the Progression Requirements above are ineligible for continuation in the Belk College of Business.

Transfers
Transfer students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program. Transfer admission requirements for the Pre-Business major include the following:

- **Minimum GPA:** 2.5 overall and 2.5 in equivalent Progression Courses completed
- **Pre-Major/Prerequisite/Progression Courses:** See Progression Courses above

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program.

The following courses are required. Students may attempt each of these courses two times.

**Business Core Courses (27 credit hours)**
BLAW 3150 - Business Law I (3)

**Grade Requirements**
To obtain this degree, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the major. Students must earn a minimum grade of C in all required Progression, Core, and Major Courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.
Bachelor of Science in Business Administration: Operations and Supply Chain Management

A Major in Operations and Supply Management (OSCM) focuses on the efficient use of resources to provide quality goods and services. OSCM enables students to pursue such careers in supply chain management, production planning, project management, quality assurance, and operations. Environments in which OSCM graduates are in high demand include health care, government, manufacturing, and service industries.

Who uses Operations and Supply Chain Management?
All businesses, including for-profit and not-for-profit, manufacturing and services, use OSCM. These businesses have to make forecasts, manage day-to-day operations, schedule personnel and equipment, manage quality and inventory, work with suppliers, and undertake projects. While OSCM has always been important in manufacturing, service organizations are discovering the importance of being able to effectively and efficiently manage operations. Financial services and healthcare industries have been on the leading edge in using OSCM to improve operations. Company expenditures on programs such as Six Sigma, total quality management, and operational risk management are in the billions of dollars.

Skills for Operations and Supply Chain Management majors include:
- Analytical problem solving
- Communication skills
- Information technology skills
- Organizational skills
- Project management skills

Admission Requirements (Pre-Business)

Freshmen
Freshman admission is competitive. Students who apply for this major and are accepted into the Belk College of Business are initially classified as Pre-Business (PBUS) majors. Students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program. Transfer students interested in pursuing a Major in Business Analytics, Finance, International Business, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program.

Transfers
Transfer students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program. Transfer admission requirements for the Pre-Business major include the following:
- Minimum GPA: 2.5 overall and 2.5 in equivalent Progression Courses completed
- Pre-Major/Prerequisite/Progression Courses: See Progression Courses above

Degree Requirements

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program.

The following courses are required. Students may attempt each of these courses two times.

Business Core Courses (27 credit hours)
BLAW 3150 - Business Law I (3)
COMM 3160 - Business Communications (3) (O,W)
ECON 3125 - Managerial Economics (3)
FINN 3120 - Financial Management (3)

OPER 3000 - Topics in Operations Management (3)
OPER 3203 - Decision Modeling and Analysis (3)
OPER 3400 - Operations and Supply Chain Management Internship (3)
OPER 3800 - Directed Study (3)
SEGR 3670 - Total Quality Systems (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
To obtain this degree, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the major. Students must earn a minimum grade of C in all required Progression, Core, and Major Courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.

Minor in Management Information Systems
The Minor in Management Information Systems is designed to provide students with an interest in business information systems with a broad foundation for integrating information technology techniques and concepts into their major field of study in business. The demand for business graduates who are knowledgeable about designing, planning, developing, managing, and evaluating of information systems continues to increase as the economy moves from a manufacturing to an information base. The demand for MGIS professionals has increased dramatically during the past ten years and the trend is expected to continue. However, there is also an increase in the demand for management information systems professionals who have an in-depth understanding of the application domain and who can apply MGIS concepts in contexts which are more specific to their major. Thus, professionals with a primary interest and expertise in marketing, health care, banking, finance, accounting, and management are being sought by business application-area specialists.

Minor Requirements
A Minor in Management Information Systems requires a minimum 15 credit hours (five courses) for students who have taken the business prerequisites listed below. Students may attempt each of these courses two times.

Prerequisite Courses (18 credit hours)
ACCT 2121 - Principles of Accounting I (3)
ACCT 2122 - Principles of Accounting II (3)
ECON 2101 - Principles of Economics Macro (3)
ECON 2102 - Principles of Economics Micro (3)
MATH 1120 - Calculus (3)
STAT 1220 - Elements of Statistics I (3)

Required Minor Courses (12 credit hours)
INFO 2130 - Introduction to Business Computing (3)*
INFO 3130 - Management Information Systems (3)
INFO 3233 - Data and Information Management (3)
INFO 3234 - Business Information Systems Analysis and Design (3)

*All Computer Science majors will be exempted from INFO 2130. Other students with sufficient background can apply for Credit by Exam for INFO 2130.

Elective Minor Course (3 credit hours)
Select one of the following courses:
ACCT 3340 - Accounting Information Systems (3)
INFO 3000 - Topics in Management Information Systems (3)
INFO 3221 - Programming for Business Analytics (3)
INFO 3231 - Business Application Development (3)
INFO 3236 - Business Analytics (3)
INFO 3229 - Business Data Communications and Information Security (3)
INFO 3240 - eBusiness Systems (3)
OPER 3203 - Decision Modeling and Analysis (3)

Total = 15 Credit Hours

Grade Requirements
To obtain this minor, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the minor. Students must earn a minimum grade of C in all required and elective minor courses and their prerequisite courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.
Minor in Operations and Supply Chain Management

The Minor in Operations and Supply Chain Management (OSCM) is designed to provide business and non-business students who have an interest in supply chain management, manufacturing, and service operations with a broad foundation of OSCM concepts and analytical methodology to be integrated into their major field of study.

The demand for graduates who are knowledgeable about designing, planning, evaluating, and managing supply chains, production, and service systems continues to increase. There is also an increase in the demand of OSCM professionals who can define strategic and operational problems, collect relevant data, and apply advanced analytical techniques to improve the performance of firms. OSCM courses deal with supply chains, service systems, and manufacturing organizations. These areas examine the production function of an organization at a strategic level, as well as the plant and shop floor level. Areas included in the OSCM program include operations strategy, process analysis, product design, quality management, logistics management, procurement, supply chain management, project management, and waiting line management as well as analytical techniques such as optimization and simulation.

The minor offers graduates a competitive advantage in terms of the types of positions for which they qualify. The Minor in OSCM is directed not only at UNC Charlotte students majoring in business but also those majoring in other Colleges. The benefits of a minor in OSCM include increased marketability in the public and private sector and the ability to leverage one’s major discipline with a solid understanding of one business area, increased analytical thinking, problem-solving ability, and an understanding of internal and external environments of service and business organizations.

Admission Requirements
To be accepted into the Minor in OSCM and to progress into the upper-division of the College, a student must present a minimum 2.5 GPA overall and Junior standing.

Minor Requirements
A Minor in Operations and Supply Chain Management requires a minimum 15 credit hours (five courses) for students who have taken the business prerequisites listed below. Students may attempt each of these courses two times.

Prerequisite Courses (21 credit hours)
ACCT 2121 - Principles of Accounting I (3)
ACCT 2122 - Principles of Accounting II (3)
ECON 2101 - Principles of Economics Macro (3)
ECON 2102 - Principles of Economics Micro (3)
INFO 2130 - Introduction to Business Computing (3)*
MATH 1120 - Calculus (3)
STAT 1220 - Elements of Statistics I (3)

Required Minor Courses (9 credit hours)
MGMT 3140 - Management and Organizational Behavior (3)
OPER 3100 - Operations Management (3)
OPER 3208 - Supply Chain Management (3)

Elective Minor Courses (6 credit hours)
Select two of the following courses, one of which must be an OPER course:
INFO 3230 - Enterprise Systems (3)
INFO 3233 - Data and Information Management (3)
INFO 3236 - Business Analytics (3)
OPER 3201 - Operations Planning and Control (3)
OPER 3203 - Decision Modeling and Analysis (3)
OPER 3204 - Management of Service and Project Operations (3)
OPER 3206 - Quality Assurance and Management (3)

*All Computer Science and Software and Information Systems majors will be exempted from INFO 2130. Other students with sufficient background can apply for Credit by Exam for INFO 2130.

Total = 15 Credit Hours

Grade Requirements
To obtain this minor, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the minor. Students must earn a minimum grade of C in all required and elective minor courses and their prerequisite courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.

- B.S. in Economics
  - Business
  - Liberal Arts
- Minor in Economics
- Early Entry: M.S. in Economics

The study of Economics offers students a problem-solving discipline to
foster their intellectual and career development. It provides students
with a balanced and broad educational background and prepares them to
choose from a wide range of career alternatives.

The Economics program explores the economic decisions of individuals,
businesses, governments, and other institutions. It examines the nature
of economic activity, why it takes place, and how it affects everyone’s
lives. The program includes elective courses that enable students to
tailor their educational program to meet personal needs and interests.
The study of economics also helps students develop a way of thinking
that is logical and rigorous. It provides decision-making tools that they
can apply to personal as well as business decisions and use to address
the many economic decisions they will face in the future.

The Department of Economics offers two programs leading to the
Bachelor of Science degree. Students who plan to pursue careers in
business-related fields such as banking, finance, and international
commerce, or who plan to enter an MBA program, are encouraged to
elect the Major in Economics with a Business Concentration program.
Students planning to pursue a career in education or the social sciences,
enter graduate school in economics, or attend law school are encouraged
to pursue the Major in Economics with a Liberal Arts Concentration.

Bachelor of Science in Economics with
Concentration in Business

Admission Requirements (Pre-Economics, Business Concentration)
Freshmen
Freshman admission is competitive. Students who apply for this major
and are accepted into the Belk College of Business are initially classified
as Pre-Economics (PECO) majors. Students interested in pursuing a
Major in Economics with Concentration in Business should seek
admission to the Pre-Economics program to ensure appropriate advising
and support. Students who complete the Progression Requirements
listed below may declare an upper-division Major in Economics with
Concentration in Business.

- Minimum GPA: 2.5 overall and 2.5 in Progression Courses listed
  below
- Pre-Major/Prerequisite/Progression Courses:

Transfers
Transfer students interested in pursuing a Major in Economics with
Concentration in Business should seek admission to the Pre-Economics
program. Transfer admission requirements for the Pre-Economics major
include the following:

- Minimum GPA: 2.5 overall and 2.5 in equivalent Progression Courses
  completed
- Pre-Major/Prerequisite/Progression Courses: See Progression
  Courses above

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program.
The following courses are required. Students may attempt each of
these courses two times.

Business Core Courses (6 credit hours)
Select two of the following:
BLAW 3150 - Business Law I (3)
INFO 3130 - Management Information Systems (3)
MGMT 3140 - Management and Organizational Behavior (3)
MKTG 3110 - Principles of Marketing (3)
OPER 3100 - Operations Management (3)

Major Courses (24 credit hours)
ECON 3112 - Econometrics (3)
ECON 3122 - Intermediate Microeconomics (3)
ECON 3123 - Intermediate Macroeconomics (3)
ECON 3250 - Managerial Economics (3)
ECON 4200 - Senior Seminar (3)
FINN 3120 - Financial Management (3)
COMM 3160 - Business Communications (3) (O,W)

Plus one of the following Quantitative Skills Courses:
ECON 4100 - Mathematical Economics (3)
ECON 4112 - Econometrics II (3)
ECON 4117 - Business and Economic Forecasting (3)
INFO 3236 - Business Analytics (3)

Note: It is recommended that students who plan to pursue graduate work in economics complete MATH 1241, ECON 4100, and, as available, ECON 4112 and ECON 4117. Also, they should consider additional work in mathematics but should consult with an Academic Advisor concerning specific courses.

Restricted Elective Courses (9 credit hours)
Select three ECON Electives from the 3000- or 4000-level, excluding the courses listed above.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
To obtain this degree, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the major. Students must earn a minimum grade of C in all required Progression, Core, and Major Courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.

Bachelor of Science in Economics with Concentration in Liberal Arts

Admission Requirements (Pre-Economics, Liberal Arts Concentration)
Freshmen
Freshman admission is competitive. Students who apply for this major and are accepted into the Belk College of Business are initially classified as Pre-Economics (PECO) majors. Students interested in pursuing a Major in Economics with Concentration in Liberal Arts should seek admission to the Pre-Economics program to ensure appropriate advising and support. Students who complete the Progression Requirements listed below may declare an upper-division Major in Economics with Concentration in Liberal Arts.

- **Minimum GPA:** 2.5 overall and 2.5 in Progression Courses listed below
- **Pre-Major/Prerequisite/Progression Courses:**
  - WRDS 1103 or WRDS 1104
  - ECON 2101
  - ECON 2102
  - INFO 2130
  - MATH 1210, MATH 1211, MATH 1241, or MATH 1242
  - STAT 1220, STAT 1221, STAT 1222, or STAT 2122

(A minimum grade of C is required for all Progression Courses. Students may attempt each of the Progression Courses listed above a maximum of two times. An attempt is defined as a course that is completed with a final grade of A, B, C, D, or F. Courses repeated under the UNC Charlotte Grade Replacement Policy are excluded from the GPA computation, but will count as an attempt. Otherwise, all grades earned in repeated courses are included in the GPA computation.)

- **Declaration of Major and/or Progression Requirements:** Junior standing (60 credit hours or more); Pre-Economics Requirements listed above; approved Change of Major form. Pre-Economics students should submit Change of Major forms to an Academic and Career Coach in the Belk College of Business Niblock Student Center. Students who fail to declare their upper-division major on time will be prohibited from declaring their upper-division major in the College if their GPA falls below a 2.5. Students who do not meet the Progression Requirements above are ineligible for continuation in the Belk College of Business.

Transfers
Transfer students interested in pursuing a Major in Economics with Concentration in Liberal Arts should seek admission to the Pre-Economics program. Transfer admission requirements for the Pre-Economics major include the following:

- **Minimum GPA:** 2.5 overall and 2.5 in equivalent Progression Courses completed
- **Pre-Major/Prerequisite/Progression Courses:** See Progression Courses above

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program.

The following courses are required. Students may attempt each of the courses two times.

Major Courses (15 credit hours)
ECON 3112 - Econometrics (3)
ECON 3122 - Intermediate Microeconomics (3)
ECON 3123 - Intermediate Macroeconomics (3)
ECON 4200 - Senior Seminar (3)
COMM 3160 - Business Communications (3) (O,W)

Restricted Elective Courses (12 credit hours)
Select four ECON Electives from the 3000- or 4000-level, excluding the courses listed above.
Note: It is recommended that students who plan to pursue graduate work in economics complete MATH 1241, ECON 4100, and, as available, ECON 4112 and ECON 4117. Also, they should consider additional work in mathematics but should consult with an Academic Advisor concerning specific courses.

**Liberal Arts Minor Courses (15-21 credit hours)**
Completion of a minor offered outside the Belk College of Business. Credit hours vary dependent on the minor requirements.

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

**Grade Requirements**
To obtain this degree, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the major. Students must earn a minimum grade of C in all required Progression, Core, and Major Courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.

**Minor in Economics**

**Admission Requirements**
To be accepted into the Minor in Economics and to progress into the upper-division of the College, students must meet the following requirements:

- A minimum 2.5 cumulative GPA
- Junior or Senior standing
- A grade of C or above in all prerequisites to required courses in the minor, including:
  - ECON 2101 - Principles of Economics-Macro (3)
  - ECON 2102 - Principles of Economics-Micro (3)
  - MATH 1241 - Calculus (3)
  - or MATH 1120 - Calculus (3)
  - STAT 1220 - Elements of Statistics I – BUSN (3)
  - INFO 2130 - Introduction to Business Computing (3)*

*Required only for ECON 3112 and ECON 3125.

**Minor Requirements**
A Minor in Economics requires 18 credit hours of economics courses.

*Students may attempt each of the courses in the minor two times.*

**Required Courses (9 credit hours)**
- ECON 2101 - Principles of Economics Macro (3)
- ECON 2102 - Principles of Economics Micro (3)
- ECON 3122 - Intermediate Microeconomics (3)
- or ECON 3125 - Managerial Economics (3)

**Elective Courses (9 credit hours)**
Select three ECON elective courses from the following, excluding the courses listed above:
- ECON 3XXX-4XXX - Economics Elective (3)
- ECON 3XXX-4XXX - Economics Elective (3)
- ECON 3XXX-4XXX - Economics Elective (3)

**Total = 18 Credit Hours**

**Grade Requirements**
To obtain this minor, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the minor. Students must earn a minimum grade of C in all required and elective minor courses and their prerequisite courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.

**Early Entry: Master of Science in Economics**
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

**Admission Requirements**
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA and 3.2 GPA in the major
- Acceptable scores on the appropriate graduate standardized test (e.g., GRE)
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

**Continued Enrollment Requirements**
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

**Double-Counted Courses**
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be “double counted” toward both the undergraduate and graduate degrees.

**More Information**
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate
Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

**Accelerated Master’s Program**  
*(for High School Seniors and UNC Charlotte Undergraduate Freshmen)*

Academically talented high school seniors and UNC Charlotte undergraduate freshmen are encouraged to apply to an Accelerated Master’s Program to begin work toward both undergraduate and graduate degrees in their Freshman year.

**Admission Requirements**
- Minimum high school GPA of 3.75 (on a 4.0 scale)
- Minimum score of 1220 on SAT

**Continued Enrollment Requirements**
Students must maintain a strong academic record at both the undergraduate and graduate levels with a cumulative undergraduate GPA of 3.2 or higher and a cumulative graduate GPA of 3.0 or higher. Students accepted into the Accelerated master’s program are subject to the same policies that pertain to other matriculated graduate students.

**Double-Counted Courses**
Up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be “double counted” toward both the undergraduate and graduate degrees.

**More Information**
For additional details on the Accelerated Master’s Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/accelerated-masters.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

---

**Bachelor of Science in Business Administration: Finance with Concentration in Finance**

Students who plan to pursue careers in business-related fields such as banking, finance, and international commerce, or who plan to enter an MBA program, are encouraged to elect the BSBA in Finance with a Concentration in Finance.
Admission Requirements (Pre-Business)

Freshmen

Freshman admission is competitive. Students who apply for this major and are accepted into the Belk College of Business are initially classified as Pre-Business (PBUS) majors. Students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program to ensure appropriate advising and support. Students who complete the Progression Requirements listed below may declare an upper-division Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management.

- **Minimum GPA**: 2.5 overall and 2.5 in Progression Courses listed below
- **Pre-Major/Prerequisite/Progression Courses**:
  - ACCT 2121
  - ACCT 2122 or ACCT 3323
  - BUSN 1101
  - ECON 2101
  - ECON 2102
  - INFO 2130
  - MATH 1120, MATH 1121, MATH 1241, or MATH 1242
  - STAT 1220, STAT 1221, STAT 1222, or STAT 2122
  [A minimum grade of C is required for all Progression Courses. Students may attempt each of the Progression Courses listed above a maximum of two times. An attempt is defined as a course that is completed with a final grade of A, B, C, D, or F. Courses repeated under the UNC Charlotte Grade Replacement Policy are excluded from the GPA computation, but will count as an attempt. Otherwise, all grades earned in repeated courses are included in the GPA computation.]
- **Declaration of Major and/ or Progression Requirements**: Junior standing (60 credit hours or more); Pre-Business Requirements listed above; and approved Change of Major form. Pre-Business students should submit Change of Major forms to an Academic and Career Coach in the Belk College of Business Niblock Student Center. Students who fail to declare their upper-division major on time will be prohibited from declaring their upper-division major in the College if their GPA falls below a 2.5. Students who do not meet the Progression Requirements above are ineligible for continuation in the Belk College of Business.

Transfers

Transfer students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program. Transfer admission requirements for the Pre-Business major include the following:

- **Minimum GPA**: 2.5 overall and 2.5 in equivalent Progression Courses completed
- **Pre-Major/Prerequisite/Progression Courses**: See Progression Courses above

Degree Requirements

**General Education Courses** (37-41 credit hours)

For details on required courses, refer to the General Education program.

The following courses are required for a B.S.B.A. degree in Finance with a Concentration in Finance. Students may attempt each of these courses two times.

**Business Core Courses** (27 credit hours)

BLAW 3150 - Business Law I (3)
COMM 3160 - Business Communications (3) (O,W)
ECON 3125 - Managerial Economics (3)
FINN 3120 - Financial Management (3)
INFO 3130 - Management Information Systems (3)
MGMT 3140 - Management and Organizational Behavior (3)
MGMT 3280 - Strategic Management (3)
MKTG 3110 - Principles of Marketing (3)
OPER 3100 - Operations Management (3)

**Major Courses** (9 credit hours)

FINN 3222 - Investments (3)
FINN 3226 - Financial Theory and Practice (3)
ACCT 3311 - Intermediate Financial Accounting I (3)
or ACCT 3323 - Intermediate Accounting I (3)

**Restricted Elective Courses** (9 credit hours)

Select two to three of the following:

BLAW 3250 - Business Law II (3)
ECON 3112 - Econometrics (3)
ECON 3115 - Money and Banking (3)
FINN 3221 - Financial Institutions and Markets (3)
FINN 3223 - International Financial Management (3)
FINN 3224 - Applied Business Finance (3)
FINN 3225 - Commercial Bank Management (3)
FINN 3255 - Real Estate Principles (3)
FINN 3261 - Real Estate Finance (3)
FINN 3271 - Principles of Risk Management and Insurance (3)

- FINN 3278 - Risk Management and Insurance Sales and Negotiations (3)
- FINN 3279 - Advanced Topics in Risk Management (3)
- FINN 4160 - Equity Analysis (3)

Select one of the following if only one course selected above:

- FINN 3400 - Finance Internship (3)
- FINN 3800 - Directed Study (3) (Department Chair approval required)

Unrestricted Elective Courses

As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**
Grade Requirements
To obtain this degree, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the major. Students must earn a minimum grade of C in all required Progression, Core, and Major Courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.

Bachelor of Science in Business Administration: Finance with Concentration in Real Estate
The B.S.B.A. in Finance with Concentration in Real Estate provides students with fundamental knowledge and skills to analyze and negotiate commercial real estate. The curriculum incorporates concepts such as architecture, economics, finance, and geography to highlight the collaborative nature of the real estate industry. Students will find careers in property management, asset management, urban planning, and land development, as well as related areas such as finance, and investments. The Belk College of Business faculty members incorporate theory and real world application to allow students to address trends and issues within the industry.

Admission Requirements (Pre-Business)
Freshmen
Freshmen admission is competitive. Students who apply for this major and are accepted in to the Belk College of Business are initially classified as Pre-Business (PBUS) majors. Students interested in pursuing a major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program. - Minimum GPA: 2.5 overall and 2.5 in Progression Courses listed below
- Pre-Major/Prerequisite/Progression Courses:
  - ACCT 2121
  - ACCT 2122 or ACCT 3323
  - BUSN 1101
  - ECON 2101
  - ECON 2102
  - INFO 2130

- MATH 1120, MATH 1121, MATH 1241, or MATH 1242
- STAT 1220, STAT 1221, STAT 1222, or STAT 2122

[Minimum grade of C is required for all Progression Courses. Students may attempt each of the Progression Courses listed above a maximum of two times. An attempt is defined as a course that is completed with a final grade of A, B, C, D, or F. Courses repeated under the UNC Charlotte Grade Replacement Policy are excluded from the GPA computation, but will count as an attempt. Otherwise, all grades earned in repeated courses are included in the GPA computation.]

- Declaration of Major and/or Progression Requirements: Junior standing (60 credit hours or more); Pre-Business Requirements listed above; and approved Change of Major form. Pre-Business students should submit Change of Major forms to an Academic and Career Coach in the Belk College of Business Niblock Student Center. Students who fail to declare their upper-division major on time will be prohibited from declaring their upper-division major in the College if their GPA falls below a 2.5. Students who do not meet the Progression Requirements above are ineligible for continuation in the Belk College of Business.

Transfers
Transfer students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program. Transfer admission requirements for the Pre-Business major include the following:

- Minimum GPA: 2.5 overall and 2.5 in equivalent Progression Courses completed
- Pre-Major/Prerequisite/Progression Courses: See Progression Courses above

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program.

The following courses are required for a B.S.B.A. degree in Finance with a Risk Management and Insurance Concentration. **Students may attempt each of these courses two times.**

Business Core Courses (27 credit hours)
BLAW 3150 - Business Law I (3)
COMM 3160 - Business Communications (3) (O,W)
ECON 3125 - Managerial Economics (3)
FINN 3120 - Financial Management (3)
INFO 3130 - Management Information Systems (3)
MGMT 3140 - Management and Organizational Behavior (3)
MGMT 3280 - Strategic Management (3)
MKTG 3110 - Principles of Marketing (3)
OPER 3100 - Operations Management (3)

Major Courses (15 credit hours)
ACCT 3323 - Intermediate Accounting I (3)
FINN 3271 - Principles of Risk Management and Insurance (3)
FINN 3272 - Life Insurance and Professional Financial Planning (3)
FINN 3273 - Property and Liability Insurance Operations (3)
FINN 4275 - Enterprise Risk Management (3)
Restricted Elective Courses (3 credit hours)
Select one of the following:
FINN 3222 - Investments (3)
FINN 3276 - Employee Benefits (3)
FINN 3277 - Legal Aspects of Insurance (3)
FINN 3278 - Risk Management and Insurance Sales and Negotiations (3)
FINN 3279 - Advanced Topics in Risk Management (3)
FINN 3400 - Finance Internship (3)
FINN 3800 - Directed Study (1 to 3) (Department Chair approval required)
FINN 4160 - Equity Analysis (3)
MGMT 3277 - Entrepreneurship (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
To obtain this degree, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the major. Students must earn a minimum grade of C in all required Progression, Core, and Major Courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.

Early Entry: Master of Science in Mathematical Finance
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA and 3.2 GPA in the major
- Acceptable scores on the appropriate graduate standardized test (e.g., GRE)
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Accelerated Master’s Program
(for High School Seniors and UNC Charlotte Undergraduate Freshmen)
Academically talented high school seniors and UNC Charlotte undergraduate freshmen are encouraged to apply to an Accelerated Master’s Program to begin work toward both undergraduate and graduate degrees in their Freshman year.

Admission Requirements
- Minimum high school GPA of 3.75 (on a 4.0 scale)
- Minimum score of 1220 on SAT

Continued Enrollment Requirements
Students must maintain a strong academic record at both the undergraduate and graduate levels with a cumulative undergraduate GPA of 3.2 or higher and a cumulative graduate GPA of 3.0 or higher. Students accepted into the Accelerated master’s program are subject to the same policies that pertain to other matriculated graduate students.

Double-Counted Courses
Up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on the Accelerated Master’s Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/accelerated-masters.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
Undergraduate Programs

- B.S.B.A. in Management
  - Human Resources Management
  - Organizational Management
- B.S.B.A. in International Business
-Minor in International Management

A program of study in the Department of Management leads to a Bachelor of Science in Business Administration (B.S.B.A.) degree with a Major in Management, a B.S.B.A. degree with a Major in International Business, or a Minor in International Management.

The Major in Management is designed to teach students to plan, organize, lead, and control business activities in both the public and private sectors. Students develop skills in decision making, leadership, motivation, problem solving, and teamwork.

Students pursuing the Management major must select one of two concentrations: Human Resource Management or Organizational Management. The former concentration is designed for students interested in "the management of human resources or talent," and the latter concentration is designed for students interested in "general or strategic management."

Courses in this major include the following topics: management and organizational behavior, managerial ethics, decision-making techniques, managing human resources and developing communication skills that make for effective leadership. The objectives of the major are to provide each student with conceptual tools and develop managerial skills that support leadership in a variety of organizations.

Global citizenship is a core value of the Belk College of Business. Because business success requires a global perspective, the Department of Management also offers the B.S.B.A. degree with a Major in International Business and the Minor in International Management.

Bachelor of Science in Business Administration: Management with Concentration in Human Resource Management

Admission Requirements (Pre-Business)

Freshmen

Freshman admission is competitive. Students who apply for this major and are accepted into the Belk College of Business are initially classified as Pre-Business (PBUS) majors. Students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program to ensure appropriate advising and support. Students who complete the Progression Requirements listed below may declare an upper-division Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management.

- Minimum GPA: 2.5 overall and 2.5 in Progression Courses listed below
- Pre-Major/Prerequisite/Progression Courses:
  - ACCT 2121
  - ACCT 2122 or ACCT 3323
  - BUSN 1101
  - ECON 2101
  - ECON 2102
  - INFO 2130
  - MATH 1120, MATH 1121, MATH 1241, or MATH 1242
  - STAT 1220, STAT 1221, STAT 1222, or STAT 2122

  [A minimum grade of C is required for all Progression Courses. Students may attempt each of the Progression Courses listed above a maximum of two times. An attempt is defined as a course that is completed with a final grade of A, B, C, D, or F. Courses repeated under the UNC Charlotte Grade Replacement Policy are excluded from the GPA computation, but will count as an attempt. Otherwise, all grades earned in repeated courses are included in the GPA computation.]

- Declaration of Major and/or Progression Requirements: Junior standing (60 credit hours or more); Pre-Business Requirements listed above; and approved Change of Major form. Pre-Business students should submit Change of Major forms to an Academic and Career Coach in the Belk College of Business Niblock Student Center. Students who fail to declare their upper-division major on time will be prohibited from declaring their upper-division major in the College if their GPA falls below a 2.5. Students who do not meet the Progression Requirements above are ineligible for continuation in the Belk College of Business.

Transfers

Transfer students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program. Transfer admission requirements for the Pre-Business major include the following:

- Minimum GPA: 2.5 overall and 2.5 in equivalent Progression Courses completed
Degree Requirements

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program.

Business Core Courses (27 credit hours)
BLAW 3150 - Business Law I (3)
COMM 3160 - Business Communications (3) (O,W)
ECON 3125 - Managerial Economics (3)
FINN 3120 - Financial Management (3)

Transfers
Transfer students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program. Transfer admission requirements for the Pre-Business major include the following:

- Minimum GPA: 2.5 overall and 2.5 in equivalent Progression Courses completed
Bachelor of Science in Business Administration: International Business

The primary objective of the International Business major is to provide an understanding of the importance of a global perspective on the part of business managers. The major provides an integrated framework for the study of the market environment in which international business firms operate and the impact of those environments upon managerial decision making. Possible careers may result in a variety of business and government sectors—either domestically or abroad.

Admission Requirements (Pre-Business)

Transfers

Transfer students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management...
should seek admission to the Pre-Business program. Transfer admission requirements for the Pre-Business major include the following:

- **Minimum GPA**: 2.5 overall and 2.5 in equivalent Progression Courses completed
- **Pre-Major/Prerequisite/Progression Courses**: See Progression Courses above

**Degree Requirements**

General Education Courses (37-41 credit hours)

For details on required courses, refer to the General Education program.

The following courses are required. **Students may attempt each of these courses two times.** International Business majors are also required to study abroad.

**Foreign Language Courses (0-12 credit hours)**

Students must attain competency in a second language. This can be fulfilled two ways:

1) Complete at least four semesters of coursework in a foreign language (1201 - 2202).
2) Demonstrate proficiency in a foreign language at the 2202-level through a test administered by the Department of Languages and Culture Studies. Students are strongly encouraged to enhance their language skills by earning either a Certificate in Business Language (CBL) or a minor in their language of study.

**Business Core Courses (27 credit hours)**

BLAW 3150 - Business Law I (3)
COMM 3160 - Business Communications (3) (O,W)
ECON 3125 - Managerial Economics (3)
FINN 3120 - Financial Management (3)
INFO 3130 - Management Information Systems (3)
MGMT 3140 - Management and Organizational Behavior (3)
MGMT 3280 - Strategic Management (3)
MKTG 3110 - Principles of Marketing (3)
OPER 3100 - Operations Management (3)

**Major Courses (9 credit hours)**

ECON 3171 - International Business Economics (3)
FINN 3223 - International Financial Management (3)
MGMT 3275 - International Business Management (3)

**Restricted Elective Courses (3 credit hours)**

Select three of the following*:

**Recommended College of Business Elective Courses**

ECON 4171 - Economics of International Trade (3)
ECON 4172 - Economics of International Finance (3)
IBUS 3000 - Topics in International Business (3)
IBUS 3400 - International Business Internship (3)
MKTG 3226 - Business-to-Business Marketing and Retailing (3)
MKTG 3231 - Global Marketing Management (3)

**Other Approved Elective Courses**

AFRS 3264 - Business Culture and Entrepreneurship in Africa (3)
AFRS 3265 - African Economic Development (3)
GEOG 3105 - Geography of the Global Economy (3)

**Additional Language Elective Courses**

CHNS 3201 - Chinese Grammar and Conversation (3)
CHNS 3202 - Chinese Grammar and Conversation (3)
FREN 3201 - French Grammar and Conversation (3) (O)
FREN 3202 - French Grammar and Composition (3)
FREN 3210 - Introduction to Business French (3)
FREN 4120 - Advanced Business French I (3)
FREN 4121 - Advanced Business French II (3)
GERM 3201 - Advanced German Language and Culture I (3) (O)
GERM 3202 - Advanced German Language and Culture II (3)
GERM 4661 - Advanced Seminar in Business German I (3)
GERM 4671 - Advanced Seminar in Business German II (3)
ITAL 3201 - Italian Grammar and Conversation (3)
ITAL 3202 - Italian Grammar and Composition (3)
JAPN 3201 - Upper Intermediate Japanese I (3)
JAPN 3202 - Upper Intermediate Japanese II (3)
RUSS 3201 - Advanced Russian Grammar, Composition, and Conversation I (3)
RUSS 3202 - Advanced Russian Grammar, Composition, and Conversation II (3)
SPAN 3201 - Advanced Spanish Grammar and Composition I (3)
SPAN 3202 - Advanced Spanish Grammar and Composition II (3)
SPAN 3220 - Spanish for Business and International Trade (3)
SPAN 4120 - Advanced Business Spanish I (3)

*Other courses may be approved by the student’s Academic Advisor.

**The internship may be satisfied by working at least 150 hours at a company or other organization involved in international business. The work program and the company/association must be pre-approved. At least 80% of the student’s work must be international in nature. While the internship experience is not required to be performed outside the U.S., it is strongly encouraged.

**Study Abroad (3 credit hours minimum)**

This requirement may be satisfied by participating in an approved Study Abroad program outside of the U.S. and Canada during the Fall, Spring, or Summer semester. Students must complete 6 credit hours abroad or 3 credit hours with a minimum duration of 3 weeks abroad.

**Unrestricted Elective Courses**

As needed to complete the credit hours required for graduation.
Degree Total = 120 Credit Hours

Grade Requirements
To obtain this degree, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the major. Students must earn a minimum grade of C in all required Progression, Core, and Major Courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.

Minor in International Management
The Minor in International Management is designed to provide students who have an interest in global business with an opportunity to enhance their knowledge of international management. Topic areas include the international business environment, including economic trends, politics, and cultural variations and norms; managerial issues, including all functions of a typical multinational enterprise such as organization, production, marketing, human resources, political risk assessment, and negotiation; and international finance. The Minor in International Management offers students a competitive advantage in career opportunities across a broad spectrum of business and government sectors both domestically and globally. The Minor in International Management is only open to students majoring in the Belk College of Business.

Minor Requirements
To be accepted into the Minor in International Management and to progress into the upper-division of the College, students must present a minimum 2.5 cumulative GPA and must be of at least Junior standing. A Minor in International Management requires 15 credit hours. Students may attempt each of the courses in the minor two times.

Required Courses (9 credit hours)
- MGMT 3140 - Management and Organizational Behavior (3)
- MGMT 3275 - International Business Management (3)
- Study Abroad Experience (One course with a minimum of 3 credit hours)

Elective Courses (6 credit hours)
Select two of the following:
- ECON 3171 - International Business Economics (3)
- ECON 4171 - Economics of International Trade (3)
- ECON 4172 - Economics of International Finance (3)
- FINN 3223 - International Financial Management (3)
- MKTG 3231 - Global Marketing Management (3)

Total = 15 Credit Hours

Grade Requirements
To obtain this minor, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the minor. Students must earn a minimum grade of C in all required and elective minor courses and their prerequisite courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.
Undergraduate Programs
• B.S.B.A. in Marketing
  o Marketing
  o Marketing Analytics

The undergraduate program of study in the Department of Marketing leads to a Bachelor of Science in Business Administration (B.S.B.A.) degree with a Major in Marketing. This major offers a curriculum suitable for students who are: (1) preparing for positions in both profit and nonprofit organizations where enhanced communication abilities and specialized analysis skills in marketing are required, (2) planning to operate their own businesses and want to know how to utilize marketing, and (3) pursuing a strong marketing background at the undergraduate level prior to undertaking graduate studies.

The study of marketing provides students with an opportunity to prepare for various careers including marketing management, product and brand management, sales, advertising and promotions management, digital and social media marketing, retailing, business-to-business marketing, and global marketing. The Department of Marketing offers two different concentrations for marketing majors:

• Marketing Concentration - designed for students with an interest in qualitative marketing management and strategy
• Marketing Analytics Concentration - designed for students with an interest in big data-related quantitative marketing to generate valuable marketing information

The Department of Marketing faculty also participate in various graduate programs (including the MBA, DSBA, and DBA programs) and executive education programs.

Bachelor of Science in Business Administration: Marketing with Concentration in Marketing

This concentration is designed for students with an interest in “strategic and behavioral” marketing.

Admission Requirements (Pre-Business)
Freshmen
Freshman admission is competitive. Students who apply for this major and are accepted into the Belk College of Business are initially classified as Pre-Business (PBUS) majors. Students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program to ensure appropriate advising and support. Students who complete the Progression Requirements listed below may declare an upper-division Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management.

• Minimum GPA: 2.5 overall and 2.5 in Progression Courses listed below
• Pre-Major/Prerequisite/Progression Courses:
  o ACCT 2121
  o ACCT 2122 or ACCT 3323
  o BUSN 1101
  o ECON 2101
  o ECON 2102
  o INFO 2130
  o MATH 1120, MATH 1121, MATH 1241, or MATH 1242
  o STAT 1220, STAT 1221, STAT 1222, or STAT 2122
  [A minimum grade of C is required for all Progression Courses. Students may attempt each of the Progression Courses listed above a maximum of two times. An attempt is defined as a course that is completed with a final grade of A, B, C, D, or F. Courses repeated under the UNC Charlotte Grade Replacement Policy are excluded from the GPA computation, but will count as an attempt. Otherwise, all grades earned in repeated courses are included in the GPA computation.]

• Declaration of Major and/or Progression Requirements: Junior standing (60 credit hours or more); Pre-Business Requirements listed above; and approved Change of Major form. Pre-Business students should submit Change of Major forms to an Academic and Career Coach in the Belk College of Business Niblock Student Center. Students who fail to declare their upper-division major on time will be prohibited from declaring their upper-division major in the College if their GPA falls below a 2.5. Students who do not meet the Progression Requirements above are ineligible for continuation in the Belk College of Business.

Transfers
Transfer students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program. Transfer admission requirements for the Pre-Business major include the following:
• **Minimum GPA**: 2.5 overall and 2.5 in equivalent Progression Courses completed
• **Pre-Major/Prerequisite/Progression Courses**: See Progression Courses above

**Degree Requirements**
The following courses are required. Students may attempt each of these courses a maximum of two times.

**General Education Courses (37-41 credit hours)**
For details on required courses, refer to the General Education program.

**Business Core Courses (27 credit hours)**
BLAW 3150 - Business Law I
COMM 3160 - Business Communications (3) (O,W)
ECON 3125 - Managerial Economics (3)
FINN 3120 - Financial Management (3)
INFO 3130 - Management Information Systems (3)
MGMT 3140 - Management and Organizational Behavior (3)
MGMT 3280 - Strategic Management (3)
MKTG 3110 - Principles of Marketing (3)
OPER 3100 - Operations Management (3)

**Concentration Courses (18 credit hours)**
**Concentration Required Course (3 credit hours)**
MKTG 3250 - Marketing Strategy Consultancy (3)

**Concentration Elective Courses (15 credit hours)**
**Marketing Courses**
Select at least three of the following:
MKTG 3210 - Consumer Behavior (3)
MKTG 3222 - Marketing Research (3)
MKTG 3224 - Product and Brand Management (3)
MKTG 3225 - Integrated Marketing Communications (3)
MKTG 3226 - Business-to-Business Marketing and Retailing (3)
MKTG 3231 - Global Marketing Management (3)

**Additional Supporting Courses**
Depending on which courses were taken in the previous option above, select up to two of the following, if needed:
MKTG 3000 - Topics in Marketing (3)
MKTG 3220 - Digital Marketing and Web Analytics (3)
MKTG 3228 - Marketing Analytics (3)
MKTG 3230 - Social Media/Mobile Marketing and Analytics (3)
MKTG 3400 - Marketing Internship (3)
MKTG 3800 - Directed Study (1 to 3)

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

**Grade Requirements**
To obtain this degree, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the major. Students must earn a minimum grade of C in all required Progression, Core, and Major Courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.

**Internship**
Because the Department of Marketing is committed to experiential learning, it provides for Marketing majors to use one approved internship for academic credit. An application must be submitted and approved prior to starting the internship. The student may not have a current or prior work history with the internship company.

### Bachelor of Science in Business Administration: Marketing with Concentration in Marketing Analytics

This concentration is designed for students with an interest in “quantitative” marketing.

**Admission Requirements (Pre-Business)**

**Freshmen**
Freshman admission is competitive. Students who apply for this major and are accepted into the Belk College of Business are initially classified as Pre-Business (PBUS) majors. Students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program to ensure appropriate advising and support. Students who complete the Progression Requirements listed below may declare an upper-division Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management.

- **Minimum GPA**: 2.5 overall and 2.5 in Progression Courses listed below
- **Pre-Major/Prerequisite/Progression Courses**:
  - ACCT 2121
  - ACCT 2122 or ACCT 3323
  - BUSN 1101
  - ECON 2101
  - ECON 2102
  - INFO 2130
  - MATH 1120, MATH 1121, MATH 1241, or MATH 1242
  - STAT 1220, STAT 1221, STAT 1222, or STAT 2122

  [A minimum grade of C is required for all Progression Courses. Students may attempt each of the Progression Courses listed above a maximum of two times. An attempt is defined as a course that is completed with a final grade of A, B, C, D, or F. Courses repeated under the UNC Charlotte Grade Replacement Policy are excluded from the GPA computation, but will count as an attempt. Otherwise, all grades earned in repeated courses are included in the GPA computation.]

- **Declaration of Major and/or Progression Requirements**: Junior standing (60 credit hours or more); Pre-Business Requirements listed above; and approved Change of Major form. Pre-Business students should submit Change of Major forms to an Academic and Career Coach in the Belk College of Business Niblock Student Center. Students who fail to declare their upper-division major on time will be prohibited from declaring their upper-division major in...
the College if their GPA falls below a 2.5. Students who do not meet the Progression Requirements above are ineligible for continuation in the Belk College of Business.

Transfers
Transfer students interested in pursuing a Major in Business Analytics, Finance, International Business, Management, Management Information Systems, Marketing, or Operations and Supply Chain Management should seek admission to the Pre-Business program. Transfer admission requirements for the Pre-Business major include the following:

- Minimum GPA: 2.5 overall and 2.5 in equivalent Progression Courses completed
- Pre-Major/Prerequisite/Progression Courses: See Progression Courses above

Degree Requirements
The following courses are required. Students may attempt each of these courses a maximum of two times.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program.

Business Core Courses (27 credit hours)
BLAW 3150 - Business Law I (3)
COMM 3160 - Business Communications (3) (O,W)
ECON 3125 - Managerial Economics (3)
FINN 3120 - Financial Management (3)
INFO 3130 - Management Information Systems (3)
MGMT 3140 - Management and Organizational Behavior (3)
MGMT 3280 - Strategic Management (3)
MKTG 3110 - Principles of Marketing (3)
OPER 3100 - Operations Management (3)

Concentration Courses (18 credit hours)
Concentration Required Courses (9 credit hours)
MKTG 3222 - Marketing Research (3)
MKTG 3228 - Marketing Analytics (3)
MKTG 3250 - Marketing Strategy Consultancy (3)

Concentration Elective Courses (9 credit hours)
Analytics Courses
Select one or both of the following:
MKTG 3220 - Digital Marketing and Web Analytics (3)
MKTG 3230 - Social Media/Mobile Marketing and Analytics (3)

Other Marketing Courses
Select one of the following if both courses MKTG 3220 and MKTG 3230 were taken above; otherwise, select two of the following:
MKTG 3000 - Topics in Marketing (3)
MKTG 3210 - Consumer Behavior (3)
MKTG 3224 - Product and Brand Management (3)
MKTG 3225 - Integrated Marketing Communications (3)
MKTG 3226 - Business-to-Business Marketing and Retailing (3)
MKTG 3231 - Global Marketing Management (3)
MKTG 3400 - Marketing Internship (3)
MKTG 3800 - Directed Study (1 to 3)

Degree Total = 120 Credit Hours

Grade Requirements
To obtain this degree, students must meet the University requirements of a GPA of at least 2.0 overall and in the courses for the major. Students must earn a minimum grade of C in all required Progression, Core, and Major Courses. When students repeat a course, both the old and new grades are included in the overall GPA. Courses repeated under the Grade Replacement Policy are excluded from the overall GPA computation. However, this repeated course does count as an attempt. Students must also meet the Belk College of Business residency requirements as described at the beginning of this section.

Internship
Because the Department of Marketing is committed to experiential learning, it provides for Marketing majors to use one approved internship for academic credit. An application must be submitted and approved prior to starting the internship. The student may not have a current or prior work history with the internship company.
College of Computing and Informatics
The University of North Carolina at Charlotte's College of Computing and Informatics (CCI) is part of a dynamic and exciting educational and research institution that combines the knowledge and expertise of multidisciplinary faculty, industry professionals, and students. The CCI was formed in 2000 as the College of Information Technology, with the mission of educating information technology specialists, conducting leading-edge research, and partnering with area businesses of great importance to the Charlotte community and the University. It was renamed the College of Computing and Informatics in 2006 in an effort to reflect the College's commitment to maintain relevancy with the ever-changing world of information technology that impacts all of our lives on a daily basis.

The College of Computing and Informatics consists of three departments:

- Department of Bioinformatics and Genomics
- Department of Computer Science
- Department of Software and Information Systems

Plus one interdisciplinary school:

- School of Data Science

The primary mission of CCI includes:

- Cultivating an inclusive culture dedicated to student success and equity in education
- Stimulating innovative high-risk high-impact research and development
- Maintaining a resilient and ethical society of educated, caring citizens

Degree Programs

With educational programs rooted in a strong foundation of research, the CCI combines the talents of on- and off-campus partners in achieving its mission. Academic programs include Bachelor’s, Master’s, and Ph.D. degree programs in computer science, information technology, data science, and bioinformatics and computational biology. Committed to the concept of life-long learning, the College also offers undergraduate and graduate certificate programs.

The College offers a single entry to the Bachelor of Arts in Computer Science and the Bachelor of Science in Computer Science, with the curriculum for specific concentrations in the Departments of Computer Science, Software and Information Systems, and Bioinformatics and Genomics.

A key component of all CCI academic programs is the team interaction between students, faculty, and community partners. Through their involvement in real-world projects, students apply what they learn, thus, giving them practical experience as they help businesses solve computing and informatics challenges.

Majors

Within the College of Computing and Informatics, the requirements of the Bachelor of Science (B.S.) and Bachelor of Arts (B.A.) in Computer Science are fulfilled by completing specific concentrations of courses offered by the three different departments in the College of Computing and Informatics and designed for students interested in pursuing a career in computing.

The B.S. offers a broad core of computing subjects and allows in-depth study in one of these concentrations:

- AI, Robotics, and Gaming (Department of Computer Science)
- Bioinformatics (Department of Bioinformatics and Genomics)
- Cybersecurity (Department of Software and Information Systems)
- Data Science (Department of Computer Science)
- Software Engineering (Department of Software and Information Systems)
- Software, Systems, and Networks (Department of Computer Science)
- Web and Mobile Applications (Department of Software and Information Systems)

The B.A. program is designed for students interested in pursuing a career in one of the following concentrations:

- Bioinformatics (Department of Bioinformatics and Genomics)
- Human-Computer Interaction (Department of Software and Information Systems)
- Information Technology (Department of Software and Information Systems)
Minors
- Artificial Intelligence
- Bioinformatics and Genomics
- Data Science
- Human-Centered Design
- Interactive Programming
- Software Development
- Software Systems

Undergraduate Certificates
- Game Design and Development

Honors Program
The Computing and Informatics Honors Program (CCI Honors) is a research-based experience designed to provide mentoring to high-achieving students to better prepare them for post-graduate success. CCI Honors students must complete a capstone research project under the supervision of a faculty member. Upon the successful completion of the honors program in CCI, students receive Honors commendations on their transcript and in the commencement program.

Admission Requirements
Consideration for admission to the honors program may be initiated by the student or by any faculty member in the College of Computing and Informatics (CCI). To qualify, students must have:

- An overall GPA of 3.2
- A GPA of 3.4 in CCI courses

Students should apply in the semester prior to the semester they plan to graduate. The CCI Honors Committee will formally approve admission.

Course Requirements
ITSC 4750 - Honors Thesis (3)

Certification Requirements
To graduate with Honors in Computing and Informatics, students must:

- Prepare a description of the proposed honors research for submission to the CCI Honors Committee, which has the authority to approve, recommend revisions to, or reject the proposal. Students who plan to graduate with “Honors in Computing and Informatics” must complete the Application to Candidacy process for graduating with honors, as directed by the Honors College, beginning in the semester prior to registering for ITSC 4750.
- Complete 3 credit hours of Honors Thesis (ITSC 4750) during the semester in which the student will complete their project.
- Prepare a written honors thesis based upon independent honors research.
- Make a public presentation of the research results and successfully defend their thesis before the student’s honors committee.
- Receive a grade of A in ITSC 4750, have a GPA of at least 3.4 for courses in CCI, and an overall GPA of 3.2.

Upon completing the requirements of the honors program, receiving the recommendation of the College of Computing and Informatics Honors Committee and upon certification by the Honors College, the CCI Honors candidate shall graduate with Honors in Computing and Informatics.
Department of Bioinformatics and Genomics
http://bioinformatics.uncc.edu

Undergraduate Programs
- B.A. in Computer Science
  - Bioinformatics
- B.S. in Computer Science
  - Bioinformatics
- Minor in Bioinformatics and Genomics
- Early Entry: M.S. in Bioinformatics
- Early Entry: Graduate Certificate in Bioinformatics Applications
- Early Entry: Graduate Certificate in Bioinformatics Technology

Bioinformatics lies at the intersection of Computing and Biology. We are in the midst of a genomic revolution that is generating massive amounts of vital data. As Biology becomes more data-driven and quantitative, there is an increasing need for cross-training in computing and the biological sciences. The educational goal of the Department of Bioinformatics and Genomics is to train professionals who can use quantitative and computer skills to help solve critical problems in Biology and Biomedicine.

The department offers degrees at the bachelor’s, masters, and doctoral levels, as well as graduate certificates. Undergraduate students can take a Minor in Bioinformatics or a Concentration in Bioinformatics within the B.A. or B.S. degrees in Computer Science. These degrees are designed to educate students in the collection, analysis, and interpretation of biological data, including the massive datasets being collected worldwide.

Bachelor of Arts in Computer Science with Concentration in Bioinformatics
The Concentration in Bioinformatics presents up-to-date methods for data handling and interpretation while developing an understanding of critical issues in bioinformatics research design, statistical data analysis, and the application of genomics domain knowledge.

The B.A. in Computer Science with Concentration in Bioinformatics requires a compact set of a computer science core (15 credit hours). The Bioinformatics concentration requires 14 credit hours of related work with courses in the fields of biology and chemistry, while other B.A. in Computer Science concentrations require 15 credit hours of a second concentration in a non-computer science discipline, satisfied by a second major, a minor, or a set of coordinated courses developed through consultation with an advisor. Graduates of the B.A. program are thus expected to have knowledge and skill in computer science, plus a complementary discipline to which computing applies. The emphasis in this program is less theoretical/mathematical, and more on the applied side of computing.

Admission Requirements
Freshmen
- Minimum GPA: 2.5
- Other Requirements: Admission is competitive for computer science programs and, if admissible, freshmen must present a minimum SAT-Math score of 530 or ACT-Math subscore of 22.

Transfers
- Minimum GPA: 2.5
- Pre-Major/Prerequisite Courses: A grade of C or above is required in any previously attempted Computer Science course. Students must be able to transfer credits for the equivalent of College Algebra.
- Other Requirements: Transfer students must present an overall GPA of at least 2.5 with no grade less than C in Computer Science courses. For internal transfer students, participation in a Change of Major Workshop offered by the CCI Advising Center is required before becoming eligible to declare the Computer Science major.
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program. Students majoring in Computer Science should plan on taking the following courses that meet both general education and major requirements:

MATH 1120 - Calculus (3) (fulfills Mathematical and Logical Reasoning requirement)
STAT 1222 - Introduction to Statistics (3) (fulfills Mathematical and Logical Reasoning requirement)
ENGL 2116 - Introduction to Technical Communication (3) (W) (fulfills Communication Skills requirement)
ITSC 3688 - Computers and Their Impact on Society (3) (O,W) (fulfills Communication Skills requirement)

Major Courses (36 credit hours)
Core Courses (16 credit hours)
ITSC 1212 - Introduction to Computer Science I (4)
ITSC 1213 - Introduction to Computer Science II (4)
ITSC 1600 - Computing Professionals (2)
or ITSC 2600 - Computer Science Program, Identity, Career (2)
ITSC 2175 - Logic and Algorithms (3)
or MATH 1165 - Introduction to Discrete Structures (3)
ITSC 2214 - Data Structures and Algorithms (3)

Advanced Statistics Course (3 credit hours)
BINF 3121 - Statistics for Bioinformatics (3)

Related Courses (14 credit hours)
BIOL 2120 - General Biology I (3)
BIOL 2130 - General Biology II (3)
CHEM 1251 - General Chemistry I (3)
CHEM 1251L - General Chemistry I Laboratory (1)
CHEM 1252 - General Chemistry II (3)
CHEM 1252L - General Chemistry II Laboratory (1)
Capstone Course (3 credit hours)
Select one of the following:
- BINF 4650 - Senior Project (1 to 3)
- BINF 4900 - Principles of Team Science (3)
- ITCS 4232 - Game Design and Development Studio (3)
- ITIS 4011 - Interaction Design Studio (3)
- ITIS 4246 - Competitive Cyber Defense (3)
- ITSC 4681 - Senior Design I (3)
- ITSC 4682 - Senior Design II (3)
- ITSC 4750 - Honors Thesis (3)
- ITSC 4850 - Senior Project I (3)
- ITSC 4851 - Senior Project II (3)
- ITSC 4990 - Undergraduate Research (3)
- ITSC 4991 - Undergraduate Thesis (3)

Concentration Courses (27-29 credit hours)
Required Concentration Courses (18 credit hours)
- BINF 1101 - Introduction to Bioinformatics and Genomics (4) (fulfills the Natural Science General Education requirement)
- BINF 2111 - Introduction to Bioinformatics Computing (4)
- BINF 3101 - Sequence Analysis (3)
- BINF 4600 - Bioinformatics and Genomics Seminar (1)
- BIOL 3111 - Cell Biology (3)
- BIOL 3166 - Genetics (3)

Concentration Elective Courses (9-11 credit hours)
Subarea 1: Database/Analytics (3-4 credit hours)
Select one of the following:
- BINF 3211 - Bioinformatics Databases and Data Mining Technologies (3)
- BINF 4211 - Applied Data Mining for Bioinformatics (4)

Subarea 2: Professional Development (3 credit hours)
Select one of the following:
- BINF 4171 - Business of Biotechnology (3)
- BINF 4191 - Life Sciences and the Law (3)

Subarea 3: Upper-Division Elective (3-4 credit hours)
Select one of the following:
- BINF 3131 - Bioinformatics Algorithms (4)
- BINF 3201 - Genomic Methods (4)
- BINF 4101 - Computational Systems Biology (3)
- BINF 4111 - Structural Bioinformatics (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
- The GPA requirement for all Computer Science undergraduate degree programs is 2.0 or above in all courses applied to the degree and all courses in the major.
- Students have a limit of 2 attempts per course in the major (plus 1 more by petition). This applies to all courses listed under the Major Courses and Concentration Courses categories of B.S. and B.A. in Computer Science degree programs. The third attempt at a course can only be approved by petition. In addition, a Withdrawal does not count as an attempt, as that effort is already restricted via the Withdrawal limit.
- Students are required to achieve a grade of C or above in all Core Courses within the major, as listed above.

Bachelor of Science in Computer Science with Concentration in Bioinformatics
This concentration is designed to best prepare students to match the diverse requirements of employers. It also prepares students to pursue graduate studies in computing and other related areas.

The B.S. in Computer Science program requires a common set of computer science courses, as well as a second concentration in a non-computer science discipline, satisfied by a second major, a minor, or a set of coordinated courses developed through consultation with an advisor. Graduates from the B.S. program are thus expected to have knowledge and skill in computer science plus a complementary discipline to which computing applies.

Admission Requirements

Freshmen
- Minimum GPA: 2.5
- Other Requirements: Admission is competitive for computer science programs and, if admissible, freshmen must present a minimum SAT-Math score of 530 or ACT-Math subscore of 22.

Transfers
- Minimum GPA: 2.5
- Pre-Major/Prerequisite Courses: A grade of C or above is required in any previously attempted Computer Science course. Students must be able to transfer credits for the equivalent of College Algebra.
- Other Requirements: Transfer students must present an overall GPA of at least 2.5 with no grade less than C in Computer Science courses. For internal transfer students, participation in a Change of Major Workshop offered by the CCI Advising Center is required before becoming eligible to declare the Computer Science major.
- Transferable Credit Hours: 24

Degree Requirements

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program. Students majoring in Computer Science should plan on taking the following courses that meet both general education and major requirements:
- MATH 1241 - Calculus I (3) (fulfills Mathematical and Logical Reasoning requirement)
- MATH 1242 - Calculus II (3) (fulfills Mathematical and Logical Reasoning requirement)
- ENGL 2116 - Introduction to Technical Communication (3) (W) (fulfills Communication Skills requirement)
- ITSC 3688 - Computers and Their Impact on Society (3) (O,W) (fulfills Communication Skills requirement)
Major Courses (50 credit hours)

Core Courses (26 credit hours)
- ITSC 1212 - Introduction to Computer Science I (4)
- ITSC 1213 - Introduction to Computer Science II (4)
- ITSC 1600 - Computing Professionals (2)
  or ITSC 2600 - Computer Science Program, Identity, Career (2)
- ITSC 2175 - Logic and Algorithms (3)
  or MATH 1165 - Introduction to Discrete Structures (3)
- ITSC 2214 - Data Structures and Algorithms (3)
- ITSC 3146 - Introduction to Operating Systems and Networking (3)
- ITSC 3155 - Software Engineering (3)
- ITSC 3181 - Introduction to Computer Architecture (4)

Mathematics and Statistics Courses (6 credit hours)
- MATH 2164 - Matrices and Linear Algebra (3)
- STAT 2122 - Introduction to Probability and Statistics (3)

Elective Courses in Other Disciplines (15 credit hours)
Select 15 elective credit hours. Courses that count towards this requirement must have a discipline prefix other than ITSC, ITCS, or ITIS. This requirement can be fulfilled by pursuing a/an:
- Minor
- Second major
- Honors program
- Undergraduate certificate
- Set of courses selected by the student that do not satisfy any other degree requirement

Concentration Courses (21-22 credit hours)

Required Concentration Courses (12 credit hours)
- BINF 1101 - Introduction to Bioinformatics and Genomics (4) (fulfills the Natural Science General Education requirement)
- BINF 2111 - Introduction to Bioinformatics Computing (4)
- BINF 3101 - Sequence Analysis (3)
- BINF 4600 - Bioinformatics and Genomics Seminar (1)

Concentration Elective Courses (9-11 credit hours)
Subarea 1: Database/Analytics (3-4 credit hours)
Select one of the following:
- BINF 3121 - Statistics for Bioinformatics (3)
- BINF 3211 - Bioinformatics Databases and Data Mining Technologies (3)
- BINF 4211 - Applied Data Mining for Bioinformatics (4)

Subarea 2: Professional Development (3 credit hours)
Select one of the following:
- BINF 4171 - Business of Biotechnology (3)
- BINF 4191 - Life Sciences and the Law (3)

Subarea 3: Upper-Division Elective (3-4 credit hours)
Select one of the following:
- BINF 3131 - Bioinformatics Algorithms (4)
- BINF 3201 - Genomic Methods (4)
- BINF 4101 - Computational Systems Biology (3)
- BINF 4111 - Structural Bioinformatics (3)

Capstone Course (3 credit hours)
Select one of the following:
- BINF 4650 - Senior Project (1 to 3)
- BINF 4900 - Principles of Team Science (3)
- ITCS 4232 - Game Design and Development Studio (3)
- ITIS 4011 - Interaction Design Studio (3)
- ITIS 4246 - Competitive Cyber Defense (3)
- ITSC 4155 - Software Development Projects (3)
- ITSC 4681 - Senior Design I (3)
- ITSC 4682 - Senior Design II (3)
- ITSC 4750 - Honors Thesis (3)
- ITSC 4850 - Senior Project I (3)
- ITSC 4851 - Senior Project II (3)
- ITSC 4990 - Undergraduate Research (3)
- ITSC 4991 - Undergraduate Thesis (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
- The GPA requirement for all Computer Science undergraduate degree programs is 2.0 or above in all courses applied to the degree and all courses in the major.
- Students have a limit of 2 attempts per course in the major (plus 1 more by petition). This applies to all courses listed under the Major Courses and Concentration Courses categories of B.S. and B.A. in Computer Science degree programs. The third attempt at a course can only be approved by petition. In addition, a Withdrawal does not count as an attempt, as that effort is already restricted via the
Withdrawal limit.

- Students are required to achieve a grade of C or above in all Core Courses within the major, as listed above.

Minor in Bioinformatics and Genomics
Designed to introduce students to the collection, informatics analysis and interpretation of data derived from genomic and biological macromolecular investigations, the Minor in Bioinformatics and Genomics provides students with a foundation of understanding and the computing skill necessary to communicate in the increasingly data-centric life sciences. In addition to gaining first-hand experience with current technologies for high-throughput data generation, students will receive training in up-to-date methods for data handling and interpretation while developing an understanding of critical issues in bioinformatics research design, statistical data analysis, and the application of genomics domain knowledge.

Minor Requirements
BINF 1101 - Introduction to Bioinformatics and Genomics (4)
BINF 2111 - Introduction to Bioinformatics Computing (4)
BINF 3101 - Sequence Analysis (3)
BINF 3121 - Statistics for Bioinformatics (3)
   or BINF 4211 - Applied Data Mining for Bioinformatics (4)
BINF 4600 - Bioinformatics and Genomics Seminar (1)

Total = 15 Credit Hours

Early Entry: Master of Science in Bioinformatics, Graduate Certificate in Bioinformatics Applications, or Graduate Certificate in Bioinformatics Technology
Exceptional undergraduate students at UNC Charlotte may be accepted into the M.S. in Bioinformatics, Graduate Certificate in Bioinformatics Applications, or Graduate Certificate in Bioinformatics Technology, and begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA and a 3.0 Junior/Senior GPA

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for these degree programs, see the program listings in the Graduate Catalog.
Undergraduate Programs
- B.S. in Computer Science
  - AI, Robotics, and Gaming
  - Data Science
  - Software, Systems, and Networks
- Minor in Artificial Intelligence
- Minor in Data Science
- Minor in Software Systems
- Undergraduate Certificate in Game Design and Development
- Early Entry: M.S. in Computer Science

Computer Science is the cornerstone of modern society. It revolutionizes how we learn, communicate, entertain, conduct business, perform research, and practice medicine. It provides computer scientists with nearly limitless opportunities to make satisfying and enriching contributions to society. While other disciplines produce graduates prepared for specific jobs, computer science offers a comprehensive foundation that permits graduates to explore and adapt to new technologies, ideas, and professions. The work of computer scientists falls into many categories. For example, computer scientists:

- **Design, implement, and operate software.** Computer scientists tackle challenging software design, implementation, and testing problems. They also lead and contribute to software projects and operate software systems.
- **Discover, innovate, and create.** Computer scientists produce innovative solutions to society’s most difficult and critical challenges. They promote discovery. They are innovators who inspire creativity and overcome challenges big and small.
- **Integrate information and technology into society.** Computer scientists design new ways to integrate information and technology into all aspects of society including business workflows, the arts, research, engineering, healthcare, and education.
- **Manage and explore data.** Computer scientists develop and apply tools and methods to curate, explore, and synthesize data to uncover insights and inform decision-making.

The Department of Computer Science offers degrees at the baccalaureate, master’s, and doctoral levels, as well as various certificates. The department offers B.S. and M.S. degrees in Computer Science with concentrations in: Data Science; Artificial Intelligence, Robotics, and Gaming; and, Software, Systems, and Networks. The M.S. in Computer Science offers an additional concentration in Information Security and Privacy. The department also offers a Ph.D. in Computing and Information Systems. See the [UNC Charlotte Graduate Catalog](http://cs.uncc.edu) for information on the M.S. and Ph.D. degrees.) Students are prepared by internationally recognized faculty through a comprehensive program of coursework, research, and internship opportunities in state-of-the-art computing facilities.

Bachelor of Science in Computer Science
**with Concentration in AI, Robotics, and Gaming**
This concentration is designed to best prepare students to match the diverse requirements of employers. It also prepares students to pursue graduate studies in computing and other related areas.

The B.S. in Computer Science program requires a common set of a computer science courses, as well as a second concentration in a non-computer science discipline, satisfied by a second major, a minor, or a set of coordinated courses developed through consultation with an advisor. Graduates from the B.S. program are thus expected to have knowledge and skill in computer science plus a complementary discipline to which computing applies.

Admission Requirements

---

**Freshmen**
- **Minimum GPA:** 2.5
- **Other Requirements:** Admission is competitive for computer science programs and, if admissible, freshmen must present a minimum SAT-Math score of 530 or ACT-Math subscore of 22.

**Transfers**
- **Minimum GPA:** 2.5
- **Pre-Major/Prerequisite Courses:** A grade of C or above is required in any previously attempted Computer Science course. Students must be able to transfer credits for the equivalent of College Algebra.
- **Other Requirements:** Transfer students must present an overall GPA of at least 2.5 with no grade less than C in Computer Science courses. For internal transfer students, participation in a Change of Major Workshop offered by the CCI Advising Center is required before becoming eligible to declare the Computer Science major.
- **Transferable Credit Hours:** 24

Degree Requirements

---

**General Education Courses (37-41 credit hours)**
For details on required courses, refer to the General Education program. Students majoring in Computer Science should plan on taking the following courses that meet both general education and major requirements:

MATH 1241 - Calculus I (3) (fulfills Mathematical and Logical Reasoning
requirement)
MATH 1242 - Calculus II (3) (fulfills Mathematical and Logical Reasoning requirement)
ENGL 2116 - Introduction to Technical Communication (3) (W) (fulfills Communication Skills requirement)
ITSC 3688 - Computers and Their Impact on Society (3) (O, W) (fulfills Communication Skills requirement)

Major Courses (50 credit hours)

Core Courses (26 credit hours)
ITSC 1212 - Introduction to Computer Science I (4)
ITSC 1213 - Introduction to Computer Science II (4)
ITSC 1600 - Computing Professionals (2)
or ITSC 2600 - Computer Science Program, Identity, Career (2)
ITSC 2175 - Logic and Algorithms (3)
or MATH 1165 - Introduction to Discrete Structures (3)
ITSC 2214 - Data Structures and Algorithms (3)
ITSC 3146 - Introduction to Operating Systems and Networking (3)
ITSC 3155 - Software Engineering (3)
ITSC 3181 - Introduction to Computer Architecture (4)

Mathematics and Statistics Courses (6 credit hours)
MATH 2164 - Matrices and Linear Algebra (3)
STAT 2122 - Introduction to Probability and Statistics (3)

Capstone Course (3 credit hours)
Select one of the following:
ITCS 4232 - Game Design and Development Studio (3)
ITIS 4011 - Interaction Design Studio (3)
ITIS 4246 - Competitive Cyber Defense (3)
ITSC 4155 - Software Development Projects (3)
ITSC 4681 - Senior Design I (3)
ITSC 4682 - Senior Design II (3)
ITSC 4750 - Honors Thesis (3)
ITSC 4850 - Senior Project I (3)
ITSC 4851 - Senior Project II (3)
ITSC 4990 - Undergraduate Research (3)
ITSC 4991 - Undergraduate Thesis (3)

For this concentration, either of the courses below could also be used to satisfy the Capstone requirement:
ITCS 4232 - Game Design and Development Studio (3)
ITCS 4238 - Intelligent and Interactive System Studio (3)

Elective Courses in Other Disciplines (15 credit hours)
Select 15 elective credit hours. Courses that count towards this requirement must have a discipline prefix other than ITSC, ITCS, or ITIS.
This requirement can be fulfilled by pursuing a/an:

• Minor
• Second major
• Honors program
• Undergraduate certificate
• Set of courses selected by the student that do not satisfy any other degree requirement

Concentration Courses (21 credit hours)

Required Concentration Courses (3 credit hours)
ITCS 3153 - Introduction to Artificial Intelligence (3)

Bachelor of Science in Computer Science with Concentration in Data Science
This concentration is designed to best prepare students to match the diverse requirements of employers. It also prepares students to pursue graduate studies in computing and other related areas.

The B.S. in Computer Science program requires a common set of a computer science courses, as well as a second concentration in a non-computer science discipline, satisfied by a second major, a minor, or a set of coordinated courses developed through consultation with an advisor. Graduates from the B.S. program are thus expected to have knowledge and skill in computer science plus a complementary discipline to which computing applies.

Admission Requirements

Freshmen

• Minimum GPA: 2.5
• Other Requirements: Admission is competitive for computer
science programs and, if admissible, freshmen must present a minimum SAT-Math score of 530 or ACT-Math subscore of 22.

Transfers
- **Minimum GPA:** 2.5
- **Pre-Major/Prerequisite Courses:** A grade of C or above is required in any previously attempted Computer Science course. Students must be able to transfer credits for the equivalent of College Algebra.
- **Other Requirements:** Transfer students must present an overall GPA of at least 2.5 with no grade less than C in Computer Science courses. For internal transfer students, participation in a Change of Major Workshop offered by the CCI Advising Center is required before becoming eligible to declare the Computer Science major.
- **Transferable Credit Hours:** 24

Degree Requirements

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program. Students majoring in Computer Science should plan on taking the following courses that meet both general education and major requirements:

- **MATH 1241:** Calculus I (3) *(fulfills Mathematical and Logical Reasoning requirement)*
- **MATH 1242:** Calculus II (3) *(fulfills Mathematical and Logical Reasoning requirement)*
- **ENGL 2116:** Introduction to Technical Communication (3) *(W)* *(fulfills Communication Skills requirement)*
- **ITSC 3688:** Computers and Their Impact on Society (3) *(O,W)* *(fulfills Communication Skills requirement)*

Major Courses (50 credit hours)

Core Courses (26 credit hours)
- ITSC 1212: Introduction to Computer Science I (4)
- ITSC 1213: Introduction to Computer Science II (4)
- ITSC 1600: Computing Professionals (2)
  or ITSC 2600: Computer Science Program, Identity, Career (2)
- ITSC 2175: Logic and Algorithms (3)
  or MATH 1165: Introduction to Discrete Structures (3)
- ITSC 2214: Data Structures and Algorithms (3)
- ITSC 3146: Introduction to Operating Systems and Networking (3)
- ITSC 3155: Software Engineering (3)
- ITSC 3181: Introduction to Computer Architecture (4)

Mathematics and Statistics Courses (6 credit hours)
- **MATH 2164:** Matrices and Linear Algebra (3)
- **STAT 2122:** Introduction to Probability and Statistics (3)

Capstone Course (3 credit hours)
Select one of the following:
- ITSC 4232: Game Design and Development Studio (3)
- ITSC 4011: Interaction Design Studio (3)
- ITSC 4246: Competitive Cyber Defense (3)
- ITSC 4155: Software Development Projects (3)
- ITSC 4681: Senior Design I (3)
- ITSC 4682: Senior Design II (3)
- ITSC 4750: Honors Thesis (3)
- ITSC 4850: Senior Project I (3)
- ITSC 4851: Senior Project II (3)
- ITSC 4990: Undergraduate Research (3)
- ITSC 4991: Undergraduate Thesis (3)

Elective Courses in Other Disciplines (15 credit hours)
Select 15 elective credit hours. Courses that count towards this requirement must have a discipline prefix other than ITSC, ITCS, or ITIS. This requirement can be fulfilled by pursuing a/an:
- Minor
- Second major
- Honors program
- Undergraduate certificate
- Set of courses selected by the student that do not satisfy any other degree requirement

Concentration Courses (21 credit hours)

Required Concentration Courses (6 credit hours)
- ITCS 3160: Database Design and Implementation (3)
- ITCS 3162: Introduction to Data Mining (3)

Concentration Elective Courses (12 credit hours)
Select three courses from the lists below, with at least one from each of the two groups:

**Group A**
- ITCS 3190: Cloud Computing for Data Analysis (3)
- ITCS 3216: Introduction to Cognitive Science (3)
- ITCS 4156: Introduction to Machine Learning (3)

**Group B**
- INFO 3236: Business Analytics (3)
- ITCS 3134: Digital Image Processing (3)
- ITCS 4121: Information Visualization (3)
- ITCS 4122: Visual Analytics (3)
- ITIS 4510: Web Mining (3)

Concentration Technical Elective Courses (6 credit hours)
Select elective courses from the 3000- or 4000-levels of courses offered by the College of Computing and Informatics.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
- The GPA requirement for all Computer Science undergraduate degree programs is 2.0 or above in all courses applied to the degree and all courses in the major.
- Students have a limit of 2 attempts per course in the major (plus 1 more by petition). This applies to all courses listed under the Major Courses and Concentration Courses categories of B.S. and B.A. in Computer Science degree programs. The third attempt at a course can only be approved by petition. In addition, a Withdrawal does not count as an attempt, as that effort is already restricted via the Withdrawal limit.
- Students are required to achieve a grade of C or above in all Core
Bachelor of Science in Computer Science with Concentration in Software, Systems, and Networks
This concentration is designed to best prepare students to match the diverse requirements of employers. It also prepares students to pursue graduate studies in computing and other related areas.

The B.S. in Computer Science program requires a common set of a computer science courses, as well as a second concentration in a non-computer science discipline, satisfied by a second major, a minor, or a set of coordinated courses developed through consultation with an advisor. Graduates from the B.S. program are thus expected to have knowledge and skill in computer science plus a complementary discipline to which computing applies.

Admission Requirements
Freshmen
- Minimum GPA: 2.5
- Other Requirements: Admission is competitive for computer science programs and, if admissible, freshmen must present a minimum SAT-Math score of 530 or ACT-Math subscore of 22.

Transfers
- Minimum GPA: 2.5
- Pre-Major/Prerequisite Courses: A grade of C or above is required in any previously attempted Computer Science course. Students must be able to transfer credits for the equivalent of College Algebra.
- Other Requirements: Transfer students must present an overall GPA of at least 2.5 with no grade less than C in Computer Science courses. For internal transfer students, participation in a Change of Major Workshop offered by the CCI Advising Center is required before becoming eligible to declare the Computer Science major.
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program. Students majoring in Computer Science should plan on taking the following courses that meet both general education and major requirements:

MATH 1241 - Calculus I (3) (fulfills Mathematical and Logical Reasoning requirement)
MATH 1242 - Calculus II (3) (fulfills Mathematical and Logical Reasoning requirement)
ENGL 2116 - Introduction to Technical Communication (3) (W) (fulfills Communication Skills requirement)
ITSC 3688 - Computers and Their Impact on Society (3) (O.W) (fulfills Communication Skills requirement)

Major Courses (50 credit hours)
Core Courses (26 credit hours)
ITSC 1212 - Introduction to Computer Science I (4)
ITSC 1213 - Introduction to Computer Science II (4)
ITSC 1600 - Computing Professionals (2)

or ITSC 2600 - Computer Science Program, Identity, Career (2)
ITSC 2175 - Logic and Algorithms (3)
or MATH 1165 - Introduction to Discrete Structures (3)
ITSC 2214 - Data Structures and Algorithms (3)
ITSC 3146 - Introduction to Operating Systems and Networking (3)
ITSC 3155 - Software Engineering (3)
ITSC 3181 - Introduction to Computer Architecture (4)

Mathematics and Statistics Courses (6 credit hours)
MATH 2164 - Matrices and Linear Algebra (3)
STAT 2122 - Introduction to Probability and Statistics (3)

Elective Courses in Other Disciplines (15 credit hours)
Select 15 elective credit hours. Courses that count towards this requirement must have a discipline prefix other than ITSC, ITIS, or ITIS. This requirement can be fulfilled by pursuing a/an:
- Minor
- Second major
- Honors program
- Undergraduate certificate
- Set of courses selected by the student that do not satisfy any other degree requirement

Capstone Course (3 credit hours)
Select one of the following:
ITCS 4232 - Game Design and Development Studio (3)
ITIS 4011 - Interaction Design Studio (3)
ITIS 4246 - Competitive Cyber Defense (3)
ITSC 4155 - Software Development Projects (3)
ITSC 4681 - Senior Design I (3)
ITSC 4682 - Senior Design II (3)
ITSC 4750 - Honors Thesis (3)
ITSC 4850 - Senior Project I (3)
ITSC 4851 - Senior Project II (3)
ITSC 4990 - Undergraduate Research (3)
ITSC 4991 - Undergraduate Thesis (3)

Concentration Courses (21 credit hours)
Required Concentration Courses (6 credit hours)
ITCS 3145 - Parallel and Distributed Computing (3)
ITCS 3166 - Introduction to Computer Networks (3)

Concentration Elective Courses (9 credit hours)
Select three of the following: (The categories are only to indicate sub-areas of this concentration and the courses selected do not need to be within one category.)

Systems
ITCS 3143 - Operating Systems (3)
ITCS 3160 - Database Design and Implementation (3)
ITCS 4141 - Computer Organization and Architecture (3)
ITCS 4182 - Introduction to High-Performance Computing (3)
ITIS 4221 - Secure Programming and Penetration Testing (3)

Software: Programming Languages Foundations and Practice
ITCS 3110 - Compiler Construction (3)
ITCS 3112 - Design and Implementation of Object-Oriented Systems (3)
ITCS 4102 - Programming Languages (3)
ITIS 3320 - Introduction to Software Testing and Assurance (3)

Pervasive, Mobile, and Embedded Computing
ITCS 4131 - Communication Network Design (3)
ITCS 4180 - Mobile Application Development (3)
ITIS 3200 - Introduction to Information Security and Privacy (3)
ITIS 4166 - Network-Based Application Development (3)

Concentration Technical Elective Courses (6 credit hours)
Select elective courses from the 3000- or 4000-levels of courses offered by the College of Computing and Informatics.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
- The GPA requirement for all Computer Science undergraduate degree programs is 2.0 or above in all courses applied to the degree and all courses in the major.
- Students have a limit of 2 attempts per course in the major (plus 1 more by petition). This applies to all courses listed under the Major Courses and Concentration Courses categories of B.S. and B.A. in Computer Science degree programs. The third attempt at a course can only be approved by petition. In addition, a Withdrawal does not count as an attempt, as that effort is already restricted via the Withdrawal limit.
- Students are required to achieve a grade of C or above in all Core Courses within the major, as listed above.

Minor in Artificial Intelligence
The Minor in Artificial Intelligence is designed for non-Computer Science majors to have significant exposure in fundamentals of computer science and the modern technical area of artificial intelligence, which can provide valuable knowledge and skill in the development of students' majors and for the job market.

Admission Requirements
Students must have a background in mathematics and have completed one of the following courses:

MATH 1100 - College Algebra (3)
MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
MATH 1120 - Calculus (3)
MATH 1241 - Calculus I (3)

Minor Requirements
The minor requires a minimum of 17 credit hours.

Core Courses (11 credit hours)
ITSC 1212 - Introduction to Computer Science I (4)
ITSC 1213 - Introduction to Computer Science II (4)
ITSC 2214 - Data Structures and Algorithms (3)

Concentration Course (3 credit hours)
ITCS 3153 - Introduction to Artificial Intelligence (3)

Elective Course (3 credit hours)
Select one of the following:
ITCS 3120 - Introduction to Interactive Computer Graphics (3)
ITCS 3134 - Digital Image Processing (3)
ITCS 4123 - Visualization and Visual Communication (3)
ITCS 4151 - Intelligent Robotics (3)

Minor Total = 17 Credit Hours

Grade Requirements
Students must receive a grade of C or above in all courses toward the minor.

Minor in Data Science
The Minor in Data Science is designed for non-Computer Science majors to have significant exposure in fundamentals of computer science and the modern technical area of data science, which can provide valuable knowledge and skill in the development of students' majors and for the job market.

Admission Requirements
Students must have a background in mathematics and have completed one of the following courses:

MATH 1100 - College Algebra (3)
MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
MATH 1120 - Calculus (3)
MATH 1241 - Calculus I (3)

Minor Requirements
The minor requires a minimum of 17 credit hours.

Core Courses (11 credit hours)
ITSC 1212 - Introduction to Computer Science I (4)
ITSC 1213 - Introduction to Computer Science II (4)
ITSC 2214 - Data Structures and Algorithms (3)

Elective Concentration Courses (6 credit hours)
Select two of the following:
ITCS 3160 - Database Design and Implementation (3)
ITCS 3162 - Introduction to Data Mining (3)
ITCS 3190 - Cloud Computing for Data Analysis (3)

Minor Total = 17 Credit Hours

Grade Requirements
Students must receive a grade of C or above in all courses toward the minor.

Minor in Software Systems
The Minor in Software Systems is designed for non-Computer Science majors to have significant exposure in fundamentals of computer science and the classical technical area of software systems, which can provide valuable knowledge and skill in the development of students' majors and
for the job market.

**Admission Requirements**
Students must have a background in mathematics and have completed one of the following courses:

- MATH 1100 - College Algebra (3)
- MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
- MATH 1120 - Calculus (3)
- MATH 1241 - Calculus I (3)

**Minor Requirements**
The minor requires a minimum of 17 credit hours.

**Core Courses (11 credit hours)**
- ITSC 1212 - Introduction to Computer Science I (4)
- ITSC 1213 - Introduction to Computer Science II (4)
- ITSC 2214 - Data Structures and Algorithms (3)

**Elective Concentration Courses (6 credit hours)**
Select two of the following:
- ITCS 3145 - Parallel and Distributed Computing (3)
- ITCS 3160 - Database Design and Implementation (3)
- ITCS 3166 - Introduction to Computer Networks (3)
- ITSC 3155 - Software Engineering (3)

**Minor Total = 17 Credit Hours**

**Grade Requirements**
Students must receive a grade of C or above in all courses toward the minor.

**Undergraduate Certificate in Game Design and Development**
The Undergraduate Certificate in Game Design and Development (GDD) provides undergraduate students with the opportunity to reach a demonstrated level of competence in game design and development. Coursework towards the certificate in GDD can be used for credit towards the Bachelor’s degree in Computer Science. However, its primary purpose is to provide a well-defined target for students who want to advance their knowledge of modern game design and development techniques and work with a variety of professionals, from artists to writers, to being the vision for an interactive game or media product to life. The certificate may be pursued concurrently with any of the undergraduate degree programs at UNC Charlotte.

**Admission Requirements**
To be admitted into the Undergraduate Certificate in Game Design and Development, students must meet the general University requirements for admission into Undergraduate Certificate Programs. These University-level requirements include:

1. An undergraduate degree or admission to an undergraduate degree program at UNC Charlotte.
2. An application submitted to the Registrar if applicant already holds an undergraduate degree, or to the department offering the program if applicant does not hold an undergraduate degree.

3. Official transcripts for previous degree(s) and course work
4. A Declaration of Program form (Change of Major/Minor form) listing the certificate program.

In addition, the program expects a current working knowledge of two higher-level languages, including at least one procedural language; and a familiarity with computer applications. The following minimal background in mathematics is also required: two semesters of calculus and one semester of discrete structures. Individuals who have worked at a high professional level in the computer industry may be able to substitute work experience for specific subject area admission requirements.

Students who anticipate applying certificate courses toward an undergraduate degree program should seek advice from that program prior to enrolling. Admission to an undergraduate degree program does not ensure admission into a discipline-related certificate program.

**Course Requirements**
The certificate will be awarded upon completion of five to six undergraduate level courses (15-18 credit hours) in the area of game design and development. Up to a maximum of six transfer credits may be applied to the certificate. Course substitutions may be made at the discretion of the GDD Certificate Coordinator.

**Required Compulsory Courses (12 credit hours)**
- ITCS 4120 - Introduction to Computer Graphics (3)
- ITCS 4230 - Introduction to Game Design and Development (3)
- ITCS 4231 - Advanced Game Design and Development (3)
- ITCS 4232 - Game Design and Development Studio (3)

**Concentration Courses (3-6 credit hours)**
Select one of the following two-course sequences:

**Artificial Intelligence**
- ITCS 3153 - Introduction to Artificial Intelligence (3)
- ITCS 4236 - Artificial Intelligence for Computer Games (3)

**Computation**
- ITCS 4237 - Audio Processing for Entertainment Computing (3)
  A computation-related course approved by the GDD Certificate Coordinator (3)

**Graphics**
- ITCS 4120 Introduction to Computer Graphics (3) *(this is already a required compulsory course)*
- ITCS 4235 Game Engine Construction (3)

**Networking**
- ITCS 3166 Introduction to Computer Networks (3)
  A game-networking related course approved by the GDD Certificate Coordinator (3)

**Other**
A sequence of two related courses (generally from ITCS/ITIS at the 3000-level or above) approved by the GDD Certificate Coordinator.

**Certificate Total = 15-18 Credit Hours**

---

2021-2022 UNC CHARLOTTE UNDERGRADUATE CATALOG College of Computing and Informatics | 175
Grade Requirements
The certificate program requires all courses taken for the certificate to be passed at the C level or above, and a GPA in all certificate courses of 2.5 or above.

Early Entry: Master of Science in Computer Science
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Minimum 3.3 GPA in the Department of Computer Science
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 2.75 overall undergraduate GPA and 3.0 Junior/Senior GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees. The following are approved course substitutions for Early Entry into the M.S. in Computer Science program:

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
Department of Software and Information Systems

http://sis.uncc.edu

Undergraduate Programs

- B.A. in Computer Science
  - Human-Computer Interaction
  - Information Technology
- B.S. in Computer Science
  - Cybersecurity
  - Software Engineering
  - Web and Mobile Applications
- Minor in Human-Centered Design
- Minor in Interactive Programming
- Minor in Software Development
- Early Entry: M.S. in Cybersecurity
- Early Entry: M.S. in Information Technology

The Department of Software and Information Systems provides a range of courses and concentrations related to the design, management, and security of software systems with an emphasis on information technology. The department offers courses in information technology design and management; software systems design, architecture, integration, and implementation; human centered design and interaction, cybersecurity, health informatics, and intelligent and complex systems.

The Department of Software and Information Systems offers both undergraduate and graduate programs. The undergraduate majors lead to a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) in Computer Science. The Software and Information Systems concentrations included in these degrees described below are technically part of the Computer Science major but for administrative and advising purposes, students completing these concentrations are members of the Department of Software and Information Systems.

To assist with their studies, students have access to advanced computer labs and software where they can practice and experiment in controlled environments. In addition, the department maintains a high degree of interaction with working industry professionals who provide real-world expertise and experience.

Bachelor of Science in Computer Science with Concentration in Cybersecurity

This concentration is designed to best prepare students to match the diverse requirements of employers. It also prepares students to pursue graduate studies in computing and other related areas.

The B.S. in Computer Science program requires a common set of a computer science courses, as well as a second concentration in a non-computer science discipline, satisfied by a second major, a minor, or a set of coordinated courses developed through consultation with an advisor. Graduates from the B.S. program are thus expected to have knowledge and skill in computer science plus a complementary discipline to which computing applies.

Admission Requirements

Freshmen
- Minimum GPA: 2.5
- Other Requirements: Admission is competitive for computer science programs and, if admissible, freshmen must present a minimum SAT-Math score of 530 or ACT-Math subscore of 22.

Transfers
- Minimum GPA: 2.5
- Pre-Major/Prerequisite Courses: A grade of C or above is required in any previously attempted Computer Science course. Students must be able to transfer credits for the equivalent of College Algebra.
- Other Requirements: Transfer students must present an overall GPA of at least 2.5 with no grade less than C in Computer Science courses. For internal transfer students, participation in a Change of Major Workshop offered by the CCI Advising Center is required before becoming eligible to declare the Computer Science major.
- Transferable Credit Hours: 24

Degree Requirements

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program. Students majoring in Computer Science should plan on taking the following courses that meet both general education and major requirements:

- MATH 1241 - Calculus I (3) (fulfills Mathematical and Logical Reasoning requirement)
- MATH 1242 - Calculus II (3) (fulfills Mathematical and Logical Reasoning requirement)
- ENGL 2116 - Introduction to Technical Communication (3) (W) (fulfills Communication Skills requirement)
- ITSC 3688 - Computers and Their Impact on Society (3) (O,W) (fulfills Communication Skills requirement)

Graduate study leads to a Master of Science (M.S.) in Information Technology or Cybersecurity. Graduate certificate programs are also available. See the UNC Charlotte Graduate Catalog for information on these graduate programs.
Major Courses (50 credit hours)

Core Courses (26 credit hours)
ITSC 1212 - Introduction to Computer Science I (4)
ITSC 1213 - Introduction to Computer Science II (4)
ITSC 1600 - Computing Professionals (2)
or ITSC 2600 - Computer Science Program, Identity, Career (2)
ITSC 2175 - Logic and Algorithms (3)
or MATH 1165 - Introduction to Discrete Structures (3)
ITSC 2214 - Data Structures and Algorithms (3)
ITSC 3146 - Introduction to Operating Systems and Networking (3)
ITSC 3155 - Software Engineering (3)
ITSC 3181 - Introduction to Computer Architecture (4)

Mathematics and Statistics Courses (6 credit hours)
MATH 2164 - Matrices and Linear Algebra (3)
STAT 2122 - Introduction to Probability and Statistics (3)

Elective Courses in Other Disciplines (15 credit hours)
Select 15 elective credit hours. Courses that count towards this requirement must have a discipline prefix other than ITSC, ITCS, or ITIS. This requirement can be fulfilled by pursuing a/an:

- Minor
- Second major
- Honors program
- Undergraduate certificate
- Set of courses selected by the student that do not satisfy any other degree requirement

Capstone Course (3 credit hours)
Select one of the following:
ITCS 4232 - Game Design and Development Studio (3)
ITIS 4011 - Interaction Design Studio (3)
ITIS 4246 - Competitive Cyber Defense (3)
ITIS 4246 - Competitive Cyber Defense (3)
ITSC 4155 - Software Development Projects (3)
ITSC 4681 - Senior Design I (3)
ITSC 4682 - Senior Design II (3)
ITSC 4750 - Honors Thesis (3)
ITSC 4850 - Senior Project I (3)
ITSC 4851 - Senior Project II (3)
ITSC 4990 - Undergraduate Research (3)
ITSC 4991 - Undergraduate Thesis (3)

Concentration Courses (27 credit hours)

Concentration Required Courses (24 credit hours)
ITCS 3160 - Database Design and Implementation (3)
ITIS 3315 - Web-Based Application Design and Development (3)
ITIS 3200 - Introduction to Information Security and Privacy (3)
ITIS 3246 - IT Infrastructure and Security (3)
ITIS 4166 - Network-Based Application Development (3)
ITIS 4221 - Secure Programming and Penetration Testing (3)
ITIS 4250 - Computer Forensics (3)
ITIS 4260 - Introduction to Security Analytics (3)
or ITIS 4420 - Usable Security and Privacy (3)

Concentration Technical Elective Course (3 credit hours)
Select one elective course from 3000- or 4000-level courses offered by the College of Computing and Informatics, excluding the courses listed above.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
- The GPA requirement for all Computer Science undergraduate degree programs is 2.0 or above in all courses applied to the degree and all courses in the major.
- Students have a limit of 2 attempts per course in the major (plus 1 more by petition). This applies to all courses listed under the Major Courses and Concentration Courses categories of B.S. and B.A. in Computer Science degree programs. The third attempt at a course can only be approved by petition. In addition, a Withdrawal does not count as an attempt, as that effort is already restricted via the Withdrawal limit.
- Students are required to achieve a grade of C or above in all Core Courses within the major, as listed above.

Bachelor of Science in Computer Science with Concentration in Software Engineering
This concentration is designed to best prepare students to match the diverse requirements of employers. It also prepares students to pursue graduate studies in computing and other related areas.

The B.S. in Computer Science program requires a common set of computer science courses, as well as a second concentration in a non-computer science discipline, satisfied by a second major, a minor, or a set of coordinated courses developed through consultation with an advisor. Graduates from the B.S. program are thus expected to have knowledge and skill in computer science plus a complementary discipline to which computing applies.

Admission Requirements
Freshmen
- Minimum GPA: 2.5
- Other Requirements: Admission is competitive for computer science programs and, if admissible, freshmen must present a minimum SAT-Math score of 530 or ACT-Math subscore of 22.

Transfers
- Minimum GPA: 2.5
- Pre-Major/Prerequisite Courses: A grade of C or above is required in any previously attempted Computer Science course. Students must be able to transfer credits for the equivalent of College Algebra.
- Other Requirements: Transfer students must present an overall GPA of at least 2.5 with no grade less than C in Computer Science courses. For internal transfer students, participation in a Change of Major Workshop offered by the CCI Advising Center is required before becoming eligible to declare the Computer Science major.
- Transferable Credit Hours: 24
Degree Requirements

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program. Students majoring in Computer Science should plan on taking the following courses that meet both general education and major requirements:

- MATH 1241 - Calculus I (3) (fulfills Mathematical and Logical Reasoning requirement)
- MATH 1242 - Calculus II (3) (fulfills Mathematical and Logical Reasoning requirement)
- ENGL 2116 - Introduction to Technical Communication (3) (W) (fulfills Communication Skills requirement)
- ITSC 3688 - Computers and Their Impact on Society (3) (O, W) (fulfills Communication Skills requirement)

Major Courses (50 credit hours)
Core Courses (26 credit hours)
- ITSC 1212 - Introduction to Computer Science I (4)
- ITSC 1213 - Introduction to Computer Science II (4)
- ITSC 1600 - Computing Professionals (2)
- or ITSC 2600 - Computer Science Program, Identity, Career (2)
- ITSC 2175 - Logic and Algorithms (3)
- or MATH 1165 - Introduction to Discrete Structures (3)
- ITSC 2214 - Data Structures and Algorithms (3)
- ITSC 3146 - Introduction to Operating Systems and Networking (3)
- ITSC 3155 - Software Engineering (3)
- ITSC 3181 - Introduction to Computer Architecture (4)

Mathematics and Statistics Courses (6 credit hours)
- MATH 2164 - Matrices and Linear Algebra (3)
- STAT 2122 - Introduction to Probability and Statistics (3)

Elective Courses in Other Disciplines (15 credit hours)
Select 15 elective credit hours. Courses that count towards this requirement must have a discipline prefix other than ITSC, ITCS, or ITIS. This requirement can be fulfilled by pursuing a/an:

- Minor
- Second major
- Honors program
- Undergraduate certificate
- Set of courses selected by the student that do not satisfy any other degree requirement

Capstone Course (3 credit hours)
Select one of the following:
- ITCS 4232 - Game Design and Development Studio (3)
- ITIS 4011 - Interaction Design Studio (3)
- ITIS 4246 - Competitive Cyber Defense (3)
- ITSC 4155 - Software Development Projects (3)
- ITSC 4681 - Senior Design I (3)
- ITSC 4682 - Senior Design II (3)
- ITSC 4750 - Honors Thesis (3)
- ITSC 4850 - Senior Project I (3)
- ITSC 4851 - Senior Project II (3)
- ITSC 4990 - Undergraduate Research (3)
- ITSC 4991 - Undergraduate Thesis (3)

Concentration Courses (27 credit hours)
Required Concentration Courses (12 credit hours)
- ITCS 3160 - Database Design and Implementation (3)
- ITIS 3135 - Web-Based Application Design and Development (3)
- ITIS 3310 - Software Architecture and Design (3)
- ITIS 4221 - Secure Programming and Penetration Testing (3)

Elective Concentration Courses (9 credit hours)
Select three courses from the lists below. (The categories are only to indicate sub-areas of this concentration; the courses selected do not need to be within one category.)

Software Design Courses
- ITCS 3112 - Design and Implementation of Object-Oriented Systems (3)
- ITIS 3130 - Human-Centered Design (3)
- ITIS 4350 - Rapid Prototyping (3)
- ITIS 4440 - Interactive Systems Design and Implementation (3)

Software Development Courses
- ITIS 3300 - Software Requirements and Project Management (3)
- ITIS 3320 - Introduction to Software Testing and Assurance (3)
- ITIS 4166 - Network-Based Application Development (3)
- ITIS 4180 - Mobile Application Development (3)

Technical Elective Concentration Courses (6 credit hours)
Select two elective courses from the 3000- or 4000-levels of courses offered by the College of Computing and Informatics.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
The GPA requirement for all Computer Science undergraduate degree programs is 2.0 or above in all courses applied to the degree and all courses in the major.

Students have a limit of 2 attempts per course in the major (plus 1 more by petition). This applies to all courses listed under the Major Courses and Concentration Courses categories of B.S. and B.A. in Computer Science degree programs. The third attempt at a course can only be approved by petition. In addition, a Withdrawal does not count as an attempt, as that effort is already restricted via the Withdrawal limit.

Students are required to achieve a grade of C or above in all Core Courses within the major, as listed above.

Bachelor of Science in Computer Science with Concentration in Web and Mobile Applications
This concentration is designed to best prepare students to match the diverse requirements of employers. It also prepares students to pursue graduate studies in computing and other related areas.

The B.S. in Computer Science program requires a common set of a computer science courses, as well as a second concentration in a non-computer science discipline, satisfied by a second major, a minor, or a
set of coordinated courses developed through consultation with an advisor. Graduates from the B.S. program are thus expected to have knowledge and skill in computer science plus a complementary discipline to which computing applies.

Admission Requirements
Freshmen
- Minimum GPA: 2.5
- Other Requirements: Admission is competitive for computer science programs and, if admissible, freshmen must present a minimum SAT-Math score of 530 or ACT-Math subscore of 22.

Transfers
- Minimum GPA: 2.5
- Pre-Major/Prerequisite Courses: A grade of C or above is required in any previously attempted Computer Science course. Students must be able to transfer credits for the equivalent of College Algebra.
- Other Requirements: Transfer students must present an overall GPA of at least 2.5 with no grade less than C in Computer Science courses. For internal transfer students, participation in a Change of Major Workshop offered by the CCI Advising Center is required before becoming eligible to declare the Computer Science major.
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program. Students majoring in Computer Science should plan on taking the following courses that meet both general education and major requirements:

- MATH 1241 - Calculus I (3) (fulfills Mathematical and Logical Reasoning requirement)
- MATH 1242 - Calculus II (3) (fulfills Mathematical and Logical Reasoning requirement)
- ENGL 2116 - Introduction to Technical Communication (3) (W) (fulfills Communication Skills requirement)
- ITSC 3688 - Computers and Their Impact on Society (3) (O,W) (fulfills Communication Skills requirement)

Major Courses (50 credit hours)
Core Courses (26 credit hours)
- ITSC 1212 - Introduction to Computer Science I (4)
- ITSC 1213 - Introduction to Computer Science II (4)
- ITSC 1600 - Computing Professionals (2)
  or ITSC 2600 - Computer Science Program, Identity, Career (2)
- ITSC 2175 - Logic and Algorithms (3)
  or MATH 1165 - Introduction to Discrete Structures (3)
- ITSC 2214 - Data Structures and Algorithms (3)
- ITSC 3146 - Introduction to Operating Systems and Networking (3)
- ITSC 3155 - Software Engineering (3)
- ITSC 3181 - Introduction to Computer Architecture (4)

Mathematics and Statistics Courses (6 credit hours)
- MATH 2164 - Matrices and Linear Algebra (3)
- STAT 2122 - Introduction to Probability and Statistics (3)

Elective Courses in Other Disciplines (15 credit hours)
Select 15 elective credit hours. Courses that count towards this requirement must have a discipline prefix other than ITSC, ITCS, or ITIS. This requirement can be fulfilled by pursuing a/an:
- Minor
- Second major
- Honors program
- Undergraduate certificate
- Set of courses selected by the student that do not satisfy any other degree requirement

Capstone Course (3 credit hours)
Select one of the following:
- ITCS 4232 - Game Design and Development Studio (3)
- ITIS 4011 - Interaction Design Studio (3)
- ITIS 4246 - Competitive Cyber Defense (3)
- ITSC 4155 - Software Development Projects (3)
- ITSC 4681 - Senior Design I (3)
- ITSC 4682 - Senior Design II (3)
- ITSC 4750 - Honors Thesis (3)
- ITSC 4850 - Senior Project I (3)
- ITSC 4851 - Senior Project II (3)
- ITSC 4990 - Undergraduate Research (3)
- ITSC 4991 - Undergraduate Thesis (3)

Concentration Courses (27 credit hours)
- ITIS 3130 - Human-Centered Design (3)
- ITIS 3135 - Web-Based Application Design and Development (3)
- ITIS 3200 - Introduction to Information Security and Privacy (3)
- ITIS 3300 - Software Requirements and Project Management (3)
- ITIS 3310 - Software Architecture and Design (3)
- ITIS 3320 - Introduction to Software Testing and Assurance (3)
- ITIS 4166 - Network-Based Application Development (3)
- ITIS 4440 - Interactive Systems Design and Implementation (3)
- ITIS 4421 - Secure Programming and Penetration Testing (3)
- ITCS 3160 - Database Design and Implementation (3)

Concentration Technical Elective Courses (3 credit hours)
Select elective courses from the 3000- or 4000-levels of courses offered by the College of Computing and Informatics.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
The GPA requirement for all Computer Science undergraduate degree programs is 2.0 or above in all courses applied to the degree and all courses in the major.

Students have a limit of 2 attempts per course in the major (plus 1 more by petition). This applies to all courses listed under the Major Courses and Concentration Courses categories of B.S. and B.A. in Computer Science degree programs. The third attempt at a course can only be approved by petition. In addition, a Withdrawal does not count as an attempt, as that effort is already restricted via the Withdrawal limit.

Students are required to achieve a grade of C or above in all Core Courses within the major, as listed above.
Bachelor of Arts in Computer Science with Concentration in Human-Computer Interaction

The Concentration in Human-Computer Interaction emphasizes the design, development, and implementation of interactive systems from a human-centric perspective. This concentration prepares students for a wide variety of jobs or graduate studies.

The B.A. in Computer Science program requires a compact set of a computer science core, as well as a second concentration in a non-computer science discipline, satisfied by a second major, a minor, or a set of coordinated courses developed through consultation with an advisor. Graduates from the B.A. program are thus expected to have knowledge and skill in computer science plus a complementary discipline to which computing applies. The emphasis in this program is less theoretical/mathematical, and more on the applied side of computing.

Admission Requirements

Freshmen
- Minimum GPA: 2.5
- Other Requirements: Admission is competitive for computer science programs and, if admissible, freshmen must present a minimum SAT-Math score of 530 or ACT-Math subscore of 22.

Transfers
- Minimum GPA: 2.5
- Pre-Major/Prerequisite Courses: A grade of C or above is required in any previously attempted Computer Science course. Students must be able to transfer credits for the equivalent of College Algebra.

- ITSC 4851 - Senior Project II (3)
- ITSC 4990 - Undergraduate Research (3)
- ITSC 4991 - Undergraduate Thesis (3)

Concentration Courses (30 credit hours)
Concentration Core Courses (18 credit hours)
ITIS 3130 - Human-Centered Design (3)
ITIS 3135 - Web-Based Application Design and Development (3)
ITIS 3200 - Introduction to Information Security and Privacy (3)
ITIS 3216 - Introduction to Cognitive Science (3)
ITIS 4350 - Rapid Prototyping (3)
ITIS 4440 - Interactive Systems Design and Implementation (3)

Concentration Technical Elective Courses (12 credit hours)
Select four elective courses from 3000- or 4000-level courses offered by the College of Computing and Informatics, excluding the courses listed above.

Unrestricted Elective Courses (9 credit hours)
Select elective courses in consultation with advisor.

Degree Total = 120 Credit Hours

Grade Requirements
- The GPA requirement for all Computer Science undergraduate degree programs is 2.0 or above in all courses applied to the degree and all courses in the major.
- Students have a limit of 2 attempts per course in the major (plus 1
Bachelor of Arts in Computer Science with Concentration in Information Technology

The Concentration in Information Technology emphasizes usability, security, and reliability of IT infrastructures, as well as writing and communications skills. This concentration prepares students for a wide variety of jobs or graduate studies.

The B.A. in Computer Science program requires a compact set of a computer science core, as well as a second concentration in a non-computer science discipline, satisfied by a second major, a minor, or a set of coordinated courses developed through consultation with an advisor. Graduates from the B.A. program are thus expected to have knowledge and skill in computer science plus a complementary discipline to which computing applies. The emphasis in this program is less theoretical/mathematical, and more on the applied side of computing.

Admission Requirements

Freshmen

- **Minimum GPA:** 2.5
- **Other Requirements:** Admission is competitive for computer science programs and, if admissible, freshmen must present a minimum SAT-Math score of 530 or ACT-Math subscore of 22.

Transfers

- **Minimum GPA:** 2.5
- **Pre-Major/Prerequisite Courses:** A grade of C or above is required in any previously attempted Computer Science course. Students must be able to transfer credits for the equivalent of College Algebra.
- **Other Requirements:** Transfer students must present an overall GPA of at least 2.5 with no grade less than C in Computer Science courses. For internal transfer students, participation in a Change of Major Workshop offered by the CCI Advising Center is required before becoming eligible to declare the Computer Science major.
- **Transferable Credit Hours:** 24

Degree Requirements

General Education Courses (37-41 credit hours)

For details on required courses, refer to the General Education program. Students majoring in Computer Science should plan on taking the following courses that meet both general education and major requirements:

- **MATH 1120 - Calculus (3)** *(fulfills Mathematical and Logical Reasoning requirement)*
- **STAT 1222 - Introduction to Statistics (3)** *(fulfills Mathematical and Logical Reasoning requirement)*
- **ENGL 2116 - Introduction to Technical Communication (3)** *(W)* *(fulfills Communication Skills requirement)*

Major Courses (37 credit hours)

Core Courses (16 credit hours)

- **ITSC 1212 - Introduction to Computer Science I (4)**
- **ITSC 1213 - Introduction to Computer Science II (4)**
- **ITSC 1600 - Computing Professionals (2)**
- **ITSC 2600 - Computer Science Program, Identity, Career (2)**

Concentration Core Courses (33 credit hours)

- **ITSC 2175 - Logic and Algorithms (3)**
- **ITSC 2214 - Data Structures and Algorithms (3)**
- **ITSC 3688 - Computers and Their Impact on Society (3)** *(O,W)* *(fulfills Communication Skills requirement)*

Advanced Statistics Course (3 credit hours)

- **STAT 2223 - Elements of Statistics II (3)** *(fulfills Logical Reasoning requirement)*

Elective Courses in Other Disciplines (15 credit hours)

Select 15 elective credit hours. Courses that count towards this requirement must have a discipline prefix other than ITSC, ITCS, or ITIS. This requirement can be fulfilled by pursuing a/an:

- Minor
- Second major
- Honors program
- Undergraduate certificate
- Set of courses selected by the student that do not satisfy any other degree requirement

Capstone Course (3 credit hours)

Select one of the following:

- **ITCS 4232 - Game Design and Development Studio (3)**
- **ITIS 4011 - Interaction Design Studio (3)**
- **ITIS 4246 - Competitive Cyber Defense (3)**
- **ITSC 4155 - Software Development Projects (3)**
- **ITSC 4681 - Senior Design I (3)**
- **ITSC 4682 - Senior Design II (3)**
- **ITSC 4750 - Honors Thesis (3)**
- **ITSC 4850 - Senior Project I (3)**
- **ITSC 4851 - Senior Project II (3)**
- **ITSC 4990 - Undergraduate Research (3)**
- **ITSC 4991 - Undergraduate Thesis (3)**

Concentration Technical Elective Courses (18 credit hours)

Select six elective courses from 3000- or 4000-level courses offered by the College of Computing and Informatics, excluding the courses listed above.

Unrestricted Elective Courses (6 credit hours)

Select courses in consultation with advisor.

Degree Total = 120 Credit Hours
Grade Requirements
- The GPA requirement for all Computer Science undergraduate degree programs is 2.0 or above in all courses applied to the degree and all courses in the major.

- Students have a limit of 2 attempts per course in the major (plus 1 more by petition). This applies to all courses listed under the Major Courses and Concentration Courses categories of B.S. and B.A. in Computer Science degree programs. The third attempt at a course can only be approved by petition. In addition, a Withdrawal does not count as an attempt, as that effort is already restricted via the Withdrawal limit.

- Students are required to achieve a grade of C or above in all Core Courses within the major, as listed above.

Minor in Human-Centered Design
The Minor in Human-Centered Design provides students with the knowledge and skills in the application of human-centered design methods.

Admission Requirements
- Approval of Department of Software and Information Systems

Minor Requirements
Required Courses (13 credit hours)
ITSC 1110 - Introduction to Computer Science Principles (3)
ITSC 1212 - Introduction to Computer Science I (4)
ITIS 3130 - Human-Centered Design (3)
ITIS 4350 - Rapid Prototyping (3)

Elective Courses (3 credit hours)
Select one of the following:
ITCS 3216 - Introduction to Cognitive Science (3)
ITCS 4122 - Visual Analytics (3)

Grade Requirements
All courses must be completed with a grade of C or above.

Minor Total = 16 Credit Hours

Minor in Interactive Programming
The Minor in Interactive Programming provides students with the knowledge and skills in programming using event-driven languages. Students gain hands-on knowledge of how to develop web and software applications and understand critical issues in design, development, and implementation.

Admission Requirements
- Approval of Department of Software and Information Systems

Minor Requirements
Required Courses (11 credit hours)
ITSC 1212 - Introduction to Computer Science I (4)
ITSC 1213 - Introduction to Computer Science II (4)
ITSC 2214 - Data Structures and Algorithms (3)

1st Elective Course (3 credit hours)
Select one of the following:
ITIS 3130 - Human-Centered Design (3)
ITIS 4350 - Rapid Prototyping (3)

2nd Elective Course (3 credit hours)
Select one of the following:
ITIS 3135 - Web-Based Application Design and Development (3)
ITIS 4180 - Mobile Application Development (3)
ITIS 4440 - Interactive Systems Design and Implementation (3)

Grade Requirements
All courses must be completed with a grade of C or above.

Minor Total = 17 Credit Hours

Minor in Software Development
The Minor in Software Development provides students with the knowledge and skills in software development using programming languages. Students gain hands-on knowledge of software development processes.

Admission Requirements
- Approval of Department of Software and Information Systems

Minor Requirements
Required Courses (14 credit hours)
ITSC 1212 - Introduction to Computer Science I (4)
ITSC 1213 - Introduction to Computer Science II (4)
ITSC 2214 - Data Structures and Algorithms (3)
ITSC 3155 - Software Engineering (3)
Elective Course (3 credit hours)
Select one of the following:
- ITIS 3130 - Human-Centered Design (3)
- ITIS 3135 - Web-Based Application Design and Development (3)
- ITIS 4166 - Network-Based Application Development (3)
- ITIS 4180 - Mobile Application Development (3)
- ITIS 4350 - Rapid Prototyping (3)

Grade Requirements
All courses must be completed with a grade of C or above.

Minor Total = 17 Credit Hours

Early Entry: Master of Science in Cybersecurity
Exceptional undergraduate students at UNC Charlotte may be accepted into the M.S. in Cybersecurity and begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Acceptable scores on the appropriate graduate standardized test (e.g., GRE)
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA and a 3.0 Junior/Senior GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be “double counted” toward both the undergraduate and graduate degrees. The following are approved course substitutions for Early Entry into the M.S. in Computer Science program:

<table>
<thead>
<tr>
<th>Graduate Level Substitutes</th>

More Information

For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Early Entry: Master of Science and Graduate Certificate in Health Informatics and Analytics

For details, see the College of Health and Human Services section of this Catalog under the "Department of Public Health Sciences" heading.
Cato
College of
Education
The mission of the Cato College of Education at UNC Charlotte is to prepare highly effective and ethical professionals who have a positive impact on children, youth, families, community, and schools and who are successful in urban and other diverse settings. This mission is accomplished through teaching, research, and community engagement that lead to improved practice and by working in partnership with schools, communities, and university colleagues.

The College of Education consists of these departments:
- Department of Counseling
- Department of Educational Leadership
- Department of Middle, Secondary, and K-12 Education
- Department of Reading and Elementary Education
- Department of Special Education and Child Development

### Degree Programs

#### Majors
- Child and Family Development: (Birth-Kindergarten licensure)
- Elementary Education (grades K-6 licensure)
- Middle Grades Education (grades 6-9 licensure)
- Special Education: General Curriculum (grades K-12 licensure)
- Special Education: Adapted Curriculum (grades K-12 licensure)
- Special Education and Elementary Education (grades K-6 licensure) (Dual Major)

#### Minors
- Applied Understandings in Global Education
- Child and Family Development (non-licensure)
- Foreign Language Education (grades K-12 licensure)*
- Reading Education (grades K-12 licensure)**
- Secondary Education (grades 9-12 licensure)***
- Teaching English as a Second Language (grades K-12 licensure)**
- Urban Youth and Communities (non-licensure)

*The Minor in Foreign Language Education, offered in collaboration with the Department of Languages and Culture Studies in the College of Liberal Arts & Sciences, leads to teacher licensure in one of the following areas (grades K-12):
- French
- German
- Japanese
- Spanish

**The Reading Education and Teaching English as a Second Language license can only be added to another licensure area.

***The Minor in Secondary Education, offered in collaboration with appropriate departments in the College of Liberal Arts & Sciences, leads to licensure to teach in one of the following areas of Secondary Education (grades 9-12):
- Biology
- Comprehensive Science
- Comprehensive Social Studies
- Chemistry
- Earth Science
- English
- Mathematics
- Physics

In collaboration with the College of Arts + Architecture, the Cato College of Education offers professional education coursework that leads to licensure to teach in one of the following areas (grades K-12):
- Art
- Dance
- Music
- Theatre

### Accreditation
See the “Academic Programs” section of this Catalog for details about program accreditation.
Program Responsibilities
The Cato College of Education has these undergraduate program responsibilities:

- To develop, deliver, and evaluate high quality undergraduate programs that prepare teachers and other professional personnel for schools and related agencies.
- To operate programs that meet the standards of external governing, licensing, and accrediting agencies.
- To address the culturally diverse educational needs of its particular region.
- To initiate and support activities in global perspectives of its faculty and students.
- To respond effectively to the problems and needs of children, their families, and professionals in schools and related agencies.

Program Values
The Cato College of Education holds these program values:

- We are a community of scholars who are committed individually and collectively to creating learning opportunities and environments where we enhance the capacity of our students to have a positive impact on children, youth, communities, families and schools. We are committed to meeting the developmental and educational needs of our students and to maximize the growth, development, and learning of each individual.
- In our programs of study, we are committed to high quality programs that are standards-based, to the ongoing assessment of candidates and programs for the purpose of continuous improvement, to collaboration and outreach, and to the highest standards of professional practice and scholarship. We are committed to international understanding and involvement.
- In fulfilling our professional roles, we are committed to the generation, dissemination, and application of knowledge. We, therefore, expect that faculty will be teacher-scholars and that they will maintain a balanced commitment to teaching, research, and service. We have a strong commitment to academic excellence and exceptional quality in all that we do.
- In our dealings with each other, our students, and our professional colleagues in schools and communities, we are committed to valuing diversity and to speaking out against oppression. We are committed to thoughtfulness, reflection, flexibility, and the exploration of new ideas. We are committed to openness, honesty, forthrightness, and the highest standards of integrity and ethical behavior. We strive to be collegial, collaborative, human, and respectful of others, even when we are not in total agreement with their views or with their work, and we are committed to being sensitive to and supportive of others, including students, staff, faculty, and our professional colleagues in the community.

Conceptual Framework
Professional Educators: Advancing Educational Equity through Excellence and Engagement, the Conceptual Framework for Professional Education Programs at UNC Charlotte, has a strong emphasis on the Cato College of Education’s updated vision to be a national leader in educational equity, excellence, and engagement. During coursework, early field experiences, and clinical practice candidates have multiple opportunities to develop the knowledge, skills, and dispositions necessary to produce highly effective and engaged professionals. Our programs seek to develop the proficiencies that are indicated below:

- Professional Responsibilities
  - Ethics
  - Professional Identify and Continuous Growth
  - Leadership
  - Collaboration
  - Policies, Laws, Standards, and Issues
- Dispositions
  - Advocacy
  - Self-Awareness
  - Reflective Practice
  - Social Justice
- Learners and Learning
  - Positive Impact and Accountability
  - Cultural Competence and Culturally Sustaining Practice
  - 21st Century Literacies, Competencies, and Character Qualities
- Effective Pedagogy
  - Specialty Area Knowledge
  - Pedagogical Knowledge
  - Research-Based Practice
  - Research Skills

Honors in Education
The purpose of the Honors in Education program is to identify exceptional undergraduate students who, through uncompromising probity and intellectual vigor, deserve formal recognition of their extraordinary academic performance, skills, and dispositions. While many education students exhibit noteworthy behavior and achieve high academic standing, only honors students receive “Honors in Education” recognition recorded on their official academic transcript.
Admission Requirements
Admission to the Honors in Education program requires the following:

1) Declared major in a discipline within the Cato College of Education
2) Admission to a teacher education or licensure program with a minimum 3.50 cumulative GPA
3) Completion of 15 credit hours of coursework (including EDUC 1100 or EDUC 2100 or MDSK 2100) prior to application for the Honors in Education Program
4) Completed application form and recommendation by academic advisor and faculty member
5) A one page statement explaining:
   a) The candidate’s academic/career goals in the field of education
   b) How the Honors in Education program is relevant to the candidate’s academic and/or career interests

It is recommended that before applying to the Honors in Education program, candidates should meet with their academic advisors and/or Chair of the Education Honors Committee to discuss their interest, motivation, and academic plan of study.

Certification Requirements

Required Courses (6 credit hours)
- EDUC 3789 - Seminar: Honors in Education (3)
- RSCH 4101 - Education Research Methods (3)

Capstone Course (3 credit hours)
Select one of the following:
- CUYC 3600 - Community Engagement Capstone Seminar (3) (SL)
- EDUC 3790 - Honors Thesis in Education (3)
- EDUC 4201 - Education and Globalization: Theory and Practice Seminar (3)

Other Requirements
- Have the potential for or demonstrated high task commitment, achievement, and/or creativity in an area of study, research, leadership, or service
- Be formally admitted to the Honors in Education program
- Choose one Honors track: Research Thesis, Service/Experiential Learning, or Study Abroad (requires candidate to complete a study abroad or equivalent domestic experience)
- Submit a written report to the Honors Project Review Committee
- Orally present and defend the Honors Project before the Honors Project Review Committee (research advisor, thesis reader, and any invited guests)
- File for honors candidacy with the Education Honors Committee and the Honors College in accordance with guidelines set by the Honors Council and the College of Education

Grade Requirements
- EDUC 3789 and RSCH 4101 must be completed with a grade of A or B
- CUYC 3600, EDUC 3790, or EDUC 4201 must be completed with a grade of A
- Maintain a cumulative minimum GPA of 3.5 in all UNC Charlotte coursework

Teacher Education Policies and Procedures

Admission to Teacher Education Programs
See the specific degree program for admission requirements. Information about additional requirements and procedures may be obtained in the Office of Teacher Education Advising and Licensure (TEAL) in the Cato College of Education. Students in Art, Dance, Music, or Theatre should contact the Arts Education Specialist for specific admission requirements in their major department.

Professional Dispositions
Professional dispositions are consistent patterns of behavior or habits that may impact teaching effectiveness. At the time of entry to the program, all students are asked to sign a dispositions statement that fully identifies and describes behavior patterns that are appropriate and inappropriate in professional conduct. Education students are expected to demonstrate positive professional dispositions in all of their University activities (courses, clinicals, etc.).

Retention in Teacher Education Programs
There are three minimum requirements for retention in a teacher education program:
1.) A grade of C or above (a) in all professional education courses and (b) in all courses in the student’s area of teaching specialization
2.) GPA of 2.5 or above (a) overall, (b) in all professional education courses, and (c) in the student’s area of teaching specialization
3.) Disclosure of any criminal charges since admission to the program
Some teacher education programs have additional or higher requirements for retention. Information about these additional requirements can be obtained in the program’s home department. **Note:** Requirements for admission to student teaching are higher than requirements for retention in the program.

**Admission to Yearlong Internships and Student Teaching**

Most undergraduate teacher education programs incorporate student teaching in a yearlong internship that spans a student’s Senior year. The yearlong internship consists of one semester of intensive part-time clinical work in the classroom while completing coursework on campus. This clinical semester is followed by a semester of full-time student teaching, usually completed in the same classroom.

Students must apply and be formally admitted to a yearlong internship two semesters prior to the start of student teaching, which is typically in the first or second semester of the Junior year. In addition, during the first semester of their yearlong internship, students are screened for eligibility for student teaching. The minimum requirements for admission to student teaching are as follows:

1.) Senior status
2.) Prior admission to a teacher education program
3.) Completion of all other course work in a student’s program of study
4.) An overall GPA of 2.50 or above in the student’s total program of study
5.) Grades of C or above in all professional education courses and a GPA of 2.75 or above in those courses
6.) Grades of C or above in all courses in the student’s area of teaching specialization and a GPA of 2.75 or above in those courses
7.) Recommendation from the student’s faculty advisor(s) certifying readiness to student teach

Some teacher education programs have additional requirements for admission to the yearlong internship and student teaching. Information about those requirements can be obtained from the program’s home department. Information about procedures and deadlines for applying for yearlong internships and student teaching in all programs can be obtained in the Office of School and Community Partnerships or online at osacp.uncc.edu.

**Graduation and Licensure Requirements**

For a degree to be conferred, a student must successfully complete all program requirements, which at a minimum includes:

- Grades of C or above in all professional education classes

For a recommendation of licensure:

- A passing grade in student teaching with recommendation from the clinical educator, school principal, and Faculty Site Coordinator
- Passing scores on all relevant NC State Board of Education-approved licensure assessments, including edTPA

**Academic Advising**

The Office of Teacher Education Advising and Licensure (TEAL) serves and advises all students involved in teacher education programs prior to their admission to the major (pre-education students). TEAL is responsible for:

- Promotion of teacher education programs and recruitment of students prior to their admission to UNC Charlotte
- Collaboration with pre-education students and advisors at community colleges in North Carolina
- Orientation and academic advisement of pre-education students prior to their admission to a specific teacher education program (which typically occurs during their Sophomore year)
- Collaboration with departments within the College of Arts + Architecture and the College of Liberal Arts & Sciences concerning admission to teacher education programs when those departments have teacher education tracks or degrees
- Academic support services for both students and their faculty advisors as students admitted to a teacher education program progress through their programs, complete student teaching, and apply for licensure
- Management of all applications for teacher licensure

In collaboration with academic departments involved in teacher education, the TEAL Office is the Cato College of Education’s central source of information about academic program requirements; criteria and procedures for admission to a specific teacher education program; student advising before admission to teacher education; schedules and applications for taking NC Foundations of Reading and General Curriculum, Praxis Core, and Praxis Subject Assessment examinations; requirements and procedures for obtaining licensure in North Carolina (or in other states that have reciprocity agreements with North Carolina); and final audits to ensure completion of all program and licensure requirements. For more details, visit teal.uncc.edu.
Support Offices and Resources
Center for Educational Measurement and Evaluation
The Center for Educational Measurement and Evaluation (CEME) is a collaborative research center within the College of Education. CEME provides program evaluation services and statistical, methodological, and measurement expertise to schools and related agencies. Through CEME, faculty and students engage with educators in mutually beneficial projects that lead to evidence-based practices and improved educational outcomes and policy. Visit ceme.uncc.edu.

Center for Science, Technology, Engineering, and Mathematics Education
The Center for Science, Technology, Engineering, and Mathematics Education (CSTEM) sponsors a wide variety of programs and projects that involve pre-service and in-service teachers and are designed to enhance the quality of instruction in science, technology, engineering, and mathematics, for both pre-college and university students. Visit education.uncc.edu/cstem.

Office of School and Community Partnerships
The Office of School and Community Partnerships (OSCP) provides high quality learning experiences for pre-service educators and cutting edge professional development for career practitioners by fostering collaborative relationships with diverse schools, public agencies, and multiple constituencies. OSCP collaborates with these stakeholders to ensure successful clinical and internship experiences for education candidates and continuing education opportunities that meet and exceed education standards. The individual needs of the pre-college candidate, teacher-in-training, and career professional are prioritized to ensure equity, excellence, and engagement throughout all programming sponsored by OSCP. Visit osacp.uncc.edu for more information.

Special Facilities and Resources
Examples that support the work of both faculty and students in undergraduate teacher education programs include:

- The Cato College of Education Building includes classrooms for reading/language arts, science/mathematics, social studies, and student study rooms.
- The freshman Education Learning Community is a one-year program for students who wish to become teachers. Community members take some General Education courses as a cohort group and participate in social activities, community service, and professional development activities.
- The Cato College of Education has partnerships with the Partner Schools Network that consists of schools in the region, which are public schools that work closely with the College to provide excellent clinical experience opportunities.
- The Atkins Library supports teacher education programs with a large children’s literature collection and curriculum and instructional materials. Visit library.uncc.edu for details on additional available resources.

Financial Aid
A number of scholarships and awards are available to undergraduate students in teacher education. Information about these awards is available online at education.uncc.edu/resources/student-resources/financial-aid, as well as in the Office of Teacher Education Advising and Licensure (TEAL). Awards that recognize the achievements of undergraduate students in teacher education programs are listed below. Additional information about each of these awards can be found at ninerscholars.uncc.edu/scholarshipsearch.

- Alma and Sharon Goudes Education Scholarship
- Bertha and Irving Fishman Scholarship
- Cato Scholars Endowment
- Cato Scholarship for Education
- Dr. Herman Thomas Scholarship in Education
- Eileen Bird Scholarship in Education
- Eve H. Buchanan-Cates and J. Mark Cates Endowed Scholarship for Teachers
- Gloria Moore Jones Education Scholarship
- Hathcock-Humble Legacy Scholarship in Education
- Jane and Rusty Goode Endowment for Educators
- Jane and Rusty Goode Scholarship
- Lula Faye Clegg Memorial Scholarship
- Mary Fary Combs Memorial Scholarship
- MECK Pre-K Early Childhood Scholarship
- Michael Green Family Merit Scholarship
- Middle Grades University Endowed Scholarship
- Military Order of the Purple Heart Scholarship
- NC Alpha Chapter of ADK Memorial Scholarship
- Richard and Jacqueline Whitfield Early Childhood Education Scholarship
- Ronald J. Anderson Memorial Scholarship

Student Organizations
Examples of organizations that are especially relevant to undergraduate students in teacher education programs include:

- Student National Education Association - The Student National Education Association (SNEA), affiliated with the North Carolina Association of Educators (NCAE) and the National Education Association (NEA)
- Student Council for Exceptional Children - The Student Council for Exceptional Children (SCEC), affiliated with the Council for Exceptional Children (CEC)
- College Middle Level Association - The College Middle Level Association promotes excellent teaching in the middle grades and support for middle grades teacher candidates
• Omicron Pi Chapter of Kappa Delta Pi - The Omicron Pi Chapter of Kappa Delta Pi is an international honor society in education for undergraduate and graduate students. To qualify for membership, undergraduate students must have a 3.5 cumulative GPA, 30 credit hours, and admission to teacher education. Graduate students must have a 3.75 cumulative GPA, 18 credit hours, and majoring in a field of education.
Department of Counseling
http://counseling.uncc.edu

Please see the UNC Charlotte Graduate Catalog for graduate programs and degrees related to the Department of Counseling.

Department of Educational Leadership
http://edld.uncc.edu

Undergraduate Programs
- Early Entry: Graduate Certificate in Learning, Design, and Technology, Online Learning and Teaching Concentration

Please see the UNC Charlotte Graduate Catalog for graduate programs and degrees related to the Department of Educational Leadership.

Early Entry: Graduate Certificate in Learning, Design, and Technology, Online Learning and Teaching Concentration

Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Note: GRE scores are not required.

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
Department of Middle, Secondary, and K-12 Education
http://mdsk.uncc.edu

Undergraduate Programs
- B.A. in Middle Grades Education
- Minor in Foreign Language Education (K-12)
- Minor in Secondary Education
- Minor in Teaching English as a Second Language
- Minor in Urban Youth and Communities
- Early Entry: Graduate Certificate in Foreign Language Education

The Department of Middle, Secondary, and K-12 Education offers programs leading to a Bachelor of Arts degree in Middle Grades Education; Minors in Secondary Education, Foreign Language Education FLED, and Teaching English as a Second Language (TESL); teaching licensure in Middle Grades, Secondary, and K-12 Education (foreign language and English as a second language) through Graduate Certificate in Teaching and Master of Arts in Teaching Programs; a Master’s of Education degree in Curriculum and Instruction with Concentrations in Middle Grades Education, Secondary Education, and Teaching English as a Second Language; and a Ph.D. in Curriculum and Instruction. (See the UNC Charlotte Graduate Catalog for details on the graduate programs.)

More than ever, the teaching profession offers college graduates exciting opportunities and challenges. The undergraduate teacher education programs offered by the department provide the first crucial step in career development for aspiring teachers of grades 6-9 (middle grades), 9-12 (secondary), and K-12 (foreign languages and English as a second language).

Bachelor of Arts in Middle Grades Education
The B.A. program in Middle Grades Education qualifies graduates for the Standard Professional 1 (SPI) Professional Educator’s License in two of the following four content areas in grades 6-9: English language arts, mathematics, science, or social studies. Graduates of the program are prepared to meet the North Carolina Professional Teaching Standards and the ten Interstate New Teachers Assessment and Support Consortium (INTASC) Standards for new teachers in Content Pedagogy, Student Development, Diverse Learners, Multiple Instructional Strategies, Motivation and Management, Communication and Technology, Planning, Assessment, Reflective Practice, and School and Community Involvement. Graduates have specific coursework and clinical experiences in a variety of settings in order to learn and apply evidence-based knowledge and practices in the field of adolescent development and middle grades education.

Admission Requirements (Pre-Education Foundational) (6-7 credit hours)

Freshmen and Transfers
Minimum criteria for Admission to the MDSK program:
- Completion of the following courses with a minimum grade of a C by the end of the semester of application
  - EDUC 1100 - Foundations of Education and Diversity in Schools - Prospect Curriculum (4)
  - or - EDUC 2100 - Foundations of Education and Diversity in Schools (3)
  - SPED 2100 - Exceptionality in Schools and Society (3)
- An overall GPA of 2.7
- A passing score on the PRAXIS Core exam or acceptable alternatives (SAT or ACT scores)
- 30 credit hours
- Pass a criminal background check (completed at time of application in TEAL)
- Signed Statement of Commitment to Professional Dispositions
- Approval of the Chair (or his or her designee) of the department that offers the program

Declaration of Major: The Middle Grades Education major is intended to be started in the second semester of Sophomore year; students should plan to declare the major no later than the first semester of the Sophomore year. Students must complete an “Application for Admission to a Teacher Education Program” in the Office of Teacher Education Advising and Licensure (TEAL) at the Cato College of Education. Students must apply for admission to a specific teacher education program and complete the admissions process in order to enroll in any professional education courses at the 3000 level or above.

Degree Requirements
The Major in Middle Grades Education leading to the B.A. degree requires a minimum of 120-125 credit hours.

General Education Courses (31-35 credit hours)
The course requirements vary with a student’s academic concentration. In some concentrations, courses may count for both General Ed and the requirements of the concentration.

For details on required courses, refer to the General Education program. Students in this major should plan on taking the following courses that meet general education requirements and also satisfy courses in one of the concentration areas within the major:

Science Concentration
Select any two courses listed in the concentration to meet both Natural Science and concentration requirements.

Mathematics Concentration
Select the following to meet both Mathematics and Logical Reasoning and concentration requirements:
- MATH 1120 - Calculus (3)
- STAT 1220 - Elements of Statistics I (BUSN) (3)
- STAT 1222 - Introduction to Statistics (3)
Core Courses (14 credit hours)
Select two of four academic concentrations to complete - the combinations may include: math/science; math/English; math/social studies; science/English; science/social studies; or English/social studies. Admission to Teacher Education and advisor approval are required in order to register for any of the following courses.

- MDSL 3130 - The Early Adolescent Learner (3)
- MDSL 3131 - The Philosophy and Curriculum of Middle Grades Education (3)
- MDSL 4440 - Student Teaching/Seminar: 6-9 Middle Grades Education (12) (O,W)
- MDSL 3100 - Inclusive Classrooms (3)
- MDSL 3151 - Instructional Design and Technology Integration (3) (W)
- MDSL 4210 - Classroom Leadership (2)

Methodology Courses (6 credit hours)
Select two of the following methodology courses that align with the intended areas of licensure:

- MDSL 4251 - Teaching Science to Middle and Secondary School Learners (3)
- MAED 4252 - Teaching Mathematics to Secondary School Learners (3)
- MDSL 4253 - Teaching Social Studies to Middle and Secondary School Learners (3) (SL)
- ENGL 4254 - Teaching English/Communication Skills to Middle and Secondary School Learners (3)

Lab Courses (2 credit hours)
With each of the selected content-specific methods courses above, candidates are expected to co-enroll (as corequisite courses) in a content-specific section of the following lab course. B.A in Middle Grades Education candidates are, therefore, expected to enroll in two sections of the following lab course across the program (once in the Spring of their Junior year and once in the Fall of their Senior year).

- MDSL 4100L Content Pedagogy Lab (1)

Assessment Courses (4 credit hours)
Select two of the following assessment courses that align with the intended areas of licensure:

- MDSL 4101 - Assessment of Middle Grades and Secondary School Learners in Science (2)
- MDSL 4102 - Assessment of Secondary School Learners in Mathematics (2)
- MDSL 4103 - Assessment in Teaching Middle and Secondary Social Studies (2)
- MDSL 4104 - Assessment in Teaching K-12 English (2)

Internship (12 credit hours)
A yearlong internship (YLI) is a requirement for completion of the major. This YLI must begin one semester prior to student teaching. An application is required for admission to the YLI and must be completed early in the semester prior to beginning the internship (see the Office of School and Community Partnerships website at osacp.uncc.edu for YLI application deadlines). Student teaching is required to take the application the last semester during the second semester of the senior year. During the internship, students complete full-time student teaching in the same classroom. Applications for this Yearlong Internship are due two semesters before student teaching. Students must enroll in the following student teaching internship course in addition to applying to student teach. See the Office of School and Community Partnerships website at osacp.uncc.edu for more information.

- MDSL 4440 - Student Teaching/Seminar: 6-9 Middle Grades Education (12) (O,W)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Additional Requirements
The successful completion of this degree program includes meeting the North Carolina Department of Public Instruction’s licensure requirements for certification. Consequently, additional requirements must be completed during the student’s program and are listed below. Since state licensure requirements often change, additional work may be required to complete the program with a teaching license.

Planning Sheet
All education students are tracked through their program with a Program Planning Sheet. The original planning sheet is uploaded to the advising system and lists all courses taken, transfer hours, General Education and restricted elective courses. Students must enroll in the following student teaching internship course in addition to applying to student teach. See the Office of School and Community Partnerships website at osacp.uncc.edu for more information.

- MDSL 4440 - Student Teaching/Seminar: 6-9 Middle Grades Education (12) (O,W)

Degree Total = 120 Credit Hours

Grade Requirements
Minimum Grades/GPA:
- Minimum GPA of 2.7 to declare major
- Minimum GPA of 2.5 must be maintained to remain enrolled
- Grades in professional education and concentration courses must be C or above
- Minimum overall GPA in professional education and concentration courses must be 2.75

Recommendation for licensure must include:
- A grade of A or B in student teaching with recommendation from Cooperating Teacher, University Supervisor, and Principal
- A score of “Proficient” or “Accomplished” on all criteria for state-required electronic evidences, including licensure testing requirements
**Academic Advising**
The Middle Grades Education major has a very structured curriculum. Freshmen and Sophomores who intend to major in Middle Grades Education are classified as Pre-Education majors in Middle Grades Education. During the pre-education phase, students are advised by TEAL advisors regarding General Education and Academic Concentration courses to meet the requirements for admission to the Middle Grades Education major.

Upon completion of the education prerequisite courses, students apply for admission to the MDSK program as majors. Upon admission to full-standing in the program, students are advised through the MDSK Advising Center where they plan the remainder of their program of studies (typically the Junior and Senior years).

**Honors Program**
For details about the Honors Program in Education, see the beginning of the Cato College of Education section.

---

**Minor in K-12 Foreign Language Education**
A Minor in K-12 Foreign Language Education requires 29 credit hours, including foreign language methodology and assessment courses, and 12 hours for the student teaching semester.

**Admission Requirements**
Students wishing to Minor in K-12 Foreign Language Education must be approved for admission to the minor by meeting statewide teacher education program admission requirements. Advising and admission to the minor are administered through the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education. The criteria for admission include:

- 45 earned credit hours
- GPA of 2.7 or above
- Major in a foreign language for which there is teacher licensure (French, German, Japanese, or Spanish)
- Grades of C or above in either:
  - MDSK 2100
  - EDUC/1100/EDUC 2100 and SPED 2100
- Passing scores on the SAT, ACT, or Praxis Core tests
- Recommendation of major advisor

After admission to the minor, advising is offered through the Department of Middle, Secondary, and K-12 Education in collaboration with advising in the student’s major department. The minor is designed to be coordinated with Junior and Senior level coursework in the major, with the final semester being full-time student teaching. Successful completion of the minor leads to a recommendation for the initial teaching license in the K-12 subject area associated with the student’s major (French, German, Japanese, or Spanish).

**Minor Total = 29 Credit Hours**

**Grade Requirements**
For a degree to be conferred, students must successfully complete all program requirements which include:

- Grades of C or above in all professional education courses
- Education degree minimum GPA of 2.75 and a minimum content GPA of 2.75

**Recommendation for licensure must include:**

- A grade of A or B in student teaching with recommendation from Cooperating Teacher, University Supervisor, and Principal
- A score of “Proficient” or “Accomplished” on all criteria for state-required electronic evidences, including licensure testing requirements
Minor in Secondary Education
The Minor in Secondary Education prepares excellent and reflective teacher candidates in the fields of English, Mathematics, Comprehensive Science, and Comprehensive Social Studies to successfully utilize 21st century knowledge, skills, and dispositions for addressing the demands of an ever-changing global and ethnically diverse society, community, and classroom while implementing effective, research-based content pedagogy to meet the individual cognitive and emotional needs of all students, and systematic and reflective analysis of connections between practice and student learning.

A Minor in Secondary Education requires 32 credit hours, including a 3 credit hour introductory course and 12 credit hours for the student teaching semester. The Minor in Secondary Education qualifies graduates for an entry-level (Standard Professional I) license to teach in one of the following subject areas in grades 9-12: English, Biology, Chemistry, Comprehensive Science, Comprehensive Social Studies, Earth Science, Physics, or Mathematics. Students major in an appropriate Arts and Sciences discipline and minor in secondary education through completion of a three-semester sequence of courses, which includes a yearlong internship incorporating the student teaching semester. The Comprehensive Social Studies license builds on a major in History or Geography; the Comprehensive Science license builds on a Major in Biology, Chemistry, Earth Science, or Physics.

Graduates of the Minor in Secondary Education are prepared to meet the state and national standards for new teachers in the following areas: content and content pedagogical knowledge; authentic applications of instructional design; effective integration of advanced and emerging technologies; respectful learning environments for a diverse student population; facilitation of learning for all students through collaboration and use of multiple instructional strategies; student motivation and management; purposeful and reflective practice; systematic formative and summative assessment; and leadership in schools, community, and profession.

Admission Requirements
Students wishing to minor in Secondary Education must be approved for admission to the minor by meeting statewide teacher education program admission requirements. Advising and admission to the minor are administered through the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education.

The criteria for admission include:
- 45 earned credit hours
- GPA of 2.7 or above
- Major in a subject area for which there is teacher licensure (English, math, biology, chemistry, earth sciences, physics, history, and geography)
- Grade of C or above in MDSK 2100
- Passing scores on the SAT, ACT, or Praxis Core tests
- Recommendation of major advisor

Students should consult with an advisor in Office of Teacher Education Advising and Licensure (TEAL) as soon as they begin considering teacher education in order to graduate on time.

After admission to the minor, advising is offered through the Department
Assessment Course (2 credit hours)
Select one of the following corresponding to content specific major in which candidate seeking licensure:
MDSK 4101 - Assessment of Middle Grades and Secondary School Learners in Science (2)
MDSK 4102 - Assessment of Secondary School Learners in Mathematics (2)
MDSK 4103 - Assessment in Teaching Middle and Secondary Social Studies (2)
MDSK 4104 - Assessment in Teaching K-12 English (2)

Required Corequisite Lab (1 credit hour)
MDSK 4100L - Content Pedagogy Lab (1)

Semester 4 (12 credit hours)
(Second Semester of Yearlong Internship)
SECD 4440 - Student Teaching/Seminar: 9-12 Secondary Education (12)
(O, W)

Yearlong Internship
Students are required to complete a yearlong internship beginning the semester prior to the student teaching semester and ending upon the successful completion of the student teaching semester. Application to the yearlong internship should be submitted to the Office of School and Community Partnerships during the second semester of professional education courses.

Major/Content advisor recommendation is required for beginning the Yearlong Internship in Semester 3 of program course sequence. Requirements include:
- GPA of 2.75 in the major/licensure, with grades of C or above, must be attained before the student teaching semester
- Documentation of Major/Content Planning Sheet for Student Folder in the Department of Middle, Secondary, and K-12 Education

Minor Total = 32 Credit Hours

Grade Requirements
For a degree to be conferred, students must successfully complete all program requirements which include:
- Grades of C or above in all professional education courses
- Education degree minimum GPA of 2.75 and a minimum content GPA of 2.75

Recommendation for licensure must include:
- A grade of A or B in student teaching with recommendation from Cooperating Teacher, University Supervisor, and Principal
- A score of “Proficient” or “Accomplished” on all criteria for state-required electronic evidences, including licensure testing requirements

Academic Advising
With the assistance of their major advisor in Arts and Sciences, students intending to seek a teaching license in an area of secondary education (grades 9-12) apply to the Teacher Education Program through the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education. Interested students are encouraged to visit TEAL at any time before applying to teacher education. Upon admission to the Teacher Education Program, which typically occurs at the end of the Sophomore year or beginning of the Junior year, students are assigned a secondary education advisor in the Advising Center of the Department of Middle, Secondary, and K-12 Education. This advisor has particular responsibility for guidance about professional education coursework. Assignment of the student’s Minor in Secondary Education advisor is the responsibility of the Chair of the Department of Middle, Secondary, and K-12 Education (MDSK).

Minor in Teaching English as a Second Language
A Minor in Teaching English as a Second Language (TESL) requires the completion of 18 credit hours of specialized coursework. This program is designed for students already seeking an initial license in another content area who wish to gain expertise in the education of English Language Learners in the K-12 public school setting.

Admission Requirements
Students interested in pursuing TESL must be approved for admission to the minor by meeting statewide teacher education program admission requirements. Advising and admission to the minor are administered through the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education.

Declaring the minor requires admission to a major or minor in a subject area for which there is teacher licensure (Elementary Education, Special Education, Secondary or Middle Grades Education, Foreign Language Education, etc.). After declaring the minor, advising is offered through the Department of Middle, Secondary, and K-12 Education in collaboration with advising in the student’s major department. The minor is designed to be coordinated with Junior and Senior level coursework in the major. The final semester includes an advanced seminar/practicum in TESL. Successful completion of the minor and passing licensure testing requirements lead to a recommendation for North Carolina add-on K-12 licensure in ESL.

Minor Requirements
TESL 4103 - Methods in Teaching English as a Second Language (3)
TESL 4104 - Authentic Assessment (3)
TESL 4204 - Inclusive Classrooms for Immigrant Students (3)
TESL 4205 - Second Language Acquisition and Linguistics in K-12 Schools (3)
- or - ENGL 3132 - Introduction to Contemporary American English (3)
TESL 4469 - Advanced Seminar/Practicum in Teaching English as a Second Language (3)*
TESL 4600 - Literacy Development for Second Language Learners (3)

*TESL 4469 should be taken in conjunction with the student teaching course for the academic program. Student teaching must be completed in a high-needs school with a large ESL student population.

Minor Total = 18 Credit Hours
Minor in Urban Youth and Communities

The Minor in Urban Youth and Communities is an interdisciplinary program focused on civic engagement and service learning designed to prepare UNC Charlotte students to become informed and engaged citizens by providing opportunities to be agents of change in their community. The minor is open to all majors who seek to explore the strengths, capabilities, and issues of youth and communities in urban settings. Elective courses are concentrated in the areas of Urban Youth and Education, Communities, and Social Justice.

Admission Requirements

The Minor in Urban Youth and Communities is open to all majors and can be declared at any time. No minimum GPA is required for admission to the Minor in Urban Youth and Communities program. Additionally, although no course prerequisites are required for admission, some elective courses may have prerequisites.

Minor Requirements

The minor requires 15 credit hours, including two required courses for all students and an additional required course for College of Education majors. The minor also requires a capstone project completed after all other minor requirements have been completed or simultaneously with enrollment in the capstone course.

Core Courses (3-6 credit hours)

All majors except College of Education majors:
- LBST 2301 - Critical Thinking and Communication (3)

College of Education majors only:
- EDUC 3200 - Service Learning Teaching Methods for K-12 Educators (3)
- LBST 2301 - Critical Thinking and Communication (3)

Elective Courses (6-9 credit hours)

For the Minor in Urban Youth and Communities, 6-9 elective credit hours are required (6 credit hours if a College of Education major and taking EDUC 3200, 9 credit hours otherwise). For all majors except College of Education majors, one elective course (3 credit hours) must be chosen from each of the following areas: Urban Youth and Education, Communities, and Social Justice. College of Education majors select an elective course only from the Communities and Social Justice areas.

Urban Youth and Education Course (3 credit hours)

Select one of the following:
- AFRS 2208 - Education of African Americans (3)
- CHFD 2111 - Foundations in Child and Family Development (3)
- CJUS 2361 - Juvenile Justice (3)
- EDUC 2100 - Foundations of Education and Diversity in Schools (3)
- EDUC 1100 - Foundations of Education and Diversity in Schools - Prospect Curriculum (4)
- EDUC 3200 - Service Learning Teaching Methods for K-12 Educators (3)
- MDSK 2100 - Foundations of Education in Secondary Schools (3)
- PSYC 2120 - Child Psychology (3)
- PSYC 2121 - Adolescent Psychology (3)
- SOCY 4135 - Sociology of Education (3)

Communities Course (3 credit hours)

Select one of the following:
- AFRS 2215 - Black Families in the United States (3)
- AFRS 3280 - Blacks in Urban America (3)
- ANTH 2125 - Urban Anthropology (3)
- GEOG 2000 - Social Inequality and Planning (3)
- GEOG 2200 - Introduction to Urban Studies (3)
- GEOG 4220 - Housing Policy (3)
- HIST 3281 - American Cities (3)
- LTAM 1100 - Introduction to Latin America (3)
- PSYC 3155 - Community Psychology (3)
- RELS 3137 - Religion in the African-American Experience (3)
- SOCY 4124 - Sociology of the Community (3)

Social Justice Course (3 credit hours)

Select one of the following:
- AFRS 3101 - Perspectives on Race and Ethnicity in the U.S. (3)
- ARSC 3480 - Citizenship and Service Practicum (3)
- CJUS 3366 - Domestic Violence (3)
- CJUS 4363 - Gender, Race, and Justice (3)
- COMM 3136 - Leadership, Service, and Ethics (3)
- HIST 3218 - Racial Violence, Colonial Times to Present (3)
- PSYC 3806 - Undergraduate Research Assistantship (3) (Summer only)
- SOCY 3143 - Social Movements (3)
- SOCY 4111 - Social Inequality (3)
- SOCY 4125 - Urban Sociology (3)

Capstone Course (3 credit hours)

To be taken the final semester of the minor:
- CUYC 3600 - Community Engagement Capstone Seminar (3) (SL)*

Minor Total = 15 Credit Hours

Grade Requirements

In courses applied to the minor, students must maintain a GPA of 2.0 or above.

Early Entry: Graduate Certificate in Foreign Language Education

Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements

- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Demonstrate native or near-native speaking proficiency in the intended language of licensure via a passing score on the Praxis Subject Assessment or a minimum score of Advanced Low on the American Council on the Teaching of Foreign Language’s Oral Proficiency Interview (OPI) AND Writing Proficiency Test (WPT) in the intended language of licensure
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved
Continued Enrollment Requirements

- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

Graduate level courses that may be double counted include:

- FLED 5104 - Assessment in the Teaching of K-12 Foreign Languages (2)
- FLED 5200 - Methods in Teaching Foreign Languages (3)
- MDLG 5130 - The Middle Grades Experience (2)
- MDSK 5100L - Content Pedagogy Lab (1)
- MDSK 5204 - Equity and Education (2)
- MDSK 6162 - Planning for K-12 Instruction (2)
- MDSK 6162L - Instructional Design Lab (1)
- SECD 5140 - The Secondary School Experience (2)
- Advanced Content Course (5000-6999) in the intended licensure area (3)

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Undergraduate Programs

- B.A. in Elementary Education
- Minor in Applied Understandings in Global Education
- Minor in Reading Education
- Early Entry: M.Ed. in Elementary Education
- Early Entry: M.Ed. in Reading Education
- Early Entry: Graduate Certificate in Elementary Mathematics Education

The Department of Reading and Elementary Education offers two initial K-6 licensure elementary education programs: a B.A. in Elementary Education for undergraduate students, and a Graduate Certificate Program to those that hold an undergraduate degree in another field. A Minor in Reading Education is offered for students already seeking initial license in another content area who wish to gain expertise in reading methods in the K-12 public school setting. The department also offers the Minor in Applied Understanding in Global Education for students interested in engaging with global issues and studying abroad.

For previously licensed teachers who wish to continue their education, the department offers an M.Ed. in Elementary Education program, which includes concentrations in Math, Literacy, STEM, AIG, and Anti-Racism. Designed for experienced teachers, the M.Ed. in Reading Education qualifies graduates for the North Carolina Advanced Standard Professional II teaching license in K-12 reading education. Relevant to all areas of the K-12 curriculum, this program is designed for classroom teachers and aspiring literacy specialists who are interested in improving instructional programs and practices that promote literacy among all learners. There is also a Ph.D. in Curriculum and Instruction with concentrations in Reading Education and in Curriculum and Education Development. See the Graduate Catalog for details on these graduate degree programs.
Bachelor of Arts in Elementary Education

The B.A. in Elementary Education program qualifies graduates for Standard Professional I (SPI) Professional Educator’s License in K-6 Elementary Education. Graduates of the program are prepared to meet the North Carolina Professional Teaching Standards (NCPTS) and the ten Interstate New Teachers Assessment and Support Consortium (INTASC) Standards for new teachers in Content Pedagogy, Student Development, Diverse Learners, Multiple Instructional Strategies, Motivation and Management, Communication and Technology, Planning, Assessment, Reflective Practice, School and Community Involvement. Graduates have specific coursework and clinical experiences in a variety of settings in order to learn and apply evidence-based knowledge and practices in the field of elementary education.

Admission Requirements (Pre-Education)

Freshmen and Transfers*

- Minimum GPA: 2.7
- Pre-Major/Prerequisite Courses: A minimum of 30 credit hours in approved college-level courses, and a grade of C or above in the following:
  - EDUC 1100 or EDUC 2100*
  - SPED 2100**
- Other:
  - Passing scores on the Praxis Core: Academic Skills Assessments in Reading, Writing, and Mathematics; or an acceptable substitute score on the SAT or ACT
  - Completion and clearance on the Criminal Background Check
  - Signed Statement of Commitment to Professional Dispositions
  - Recommendation of Advisor
  - Approval of the Chair (or his or her designee) of the department that offers the program

- Declaration of Major: The Elementary Education major is intended to be started in the first semester of Junior year; students should plan to declare the major no later than the second semester of the Sophomore year. Students must complete an “Application for Admission to a Teacher Education Program” in the Office of Teacher Education Advising and Licensure (TEAL) in the Cato College of Education. Students must apply for admission to a specific teacher education program and complete the admissions process in order to enroll in any professional education courses at the 3000 level or above.

* Students seeking to enroll in the TA to Teachers program should submit an Undergraduate Admissions Application and meet the articulated admission requirements. Additionally, a secondary application should be submitted through the Distance Education website that includes academic transcripts reflecting an A.A. or A.S. degree and a principal/administrator recommendation.

** Students seeking to enroll in the TA to Teachers program who lack credit for EDUC 1100/EDUC 2100 and SPED 2100 are admitted as a Pre-Education major and are required to complete the courses through Credit by Exam prior to enrollment in the program.

Degree Requirements

The Major in Elementary Education leading to the B.A. degree requires a minimum of 120 credit hours.

General Education Courses (31-35 credit hours)

For details on required courses, refer to the General Education program. Students in this major should plan on taking the following courses that meet general education requirements and also satisfy courses in the major:

- BIOL 1110 - Principles of Biology I (3)
- BIOL 1110L - Principles of Biology Laboratory (1)
- MATH 1340 - Mathematics for Elementary Teachers I (3)
- MATH 1341 - Mathematics for Elementary Teachers II (3)

Foundation Courses (6-7 credit hours)

- EDUC 2100 - Foundations of Education and Diversity in Schools (3)*
- SPED 2100 - Exceptionality in Schools and Society (3)*

*EDUC 2100 and either EDUC 1100 or EDUC 2100 should be taken no later than a student’s Sophomore year; both must be completed with a grade of C or above to qualify for admission to the Teacher Education Program.

Major Courses (60 credit hours)

Note: Admission to Teacher Education and advisor approval are required in order to register for any of the following courses.

- EDUC 4290 - Modifying Instruction for Learners with Diverse Needs (3)
- ELED 3111 - Instructional Design and Assessment in Elementary Education (3)
- ELED 3120 - The Elementary School Child (3)
- ELED 3221 - Teaching Science to Elementary School Learners (3)
- ELED 3223 - Teaching Social Studies and Diversity (3) (W)
- ELED 3226 - Teaching Language Arts to Elementary School Learners (3) (W)
- ELED 3292 - Theories and Practice for Equity in Urban Education (3)
- ELED 4121 - Assessment and Instructional Differentiation in the Elementary School Classroom (3)
- ELED 4122 - Creating an Effective Environment in the Elementary School Classroom (3)
- ELED 4220 - Instructional Planning for Diversity in the Elementary School Classroom (3)
- ELED 4420 - Student Teaching/Seminar: K-6 Elementary Education (15) (O)
- MAED 3222 - Teaching Mathematics to Elementary School Learners, Grades K-2 (3)
- MAED 3224 - Teaching Mathematics to Elementary School Learners, Grades 3-6 (3)
- READ 3224 - Teaching Foundational Literacy Skills (3)
- READ 3226 - Applied Literacy and Practices (3)
- READ 4161 - Assessment, Design, and Implementation of Classroom Reading Instruction (3)

Related Courses (3 credit hours)

Select one creative arts activity course from the following, with a different area of emphasis from the LBST Arts and Society course:
ARTE 2121 - Integrating Art Across the Curriculum (3)
MUSC 1102 - Fundamentals of Music Performance (3)
MUSC 2191 - Incorporating Music into the Elementary Classroom (3)
THEA 1360 - Applied Theatre in Communities and Schools (3)
Others approved by the advisor

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Academic Advising
Freshmen and Sophomores who intend to major in Elementary Education are assigned an advisor in the College’s Office of Teacher Education Advising and Licensure (TEAL), who helps them select appropriate General Education and minor courses, and also helps them meet the requirements for admission to teacher education. Upon admission to the Teacher Education Program in Elementary Education, which typically occurs at the end of the Sophomore year, students will be advised in the Elementary Education Advising Center.

Note: Elementary education courses are available on a very limited basis in the summer.

Additional Requirements
The successful completion of a degree in Elementary Education includes meeting the North Carolina Department of Public Instruction’s licensure requirements for K-6 certification. Consequently, additional requirements must be completed during the student’s program and are listed below. Since state licensure requirements often change, additional work may be required to complete the program with a teaching license.

Planning Sheet
All education students are tracked through their program with a Program Planning Sheet. The original planning sheet is uploaded to the advising system and lists all courses taken, transfer hours, General Education and minor requirements met, and courses remaining in the program. Note that the University requires that the minimum number of credits in a degree program is 120 credit hours.

Clinicals
All courses in the professional program include a clinical requirement where students complete specific activities or designated hours in an elementary school. Clinicals are designed to expose students to diverse school demographics, locations, and programs.

Grade Requirements
All Elementary Education (ELED) students must maintain a 2.5 GPA overall and a 2.75 GPA in their professional courses. All professional courses must be passed with a grade of C or above, and students may repeat a professional course once. Students may be dropped from a course if they register out of sequence.

Honors Program
For details about the Honors Program in Education, see the beginning of the Cato College of Education section.

Internship
Teacher education candidates participate in the yearlong internship during their final year of the program. During the first semester, students spend one day per week in an assigned classroom while completing coursework on campus. During the second semester of the internship, students complete full-time student teaching in the same classroom. Applications for this yearlong internship are due two semesters before student teaching.

Minor in Applied Understandings in Global Education
The Minor in Applied Understandings in Global Education is designed for candidates seeking a Major in Elementary, Middle Grades, Secondary, or Special Education who wish to prepare K-12 students to be effective and responsible citizens in a global society. The minor is focused upon providing candidates with opportunities to gain knowledge of the world, engage in problem solving and critical thinking around significant global issues, and develop skills in viewing events and issues from diverse global perspectives.

Admission Requirements
Advising and admission to the minor are administered through the Office of Teacher Education Advising and Licensure (TEAL). Candidates interested in pursuing the Minor in Applied Understandings in Global Education must have a minimum overall GPA of 2.75 and be approved for admission to the minor by demonstrating the potential for academic achievement commensurate with College of Education program admission requirements. After admission into the minor, advising is offered through the Department of Reading and Elementary Education.

Minor Requirements
The Minor in Applied Understandings in Global Education requires the completion of 18 credit hours of specialized coursework. The minor is designated to be coordinated with coursework in the student’s major.

Phase I: Introduction to Diversity Courses (6 credit hours)
EDUC 1100 - Foundations of Education and Diversity in Schools – Prospect Curriculum (3)
or EDUC 2100 - Foundations of Education and Diversity in Schools (3)
INTL 1101 - Introduction to International Studies (3)

Phase II: Global Studies Courses (6 credit hours)
Required Global Studies Course
LBST 2301 - Critical Thinking and Communication (3)

Elective Global Studies Course
Select one of the following.
INTL 2100 - Introduction to Holocaust, Genocide, and Human Rights Studies (3)
INTL 2121 - Introduction to Development Studies (3)
INTL 2131 - Introduction to Peace, Conflict, and Identity Studies (3)

Note: Other INTL courses may be considered with approval of the advisor.

Phase III: Applied Understandings Courses (6 credit hours)
EDUC 4200 - Current Issues in Global Education (3)
EDUC 4201 - Education and Globalization: Theory and Practice (3)
Minor Total = 18 Credit Hours

Grade Requirements
All courses applied to the Minor in Applied Understandings in Global Education require a grade of C or above, and students must earn an overall GPA of 2.5 or above in courses applied to the minor.

Minor in Reading Education
A Minor in Reading Education requires the completion of 18 credit hours of specialized coursework. This program is designed for students already seeking initial license in another content area who wish to gain expertise in reading methods in the K-12 public school setting. Students in this minor may also apply for Early Entry into the M.Ed. in Reading Education program.

Admission Requirements
Students interested in pursuing a Minor in Reading Education must be approved for admission to the minor by demonstrating a GPA of at least 2.7, obtaining a grade of C or above in all professional courses, and meeting statewide teacher education program admission requirements. Advising and admission to the minor are administered through the Office of Teacher Education Advising and Licensure (TEAL).

Declaring the minor also requires admission to a major or minor in a subject area for which there is teacher licensure (Elementary Education, Special Education, Secondary or Middle Grades Education, Foreign Language Education, etc.). After declaring the minor, advising is offered through the Department of Reading and Elementary Education in collaboration with advising in the student’s major department. The minor is designed to be coordinated with Junior and Senior level coursework in the major. Successful completion of the minor and passing licensure testing requirements leads to a recommendation for North Carolina addition to K-12 license in Reading.

Minor Requirements
Core Courses (9 credit hours)
READ 3224 - Teaching Foundational Literacy Skills (3)
READ 3226 - Applied Literacy and Practices (3)
READ 4161 - Assessment, Design, and Implementation of Classroom Reading Instruction (3)

Elective Courses (9 credit hours)
Explorations of Traditional and New Literacies (3 credit hours)
Select one of the following:
ENGL 2109 - Children’s Literature, Media, and Culture (3)
ENGL 3102 - Literature for Young Children (3)
ENGL 3103 - Children’s Literature (3)
ENGL 3104 - Literature for Adolescents (3)
ENGL 4102 - Classics in British Children’s Literature (3)
ENGL 4103 - Classics in American Children’s Literature (3)
ENGL 4104 - Multiculturalism and Children’s Literature (3)

Extending Literacy Pedagogy (3 credit hours)
Select one of the following:
READ 3255 - Integrating Reading and Writing Across Content Areas (3)
TED 4205 - Reading and Writing Across Digital Spaces (3)
READ 4270 - Investigating Reading Curriculum (3)

Total = 18 Credit Hours

Early Entry: Master of Education in Elementary Education or Graduate Certificate in Elementary Mathematics Education
Exceptional undergraduate students at UNC Charlotte may apply to either of these Early Entry Programs to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Acceptable scores on the appropriate graduate standardized test (e.g., GRE)
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they complete their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 6 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 6 credit hours of graduate coursework may be “double counted” toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.
For details about the full requirements for these degree programs, see the individual program listings in the Graduate Catalog.

Department of Special Education and Child Development
http://spcd.uncc.edu

Undergraduate Programs
• B.A. in Child and Family Development
• B.A. in Special Education
• B.A. in Special Education General Curriculum and Elementary Education K-6 Dual Degree
• Minor in Child and Family Development
• Early Entry: Graduate Certificate in Academically or Intellectually Gifted

The mission of the Department of Special Education and Child Development is to prepare highly effective and ethical professionals who have a positive impact on children, youth, families, community, and schools and who are successful in urban and other diverse settings. This mission is accomplished through teaching, research, and community engagement that lead to improved practice and by working in partnership with schools, communities, and university colleagues.

The goals of the Special Education and Child and Family Development programs are to:

• Provide instruction at the undergraduate, masters, and doctoral levels that models high-leverage practices and challenges learners to aspire to excellence
• Generate and synthesize knowledge through quality research that informs the preparation programs of the Department
• Provide genuine and meaningful service to the public schools and other service providers that informs the preparation programs of the Department

Bachelor of Arts in Child and Family Development
The B.A. degree in Child and Family Development prepares graduates to work in educational and related settings that serve infants, toddlers, preschoolers, and kindergartners with and without disabilities, and their families. The program qualifies graduates for the Standard Professional 1 (SPI) Professional Educator’s License in birth-kindergarten (B-K) education.

Graduates of the program are prepared to meet the North Carolina Professional Teaching Standards and the ten Interstate New Teachers Assessment and Support Consortium (INTASC) Standards for new teachers in Content Pedagogy, Student Development, Diverse Learners, Multiple Instructional Strategies, Motivation and Management, Communication and Technology, Planning, Assessment, Reflective Practice, and School and Community Involvement. Candidates have specific coursework and clinical experiences in a variety of settings in order to learn and apply evidence-based knowledge and practices in the field of early childhood development and education.

4-Year Program

Admission Requirements (Pre-Education)
Freshmen
• Minimum GPA: 2.7
• Pre-Major/Prerequisite Courses: A minimum of 45 credit hours in approved college-level courses, and a grade of C or above in the following:
  ○ EDUC 1100 or EDUC 2100
  ○ SPED 2100
• Other:
  ○ Passing scores on the Praxis Core: Academic Skills Assessments in Reading, Writing, and Mathematics; or an acceptable substitute score on the SAT or ACT
  ○ Completion and clearance on the Criminal Background Check
  ○ Signed Statement of Commitment to Professional Dispositions
  ○ Approval of the Chair (or his or her designee) of the department that offers the program
• Declaration of Major: The Child and Family Development major is intended to be started in the first semester of Junior year; students should plan to declare the major no later than the second semester of the Sophomore year. Students must complete an “Application for Admission to a Teacher Education Program” in the Office of Teacher Education Advising and Licensure (TEAL) in the Cato College of Education. Students must apply for admission to a specific teacher education program and complete the admissions process in order to enroll in any professional education courses at the 3000 level or above.

Degree Requirements
The Major in Child and Family Development leading to the B.A. degree requires a minimum of 120 credit hours.

General Education Courses (31-35 credit hours)
For details on required courses, refer to the General Education program. Students in this major should plan on taking the following courses that meet general education requirements and also satisfy prerequisites for courses in the major:

PSYC 1101 - General Psychology (3)
SOCY 1101 - Introduction to Sociology (3)

Foundation Courses (6-7 credit hours)
EDUC 2100 - Foundations of Education and Diversity in Schools (3)* or EDUC 1100 - Foundations of Education and Diversity in Schools - Prospect Curriculum (4)*
SPED 2100 - Exceptionality in Schools and Society (3)*

*SPED 2100 and either EDUC 1100 or EDUC 2100 should be taken no later than a student’s Sophomore year. Both courses must be completed with a grade of C or above to qualify for admission to the Teacher Education Program in Child and Family Development.
Major Courses (63 credit hours)
CHFD 2111 - Foundations in Child & Family Development (3)
CHFD 2113 - Development: Prenatal to 36 Months (3)
CHFD 2412 - The Practice of Observation, Documentation, and Analysis of Young Children's Behavior (3)
ELDT 4100 - Computer Applications in Education (3)

Admission to Teacher Education and advisor approval are required in order to register for any of the following courses:
CHFD 3112 - Supporting Diverse Young Learners – Birth through Kindergarten (3)
CHFD 3113 - Families as the Core of Partnerships (3)
CHFD 3114 - Responsive Approaches for Infants and Toddlers (3)
CHFD 3115 - An Ecological Approach to Learning and Development – Early Childhood to Pre-Adolescence (3) (W)
CHFD 3116 - Approaches to Integrated Curriculum for Young Children (3-8) (3)
CHFD 3118 - Approaches to Family Supports and Resources (3) (W)
CHFD 3414 - Language, Literacy, and Mathematical Thinking of Young Children: Birth-Kindergarten (3)
CHFD 3416 - Internship: Child and Family Development (3)
CHFD 4410 - Student Teaching/Seminar: B-K Child and Family Development (15) (O)**
SPED 3210 - Enhancing the Social-Emotional Development of Young Children in Inclusive Settings (3)
SPED 4111 - Issues in Early Intervention for Young Children with Disabilities (3)
SPED 4112 - Authentic Approaches to the Assessment of Young Children with Disabilities: Birth-Kindergarten (3)
SPED 4210 - Developmental Interventions for Young Children with Disabilities: Birth through Kindergarten (3)

**Enrollment in CHFD 4410 requires admission to student teaching through the College's Office of School and Community Partnerships.

Restricted Elective Courses (12 credit hours)
Select four of the following. Please note that some courses may have prerequisites.

Sociology Courses
SOCY 2132 - Sociology of Marriage and the Family (3)
SOCY 2133 - Sociology of Marriage and Family - Writing Intensive (3) (W)
SOCY 3169 - Sociology of Health and Illness (3)
SOCY 4110 - Sociology of Aging (3)
SOCY 4111 - Social Inequality (3)
SOCY 4112 - Sociology of Work (3)
SOCY 4115 - Organizational Sociology (3)
SOCY 4124 - Sociology of the Community (3)
SOCY 4125 - Urban Sociology (3)
SOCY 4131 - Family Policy (3)
SOCY 4134 - Families and Aging (3)
SOCY 4135 - Sociology of Education (3)
SOCY 4150 - Older Individual and Society (3)
SOCY 4160 - Evolution and Gender (3)
SOCY 4165 - Sociology of Women (3) (W)
SOCY 4168 - Sociology of Mental Health and Illness (3) (W)
SOCY 4172 - Sociology of Deviant Behavior (3)
SOCY 4173 - Sociology of Deviant Behavior - Writing Intensive (3) (W)
SOCY 4265 - Social Psychology of Law (3) (W)

Other 4000-level SOCY course with approval

Psychology Courses
PSYC 2120 - Child Psychology (3)
PSYC 2121 - Adolescent Psychology (3)
PSYC 2126 - Introduction to the Psychology of Women and Gender (3)
PSYC 2130 - Introduction to Social Psychology (3)
PSYC 2150 - Psychology of Adjustment (3)
PSYC 2155 - Psychological Approaches to Diversity (3)
Other 2000-level PSYC course that relates to cognitive, social, and/or personality development with approval

Teaching English as a Second Language Courses
TESL 4103 - Methods in Teaching English as a Second Language (3)
TESL 4204 - Inclusive Classrooms for Immigrant Students (3)
TESL 4600 - Literacy Development for Second Language Learners (3)

Children’s Literature and Childhood Studies Minor Courses
EDUC 2150 - Human Development Across the Life Span (3)
ENGL 2074 - Topics in Children's Literature, Media, and Culture (3)
ENGL 3102 - Literature for Young Children (3)
ENGL 4103 - American Children's Literature (3)
ENGL 4104 - Multiculturalism and Children's Literature (3)
ENGL 4263 - Linguistics and Language Learning (3)
MUSC 2191 - Incorporating Music into the Elementary Classroom (3)
PHIL 3940 - Philosophy of Education (3)
THEA 4360 - Theatre for Young Audiences (3)
WGST 3130 - Perspectives on Motherhood (3)

Public Health Minor Courses
AFRS 3261 - Psychology of the Black Experience (3)
ANTH 3122 - Culture, Health, and Disease (3) (W)
ANTH 3222 - Culture, Health, and Disease (3)
ANTH 4131 - Culture, Pregnancy, and Birth (3)
HLTH 3101 - Foundations of Public Health (3)
PHIL 3230 - Healthcare Ethics (3)
POLS 3125 - Healthcare Policy (3)
NURS 4191 - Women’s Health Issues (3)
WGST 4191 - Women's Health Issues (3)

Other Approved Elective Courses
AMST 3210 - Childhood in America (3)
ANTH 1101 - Introduction to Anthropology (3)
ARTE 2121 - Integrating Art Across the Curriculum (3)
CHFD 4200 - Child Life: Supporting Children and Families (3)
RELS 3215 - Religion and Sexuality (3)
PSYC 2160 - Introduction to Health Psychology (3)
SPAN 1201 - Elementary Spanish I (4) (or other foreign language courses approved by advisor)
WGST 1101 - Introduction to Women's Studies (3)
WGST 3160 - Gender and Education (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours
**2+2-Year Program**

### Admission Requirements (Pre-Education)

**Transfers**
- **Minimum GPA:** Overall 2.7 and minimum 2.5 on all courses taken at the community college.
- **Degrees:** A.A.S. degree in Early Childhood Education or similar title with curriculum acceptable to the department with 60-64 credit hours of coursework (transfer applicants not having the A.A.S. degree or its equivalent must meet University admission requirements).

**Pre-Major/Prerequisite Courses:**
- EDUC 1100 or EDUC 2100 (with grade of C or above by the end of the semester of application or the equivalent transferred community college courses).
- SPED 2100 (with grade of C or above by the end of the semester of application or the equivalent transferred community college courses).
- Prerequisite background courses for the program (a limited number of such background courses may be made up by taking them at UNC Charlotte).
- A minimum of 30 credit hours in General Education courses that are taken as part of all North Carolina A.A.S. Early Childhood Education programs, plus additional University General Education requirements that may not be part of A.A.S. degree but are required to earn a Bachelor degree in Birth-Kindergarten (B-K) teacher licensure program.
  - A.A.S. degree in Early Childhood (Licensure Track) with 30 credit hours of General Education courses follows the 2+2 Articulation Plan.
  - A.A.S. degree in Early Childhood (Non-Licensure Track) without 30 credit hours of General Education credits must complete additional General Education credits to meet the 30 credit requirement.

**Other:**
- Passing scores on the Praxis Core: Academic Skills Assessments in Reading, Writing, and Mathematics; or an acceptable substitute score on the SAT or ACT.
- Completion and clearance on the Criminal Background Check.
- Signed Statement of Commitment to Professional Dispositions.
- Approval of the Chair (or his or her designee) of the department that offers the program.

**Declaration of Major:** Students must complete an "Application for Admission to a Teacher Education Program" in the Office of Teacher Education Advising and Licensure (TEAL) in the Cato College of Education. Students must apply for admission to a specific teacher education program and complete the admissions process in order to enroll in any professional education courses at the 3000 level or above.

### Degree Requirements

The B.A. in Child and Family Development 2+2-year degree program for transfer students consists of a minimum of 60 credit hours.

**A.A.S. Degree (60-64 credit hours)**

### General Education Courses

For details on required courses, refer to the General Education Program. Requirements in the major satisfy the Writing in the Disciplines (W) and Oral Communications (O) requirements.

### Major Courses (51 credit hours)

Admission to Teacher Education and advisor approval are required in order to register for any of the following courses:

- CHFD 3112 - Supporting Diverse Young Learners – Birth through Kindergarten (3)
- CHFD 3113 - Families as the Core of Partnerships (3)
- CHFD 3114 - Responsive Approaches for Infants and Toddlers (3)
- CHFD 3115 - An Ecological Approach to Learning and Development – Early Childhood to Pre-Adolescence (3) (W)
- CHFD 3116 - Approaches to Integrated Curriculum for Young Children (3-8) (3)
- CHFD 3118 - Approaches to Family Supports and Resources (3) (W)
- CHFD 3414 - Language, Literacy, and Mathematical Thinking of Young Children: Birth-Kindergarten (3)
- CHFD 3416 - Internship: Child and Family Development (3)
- CHFD 4410 - Student Teaching/Seminar: B-K Child and Family Development (15) (O)**
- SPED 3210 - Enhancing the Social-Emotional Development of Young Children in Inclusive Settings (3)
- SPED 4111 - Issues in Early Intervention for Young Children with Disabilities (3)
- SPED 4112 - Authentic Approaches to the Assessment of Young Children with Disabilities: Birth-Kindergarten (3)
- SPED 4210 - Developmental Interventions for Young Children with Disabilities: Birth through Kindergarten (3)

**Enrollment in CHFD 4410 requires admission to student teaching through the College’s Office of School and Community Partnerships.**

### Restricted Elective Courses (9 credit hours)

Select three courses from the options in the 4-Year Program above.

### Unrestricted Elective Courses

As needed to complete the credit hours required for graduation.

### Degree Total = 120 Credit Hours

**Additional Information for the 4-Year and 2+2-Year Programs**

### Academic Advising

Students who intend to major in Child and Family Development and to earn B-K licensure are classified as Pre-Education students in Child and Family Development. These students are assigned an advisor in the Office of Teacher Education Advising and Licensure (TEAL), who help students select appropriate General Education and elective courses, and who will help them meet the requirements for admission to teacher education. To be admitted to the Teacher Education Program in Child and Family Development, students must have completed an admission application through the TEAL office, attained a grade of C or above in SPED 2100 and either EDUC 1100 or EDUC 2100, attained passing scores on all three parts of the Praxis Core or acceptable alternatives (SAT or ACT scores), and...
attained an overall GPA of at least 2.7 in at least 45 credit hours of coursework.

Applications for admission to the Teacher Education Program in Child and Family Development are available from and are to be returned to the TEAL office after a student has earned at least 45 credit hours of coursework. Students are then assigned a major/minor advisor in child and family development who assists planning the remainder of the program of study. Course selections for each subsequent semester must be approved by the student’s advisor in child and family development. Assignment of the student’s major/minor advisor is the responsibility of the Child and Family Development Undergraduate Program Director in the Department of Special Education and Child Development (SPCD).

Additional Requirements
The successful completion of this degree program includes meeting the North Carolina Department of Public Instruction’s licensure requirements for B-K certification. Consequently, additional requirements must be completed during the student’s program and are listed below. Since state licensure requirements often change, additional work may be required to complete the program with a teaching license.

Planning Sheet
All education students are tracked through their program with a Program Planning Sheet. The original planning sheet is uploaded to the advising system and lists all courses taken, transfer hours, General Education and minor requirements met, and courses remaining in the program. Note that the University requires that the minimum number of credits in a degree program is 120 credit hours.

Clinicals
Some courses in the professional program include a clinical requirement where students complete specific activities or designated hours in an appropriate setting. Clinicals are designed to expose students to diverse school demographics, locations, and programs.

Grade Requirements
All students with an education major must maintain a 2.5 GPA overall and a 2.75 GPA in their professional courses. All professional courses must be passed with a grade of C or above, and students may repeat a professional course once. Students may be dropped from a course if they register out of sequence.

Honors Program
For details about the Honors Program in Education, see the beginning of the Cato College of Education section.

Internship
Teacher education candidates participate in the yearlong internship during their final year of the program. During the first semester, students spend a minimum of one day per week in an assigned classroom while completing coursework on campus. During the second semester of the internship, students complete full-time student teaching in the same classroom. Applications for this yearlong internship are due two semesters prior to student teaching; part two of the application is due one semester prior to student teaching.

Bachelor of Arts in Special Education
The B.A. in Special Education program includes a choice of one of two licensure areas: (1) the Special Education: General Curriculum license or (2) the Special Education: Adapted Curriculum license. The Special Education: General Curriculum license qualifies graduates for the Standard Professional 1 (SPI) Professional Educator’s License to teach children with special needs in grades K-12 with mild disabilities (i.e., learning disabilities, mild cognitive disabilities, and emotional/behavioral disabilities). The Special Education: Adapted Curriculum license qualifies graduates for the Standard Professional 1 (SPI) Professional Educator’s License to teach children with special needs in grades K-12 with severe disabilities (i.e., significant cognitive disabilities, multiple disabilities).

Graduates of the program are prepared to: provide individually planned, systematically implemented, and carefully evaluated instruction for students with special needs; provide educational services to students with special needs in general classrooms, resource classrooms, and other educational settings; and help students with special needs achieve the greatest possible personal self-sufficiency and success in present and future environments. Graduates of the program are prepared to meet the North Carolina Professional Teaching Standards and the ten Interstate New Teachers Assessment and Support Consortium (INTASC) Standards for new teachers in Content Pedagogy, Student Development, Diverse Learners, Multiple Instructional Strategies, Motivation and Management, Communication and Technology, Planning, Assessment, Reflective Practice, and School and Community Involvement. Graduates have specific coursework and clinical experiences in a variety of settings in order to learn and apply evidence-based knowledge and practices in the field of special education.

Admission Requirements (Pre-Education)
Freshmen and Transfers
• Minimum GPA: 2.7
• Pre-Major/Prerequisite Courses: A minimum of 30 credit hours in approved college-level courses, and a grade of C or above in the following:
  o EDUC 1100 or EDUC 2100
  o SPED 2100
• Other:
  o Passing scores on the Praxis Core: Academic Skills Assessments in Reading, Writing, and Mathematics; or an acceptable substitute score on the SAT or ACT
  o Scores for the practice NC General Curriculum test (available in Canvas)
  o Completion and clearance on the Criminal Background Check
  o Signed Statement of Commitment to Professional Dispositions
  o Recommendation of Advisor
  o Approval of the Chair (or his or her designee) of the department that offers the program
• Declaration of Major: The Special Education major is intended to be started in the first semester of the Junior year; students should plan to declare the major no later than the second semester of the Sophomore year. Students must complete an “Application for Admission to a Teacher Education Program” in the Office of Teacher Education Advising and Licensure (TEAL) in the Cato College of Education. Students must apply for admission to a specific teacher education program and complete the admissions process in order...
to enroll in any professional education courses at the 3000 level or above.

Degree Requirements
The Major in Special Education leading to the B.A. degree requires a minimum of 120 credit hours.

General Education Courses (31-35 credit hours)
For details on required courses, refer to the General Education program. Students in this major should plan on taking the following course that meets general education requirements and also satisfies prerequisites for courses in the major:

PSYC 1101 - General Psychology (3)

Foundation Courses (6-7 credit hours)
EDUC 2100 - Foundations of Education and Diversity in Schools (3)*
   or EDUC 1100 - Foundations of Education and Diversity in Schools - Prospective Curriculum (4)*
SPED 2100 - Exceptionality in Schools and Society (3)*

*SPED 2100 and either EDUC 1100 or EDUC 2100 should be taken no later than a student’s Sophomore year. Both courses must be completed with a grade of C or above to qualify for admission to the Teacher Education Program in Special Education.

Major Courses (54-60 credit hours)
Core Courses (36 credit hours)
Admission to Teacher Education and advisor approval are required in order to register for any of the following courses:
SPED 3100 - Critical Issues in Special Education (3)
SPED 3173 - Assessment in Special Education (3) (W)
SPED 3175 - Instructional Planning in Special Education (3)
SPED 4270 - Classroom Management (3)
SPED 4272 - Teaching Mathematics to K-12 Learners (3)
SPED 4275 - Teaching Reading to Elementary Learners (3)
SPED 4277 - Teaching Written Expression to K-12 Learners (3) (W)
SPED 4279 - Content Area Instruction for Inclusive Classrooms (3)
SPED 4318 - Collaboration and Transition-Focused Education (3)
SPED 4400 - Integrated Instructional Applications in Special Education (3) (W)
TESL 4204 - Inclusive Classrooms for Immigrant Students (3)

Plus select one of the following:
PSYC 2120 - Child Psychology (3)
PSYC 2121 - Adolescent Psychology (3)
SOCY 4135 - Sociology of Education (3)
SOCY 4168 - Sociology of Mental Health and Illness (3) (W)

Licensure Courses (18-24 credit hours)
Select one of the following licensure areas:

General Curriculum License Courses (18 credit hours)
SPED 4276 - Teaching Reading to Middle and Secondary Learners (3)
SPED 4475 - Student Teaching/Seminar: Special Education K-12: General Curriculum (15) (O)**

Adapted Curriculum License Courses (24 credit hours)
SPED 4271 - Systematic Instruction in the Adapted Curriculum (3)
SPED 4274 - General Curriculum Access and Adaptations (3)
SPED 4280 - Instruction and Support for Learners with Extensive Support Needs (3)
SPED 4476 - Student Teaching/Seminar: Special Education K-12: Adapted Curriculum (15) (O)**

**Enrollment in SPED 4475 or SPED 4476 requires admission to student teaching through the College’s Office of School and Community Partnerships.

Unrestricted Elective Courses
It is recommended that students take content courses that will enable them to be labeled as “Highly Qualified” to teach content courses within a Special Education setting. Students should see an advisor for additional recommendations.

Degree Total = 120 Credit Hours

Academic Advising
Freshmen and Sophomores who intend to major in Special Education are classified as Pre-Education students in Special Education. These students are assigned an advisor in the Office of Teacher Education Advising and Licensure (TEAL), who helps students select appropriate General Education and elective courses, and who will help them meet the requirements for admission to teacher education. To be admitted to the Teacher Education Program in Special Education, students must have completed an admission application through the TEAL office, attained a grade of C or above in SPED 2100 and either EDUC 1100 or EDUC 2100, attained passing scores on all three parts of the Praxis Core test or acceptable alternatives (SAT or ACT scores), and attained an overall GPA of at least 2.7 in at least 30 credit hours of coursework.

Applications for admission to the Teacher Education Program in Special Education are available from and are to be returned to the TEAL office after a student has earned at least 30 credit hours of coursework. Students are then assigned a major advisor in special education who assists planning the remainder of the program of study, including selection of either one of the two licensure areas, or both licensure areas. Course selections for each subsequent semester must be approved by the student’s advisor in special education.

Additional Requirements
The successful completion of this degree program includes meeting the North Carolina Department of Public Instruction’s licensure requirements for K-12 certification. Consequently, additional requirements must be completed during the student’s program and are listed below. Since state licensure requirements often change, additional work may be required to complete the program with a teaching license.

Planning Sheet
All education students are tracked through their program with a Program Planning Sheet. The original planning sheet is uploaded to the advising system and lists all courses taken, transfer hours, General Education and minor requirements met, and courses remaining in the program. Note that the University requires that the minimum number of credits in a degree program is 120 credit hours.

Clinicals
Some courses in the professional program include a clinical requirement
where students complete specific activities or designated hours in an appropriate setting. Clinicals are designed to expose students to diverse school demographics, locations, and programs.

**Grade Requirements**
All students with an education major must maintain a 2.5 GPA overall and a 2.75 GPA in their professional courses. All professional courses must be passed with a grade of C or above, and students must have a GPA of 2.75 in professional courses the semester prior to student teaching. Students may repeat a professional course once. Courses may have required prerequisites, so courses should be taken in the sequence indicated on the plan of study.

**Honors Program**
For details about the Honors Program in Education, see the beginning of the Cato College of Education section.

**Internship**
Teacher education candidates participate in the yearlong internship during their final year of the program. During the first semester, students spend a minimum of one day per week in an assigned classroom while completing coursework on campus. During the second semester of the internship, students complete full-time student teaching in the same classroom. Applications for this yearlong internship are due two semesters prior to student teaching; part two of the application is due one semester prior to student teaching.

**Bachelor of Arts in Special Education General Curriculum and Elementary Education K-6 Dual Program**
In addition to the traditional Special Education General Curriculum or Adapted Curriculum K-12 Program options, the Department of Special Education and Child Development in collaboration with the Department of Reading and Elementary Education also offers a B.A. in Special Education - General Curriculum and Elementary Education K-6 Dual Program. The Special Education - General Curriculum and Elementary Education K-6 Dual Program qualifies graduates for the Standard Professional 1 (SPI) Professional Educator’s License in Special Education General Curriculum K-6 and Elementary Education K-6. Graduates from the Dual Program are licensed to teach children with mild disabilities in grades K-6. Additionally, the Dual Program qualifies graduates for entry level positions in the elementary general education classroom in grades K-6.

Graduates of the Special Education - General Curriculum and Elementary Education K-6 Dual Program are prepared to: provide individually planned, systematically implemented, and carefully evaluated instruction for students with disabilities; provide educational services to students with disabilities in general classrooms, resource classrooms, and other educational settings; and help students with disabilities achieve the greatest possible personal self-sufficiency and success in present and future environments. Graduates of the program are prepared to meet the North Carolina Professional Teaching Standards and the ten Interstate New Teachers Assessment and Support Consortium (INTASC) Standards for new teachers in Content Pedagogy, Student Development, Diverse Learners, Multiple Instructional Strategies, Motivation and Management, Communication and Technology, Planning, Assessment, Reflective Practice, and School and Community Involvement. Graduates have specific coursework and clinical experiences in a variety of settings in order to learn and apply evidence-based knowledge and practices in the fields of special education and elementary education.

**Admission Requirements (Pre-Education)**
**Freshmen and Transfers**
- **Minimum GPA:** 2.7
- **Pre-Major/Prerequisite Courses:** A minimum of 30 credit hours in approved college-level courses, and a grade of C or above in the following:
  - EDUC 1100 or EDUC 2100
  - SPED 2100
- **Other:**
  - Passing scores on the Praxis Core: Academic Skills Assessments in Reading, Writing, and Mathematics; or an acceptable substitute score on the SAT or ACT
  - Scores for the practice NC General Curriculum test (available in Canvas)
  - Completion and clearance on the Criminal Background Check
  - Signed Statement of Commitment to Professional Dispositions
  - Professional goals statement detailing interest in obtaining dual licensure
  - Recommendation of Advisor
  - Approval of the Chair (or his or her designee) of the department that offers the program

- **Declaration of Major:** The Special Education major is intended to be started in the second semester of Sophomore year; students should plan to declare the major no later than the first semester of the Sophomore year. Students must complete an “Application for Admission to a Teacher Education Program” in the Office of Teacher Education Advising and Licensure (TEAL) in the Cato College of Education. Students must apply for admission to a specific teacher education program and complete the admissions process in order to enroll in any professional education courses at the 3000 level or above.

The Special Education - General Curriculum and Elementary Education K-6 Dual Program accepts 30 students per academic year. Once 30 applicants have been accepted into the Dual Program, the application process is closed. Students cannot apply to the Dual Program once they have already taken courses in another education program. Applications are reviewed first by the TEAL Office to determine that minimal acceptance requirements have been met. A second review of applications occurs by the Director of the Dual Program.

**Degree Requirements**
The Major in Special Education - General Curriculum and Elementary Education K-6 Dual Program leading to the B.A. degree requires a minimum of 120 credit hours.

**General Education Courses (31-35 credit hours)**
For details on required courses, refer to the General Education program.

**Foundation Courses (6-7 credit hours)**
EDUC 2100 - Foundations of Education and Diversity in Schools (3)*
  or EDUC 1100 - Foundations of Education and Diversity in Schools - Prospect Curriculum (4)*
SPED 2100 - Exceptionality in Schools and Society (3)*
*SPED 2100 and either EDUC 1100 or EDUC 2100 should be taken prior to a student’s Sophomore year. Both courses must be completed with a grade of C or above to qualify for admission to the Teacher Education Program in the Special Education - General Curriculum and Elementary Education K-6 Dual Program.

Major Courses (78 credit hours)
Admission to Teacher Education and advisor approval are required in order to register for any of the following courses:

ELED 3111 - Instructional Design and Assessment in Elementary Education (3)
ELED 3120 - The Elementary School Child (3)
ELED 3221 - Teaching Science to Elementary School Learners (3)
ELED 3223 - Teaching Social Studies and Diversity (3) (W)
ELED 3292 - Theories and Practice for Equity in Urban Education (3)
ELED 4121 - Assessment and Instructional Differentiation in the Elementary School Classroom (3)
ELED 4122 - Creating an Effective Environment in the Elementary School Classroom (3)
ELED 4220 - Instructional Planning for Diversity in the Elementary School Classroom (3)
MAED 3222 - Teaching Mathematics to Elementary School Learners, Grades K-2 (3)
MAED 3224 - Teaching Mathematics to Elementary School Learners, Grades 3-6 (3)
READ 3224 - Teaching Foundational Literacy Skills (3)
READ 3226 - Applied Literacy and Practices (3)
SPED 3175 - Instructional Planning in Special Education (3)
SPED 4270 - Classroom Management (3)
SPED 4272 - Teaching Mathematics to K-12 Learners (3)
SPED 4275 - Teaching Reading to Elementary Learners (3)
SPED 4277 - Teaching Written Expression to K-12 Learners (3)
SPED 3100 - Introduction to Special Education and Dual Program (3)**
SPED 3173 - Assessment in Special Education and Elementary Education (3) (W)
SPED 4171 - Special Education: Consultation and Collaboration in Elementary Schools (3) (W)
SPED 4477 - Student Teaching/Seminar: Special Education General Curriculum and Elementary Education K-6 (Dual Program) (15) (O)
TESL 4204 - Inclusive Classrooms for Immigrant Students (3)

**This course is an important and required introduction to the Dual Program, and it must be completed during the Fall semester of the student’s Sophomore year.

Related Licensure Requirement Course (3 credit hours)
Select one of the following:
ARTE 2121 - Integrating Art Across the Curriculum (3)
MUSC 1102 - Fundamentals of Musicianship (3)
MUSC 2191 - Incorporating Music Into the Elementary Classroom (3)
THEA 1360 - Applied Theatre in Communities and Schools (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

**Academic Advising**
During the duration of the program, students are advised by the Dual Major Undergraduate Program Director. Students accepted into the Special Education - General Curriculum and Elementary Education K-6 Dual Program are required to attend advising sessions each semester during the program.

**Additional Requirements**
The successful completion of this degree program includes meeting the North Carolina Department of Public Instruction’s licensure requirements for K-6 certification. Consequently, additional requirements must be completed during the student’s program and are listed below. Since state licensure requirements often change, additional work may be required to complete the program with a teaching license.

**Planning Sheet**
All education students are tracked through their program with a Program Planning Sheet. The original planning sheet is uploaded to the advising system and lists all courses taken, transfer hours, General Education and minor requirements met, and courses remaining in the program. Note that the University requires that the minimum number of credits in a degree program is 120 credit hours.

**Clinicals**
Some courses in the professional program include a clinical requirement where students complete specific activities or designated hours in an appropriate setting. Clinicals are designed to expose students to diverse school demographics, locations, and programs.

**Grade Requirements**
All students with an education major must maintain a 2.75 GPA overall and a 2.75 GPA in their professional courses. All professional courses must be passed with a grade of C or above, and students must have a GPA of 2.75 in professional courses the semester prior to student teaching. Students may repeat a professional course once. Courses may have required prerequisites, so courses should be taken in the sequence indicated on the plan of study.

**Honors Program**
For details about the Honors Program in Education, see the beginning of the Cato College of Education section.

**Internship**
Teacher education candidates participate in the yearlong internship during their final year of the program. During the first semester, students spend a minimum of one day per week in an assigned classroom while completing coursework on campus. During the second semester of the internship, students complete full-time student teaching in the same classroom. Applications for this yearlong internship are due two semesters before student teaching; part two of the application is due one semester prior to student teaching.

**Minor in Child and Family Development**
The Minor in Child and Family Development provides opportunities for students to develop an overview of early learning and development, an understanding of early childhood issues, and insights into the role of families, as well as the role of child care in out-of-home experiences.
Admission Requirements
In order to declare the Minor in Child and Family Development, students must have an overall GPA of at least 2.7. Students who declare the minor are required to complete six courses (18 credit hours total).

Some of the required courses have prerequisites, so students should declare the Minor in Child and Family Development as early as possible to plan their schedule. Students declaring the minor as Sophomores and Juniors can usually complete the degree on schedule. Students interested in the minor should begin taking classes as early as possible after declaration.

Minor Requirements
CHFD 2111 - Foundations in Child and Family Development (3)*
CHFD 2113 - Development: Prenatal to 36 Months (3)*
CHFD 2412 - The Practice of Observation, Documentation, and Analysis of Young Children’s Behavior (3)
CHFD 3113 - Families as the Core of Partnerships (3)
SPED 3210 - Enhancing the Social-Emotional Development of Young Children in Inclusive Settings (3)
SPED 4111 - Issues in Early Intervention for Young Children with Disabilities (3)

*CHFD 2111 and/or CHFD 2113 must be the first courses completed.

Minor Total = 18 Credit Hours

Grade Requirements
Students who declare the Minor in Child and Family Development are required to complete the above six courses and maintain a GPA of at least 2.5 overall and in the minor. A minimum grade of C or above in the courses is required.

Early Entry: Graduate Certificate in Academically or Intellectually Gifted
Exceptional undergraduate students at UNC Charlotte may apply to either of these Early Entry Programs to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.4 overall undergraduate GPA
- Submit application online at mygradschool.uncc.edu and provide supporting documents (i.e., transcripts and a brief personal statement)
- Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
- Completion of Early Entry Program Form, with signatures indicating approval by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework
- Maintain a minimum 3.4 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 6 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 6 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for these degree programs, see the individual program listings in the Graduate Catalog.
The William States Lee
College of Engineering
The William States Lee College of Engineering’s vision is that:

The College is the engineering college of first choice for students, faculty, staff, and industry partners discovering, integrating, applying, and disseminating knowledge.

The College provides quality educational experiences and discovers and disseminates knowledge that serves the citizens and industries of the Carolinas, and the national and the international communities.

The Lee College of Engineering offers baccalaureate degree programs in Engineering, Engineering Technology, and Construction Management. On the graduate level, the College offers programs leading to master’s degrees in Engineering, Construction and Facilities Engineering, Energy and Electromechanical Systems, Fire Protection and Safety Management, and Engineering Management; Ph.D.s in Civil Engineering, Electrical Engineering, and Mechanical Engineering; and an interdisciplinary Ph.D. in Infrastructure and Environmental Systems. For details on the graduate programs, refer to the UNC Charlotte Graduate Catalog.

The College of Engineering consists of the following departments:

- Department of Civil and Environmental Engineering
- Department of Electrical and Computer Engineering
- Department of Engineering Technology and Construction Management
- Department of Mechanical Engineering and Engineering Science
- Department of Systems Engineering and Engineering Management

Degree Programs

Engineering Programs

The baccalaureate programs in engineering offer a professional engineering education that can be used as the foundation for several different career objectives: careers as professional engineers in industry, business, or consulting; graduate study to prepare for careers in research, development, or teaching; and a more general and more liberal engineering education with the objective of keeping a variety of career paths open.

Whatever the career objective of the student, a sound engineering educational program is provided. The course of study will involve the humanities, social sciences, physical sciences, mathematics, and engineering sciences and design. The student expecting to accept employment in industry may emphasize the engineering design and engineering science aspects of his or her program, while the student preparing for graduate study might emphasize the mathematics and science aspects. Some engineering graduates ultimately take on executive and management responsibilities in industries and firms that are based upon engineering products and engineering services. These students may choose to construct an elective option in their program, including economics and business-related courses that strengthen their communication skills and other non-technical skills.

Engineering students are strongly encouraged to pursue the requirements for registration as a Professional Engineer (PE). The first step in the registration process is the successful completion of the Fundamentals of Engineering (FE) Examination. Students are encouraged to take this examination during their Senior year. Additional requirements for professional licensure subsequent to graduation include the accumulation of at least four years of progressive engineering experience and successful completion of the Professional Engineer Examination (PE Exam). Students who complete the Cooperative Education Program or who complete their master’s degree only need three years of progressive engineering experience to be eligible to take the PE Exam in North Carolina.

Majors

- Bachelor of Science in Civil Engineering (B.S.C.E.)
- Bachelor of Science in Electrical Engineering (B.S.E.E.)
- Bachelor of Science in Computer Engineering (B.S.CP.E.)
- Bachelor of Science in Mechanical Engineering (B.S.M.E.)
- Bachelor of Science in Systems Engineering (B.S.S.E.)
Minors
- Minor in Electrical Engineering
- Minor in Computer Engineering

Engineering Technology Programs
Engineering technology is the profession in which knowledge of mathematics and natural sciences gained by higher education, experience, and practice is devoted primarily to the implementation and extension of existing technology for the benefit of humanity. Engineering technology education focuses primarily on the applied aspects of science and engineering aimed at preparing graduates for practice in that portion of the technological spectrum closest to the product improvement, manufacturing, construction, and engineering operational functions.

Engineering technology programs are characterized by a focus on application and practice and on an approximately equal mix of theory, practice, and laboratory experience.

Graduates of the engineering technology programs are recruited by most major technological companies in the U.S. They are employed across the technological spectrum but are best suited to areas that deal with application, implementation, production, and construction. Technical sales and customer service fields also account for many placements.

Engineering technology students are encouraged to pursue the requirements for registration as a Professional Engineer. The first step in the registration process is the successful completion of the Fundamentals of Engineering (FE) Examination. Students are encouraged to take this examination during their Senior year. Additional requirements for professional licensure following graduation include the accumulation of at least eight years of progressive experience and successful completion of the Professional Engineer Examination (PE Exam). Students who complete the Cooperative Education Program or who complete their master’s degree only need seven years of progressive engineering experience to be eligible to take the PE Exam in North Carolina.

Majors
- Bachelor of Science in Engineering Technology (BSET)

Construction Management Program
Construction management provides the education necessary for entry into the construction industry in a variety of careers in the residential, commercial, and industrial sectors, as well as infrastructure, and heavy horizontal construction. Related careers in real estate and land development, infrastructure development, code enforcement, and insurance are also career options.

The program is enhanced by a business/management core that includes courses in statistics, computer applications, economics, accounting, engineering economics, business management, business law, finance, and construction law. The Construction Management program shares a common lower division (Freshman and Sophomore year) curriculum with the Civil Engineering Technology Program. This provides a two-year opportunity to determine which program best fits the desired academic objective and allows students who are interested to complete a double major in both Construction Management and Civil Engineering Technology.

Majors
- Bachelor of Science in Construction Management (BSCM)

Honors Program
The Engineering Honors Program provides students with access to opportunities designed to stimulate their thinking and broaden their exposure to topics related to the professional practice of engineering and engineering design. The Engineering Honors Program is committed to the highest principles of professional practice that guide our decision-making. The Engineering Honors Program is a community of learners actively engaged in academic scholarship while demonstrating the highest regard for others by modeling the ethical standards that protect the public safety; promote service to community above the self; and support, encourage, educate, and value others. These are the core values of the members of the program.

Admission Requirements
Students interested in being admitted to the Engineering Honors Program must be enrolled in the Senior Design capstone experience in their home department. Admission to the program is based on the student’s demonstrated honors potential and is determined by examining the cumulative GPA (minimum 3.5 for currently enrolled or transfer students), academic and other distinctions, activities, and other related factors. All admitted students must maintain a minimum 3.5 cumulative GPA at UNC Charlotte to remain a member of the program. Students failing to meet the minimum cumulative GPA requirement will be ineligible to enroll in the Honors Program.

Course Requirements
Students in the Engineering Honors Program must complete Engineering Honors Seminar I and II in conjunction with the respective Senior Design capstone course required for their program of study.
Certification Requirements
To graduate with "Honors in Engineering," a student must complete the required seminar course sequence and complete the Application to Candidacy process for graduating with honors, as directed by the Honors College, beginning one semester prior to graduation. A cumulative GPA of at least 3.5 overall and a grade of A must be earned in the departmental Senior Design capstone project presentation.

Additional Engineering Programs and Opportunities

Maximizing Academic and Professional Success Program (MAPS)
The MAPS Program helps improve the retention and academic performance of students who are committed to earning degrees from the Lee College of Engineering. The program connects students to college and campus-wide resources, extra-curricular opportunities, and organizations with the goal of developing independent learners and problem solvers.

MAPS transition coaching helps students improve their time management, study, and learning skills through a variety of interactive sessions facilitated by successful College of Engineering students. MAPS also offers peer-led Supplemental Instruction (SI) and/or tutoring for courses such as calculus, chemistry, and physics, and core College of Engineering courses as funding is available. Assessment results indicate that students who regularly participate in MAPS perform well academically and are much more likely to graduate from the College. For details, visit osds.uncc.edu/maps-program.

Freshman Learning Community (FLC)
The FLC is home to more than 200 College of Engineering freshmen who live, study, and interact in a single residence hall. Students benefit from having similar interests and course schedules. In addition, MAPS peer coaching and tutoring for a variety of Freshman courses are offered on-site. Other events such as engineering site visits, special study nights, and social activities are also available to participants. For details, visit osds.uncc.edu/freshman-learning-community.

Student Leadership Academy
The Leadership Academy is an optional extracurricular program designed to develop the leadership potential of College of Engineering students through a series of weekend retreats with other students, faculty, and industry partners. Top industry executives help facilitate specific activities providing some real-world perspective on being a successful leader in business and in the community. Students who fulfill all requirements of the program receive transcript notation. For details, visit osds.uncc.edu/leadership-academy.

Engage ME!
Engage ME! is a diversity and inclusion program intended to build a strong community of College of Engineering students and to connect them with multiple opportunities outside of the college. The program recruits, retains, and graduates multicultural students from all degree programs. Social networking opportunities and activities, mentoring programs, and events foster academic and professional development. The program positions students to recognize and seize opportunities for success. For details, visit osds.uncc.edu/engage-me/3.

WE Engage!
WE Engage! supports the academic and professional development of women in engineering, engineering technology and construction management. The program promotes and fosters peer and professional networking among women engineers through interactions that increase the recruitment, retention, graduation, and job placement for College of Engineering women students. For details, visit osds.uncc.edu/we-engage/about-we-engage.

Experiential Learning and Service Learning Opportunities
Students are encouraged to participate in professional work experiences in support of their academic and career development through the cooperative education, internships and service learning programs offered to students in the College. The College works with the University Career Center to expand experiential learning offerings to enable more students to graduate with career related experience. For more information about experiential learning opportunities, see the University Career Center section of this Catalog and visit osds.uncc.edu.

Cooperative Education (Co-op) Program
Students may obtain practical work experience while pursuing their degree by participating in cooperative education whereby a student alternates semesters of full-time academic study with semesters of full-time work experience in industry. Students may also do back-to-back Co-op experiences if their Fall or Spring semester Co-op session is combined with a Summer session. The work experience is under the direction of the student's major department and is closely related to his or her field of study. Students who fulfill all requirements of the Co-op program receive transcript notation, can earn up to three credit hours for a technical elective, and will receive partial credit toward the professional practice requirement for registration as a Professional Engineer in North Carolina.
To be eligible for the Co-op program, a student must have completed at least 30 credit hours at UNC Charlotte, including a number of specified courses with an overall minimum GPA of 2.5. A transfer student is expected to have completed at least 12 credit hours at UNC Charlotte.

For an undergraduate to be officially designated as a Co-op student, he or she must participate in at least three full-time semesters of work experience (three work sessions and three seminar courses). Consequently, participation in Co-op Education usually means that graduation can be delayed up to one year. However, students who participate in Co-op traditionally are more highly recruited at higher starting salaries than other students.

Students interested in learning more about the advantages and opportunities of participating in this program should contact the College’s Director for Student Professional Development and Employer Relations or the University Career Center. For details, visit osds.uncc.edu.

**Domestic Internships**

A number of opportunities for internships (either for-credit or not) exist for students at local and regional employers. Internships for College of Engineering students are almost always paid positions. UNC Charlotte University Career Center defines an Internship as requiring a minimum of 80 work hours which need to be completed in no less than five weeks for one semester. Fall and Spring semester internships are part-time. Summer internships may be full- or part-time. All students are eligible to apply for and accept internships posted in Hire-A-Niner.

Internships posted by the University Career Center do not routinely offer academic credit. Students can earn credit, when other options are not available, by registering for UCOL 3410 (Career Development Internship). UCOL 3410 allows Junior- and Senior-level students to earn one to three hours of elective credit, depending on criteria set by the employer and the University Career Center in consultation with the student’s major department. Approval for enrollment must be arranged before the student begins the work experience.

Students interested in learning more about the advantages and opportunities of participating in this program should contact the College’s Director for Student Professional Development and Employer Relations or the University Career Center. For details, visit osds.uncc.edu.

**International Experiences**

The College provides opportunities for overseas study, research, and/or an industrial experience. In many cases, students who meet eligibility requirements receive special scholarships and/or grants to help defray the cost of these programs.

**Fundamentals of Engineering (FE) Exam**

The first step in professional licensure is the FE exam. Students in ABET accredited programs may take the FE Exam at any time. The College encourages students to take and successfully pass this national examination during their Senior year. For details, visit pd.uncc.edu/fe-exam.

**Continuing Engineering Studies**

The College of Engineering sponsors various special educational programs for practicing engineers, technologists, technicians, and others, in addition to its regular academic degree programs and courses. These include conferences, short courses, seminars, and other continuing education programs designed to aid those practicing in technical professions and occupations to keep abreast of the latest developments in the rapidly expanding technology. For more information, visit the Office of Extended Academic Programs at exap.uncc.edu.
Department of Civil and Environmental Engineering

http://cee.uncc.edu

Undergraduate Programs
- B.S. in Civil Engineering
  - Energy Infrastructure
  - Land Development Engineering
- Early Entry: M.S. in Civil Engineering

The Department of Civil and Environmental Engineering provides outstanding educational and research experiences for students at all levels. Undergraduate students are exposed to technical content in all four civil engineering disciplines, including Environmental/Water Resources Engineering, Geotechnical Engineering, Structures, and Transportation, as part of the required curriculum. Students can also elect to earn a concentration in Land Development Engineering or Energy Infrastructure. Graduate students typically complete research and/or coursework focusing on one of these technical areas.

Some of the challenges faced by Civil Engineers include: 1) the analysis, design, construction, and monitoring of foundation systems, buildings, bridges, dams, and other structures; 2) water resources for urban use, industry, and land reclamation; 3) systems for water transmission and river control; 4) water quality control systems for purification and waste treatment; 5) transportation systems including highways, mass transit, airports, railroads, pipelines, canals, and harbor facilities; 6) solutions for environmental problems including air pollution, ground pollution, water pollution, noise pollution, ecological effects, land development, and urban and regional planning; and 7) power infrastructure design and testing. Civil engineers must balance the need for constructed facilities with the need to protect natural and social environments while safeguarding the health, safety, and welfare of the public.

Degree Programs
Civil and Environmental Engineering students can pursue the following degrees:

- Bachelor of Science in Civil Engineering (B.S.C.E.)
- Master of Science in Civil Engineering (M.S.C.E.)
- Master of Science in Engineering (M.S.E.)
- Doctor of Philosophy (Ph.D.) in Civil Engineering
- Doctor of Philosophy (Ph.D.) in Infrastructure and Environmental Systems (INES)

While the B.S.C.E. curriculum is designed to provide undergraduate students with a broad Civil and Environmental Engineering educational experience, undergraduate students may also select an optional concentration in two select areas:

- Energy Infrastructure
- Land Development Engineering

Students should consider the graduate study options offered by the Department of Civil and Environmental Engineering as they plan their undergraduate program of study. While qualified students can begin working on a Master’s degree at the completion of their B.S.C.E., students also have two options for an accelerated Master’s degree:

1) Incoming freshmen may elect to enroll in the 5-year program to obtain both a B.S. and an M.S. degree upon graduation.
2) An early-entry M.S. degree option is available to students who meet the 3.2 GPA criterion. Qualified students who elect this option apply to the Graduate School as an undergraduate student, and are permitted to double-count 9 credit hours of graduate coursework towards upper-level undergraduate electives. For additional information about the graduate programs, see the UNC Charlotte Graduate Catalog.

Program Educational Objectives
The Bachelor of Science in Civil Engineering (BSCE) Program Educational Objectives (PEO) listed below describe the program’s objectives for BSCE graduates three to five years after they have completed the program.

1) BSCE program graduates will be progressing successfully in their career by engaging in leadership positions in the Civil and Environmental Engineering profession or other career areas.

2) BSCE program graduates will be demonstrating integrity and ethical behavior in all professional activities. Graduates will further demonstrate professionalism by earning/obtaining professional licensure as appropriate for their chosen career, and by actively participating in professional activities.

3) BSCE program graduates will be demonstrating their technical ability to solve problems and/or manage engineering solutions from conception through implementation.

4) BSCE program graduates will be maintaining and expanding professional competencies and mastering emerging technologies by engaging in lifelong learning that includes graduate studies and professional education.

5) BSCE program graduates will strive to incorporate global, societal, economic, and environmental impacts in their professional work, consistent with the principles of sustainable development.

6) BSCE program graduates will be engaging and collaborating with the communities in which they live and work.

Accreditation
The undergraduate Civil Engineering Program within the Department of Civil and Environmental Engineering at The University of North Carolina at Charlotte is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.
Student Outcomes
The following student outcomes for the BSCE program support the program educational objectives. Attainment of these outcomes prepares graduates to enter the professional practice of engineering. Student outcomes include:

1) An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
2) An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;
3) An ability to communicate effectively with a range of audiences;
4) An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;
5) An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;
6) An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions; and
7) An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

ASCE Program Criteria
ABET requires that accredited programs meet program-specific criteria established by the American Society of Civil Engineers (ASCE). Specifically, the Civil Engineering program at UNC Charlotte must meet ASCE program-specific criteria related to: 1) Curriculum and 2) Faculty as outlined below:

1) Curriculum: The curriculum must prepare graduates to apply knowledge of mathematics through differential equations, calculus-based physics, chemistry, and at least one additional area of basic science; apply probability and statistics to address uncertainty; analyze and solve problems in at least four technical areas appropriate to civil engineering; conduct experiments in at least two technical areas of civil engineering and analyze and interpret the resulting data; design a system, component, or process in at least two civil engineering contexts; include principles of sustainability in design; explain basic concepts in project management, business, public policy, and leadership; analyze issues in professional ethics; and explain the importance of professional licensure.

2) Faculty: The program must demonstrate that faculty teaching courses that are primarily design in content are qualified to teach the subject matter by virtue of professional licensure, or by education and design experience. The program must demonstrate that it is not critically dependent on one individual.

Bachelor of Science in Civil Engineering (B.S.C.E.)
A Major in Civil Engineering leading to the Bachelor of Science in Civil Engineering (B.S.C.E.) degree consists of 120 credit hours.

Admission Requirements
Freshmen
Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

- Minimum GPA: n/a
- Pre-Major/Prerequisite Courses: Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.
- Other: Minimum SAT-Math score of 570 or ACT-Math subscore of 23
- Declaration of Major: Students may declare the major at time of admission or at any time if in good standing with the College and University.

Transfers
All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina articulation agreements. Transfers from an ABET-accredited engineering program who do not meet the GPA requirement may be admitted upon the recommendation of the chair of the major department.

- Minimum GPA: 2.5 (3.0 for Mechanical Engineering)
- Pre-Major/Prerequisite Courses: Calculus I course (with grade of C or above) equivalent to MATH 1241
- Transferable Credit Hours: 24

Academic Progression Requirements
Freshman Year Requirements
All new freshmen, early college students, and transfer students with only one year semester at another institution are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Earn at least a 2.250 GPA in the first semester.
- Complete all non-elective courses in the Freshman year curriculum with grades of C or above.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
• Complete the Freshman curriculum within three regular semesters, if starting in the required first semester mathematics course.
• Earn a 2.500 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements
• Maintain an overall GPA of 2.000 in the University.
• Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
• Take courses in the curriculum a maximum of two times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor.

A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Degree Requirements
General Education Courses (18-19 credit hours)
For details on required LBST, UWRT, and Social Sciences courses, refer to the General Education program. Elective courses should be chosen to satisfy University General Education requirements, meet the objectives of a broad education consistent with the educational goals of the profession, and complement the student's overall educational plan. To avoid taking "extra" elective courses, students must select their elective courses carefully after consulting with their faculty advisor.

Foundation Courses (30 credit hours)
Required Foundation Courses (27 credit hours)
CHEM 1251 - General Chemistry I (3)*
CHEM 1251L - General Chemistry I Lab (1)*
MATH 1241 - Calculus I (3)*
MATH 1242 - Calculus II (3)*
MATH 2171 - Differential Equations (3)*
MATH 2241 - Calculus III (3)*
PHYS 2101 - Physics for Science and Engineering I (3)*

PHYS 2101L - Physics for Science and Engineering I Lab (1)*
STAT 3128 - Probability and Statistics for Engineers (3)

Plus one of the following:
CHEM 1252 - General Chemistry II (3)
and CHEM 1252L - General Chemistry II Lab (1)
PHYS 2102 - Physics for Science and Engineering II (3)
and PHYS 2102L - Physics for Science and Engineering II Lab (1)

Elective Foundation Courses (3 credit hours)
Select one of the following:
BIOL 1110 - Principles of Biology I (3)
BIOL 1115 - Principles of Biology II (3)
BIOL 2120 - General Biology I (3)
BIOL 2259 - Fundamentals of Microbiology (3)
BIOL 2273 - Human Anatomy and Physiology (3)
BIOL 3111 - Cell Biology (3)
BIOL 4250 - Microbiology (3)
ESCI 1101 - Earth Sciences-Geography (3)
GEOL 1200 - Physical Geology (3)
GEOL 2100 - The Violent Earth (3)
GEOL 3190 - Environmental Geology (3)

Major Courses (48 credit hours)
ENGR 1201 - Introduction to Engineering Practices and Principles I (2)*
ENGR 1202 - Introduction to Engineering Practices and Principles II (2)*
ENGR 2102 - Engineering Economic Analysis (3)*
ENGR 2103 - Surveying and Technical Drawing (3)*
ENGR 2154 - Design Project Lab (2) (O)*
ENGR 3111 - Construction Engineering (3)*
ENGR 3122 - Structural Analysis (3)*
ENGR 3141 - Introduction to Environmental Engineering (3)*
ENGR 3143 - Hydraulics and Hydrology (3)*
ENGR 3153 - Transportation Lab (2) (W)
ENGR 3155 - Environmental Lab (2) (W)
ENGR 3161 - Transportation Engineering I (3)*
ENGR 3201 - Systems and Design (3)
ENGR 3255 - Structural Materials I Lab (2) (W)*
ENGR 3258 - Geotechnical Lab (2) (W)
ENGR 3278 - Geotechnical Engineering (3)*
ENGR 3295 - Multidisciplinary Professional Development (1)
ENGR 3296 - Engineering Mechanics I (3)*
ENGR 3297 - Introduction to Solid Mechanics (3)*

*A grade of C or above is required.

Elective Courses (24 credit hours)
Civil Engineering Design Elective Courses (6 credit hours)
Select one course in at least two technical areas (Options):

Option 1: Environmental Engineering
CEGR 4142 - Water Treatment Engineering (3)*
CEGR 4147 - Stormwater Management (3)*
CEGR 4242 - Wastewater Treatment Design (3)*

Option 2: Geotechnical Engineering
CEGR 4278 - Geotechnical Engineering II (3)*
CEGR 4264 - Landfill Design (3)*
CEGR 4270 - Earth Pressures and Retaining Structures (3)
Option 3: Structural Engineering
CEGR 3221 - Structural Steel Design I (3)*
CEGR 3225 - Reinforced Concrete Design I (3)*
CEGR 4122 - Power Plant Design (3)

Option 4: Transportation Engineering
CEGR 4161 - Advanced Traffic Engineering (3)*
CEGR 4162 - Transportation Planning (3)*
CEGR 4185 - Geometric Design of Highways (3)*
CEGR 4262 - Traffic Engineering (3)*

*A grade of C or above is required.

Mechanical/Electrical Engineering Elective Course (3 credit hours)
Select one of the following:
ECGR 2161 - Basic Electrical Engineering I (3)
MEGR 3111 - Thermodynamics I (3)
MEGR 3121 - Dynamics Systems I (3)

Civil Engineering Restricted Elective Courses (3 credit hours)
Select one of the following (that hasn’t already been taken):
CEGR 3221 - Structural Steel Design I (3)
CEGR 3225 - Reinforced Concrete Design I (3)

Civil Engineering Unrestricted Elective Courses (6 credit hours)
Select two from the following:
CEGR 3000-3999
CEGR 4000-4999

Technical Elective Courses (6 credit hours)
Select two technical elective courses from the list below. Any course not appearing on this list requires written permission from the Undergraduate Director prior to registering for the course. Any non-listed courses must be at the 3000-level or above and must come from one of the departments listed below.

Accounting
ACCT 3330 - Managerial Cost Accounting (3)

Biology
BIOL 4144 - Advanced Ecology (4) (W)
BIOL 4250 - Microbiology (3)
BIOL 3000-4999 – Biological Sciences Elective

Business Administration
BLAW 3150 - Business Law I (3)
BLAW 3250 - Business Law II (3)
COMM 3160 - Business Communications (3) (0,W)
CMET 4127 - Construction Law and Regulatory Issues (3)
FINN 3120 - Financial Management (3)
MKTG 3110 - Marketing Concepts (3)

Chemistry
CHEM 1252 - General Chemistry II (3)
CHEM 2000-4999 – Chemistry Elective

Computer Science
ITCS 3000-4999 – Computer Science Elective

Earth Sciences
ESCI 3180 - Environmental Impact Analysis (3)
ESCI 4140 - Hydrologic Processes (4)
GEOL 3130 - Structural Geology (4)
GEOL 3190 - Environmental Geology (3)
GEOL 3000-4999 – Geology Elective

Economics
ECON 3125 - Managerial Economics (3)
ECON 4150 - Urban and Regional Economics (3)
ECON 4160 - Economics of Transportation (3)
ECON 4171 - Economics of International Trade (3)
ECON 4181 - Energy and Environmental Economics (3)
ECON 3000-4999 – Economics Elective

Engineering
CEGR 3000-4999 – Civil Engineering Elective
ECGR 3000-4999 – Electrical and Computer Engineering Elective
MEGR 3000-4999 – Mechanical Engineering Elective
SEGR 3000-4999 – Systems Engineering Elective

Geography

Degree Total = 120 Credit Hours

Grade Requirements
A grade of C or above is required for select Major Courses, as noted above.

Concentrations
The B.S.C.E. degree is also available with optional Concentrations in Energy Infrastructure, Environmental/Water Resources Engineering, Geotechnical Engineering, Land Development Engineering, Structures, and Transportation. See the following individual listings for each.

Bachelor of Science in Civil Engineering (B.S.C.E.) with Concentration in Energy Infrastructure
The Bachelor of Science in Civil Engineering (B.S.C.E.) with a Concentration in Energy Infrastructure requires a minimum of 120 credit hours. The Concentration in Energy Infrastructure is intended for students interested in a specialized focus in energy as it relates to civil engineering, infrastructure, and environmental issues related to the development, generation, and distribution of energy.

Through careful course selection and scheduling, students can obtain the Concentration in Energy Infrastructure within the required 120-hour B.S.C.E. curriculum. Students completing the requirements described in this program receive a special designation on their transcripts showing they have completed the Concentration in Energy Infrastructure.

Admission Requirements
Freshmen
Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

- Minimum GPA: n/a
- Pre-Major/Prerequisite Courses: Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.
- Other: Minimum SAT-Math score of 570 or ACT-Math subscore of 23
- Declaration of Major: Students may declare the major at time of admission or at any time if in good standing with the College and University.

Sophomore through Senior Year Requirements

- Minimum GPA: 2.5 (3.0 for Mechanical Engineering)
- Pre-Major/Prerequisite Courses: Calculus I course (with grade of C or above) equivalent to MATH 1241
- Transferable Credit Hours: 24

Academic Progression Requirements
Freshman Year Requirements
All new freshmen, early college students, and transfer students with only one year semester at another institution are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Earn at least a 2.250 GPA in the first semester.
- Complete all non-elective courses in the Freshman year curriculum with grades of C or above.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Complete the Freshman curriculum within three regular semesters, if starting in the required first semester mathematics course.
- Earn a 2.500 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements

- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take courses in the curriculum a maximum of two times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a “Continuation Agreement” that is mutually agreed upon and signed by the student and his/her appropriate advisor.

A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a “Continuation Agreement” that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in
the student not being permitted to continue to enroll in College of Engineering courses.

**Degree Requirements**

**General Education Courses (18-19 credit hours)**

For details on required LBST, UWRT, and Social Sciences courses, refer to the General Education program. Elective courses should be chosen to satisfy University General Education requirements, meet the objectives of a broad education consistent with the educational goals of the profession, and complement the student's overall educational plan. To avoid taking “extra” elective courses, students must select their elective courses carefully after consulting with their faculty advisor.

**Foundation Courses (30 credit hours)**

*Required Foundation Courses (27 credit hours)*

- CHEM 1251 - General Chemistry I (3)*
- CHEM 1251L - General Chemistry I Lab (1)*
- MATH 1241 - Calculus I (3)*
- MATH 1242 - Calculus II (3)*
- MATH 2171 - Differential Equations (3)*
- MATH 2241 - Calculus III (3)*
- PHYS 2101 - Physics for Science and Engineering I (3)*
- PHYS 2101L - Physics for Science and Engineering I Lab (1)*
- STAT 3128 - Probability and Statistics for Engineers (3)

*Plus one of the following:

- CHEM 1252 - General Chemistry II (3)
- and CHEM 1252L - General Chemistry II Lab (1)
- PHYS 2102 - Physics for Science and Engineering II (3)
- and PHYS 2102L - Physics for Science and Engineering II Lab (1)

**Elective Foundation Course (3 credit hours)**

Select one of the following:

- BIOL 1110 - Principles of Biology I (3)
- BIOL 1115 - Principles of Biology II (3)
- BIOL 2120 - General Biology I (3)
- BIOL 2259 - Fundamentals of Microbiology (3)
- BIOL 2273 - Human Anatomy and Physiology (3)
- BIOL 3111 - Cell Biology (3)
- BIOL 4250 - Microbiology (3)
- ESCI 1101 - Earth Sciences-Geography (3)
- GEOL 1200 - Physical Geology (3)
- GEOL 2100 - The Violent Earth (3)
- GEOL 3190 - Environmental Geology (3)

**Major Courses (48 credit hours)**

- ENGR 1201 - Introduction to Engineering Practices and Principles I (2)*
- ENGR 1202 - Introduction to Engineering Practices and Principles II (2)*
- CEGR 2102 - Engineering Economic Analysis (3)*
- CEGR 2103 - Surveying and Technical Drawing (3)*
- CEGR 2154 - Design Project Lab (2) (O)*
- CEGR 3111 - Construction Engineering (3)*
- CEGR 3122 - Structural Analysis (3)*
- CEGR 3141 - Introduction to Environmental Engineering (3)*
- CEGR 3143 - Hydraulics and Hydrology (3)*
- CEGR 3153 - Transportation Lab (2) (W)
- CEGR 3155 - Environmental Lab (2) (W)
- CEGR 3161 - Transportation Engineering I (3)*
- CEGR 3201 - Systems and Design (3)

- CEGR 3255 - Structural Materials I Lab (2) (W)*
- CEGR 3258 - Geotechnical Lab (2) (W)
- CEGR 3278 - Geotechnical Engineering (3)*
- ENGR 3295 - Multidisciplinary Professional Development I
- MEGR 2141 - Engineering Mechanics I (3)*
- MEGR 2144 - Introduction to Solid Mechanics (3)*

*A grade of C or above is required.

**Elective Courses (24 credit hours)**

**Civil Engineering Design Elective Courses (6 credit hours)**

Select one course in at least two technical areas (Options):

- Option 1: Environmental Engineering
  - CEGR 4142 - Water Treatment Engineering (3)*
  - CEGR 4147 - Stormwater Management (3)*
  - CEGR 4242 - Wastewater Treatment Design (3)*

- Option 2: Geotechnical Engineering
  - CEGR 4278 - Geotechnical Engineering II (3)*
  - CEGR 4264 - Landfill Design (3)*
  - CEGR 4270 - Earth Pressures and Retaining Structures (3)

- Option 3: Structural Engineering
  - CEGR 3221 - Structural Steel Design I (3)*
  - CEGR 3225 - Reinforced Concrete Design I (3)*
  - CEGR 4122 - Power Plant Design (3)

- Option 4: Transportation Engineering
  - CEGR 4161 - Advanced Traffic Engineering (3)*
  - CEGR 4162 - Transportation Planning (3)*
  - CEGR 4185 - Geometric Design of Highways (3)*
  - CEGR 4262 - Traffic Engineering (3)*

*A grade of C or above is required.

**Mechanical/Electrical Engineering Elective Course (3 credit hours)**

Select one of the following:

- ECGR 2161 - Basic Electrical Engineering I (3)
- MEGR 3111 - Thermodynamics I (3)
- MEGR 3121 - Dynamics Systems I (3)

**Civil Engineering Restricted Elective Courses (3 credit hours)**

Select one of the following:

- CEGR 3221 - Structural Steel Design I (3)
- CEGR 3225 - Reinforced Concrete Design I (3)

**Civil Engineering Unrestricted Elective Courses (6 credit hours)**

Select two from the following:

- CEGR 3000-3999 – Civil Engineering Elective
- CEGR 4000-4999 – Civil Engineering Elective

**Technical Elective Courses (6 credit hours)**

Select two technical elective courses from the list below. Any course not appearing on this list requires written permission from the Undergraduate Director prior to registering for the course. Any non-listed courses must be at the 3000-level or above and must come from one of the departments listed below.

Bachelor of Science in Civil Engineering (B.S.C.E.) with Concentration in Land Development Engineering

The Bachelor of Science in Civil Engineering (B.S.C.E.) with a Concentration in Land Development Engineering is intended for students interested in a specialized focus in land development engineering as it relates to civil engineering and infrastructure issues.

Through careful course selection and scheduling, students can obtain the Concentration in Land Development Engineering within the required 120 credit hour B.S.C.E. curriculum. Students completing the requirements described in this program receive a special designation on their transcripts showing they have completed the Concentration in Land Development Engineering.

Admission Requirements

Freshmen

Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

- **Minimum GPA:** n/a
- **Pre-Major/Prerequisite Courses:** Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.
- **Other:** Minimum SAT-Math score of 570 or ACT-Math subscore of 23
- **Declaration of Major:** Students may declare the major at time of admission or at any time if in good standing with the College and University.

Transfers

All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina articulation agreements. Transfers from an ABET-accredited engineering program who do not meet the GPA requirement may be admitted upon the recommendation of the chair of the major department.

- **Minimum GPA:** 2.5 (3.0 for Mechanical Engineering)
- **Pre-Major/Prerequisite Courses:** Calculus I course (with grade of C or above) equivalent to MATH 1241
- **Transferable Credit Hours:** 24

Academic Progression Requirements

Freshman Year Requirements

All new freshmen, early college students, and transfer students with only one year semester at another institution are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Earn at least a 2.250 GPA in the first semester.
- Complete all non-elective courses in the Freshman year curriculum with grades of C or above.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Complete the Freshman curriculum within three regular semesters, if starting in the required first semester mathematics course.
- Earn a 2.500 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements

- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take courses in the curriculum a maximum of two times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor.

A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Degree Requirements

General Education Courses (18-19 credit hours)

For details on required LBST, UWRT, and Social Sciences courses, refer to the General Education program. Elective courses should be chosen to satisfy University General Education requirements, meet the objectives of a broad education consistent with the educational goals of the profession, and complement the student's overall educational plan. To avoid taking “extra” elective courses, students must select their elective courses carefully after consulting with their faculty advisor.

- MEGR 2144 - Introduction to Solid Mechanics (3)*

*A grade of C or above is required.

Elective Courses (24 credit hours)
Civil Engineering Design Elective Courses (6 credit hours)
Select one course in at least two technical areas (Options):
- Option 1: Environmental Engineering
  - CEGR 4142 - Water Treatment Engineering (3)*
  - CEGR 4147 - Stormwater Management (3)*
  - CEGR 4242 - Wastewater Treatment Design (3)*

- Option 2: Geotechnical Engineering
  - CEGR 4278 - Geotechnical Engineering II (3)*
  - CEGR 4264 - Landfill Design (3)*
  - CEGR 4270 - Earth Pressures and Retaining Structures (3)

- Option 3: Structural Engineering
  - CEGR 3221 - Structural Steel Design I (3)*
  - CEGR 3225 - Reinforced Concrete Design I (3)*
  - CEGR 4122 - Power Plant Design (3)

- Option 4: Transportation Engineering
  - CEGR 4161 - Advanced Traffic Engineering (3)*
  - CEGR 4162 - Transportation Planning (3)*
  - CEGR 4185 - Geometric Design of Highways (3)*
  - CEGR 4262 - Traffic Engineering (3)*

Mechanical/Electrical Engineering Elective Course (3 credit hours)
Select one of the following:
- ECGR 2161 - Basic Electrical Engineering I (3)
- MEGR 3111 - Thermodynamics I (3)
- MEGR 3121 - Dynamics Systems I (3)

Civil Engineering Restricted Elective Courses (3 credit hours)
Select one of the following:
- CEGR 3221 - Structural Steel Design I (3)
- CEGR 3225 - Reinforced Concrete Design I (3)

Civil Engineering Unrestricted Elective Courses (6 credit hours)
Select two from the following:
- CEGR 3000-3999
- CEGR 4000-4999

Technical Elective Courses (6 credit hours)
Select two technical elective courses from the list below. - Any course not appearing on this list requires written permission from the Undergraduate Director prior to registering for the course. - Any non-listed courses must be at the 3000-level or above and must come from one of the departments listed below.

Accounting
- ACCT 3330 - Managerial Cost Accounting (3)

Biology
- BIOL 4144 - Advanced Ecology (4) (W)
- BIOL 4250 - Microbiology (3)
- BIOL 3000-4999

Business Administration
- BLAW 3150 - Business Law I (3)
- BLAW 3250 - Business Law II (3)
- COMM 3160 - Business Communications (3) (O,W)
- CMET 4127 - Construction Law and Regulatory Issues (3)
- FINN 3120 - Financial Management (3)
MKTG 3110 - Marketing Concepts (3)

Chemistry
CHEM 1252 - General Chemistry II (3)
CHEM 2000-4999

Computer Science
ITCS 3000-4999

Earth Sciences
ESCI 3180 - Environmental Impact Analysis (3)
ESCI 4140 - Hydrologic Processes (4)
GEOL 3130 - Structural Geology (4)
GEOL 3190 - Environmental Geology (3)
GEOL 3000-4999

Economics
ECON 3125 - Managerial Economics (3)
ECON 4150 - Urban and Regional Economics (3)
ECON 4160 - Economics of Transportation (3)
ECON 4171 - Economics of International Trade (3)
ECON 4181 - Energy and Environmental Economics (3)
ECON 3000 level or above course

Engineering
CEGR 3000-4999
ECGR 3000-4999
MEGR 3000-4999
SEGR 3000-4999

Geography
GEOG 2120 - Geographic Information Systems: Survey of Applications and Techniques (4)
GEOG 3100 - The City and Its Region (3)
GEOG 3115 - Urban Transportation Problems (3) (W)
GEOG 3150 - Manufacturing Geography (3)
GEOG 3200 - Land Use Planning (3)
GEOG 3210 - Regional Planning (3)
GEOG 3215 - Environmental Planning (3) (W)
GEOG 4155 - Retail Location (3)
GEOG 4160 - The Geography of Transportation Systems (3)
GEOG 3000-4999

Management Information Systems
INFO 3000-4999

Mathematics
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2242 - Calculus IV (3)
MATH 3000-4999

Physics
PHYS 3000-4999

Operations Management
OPER 3100 - Operations Management (3)
OPER 3201 - Operations Planning and Control (3)
OPER 3203 - Decision Modeling and Analysis (3)
OPER 3204 - Management of Service and Project Operations (3)
OPER 3206 - Quality Assurance and Management (3)

Operations Research
OPRS 3111 - Operations Research: Deterministic Models (3)
OPRS 3113 - Operations Research: Probabilistic Models (3)
OPRS 3000-4999

Statistics
STAT 3000 level or above course

Concentration Requirements
Of the 120 required credit hours in the B.S.C.E. degree, students opting for this concentration must complete a minimum of 12 credit hours that satisfy the following requirements:

Concentration Courses (6 credit hours)
CEGR 3231 - Land Development Engineering Fundamentals (3)
CEGR 4185 - Geometric Design of Highways (3)

Concentration Elective Courses (6 credit hours)
Select two of the following:
CEGR 3233 - Land Development Engineering Studio (3)
CEGR 3235 - Land Development Engineering – Advanced Site Analysis (3)
CEGR 4147 - Stormwater Management (3)
CEGR 4247 - Sustainability (3)

Degree Total = 120 Credit Hours

Grade Requirements
A grade of C or above is required for select Major Courses, as noted above. Students must earn at least a 2.5 GPA in the selected Concentration Courses.

Early Entry: Master of Science in Civil Engineering
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Minimum 3.2 GPA in the major
- Acceptable scores on the appropriate graduate standardized test (e.g., GRE)
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Department of Civil and Environmental Engineering and approved by the Graduate School

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
• Maintain a minimum 3.0 overall undergraduate GPA
• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 9 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 9 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Accelerated Master’s Program
(for High School Seniors and UNC Charlotte Undergraduate Freshmen)
Academically talented high school seniors and UNC Charlotte undergraduate freshmen are encouraged to apply to an Accelerated Master’s Program to begin work toward both undergraduate and graduate degrees in their Freshman year.

Admission Requirements
• Minimum high school GPA of 3.75 (on a 4.0 scale)
• Minimum score of 1220 on the new SAT
• Online application for graduate admission
• Note: Enrollment will be based on program capacity, and certain programs may have more stringent admission policies

Continued Enrollment Requirements
Students must maintain a strong academic record at both the undergraduate and graduate levels with a cumulative undergraduate GPA of 3.2 or higher and a cumulative graduate GPA of 3.0 or higher. Students accepted into the Accelerated Master’s Program are subject to the same policies that pertain to other matriculated graduate students.

Double-Counted Courses
Up to 9 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 9 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on the Accelerated Master’s Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/accelerated-masters.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Undergraduate Programs
• B.S. in Computer Engineering (BSCpE)
  ○ Machine Learning
• B.S. in Electrical Engineering (BSEE)
  ○ Machine Learning
  ○ Power and Energy Systems
• B.S. in Computer Engineering and Physics Dual Degree (see College of Liberal Arts & Sciences section under the Department of Physics heading)
• B.S. in Electrical Engineering and Physics Dual Degree (see College of Liberal Arts & Sciences section under the Department of Physics heading)
• Minor in Computer Engineering
• Minor in Electrical Engineering
• Early Entry: M.S. in Computer Engineering
• Early Entry: M.S. or Ph.D. in Electrical Engineering

The Department of Electrical and Computer Engineering (ECE) provides instruction and research in areas of electrical and computer engineering such as electronics, electromagnetics, communication systems and networks, control systems, machine learning, signal and image processing, computer hardware and software, power systems, digital systems, VLSI design, embedded systems, robotics, microelectronics, optoelectronics, nanotechnology, and biomedical engineering. ECE majors take a common set of foundational courses to build basic math, science and engineering skills. Students gain experience through hands-on laboratory and design courses culminating in a senior project that combines both theory and design.

Degree Programs
Electrical and Computer Engineering students can pursue the following degrees:
• Bachelor of Science in Electrical Engineering (B.S.E.E.)
• Bachelor of Science in Computer Engineering (B.S.Cp.E.)
• Master of Science in Electrical Engineering (M.S.E.E.)
• Master of Science in Computer Engineering (M.S.Cp.E.)
• Doctor of Philosophy in Electrical Engineering (Ph.D.)

Undergraduate students can focus on specific elective coursework to gain concentrations in Machine Learning (B.S.E.E. and B.S.Cp.E.) and Power and Energy Systems (B.S.E.E. only). Undergraduates interested in post-
graduate studies can qualify for the accelerated early-entry M.S. degree program. Early-entry students gain access to graduate courses during their undergraduate education whose credits double-count towards both B.S. and M.S. degrees.

Special curricula are provided for three multi-disciplinary double-major and dual-degree programs:

- Double-Major: Electrical Engineering and Computer Engineering
- Dual Degree: Electrical Engineering and Physics
- Dual Degree: Computer Engineering and Physics

Students following the curricula for these programs can graduate in only one additional semester of coursework.

Accreditation
Both the program in Electrical Engineering and the program in Computer Engineering are accredited by the Engineering Accreditation Commission of ABET, www.abet.org.

B.S.C.P.E./B.S.E.E. Program Educational Objectives
Our undergraduate programs prepare our graduates to:

1) Achieve successful careers in industry and/or success in post-baccalaureate studies as evidenced by:
   - Being valuable contributors to their employers
   - Career satisfaction
   - Professional visibility through publications, presentations, recognitions, and awards
   - Promotions in their chosen professions
   - Advanced degrees earned

2) Contribute to the betterment of society and the world as evidenced by:
   - Good citizenship by engaging in engineering practice that values integrity and ethical conduct as paramount
   - Useful inventions
   - Entrepreneurial activities
   - Active involvement in the education of others, locally or globally

B.S.C.P.E./B.S.E.E. Program Learning Outcomes
Our undergraduate programs require students to learn these knowledge and skills by the time of graduation:

- An ability to apply knowledge of mathematics, science, and engineering
- An ability to design and conduct experiments, as well as to analyze and interpret data
- An ability to design a system, component, or process to meet desired needs
- An ability to function on multi-disciplinary teams
- An ability to identify, formulate, and solve engineering problems
- An understanding of professional and ethical responsibility
- An ability to communicate effectively
- An ability to understand the impact of engineering solutions in a global and societal context
- A recognition of the need for, and an ability to engage in life-long learning
- A knowledge of contemporary issues
- An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice
- The ability to articulate and address issues related to entrepreneurship

Bachelor of Science in Computer Engineering (B.S.C.P.E.)
A Major in Computer Engineering leading to the B.S.C.P.E. degree consists of 120 credit hours.

The Bachelor of Science in Computer Engineering (B.S.C.P.E.) degree has a very structured curriculum. An eight-semester sequence of courses at more than a full-time load forms the core of the curriculum to develop the concepts and design and analysis techniques fundamental to the various areas of specialization. This program should be initiated early while at UNC Charlotte. Beginning the program late or after transferring from another institution will likely delay completion within 4 years.

Emphasis is placed on the utilization of computers throughout the curricula. Graduates have a wide range of job opportunities as power engineers, communication engineers, digital design engineers, test engineers, embedded system developers, network engineers, control engineers, project engineers, robotic system engineers, optoelectronic engineers, application engineers, analog engineers, medical product engineers, and process engineers.

Admission Requirements
Freshmen
Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

- Minimum GPA: n/a
- Pre-Major/Prerequisite Courses: Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.
- Other: Minimum SAT-Math score of 570 or ACT-Math subscore of 23
- Declaration of Major: Students may declare the major at time of admission or at any time if in good standing with the College and University.

Transfers
All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina
articulation agreements. Transfers from an ABET-accredited engineering program who do not meet the GPA requirement may be admitted upon the recommendation of the chair of the major department.

- **Minimum GPA**: 2.5 (3.0 for Mechanical Engineering)
- **Pre-Major/Prerequisite Courses**: Calculus I course (with grade of C or above) equivalent to MATH 1241
- **Transferable Credit Hours**: 24

**Academic Progression Requirements**

**Freshman Year Requirements**

All new freshmen, early college students, and transfer students with only one year semester at another institution are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Earn at least a 2.250 GPA in the first semester.
- Complete all non-elective courses in the Freshman year curriculum with grades of C or above.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Complete the Freshman curriculum within three regular semesters, if starting in the required first semester mathematics course.
- Earn a 2.500 cumulative GPA upon completion of the Freshman curriculum.

**Sophomore through Senior Year Requirements**

- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take courses in the curriculum a maximum of two times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

**Degree Requirements**

**General Education Courses (18-19 credit hours)**

For details on required LBST and UWRT courses, refer to the General Education program. Students in this major should also plan on taking the following course that meets both general education and major requirements.

- **ECON 2101 - Principles of Economics – Macro** (3)
  or **ECON 2102 - Principles of Economics – Micro** (3)

**Pre-Major Courses (14 credit hours)**

- **ENGR 1201 - Introduction to Engineering Practices and Principles I** (2)
- **ENGR 1202 - Introduction to Engineering Practices and Principles II** (2)
- **MATH 1241 - Calculus I** (3)
- **MATH 1242 - Calculus II** (3)
- **PHYS 2101 - Physics for Science and Engineering I** (3)
- **PHYS 2101L - Physics for Science and Engineering I Lab** (1)

**Major Courses (53 credit hours)**

- **ECGR 2103 - Computer Utilization in C++** (3)
- **ECGR 2104 - Computer Engineering Programming II** (3)
- **ECGR 2111 - Network Theory I** (3)
- **ECGR 2112 - Network Theory II** (3)
- **ECGR 2155 - Instrumentation and Networks Laboratory** (1) (W)
- **ECGR 2156 - Logic and Networks Laboratory** (1) (W)
- **ECGR 2181 - Logic Systems Design** (3)
- **ECGR 2254 - Analytical Foundations of Electrical and Computer Engineering** (3)
- **ECGR 3101 - Embedded Systems** (3)
- **ECGR 3111 - Signals and Systems** (3)
- **ECGR 3123 - Data Communications and Networking** (3)
- **ECGR 3131 - Fundamentals of Electronics and Semiconductors** (3)
- **ECGR 3155 - Systems and Electronics Laboratory** (1) (W)
- **ECGR 3157 - ECE Junior Design** (3) (0)
- **ECGR 3159 - Professional Practice** (1)
- **ECGR 3180 - Data Structures and Algorithms in C++** (3)
- **ECGR 3183 - Computer Organization** (3)
- **ECGR 4124 - Digital Signal Processing** (3)
- **ECGR 4251 - Computer Engineering Senior Design I** (2) (0,W)
- **ECGR 4252 - Computer Engineering Senior Design II** (2) (0,W)
- **ECGR 4433 - VLSI Systems Design** (3)

**Related Courses (20 credit hours)**

- **ENGR 3295 - Multidisciplinary Professional Development** (1)
- **MATH 1165 - Introduction to Discrete Structures** (3)
- **MATH 2164 - Matrices and Linear Algebra** (3)
- **MATH 2171 - Differential Equations** (3)
- **MATH 2241 - Calculus III** (3)
- **PHYS 2102 - Physics for Science and Engineering II** (3)
- **PHYS 2102L - Physics for Science and Engineering II Lab** (1)
- **STAT 3128 - Probability and Statistics for Engineers** (3)
Technical Elective Courses (15 credit hours)
1) Select three ECGR 4000-level courses that are not required as part of the curriculum.

2) The remaining two technical elective courses may be chosen from any of the following that are not part of the degree requirements:

- CEGR 3000-level courses
- CEGR 4000-level courses
- ECGR 3000-level courses
- ECGR 4000-level courses
- ITCS 3000-level courses
- ITCS 4000-level courses
- MATH 3000-level courses
- MATH 4000-level courses
- MEGR 3000-level courses
- MEGR 4000-level courses
- PHYS 3000-level courses
- PHYS 4000-level courses
- SEGR 3000-level courses
- SEGR 4000-level courses

Degree Total = 120 Credit Hours

Grade Requirements
A GPA in the major and overall GPA of 2.0 or above is required.

Bachelor of Science in Computer Engineering (B.S.CP.E.) with Concentration in Machine Learning
The Bachelor of Science in Computer Engineering (B.S.CP.E.) with Concentration in Machine Learning is intended for students interested in extra training in topics related to the theory, design, and synthesis of intelligent machines with an emphasis on design of machines capable of autonomously learning rules that enable these machines to adapt their behavior from observed measurements. The plan of study for the B.S.CP.E. with Concentration in Machine Learning is similar to the B.S.CP.E. plan of study with the following primary exception:

Students pursuing the B.S.CP.E. with Concentration in Machine Learning are required to enroll in approved Machine Learning Technical Electives, usually during the Junior and Senior year, to complete their degree requirements.

Through careful course selection and scheduling, students can obtain the Concentration in Machine Learning within the required 120 credit hour B.S.CP.E. curriculum. Students completing the requirements described in this program receive a special designation on their transcripts showing they have completed the Concentration in Machine Learning.

Admission Requirements
Freshmen
Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

Transfers
All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina articulation agreements. Transfers from an ABET-accredited engineering program who do not meet the GPA requirement may be admitted upon the recommendation of the chair of the major department.

- Minimum GPA: n/a
- Pre-Major/Prerequisite Courses: Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.
- Other: Minimum SAT-Math score of 570 or ACT-Math subscore of 23
- Declaration of Major: Students may declare the major at time of admission or at any time if in good standing with the College and University.

Academic Progression Requirements
Freshman Year Requirements
All new freshmen, early college students, and transfer students with only one year semester at another institution are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Minimum GPA: 2.5 (3.0 for Mechanical Engineering)
- Pre-Major/Prerequisite Courses: Calculus I course (with grade of C or above) equivalent to MATH 1241
- Transferable Credit Hours: 24

Sophomore through Senior Year Requirements
- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take courses in the curriculum a maximum of two times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.
An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor.

A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

**Degree Requirements**

**General Education Courses (18-19 credit hours)**
For details on required LBST and UWRT courses, refer to the General Education Program. Students in this major should also plan on taking the following course that meets both general education and major requirements.

- ECON 2101 - Principles of Economics - Macro (3)
- or ECON 2102 - Principles of Economics - Micro (3)

**Pre-Major Courses (14 credit hours)**

- ENGR 1201 - Introduction to Engineering Practices and Principles I (2)
- ENGR 1202 - Introduction to Engineering Practices and Principles II (2)
- MATH 1241 - Calculus I (3)
- MATH 1242 - Calculus II (3)
- PHYS 2101 - Physics for Science and Engineering I (3)
- PHYS 2101L - Physics for Science and Engineering I Laboratory (1)

**Major Courses (53 credit hours)**

- ECGR 2103 - Computer Utilization in C++ (3)
- ECGR 2104 - Computer Engineering Programming II (3)
- ECGR 2111 - Network Theory I (3)
- ECGR 2112 - Network Theory II (3)
- ECGR 2155 - Instrumentation and Networks Laboratory (1) (W)
- ECGR 2156 - Logic and Networks Laboratory (1) (W)
- ECGR 2161 - Basic Electrical Engineering I (3)
- ECGR 2254 - Analytical Foundations of Electrical and Computer Engineering (3)
- ECGR 3101 - Embedded Systems (3)
- ECGR 3111 - Signals and Systems (3)
- ECGR 3123 - Data Communications and Networking (3)
- ECGR 3131 - Fundamentals of Electronics and Semiconductors (3)
- ECGR 3155 - Systems and Electronics Laboratory (1) (W)
- ECGR 3157 - ECE Junior Design (3) (O)
- ECGR 3159 - Professional Practice (1)
- ECGR 3180 - Data Structures and Algorithms in C++ (3)
- ECGR 3183 - Computer Organization (3)
- ECGR 4124 - Digital Signal Processing (3)
- ECGR 4251 - Computer Engineering Senior Design I (2) (O,W)
- ECGR 4252 - Computer Engineering Senior Design II (2) (O,W)
- ECGR 4433 - VLSI Systems Design (3)

**Concentration Courses (9 credit hours)**
- ECGR 4105 - Introduction to Machine Learning (3)

**Concentration Elective Courses (6 credit hours)**
Select two of the following:
- ECGR 4106 - Real-Time Machine Learning (3)
- ECGR 4115 - Convex Optimization and AI Applications (3)
- ECGR 4127 - Machine Learning for the Internet of Things (3)
- ECGR 4090 - Special Topics in Electrical Engineering (1 to 4) (requires department approval)

**Related Courses (20 credit hours)**
- ENGR 3295 - Multidisciplinary Professional Development (1)
- MATH 1165 - Introduction to Discrete Structures (3)
- MATH 2164 - Matrices and Linear Algebra (3)
- MATH 2171 - Differential Equations (3)
- MATH 2241 - Calculus III (3)
- PHYS 2101 - Physics for Science and Engineering I (3)
- PHYS 2102 - Physics for Science and Engineering II (3)
- PHYS 2102L - Physics for Science and Engineering II Laboratory (1)
- STAT 3128 - Probability and Statistics for Engineers (3)

**Technical Elective Courses (6 credit hours)**
Select two technical elective courses from any of the following that are not part of the degree requirements:

- CEGR 3000-level courses
- CEGR 4000-level courses
- ECGR 3000-level courses
- ECGR 4000-level courses
- ITCS 3000-level courses
- ITCS 4000-level courses
- MATH 3000-level courses
- MATH 4000-level courses
- MEGR 3000-level courses
- MEGR 4000-level courses
- PHYS 3000-level courses
- PHYS 4000-level courses
- SEG 3000-level courses
- SEG 4000-level courses

**Degree Total = 120 Credit Hours**

**Grade Requirements**
All non-elective Freshman year courses must be completed with C or above prior to enrolling in any Junior level courses. In order to remain in the concentration, students must maintain a minimum (overall and program) GPA of 2.5. A GPA in the major and overall GPA of 2.5 or above is also required to graduate.
Bachelor of Science in Electrical Engineering (B.S.E.E.)

A Major in Electrical Engineering leading to the B.S.E.E. degree consists of a total of 120 credit hours.

The Bachelor of Science in Electrical Engineering (B.S.E.E.) degree has a very structured curriculum. An eight-semester sequence of courses at more than a full-time load forms the core of the curriculum to develop the concepts and design and analysis techniques fundamental to the various areas of specialization. This program should be initiated early while at UNC Charlotte. Beginning the program late or after transferring from another institution will likely delay completion within 4 years.

Emphasis is placed on the utilization of computers throughout the curricula. Graduates have a wide range of job opportunities as power engineers, communication engineers, digital design engineers, test engineers, embedded system developers, network engineers, control engineers, project engineers, robotic system engineers, optoelectronic engineers, application engineers, analog engineers, medical product engineers, and process engineers.

Admission Requirements

Freshmen

Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

- **Minimum GPA:** n/a
- **Pre-Major/Prerequisite Courses:** Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.
- **Other:** Minimum SAT-Math score of 570 or ACT-Math subscore of 23
- **Declaration of Major:** Students may declare the major at time of admission or at any time if in good standing with the College and University.

Transfers

All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina articulation agreements. Transfers from an ABET-accredited engineering program who do not meet the GPA requirement may be admitted upon the recommendation of the chair of the major department.

- **Minimum GPA:** 2.5 (3.0 for Mechanical Engineering)
- **Pre-Major/Prerequisite Courses:** Calculus I course (with grade of C or above) equivalent to MATH 1241
- **Transferable Credit Hours:** 24

Academic Progression Requirements

**Freshman Year Requirements**

All new freshmen, early college students, and transfer students with only one year semester at another institution are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Earn at least a 2.250 GPA in the first semester.
- Complete all non-elective courses in the Freshman year curriculum with grades of C or above.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Complete the Freshman curriculum within three regular semesters, if starting in the required first semester mathematics course.
- Earn a 2.500 cumulative GPA upon completion of the Freshman curriculum.

**Sophomore through Senior Year Requirements**

- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take courses in the curriculum a maximum of two times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor.

A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

**Degree Requirements**

**General Education Courses** (18-19 credit hours)

For details on required LBST and UWRT courses, refer to the General
Education program. The liberal studies electives must be chosen to satisfy the University General Education Requirements and to meet the objectives of a broad education consistent with the educational goals of the profession. Students in this major should also plan on taking the following course that meets both general education and major requirements.

ECON 2101 - Principles of Economics – Macro (3)
   or ECON 2102 - Principles of Economics – Micro (3)

Pre-Major Courses (14 credit hours)
ENGR 1201 - Introduction to Engineering Practices and Principles I (2)
ENGR 1202 - Introduction to Engineering Practices and Principles II (2)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
PHYS 2101 - Physics for Science and Engineering I (3)
PHYS 2101L - Physics for Science and Engineering I Lab (1)

Major Courses (51 credit hours)
ECGR 2103 - Computer Utilization in C++ (3)
ECGR 2111 - Network Theory I (3)
ECGR 2112 - Network Theory II (3)
ECGR 2155 - Instrumentation and Networks Laboratory I (W) *
ECGR 2156 - Logic and Networks Laboratory I (W) *
ECGR 2181 - Logic Systems Design (3)
ECGR 2254 - Analytical Foundations of Electrical and Computer Engineering (3)
ECGR 3111 - Signals and Systems (3)
ECGR 3112 - System Analysis II (3)
ECGR 3121 - Introduction to Electromagnetic Fields (3)
ECGR 3122 - Electromagnetic Waves (3)
ECGR 3131 - Fundamentals of Electronics and Semiconductors (3)
ECGR 3132 - Electronics (3)
ECGR 3142 - Electrical Energy Conversion (3)
ECGR 3155 - Systems and Electronics Laboratory I (W) *
ECGR 3156 - Electromagnetic and Electronic Devices Laboratory I (W) *
   or ECGR 4123 - Analog and Digital Communication (3)
   or ECGR 4124 - Digital Signal Processing (3)
ECGR 4241 - Electrical Engineering Senior Design I (2) (O,W)
ECGR 4242 - Electrical Engineering Senior Design II (2) (O,W)

*The laboratory courses are designed to: (1) teach the basic techniques of instrumentation; (2) develop skills in communications; and (3) relate the analytical methods developed in the classroom to the performance of real physical systems.

Related Courses (19 credit hours)
ENGR 3295 - Multidisciplinary Professional Development (1)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2171 - Differential Equations (3)
MATH 2241 - Calculus III (3)
PHYS 2102 - Physics for Science and Engineering II (3)
PHYS 3141 - Introduction to Modern Physics (3)
STAT 3128 - Probability and Statistics for Engineers (3)

Restrictive Elective Courses (18 credit hours)

Technical Elective Courses (12 credit hours)

Select four ECGR 4000-level courses that are not required as part of the curriculum.

Elective Courses (6 credit hours)
Select two courses from the following that are not already part of the curriculum:

CEGR 3000-level courses
CEGR 4000-level courses
ITCS 3000-level courses
ITCS 4000-level courses
MEGR 3000-level courses
MEGR 4000-level courses
PHYS 3000-level courses
PHYS 4000-level courses
SEGR 3000-level courses
SEGR 4000-level courses

Degree Total = 120 Credit Hours

Grade Requirements
A GPA in the major and overall GPA of 2.0 or above is required.

Bachelor of Science in Electrical Engineering (B.S.E.E.) with Concentration in Machine Learning

The Bachelor of Science in Electrical Engineering (B.S.E.E.) with Concentration in Machine Learning is intended for students interested in extra training in topics related to the theory, design and synthesis of intelligent machines with an emphasis on design of machines capable of autonomously learning rules that enable these machines to adapt their behavior from observed measurements. The plan of study for the B.S.E.E. with Concentration in Machine Learning is similar to the BSEE plan of study with the following primary exception:

Students pursuing the B.S.E.E. with Concentration in Machine Learning are required to enroll in approved Machine Learning Technical Electives, usually during the Junior and Senior year, to complete their degree requirements.

Through careful course selection and scheduling, students can obtain the Concentration in Machine Learning within the required 120 credit hour B.S.E.E. curriculum. Students completing the requirements described in this program receive a special designation on their transcripts showing they have completed the Concentration in Machine Learning.

Admission Requirements
Freshmen
Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.
Transfers
All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina articulation agreements. Transfers from an ABET-accredited engineering program who do not meet the GPA requirement may be admitted upon the recommendation of the chair of the major department.

- Minimum GPA: 2.5 (3.0 for Mechanical Engineering)
- Pre-Major/Prerequisite Courses: Calculus I course (with a grade of C or above) equivalent to MATH 1241
- Transferable Credit Hours: 24

Degree Requirements

General Education Courses (18-19 credit hours)
For details on required LBST and UWRT courses, refer to the General Education Program. The liberal studies electives must be chosen to satisfy the University General Education Requirements and to meet the objectives of a broad education consistent with the educational goals of the profession. Students in this major should also plan on taking one of the following courses that meets both general education and major requirements.

- ECON 2101 - Principles of Economics - Macro (3)
- ECON 2102 - Principles of Economics - Micro (3)

Pre-Major Courses (14 credit hours)
- ENGR 1201 - Introduction to Engineering Practices and Principles I (2)
- ENGR 1202 - Introduction to Engineering Practices and Principles II (2)
- MATH 1241 - Calculus I (3)
- MATH 1242 - Calculus II (3)
- PHYS 2101 - Physics for Science and Engineering I (3)
- PHYS 2101L - Physics for Science and Engineering I Laboratory (1)

Major Courses (51 credit hours)
- ECGR 2103 - Computer Utilization in C++ (3)
- ECGR 2111 - Network Theory I (3)
- ECGR 2112 - Network Theory II (3)
- ECGR 2155 - Instrumentation and Networks Laboratory I (W) *
- ECGR 2156 - Logic and Networks Laboratory I (W) *
- ECGR 2181 - Logic Systems Design (3)
- ECGR 2254 - Analytical Foundations of Electrical and Computer Engineering (3)
ECGR 3111 - Signals and Systems (3)  
ECGR 3112 - System Analysis II (3)  
ECGR 3121 - Introduction to Electromagnetic Fields (3)  
ECGR 3122 - Electromagnetic Waves (3)  
ECGR 3131 - Fundamentals of Electronics and Semiconductors (3)  
ECGR 3132 - Electronics (3)  
ECGR 3142 - Electrical Energy Conversion (3)  
ECGR 3155 - Systems and Electronics Laboratory (1) (W) *  
ECGR 3156 - Electromagnetic and Electronic Devices Laboratory (1) (W)*  
ECGR 3157 - ECE Junior Design (3) (O)  
ECGR 4241 - Electrical Engineering Senior Design I (2) (O,W)  
ECGR 4242 - Electrical Engineering Senior Design II (2) (O,W)  
ECGR 4123 - Analog and Digital Communication (3)  
or  ECGR 4124 - Digital Signal Processing (3)  

* The laboratory courses are designed to: (1) teach the basic techniques of instrumentation; (2) develop skills in communications; and (3) relate the analytical methods developed in the classroom to the performance of real physical systems.

Related Courses (19 credit hours)  
ENGR 3295 - Multidisciplinary Professional Development (1)

STAT 3128 - Probability and Statistics for Engineers (3)  

Concentration Courses (9 credit hours)  
Concentration Required Course (3 credit hours)  
ECGR 4105 - Introduction to Machine Learning (3)  

Concentration Elective Courses (6 credit hours)  
Select two of the following:  
ECGR 4106 - Real-Time Machine Learning (3)  
ECGR 4115 - Convex Optimization and AI Applications (3)  
ECGR 4127 - Machine Learning for the Internet of Things (3)  
ECGR 4090 - Special Topics in Electrical Engineering (1 to 4) (requires department approval)  

Restricted Elective Courses (9 credit hours)  
Technical Elective Course (3 credit hours)  
Select one ECGR 4000-level course that is not required as part of the curriculum.  

Elective Courses (6 credit hours)  
Select two courses from the following that are not already required in the curriculum:  
CEGR 3000-level courses  
ECGR 4000-level courses  
ECGR 3000-level courses  
ECGR 4000-level courses  
MATH 3000-level courses  
MATH 4000-level courses  
MEGR 3000-level courses  
MEGR 4000-level courses  
PHYS 3000-level courses  
PHYS 4000-level courses  
SEGR 3000-level courses  

SEGR 4000-level courses  
Degree Total = 120 Credit Hours  

Grade Requirements  
All non-elective Freshman year courses must be completed with C or above prior to enrolling in any Junior level courses. In order to remain in the concentration, students must maintain a minimum (overall and program) GPA of 2.5. A GPA in the major and overall GPA of 2.5 or above is also required to graduate.  

Bachelor of Science in Electrical Engineering (B.S.E.E.) with Concentration in Power and Energy Systems  
Students pursuing the Bachelor of Science in Electrical Engineering (BSEE) degree may choose to add a Concentration in Power and Energy Systems. The plan of study for the BSEE with a Concentration in Power and Energy Systems is similar to the BSEE plan of study with three primary exceptions:

1) All BSEE students are required to complete Technical Elective courses, usually during the Junior and Senior year. Students pursuing the BSEE with a Concentration in Power and Energy Systems are required to enroll in approved Power and Energy Technical Electives only. See required courses below.

2) During the Senior year, Power and Energy Systems Concentration students must complete an intensive, two-semester energy-related Senior design project.

3) Students in the concentration are strongly encouraged to take the Fundamentals of Engineering (FE) exam prior to graduation.

Admission Requirements  
Freshmen  
Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

- Minimum GPA: n/a  
- Pre-Major/Prerequisite Courses: Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.

- Other: Minimum SAT-Math score of 570 or ACT-Math subscore of 23  
- Declaration of Major: Students may declare the major at time of admission or at any time if in good standing with the College and University.

Transfers  
All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina articulation agreements. Transfers from an ABET-accredited
An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor.

A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Additional Admission Requirements

Students must apply for admission and may enter the Concentration in Power and Energy Systems program during their Junior year only. To be admitted to the program, students must have completed the courses listed below. Additionally, an overall GPA of 3.0 is required for admission into the Concentration in Power and Energy Systems.

ECGR 2112 - Network Theory II (3)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2241 - Calculus III (3)
PHYS 2102 - Physics for Science and Engineering II (3)

Degree Requirements

General Education Courses (18-19 credit hours)

For details on required LBST and UWRT courses, refer to the General Education program. The liberal studies electives must be chosen to satisfy the University General Education Requirements and to meet the objectives of a broad education consistent with the educational goals of the profession. Students in this major should also plan on taking one of the following courses that meets both general education and major requirements.

ECON 2101 - Principles of Economics – Macro (3)
or ECON 2102 - Principles of Economics – Micro (3)

Pre-Major Courses (14 credit hours)

ENGR 1201 - Introduction to Engineering Practices and Principles I (2)
ENGR 1202 - Introduction to Engineering Practices and Principles II (2)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)

ECGR 4191 - Dynamic and Transient Analysis of Power Systems (3)

Restricted Elective Courses (9 credit hours)
Technical Elective Course (3 credit hours)
Select one ECGR 4000-level courses that is not already required in the curriculum.

Elective Courses (6 credit hours)
Select two courses from the following that are not already required in the curriculum:
CEGR 3000-level courses
CEGR 4000-level courses
ECGR 3000-level courses
ECGR 4000-level courses
MATH 3000-level courses
MATH 4000-level courses
MEGR 3000-level courses
MEGR 4000-level courses
PHYS 3000-level courses
PHYS 4000-level courses

SEGR 3000-level courses
SEGR 4000-level courses

Degree Total = 120 Credit Hours

Grade Requirements
All non-elective Freshman year courses must be completed with C or above prior to enrolling in any Junior level courses. In order to remain in the concentration, students must maintain a minimum (overall and program) GPA of 3.0. A GPA in the major and overall GPA of 3.0 or above is also required to graduate.

Minor in Computer Engineering
The Department of Electrical and Computer Engineering offers a Minor in Computer Engineering for non-majors.

Prerequisite Courses
The minor assumes that students have a background in mathematics that is covered in the first year of the ECGR curriculum. In mathematics, this would cover Calculus (MATH 1120, MATH 1121, or MATH 1241). The totality of such courses is 3 or more credit hours.

Minor Requirements
The Minor in Computer Engineering consists of 15 additional credit hours and requires the following:

Required Courses (12 credit hours)
ECGR 2104 - Computer Engineering Programming II (3)
ECGR 2181 - Logic System Design I (3)
ECGR 3101 - Embedded Systems (3)
ECGR 3183 - Computer Organization (3)

Elective Course (3 credit hours)
Select at least one of the following
ECGR 4100 - Research Tools and Techniques in Computer Engineering (3)
ECGR 4101 - Advanced Embedded Systems (3)
ECGR 4105 - Introduction to Machine Learning (3)
ECGR 4106 - Real-Time Machine Learning (3)
ECGR 4146 - Introduction to VHDL (3)
ECGR 4161 - Introduction to Robotics (3)
ECGR 4181 - Computer Architecture (3)

Minor Total = 15 Credit Hours

Grade Requirements
Students must achieve a minimum GPA of 2.0 in all of these courses, and this minor is not available for a student who has a major in either Electrical Engineering or Computer Engineering.
Minor in Electrical Engineering
The Department of Electrical and Computer Engineering offers a Minor in Electrical Engineering for non-majors.

Prerequisite Courses
The Minor in Electrical Engineering assumes that students have a background in mathematics and physics equivalent to that covered in the first two years of the ECGR curriculum, which includes the following courses:

MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 2171 - Differential Equations (3)
PHYS 2101 - Physics for Science and Engineering I (3)
PHYS 2101L - Physics for Science and Engineering I Laboratory (1)
PHYS 2102 - Physics for Science and Engineering II (3)

Minor Requirements
A Minor in Electrical Engineering consists of 18 credit hours and requires the following:

Core Courses (9 credit hours)
ECGR 2111 - Network Theory I (3)
ECGR 2112 - Network Theory II (3)
ECGR 2254 - Analytical Foundations of Electrical and Computer Engineering (3)

Advanced Courses (6 credit hours)
Select at least two of the following. If all three listed courses are taken, one of the courses may count toward the elective course requirement below.
ECGR 3111 - Signals and Systems (3)
ECGR 3121 - Introduction to Electromagnetic Fields (3)
ECGR 3131 - Fundamentals of Electronics and Semiconductors (3)

Elective Course (3 credit hours)
If only two advanced courses were selected above, select an elective course from the following. All prerequisites for the selected elective courses must be satisfied.
ECGR 3XXX – Electrical and Computer Engineering Elective (3)
ECGR 4XXX – Electrical and Computer Engineering Elective (3)

Minor Total = 18 Credit Hours

Grade Requirements
Students must achieve a minimum GPA of 2.0 in all of these courses, and this minor is not available for a student who has a major in either Electrical Engineering or Computer Engineering.

Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Early Entry: M.S. in Computer Engineering
Admission Requirements
• Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
• Minimum 3.2 overall undergraduate GPA
• Minimum 3.2 GPA in the major
• Acceptable scores on the appropriate graduate standardized test (e.g., GRE) (Students with a 3.25 GPA are eligible to waive the GRE requirement)
• Submit application online at mygradschool.uncc.edu and provide supporting documents
• Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
• Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
• Maintain a minimum 3.0 overall undergraduate GPA
• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 6 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 6 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions-info/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Early Entry: M.S. or Ph.D. in Electrical Engineering
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
• Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
• Minimum 3.2 overall undergraduate GPA
• Minimum 3.2 GPA in the major
• Acceptable scores on the appropriate graduate standardized test (e.g., GRE) (Students with a 3.5 GPA are eligible to waive the GRE requirement)
• Submit application online at mygradschool.uncc.edu and provide supporting documents
• Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
• Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
• Maintain a minimum 3.0 overall undergraduate GPA
• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 6 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 6 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Department of Engineering Technology and Construction Management

Undergraduate Programs
• B.S. in Construction Management (BSCM)
  ○ Applied Energy and Sustainable Systems
• B.S.E.T. in Civil Engineering Technology
  ○ Applied Energy and Sustainable Systems
• B.S.E.T. in Electrical Engineering Technology
  ○ Applied Energy
  ○ Electromechanical Systems
• B.S.E.T. in Fire and Safety Engineering Technology
  ○ Fire Protection
  ○ Fire Safety
  ○ Occupational Safety
• B.S.E.T. in Mechanical Engineering Technology
  ○ Applied Energy
  ○ Electromechanical Systems
• Early Entry: M.S. in Applied Energy and Electromechanical Systems
• Early Entry: M.S. in Construction and Facilities Engineering
• Early Entry: M.S. in Fire Protection and Safety Management

Engineering and technical education have undergone considerable change in the last 40 years. The complexities of space exploration, power generation, communications systems, environmental control, information processing, transportation systems, fire protection, construction management, and manufacturing have demanded a great increase in the involvement of professional engineers in theoretical and analytical work. This has resulted in a much greater emphasis upon research and development, science, and mathematics in professional engineering curricula. At the same time, after the more complex devices and systems have been engineered, their design, development, and operation require the sophisticated knowledge and skills of what might be called the "applied engineering sciences." Programs dedicated to filling this need exist all over the United States. The aim and content of these programs are distinctly different from professional engineering curricula.

To provide the appropriate distinction from both theoretical-professional engineers and from engineering technicians who are graduated from two-year community and technical colleges, the designation "engineering technologist" is employed to describe the graduates of four-year applied engineering or "engineering technology" curricula. The Department of
Engineering Technology and Construction Management is committed to producing competent graduates that satisfy the needs of employers in North Carolina and throughout the United States.

Degree Programs
The Department of Engineering Technology and Construction Management offers curricula leading to the Bachelor of Science in Construction Management (BSCM) and the Bachelor of Science in Engineering Technology (BSET) degrees. In addition to the BSCM, four disciplines of study are available in Engineering Technology: Civil Engineering Technology, Electrical Engineering Technology, Fire and Safety Engineering Technology, and Mechanical Engineering Technology.

Students may enroll in the programs in several ways: 1) as freshmen; 2) as transfers without an approved Associate of Applied Science (A.A.S.) degree in engineering technology, construction management, or fire protection; or 3) as upper-division 2+2 transfers after completing a two-year A.A.S. degree in a relevant engineering technology, construction management, or fire protection curriculum at a community or technical college. Incoming students with an A.A.S. degree generally receive Junior class standing, with up to 64 credit hours applied toward the BSET or BSCM degree.

Construction Management and Engineering Technology students learn through applied technical courses and hands-on laboratories where they interact with experienced professors with many years of real-world engineering, design, project management, and product development experience. Graduation with a B.S. degree in Construction Management (BSCM) or Engineering Technology (BSET) opens the door to many exciting and challenging professional careers. Graduates choose from a variety of exciting career options where they enjoy productive professional careers with exceptional employment rates and excellent salaries.

Accreditation
The Civil, Electrical, and Mechanical Engineering Technology programs are accredited by the Engineering Technology Accreditation Commission (ETAC) of ABET. The Construction Management program is accredited by the Engineering Technology Accreditation Commission (ETAC) and the Applied and Natural Science Accreditation Commission (ANSAC) of ABET, www.abet.org.

Employment Opportunities for Graduates
Graduates of our programs can be found in every sector of the global economy. Examples of employment opportunities and examples of recent job titles are provided below for each program.

Civil Engineering Technology
Civil Engineering Technology (CIET) graduates find employment in a wide range of positions in construction, surveying, engineering and architectural firms; local, state and national government; environmental and public health agencies; state departments of transportation and highways; and private business and industry. Specific job titles of recent graduates include transportation technician, highway technician, engineer-in-training, materials supervisor, surveying crew chief, civil engineering detailer/designer, office engineer, construction estimator or planner, engineering assistant, project engineer and assistant project manager.

Construction Management
Construction Management (CM) graduates plan, direct, and coordinate a wide variety of construction projects, including the building of all types of residential, commercial, and industrial structures, roads, bridges, wastewater treatment plants, and schools and hospitals. Construction managers may oversee an entire project or just part of a project. They often work with or for owners, engineers, architects, and others who are involved in the construction process. Construction managers evaluate and help determine appropriate construction delivery systems and the most cost-effective plan and schedule for completing the project.

Electrical Engineering Technology
Electrical Engineering Technology (ELET) graduates find employment in many sectors of the economy. Almost any aspect of communications, electronic instrumentation, computer applications, computer networking, electric power generation and distribution, or consumer electronics has a need for graduates with understanding of the applications of electrical/electronic technology. For example: systems administrator for networked computer systems, systems design for a telecommunications company, avionics control systems for aircraft programs, and applications design for HVAC and building power-control systems.

Fire and Safety Engineering Technology
Fire and Safety Engineering Technology (FRST) graduates find employment in numerous areas associated with fire safety and protection to include prevention, suppression, building design and fire investigation and re-creation, emergency preparedness, safety analysis, and mitigation. The FRST program stresses the importance of personal communication skills and the ability to function in a team environment. Some typical job titles of recent graduates include firefighter, fire investigator, fire prevention officer, fire inspector, fire captain, and safety coordinator.

Mechanical Engineering Technology
Mechanical Engineering Technology (MET) graduates use the principles of energy, materials, and mechanics to design, build, test and maintain a wide variety of machines, processes, and systems with employment in the automotive, aerospace, energy, and other high-tech industries. METs work in areas such as computer-aided design, plant production or maintenance, research and development, or as laboratory technicians, production assistants, manufacturing or quality control engineers, product and materials testing technologists, or applications engineers.

Engineering Technology and Construction Management Program Educational Objectives and Outcomes

Program Educational Objectives
These are statements that describe the expected accomplishments of graduates during the first few years after graduation.

The Department of Engineering Technology and Construction Management at UNC Charlotte is committed to providing the
environment and expertise to ensure that its graduates make substantive contributions in their professional endeavors after graduation, both in the areas of technical proficiency and community involvement.

Accordingly, graduates of the BSET Civil, Electrical, Fire and Safety, and Mechanical Engineering Technology programs and BSCM Construction Management program contribute to society as productive technologists and engaged citizens by:

1.) Applying general and discipline-specific concepts and methodologies to identify, analyze, and solve technical problems.

2.) Articulating technical material in a professional manner to potentially diverse audiences and in a variety of circumstances.

3.) Assuming leadership roles and contributing within team environments while modeling ethical, respectful, and professional behavior at all times.

4.) Recognizing and appreciating the environmental, societal, and fiscal impact of the technical professions in a local, national, and global context.

5.) Demonstrating an individual desire and commitment to pursue continuous self-improvement and lifelong learning.

**Student Outcomes**

The Construction Management and Engineering Technology programs identify, measure, and improve student competencies through assessment and continuous improvement of student learning outcomes, which are mapped to the ETAC of ABET Criterion 3 Outcomes listed below:

**ETAC of ABET Criterion 3 Outcomes**

For baccalaureate degree programs, these student outcomes must include, but are not limited to, the following:

1) An ability to identify, formulate, and solve broadly defined technical or scientific problems by applying knowledge of mathematics and science and/or technical topics to areas relevant to the discipline.

2) An ability to formulate or design a system, process, procedure or program to meet desired needs.

3) An ability to develop and conduct experiments or test hypotheses, analyze and interpret data and use scientific judgment to draw conclusions.

4) An ability to communicate effectively with a range of audiences.

5) An ability to understand ethical and professional responsibilities and the impact of technical and/or scientific solutions in global, economic, environmental, and societal contexts.

6) An ability to function effectively on teams that establish goals, plan tasks, meet deadlines, and analyze risk and uncertainty.

**Additional Programs and Opportunities**

**Distance Education**

In addition to the on-campus programs, the upper division of the BSET programs in Electrical Engineering Technology and Fire and Safety Engineering Technology (Fire Safety concentration) are offered online to part-time students. This allows students who already hold an approved AAS degree to complete their Junior and Senior years of the BSET program at a distance. Students are required to come to the campus only for ELET laboratories. The ELET laboratories are currently offered on a schedule of Saturdays during the summer school sessions. Estimated completion time for the distance delivery of the Junior and Senior years is approximately four years, including summers, since students generally take two courses per semester.

**Construction Management**

**Bachelor of Science in Construction Management (BSCM)**

The Bachelor of Science in Construction Management (BSCM) degree program is designed to provide the construction education necessary for entry into the construction industry (residential, commercial, industrial sectors, infrastructure, and heavy horizontal construction) and related careers, including, but not limited to, real estate and land development, infrastructure development, code enforcement, and insurance, among others.

The program is further enhanced by a business / management core which includes courses in statistics, computer applications, economics, accounting, engineering economics, business management, business law, finance, and construction law.

The Construction Management program shares a common lower division (Freshman and Sophomore year) curriculum with the Civil Engineering Technology (CIET) Program, providing students with a two-year window for exploration to determine which degree, the B.S. in Civil Engineering Technology or B.S. in Construction Management, is their desired academic objective.

**Admission Requirements**

Students for this degree may enter degree programs in the Department of Engineering Technology and Construction Management as freshmen.
or as transfer students.

**Freshman Admission**

Applicants entering as Freshmen must meet the general University admission requirements.

**Transfer Admission**

Transfer admission into the department occurs in one of two situations:

1) Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements.

2) Transfer applicants with an Associate of Applied Science (AAS) degree must:
   a) Hold an Associate of Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation, Manufacturing, Mechanical, Optics, Robotics, Surveying or similar title with curriculum acceptable to the department. A minimum GPA of 2.5 (out of 4.0) in the AAS degree is required.
   b) Have completed satisfactorily the prerequisite background courses for the option they plan to enter (missing background courses may be taken at UNC Charlotte).

Acceptance of a completed AAS degree indicates the acceptance of up to 64 credit hours toward the Bachelor of Science in Engineering Technology degree program only. These hours may not be valid toward other degree programs at UNC Charlotte.

**Residence Requirements**

A student must earn the last 30 credit hours toward the BSET degree and the last 12 credit hours in the major at UNC Charlotte to satisfy residence requirements.

**Experiential Learning Requirements**

All students must complete an experiential learning course. Experiential courses are practice-oriented courses such as cooperative education, internships, senior design projects, or undergraduate research.

Internships, or 49erships, involve paid or unpaid work in a career-related position for professional experience. A minimum of 80 work hours and 5 weeks for one semester is required to complete the program. Fall and Spring 49erships are part-time. Summer 49erships may be full- or part-time. Full-time students who are in good University standing, have completed 30 credit hours, and have a 2.0 minimum cumulative GPA are eligible. Internships do not offer academic credit, but are noted on the student’s transcript; students pay a course registration fee. Approval for enrollment must be arranged before the student begins a work experience. Students may begin this program during their Sophomore year; transfer students must complete 12 credit hours at UNC Charlotte before making application for the program. For more information, contact the College of Engineering Office of Student Development and Success or the University Career Center.

**Course Requirements**

Course requirements correspond to the mode of admission for each student as outlined hereafter.

- **Entering Freshmen**: Students admitted as Freshmen complete the appropriate four year curriculum for the program into which they were admitted.
- **Transfer students not holding an appropriate AAS degree**: Transfer students not holding an appropriate AAS degree must complete the remaining coursework outlined for the respective four year curriculum that they were admitted into after evaluation and application of any transfer credit.
- **Transfer students holding an appropriate AAS degree**: Transfer students with an appropriate Associate of Applied Science (AAS) degree as defined previously under Admission Requirements may begin the program in the Junior year with up to 64 transfer credit hours awarded. Prerequisites for students holding an AAS degree from a community or technical college are listed below.

**Prerequisite Courses for AAS Transfers**

Students transferring with an AAS degree must have satisfactorily completed the following subjects in their two-year program:

- English Composition, Technical Writing, and/or Public Speaking (3 credit hours)
- Precalculus (3 credit hours)
- Differential and Integral Calculus (6 credit hours)
- General Physics (with lab) (4 credit hours)
- Additional Physics (with lab) or Geology (3-4 credit hours)
- Technical Courses in Major Area (up to 41 credit hours)
  - Macroeconomics
  - ET Computer Applications
  - Computer Aided Drafting
  - Construction Surveying
  - Statics
  - Strength of Materials
  - Construction Materials with Lab
  - Construction Methods
  - Hydraulics or hydrology or environmental technology
  - Building Information Modeling
  - Plan Reading and Quantity Takeoff

**Remediation of Academic Entrance Requirements for AAS Transfer Students**

In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting ALL published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

**Academic Progression Requirements**

**Freshman Year Requirements**

All new freshmen, including early college and dual enrolled students that have college credit prior to high school graduation, are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements
• Pass all courses within three attempts, including withdrawing from a course with a grade of W.
• Earn a 2.00 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements
• Maintain an overall GPA of 2.00 in the University.
• Maintain a major cumulative GPA of 2.00 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
• Take a course in their curriculum a maximum of three times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the college/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Degree Requirements (4-Year Program)
The Bachelor of Science in Construction Management (BSCM) 4-year degree program consists of 120 credit hours.

General Education Courses (15 credit hours)
For details on required LBST and UWRT courses, refer to the General Education program. The required Social Science course is satisfied through ECON 2101 as noted in the Business and Management Foundation Courses section below.

Mathematics and Science Foundation Courses (22 credit hours)
Required Mathematics/Science Courses
ETGR 2272 - Engineering Analysis II (3)
MATH 1103 - Precalculus Mathematics for Science and Engineering (3)*
MATH 1121 - Calculus for Engineering Technology (3)*
or ETGR 2171 - Engineering Analysis I (3)*
PHYS 1101 - Introductory Physics I (3)*
PHYS 1101L - Introductory Physics I Laboratory (1)*
PHYS 1102 - Introductory Physics II (3)
STAT 1220 - Elements of Statistics I (BUSN) (3)

Elective Mathematics/Science Course
Select one of the following:
CHEM 1251 - General Chemistry I (3)
CHEM 1252 - General Chemistry II (3)
GEOG 1103 - Spatial Thinking (4)
GEOG 1110 - Introduction to Urban and Regional Planning (3)
GEOG 2103 - Elements of GIScience and Technologies (4)
GEOG 2120 - Geographic Information Systems: Survey of Applications and Techniques (4)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2342 - Data Analysis and Probability (3)

Business and Management Foundation Courses (9 credit hours)
ACCT 2121 - Principles of Accounting I (3)
BLAW 3150 - Business Law I (3)
or CMET 4127 - Construction Law and Regulatory Issues (3)
ECON 2101 - Principles of Economics-Macro (3)

Major Courses (65 credit hours)
CMET 1680 - Professional Development I: Construction Safety (1) *
CMET 2135 - Building Information Modeling (BIM) (3)
CMET 3123 - Cost Estimating (3)
CMET 3224 - Construction Project Administration (3)
CMET 3680 - Professional Development III: Professional Ethics (1)
CMET 4126 - Project Scheduling and Control (3)
CMET 4130 - Infrastructure Systems (3) (W)
CMET 4272 - Capstone Project (3) (O,W)
ETCE 1104 - Civil/Construction CAD Applications (3) *
ETCE 1211 - Construction Surveying I (3) *
ETCE 1211L - Construction Surveying I Laboratory (1) *
ETCE 1222 - Construction Materials (3) *
ETCE 2105 - Plan Reading and Quantity Takeoff (3)
ETCE 2163L - Construction Materials and Structures Lab (1)
ETCE 2221 - Construction Means and Methods (3)
ETCE 2410 - Introduction to Environmental Engineering Technology (3)
ETCE 3131L - Soil Mechanics and Earthwork (3)
ETCE 3131L - Soil Testing Laboratory (3) (W)
ETCE 3163 - Structural Analysis and Design I (3)
ETCE 3271 - Building Systems (3)
ETCE 4350 - Construction Geotechnics and Foundations (3)
ETGR 1100L - Engineering Technology Computer Applications Laboratory (1) *
ETGR 1101 - Introduction to Engineering Technology and Construction Management (1) *
ETGR 2101 - Applied Mechanics I (3) *
ETGR 2102 - Applied Mechanics II (3)
ETGR 3222 - Engineering Economics (3)
ETGR 3295 - Multidisciplinary Professional Development (1)

* Must be completed with a grade of C or above.

Restricted Elective Courses (9 credit hours)
Select three of the following from departmental and non-departmental courses:

Departmental Courses
Two to three courses may be selected from the following:
ETGR 2106 - Electronic Circuits and Devices (3)
ETGR 3171 - Engineering Analysis III (3)

**Degree Total = 120 Credit Hours**

**Degree Requirements (2+2-Year Program)**

The Bachelor of Science in Construction Management (BSCM) 2+2-year degree program consists of 120 credit hours which may include up to 60 credit hours of approved courses from an approved A.A.S. degree.

**A.A.S. Degree (60 credit hours)**

A.A.S. transfer students from approved programs may receive up to 60 credit hours for approved courses in the A.A.S. degree; thus, A.A.S. students need only to complete the upper-division portion of the courses listed below and remediate any entrance deficiencies noted upon matriculation.

**General Education Courses (9 credit hours)**

Students must take three courses from the LBST 2XXX series. For further details on required LBST courses, refer to the General Education Program.

Students admitted as Freshmen complete Transfer requirements. Courses are practice-oriented courses such as cooperative education, all students must complete an experiential learning course. Experiential Learning Req requirements.

A student must earn the last 30 credit hours toward the BSET degree and meet the general University admission requirements.

Freshman Admission

Applicants entering as Freshmen must meet the general University admission requirements.

Transfer Admission

Transfer admission into the department occurs in one of two situations:

1) Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements.

2) Transfer applicants with an Associate of Applied Science (AAS) degree must:
   a) Hold an Associate of Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation, Manufacturing, Mechanical, Optics, Robotics, Surveying or similar title with curriculum acceptable to the department. A minimum GPA of 2.5 (out of 4.0) in the AAS degree is required.
   b) Have completed satisfactorily the prerequisite background courses for the option they plan to enter (missing background courses may be taken at UNC Charlotte).

Acceptance of a completed AAS degree indicates the acceptance of up to 64 credit hours toward the Bachelor of Science in Engineering Technology degree program only. These hours may not be valid toward other degree programs at UNC Charlotte.

Residence Requirements

A student must earn the last 30 credit hours toward the BSET degree and the last 12 credit hours in the major at UNC Charlotte to satisfy residence requirements.

Experiential Learning Requirements

All students must complete an experiential learning course. Experiential courses are practice-oriented courses such as cooperative education, internships, senior design projects, or undergraduate research.

Internships, or 49erships, involve paid or unpaid work in a career-related position for professional experience. A minimum of 80 work hours and 5 weeks for one semester is required to complete the program. Fall and Spring 49erships are part-time. Summer 49erships may be full- or part-time. Full-time students who are in good University standing, have completed 30 credit hours, and have a 2.0 minimum cumulative GPA are eligible. Internships do not offer academic credit, but are noted on the student’s transcript; students pay a course registration fee. Approval for enrollment must be arranged before the student begins a work experience. Students may begin this program during their Sophomore year; transfer students must complete 12 credit hours at UNC Charlotte before making application for the program. For more information, contact the College of Engineering Office of Student Development and Success or the University Career Center.

Course Requirements

Course requirements correspond to the mode of admission for each student as outlined hereafter.

- **Entering Freshmen:** Students admitted as Freshmen complete the appropriate four year curriculum for the program into which they were admitted.
- **Transfer students not holding an appropriate AAS degree:** Transfer students not holding an appropriate AAS degree must complete the remaining coursework outlined for the respective four year curriculum that they were admitted into after evaluation and application of any transfer credit.
- **Transfer students holding an appropriate AAS degree:** Transfer students with an appropriate Associate of Applied Science (AAS) degree as defined previously under Admission Requirements may begin the program in the Junior year with up to 64 transfer credit hours awarded. Prerequisites for students holding an AAS degree from a community or technical college are listed below.

Prerequisite Courses for AAS Transfers

Students transferring with an AAS degree must have satisfactorily completed the following subjects in their two-year program:

- English Composition, Technical Writing, and/or Public Speaking (3 credit hours)
- Precalculus (3 credit hours)
- Differential and Integral Calculus (6 credit hours)
- General Physics (with lab) (4 credit hours)
- Additional Physics (with lab) or Geology (3-4 credit hours)
- Technical Courses in Major Area (up to 41 credit hours)
  - Macroeconomics
  - ET Computer Applications
  - Computer-Aided Drafting
  - Construction Surveying
  - Statics
  - Strength of Materials
  - Construction Materials with Lab
  - Construction Methods
  - Hydraulics or hydrology or environmental technology
  - Building Information Modeling
  - Plan Reading and Quantity Takeoff
Remediation of Academic Entrance Requirements for AAS Transfer Students

In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting ALL published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

Academic Progression Requirements

Freshman Year Requirements

All new freshmen, including early college and dual enrolled students that have college credit prior to high school graduation, are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Earn a 2.00 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements

- Maintain an overall GPA of 2.00 in the University.
- Maintain a major cumulative GPA of 2.00 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take a course in their curriculum a maximum of three times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Degree Requirements

The Bachelor of Science in Construction Management (BSCM) with Concentration in Applied Energy and Sustainable Systems 4-year degree program consists of 120 credit hours.

General Education Courses (15 credit hours)

For details on required LBST and UWRT courses, refer to the General Education program. The required Social Science course is satisfied through ECON 2101 as noted in the Business and Management Foundation Courses section below.

Mathematics and Science Foundation Courses (22 credit hours)

Required Mathematics/Science Courses

- ETGR 2272 - Engineering Analysis II (3)
- MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
- MATH 1121 - Calculus for Engineering Technology (3)
- PHYS 1101 - Introductory Physics I (3)
- PHYS 1101L - Introductory Physics I Laboratory (1)
- PHYS 1102 - Introductory Physics II (3)
- STAT 1220 - Elements of Statistics I (BUSB) (3)

Elective Mathematics/Science Course

Select one of the following:

- CHEM 1251 - General Chemistry I (3)
- CHEM 1252 - General Chemistry II (3)
- GEOG 1103 - Spatial Thinking (4)
- GEOG 1110 - Introduction to Urban and Regional Planning (3)
- GEOG 2103 - Elements of GIScience and Technologies (4)
- GEOG 2120 - Geographic Information Systems: Survey of Applications and Techniques (4)
- MATH 2164 - Matrices and Linear Algebra (3)
- MATH 2342 - Data Analysis and Probability (3)

Business and Management Foundation Courses (9 credit hours)

- ACCT 2121 - Principles of Accounting I (3)
- BLAW 3150 - Business Law I (3)
- ETGR 2171 - Engineering Analysis I (3)
- or CMET 4127 - Construction Law and Regulatory Issues (3)
- ECON 2101 - Principles of Economics - Macro (3)

Major Courses (65 credit hours)

- CMET 1680 - Professional Development I: Construction Safety (1) *
- CMET 2135 - Building Information Modeling (BIM) (3)
- CMET 3123 - Cost Estimating (3)
- CMET 3224 - Construction Project Administration (3)
- CMET 3680 - Professional Development III: Professional Ethics (1)
- CMET 4126 - Project Scheduling and Control (3)
- CMET 4130 - Infrastructure Systems (3) (W)
- CMET 4272 - Capstone Project (3) (O,W)
- ETCE 1104 - Civil/Construction CAD Applications (3) *
- ETCE 1211 - Construction Surveying I (3) *
- ETCE 1211L - Construction Surveying I Laboratory (1) *
- ETCE 1222 - Construction Materials (3) *
- ETCE 2105 - Plan Reading and Quantity Takeoff (3)
- ETCE 2163L - Construction Materials and Structures Lab (1)
- ETCE 2221 - Construction Means and Methods (3)
- ETCE 2410 - Introduction to Environmental Engineering Technology (3)
- ETCE 3131L - Soil Mechanics and Earthwork (3)
- ETCE 3131L - Soil Testing Laboratory (1) (W)
ETCE 3163 - Structural Analysis and Design I (3)
ETCE 3271 - Building Systems (3)
ETCE 4350 - Construction Geotechnics and Foundations (3)
ETGR 1100L - Engineering Technology Computer Applications Laboratory (1) *
ETGR 1101 - Introduction to Engineering Technology and Construction Management (1) *
ETGR 2101 - Applied Mechanics I (3) *
ETGR 2102 - Applied Mechanics II (3)
ETGR 3222 - Engineering Economics (3)
ETGR 3295 - Multidisciplinary Professional Development (1)

*Must be completed with a grade of C or above.

Concentration Courses (15 credit hours)
In addition to required courses ETCE 2410 and ETCE 3242 or ETCE 3271, select three of the following:

ENER 4140 - Energy Management (3)
ENER 4250 - Analysis of Renewable Energy Systems (3)
ENER 4275 - Air Conditioning Systems (3)
SEGR 4961 - Introduction to Energy Systems (3)
SEGR 4962 - Energy Markets (3)

Degree Total = 120 Credit Hours

Early Entry: Master of Science in Construction and Facilities Engineering

Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements

- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Acceptable scores on the appropriate graduate standardized test (e.g., GRE)
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements

- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses

This Early Entry Program is also accelerated; up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information

For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Civil Engineering Technology

Civil Engineering Technology includes computer-aided drafting (CAD); structures (analysis, design of structural steel and reinforced concrete); construction (cost estimating, construction planning and administration); transportation (surveying, highway design and construction); water resources (hydraulics, hydrology, and environmental); and geotechnical (soil mechanics, foundations, and earthwork).

The Civil Engineering Technology program shares a common curriculum with the Construction Management program for the first two years. Students may move between the common programs until the Junior year when the curricula diverge. At the end of the Sophomore year, students must select either the analysis and design-oriented Civil Engineering Technology BSET degree or the management-oriented BSCM program.

BSET in Civil Engineering Technology

Admission Requirements

Students for this degree may enter degree programs in the Department of Engineering Technology and Construction Management as freshmen or as transfer students.

Freshmen

Applicants entering as Freshmen must meet the general University admission requirements.

Transfers

Transfer admission into the department occurs in one of two situations:

1) Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements.

2) Transfer applicants with an Associate of Applied Science (AAS) degree must:

   a) Hold an Associate of Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation, Manufacturing, Mechanical, Optics, Robotics, Surveying or similar title with curriculum acceptable to the department. A minimum GPA of 2.5 (out of 4.0) in the AAS degree is required.
Pre-calculus (3 credit hours)
- Differential and Integral Calculus (6 credit hours)
- General Physics (with lab) (4 credit hours)
- Additional Physics (with lab) or Geology (3-4 credit hours)
- Technical Courses in Major Area (up to 41 credit hours)
  - ET Computer Applications
  - Computer-Aided Drafting
  - Construction Surveying
  - Statics
  - Strength of Materials
  - Construction Materials with Lab
  - Construction Methods
  - Hydraulics or hydrology or environmental technology
  - Building Information Modeling
  - Plan Reading and Quantity Takeoffs

Remediation of Academic Entrance Requirements for AAS Transfer Students
In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting ALL published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

Academic Progression Requirements
Freshman Year Requirements
All new freshmen, including early college and dual enrolled students that have college credit prior to high school graduation, are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.
- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Earn a 2.00 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements
- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take a course in their curriculum a maximum of three times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. A student who has been
Degree Requirements (4-Year Program)
The BSET in Civil Engineering Technology program consists of 120 credit hours.

General Education Courses (18 credit hours)
For details on LBST, UWRT, and Social Sciences required courses, refer to the General Education program.

Mathematics and Science Foundation Courses (28 credit hours)
- ETGR 2272 - Engineering Analysis II (3)
- ETGR 3171 - Engineering Analysis III (3)
- GEOL 1200 - Physical Geography (3)
- MATH 1103 - Precalculus Mathematics for Science and Engineering (3)*
- MATH 1121 - Calculus for Engineering Technology (3)*
- PHYS 1101 - Introductory Physics I (3)*
- PHYS 1101L - Introductory Physics I Lab (1)*
- PHYS 1102 - Introductory Physics II (3)
- STAT 1220 - Elements of Statistics I (BUSN) (3)

Math/Science Elective Course
Select one of the following:
- CHEM 1251 - General Chemistry I (3)
- CHEM 1252 - General Chemistry II (3)
- GEOG 1103 - Spatial Thinking (4)
- GEOG 1110 - Introduction to Urban and Regional Planning (3)
- GEOG 2103 - Elements of GIScience and Technologies (4)
- GEOG 2120 - Geographic Information Systems: Survey of Applications and Techniques (4)
- MATH 2164 - Matrices and Linear Algebra (3)
- MATH 2342 - Data Analysis and Probability (3)

Major Courses (68 credit hours)
- CMET 1680 - Professional Development I: Construction Safety (1)*
- CMET 2135 - Building Information Modeling (BIM) (3)
- CMET 3123 - Cost Estimating (3)
- CMET 3224 - Construction Project Administration (3)
- CMET 3680 - Professional Development III: Professional Ethics (1)
- ETCE 1104 - Civil/Construction CAD Applications (3)*
- ETCE 1211 - Construction Surveying I (3)*
- ETCE 1211L - Construction Surveying I Lab (1)*
- ETCE 1222 - Construction Materials (3)*
- ETCE 2105 - Plan Reading and Quantity Takeoff (3)
- ETCE 2163L - Construction Materials and Structures Lab (1)
- ETCE 2169 - Construction Means and Methods (3)
- ETCE 2410 - Introduction to Environmental Engineering Technology (3)
- ETCE 3131 - Soil Mechanics and Earthwork (3)
- ETCE 3131L - Soil Testing Lab (W) (1)
- ETCE 3242 - Hydraulics and Hydrology (3)
- ETCE 3264 - Structural Analysis (3)
- ETCE 4165 - Structural Steel Design (3)
- ETCE 4251 - Highway Design and Construction (3)
- ETGR 2101 - Applied Mechanics I (3)*
- ETGR 2102 - Applied Mechanics II (3)
- ETGR 3222 - Engineering Economics (3)
- ETGR 3295 - Multidisciplinary Professional Development (1)

*Course must be completed with a grade of C or above.

Restricted Elective Courses (6 credit hours)
Select two of the following. Only one course may be non-departmental.

Departmental Courses
Two courses may be selected from this list:
- ETGR 2106 - Electronic Circuits and Devices (3)
- ETGR 3272 - Applied Numerical Methods (3)
- ETGR 4272 - Engineering Analysis IV (3)
- CMET 4073 - Special Topics - Construction Management (1 to 4)
- CMET 4126 - Project Scheduling and Control (3)
- CMET 4127 - Construction Law and Regulatory Issues (3)
- CMET 4130 - Infrastructure Systems (3) (W)
- CMET 4135 - Building Information Modeling (3)
- CMET 4150 - Green Building (3)
- CMET 4290 - Temporary Structures in Construction (3)
- ELET 2241 - Instrumentation and Controls (3)
- ETCE 3271 - Building Systems (3)
- ETCE 4073 - Special Topics - Civil Engineering Technology (1 to 4)
- ETCE 4344 - Applied Hydrology and Storm Water Management (3)
- ETME 3113 - Dynamics (3)
- ETME 3143 - Thermodynamics (3)

Non-Departmental Courses
Maximum of one course may be selected from this list:
- GEOG 3105 - Urban Transportation Problems (3) (W)
- GEOG 3120 - Fundamentals of Geographic Information Systems (4)
- GEOG 3200 - Land Use Planning (3)
- GEOG 3210 - Regional Planning (3)
- GEOG 3215 - Environmental Planning (3) (W)
- GEOG 4040 - Transportation Topics (3)
- GEOL 3190 - Environmental Geology (3)
- GEOL 4145 - Hydrogeology (4)
- CHEM 1252 - General Chemistry II (3)

Degree Total = 120 Credit Hours
Degree Requirements (2+2-Year Program)
The B.S. in Civil Engineering Technology (BSET) 2+2-year degree program consists of 120 credit hours, which may include up to 64 credit hours of approved courses from an approved A.A.S. degree.

A.A.S. Degree (60 credit hours)
A.A.S. transfer students from approved programs may receive up to 60 credit hours for approved courses in the A.A.S. degree; thus, A.A.S. students need only to complete the upper-division portion of the courses listed below and remediate any entrance deficiencies noted upon matriculation.

General Education Courses (9 credit hours)
Students must select three courses from the LBST 2XXX series. For further details on required LBST courses, refer to the General Education Program.

Mathematics and Science Foundation Courses (9 credit hours)
ETGR 3171 - Engineering Analysis III (3)
   or ETGR 4272 - Engineering Analysis IV (3)
GEOG 1200 - Physical Geology (3)

Math/Science Elective Course
Select one of the following:
CHEM 1251 - General Chemistry I (3)
CHEM 1252 - General Chemistry II (3)
GEOG 1103 - Spatial Thinking (4)
GEOG 1110 - Introduction to Urban and Regional Planning (3)
GEOG 2103 - Geographic Information Systems: Survey of Applications and Techniques (4)
GEOG 2120 - Geographic Information Systems: Fundamentals (3)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2342 - Data Analysis and Probability (3)

Major Courses (36 credit hours)
CMET 3123 - Cost Estimating (3)
CMET 3224 - Construction Project Administration (3)
CMET 3680 - Professional Development III: Professional Ethics (1)
ETCE 3131 - Soil Mechanics and Earthwork (3)
ETCE 3131L - Soil Testing Lab (1) (W)
ETCE 3242 - Hydraulics and Hydrology (3)
ETCE 3264 - Structural Analysis (3)
ETCE 4165 - Structural Steel Design (3)
ETCE 4251 - Highway Design and Construction (3) (W)
ETCE 4266 - Reinforced Concrete Design (3)
ETCE 4272 - Capstone Project (3) (W)
ETCE 4350 - Construction Geotechnics and Foundations (3)
ETME 3122 - Engineering Economics (3)
ETME 3295 - Multidisciplinary Professional Development (1)

Restricted Elective Courses (6 credit hours)
Select two of the following: Only one course may be non-departmental.

Departmental Courses
Two courses may be selected from this list:
ETGR 2106 - Electronic Circuits and Devices (3)
ETGR 3272 - Applied Numerical Methods (3)

Non-Departmental Courses
Maximum of one course may be selected from this list:
GEOG 3115 - Urban Transportation Problems (3) (W)
GEOG 3120 - Fundamentals of Geographic Information Systems (4)
GEOG 3210 - Regional Planning (3)
GEOG 3215 - Environmental Planning (3) (W)
GEOG 4040 - Transportation Topics (3)
GEOG 3200 - Land Use Planning (3)
GEOG 3210 - Regional Planning (3)
GEOG 3215 - Environmental Planning (3) (W)
GEOG 4040 - Transportation Topics (3)
GEOG 3190 - Environmental Geology (3)
GEOG 4145 - Hydrogeology (4)
CHEM 1252 - General Chemistry II (3)

Degree Total = 120 Credit Hours

BSET in Civil Engineering Technology with Concentration in Applied Energy and Sustainable Systems
A Concentration in Applied Energy and Sustainable Systems is available to BSET in Civil Engineering Technology students.

Admission Requirements
Students for this degree may enter degree programs in the Department of Engineering Technology and Construction Management as freshmen or as transfer students.

Freshman
Applicants entering as Freshmen must meet the general University admission requirements.

Transfers
Transfer student admission into the department occurs in one of two situations:

1) Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements. Transfer applicants with an Associate of Applied Science (AAS) degree must:
   a) Hold an Associate of Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation,
Students admitted as Freshmen complete 28 credit hours. Full-time students who are in good University standing, have experience. Students may begin in this program during their Sophomore year; transfer students must complete 12 credit hours at UNC Charlotte before making application for the program. For more information, contact the College of Engineering Office of Student Development and Success or the University Career Center.

Residence Requirements
A student must earn the last 30 credit hours toward the BSET degree and the last 12 credit hours in the major at UNC Charlotte to satisfy residence requirements.

Experiential Learning Requirements
All students must complete an experiential learning course. Experiential courses are practice-oriented courses such as cooperative education, internships, senior design projects, or undergraduate research.

Internships, or 49erships, involve paid or unpaid work in a career-related position for professional experience. A minimum of 80 work hours and 5 weeks for one semester is required to complete the program. Fall and Spring 49erships are part-time. Summer 49erships may be full- or part-time. Full-time students who are in good University standing, have completed 30 credit hours, and have a 2.0 minimum cumulative GPA are eligible. Internships do not offer academic credit, but are noted on the student’s transcript; students pay a course registration fee. Approval for internship eligibility is granted by the Engineering Technology degree program only. These hours may not be valid toward other degree programs at UNC Charlotte.

Remediation of Academic Entrance Requirements for AAS Transfer Students
In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting all published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

Degree Requirements
The BSET in Civil Engineering Technology with Concentration in Applied Energy and Sustainable Systems consists of 120 credit hours.

General Education Courses (18 credit hours)
For details on required LBST, UWRT, and Social Sciences courses, refer to the General Education program.

Mathematics and Science Foundation Courses (28 credit hours)
- ETGR 2272 - Engineering Analysis II (3)
- ETGR 3171 - Engineering Analysis III (3)
- or ETGR 4272 - Engineering Analysis IV (3)

Electrical Engineering Technology

Electrical Engineering Technology includes programming, AC/DC circuits, digital circuits, microprocessors and microcontrollers, solid-state electronics, integrated circuits, analog and digital systems, linear and nonlinear networks, power systems, control systems, and engineering economics.

BSET in Electrical Engineering Technology

Admission Requirements
Students for this degree may enter degree programs in the Department of Engineering Technology and Construction Management as freshmen or as transfer students.

Freshman Admission
Applicants entering as Freshmen must meet the general University admission requirements.

Transfer Admission
Transfer admission into the department occurs in one of two situations:

1) Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements.

2) Transfer applicants with an Associate of Applied Science (AAS) degree must:
   a) Hold an Associate of Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation, Manufacturing, Mechanical, Optics, Robotics, Surveying or similar title with curriculum acceptable to the department. A minimum GPA of 2.5 (out of 4.0) in the AAS degree is required.
   b) Have completed satisfactorily the prerequisite background courses for the option they plan to enter (missing background courses may be taken at UNC Charlotte).

Acceptance of a completed AAS degree indicates the acceptance of up to 64 credit hours toward the Bachelor of Science in Engineering Technology degree program only. These hours may not be valid toward other degree programs at UNC Charlotte.

Residence Requirements
A student must earn the last 30 credit hours toward the BSET degree and the last 12 credit hours in the major at UNC Charlotte to satisfy residence requirements.

Experiential Learning Requirements
All students must complete an experiential learning course. Experiential courses are practice-oriented courses such as cooperative education, internships, senior design projects, or undergraduate research.

Internships, or 49erships, involve paid or unpaid work in a career-related position for professional experience. A minimum of 80 work hours and 5 weeks for one semester is required to complete the program. Fall and Spring 49erships are part-time. Summer 49erships may be full- or part-
time. Full-time students who are in good University standing, have completed 30 credit hours, and have a 2.0 minimum cumulative GPA are eligible. Internships do not offer academic credit, but are noted on the student’s transcript; students pay a course registration fee. Approval for enrollment must be arranged before the student begins a work experience. Students may begin this program during their Sophomore year; transfer students must complete 12 credit hours at UNC Charlotte before making application for the program. For more information, contact the College of Engineering Office of Student Development and Success or the University Career Center.

Course Requirements
Course requirements correspond to the mode of admission for each student as outlined hereafter.

- **Entering Freshmen:** Students admitted as Freshmen complete the appropriate four year curriculum for the program into which they were admitted.

- **Transfer students not holding an appropriate AAS degree:** Transfer students not holding an appropriate AAS degree must complete the remaining coursework outlined for the respective four year curriculum that they were admitted into after evaluation and application of any transfer credit.

- **Transfer students holding an appropriate AAS degree:** Transfer students with an appropriate Associate of Applied Science (AAS) degree as defined previously under Admission Requirements may begin the program in the Junior year with up to 64 transfer credit hours awarded. Prerequisites for students holding an AAS degree from a community or technical college are listed below.

Prerequisite Courses for AAS Transfers
Students transferring with an AAS degree must have satisfactorily completed the following subjects in their two-year program:

- English Composition, Technical Writing, and/or Public Speaking (3 credit hours)
- Precalculus (3 credit hours)
- Differential and Integral Calculus (6 credit hours)
- Physics with lab (8 credit hours)
- Technical Courses in Major Area as listed below (up to 36 credit hours)
  - DC Circuits
  - AC Circuits with Lab
  - Digital Circuits with Lab
  - Electronic Devices with Lab
  - Microprocessors
  - Instrumentation or Programmable Logic Controllers and associated laboratory
  - C Programming

Remediation of Academic Entrance Requirements for AAS Transfer Students
In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting ALL published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

Academic Progression Requirements

**Freshman Year Requirements**
All new freshmen, including early college and dual enrolled students that have college credit prior to high school graduation, are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Earn a 2.00 cumulative GPA upon completion of the Freshman curriculum.

**Sophomore through Senior Year Requirements**

- Maintain an overall GPA of 2.00 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take a course in their curriculum a maximum of three times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Degree Requirements (4-Year Program)
The BSET in Electrical Engineering Technology program consists of 120 credit hours.

**General Education Courses (18 credit hours)**
For details on required LBST, UWRT, and Social Sciences courses, refer to the General Education program.

**Mathematics and Science Foundation Courses (23 credit hours)**
MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
MATH 1121 - Calculus for Engineering Technology (3) or ETGR 2171 - Engineering Analysis I (3)  
ETGR 2272 - Engineering Analysis II (3)  
ETGR 3171 - Engineering Analysis III (3) or ETGR 4272 - Engineering Analysis IV (3)  
PHYS 1101 - Introductory Physics I (3)  
PHYS 1101L - Introductory Physics I Lab (1)  
PHYS 1102 - Introductory Physics II (3)  
PHYS 1102L - Introductory Physics II Lab (1)  
STAT 1220 - Elements of Statistics I (BUSN) (3)

**Major Courses (67 credit hours)**  
ELET 1102 - C Programming (3)  
ELET 1211 - DC Circuits (3)  
ELET 1231 - Digital Circuits (3)  
ELET 1231L - Digital Circuits Laboratory (1)  
ELET 2112 - AC Circuits (3)  
ELET 2113L - DC/AC Circuits Laboratory (1)  
ELET 2221 - Electronics I (3)  
ELET 2221L - Electronics I Laboratory (1)  
ELET 2231 - Microprocessor Fundamentals (3)  
ELET 2241 - Instrumentation and Controls (3)  
ELET 2241L - Instrumentation Laboratory (1) (W)  
ELET 2290 - Sophomore Practicum (3)  
ELET 3113 - Network Analysis (3)  
ELET 3132 - Digital Systems (3)  
ELET 3132L - Digital Systems Laboratory (1) (W)  
ELET 3141 - Power Systems and Machines (3)  
ELET 3190 - Junior Practicum (3)  
ELET 3222 - Electronics II (3)  
ELET 3222L - Electronics II Laboratory (1) (W)  
ELET 3232 - Advanced Microcontroller Systems (3)  
ELET 3242 - Fundamentals of Control Systems (3)  
ELET 4123 - Active Filters (3)  
ELET 4142 - Power Electronics (3)  
ETGR 1101 - Introduction to Engineering Technology and Construction Management (1)  
ETGR 1100L - Engineering Technology Computer Applications Laboratory (1)  
ETGR 3222 - Engineering Economics (3)  
ETGR 3295 - Multidisciplinary Professional Development (1)  
ETGR 4100 - Capstone Design Project I (2) (OW)  
ETGR 4200 - Capstone Design Project II (2) (OW)

**Restricted Elective Courses (12 credit hours)**  
Select four of the following:  
ELET 4133 - Embedded Systems (3)  
ELET 4151 - Communication Systems (3)  
ELET 4152 - Digital Signal Processing (3)  
ELET 4224 - Advanced Filter Design (3)  
ELET 4243 - Power Networks (3)  
ETGR 2101 - Applied Mechanics I (3)  
ETGR 2102 - Applied Mechanics II (3) or ETME 3123 - Strength of Materials (3)

**Elective Courses (7 credit hours)**  
ETGR 3000 - Special Topics in Engineering Technology (1 to 4) (must be approved by advisor in advance)  
ETME 2130 - Applied Materials and Manufacturing I (3)  
ETME 3113 - Dynamics (3)  
ETME 3150 - Applied CAD Modeling and Simulation (3)  
ETME 3213 - Machine Design I (3)  
SEGR 4961 - Introduction to Energy Systems (3)  
SEGR 4962 - Energy Markets (3)  
STAT 1220 - Elements of Statistics I (BUSN) (3) (only for A.A.S. transfer students without A.A.S. statistics credit)

**Degree Total = 120 Credit Hours**

**Degree Requirements (2+2-Year Program)**  
The BSET in Electrical Engineering Technology program consists of 120 credit hours, which may include up to 59 credit hours for approved courses from an approved A.A.S. program.

**A.A.S. Degree (59 credit hours)**  
A.A.S. transfer students may receive up to 59 credit hours for approved courses from an approved A.A.S. degree toward the Electrical Engineering Technology program; thus, A.A.S. students need only to complete the upper-division portion of the courses listed below and remediate any entrance deficiencies noted upon matriculation.

**General Education Courses (9 credit hours)**  
Students must take three courses from the LBST 2XXX series. For details on required LBST courses, refer to the General Education Program.

**Mathematics and Science Foundation Course (3 credit hours)**  
Select one of the following:  
ETGR 3171 - Engineering Analysis III (3)  
ETGR 4272 - Engineering Analysis IV (3)

**Major Courses (37 credit hours)**  
ELET 3113 - Network Analysis (3)  
ELET 3132 - Digital Systems (3)  
ELET 3132L - Digital Systems Laboratory (1) (W)  
ELET 3141 - Power Systems and Machines (3)  
ELET 3190 - Junior Practicum (3)  
ELET 3222 - Electronics II (3)  
ELET 3222L - Electronics II Laboratory (1) (W)  
ELET 3232 - Advanced Microcontroller Systems (3)  
ELET 3242 - Fundamentals of Control Systems (3)  
ELET 4123 - Active Filters (3)  
ELET 4142 - Power Electronics (3)  
ETGR 3222 - Engineering Economics (3)  
ETGR 3295 - Multidisciplinary Professional Development (1)  
ETGR 4100 - Capstone Design Project I (2) (OW)  
ETGR 4200 - Capstone Design Project II (2) (OW)

**Restricted Elective Courses (12 credit hours)**  
Select four of the following:  
ELET 4133 - Embedded Systems (3)  
ELET 4151 - Communication Systems (3)  
ELET 4152 - Digital Signal Processing (3)  
ELET 4224 - Advanced Filter Design (3)  
ELET 4243 - Power Networks (3)
Students admitted as Freshmen complete the Electrical Engineering Technology Transfer admission into the Department occurs in one of two situations:

1) Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements.

2) Transfer applicants with an Associate of Applied Science (AAS) degree must:
   a) Hold an Associate of Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation, Manufacturing, Mechanical, Optical, Robotics, Surveying or similar title with curriculum acceptable to the Department. A minimum GPA of 2.5 (out of 4.0) in the AAS degree is required.
   b) Have completed satisfactorily the prerequisite background courses for the option they plan to enter (missing background courses may be taken at UNC Charlotte).

Acceptance of a completed AAS degree indicates the acceptance of up to 64 credit hours toward the Bachelor of Science in Engineering Technology degree program only. These hours may not be valid toward other degree programs at UNC Charlotte.

Residence Requirements
A student must earn the last 30 credit hours toward the BSET degree and the last 12 credit hours in the major at UNC Charlotte to satisfy residence requirements.

Experiential Learning Requirements
All students must complete an experiential learning course. Experiential courses are practice-oriented courses such as cooperative education, internships, senior design projects, or undergraduate research.

Internships, or 49erships, involve paid or unpaid work in a career-related position for professional experience. A minimum of 80 work hours and 5 weeks for one semester is required to complete the program. Fall and Spring 49erships are part-time. Summer 49erships may be full- or part-time. Full-time students who are in good University standing, have completed 30 credit hours, and have a 2.0 minimum cumulative GPA are eligible. Internships do not offer academic credit, but are noted on the student’s transcript; students pay a course registration fee. Approval for enrollment must be arranged before the student begins a work experience. Students may begin this program during their Sophomore year; transfer students must complete 12 credit hours at UNC Charlotte before making application for the program. For more information, contact the College of Engineering Office of Student Development and Success or the University Career Center.

Course Requirements
Course requirements correspond to the mode of admission for each student as outlined hereafter.

- **Entering Freshmen**: Students admitted as Freshmen complete the appropriate four-year curriculum for the program into which they were admitted.
- **Transfer students not holding an appropriate AAS degree**: Transfer students not holding an appropriate AAS degree must complete the remaining coursework outlined for the respective four-year curriculum that they were admitted into after evaluation and application of any transfer credit.
- **Transfer students holding an appropriate AAS degree**: Transfer students with an appropriate Associate of Applied Science (AAS) degree as defined previously under Admission Requirements may begin the program in the Junior year with up to 64 transfer credit hours awarded. Prerequisites for students holding an AAS degree from a community or technical college are listed below.

Prerequisite Courses for AAS Transfers
Students transferring with an AAS degree must have satisfactorily completed the following subjects in their two-year program:

- English Composition, Technical Writing, and/or Public Speaking (3 credit hours)
- Precalculus (3 credit hours)
- Differential and Integral Calculus (6 credit hours)
- Physics with lab (8 credit hours)
- Technical Courses in Major Area as listed below (up to 36 credit hours)
Remediation of Academic Entrance Requirements for AAS Transfer Students

In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting all published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

Academic Progression Requirements

Freshman Year Requirements

All new freshmen, including early college and dual enrolled students that have college credit prior to high school graduation, are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Earn a 2.00 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements

- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take a course in their curriculum a maximum of three times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Degree Requirements

The BSET in Electrical Engineering Technology with Concentration in Applied Energy program consists of 120 credit hours.

General Education Courses (18 credit hours)

**Degree Total = 120 Credit Hours**

---

**BSET in Electrical Engineering Technology with Concentration in Electromechanical Systems**

A Concentration in Electromechanical Systems is available to BSET in Electrical Engineering Technology students.

**Admission Requirements**

Students for this degree may enter degree programs in the Department of Engineering Technology and Construction Management as freshmen or as transfer students.

**Freshmen**

Applicants entering as Freshmen must meet the general University admission requirements.

**Transfers**

Transfer admission into the department occurs in one of two situations:

1. Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements.
2. Transfer applicants with an Associate of Applied Science (AAS) degree must:

   a) Hold an Associate of Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation, Manufacturing, Mechanical, Optics, Robotics, Surveying or similar title with curriculum acceptable to the department. A minimum GPA of 2.5 (out of 4.0) in the AAS degree is required.

   b) Have completed satisfactorily the prerequisite background courses for the option they plan to enter (missing background courses may be taken at UNC Charlotte).

Acceptance of a completed AAS degree indicates the acceptance of up to 64 credit hours toward the Bachelor of Science in Engineering Technology degree program only. These hours may not be valid toward other degree programs at UNC Charlotte.

**Residence Requirements**

A student must earn the last 30 credit hours toward the BSET degree and the last 12 credit hours in the major at UNC Charlotte to satisfy residence requirements.

**Experiential Learning Requirements**

All students must complete an experiential learning course. Experiential courses are practice-oriented courses such as cooperative education, internships, senior design projects, or undergraduate research.

Internships, or 49erships, involve paid or unpaid work in a career-related position for professional experience. A minimum of 80 work hours and 5 weeks for one semester is required to complete the program. Fall and Spring 49erships are part-time. Summer 49erships may be full- or part-time. Full-time students who are in good University standing, have completed 30 credit hours, and have a 2.0 minimum cumulative GPA are eligible. Internships do not offer academic credit, but are noted on the student’s transcript; students pay a course registration fee. Approval for enrollment must be arranged before the student begins a work experience. Students may begin this program during their Sophomore year; transfer students must complete 12 credit hours at UNC Charlotte before making application for the program. For more information, contact the College of Engineering Office of Student Development and Success or the University Career Center.

**Course Requirements**

Course requirements correspond to the mode of admission for each student as outlined hereafter.

- **Entering Freshmen**: Students admitted as Freshmen complete the appropriate four year curriculum for the program into which they
were admitted.

- **Transfer students not holding an appropriate AAS degree:** Transfer students not holding an appropriate AAS degree must complete the remaining coursework outlined for the respective four year curriculum that they were admitted into after evaluation and application of any transfer credit.

- **Transfer students holding an appropriate AAS degree:** Transfer students with an appropriate Associate of Applied Science (AAS) degree as defined previously under Admission Requirements may begin the program in the Junior year with up to 64 transfer credit hours awarded. Prerequisites for students holding an AAS degree from a community or technical college are listed below.

**Prerequisite Courses for AAS Transfers**

Students transferring with an AAS degree must have satisfactorily completed the following subjects in their two-year program:

- English Composition, Technical Writing, and/or Public Speaking (3 credit hours)
- Precalculus (3 credit hours)
- Differential and Integral Calculus (6 credit hours)
- Physics I and II (each with lab) (8 credit hours)
- Technical Courses in Major Area (up to 38 credit hours)
  - DC Circuits
  - AC Circuits with Lab
  - Digital Circuits with Lab
  - Electronic Devices with Lab
  - Microprocessors
  - Instrumentation or Programmable Logic Controllers and associated laboratory
  - C Programming

**Remediation of Academic Entrance Requirements for AAS Transfer Students**

In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting all published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

**Academic Progression Requirements**

**Freshman Year Requirements**

All new freshmen, including early college and dual enrolled students that have college credit prior to high school graduation, are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Earn a 2.00 cumulative GPA upon completion of the Freshman curriculum.

**Sophomore through Senior Year Requirements**

- Maintain an overall GPA of 2.00 in the University.
- Maintain a major cumulative GPA of 2.00 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take a course in their curriculum a maximum of three times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

**Degree Requirements**

The BSET in Electrical Engineering Technology with Concentration in Electromechanical Systems program consists of 120 credit hours.

**General Education Courses (18 credit hours)**

For details on required LBST, UWRT, and Social Sciences courses, refer to the General Education Program.

**Mathematics and Science Foundation Courses (23 credit hours)**

- MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
- MATH 1121 - Calculus for Engineering Technology (3)
- or MATH 1241 - Calculus I (3)
- or ETGR 2171 - Engineering Analysis I (3)
- MATH 1242 - Calculus II (3)
- or ETGR 2272 - Engineering Analysis II (3)
- PHYS 1101 - Introductory Physics I (3)
- PHYS 1101L - Introductory Physics I Laboratory (1)
- PHYS 1102 - Introductory Physics II (3)
- PHYS 1102L - Introductory Physics II Laboratory (1)
- STAT 1220 - Elements of Statistics I (BUSN) (3)
- ETGR 3171 - Engineering Analysis III (3)
- or ETGR 4272 - Engineering Analysis IV (3)

**Major Courses (67 credit hours)**

- ELET 1102 - C Programming (3)
- ELET 1211 - DC Circuits (3)
- ELET 1231 - Digital Circuits (3)
- ELET 1231L - Digital Circuits Laboratory (1)
- ELET 2112 - AC Circuits (3)
ELET 2113L - DC/AC Circuits Laboratory (1)
ELET 2221 - Electronics I (3)
ELET 2221L - Electronics I Laboratory (1)
ELET 2231 - Microprocessor Fundamentals (3)
ELET 2241 - Instrumentation and Controls (3)
ELET 2241L - Instrumentation Laboratory (1) (W)
ELET 2290 - Sophomore Practicum (3)
ELET 3113 - Network Analysis (3)
ELET 3132 - Digital Systems (3)
ELET 3132L - Digital Systems Laboratory (1) (W)
ELET 3190 - Junior Practicum (3)
ELET 3222 - Electronics II (3)
ELET 3222L - Electronics II Laboratory (1) (W)
ELET 3232 - Advanced Microcontroller Systems (3)
ELET 3242 - Fundamentals of Control Systems (3)
ELET 4123 - Active Filters (3)
ELET 4142 - Power Electronics (3)
ETGR 1100L - Engineering Technology Computer Applications Laboratory (1)
ETGR 1101 - Introduction to Engineering Technology and Construction Management (1)
ETGR 3222 - Engineering Economics (3)
ETGR 3295 - Multidisciplinary Professional Development (1)
ETGR 4100 - Capstone Design Project I (2) (O,W)
ETGR 4200 - Capstone Design Project II (2) (O,W)

Concentration Courses (12 credit hours)
In addition to ELET 2241 taken above, select three of the following:
ETGR 2101 - Applied Mechanics I (3)
ETME 1111 - CAD Modeling I (3)
ETME 2102 - Mechanisms (3)
ETME 2130 - Applied Materials and Manufacturing I (3)
ETME 3113 - Dynamics (3)
ETME 3123 - Strength of Materials (3)
ETME 3133 - Fluid Mechanics (3)
ETME 3150 - Applied CAD Modeling and Simulation (3)
ENER 4290 - Advanced Instrumentation and Controls (3)

Degree Total = 120 Credit Hours

Fire and Safety Engineering Technology

The Fire and Safety Engineering Technology (FSET) program at UNC Charlotte prepares graduates of the BSET program for careers across a broad spectrum of technologies. The program has emphasis on both technical and non-technical aspects in the fields of fire and safety.

Concentrations within the program encompass Fire Safety, Fire Protection, and Occupational Safety. Many of the lower division courses are common between the concentrations, while the upper division allows specialization within the chosen concentration area.

BSET in Fire and Safety Engineering Technology with Concentration in Fire Protection

The Concentration in Fire Protection is intended for students who are interested in investigating and assessing loss due to fire, along with identifying and enhancing fire prevention techniques and/or mitigation strategies. This multi-disciplinary program introduces areas encompassing construction/ built environment, electrical, mechanical, physical sciences and mathematics, in addition to providing a solid foundation in fire science and safety, through coursework and experiential learning. Quantitative and computer skills are heavily emphasized throughout the program and a capstone experience is required. Students completing the requirements identified for this concentration will receive a special designation on their transcripts showing they have completed the Fire Protection concentration.

Admission Requirements

Students for this degree may enter degree programs in the Department of Engineering Technology and Construction Management as freshmen or as transfer students.

Freshman Admission

Applicants entering as Freshmen must meet the general University admission requirements.

Transfer Admission

Transfer admission into the department occurs in one of two situations:

1) Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements.

2) Transfer applicants with an Associate of Applied Science (AAS) degree must:
   a) Hold an Associate of Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation, Manufacturing, Mechanical, Optics, Robotics, Surveying or similar title with curriculum acceptable to the department. A minimum GPA of 2.5 (out of 4.0) in the AAS degree is required.
   b) Have completed satisfactorily the prerequisite background courses for the option they plan to enter (missing background courses may be taken at UNC Charlotte).

Acceptance of a completed AAS degree indicates the acceptance of up to 64 credit hours toward the Bachelor of Science in Engineering Technology degree program only. These hours may not be valid toward other degree programs at UNC Charlotte.

Residence Requirements

A student must earn the last 30 credit hours toward the BSET degree and the last 12 credit hours in the major at UNC Charlotte to satisfy residence requirements.
Experiential Learning Requirements

All students must complete an experiential learning course. Experiential courses are practice-oriented courses such as cooperative education, internships, senior design projects, or undergraduate research.

Internships, or 49erships, involve paid or unpaid work in a career-related position for professional experience. A minimum of 80 work hours and 5 weeks for one semester is required to complete the program. Fall and Spring 49erships are part-time. Summer 49erships may be full- or part-time. Full-time students who are in good University standing, have completed 30 credit hours, and have a 2.0 minimum cumulative GPA are eligible. Internships do not offer academic credit, but are noted on the student’s transcript; students pay a course registration fee. Approval for enrollment must be arranged before the student begins a work experience. Students may begin this program during their Sophomore year; transfer students must complete 12 credit hours at UNC Charlotte before making application for the program. For more information, contact the College of Engineering Office of Student Development and Success or the University Career Center.

Course Requirements

Course requirements correspond to the mode of admission for each student as outlined hereafter.

- **Entering Freshmen:** Students admitted as Freshmen complete the appropriate four year curriculum for the program into which they were admitted.
- **Transfer students not holding an appropriate AAS degree:** Transfer students not holding an appropriate AAS degree must complete the remaining coursework outlined for the respective four year curriculum that they were admitted into after evaluation and application of any transfer credit.
- **Transfer students holding an appropriate AAS degree:** Transfer students with an appropriate Associate of Applied Science (AAS) degree as defined previously under Admission Requirements may begin the program in the Junior year with up to 64 transfer credit hours awarded. Prerequisites for students holding an AAS degree from a community or technical college are listed below.

Prerequisite Courses for AAS Transfers

Students transferring with an AAS degree must have satisfactorily completed the following subjects in their two-year program:

- English Composition, Technical Writing, and/or Public Speaking (3 credit hours)
- Precalculus (3 credit hours)
- Differential and Integral Calculus (6 credit hours)
- General Physics (with lab) (4 credit hours)
- Chemistry (3 credit hours)
- Technical Courses in Major Area as listed below (up to 38 credit hours)
  - Introduction to Fire Protection and Prevention
  - Water Based Fire Suppression
  - Fire Investigation
  - Building Construction
  - Introduction to Fire Behavior
  - Occupational Safety
  - Computer-Aided Drafting

Remediation of Academic Entrance Requirements for AAS Transfer Students

In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting ALL published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

Academic Progression Requirements

**Freshman Year Requirements**

All new freshmen, including early college and dual enrolled students that have college credit prior to high school graduation, are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Earn a 2.00 cumulative GPA upon completion of the Freshman curriculum.

**Sophomore through Senior Year Requirements**

- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take a course in their curriculum a maximum of three times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a “Continuation Agreement” that is mutually agreed upon and signed by the student and his/her appropriate advisor. A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a “Continuation Agreement” that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will...
automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

**Degree Requirements (4-Year Program)**

The BSET in Fire and Safety Engineering Technology with a Concentration in Fire Protection program consists of 120 credit hours.

**General Education Courses (18 credit hours)**

For details on required LBST, UWRT, and Social Sciences courses, refer to the General Education Program.

**Mathematics and Science Foundation Courses (22 credit hours)**

- CHEM 12XX - Chemistry Elective (3)
- ETGR 2171 - Engineering Analysis I (3)
  - or MATH 1121 - Calculus for Engineering Technology (3)
- ETGR 2272 - Engineering Analysis II (3)
- ETGR 3171 - Engineering Analysis III (3)
- MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
- PHYS 1101 - Introductory Physics I (3)
- PHYS 1101L - Introductory Physics I Laboratory (1)
- STAT 1220 - Elements of Statistics I (BUSN) (3)

**Major Courses (77 credit hours)**

- ETFS 1220 - Introduction to Fire Protection and Prevention (3)
- ETFS 1244 - Fire-Based Water Suppression (3)
- ETFS 2126 - Fire Investigation and Forensics (3)
- ETFS 2132 - Building Construction for Fire Protection (3)
- ETFS 2264 - Introduction to Fire Behavior (3)
- ETFS 3103 - Fire Dynamics (3)
- ETFS 3103L - Fire Dynamics Lab (1) (W)
- ETFS 3113 - Fire Safety in the Built Environment (3) (W)
- ETFS 3123 - Industrial Hazards and Electricity (3)
- ETFS 3124 - Risk Management (3)
- ETFS 3144 - Active Fire Protection (3)
- ETFS 4126 - Case Studies in Fire Forensics (1)
- ETFS 4272 - Fire and Safety Capstone (3) (O, W)
- ETFS 4283 - Fire Modeling (3)
- ETFS 4344 - Active Fire Protection (3)
- ETGR 1100L - Engineering Technology Computer Applications Laboratory (1)
- ETGR 1101 - Introduction to Engineering Technology and Construction Management (1)
- ETGR 1103 - Technical Drawing I (3)
- ETGR 2101 - Applied Mechanics I (3)
- ETGR 2102 - Applied Mechanics II (3)
  - or ETME 3123 - Strength of Materials (3)
- ETGR 2106 - Electronic Circuits and Devices (3)
- ETGR 2230 - Occupational Safety (3)
- ETGR 3222 - Engineering Economics (3)
- ETGR 3295 - Multidisciplinary Professional Development (1)
- ETGR 4301 - Environmental Pollution Control (3)
- ETGR 4302 - Industrial Hygiene (3)
- ETGR 4303 - Applied Ergonomics and Human Factors (3)
- ETME 3133 - Fluid Mechanics (3)
- ETME 3143 - Thermodynamics (3)

**Restrictive Elective Course (3 credit hours)**

Select one 3000- or 4000-level course within the Department of Engineering Technology and Construction Management with a minimum of 3 credit hours that are not already required for the major. Select from the following:

- CMET 3000 level or above
- ELET 3000 level or above
- ENER 3000 level or above
- ETCE 3000 level or above
- ETFS 3000 level or above
- ETGR 3000 level or above
- ETME 3000 level or above

**Degree Total = 120 credit hours**

**Degree Requirements (2+2-Year Program)**

The BSET in Fire and Safety Engineering Technology with a Concentration in Fire Protection program consists of 120 credit hours.

**A.A.S. Degree (60 credit hours)**

A.A.S. transfer students from approved programs receive up to 60 credit hours for the A.A.S. degree; thus, A.A.S. students need only to complete the upper-division portion of the courses listed below and remediate any entrance deficiencies noted upon matriculation.

**General Education Courses (9 credit hours)**

Students must take three courses from the LBST 2XXX series. For details, refer to the General Education Program.

**Mathematics and Science Foundation Course (3 credit hours)**

- ETGR 3171 - Engineering Analysis III (3)

**Major Courses (45 credit hours)**

- ETFS 3103 - Fire Dynamics (3)
- ETFS 3103L - Fire Dynamics Lab (1) (W)
- ETFS 3113 - Fire Safety in the Built Environment (3) (W)
- ETFS 3123 - Industrial Hazards and Electricity (3)
- ETFS 3124 - Risk Management (3)
- ETFS 4144 - Active Fire Protection (3)
- ETFS 4272 - Fire and Safety Capstone (3) (O, W)
- ETFS 4283 - Fire Modeling (3)
- ETFS 4344 - Active Fire Protection (3)
- ETFS 4344 - Structural Fire Safety (3)
- ETGR 3222 - Engineering Economics (3)
- ETGR 3295 - Multidisciplinary Professional Development (1)
- ETGR 4301 - Environmental Pollution Control (3)
- ETGR 4302 - Industrial Hygiene (3)
- ETGR 4303 - Applied Ergonomics and Human Factors (3)
- ETME 3133 - Fluid Mechanics (3)
- ETME 3143 - Thermodynamics (3)

**Restricted Elective Courses (3 credit hours)**

Select one 3000- or 4000-level course within the Department of Engineering Technology and Construction Management for a minimum of 3 credit hours that are not already required for the major. Select from the following:

- CMET 3000 level or above
- ELET 3000 level or above
- ENER 3000 level or above
ETCE 3000 level or above
ETFS 3000 level or above
ETGR 3000 level or above
ETME 3000 level or above

Degree Total = 120 credit hours

BSET in Fire and Safety Engineering Technology with Concentration in Fire Safety
The Concentration in Fire Safety is intended for students who seek a career within the fire service. The curriculum is designed to prepare students for increasingly responsible roles in leadership and management. In addition, the program provides comprehensive classes dealing with fire behavior, active and passive protection systems as well as the foundational principles of research investigation. Students completing the requirements identified for this concentration will receive a special designation on their transcripts showing they have completed the Fire Safety concentration.

Admission Requirements
Students for this degree may enter degree programs in the Department of Engineering Technology and Construction Management as freshmen or as transfer students.

Freshman Admission
Applicants entering as Freshmen must meet the general University admission requirements.

Transfer Admission
Transfer admission into the department occurs in one of two situations:

1) Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements.

2) Transfer applicants with an Associate of Applied Science (AAS) degree must:
   a) Hold an Associate of Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation, Manufacturing, Mechanical, Optics, Robotics, Surveying or similar title with curriculum acceptable to the department. A minimum GPA of 2.5 (out of 4.0) in the AAS degree is required.
   b) Have completed satisfactorily the prerequisite background courses for the option they plan to enter (missing background courses may be taken at UNC Charlotte).

Acceptance of a completed AAS degree indicates the acceptance of up to 64 credit hours toward the Bachelor of Science in Engineering Technology degree program only. These hours may not be valid toward other degree programs at UNC Charlotte.

Residence Requirements
A student must earn the last 30 credit hours toward the BSET degree and the last 12 credit hours in the major at UNC Charlotte to satisfy residence requirements.

Experiential Learning Requirements
All students must complete an experiential learning course. Experiential courses are practice-oriented courses such as cooperative education, internships, senior design projects, or undergraduate research.

Internships, or 49erships, involve paid or unpaid work in a career-related position for professional experience. A minimum of 80 work hours and 5 weeks for one semester is required to complete the program. Fall and Spring 49erships are part-time. Summer 49erships may be full- or part-time. Full-time students who are in good University standing, have completed 30 credit hours, and have a 2.0 minimum cumulative GPA are eligible. Internships do not offer academic credit, but are noted on the student’s transcript; students pay a course registration fee. Approval for enrollment must be arranged before the student begins a work experience. Students may begin this program during their Sophomore year; transfer students must complete 12 credit hours at UNC Charlotte before making application for the program. For more information, contact the College of Engineering Office of Student Development and Success or the University Career Center.

Course Requirements
Course requirements correspond to the mode of admission for each student as outlined hereafter.

- **Entering Freshmen:** Students admitted as Freshmen complete the appropriate four year curriculum for the program into which they were admitted.
- **Transfer students not holding an appropriate AAS degree:** Transfer students not holding an appropriate AAS degree must complete the remaining coursework outlined for the respective four year curriculum that they were admitted into after evaluation and application of any transfer credit.
- **Transfer students holding an appropriate AAS degree:** Transfer students with an appropriate Associate of Applied Science (AAS) degree as defined previously under Admission Requirements may begin the program in the Junior year with up to 64 transfer credit hours awarded. Prerequisites for students holding an AAS degree from a community or technical college are listed below.

Prerequisite Courses for AAS Transfers
Students transferring with an AAS degree must have satisfactorily completed the following subjects in their two-year program:

- English Composition, Technical Writing, and/or Public Speaking (3 credit hours)
- College Algebra (3 credit hours)
- Precalculus (3 credit hours)
- General Physics (with lab) (4 credit hours)
- Chemistry (3 credit hours)
- Technical Courses in Major Area as listed below (up to 37 credit hours)
  - Introduction to Fire Protection and Prevention
  - Water Based Fire Suppression
  - Fire Protection and Safety Law
  - Fire Investigation
  - Building Construction
Remediation of Academic Entrance Requirements for AAS Transfer Students

In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting ALL published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

Academic Progression Requirements

Freshman Year Requirements

All new freshmen, including early college and dual enrolled students that have college credit prior to high school graduation, are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Earn a 2.00 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements

- Maintain an overall GPA of 2.00 in the University.
- Maintain a major cumulative GPA of 2.00 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take a course in their curriculum a maximum of three times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Degree Requirements (4-Year Program)

The BSET in Fire and Safety Engineering Technology with a Concentration in Fire Safety program consists of 120 credit hours.

General Education Courses (18 credit hours)

For details on required LBST, UWRT, and Social Sciences courses, refer to the General Education Program.

Degree Total = 120 credit hours

BSET in Fire and Safety Engineering Technology with Concentration in Occupational Safety
The Concentration in Occupational Safety is intended for students who are interested in the identification and solution of complex safety and environmental challenges. This multi-disciplinary program introduces areas encompassing construction/ built environment, electrical, mechanical, physical and natural sciences, and mathematics, in addition to providing a solid foundation in construction safety, industrial hazards and electricity, environmental pollution control, safety management, accident prevention, safety law and compliance, industrial hygiene, fire prevention and protection, and applied ergonomics and human factors. Quantitative and computer skills are heavily emphasized throughout the program and an experiential capstone experience (internship, co-op, or a supervised directed project) is required. Students completing the requirements identified for this concentration will receive a special designation on their transcripts showing they have completed the Occupational Safety concentration.

Admission Requirements
Students for this degree may enter degree programs in the Department of Engineering Technology and Construction Management as freshmen or as transfer students.

Freshman Admission
Applicants entering as Freshmen must meet the general University admission requirements.

Transfer Admission
Transfer admission into the department occurs in one of two situations:

1) Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements.

2) Transfer applicants with an Associate of Applied Science (AAS) degree must:
   a) Hold an Associate of Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation, Manufacturing, Mechanical, Optics, Robotics, Surveying or similar title with curriculum acceptable to the department. A minimum GPA of 2.5 (out of 4.0) in the AAS degree is required.
   b) Have completed satisfactorily the prerequisite background courses for the option they plan to enter (missing background
Acceptance of a completed AAS degree indicates the acceptance of up to 64 credit hours toward the Bachelor of Science in Engineering Technology degree program only. These hours may not be valid toward other degree programs at UNC Charlotte.

**Residence Requirements**
A student must earn the last 30 credit hours toward the BSET degree and the last 12 credit hours in the major at UNC Charlotte to satisfy residence requirements.

**Experiential Learning Requirements**
All students must complete an experiential learning course. Experiential courses are practice-oriented courses such as cooperative education, internships, senior design projects, or undergraduate research.

Internships, or 49erships, involve paid or unpaid work in a career-related position for professional experience. A minimum of 80 work hours and 5 weeks for one semester is required to complete the program. Fall and Spring 49erships are part-time. Summer 49erships may be full- or part-time. Full-time students who are in good University standing, have completed 30 credit hours, and have a 2.0 minimum cumulative GPA are eligible. Internships do not offer academic credit, but are noted on the student’s transcript; students pay a course registration fee. Approval for enrollment must be arranged before the student begins a work experience. Students may begin this program during their Sophomore year; transfer students must complete 12 credit hours at UNC Charlotte before making application for the program. For more information, contact the College of Engineering Office of Student Development and Success or the University Career Center.

**Course Requirements**
Course requirements correspond to the mode of admission for each student as outlined hereafter.

- **Entering Freshmen**: Students admitted as Freshmen complete the appropriate four year curriculum for the program into which they were admitted.

- **Transfer students not holding an appropriate AAS degree**: Transfer students not holding an appropriate AAS degree must complete the remaining coursework outlined for the respective four year curriculum that they were admitted into after evaluation and application of any transfer credit.

- **Transfer students holding an appropriate AAS degree**: Transfer students with an appropriate Associate of Applied Science (AAS) degree as defined previously under Admission Requirements may begin the program in the Junior year with up to 64 transfer credit hours awarded. Prerequisites for students holding an AAS degree from a community or technical college are listed below.

**Prerequisite Courses for AAS Transfers**
Students transferring with an AAS degree must have satisfactorily completed the following subjects in their two-year program:

- English Composition, Technical Writing, and/or Public Speaking (3 credit hours)
- Precalculus (3 credit hours)

- Differential and Integral Calculus (6 credit hours)
- Physics with lab (4 credit hours)
- Chemistry (3 credit hours)
- Principles of Biology (3 credit hours)
- Technical Courses in Major Area as listed below (up to 35 credit hours)
  - Introduction to Fire Protection and Prevention
  - Water-Based Fire Suppression
  - Fire Protection and Safety Law
  - Fire Investigation
  - Building Construction
  - Introduction to Fire Behavior
  - Computer-Aided Drafting
  - Statistics

**Remediation of Academic Entrance Requirements for AAS Transfer Students**
In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting ALL published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

**Academic Progression Requirements**

**Freshman Year Requirements**
All new freshmen, including early college and dual enrolled students that have college credit prior to high school graduation, are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Earn a 2.00 cumulative GPA upon completion of the Freshman curriculum.

**Sophomore through Senior Year Requirements**
- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take a course in their curriculum a maximum of three times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a “Continuation Agreement” that is mutually agreed upon and signed by the student and his/her appropriate advisor. A student who has been suspended by the University must follow University guidelines for appeal.
Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Degree Requirements (4-Year Program)
The BSET in Fire and Safety Engineering Technology with a Concentration in Occupational Safety program consists of 120 credit hours.

General Education Courses (18 credit hours)
For details on required LBST, UWRT, and Social Sciences courses, refer to the General Education Program.

Mathematics and Science Foundation Courses (25 credit hours)
MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
MATH 1121 - Calculus for Engineering Technology (3)
ETCE 1103 - Technical Drawing I (3)
ETGR 2171 - Engineering Analysis I (3)
ETGR 2272 - Engineering Analysis II (3)
BIOL 1110 - Principles of Biology I (3)
BIOL 2273 - Human Anatomy and Physiology (3)
CHEM 12XX - Chemistry (3)
PHYS 1101 - Introductory Physics I (3)
PHYS 1101L - Introductory Physics I Laboratory (1)
STAT 1220 - Elements of Statistics I (BUSN) (3)

Major Courses (71 credit hours)
CMET 1680 - Professional Development I: Construction Safety (1)
ETFS 1220 - Introduction to Fire Protection and Prevention (3)
ETFS 1244 - Water-Based Fire Suppression (3)
ETFS 1252 - Fire Protection and Safety Law (3)
ETFS 2126 - Fire Investigation and Forensics (3)
ETFS 2132 - Building Construction for Fire Protection (3)
ETFS 2264 - Introduction to Fire Behavior (3)
ETFS 3103 - Fire Dynamics (3)
ETFS 3113 - Fire Safety in the Built Environment (3) (W)
ETFS 3123 - Industrial Hazards and Electricity (3)
ETFS 3124 - Risk Management (3)
ETFS 3144 - Active Fire Protection (3)
ETFS 3150 - Adult Learning Theory in Safety (1)
ETFS 4123 - Community Threat Assessment and Mitigation (3)
ETFS 4272 - Fire and Safety Capstone (3) (O,W)
ETGR 1100L - Engineering Technology Computer Applications Laboratory (1)
ETGR 1101 - Introduction to Engineering Technology and Construction Management (1)
ETGR 1103 - Technical Drawing I (3)
ETGR 2106 - Electronic Circuits and Devices (3)
ETGR 2230 - Occupational Safety (3)
ETGR 3222 - Engineering Economics (3)
ETGR 3295 - Multidisciplinary Professional Development (1)
ETGR 4301 - Environmental Pollution Control (3)
ETGR 4302 - Industrial Hygiene (3)
ETGR 4303 - Applied Ergonomics and Human Factors (3)
ETGR 4305 - System Safety Design and Management (3)
PSYC 2171 - Introduction to Industrial/Organizational Psychology (3)

Degree Total = 120 Credit Hours

Degree Requirements (2+2-Year Program)
The BSET in Fire and Safety Engineering Technology with a Concentration in Occupational Safety program consists of 120 credit hours.

AAS Degree (60 credit hours)
A.A.S. transfer students from approved programs may receive up to 60 credit hours for the A.A.S. degree; thus, A.A.S. students need only to complete the upper-division portion of the courses listed below and remediate any entrance deficiencies noted upon matriculation.

General Education Courses (6 credit hours)
For details on required LBST courses, refer to the General Education Program.

Mathematics and Science Foundation Course (3 credit hours)
BIOL 2273 - Human Anatomy and Physiology (3)

Major Courses (45 credit hours)
CMET 1680 - Professional Development I: Construction Safety (1)
ETFS 3103 - Fire Dynamics (3)
ETFS 3113 - Fire Safety in the Built Environment (3) (W)
ETFS 3123 - Industrial Hazards and Electricity (3)
ETFS 3124 - Risk Management (3)
ETFS 3144 - Active Fire Protection (3)
ETFS 3150 - Adult Learning Theory in Safety (1)
ETFS 4123 - Community Threat Assessment and Mitigation (3)
ETFS 4272 - Fire and Safety Capstone (3) (O,W)
ETGR 2106 - Electronic Circuits and Devices (3)
ETGR 3222 - Engineering Economics (3)
ETGR 3295 - Multidisciplinary Professional Development (1)
ETGR 4301 - Environmental Pollution Control (3)
ETGR 4302 - Industrial Hygiene (3)
ETGR 4303 - Applied Ergonomics and Human Factors (3)
ETGR 4305 - System Safety Design and Management (3)
PSYC 2171 - Introduction to Industrial/Organizational Psychology (3)
or PSYC 3174 - Organizational Psychology (3)
or Directed Elective approved by advisor

Restricted Elective Courses (6 credit hours)
Select two 3000- or 4000-level courses within the Department of Engineering Technology and Construction Management with a minimum of 6 credit hours that are not already required for the major. Select from the following:

CMET 3000 level or above
ELET 3000 level or above
ENER 3000 level or above
ETCE 3000 level or above
ETFS 3000 level or above
ETGR 3000 level or above
ETME 3000 level or above

Degree Total = 120 Credit Hours

Early Entry: Master of Science in Fire Protection and Safety Management
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Mechanical Engineering Technology

BSET in Mechanical Engineering Technology
Mechanical Engineering Technology includes technical and mechanical drawing, computer-aided design, machine design, manufacturing and machine processes, fluid power systems, statics and strength of materials, mechanisms, stress analysis, instrumentation and controls, thermodynamic systems, energy, heat transfer, dynamics, methods analysis, and engineering economics.

Admission Requirements
Freshmen
Applicants entering as Freshmen must meet the general University admission requirements.

Transfers
Transfer admission into the department occurs in one of two situations:

1) Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements.
2) Transfer applicants with an Associate of Applied Science (AAS) degree must:
   a) Hold an Associate of Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation, Manufacturing, Mechanical, Optics, Robotics, Surveying or similar title with curriculum acceptable to the department. A minimum GPA of 2.5 (out of 4.0) in the AAS degree is required.
   b) Have completed satisfactorily the prerequisite background courses for the option they plan to enter (missing background courses may be taken at UNC Charlotte).

Acceptance of a completed AAS degree indicates the acceptance of up to 64 credit hours toward the Bachelor of Science in Engineering Technology degree program only. These hours may not be valid toward other degree programs at UNC Charlotte.

Residence Requirements
A student must earn the last 30 credit hours toward the BSET degree and the last 12 credit hours in the major at UNC Charlotte to satisfy residence requirements.

Experiential Learning Requirements
All students must complete an experiential learning course. Experiential courses are practice-oriented courses such as cooperative education, internships, senior design projects, or undergraduate research.
Internships, or 49erships, involve paid or unpaid work in a career-related position for professional experience. A minimum of 80 work hours and 5 weeks for one semester is required to complete the program. Fall and Spring 49erships are part-time. Summer 49erships may be full- or part-time. Full-time students who are in good University standing, have completed 30 credit hours, and have a 2.0 minimum cumulative GPA are eligible. Internships do not offer academic credit, but are noted on the student's transcript; students pay a course registration fee. Approval for enrollment must be arranged before the student begins a work experience. Students may begin this program during their Sophomore year; transfer students must complete 12 credit hours at UNC Charlotte before making application for the program. For more information, contact the College of Engineering Office of Student Development and Success or the University Career Center.

Course Requirements
Course requirements correspond to the mode of admission for each student as outlined hereafter.

- **Entering Freshmen:** Students admitted as Freshmen complete the appropriate four year curriculum for the program into which they were admitted.
- **Transfer students not holding an appropriate AAS degree:** Transfer students not holding an appropriate AAS degree must complete the remaining coursework outlined for the respective four year curriculum that they were admitted into after evaluation and application of any transfer credit.
- **Transfer students holding an appropriate AAS degree:** Transfer students with an appropriate Associate of Applied Science (AAS) degree as defined previously under Admission Requirements may begin the program in the Junior year with up to 64 transfer credit hours awarded. Prerequisites for students holding an AAS degree from a community or technical college are listed below.

Prerequisite Courses for AAS Transfers
Students transferring with an AAS degree must have satisfactorily completed the following subjects in their two-year program:

- English Composition, Technical Writing, and/or Public Speaking (3 credit hours)
- Precalculus (3 credit hours)
- Differential and Integral Calculus (6 credit hours)
- Physics I and II (each with lab) (8 credit hours)
- Chemistry (3 credit hours)
- Technical Courses in Major Area (up to 41 credit hours)
  - Parametric Solid Modeling
  - Manufacturing Processes
  - Metallurgy or Engineering Materials
  - Statics
  - Kinematics or Mechanisms
  - DC Circuits
  - Machine Shop Practices with Lab

Remediation of Academic Entrance Requirements for AAS Transfer Students
In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting ALL published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

Academic Progression Requirements
**Freshman Year Requirements**
All new freshmen, including early college and dual enrolled students that have college credit prior to high school graduation, are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Earn a 2.00 cumulative GPA upon completion of the Freshman curriculum.

**Sophomore through Senior Year Requirements**
- Maintain an overall GPA of 2.00 in the University.
- Maintain a major cumulative GPA of 2.00 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take a course in their curriculum a maximum of three times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

**Degree Requirements (4-Year Program)**
The BSET in Mechanical Engineering Technology program consists of 120 credit hours.

**General Education Courses (18 credit hours)**
For details on required LBST, UWRT, and Social Sciences courses, refer to the General Education Program.
Mathematics and Science Foundation Courses (26 credit hours)
CHEM 1251 - General Chemistry I (3)
ETGR 2272 - Engineering Analysis II (3)
ETGR 3171 - Engineering Analysis III (3)
or ETGR 4272 - Engineering Analysis IV (3)
MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
MATH 1121 - Calculus for Engineering Technology (3)
or ETGR 2171 - Engineering Analysis I (3)
PHYS 1101 - Introductory Physics I (3)
PHYS 1101L - Introductory Physics I Lab (1)
PHYS 1102 - Introductory Physics II (3)
PHYS 1102L - Introductory Physics II Lab (1)
STAT 1220 - Elements of Statistics I (BUSN) (3)

Major Courses (63 credit hours)
ELET 2241 - Instrumentation and Controls (3)
ELET 2241L - Instrumentation Laboratory (1) (W)
ETGR 1100L - Engineering Technology Computer Applications Lab (1)
ETGR 1101 - Introduction to Engineering Technology and Construction Management (1)
ETGR 2101 - Applied Mechanics I (3)
ETGR 2106 - Electronic Circuits and Devices (3)
ETGR 3222 - Engineering Economics (3)
ETGR 3295 - Multidisciplinary Professional Development (1)
ETGR 4100 - Capstone Design Project I (2) (O, W)
ETGR 4200 - Capstone Design Project II (2) (O, W)
ETME 1111 - CAD Modeling I (3)
ETME 1112 - CAD Modeling II (3)
ETME 2100 - Sophomore Design Practice (2)
ETME 2100L - Sophomore Design Practice Lab (1)
ETME 2102 - Mechanisms (3)
ETME 2130 - Applied Materials and Manufacturing I (3)
ETME 2131 - Applied Materials and Manufacturing II (3)
ETME 3100 - Junior Design Practice (2)
ETME 3100L - Junior Design Practice Lab (1)
ETME 3113 - Dynamics (3)
ETME 3123 - Strength of Materials (3)
ETME 3133 - Fluid Mechanics (3)
ETME 3143 - Thermodynamics (3)
ETME 3150 - Applied CAD Modeling and Simulation (3)
ETME 3213 - Machine Design I (3)
ETME 4244 - Applied Heat Transfer (3)

Elective Lab Course (1 credit hour)
Select one of the following:
ETME 3123L - Stress Analysis Laboratory (1) (W)
ETME 4244L - Thermal Fluids Laboratory (1) (W)

Restricted Elective Courses (12 credit hours)
Select at least one ETME or ENER course:
ETME 3223 - Machine Design II (3)
ENER 4140 - Energy Management (3)
ENER 4250 - Analysis of Renewable Energy Systems (3)
ENER 4275 - Air Conditioning Systems (3)

Select no more than three of the following:
CMET 3224 - Construction Project Administration (3)
ELET 1102 - C Programming (3)
ELET 1231 - Digital Circuits (3)

ELET 2231 - Microprocessor Fundamentals (3)
ELET 3113 - Network Analysis (3)
ELET 3132 - Digital Systems (3)
ELET 3141 - Power Systems and Machines (3)
ELET 3242 - Fundamentals of Control Systems (3)
ETCE 3163 - Structural Analysis and Design I (3)
ETCE 3264 - Structural Analysis (3)
ETCE 3271 - Building Systems (3)
ETFS 3103 - Fire Dynamics (3)
ETFS 3113 - Fire Safety in the Built Environment (3) (W)
ETFS 3123 - Industrial Hazards and Electricity (3)
ETGR 2230 - Occupational Safety (3)
ETGR 4272 - Engineering Analysis IV (3)
ETGR 4301 - Environmental Pollution Control (3)
ETGR 4302 - Industrial Hygiene (3)
ETGR 4303 - Applied Ergonomics and Human Factors (3)
OPER 3100 - Operations Management (3)
SEGR 4961 - Introduction to Energy Systems (3)
SEGR 4962 - Energy Markets (3)
STAT 1220 - Elements of Statistics I (BUSN) (3)

Degree Total = 120 Credit Hours

Grade Requirements
The following courses must be completed with a grade of C or above: ETGR 2272, MATH 1103, MATH 1121 or ETGR 2171, PHYS 1101, PHYS 1101L, PHYS 1102, PHYS 1102L, ETGR 1100L, ETGR 1101, ETGR 2101, ETME 1111, and ETME 1112.

Degree Requirements (2+2-Year Program)
The BSET in Mechanical Engineering Technology program consists of 120 credit hours, which may include up to 61 credit hours for approved courses completed in an approved A.A.S. degree.

General Education Courses (6 credit hours)
Students must take two approved courses from the LBST 2XXX series. For further details on required LBST courses, refer to the General Education Program.

Mathematics and Science Foundation Courses (3 credit hours)
Select one of the following:
ETGR 3171 - Engineering Analysis III (3)
ETGR 4272 - Engineering Analysis IV (3)

Major Courses (37 credit hours)
ELET 2241 - Instrumentation and Controls (3)
ELET 2241L - Instrumentation Laboratory (1) (W)
ETGR 3222 - Engineering Economics (3)
ETGR 3295 - Multidisciplinary Professional Development (1)
ETGR 4100 - Capstone Design Project I (2) (O, W)
ETGR 4200 - Capstone Design Project II (2) (O, W)
ETME 3100 - Junior Design Practice (2)
ETME 3100L - Junior Design Practice Lab (1)
ETME 3113 - Dynamics (3)
ETME 3123 - Strength of Materials (3)
ETME 3133 - Fluid Mechanics (3)
ETME 3143 - Thermodynamics (3)
ETME 3150 - Applied CAD Modeling and Simulation (3)
ETME 3213 - Machine Design I (3)
Transfer Requirements

Transfer admission into the department occurs in one of two situations:

1) Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements.

2) Transfer applicants with an Associate in Applied Science (AAS) degree must:
   a) Hold an Associate in Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation, Manufacturing, Mechanical, Optics, Robotics, Surveying or similar title with curriculum acceptable to the department. A minimum GPA of 2.5 (out of 4.0) in the AAS degree is required.
   b) Have completed satisfactorily the prerequisite background courses for the option they plan to enter (missing background courses may be taken at UNC Charlotte).

Acceptance of a completed AAS degree indicates the acceptance of up to 64 credit hours toward the Bachelor of Science in Engineering Technology degree program only. These hours may not be valid toward other degree programs at UNC Charlotte.

Residence Requirements

A student must earn the last 30 credit hours toward the BSET degree and the last 12 credit hours in the major at UNC Charlotte to satisfy residence requirements.

Experiential Learning Requirements

All students must complete an experiential learning course. Experiential courses are practice-oriented courses such as cooperative education, internships, senior design projects, or undergraduate research. Internships, or 49erships, involve paid or unpaid work in a career-related position for professional experience. A minimum of 80 work hours and 5 weeks for one semester is required to complete the program. Fall and Spring 49erships are part-time. Summer 49erships may be full- or part-time. Full-time students who are in good University standing, have completed 30 credit hours, and have a 2.0 minimum cumulative GPA are eligible. Internships do not offer academic credit, but are noted on the student’s transcript; students pay a course registration fee. Approval for enrollment must be arranged before the student begins a work experience. Students may begin this program during their Sophomore year; transfer students must complete 12 credit hours at UNC Charlotte before making application for the program. For more information, contact the College of Engineering Office of Student Development and Success or the University Career Center.

Course Requirements

Course requirements correspond to the mode of admission for each student as outlined hereafter.

- **Entering Freshmen:** Students admitted as Freshmen complete the appropriate four year curriculum for the program into which they were admitted.

- **Transfer students not holding an appropriate AAS degree:** Transfer students not holding an appropriate AAS degree must complete the remaining coursework outlined for the respective four year curriculum that they were admitted into after evaluation and application of any transfer credit.

- **Transfer students holding an appropriate AAS degree:** Transfer students with an appropriate Associate of Applied Science (AAS)
degree as defined previously under Admission Requirements may begin the program in the Junior year with up to 64 transfer credit hours awarded. Prerequisites for students holding an AAS degree from a community or technical college are listed below.

Prerequisite Courses for AAS Transfers
Students transferring with an AAS degree must have satisfactorily completed the following subjects in their two-year program:

- English Composition, Technical Writing, and/or Public Speaking (3 credit hours)
- Precalculus (3 credit hours)
- Differential and Integral Calculus (6 credit hours)
- Physics I and II (each with lab) (8 credit hours)
- Chemistry (3 credit hours)
- Technical Courses in Major Area (up to 41 credit hours)
  - Parametric Solid Modeling
  - Manufacturing Processes
  - Metallurgy or Engineering Materials
  - Statics
  - Kinematics or Mechanisms
  - DC Circuits
  - Machine Shop Practices with Lab

Remediation of Academic Entrance Requirements for AAS Transfer Students
In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting ALL published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

Academic Progression Requirements
Freshman Year Requirements
All new freshmen, including early college and dual enrolled students that have college credit prior to high school graduation, are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Earn a 2.00 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements
- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take a course in their curriculum a maximum of three times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Degree Requirements
The BSET in Mechanical Engineering Technology with Concentration in Applied Energy program consists of 120 credit hours.

General Education Courses (18 credit hours)
For details on required LBST, UWRT, and Social Sciences courses, refer to the General Education Program.

Mathematics and Science Foundation Courses (26 credit hours)
CHEM 1251 - General Chemistry I (3)

ETGR 3295 - Multidisciplinary Professional Development (1)
ETGR 4100 - Capstone Design Project I (2) (O, W)
ETGR 4200 - Capstone Design Project II (2) (O, W)
ETME 1111 - CAD Modeling I (3)
ETME 1112 - CAD Modeling II (3)
ETME 2100 - Sophomore Design Practicum (2)
ETME 2100L - Sophomore Design Practicum Lab (1)
ETME 2102 - Mechanisms (3)
ETME 2130 - Applied Materials and Manufacturing I (3)
ETME 2131 - Applied Materials and Manufacturing II (3)
ETME 3100 - Junior Design Practicum (2)
ETME 3100L - Junior Design Practicum Lab (1)
ETME 3113 - Dynamics (3)
ETME 3123 - Strength of Materials (3)
ETME 3133 - Fluid Mechanics (3)
ETME 3143 - Thermodynamics (3)
ETME 3150 - Applied CAD Modeling and Simulation (3)
ETME 3213 - Machine Design I (3)
ETME 4244 - Applied Heat Transfer (3)

Elective Lab Course (1 credit hour)
Select one of the following:
ETME 3123L - Stress Analysis Laboratory (1) (W)
ETME 4244L - Thermal Fluids Laboratory (1) (W)

Concentration Courses (12 credit hours)
Select four of the following:
ELET 3141 - Power Systems and Machines (3)
ENER 4000 - Special Topics (1 to 4)
ENER 4140 - Energy Management (3)
ENER 4250 - Analysis of Renewable Energy Systems (3)
ENER 4275 - Air Conditioning Systems (3)
SEGR 4961 - Introduction to Energy Systems (3) (with approval)
SEGR 4962 - Energy Markets (3) (with approval)

Degree Total = 120 Credit Hours

BSET in Mechanical Engineering Technology with Concentration in Electromechanical Systems
A Concentration in Electromechanical Systems is available to BSET in Mechanical Engineering Technology students.

Admission Requirements
Students for this degree may enter degree programs in the Department of Engineering Technology and Construction Management as freshmen or as transfer students.

Freshmen
Applicants entering as Freshmen must meet the general University admission requirements.

Transfers
Transfer admission into the department occurs in one of two situations:

1. Transfer applicants not having the Associate in Applied Science (AAS) degree or its equivalent must meet general University admission requirements.
2. Transfer applicants with an Associate of Applied Science (AAS) degree must:
   a) Hold an Associate of Applied Science (AAS) degree in a field appropriate to the option they plan to enter. Acceptable AAS degrees may include Architectural, Automation, Building Construction, Civil, Construction, Computer, Controls, Design and Drafting, Electrical, Electronics, Environmental, Fire Protection, Fire Science, Industrial, Instrumentation, Manufacturing, Mechanical, Optics, Robotics, Surveying or similar title with curriculum acceptable to the department. A minimum GPA of 2.5 (out of 4.0) in the AAS degree is required.
   b) Have completed satisfactorily the prerequisite background courses for the option they plan to enter (missing background courses may be taken at UNC Charlotte).

Acceptance of a completed AAS degree indicates the acceptance of up to 64 credit hours toward the Bachelor of Science in Engineering Technology degree program only. These hours may not be valid toward other degree programs at UNC Charlotte.

Residence Requirements
A student must earn the last 30 credit hours toward the BSET degree and the last 12 credit hours in the major at UNC Charlotte to satisfy residence requirements.

Experiential Learning Requirements
All students must complete an experiential learning course. Experiential courses are practice-oriented courses such as cooperative education, internships, senior design projects, or undergraduate research.

Internships, or 49erships, involve paid or unpaid work in a career-related position for professional experience. A minimum of 80 work hours and 5 weeks for one semester is required to complete the program. Fall and Spring 49erships are part-time. Summer 49erships may be full- or part-time. Full-time students who are in good University standing, have completed 30 credit hours, and have a 2.0 minimum cumulative GPA are eligible. Internships do not offer academic credit, but are noted on the student’s transcript; students pay a course registration fee. Approval for enrollment must be arranged before the student begins a work experience. Students may begin this program during their Sophomore year; transfer students must complete 12 credit hours at UNC Charlotte before making application for the program. For more information, contact the College of Engineering Office of Student Development and Success or the University Career Center.

Course Requirements
Course requirements correspond to the mode of admission for each student as outlined hereafter.

- **Entering Freshmen**: Students admitted as Freshmen complete the appropriate four year curriculum for the program into which they were admitted.
- **Transfer students not holding an appropriate AAS degree**: Transfer students not holding an appropriate AAS degree must complete the remaining coursework outlined for the respective four year curriculum that they were admitted into after evaluation and application of any transfer credit.
- **Transfer students holding an appropriate AAS degree**: Transfer students with an appropriate Associate of Applied Science (AAS) degree as defined previously under Admission Requirements may begin the program in the Junior year with up to 64 transfer credit hours awarded. Prerequisites for students holding an AAS degree from a community or technical college are listed below.
Prerequisite Courses for AAS Transfers
Students transferring with an AAS degree must have satisfactorily completed the following subjects in their two-year program:

- English Composition, Technical Writing, and/or Public Speaking (3 credit hours)
- Precalculus (3 credit hours)
- Differential and Integral Calculus (6 credit hours)
- Physics I and II (each with lab) (8 credit hours)
- Chemistry (3 credit hours)
- Technical Courses in Major Area (up to 41 credit hours)
  - Parametric Solid Modeling
  - Manufacturing Processes
  - Metallurgy or Engineering Materials
  - Statics
  - Kinematics or Mechanics
  - DC Circuits
  - Machine Shop Practices with Lab

Remediation of Academic Entrance Requirements for AAS Transfer Students
In addition to University and College of Engineering requirements, an AAS transfer student who is admitted to any BSET program without meeting ALL published admission requirements is expected to remove all admission deficiencies within one year. Violators are subject to discontinuance and enrollment in senior-level coursework is prohibited until all deficiencies are removed.

Academic Progression Requirements
Freshman Year Requirements
All new freshmen, including early college and dual enrolled students that have college credit prior to high school graduation, are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Earn a 2.00 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements
- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take a course in their curriculum a maximum of three times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a “Continuation Agreement” that is mutually agreed upon and signed by the student and his/her appropriate advisor. A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a “Continuation Agreement” that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Degree Requirements
The BSET in Mechanical Engineering Technology with Concentration in Electromechanical Systems program consists of 120 credit hours.

General Education Courses (18 credit hours)
For details on required LBST, UWRT, and Social Sciences courses, refer to the General Education Program.

Mathematics and Science Foundation Courses (26 credit hours)
CHEM 1251 - General Chemistry I (3)
ETGR 2272 - Engineering Analysis II (3)
ETGR 3171 - Engineering Analysis III (3)
  or ETGR 4272 - Engineering Analysis IV (3)
MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
MATH 1121 - Calculus for Engineering Technology (3)
  or ETGR 2171 - Engineering Analysis I (3)
PHYS 1101 - Introductory Physics I (3)
PHYS 1101L - Introductory Physics I Laboratory (1)
PHYS 1102 - Introductory Physics II (3)
PHYS 1102L - Introductory Physics II Laboratory (1)
STAT 1220 - Elements of Statistics I (BUSN) (3)

Major Courses (63 credit hours)
ELET 2241 - Instrumentation and Controls (3)
ELET 2241L - Instrumentation Laboratory (1) (W)
ETGR 1100L - Engineering Technology Computer Applications Laboratory (1)
  or ETGR 1101 - Introduction to Engineering Technology and Construction Management (1)
ETGR 2101 - Applied Mechanics I (3)
ETGR 2106 - Electronic Circuits and Devices (3)
ETGR 3222 - Engineering Economics (3)
ETGR 3295 - Multidisciplinary Professional Development (1)
ETGR 4100 - Capstone Design Project I (2) (O,W)
ETGR 4200 - Capstone Design Project II (2) (O,W)
ETME 1111 - CAD Modeling I (3)
ETME 1112 - CAD Modeling II (3)
ETME 2100 - Sophomore Design Practicum (2)
ETME 2100L - Sophomore Design Practicum Laboratory (1)
ETME 2102 - Mechanisms (3)
ETME 2130 - Applied Materials and Manufacturing I (3)
ETME 2131 - Applied Materials and Manufacturing II (3)
ETME 3100 - Junior Design Practicum (3)
ETME 3100L - Junior Design Practicum Laboratory (1)
ETME 3113 - Dynamics (3)
ETME 3123 - Strength of Materials (3)
ETME 3133 - Fluid Mechanics (3)
ETME 3143 - Thermodynamics (3)
ETME 3150 - Applied CAD Modeling and Simulation (3)
ETME 3213 - Machine Design I (3)
ETME 4244 - Applied Heat Transfer (3)

**Elective Lab Course (1 credit hour)**
*Select one of the following:*
ETME 3123L - Stress Analysis Laboratory (1) (W)
ETME 4244L - Thermal Fluids Laboratory (1) (W)

**Concentration Courses (12 credit hours)**
*Select four of the following:*
ELET 1102 - C Programming (3)
ELET 1231 - Digital Circuits (3)
ELET 2231 - Microprocessor Fundamentals (3)
ELET 2241 - Instrumentation and Controls (3)
ELET 3113 - Network Analysis (3)
ELET 3132 - Digital Systems (3)
ELET 3141 - Power Systems and Machines (3)
ELET 3242 - Fundamentals of Control Systems (3)
ENER 4290 - Advanced Instrumentation and Controls (3)

**Degree Total = 120 Credit Hours**

---

**Early Entry: Master of Science in Applied Energy and Electromechanical Systems**

Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

**Admission Requirements**
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Acceptable scores on the appropriate graduate standardized test (e.g., GRE) *(this requirement is waived for UNC Charlotte students currently enrolled in an engineering technology, construction management, or engineering degree program)*
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

**Continued Enrollment Requirements**
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA

---

**Double-Counted Courses**
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

**More Information**
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
Department of Mechanical Engineering and Engineering Science

http://mees.uncc.edu

Undergraduate Programs
- B.S. in Mechanical Engineering (BSME)
  - Biomedical Engineering
  - Energy Engineering
  - Motorsports Engineering
- B.S. in Mechanical Engineering and Physics Dual Degree (see College of Liberal Arts & Sciences section under the Department of Physics heading)
- Early Entry: M.S. in Mechanical Engineering

Mechanical engineering is possibly the broadest of the engineering disciplines. Mechanical engineers are involved in almost all aspects of the technological problems facing today's society. Among the major concerns of the mechanical engineer are problems related to conversion, utilization, and conservation of our limited energy resources. Additional important areas for the mechanical engineer include the design and analysis of machines, structures, and manufacturing processes related to the industrial output of the nation. Increasingly, this design and analysis is computer-based using the techniques of computer-aided design (CAD/CAM).

A sound understanding of engineering sciences is fundamental to the education of engineers in every discipline. Engineering sciences are generally identified as those areas of engineering that emphasize the application of the fundamental principles of the physical sciences, primarily physics and chemistry, to engineering problems. Some classical and emerging engineering areas that fall within this field include thermodynamics, fluid mechanics, engineering mechanics, engineering materials, nuclear and chemical sciences, microelectronics theory and fabrication, manufacturing, metrology, and the solid state sciences.

Degree Programs
The Department of Mechanical Engineering and Engineering Science offers an undergraduate program leading to a Bachelor of Science in Mechanical Engineering (B.S.M.E.) degree (with optional Concentrations in Biomedical Engineering, Energy Engineering, and Motorsports Engineering) and graduate programs leading to Master of Science in Mechanical Engineering (M.S.M.E.), Master of Science in Engineering (M.S.E.) and Doctor of Philosophy (Ph.D.) degrees. Additionally, a dual bachelor's degree program is offered in cooperation with the Department of Physics. Using the flexibility provided by the technical electives, and with engineering career counseling, a student can develop a variety of educational programs that would provide the background for professional engineering licensing and practice in any of the areas included within mechanical engineering and/or the engineering sciences. Students can also prepare for graduate study in mechanical engineering, materials science, or any of the recognized areas covered by the engineering sciences. Individualized study programs in one of the interdisciplinary fields involving the merger of engineering and the various science areas, such as bioengineering, microelectronics, or chemical engineering sciences, can be developed.

Program Educational Objectives
- Our graduates will apply their knowledge to areas beyond their coursework, enabling them to succeed as engineers in: society, graduate or professional studies, and lifelong learning.
- Our graduates will contribute to safety and make ethical engineering and societal decisions.
- Our graduates will successfully contribute to the design, manufacture, implementation and management of engineering systems.
- Our graduates, equipped with strong engineering fundamentals, will have the flexibility and competence to adapt in a changing world.
- Our graduates will be innovative and able to develop and communicate ideas and solutions, either as effective technical leaders, team leaders, or team members.

Student Outcomes
Upon graduation, students have:
1) An ability to apply knowledge of mathematics, science, and engineering to identify, formulate, and solve complex engineering problems.
2) An ability to apply the engineering design process to create thermal or mechanical systems that meet specified application goals with consideration for global, economic, environmental, and societal contexts.
3) An ability to communicate effectively with a range of audiences through technical writing and oral presentations.
4) An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5) A record of productive participation as team members or in leadership roles on multidisciplinary teams which create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6) An ability to develop experimental protocols and perform experiments designed to test or verify mechanical principles, components, and properties; analyze results; interpret data; and use engineering judgment to draw conclusions.
7) An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Accreditation
The programs in Mechanical Engineering and Engineering Science are accredited by the Engineering Accreditation Commission of ABET, www.abet.org.
Bachelor of Science in Mechanical Engineering (B.S.M.E.)

A Major in Mechanical Engineering leading to the B.S.M.E. degree consists of a total of 120 credit hours.

Admission Requirements

Freshmen
Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

- Minimum GPA: n/a
- Pre-Major/Prerequisite Courses: Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.
- Other: Minimum SAT-Math score of 570 or ACT-Math subscore of 23
- Declaration of Major: Students may declare the major at time of admission or at any time if in good standing with the College and University.

Transfers
All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina articulation agreements. Transfers from an ABET-accredited engineering program who do not meet the GPA requirement may be admitted upon the recommendation of the chair of the major department.

- Minimum GPA: 2.5 (3.0 for Mechanical Engineering)
- Pre-Major/Prerequisite Courses: Calculus I course (with grade of C or above) equivalent to MATH 1241
- Transferable Credit Hours: 24

Academic Progression Requirements

Freshman Year Requirements
All new freshmen, early college students, and transfer students with only one year semester at another institution are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Earn at least a 2.250 GPA in the first semester.
- Complete all non-elective courses in the Freshman year curriculum with grades of C or above.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Complete the Freshman curriculum within three regular semesters, if starting in the required first semester mathematics course.

- Earn a 2.500 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements
- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take courses in the curriculum a maximum of two times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor.

A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Degree Requirements

General Education Courses (18-19 credit hours)
For details on required LBST and UWRT courses, refer to the General Education program. Students in this major should plan on taking the following courses that meet general education and major requirements.

- ECON 2101 - Principles of Economics – Macro (3)
  or ECON 2102 - Principles of Economics – Micro (3)

Foundation Courses (24 credit hours)

- MEGR 1100 - Foundations of Math and Science for Engineers (4)
  or CHEM 1251 - General Chemistry I (3)
  and CHEM 1251L - General Chemistry I Lab (1)
- MATH 1241 - Calculus I (3)
- MATH 1242 - Calculus II (3)
- MATH 2171 - Differential Equations (3)
- MATH 2241 - Calculus III (3)
- PHYS 2101 - Physics for Science and Engineering I (3)
- PHYS 2101L - Physics for Science and Engineering I Lab (1)
- PHYS 2102 - Physics for Science and Engineering II (3)
- PHYS 2102L - Physics for Science and Engineering II Lab (1)
**Major Courses (57 credit hours)**

- ECGR 2161 - Basic Electrical Engineering I (3)
- ENGR 1201 - Introduction to Engineering Practices and Principles I (2)
- ENGR 1202 - Introduction to Engineering Practices and Principles II (2)
- ENGR 3295 - Multidisciplinary Professional Development (1)
- MEGR 2141 - Engineering Mechanics I (3)
- MEGR 2144 - Introduction to Solid Mechanics (3)
- MEGR 2156 - Design Projects I Lab (2)
- MEGR 2180 - Manufacturing Systems (3)
- MEGR 2240 - Computational Methods for Engineers (3)
- MEGR 3111 - Thermodynamics I (3)
- MEGR 3112 - Thermodynamics II (3)
- MEGR 3114 - Fluid Mechanics (3)
- MEGR 3116 - Introduction to Heat Transfer (3)
- MEGR 3121 - Dynamic Systems I (3)
- MEGR 3122 - Dynamic Systems II (3)
- MEGR 3152 - Mechanics and Materials Lab (2) (W)
- MEGR 3156 - Design Project Lab II (2)
- MEGR 3161 - Introduction to Engineering Materials (3)
- MEGR 3171 - Introduction to Measurements and Instrumentation (2)
- MEGR 3171L - Instrumentation Lab (2) (W)
- MEGR 3251 - Thermals/Fluids Lab (2) (W)
- MEGR 3255 - Senior Design I (2)
- MEGR 3256 - Senior Design II (0) (O)

**Restricted Elective Courses (21 credit hours)**

**Design Elective Course (3 credit hours)**

Select one of the following:

- MEGR 3216 - Thermal/Fluid Design (3)
- MEGR 3221 - Machine Analysis and Design I (3)

Note: Students are required to satisfy the Design Elective with either MEGR 3216 or MEGR 3221. Students may take MEGR 3216 and MEGR 3221 in order to satisfy the Design Elective and one Technical Elective (in which case MEGR 3216 satisfies the Design Elective and MEGR 3221 satisfies a Technical Elective or Concentration Elective for any concentration).

**Science Elective Course (3 credit hours)**

Select one of the following:

- BIOL 1110 - Principles of Biology I (3)
- CHEM 1252 - General Chemistry II (3)
- GEOL 1200 - Physical Geology (3)
- PHYS 1130 - Introduction to Astronomy (3)

**Math Elective Course (3 credit hours)**

Select one of the following options:

Option 1:

- STAT 3128 - Probability and Statistics for Engineers (3)

Option 2:

- MEGR 3282 - Statistical Process Control and Metrology (3) *(also counts as one Technical Elective)*

and

- MATH 2164 - Matrices and Linear Algebra (3)

or

- MATH 3171 - Applied Mathematics (3) *(may count as a Math Elective or a Technical Elective, but not both)*

**Technical Elective Courses (12 credit hours)**

Select four of the following. At least three of the four must be MEGR courses.

- MEGR 3090 - Special Topics in Mechanical Engineering (1 to 4) *(if the topic is relevant)*
- MEGR 3092 - Special Topics in Motorsports Engineering (1 to 4) *(if the topic is relevant)*
- MEGR 3094 - Special Topics in Energy Engineering (1 to 4) *(if the topic is relevant)*
- MEGR 3097 - Special Topics in Biomedical Engineering (3) *(if the topic is relevant)*

**Degree Total = 120 credit hours**
Bachelor of Science in Mechanical Engineering (B.S.M.E.) with Concentration in Biomedical Engineering

The B.S.M.E. with a Concentration in Biomedical Engineering program is intended for students interested in specialized and systematic training and education in the area of Biomedical Engineering. Students completing the requirements described in this program receive a special designation on their transcripts showing that they have completed the Concentration in Biomedical Engineering.

Admission Requirements

Freshman

Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

- Minimum GPA: n/a
- Pre-Major/Prerequisite Courses: Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.
- Other: Minimum SAT-Math score of 570 or ACT-Math subscore of 23
- Declaration of Major: Students may declare the major at time of admission or at any time if in good standing with the College and University.

Transfers

All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina articulation agreements. Transfers from an ABET-accredited engineering program who do not meet the GPA requirement may be admitted upon the recommendation of the chair of the major department.

- Minimum GPA: 2.5 (3.0 for Mechanical Engineering)
- Pre-Major/Prerequisite Courses: Calculus I course (with grade of C or above) equivalent to MATH 1241
- Transferable Credit Hours: 24

Academic Progression Requirements

Freshman Year Requirements

All new freshmen, early college students, and transfer students with only one year semester at another institution are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Earn at least a 2.250 GPA in the first semester.

Sophomore through Senior Year Requirements

- Complete all non-elective courses in the Freshman year curriculum with grades of C or above.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Complete the Freshman curriculum within three regular semesters, if starting in the required first semester mathematics course.
- Earn a 2.500 cumulative GPA upon completion of the Freshman curriculum.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor.

A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Additional Admission Requirements for Concentration

- Declaration of Concentration: Students may apply for admission to and enter the concentration during their Freshman year

Academic Progression Requirements

In order to remain in the concentration, a minimum overall GPA of 3.0 must be maintained.

Degree Requirements

A Major in Mechanical Engineering with a Concentration in Biomedical Engineering consists of a total of 121 credit hours.
General Education Courses (18-19 credit hours)
For details on required LBST and UWRT courses, refer to the General Education Program. Students in this major should plan on taking the following Social Science course that meets general education and major requirements.

ECON 2101 - Principles of Economics – Macro (3)
or ECON 2102 - Principles of Economics – Micro (3)

Foundation Courses (24 credit hours)
MEGR 1100 - Foundations of Math and Science for Engineers (4)
or CHEM 1251 - General Chemistry I (3)
and CHEM 1251L - General Chemistry I Lab (1)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 2171 - Differential Equations (3)
MATH 2241 - Calculus III (3)
PHYS 2101 - Physics for Science and Engineering I (3)
PHYS 2101L - Physics for Science and Engineering I Lab (1)
PHYS 2102 - Physics for Science and Engineering II (3)
PHYS 2102L - Physics for Science and Engineering II Lab (1)

Major Courses (58 credit hours)
ECGR 2161 - Basic Electrical Engineering I (3)
ENGR 1201 - Introduction to Engineering Practices and Principles I (2)
ENGR 1202 - Introduction to Engineering Practices and Principles II (2)
ENGR 3295 - Multidisciplinary Professional Development (1)
MEGR 2141 - Engineering Mechanics I (3)
MEGR 2144 - Solid Mechanics (3)
MEGR 2156 - Design Projects Lab I (2)
MEGR 2180 - Manufacturing Systems (3)
MEGR 2240 - Computational Methods (3)
MEGR 2279 - Introduction to Biomedical Engineering (1)
MEGR 3111 - Thermodynamics I (3)
MEGR 3112 - Thermodynamics II (3)
MEGR 3114 - Fluid Mechanics (3)
MEGR 3116 - Heat Transfer (3)
MEGR 3121 - Dynamic Systems I (3)
MEGR 3122 - Dynamic Systems II (3)
MEGR 3152 - Mechanics and Materials Lab (2)
MEGR 3156 - Design Project Lab II (2)
MEGR 3161 - Engineering Materials (3)
MEGR 3171 - Measurements and Instrumentation (2)
MEGR 3171L - Instrumentation Lab (2)
MEGR 3251 - Thermal/Fluids Lab (2)
MEGR 3275 - Biomedical Engineering Senior Design I (2)*
MEGR 3276 - Biomedical Engineering Senior Design II (2)*

*Must be an approved Biomedical Engineering-related project.

Restricted Elective Courses (21 credit hours)
Design Elective Course (3 credit hours)
Select one of the following:
MEGR 3216 - Thermal/Fluid Design (3)
MEGR 3221 - Machine Analysis and Design I (3)

Note: Students are required to satisfy the Design Elective with either MEGR 3216 or MEGR 3221. Students may take MEGR 3216 and MEGR 3221 in order to satisfy the Design Elective and one Technical Elective (in which case MEGR 3216 satisfies the Design Elective and MEGR 3221 satisfies a Technical Elective or Concentration Elective for any concentration).

Science Elective Course (3 credit hours)
Select one of the following:
BIOL 1110 - Principles of Biology I (3)
BIOL 2120 General Biology I (3)

Math Elective Course (3 credit hours)
STAT 3128 - Probability and Statistics for Engineers (3)

Biomedical Engineering Technical Elective Courses (12 credit hours)
Select four technical elective courses from the following options.
- At least three of the four technical elective courses must be MEGR courses
- At least three elective courses are required to be selected from the Biomedical Technical Elective Courses options
- The fourth elective may be selected from the Biomedical Technical Elective Courses or from the Additional Technical Elective Courses options

Biomedical Technical Elective Courses
MEGR 3090 - Special Topics in Mechanical Engineering (1 to 4) (if the topic is relevant)
MEGR 3097 - Special Topics in Biomedical Engineering (3)
MEGR 3221 - Machine Analysis and Design I (3) (may count as a Technical Elective only if MEGR 3216 is completed to fulfill the Design Elective)
MEGR 3225 - Introduction to Finite Element Analysis (3)
MEGR 3232 - Plastic Part Design (3)
MEGR 3233 - Introduction to Biomaterials (3)
MEGR 3234 - Introduction to Biodynamics (3)
MEGR 3236 - Introduction to Nanoscale Science and Engineering (3)
MEGR 3238 - Microscopy for Engineering (3)
MEGR 3270 - Biomedical Fluidics: Microfluidics (3)
MEGR 3271 - Biomedical Manufacturing: 3D Biofabrication (3)
MEGR 3272 - Introduction to Bio-Polymers and Composites (3)
BIOL 3161 - Introduction to Biotechnology (3)
PHYS 4110 - Introduction to Biomedical Optics (3)

Additional Technical Elective Courses
MEGR 3090 - Special Topics in Mechanical Engineering (1 to 4)
MEGR 3231 - Advanced CAD/CAM (3)
MEGR 3235 - Waves and Optics (3)
MEGR 3237 - Introduction to Control Systems (3)
MEGR 3242 - Applied Vehicle Aerodynamics (3)
MEGR 3283 - Metrology and Precision Engineering (3)
MEGR 4127 - Introduction to Robotics (3)
MEGR 4143 - Discrete Mechanical Vibrating Systems (3)

Degree Total = 121 credit hours

Grade Requirements
In order to remain in the concentration, a minimum overall GPA of 3.0 must be maintained.
Bachelor of Science in Mechanical Engineering (B.S.M.E.) with Concentration in Energy Engineering

The B.S.M.E. with a Concentration in Energy Engineering program is intended for students interested in specialized and systematic training and education in the area of power generation. Students completing the requirements described in this program receive a special designation on their transcripts showing that they have completed the Concentration in Energy Engineering.

Admission Requirements
Freshman Admission
Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

- **Minimum GPA:** n/a
- **Pre-Major/Prerequisite Courses:** Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.
- **Other:** Minimum SAT-Math score of 570 or ACT-Math subscore of 23
- **Declaration of Major:** Students may declare the major at time of admission or at any time if in good standing with the College and University.

Transfers
All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina articulation agreements. Transfers from an ABET-accredited engineering program who do not meet the GPA requirement may be admitted upon the recommendation of the chair of the major department.

- **Minimum GPA:** 2.5 (3.0 for Mechanical Engineering)
- **Pre-Major/Prerequisite Courses:** Calculus I course (with grade of C or above) equivalent to MATH 1241
- **Transferable Credit Hours:** 24

Academic Progression Requirements
Freshman Year Requirements
All new freshmen, early college students, and transfer students with only one year semester at another institution are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Earn at least a 2.250 GPA in the first semester.
- Complete all non-elective courses in the Freshman year curriculum with grades of C or above.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Complete the Freshman curriculum within three regular semesters, if starting in the required first semester mathematics course.
- Earn a 2.500 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements
- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take courses in the curriculum a maximum of two times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor.

A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Additional Admission Requirements for Concentration
- **Minimum GPA:** 3.0
- **Prerequisite Courses (with grades of C or above):**
  - PHYS 2101
  - PHYS 2101L
  - MATH 1242
  - ENGR 1202
  - WRDS 1103 or WRDS 1104
  - MEGR 2141
- **Declaration of Concentration:** Students must apply for admission to and may enter the concentration during their Sophomore or Junior year only.
Academic Progression Requirements
In order to remain in the concentration, a minimum overall GPA of 3.0 must be maintained.

Degree Requirements
A Major in Mechanical Engineering with a Concentration in Energy Engineering consists of a total of 121 credit hours.

General Education Courses (18-19 credit hours)
For details on required LBST and UWRT courses, refer to the General Education Program. Students in this major should plan on taking the following Social Science course that meets general education and major requirements.

ECON 2101 - Principles of Economics – Macro (3)
      or ECON 2102 - Principles of Economics – Micro (3)

Foundation Courses (24 credit hours)
MEGR 1100 - Foundations of Math and Science for Engineers (4)
      or CHEM 1251 - General Chemistry I (3)
      and CHEM 1251L - General Chemistry I Lab (1)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 2171 - Differential Equations (3)
MATH 2241 - Calculus III (3)
PHYS 2101 - Physics for Science and Engineering I (3)
PHYS 2101L - Physics for Science and Engineering I Lab (1)
PHYS 2102 - Physics for Science and Engineering II (3)
PHYS 2102L - Physics for Science and Engineering II Lab (1)

Major Courses (58 credit hours)
ECGR 2161 - Basic Electrical Engineering I (3)
ENGR 1201 - Introduction to Engineering Practices and Principles I (2)
ENGR 1202 - Introduction to Engineering Practices and Principles II (2)
ENGR 3295 - Multidisciplinary Professional Development (1)
MEGR 2141 - Engineering Mechanics I (3)
MEGR 2144 - Solid Mechanics (3)
MEGR 2156 - Design Projects Lab I (2)
MEGR 2180 - Manufacturing Systems (3)
MEGR 2240 - Computational Methods (3)
MEGR 2499 - Introduction to Energy Engineering (1)
MEGR 3111 - Thermodynamics I (3)
MEGR 3112 - Thermodynamics II (3)
MEGR 3114 - Fluid Mechanics (3)
MEGR 3116 - Heat Transfer (3)
MEGR 3121 - Dynamic Systems I (3)
MEGR 3122 - Dynamic Systems II (3)
MEGR 3152 - Mechanics and Materials Lab (2)
MEGR 3156 - Design Project Lab II (2)
MEGR 3161 - Engineering Materials (3)
MEGR 3171 - Measurements and Instrumentation (2)
MEGR 3171L - Instrumentation Lab (2)
MEGR 3251 - Thermal/Fluids Lab (2)
MEGR 3455 - Energy Senior Design I (2)*
MEGR 3456 - Energy Senior Design II (2)*

*Must be an approved Energy-related project.

Restricted Elective Courses (21 credit hours)
Design Elective Course (3 credit hours)
Select one of the following:
MEGR 3216 - Thermal/Fluid Design (3)
MEGR 3221 - Machine Analysis and Design I (3)

Note: Students are required to satisfy the Design Elective with either MEGR 3216 or MEGR 3221. Students may take MEGR 3216 and MEGR 3221 in order to satisfy the Design Elective and one Technical Elective (in which case MEGR 3216 satisfies the Design Elective and MEGR 3221 satisfies a Technical Elective or Concentration Elective for any concentration).

Science Elective Course (3 credit hours)
Select one of the following:
BIOL 1110 - Principles of Biology I (3)
CHEM 1252 - General Chemistry II (3)
GEOL 1200 - Physical Geology (3)
PHYS 1130 - Introduction to Astronomy (3)

Mathematics and Statistics Elective Course (3 credit hours)
All MEGR students are required to complete: a) a math elective and b) a course with appropriate statistics content. Two options are available:

Option 1:
STAT 3128 - Probability and Statistics for Engineers (3)

Option 2:
MEGR 3282 - Statistical Process Control and Metrology (3) (which counts as one Energy Technical Elective), and
MATH 2164 - Matrices and Linear Algebra (3)
      or MATH 3171 - Applied Mathematics (3) (the math elective will not also count as a technical elective)

Energy Technical Elective Courses (12 credit hours)
Select four of the following:
MEGR 3094 - Special Topics in Energy Engineering (1 to 4) (for offerings with three credit hours)
MEGR 3210 - Automotive Power Plants (3)
MEGR 3214 - Refrigeration and Air Conditioning (3)
MEGR 3221 - Machine Analysis and Design I (3) (may count as an Energy Technical Elective only if MEGR 3216 is completed to fulfill the Design Elective)
MEGR 3225 - Introduction to Finite Element Analysis (3)
MEGR 3237 - Introduction to Control Systems (3)
MEGR 3260 - Clean Coal Technology (3)
MEGR 3261 - Sustainable Energy (3)
MEGR 3262 - Turbomachinery (3)
MEGR 3282 - Statistical Process Control and Metrology (3)
MEGR 3451 - Stationary Power Plant Systems (3)
MEGR 3452 - Introduction to Nuclear Engineering (3)

Degree Total = 121 credit hours

Grade Requirements
In order to remain in the concentration, a minimum overall GPA of 3.0 must be maintained.
Bachelor of Science in Mechanical Engineering (B.S.M.E.) with Concentration in Motorsports Engineering

The B.S.M.E. with a Concentration in Motorsports Engineering program is intended for students interested in specialized and systematic training and education in the area of automotive engineering as it pertains to motorsports. Students completing the requirements described in this program will receive a special designation on their transcripts showing that they have completed the Motorsports Engineering concentration.

Admission Requirements

Freshmen

Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

- Minimum GPA: n/a
- Pre-Major/Prerequisite Courses: Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.
- Other: Minimum SAT-Math score of 570 or ACT-Math subscore of 23
- Declaration of Major: Students may declare the major at time of admission or at any time if in good standing with the College and University.

Transfers

All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina articulation agreements. Transfers from an ABET-accredited engineering program who do not meet the GPA requirement may be admitted upon the recommendation of the chair of the major department.

- Minimum GPA: 2.5 (3.0 for Mechanical Engineering)
- Pre-Major/Prerequisite Courses: Calculus I course (with grade of C or above) equivalent to MATH 1241
- Transferable Credit Hours: 24

Academic Progression Requirements

Freshman Year Requirements

All new freshmen, early college students, and transfer students with only one year semester at another institution are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Earn at least a 2.250 GPA in the first semester.
- Complete all non-elective courses in the Freshman year curriculum with grades of C or above.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Complete the Freshman curriculum within three regular semesters, if starting in the required first semester mathematics course.
- Earn a 2.500 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements

- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take courses in the curriculum a maximum of two times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor.

A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Additional Admission Requirements for Concentration

- Minimum GPA: 2.5
• Prerequisite Courses (with grades of C or above):
  o PHYS 2101
  o PHYS 2101L
  o MATH 1242
  o ENGR 1202
  o WRDS 1103 or WRDS 1104

• Declaration of Concentration: Students must apply for admission to and may enter the concentration during their Sophomore or Junior year only

Degree Requirements
A Major in Mechanical Engineering with a Concentration in Motorsports Engineering consists of a total of 121 credit hours.

General Education Courses (18-19 credit hours)
For details on required LBST and UWRT courses, refer to the General Education Program. Students in this major should plan on taking the following Social Science course that meets general education and major requirements.

ECON 2101 - Principles of Economics – Macro (3)
or ECON 2102 - Principles of Economics – Micro (3)

Foundation Courses (24 credit hours)
MEGR 1100 - Foundations of Math and Science for Engineers (4)
or CHEM 1251 - General Chemistry I (3)
and CHEM 1251L - General Chemistry I Lab (1)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 2171 - Differential Equations (3)
MATH 2241 - Calculus III (3)
PHYS 2101 - Physics for Science and Engineering I (3)
PHYS 2101L - Physics for Science and Engineering I Lab (1)
PHYS 2102 - Physics for Science and Engineering II (3)
PHYS 2102L - Physics for Science and Engineering II Lab (1)

Major Courses (58 credit hours)
ECGR 2161 - Basic Electrical Engineering (3)
ENGR 1201 - Introduction to Engineering Practices and Principles I (2)
ENGR 1202 - Introduction to Engineering Practices and Principles II (2)
ENGR 3295 - Multidisciplinary Professional Development (1)
MEGR 2141 - Engineering Mechanics I (3)
MEGR 2144 - Introduction to Solid Mechanics (3)
MEGR 2156 - Design Project Lab I (2)
MEGR 2180 - Manufacturing Systems (3)
MEGR 2240 - Computational Methods (3)
MEGR 2299 - Introduction to Motorsports Engineering (1)
MEGR 3111 - Thermodynamics I (3)
MEGR 3112 - Thermodynamics II (3)
MEGR 3114 - Fluid Mechanics (3)
MEGR 3116 - Introduction to Heat Transfer (3)
MEGR 3121 - Dynamic Systems I (3)
MEGR 3122 - Dynamic Systems II (3)
MEGR 3152 - Mechanics and Materials Lab (2) (W)
MEGR 3156 - Design Project Lab II (2)
MEGR 3161 - Engineering Materials (3)
MEGR 3171 - Measurements and Instrumentation (2)
MEGR 3171L - Instrumentation Lab (2) (W)
MEGR 3251 - Thermal/Fluids Lab (2) (W)
MEGR 3355 - Motorsports Senior Design I (2)
MEGR 3356 - Motorsports Senior Design II (2)

Restricted Elective Courses (21 credit hours)
Design Elective Course (3 credit hours)
Select one of the following:
MEGR 3216 - Thermal/Fluid Design (3)
MEGR 3221 - Machine Analysis and Design I (3)

Note: Students are required to satisfy the Design Elective with either MEGR 3216 or MEGR 3221. Students may take MEGR 3216 and MEGR 3221 in order to satisfy the Design Elective and one Technical Elective (in which case MEGR 3216 satisfies the Design Elective and MEGR 3221 satisfies a Technical Elective or Concentration Elective for any concentration).

Science Elective Course (3 credit hours)
Select one of the following:
BIOL 1110 - Principles of Biology I (3)
CHEM 1252 - General Chemistry II (3)
GEOL 1200 - Physical Geology (3)
PHYS 1130 - Introduction to Astronomy (3)

Mathematics and Statistics Elective Course (3 credit hours)
All MEGR students are required to complete: a) a math elective and b) a course with appropriate statistics content. Two options are available:

Option 1:
STAT 3128 - Probability and Statistics for Engineers (3)

Option 2:
MEGR 3282 - Statistical Process Control and Metrology (3) (which counts as one Motorsports Technical Elective)
and
MATH 2164 - Matrices and Linear Algebra (3)
or MATH 3171 - Applied Mathematics (3) (the math elective will not also count as a technical elective)

Motorsports Technical Elective Courses (12 credit hours)
Select four of the following:
MEGR 3092 - Special Topics in Motorsports Engineering (1 to 4) (for offerings with three credit hours)
MEGR 3210 - Automotive Power Plants (3)
MEGR 3211 - Road Vehicle Dynamics (3)
MEGR 3221 - Machine Analysis and Design I (3) (may count as a Motorsports Technical Elective only if MEGR 3216 is completed to fulfill the Design Elective)
MEGR 3225 - Introduction to Finite Element Analysis (3)
MEGR 3231 - Advanced CAD/CAM (3)
MEGR 3237 - Introduction to Control Systems (3)
MEGR 3240 - Advanced Automotive Powerplants (3)
MEGR 3241 - Advanced Motorsports Instrumentation (3)
MEGR 3242 - Applied Vehicle Aerodynamics (3)
MEGR 3243 - Automotive Powertrain Laboratory (3)
MEGR 3244 - Tire Mechanics (3)
MEGR 3245 - Advanced Experimental Methods (3)
MEGR 3282 - Statistical Process Control and Metrology (3)

Degree Total = 121 credit hours
Early Entry: Master of Science in Mechanical Engineering
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
• Completion of at least 75 earned undergraduate credit hours applicable to the B.S.M.E. degree
• Minimum 3.2 overall undergraduate GPA
• Acceptable scores on the GRE (Exceptional undergraduate students with a cumulative GPA of 3.2 or above may receive an automatic waiver of the GRE requirement)
• Submit application online at mygradschool.uncc.edu and provide supporting documents
• Recommendation by the Graduate Program Director and approval by The Graduate School

Continued Enrollment Requirements
• Completion of Early Entry Program Form prior to registering for graduate coursework each semester
• Maintain a minimum 3.0 overall undergraduate GPA
• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Department of Systems Engineering and Engineering Management
http://seem.uncc.edu

Undergraduate Programs
• B.S. in Systems Engineering (BSSE)
  ○ Energy Systems
• Early Entry: M.S. in Engineering Management

The main objective of the Department of Systems Engineering and Engineering Management is to equip graduates with the essential Systems Engineering skills that are needed in industry to enable them to perform in a global engineering environment. These skills include:

• Decision and Risk Analysis
• Systems Modeling and Optimization
• Systems Design, Planning, and Analysis
• Supply Chain and Logistics Engineering
• Quality Engineering
• Engineering Management
• Energy Systems Design and Planning
• Communication and Presentation
• Understanding of Global Business Dynamics

These objectives are accomplished through a flexible curriculum and through interactions with other departments and colleges of the University and with the professional community.

"Systems Engineering is an engineering discipline whose responsibility is creating and executing an interdisciplinary process to ensure that the customers' and stakeholders' needs are satisfied in a high quality, trustworthy, cost-efficient and schedule-compliant manner throughout a system's entire lifecycle." (INCOSE, 2007)

Systems Engineering as an engineering field has very broad applications in a wide variety of industries including energy, telecommunications, construction, manufacturing, transportation and distribution, information technology, financial services, automotive, retail, healthcare and airlines, at all levels from an entry position to top management. This wide applicability, along with a very strong focus to model, analyze and manage complex engineered systems with proven tools and techniques are the primary strengths of SE. Practically every organization requires Systems Engineers to identify, characterize, and solve the right problems and to eliminate inefficiencies and root-causes that generate these problems.

Degree Programs
The department offers a Bachelor of Science in Systems Engineering
Qualified students may apply for Early Entry into the graduate program in engineering management during their Junior or Senior year. If accepted, students may take optional courses for graduate credit and begin work on their master’s degree while completing their undergraduate degree.

Student Outcomes
Upon graduation, our students will have:

1) An ability to apply knowledge of mathematics, science, and engineering to identify, formulate, and solve complex engineering problems.
2) An ability to apply the engineering design process to create thermal or mechanical systems that meet specified application goals with consideration for public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3) An ability to communicate effectively with a range of audiences through oral and technical writing.
4) An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5) A record of productive participation as team members or in leadership roles on multidisciplinary teams which create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6) An ability to develop experimental protocols and perform experiments designed to test or verify mechanical principles, components, and properties; analyze results; interpret data; and use engineering judgment to draw conclusions.
7) An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Accreditation
The Bachelor of Science in Systems Engineering (BSSE) degree program within the Systems Engineering and Engineering Management Department at The University of North Carolina at Charlotte is accredited by the Engineering Accreditation Commission of ABET, www.abet.org.

Bachelor of Science in Systems Engineering (B.S.S.E.)

Admission Requirements
Freshmen
Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

- Minimum GPA: n/a

- Pre-Major/Prerequisite Courses: Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.
- Other: Minimum SAT-Math score of 570 or ACT-Math subscore of 23
- Declaration of Major: Students may declare the major at time of admission or at any time if in good standing with the College and University.

Transfers
All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina articulation agreements. Transfers from an ABET-accredited engineering program who do not meet the GPA requirement may be admitted upon the recommendation of the chair of the major department.

- Minimum GPA: 2.5 (3.0 for Mechanical Engineering)
- Pre-Major/Prerequisite Courses: Calculus I course (with grade of C or above) equivalent to MATH 1241
- Transferable Credit Hours: 24

Academic Progression Requirements
Freshman Year Requirements
All new freshmen, early college students, and transfer students with only one year semester at another institution are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Earn at least a 2.250 GPA in the first semester.
- Complete all non-elective courses in the Freshman year curriculum with grades of C or above.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Complete the Freshman curriculum within three regular semesters, if starting in the required first semester mathematics course.
- Earn a 2.500 cumulative GPA upon completion of the Freshman curriculum.

Sophomore through Senior Year Requirements

- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take courses in the curriculum a maximum of two times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.
An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor.

A student who has been suspended by the University must follow University guidelines for appeal. Readmission to the College of Engineering after a University suspension is not automatic. An application for readmission must be made by the student and approved by the College/department. Students who are readmitted by the College of Engineering after suspension by the University must meet requirements for continued enrollment appropriate to their individual situation. These requirements are specified in a "Continuation Agreement" that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

Degree Requirements
A Major in Systems Engineering leading to the BSSE degree consists of 120 credit hours.

General Education Courses (32-33 credit hours)
For details on required LBST and UWRT courses, refer to the General Education Program. Students in this major should also plan on taking the following courses that meet both general education and major requirements.

CHEM 1251 - General Chemistry I (3)
CHEM 1251L - General Chemistry I Lab (1)
ECON 1101 - Economics of Social Issues (3)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
PHYS 2101 - Physics for Science and Engineering I (3)
PHYS 2101L - Physics for Science and Engineering I Lab (1)

Major Courses (43 credit hours)
SEGR 2105 - Computational Methods for Systems Engineering I (3)
SEGR 2106 - Engineering Economic Analysis (3)
SEGR 2110 - Systems Engineering Concepts (3)
SEGR 3102 - System Simulation, Modeling, and Analysis (3)
SEGR 3105 - Computational Methods for Systems Engineering II (3)
SEGR 3107 - Decision and Risk Analysis (3)
SEGR 3110 - System Design and Deployment (3)
SEGR 3111 - Project Management (3) (O/W)
SEGR 3201 - Operations Research I: Deterministic Models (3)
SEGR 3202 - Operations Research II: Stochastic Models (3)
SEGR 3290 - Systems Design Project I (2) (O/W)
SEGR 3291 - Systems Design Project II (2) (O/W)
SEGR 4114 - Production Control Systems (3)
SEGR 4141 - Engineering Experimental Design (3)
SEGR 4170 - Total Quality Systems (3)

Related Courses (21 credit hours)
ENGR 1201 - Introduction to Engineering Practices and Principles I (2)
ENGR 1202 - Introduction to Engineering Practices and Principles II (2)
ENGR 3295 - Multidisciplinary Professional Development (1)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2171 - Differential Equations (3)
MATH 2241 - Calculus III (3)
PHYS 2102 - Physics for Science and Engineering II (3)
PHYS 2102L - Physics for Science and Engineering II Lab (1)
STAT 3128 - Probability and Statistics for Engineers (3)

Restricted Elective Courses (12 credit hours)

Physical Science Elective Course (3 credit hours)
Students must select one of the following physical science courses to fulfill the requirements for the freshman engineering curriculum. It must complement the student’s overall educational plan. Other courses with significant physical science content that are not listed may fulfill the requirement, but require the approval of the Undergraduate Program Director.

BIOL 1110 - Principles of Biology I (3)
BIOL 2120 - General Biology I (3)
CHEM 1200 - Fundamentals of Chemistry (3)
GEOL 1200 - Physical Geology (3)
PHYS 1102 - Introductory Physics II (3)
PHYS 1130 - Introduction to Astronomy (3)
PHYS 1201 - Sports and Physics (3)
PHYS 1202 - Introduction to Physics in Medicine (3)
PHYS 1203 - Physics of Music (3)

Technical Elective Courses (9 credit hours)
BSSE students must complete 9 credit hours of technical elective courses approved by their advisor to fulfill the requirements for their BSSE degree. The technical electives are meant to both broaden the student’s technical capabilities and complement the student’s core BSSE course requirements. At least 6 credit hours must be taken from courses within the College of Engineering. Technical elective courses cannot be used to fulfill both the Technical Elective requirements and the Additional Technical Elective requirements (i.e., no double counting of course credit hours toward the BSSE degree). In addition to SEGR courses, the courses below from outside the Department of Systems Engineering and Engineering Management are approved as technical elective courses. Please note that many of these courses may also have prerequisites.

SEGR 2XXX - Systems Engineering Elective (3)
SEGR 3XXX - Systems Engineering Elective (3)
SEGR 4XXX - Systems Engineering Elective (3)
ACCT 2121 - Principles of Accounting I (3)
ACCT 2122 - Principles of Accounting II (3)
CEGR 3122 - Structural Analysis (3)
CEGR 3141 - Introduction to Environmental Engineering (3)
CEGR 3153 - Transportation Laboratory (2)
CEGR 3155 - Environmental Laboratory (2)
CEGR 3161 - Transportation Engineering I (3)
CEGR 4108 - Finite Element Analysis and Applications (3)
CEGR 4161 - Advanced Traffic Engineering (3)
CEGR 4162 - Transportation Planning (3)
CEGR 4171 - Urban Public Transportation (3)
CEGR 4181 - Human Factors in Traffic Engineering (3)
Courses
CEGR 4262 - Traffic Engineering (3)
ECGR 2111 - Network Theory I (3)
ECGR 2112 - Network Theory II (3)
ECGR 2155 - Instrumentation and Networks Laboratory (1)
ECGR 2156 - Logic and Networks Laboratory (1)
ECGR 2161 - Basic Electrical Engineering I (3)
ECGR 2181 - Logic Systems Design (3)
ECGR 3123 - Data Communications and Networking (3)
ECGR 3131 - Fundamentals of Electronics and Semiconductors (3)
ECON 2102 - Principles of Economics - Micro (3)
ECON 2101 - Principles of Economics - Macro (3)
ECON 3125 - Managerial Economics (3)
ECON 3120 - Financial Management (3)
ECON 3181 - Energy and Environmental Economics (3)
ECON 3220 - Financial Analysis (3)
ECON 3223 - International Financial Management (3)
FINN 3120 - Financial Analysis (3)
FINN 3271 - Principles of Risk Management and Insurance (3)
FINN 4103 - Computer Programming for GIS Applications (3)
FINN 4110 - GIS for Non-Majors (3)
FINN 4120 - GIS for Non-Majors (3)
GEOG 4103 - Computer Programming for GIS Applications (3)
GEOG 4110 - GIS for Non-Majors (3)
GEOG 4130 - Advanced Geographic Information Systems (4)
GEOG 4140 - Geographic Information Techniques for Community Planning (4)
GEOG 4155 - Retail Location (3)
GEOG 4210 - Urban Planning Methods (3)
GEOG 4255 - Applied Population Analysis (3)
GEOG 4260 - Transportation Policy Formulation (3)
GEOG 4265 - Transportation Analysis Methods (3)
ESCI 3180 - Environmental Impact Analysis (3)
INFO 2130 - Introduction to Business Computing (3)
INFO 2231 - Introduction to Business Programming (3)
INFO 3130 - Management Information Systems (3)
INFO 3232 - International Information Systems Management (3)
INFO 3233 - Data and Information Management (3)
MATH 2342 - Data Analysis and Probability (3)
MATH 3116 - Graph Theory (3)
MATH 3176 - Numerical Analysis (3)
MATH 3228 - Actuarial Science I (3)
MATH 3229 - Actuarial Science IIA (3)
MATH 4128 - Risk Theory (3)
MEGR 2141 - Engineering Mechanics I (3)
MEGR 2144 - Introduction to Solid Mechanics (3)
MEGR 2180 - Manufacturing Systems (3)
MEGR 3111 - Thermodynamics I (3)
MEGR 3112 - Thermodynamics II (3)
MEGR 3116 - Introduction to Heat Transfer (3)
MEGR 3121 - Dynamics Systems I (3)
MEGR 3122 - Dynamic Systems II (3)
MEGR 3161 - Introduction to Engineering Materials (3)
MEGR 3162 - Mechanical Behavior and Strengthening of Solids (3)
MEGR 3171 - Introduction to Measurements and Instrumentation (2)
MEGR 3171L - Instrumentation Laboratory (2)
MEGR 3225 - Introduction to Finite Element Analysis (3)
MEGR 3281 - Numerical Control of Manufacturing Processes (3)
MEGR 3282 - Statistical Process Control and Metrology (3)
MEGR 4127 - Introduction to Robotics (3)
MEGR 4162 - Materials Production and Process (3)
MEGR 4165 - Introduction to Nondestructive Evaluation Methods (3)
MGT 3140 - Management and Organizational Behavior (3)
MGT 3241 - Acquiring and Maintaining Talent (3)
MGT 3260 - Managerial Communication (3)
MGT 3274 - International Business Processes and Problems (3)
MKTG 3110 - Marketing Concepts (3)
MGT 3204 - Management of Service and Project Operations (3)
MGT 3208 - Supply Chain Management (3)
MGT 3110 - Marketing Concepts (3)
OPRS 4113 - Game Theory (3)
OPRS 4114 - Dynamic Programming (3)

Additional Technical Elective Courses (12 credit hours)
BSSE students can pursue an optional Concentration in Energy Systems. Students who are not enrolled in a concentration are considered undeclared and select four additional Systems Engineering Technical Elective courses from the list above to fulfill their BSSE degree requirements. Any elective course listed above at the 3000- or 4000-level may be taken. However, these elective courses cannot be used to fulfill both the Technical Elective requirements and the Additional Technical Elective requirements (i.e., no double counting of course credit hours toward the BSSE degree). Please note that many of these courses may also have prerequisites.

Degree Total = 120 credit hours
Grade Requirements
A minimum overall GPA of 2.0 and a GPA of 2.0 in the major are required.

Bachelor of Science in Systems Engineering (B.S.S.E.) with Concentration in Energy Systems

Admission Requirements
Freshmen
Freshman admission is competitive. Based upon an overall evaluation of high school record with particular emphasis on advanced courses in math and science and SAT or ACT scores, freshmen may be admitted directly to an engineering major or as engineering undecided.

- Minimum GPA: n/a
- Pre-Major/Prerequisite Courses: Freshmen MUST present a pre-calculus equivalent course, a math course during the high school senior year (grade 12/13) or math intensive science course such as physics or chemistry if no math courses are available, with no grades below C in any math courses. Students with AP test scores of at least 3 on AP Calculus AB or BC or early college high school students who present transfer credit for calculus equivalent to MATH 1241 or higher are exempted from having a math course in the senior year.
- Other: Minimum SAT-Math score of 570 or ACT-Math subscore of 23
- Declaration of Major: Students may declare the major at time of admission or at any time if in good standing with the College and University.

Transfers
All transfer students will be admitted to the lower division of a department, and evaluation of transfer credits follows the North Carolina
articulation agreements. Transfers from an ABET-accredited engineering program who do not meet the GPA requirement may be admitted upon the recommendation of the chair of the major department.

- **Minimum GPA:** 2.5 (3.0 for Mechanical Engineering)
- **Pre-Major/Prerequisite Courses:** Calculus I course (with grade of C or above) equivalent to MATH 1241
- **Transferable Credit Hours:** 24

**Academic Progression Requirements**

**Freshman Year Requirements**
All new freshmen, early college students, and transfer students with only one year semester at another institution are initially advised by a central office within the College of Engineering. Students must satisfy the following requirements in order to progress in the curriculum and matriculate to their major department.

- Follow the advice and recommendations of their faculty advisors.
- Follow all prerequisite, corequisite, and progression requirements of their program.
- Earn at least a 2.250 GPA in the first semester.
- Complete all non-elective courses in the Freshman year curriculum with grades of C or above.
- Pass all courses within three attempts, including withdrawing from a course with a grade of W.
- Complete the Freshman curriculum within three regular semesters, if starting in the required first semester mathematics course.
- Earn a 2.500 cumulative GPA upon completion of the Freshman curriculum.

**Sophomore through Senior Year Requirements**
- Maintain an overall GPA of 2.000 in the University.
- Maintain a major cumulative GPA of 2.000 for all courses in the departmental curriculum. Failure to meet this requirement for two consecutive semesters will result in not being permitted to enroll in College of Engineering courses.
- Take courses in the curriculum a maximum of two times to achieve a satisfactory grade, including withdrawing from the course with a grade of W.

An undergraduate student who fails to satisfy one or more of the progression requirements stated above, but who nonetheless meets the conditions for continued enrollment in the University, will be ineligible to reenroll in the College of Engineering unless an appeal is accepted by the College of Engineering. If an appeal is accepted, requirements for continued enrollment appropriate to the individual situation are specified in a “Continuation Agreement” that is mutually agreed upon and signed by the student and his/her appropriate advisor. The consequences of failure to meet the requirements of the agreement may be articulated in the agreement itself. However, if these consequences are not included in the agreement, failure to meet the requirements will automatically result in the student not being permitted to continue to enroll in College of Engineering courses.

**Degree Requirements**
A Major in Systems Engineering leading to the BSSE degree consists of 120 credit hours. BSSE students can select this optional concentration by the end of their Sophomore year.

**General Education Courses (32–33 credit hours)**
For details on required LBST and UWRT courses, refer to the General Education Program. Students in this major should also plan on taking the following courses that meet both general education and major requirements.

- CHEM 1251 - General Chemistry I (3)
- CHEM 1251L - General Chemistry I Lab (1)
- ECON 1101 - Economics of Social Issues (3)
- MATH 1241 - Calculus I (3)
- MATH 1242 - Calculus II (3)
- PHYS 2101 - Physics for Science and Engineering I (3)
- PHYS 2101L - Physics for Science and Engineering I Lab (1)

**Major Courses (43 credit hours)**

- SEGR 2105 - Computational Methods for Systems Engineering I (3)
- SEGR 2106 - Engineering Economics Analysis (3)
- SEGR 2110 - Systems Engineering Concepts (3)
- SEGR 3102 - Systems Stimulation, Modeling, and Analysis (3)
- SEGR 3105 - Computational Methods for Systems Engineering II (3)
- SEGR 3107 - Decision and Risk Analysis (3)
- SEGR 3110 - System Design and Deployment (3)
- SEGR 3111 - Project Management (3) (O, W)
- SEGR 3201 - Operations Research I: Deterministic Models (3)
- SEGR 3202 - Operations Research II: Stochastic Models (3)
- SEGR 3290 - Systems Design Project I (2) (O, W)
- SEGR 3291 - Systems Design Project II (2) (O, W)
- SEGR 4114 - Production Control Systems (3)
- SEGR 4141 - Engineering Experimental Design (3)
- SEGR 4170 - Total Quality Systems (3)

**Related Courses (21 credit hours)**

- ENGR 1201 - Introduction to Engineering Practices and Principles I (2)
- ENGR 1202 - Introduction to Engineering Practices and Principles II (2)
- ENGR 2995 - Multidisciplinary Professional Development (1)
- MATH 2164 - Matrices and Linear Algebra (3)
- MATH 2171 - Differential Equations (3)
- MATH 2241 - Calculus III (3)
- PHYS 2102 - Physics for Science and Engineering II (3)
- PHYS 2102L - Physics for Science and Engineering II Lab (1)
- STAT 3128 - Probability and Statistics for Engineers (3)

**Restricted Elective Courses (12 credit hours)**

**Physical Science Elective Course (3 credit hours)**
Students must select one of the following physical science courses to fulfill the requirements for the freshman engineering curriculum. It must complement the student’s overall educational plan. Other courses with
significant physical science content that are not listed may fulfill the requirement, but require the approval of the Undergraduate Program Director.

BIOL 1110 - Principles of Biology I (3)
BIOL 2120 - General Biology I (3)
CHEM 1200 - Fundamentals of Chemistry (3)
GEOL 1200 - Physical Geology (3)
PHYS 1101 - Introductory Physics I (3)
PHYS 1102 - Introductory Physics II (3)
PHYS 1130 - Introduction to Astronomy (3)
PHYS 1201 - Sports and Physics (3)
PHYS 1202 - Introduction to Physics in Medicine (3)
PHYS 1203 - Physics of Music (3)

Technical Elective Courses (9 credit hours)
BSSE students must complete 9 credit hours of technical elective courses approved by their advisor to fulfill the requirements for their BSSE degree. The technical electives are meant to both broaden the student’s technical capabilities and complement the student’s core BSSE course requirements. At least 6 credit hours must be taken from courses within the College of Engineering. Technical elective courses cannot be used to fulfill both the Technical Elective requirements and the Additional Technical Elective requirements (i.e., no double counting of course credit hours toward the BSSE degree). In addition to SEGR courses, the courses below from outside the Department of Systems Engineering and Engineering Management are approved as technical elective courses. Please note that many of these courses may also have prerequisites.

Any SEGR course at the 2000-, 3000-, or 4000-level
ACCT 2121 - Principles of Accounting I (3)
ACCT 2122 - Principles of Accounting II (3)
CEGR 3122 - Structural Analysis (3)
CEGR 3141 - Introduction to Environmental Engineering (3)
CEGR 3153 - Transportation Laboratory (2)
CEGR 3155 - Environmental Laboratory (2)
CEGR 3161 - Transportation Engineering I (3)
CEGR 4108 - Finite Element Analysis and Applications (3)
CEGR 4161 - Advanced Traffic Engineering (3)
CEGR 4162 - Transportation Planning (3)
CEGR 4171 - Urban Public Transportation (3)
CEGR 4181 - Human Factors in Traffic Engineering (3)
CEGR 4262 - Traffic Engineering (3)
ECGR 2111 - Network Theory I (3)
ECGR 2112 - Network Theory II (3)
ECGR 2155 - Instrumentation and Networks Laboratory (1)
ECGR 2156 - Logic and Networks Laboratory (1)
ECGR 2161 - Basic Electrical Engineering I (3)
ECGR 2181 - Logic Systems Design (3)
ECGR 3123 - Data Communications and Networking (3)
ECGR 3131 - Fundamentals of Electronics and Semiconductors (3)
ECON 2101 - Principles of Economics - Macro (3) (not permitted if student already has credit for ECON 1101)
ECON 2102 - Principles of Economics - Micro (3) (not permitted if student already has credit for ECON 1102)
ECON 3125 - Managerial Economics (3)
ECON 4181 - Energy and Environmental Economics (3)
FINN 3120 - Financial Management (3)
FINN 3220 - Financial Analysis (3)
FINN 3223 - International Financial Management (3)

Technical Elective Courses (9 credit hours)

Elective Courses (12 credit hours)

Concentration Courses (12 credit hours)
Select three of the following:
SEGR 4961 - Introduction to Energy Systems (3)
SEGR 4962 - Energy Markets (3)
SEGR 4963 - Energy Systems Planning (3)
SEGR 4964 - Case Studies in the Energy Industry (3)
**Elective Course (3 credit hours)**
Select one of the following not already taken from above list:
SEGR 4201 - Fundamentals of Deterministic System Analysis (3)
SEGR 4202 - Fundamentals of Stochastic System Analysis (3)
SEGR 4203 - Fundamentals of Engineering Management (3)
SEGR 4961 - Introduction to Energy Systems (3)
SEGR 4962 - Energy Markets (3)
SEGR 4963 - Energy Systems Planning (3)
SEGR 4964 - Case Studies in the Energy Industry (3)

**Degree Total = 120 credit hours**

**Grade Requirements**
A minimum overall GPA of 2.0 and a GPA of 2.0 in the major are required.

---

**Early Entry: Master of Science in Engineering Management**
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

**Admission Requirements**
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Minimum 3.2 GPA in the major
- Acceptable scores on the appropriate graduate standardized test (GRE) *(The GRE test requirement may be waived for applicants from an engineering program that is accredited by ABET-Engineering)*
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Department of Systems Engineering and Engineering Management and The Graduate School

**Continued Enrollment Requirements**
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

**Double-Counted Courses**
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

**More Information**
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the *Graduate Catalog* and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the *Graduate Catalog*. 
College of Health and Human Services
The College of Health and Human Services (CHHS) offers professionally recognized and accessible undergraduate and graduate degree programs that are nationally and globally relevant, and responsive to changing health care and human service needs in the state and region. The College achieves excellence through informed and effective teaching in its degree programs, community partnerships, and professional activities and research to advance science and practice in the health and human services professions.

The College of Health and Human Services consists of these schools/departments:
- Department of Kinesiology
- School of Nursing
- Department of Public Health Sciences
- School of Social Work

### Degree Programs

#### Majors
- Bachelor of Science in Exercise Science (B.S.)
- Bachelor of Science in Health Systems Management (B.S.)
- Bachelor of Science in Neurodiagnostics and Sleep Science (B.S.)
- Bachelor of Science in Nursing (B.S.N.)
- Bachelor of Science in Public Health (B.S.P.H.)
- Bachelor of Science in Respiratory Therapy (B.S.R.T.)
- Bachelor of Social Work (B.S.W.)

#### Minors
- Gerontology (see College of Liberal Arts & Sciences section)
- Outdoor Adventure Leadership
- Public Health

### Accreditation

See the “Academic Programs” section of this Catalog for details about program accreditation.

### Technical Standards

Technical standards define the attributes that are considered necessary for nursing to possess in order to complete their education and training, and subsequently enter clinical practice. These technical standards are prerequisites for entrance to, continuation in, and graduation from a student’s chosen program in the College of Health and Human Services at the University of North Carolina at Charlotte.

Students must possess aptitude, ability, and skills in four areas: Psychomotor (coordination/mobility); Senses (visual, auditory, tactile, olfactory); Communication (verbal, nonverbal, written); and Behavioral/Social Attributes.

The technical standards described by the student’s chosen program are critically important to the student and must be performed by the student. Contact specific programs for detailed technical standards. Documentation of any disability is accomplished through the University Office of Disability Services.

### Foreign Language Requirement

There is no foreign language requirement for undergraduate students enrolled as majors within the College of Health and Human Services, although it is highly recommended for students to become proficient in a second language.
Department of Kinesiology

kinesiology.uncc.edu

Undergraduate Programs
- B.S. in Exercise Science
  - Pre-Professional
  - Credentialing
  - Honors Program
- B.S. in Neurodiagnostics and Sleep Science
  - Honors Program
- B.S.R.T. in Respiratory Therapy
  - Honors Program
- Minor in Outdoor Adventure Leadership
- Early Entry: M.S. in Athletic Training
- Early Entry: M.S. in Kinesiology
- Early Entry: M.S. in Respiratory Care

Kinesiology is the discipline that engages in the comprehensive study of human movement, where this knowledge is applied to a wide range of human performance areas and allied healthcare. The Department of Kinesiology offers both undergraduate majors and minors, graduate programs, and multiple courses emphasizing Lifetime Physical Activity and Physical Fitness.

Bachelor of Science in Exercise Science with Concentration in Credentialing
The Exercise Science major offers preparation for employment as Exercise Science practitioners in business and industry, healthcare agencies, hospitals, physical fitness centers, sport medicine clinics, sports performance centers, and colleges/universities or any other setting which utilizes exercise and physical activity to promote healthy active lifestyles and outcomes.

Exercise Science majors have the option to declare the Credentialing Concentration. The concentration is designed to provide students with the opportunity to pursue more extensive study in the exercise science context most relevant to their professional goals. Credentialing options include:

- American College of Sports Medicine Exercise Physiologist - Certified Credentialing Exam
- American College of Sports Medicine Clinical Exercise Physiologist - Certified Credentialing Exam
- National Strength and Conditioning Association Certified Strength and Conditioning Specialist Credentialing ExStramination
- Other approved credentialing exams

The Exercise Science Credentialing concentration is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and the Committee on Accreditation of the Exercise Science (CoAES).

Admission Requirements
All Students
- Minimum Prerequisite GPA: 2.5
- Pre-Major/Prerequisite Courses: Completion of 36 credit hours of coursework. Grade of C or above in all Pre-Kinesiology courses. The prerequisite GPA includes the following courses:
  - KNES 2101
  - KNES 2150
  - KNES 2168
  - KNES 2168L
  - KNES 2169
  - KNES 2169L
  - CHEM 1251
  - CHEM 1251L
  - STAT 1222
- Other: All Pre-Kinesiology majors are subject to a Conduct Check facilitated by the Dean of Students Office. The result may impact acceptance into the Exercise Science program.
- Declaration of Major: All incoming students are initially classified as Pre-Kinesiology (PKNS) majors until above requirements are met in order to apply to the upper-division Exercise Science (BS) major.
- Declaration of Concentration: Students must be an Exercise Science major and complete a Concentration Application.
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program.

Foundation Courses (21 credit hours)
KNES 2101 - Foundations of Physical Conditioning (3)
KNES 2150 - Introduction to Exercise Science (3)
KNES 2168 - Human Anatomy and Physiology for the Health Professions (3)
KNES 2168L - Human Anatomy and Physiology Laboratory for the Health Professions (1)
KNES 2169 - Human Anatomy and Physiology Laboratory for the Health Professions II (3)
KNES 2169L - Human Anatomy and Physiology for the Health Professions II Laboratory (1)
CHEM 1251 - General Chemistry I (3)
CHEM 1251L - General Chemistry I Laboratory (1)
STAT 1220 - Elements of Statistics I (BUSN) (3)
  or STAT 1221 - Elements of Statistics I (3)
  or STAT 1222 - Introduction to Statistics (3)

Major Courses (33 credit hours)
KNES 2290 - Emergency Medical Response (3)
KNES 2298 - Applied Kinesiology (3)
KNES 3260 - Nutrition for the Physically Active (3)
KNES 3280 - Exercise Physiology: Foundation and Theory (3)
KNES 3281 - Exercise Physiology: Principles and Application (3) (W)
KNES 3285 - Principles of Strength and Conditioning (3)
KNES 3286 - Exercise Testing: Foundation and Theory (3)
KNES 3287 - Exercise Testing: Principles and Applications (3) (W)
KNES 4121 - Pharmacology for the Physically Active (3)
KNES 4286 - Exercise Prescription (3)
KNES 4293 - Biomechanics (3)
Concentration Requirements (16 credit hours)

Required Courses (7 credit hours)
- KNES 3100 - Organization and Administration of Exercise Science (3)
- KNES 3660 - Practitioner Seminar (1)
- KNES 4132 - Lifetime Weight Management and Behavior Change (3)

Internship (9 credit hours)
KNES 4490 is taken during the last semester in the major. All required major courses (except KNES 4132) must be completed with a grade of C or above prior to the internship.

KNES 4490 - Exercise Science Internship (9)

National Credentialing Examination
Successfully pass one of the following:
- American College of Sports Medicine Exercise Physiologist - Certified Credentialing Exam
- American College of Sports Medicine Clinical Exercise Physiologist - Certified Credentialing Exam
- National Strength and Conditioning Association Certified Strength and Conditioning Specialist Credentialing Exam
- Other approved credentialing exams

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation. Recommended elective courses include:
- KNES 3285L - Principles of Strength and Conditioning Lab (1)
- KNES 3333 - Pedagogy in Exercise Science (3)
- PHYS 1101 - Introductory Physics I (3)
- PHYS 1101L - Introductory Physics I Laboratory (1)

Degree Total = 120 Credit Hours

Grade Requirements
All of the required courses for the Pre-Kinesiology major, Exercise Science major, and Credentialing concentration must be completed with a grade of C or above. Students may repeat each required Pre-Kinesiology or Exercise Science course (in which they earned a D, F, or W) only once, with a maximum of 2 total attempts. When a student earns a total of three grades of D, F, or W in any combination of required Pre-Kinesiology and/or Major Courses, the student cannot remain in the Exercise Science major and must change his/her major. Withdrawing from a course after the Add/Drop deadline constitutes an attempt, as does receiving any letter grade.

Honors Program
For details about the Honors Program in Kinesiology, see the Honors Programs section below.

Bachelor of Science in Exercise Science with Pre-Professional Concentration
The Exercise Science major prepares students in the principles, theories, and applications of Exercise Science. The major offers preparation for employment as Exercise Science practitioners in business and industry, healthcare agencies, hospitals, physical fitness centers, sport medicine clinics, sports performance centers, and colleges/universities or any other setting which utilizes exercise and physical activity to promote healthy active lifestyles and outcomes.

Admission Requirements
All Students
- Minimum Prerequisite GPA: 2.5
- Pre-Major/Prerequisite Courses: Completion of 36 credit hours of coursework. Grade of C or above in all Pre-Kinesiology courses. The prerequisite GPA includes the following courses:
  - KNES 2101
  - KNES 2150
  - KNES 2168
  - KNES 2168L
  - KNES 2169
  - KNES 2169L
  - CHEM 1251
  - CHEM 1251L
  - STAT 1222
- Other: All Pre-Kinesiology majors are subject to a Conduct Check facilitated by the Dean of Students Office. The result may impact acceptance into the Exercise Science program.
- Declaration of Major: Students are initially classified as Pre-Kinesiology (PKNS) majors until above requirements are met in order to apply to the upper-division Exercise Science major. Major application includes a Personal Statement to be reviewed and scored by the Exercise Science Admissions Committee using a scoring rubric.

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program.

Foundation Courses (21 credit hours)
- KNES 2101 - Foundations of Physical Conditioning (3)
- KNES 2150 - Introduction to Exercise Science (3)
- KNES 2168 - Human Anatomy and Physiology for the Health Professions (3)
- KNES 2168L - Human Anatomy and Physiology Laboratory for the Health Professions I (1)
- KNES 2169 - Human Anatomy and Physiology for the Health Professions II (3)
- KNES 2169L - Human Anatomy and Physiology Laboratory for the Health Professions II Laboratory (1)
- CHEM 1251 - General Chemistry I (3)
- CHEM 1251L - General Chemistry I Laboratory (1)
- STAT 1220 - Elements of Statistics I (BUSN) (3)
  or STAT 1221 - Elements of Statistics I (3)
  or STAT 1222 - Introduction to Statistics (3)

Major Courses (30 credit hours)
- KNES 2298 - Applied Kinesiology (3)
- KNES 3260 - Nutrition for the Physically Active (3)
- KNES 3280 - Exercise Physiology: Foundation and Theory (3)
- KNES 3281 - Exercise Physiology: Principles and Application (3) (W)
- KNES 3285 - Principles of Strength and Conditioning (3)
- KNES 3286 - Exercise Testing: Foundation and Theory (3)
- KNES 3287 - Exercise Testing: Principles and Applications (3) (O, W)
- KNES 4121 - Pharmacology for the Physically Active (3)
KNES 4286 - Exercise Prescription (3)
KNES 4293 - Biomechanics (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation. Suggested courses for majors include:

KNES 2290 - Emergency Medical Response (3)
KNES 3100 - Organization and Administration of Exercise Science (3)
KNES 3490 - Exercise Science Internship (3) *(may be repeated for credit one time)*
KNES 3660 - Practitioner Seminar (1)
KNES 4132 - Lifetime Weight Management and Behavior Change (3)

Degree Total = 120 Credit Hours

Grade Requirements
All of the required courses for the Pre-Kinesiology major and Exercise Science major must be completed with a grade of C or above. Students may repeat each required Pre-Kinesiology or Exercise Science course (in which they earned a D, F, or W) only once, with a maximum of 2 total attempts. When a student earns a total of three grades of D, F, or W in any combination of required Pre-Kinesiology and/or Exercise Science Courses, the student cannot remain in the Exercise Science major and must change his/her major. Withdrawing from a course after the Add/Drop deadline constitutes an attempt, as does receiving any letter grade. Students must receive a grade of C or above in all required courses in order to progress in the major.

Honors Program
For details about the Honors Program in Kinesiology, see the Honors Programs section below.

Bachelor of Science in Neurodiagnostics and Sleep Science
The Neurodiagnostics and Sleep Science (NDSS) major allows current practitioners to continue their professional development, while learning new skills in an increasingly important and rapidly expanding segment of health science.

- KNES 4132 - Lifetime Weight Management and Behavior Change

The emphasis of the curriculum is to enhance and advance the student’s professional career in neurodiagnostics and sleep sciences with additional education skills in critical thinking and creative problem solving needed for key leadership, educational, and management positions. The curriculum offers specific professional coursework in advanced methods and monitoring, program administration, and clinical outcomes evaluation. The program culminates in a capstone experience that is developed around the students’ specific professional interest area.

This degree program is offered online through the Office of Distance Education and the Department of Kinesiology in collaboration with the Department of Allied Health Sciences at UNC Chapel Hill.

Admission Requirements

Freshmen
- Minimum GPA: n/a
- Pre-Major/Prerequisite Courses: A minimum grade of a C in all coursework taken by the end of the semester prior to the semester for which application is made.
- Declaration of Major: All incoming students begin as Pre-Kinesiology and apply to upper division once eligible.

Transfers
- Minimum GPA: 2.0
- Pre-Major/Prerequisite Courses: A minimum grade of a C in all coursework taken by the end of the semester prior to the semester for which application is made.
- Other: Current registration as a Registered Polysomnographic Technologist (RPSGT) or Registered Electroencephalographic Technologist (R.EEG.T) by the Board of Registration of Polysomnographic Technologists (BRPT) or the American Board of Registration of Electroencephalographic and Evoked Potential Technologists (ABRET). (Note: Students who are graduating in May, will be taking their registry exam and will have the results before classes begin in August may also apply.) Must have a degree in one of the following: Associate of Arts or Associate of Science, Associate of Applied Science in either Polysomnography, Neurodiagnostics Technology, or Respiratory Therapy, Bachelor Degree, or training in sleep technology as verified by Neurodiagnostics and Sleep Science (NDSS) coursework.
- Declaration of Major: All incoming students begin as Pre-Kinesiology and apply to upper division once eligible.
- Transferable Credit Hours: 24

Students must first apply for admission to the University, and then make a second application to the UNC Charlotte Distance Education Office. The final program admission decision is made by the NDSS program faculty. Applicants are competitively reviewed for admission based on their application and cumulative GPA in all college transferable coursework. Satisfactorily completing the minimum requirements does not guarantee admission into the program. After evaluating the credentials of all applicants meeting the minimum academic requirements, the selection committee offers admission to students whose credentials demonstrate the highest level of academic achievement. Students are admitted in one cohort in the fall semester, in which applications are accepted through May 15. Students are accepted directly into the program as a NDSS major. Applications are available from the Distance Education Office. Admission decisions are communicated in writing by the department. Applicants who are denied admission may reapply.

Degree Requirements

Transfer Credit (up to 64 credit hours)

General Education Courses (0 credit hours)
For details on required courses, refer to the General Education program.
Students with an acceptable AAS degree are granted a general education waiver, with the exception of the Writing Intensive (W) and Oral Communication (O) requirements satisfied within the NDSS major.

**Foundation Courses (up to 46 credit hours)**
Students will receive up to 46 credit hours through credit by examination after successfully completing NDSS 3101 with a grade of C or above. The difference between the number of credits transferred through the associate degree and those earned in the major will constitute the number of hours awarded by the credit by examination procedure.

**Major Courses (38 credit hours)**
NDSS 3101 - Pathophysiology of Sleep, Neurological, and Related Disorders (3)
NDSS 3102 - Neurological and Sleep Diagnostic and Therapeutic Methods, and Monitoring Services (3)
NDSS 3104 - Advanced Sleep and Neurodiagnostic Clinical Procedures (3)
NDSS 3405 - Neurodiagnostics and Sleep Science Practicum (3)*
NDSS 4101 - Principles and Practice of Healthcare Education (3)
NDSS 4104 - Advanced Physiological Monitoring and Data Acquisition (3)
NDSS 4105 - Leadership in Healthcare Organizations (3)
NDSS 4406 - Neurodiagnostics and Sleep Science Internship (3)
NDSS 4107 - Neurodiagnostics and Sleep Science Capstone (6)
NURN 4201 - Information Technology: Applications in Healthcare (2)
RESP 4102 - Program Administration (3) (O)
RESP 4103 - Evidence-Based Practice in Respiratory Care (3) (W)

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**Drug Testing and Criminal Background Checks**
Students in a professional program (i.e., a clinical practicum such as NDSS 3405) may be asked by a clinical facility to undergo drug testing and/or have a criminal background check before being allowed to participate in a clinical experience at that facility. Students are responsible for the cost of drug testing and criminal background checks. All NDSS students must meet the University’s immunization and health status requirements.

**Degree Total = 120 Credit Hours**

**Grade Requirements**
For all required courses for the NDSS major, students must receive a grade of C or above to be considered successful.

**Honors Program**
For details about the Honors Program in Kinesiology, see the Honors Programs section below.

**Bachelor of Science in Respiratory Therapy**
The Respiratory Therapy major prepares graduates of associate-level programs in respiratory therapy who have achieved the RRT credential with the expanded knowledge, critical thinking ability, and communication skills necessary to become leaders in respiratory education, management, research, and advanced clinical practice.

The emphasis of the curriculum is to enhance and advance the student’s professional career in respiratory therapy with additional education in professional writing, teaching strategies, healthcare administration, evidence-based research, critical appraisal skills, and advanced critical care management. This degree program is offered completely online through the Office of Distance Education and the Department of Kinesiology. Students seeking admission into this program will already be licensed respiratory therapists who have the RRT credential from the National Board of Respiratory Care. The program culminates in a capstone experience that is developed around the students’ specific professional interest area. Students learn the detailed research process and have the opportunity to present their finalized clinical, educational, administrative, or population-based project prior to graduation. The accomplished faculty are committed to preparing students to become that “next generation” respiratory therapist.

**Admission Requirements**
**Transfers**
- **Minimum GPA:** 2.0 from an Associate Degree program that is a CoARC-accredited respiratory therapy program from a college or university accredited by an accepted accrediting body
- **Pre-Major/Prerequisite Courses:** A minimum grade of a C in all coursework taken by the end of the semester prior to the semester for which application is made
- **Other:** Current unencumbered state license as a Registered Respiratory Therapist, up-to-date Basic Life Support certification, transcript completion of an Associate Degree program in respiratory therapy
- **Declaration of Major:** Students will be accepted directly into the program as a BSRT major
- **Transferable Credit Hours:** 64

Students must first apply for admission to the University, and then make a second application to the UNC Charlotte Distance Education Office. The final program admission decision is made by the BSRT program faculty. Applicants are competitively reviewed for admission based on their cumulative GPA in all college transferable coursework, as well as their personal statement and letters of recommendation. Satisfactorily completing the minimum requirements does not guarantee admission into the program. After evaluating the credentials of all applicants meeting the minimum academic requirements, the selection committee offers admission to students whose credentials demonstrate the highest level of academic achievement. Students are admitted in one cohort in the Fall semester, in which applications are accepted from November 15 to March 15. Students will be accepted directly into the program as a BSRT major. Applications are available from the Distance Education
Admission decisions are communicated in writing from the Department of Kinesiology. Applicants who are denied may reapply.

Degree Requirements
Transfer Credit (64 credit hours)

General Education Courses (0 credit hours)
For details on required courses, refer to the General Education program. Students with an acceptable AAS degree are granted a general education waiver, with the exception of the Writing Intensive (W) and Oral Communication (O) requirements satisfied within the BSRT major.

Credit by Exam (12 credit hours)
Students receive 12 credits by exam for having passed the RRT exam after completion of RESP 3101.

Major Courses (38 credit hours)
RESP 3101 - Leadership and Professionalism in Respiratory Therapy (3) (W)
RESP 3102 - Outpatient Services in Respiratory Therapy (3)
RESP 3203 - Cardiopulmonary Pharmacotherapy I (2)
RESP 3205 - Cardiopulmonary Pharmacotherapy II (2)
RESP 3206 - Critical Care Monitoring and Mechanical Ventilation I (2)
RESP 3207 - Critical Care Monitoring and Mechanical Ventilation II (2)
RESP 4101 - Health Outcomes and Quality Assessment (3)
RESP 4102 - Department Management in the Healthcare Environment (3) (O)
RESP 4103 - Evidence-Based Practice in Respiratory Care (3) (W)
RESP 4106 - Neonatal/Pediatric Critical Care Pathophysiology (3)
or RESP 4204 - Adult Critical Care Pathophysiology (3)
RESP 4107 - Teaching Fundamentals and Clinical Education (3)
RESP 4205 - Information Technology in Respiratory Care (3)
or RESP 4206 - Health Communications: Ethical and Legal Implications (3)
RESP 4910 - Respiratory Therapy Capstone Project (6) (W)(O)

Restricted Elective Courses (6 credit hours)
Students are required to take two LBST courses unless they are able to transfer in credit from a four-year university or college, in which case those courses may be credited toward the elective courses as approved by the BSRT Program Director.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
For all required courses for the Respiratory Therapy major, students must receive a grade of C or above to be considered successful.

Honors Program
For details about the Honors Program in Kinesiology, see the Honors Programs section below.

Honors Programs
Honors Programs are available for all majors within the Department of Kinesiology. The honors notation will appear on a student’s official transcript.

Admission Requirements
Students are eligible to participate in the Honors Program in their Sophomore or Junior year of study. Consideration for admission to the Honors Program may be initiated by the student or by any faculty member in the Department of Kinesiology.

To apply for admission, students must:
1) Have an overall GPA of 3.2 and a GPA of 3.5 in their respective major in the Department of Kinesiology.
2) Submit a typed statement (maximum length of 500 words) explaining:
   a) What the student’s academic/career goals are in their respective major within the Department of Kinesiology
   b) How the Department of Kinesiology’s Honors Program is relevant to the student’s academic and/or career interests

The Department of Kinesiology Honors Program Committee reviews the materials of all eligible student applicants on an ad hoc basis and recommends to the Department of Kinesiology Chair those individuals who should be admitted into the program.

Students may be removed from the Honors Program at any time upon their own request or upon recommendation of the Honors Program Committee in consultation with the Department of Kinesiology Chair. There is no penalty for removal from the Honors Program.

Course Requirements
KNES 3900 - Undergraduate Research (1 to 3) (Honors section)
KNES 4115 - Undergraduate Research Methods in Kinesiology (3) (Honors section)
KNES 4700 - Honors Research I (3)

Certification Requirements
To obtain Honors in their respective major in the Department of Kinesiology, students must:

- Receive grades of A in KNES 3900, KNES 4115, and KNES 4700
- Achieve a minimum GPA of 3.2 for all coursework at UNC Charlotte
- Achieve a minimum GPA of 3.5 in Department of Kinesiology major
- Complete at least 6 credit hours of honors coursework (not including the thesis)
- Write an honors thesis in KNES 4700 under the supervision of a single faculty member, and publicly present the results of that research to the department faculty
- Explain, in writing, how their course of study in the department developed a focused inquiry into the student of a Kinesiology major (Exercise Science, Neurodiagnostic and Sleep Sciences, or Respiratory Therapy) to the satisfaction of the Department of Kinesiology Honors Committee
- Complete the Application to Candidacy process for graduating with honors, as directed by the Honors College
Minor in Outdoor Adventure Leadership

The Minor in Outdoor Adventure Leadership is designed to allow students to acquire the knowledge, skills, and abilities to work (and recreate) in a variety of adventure activities, while fulfilling the requirements for one of the approved degree programs at the University. The courses that satisfy the minor are primarily housed within the Department of Kinesiology and represent different aspects of the outdoor adventure field.

The Minor in Kinesiology’s Outdoor Adventure Leadership (KOAL) consists of a minimum of 18 credit hours of approved coursework, plus an “Intensive Experience” class (chosen from 3 options), an “Outdoor Leadership-based” class (chosen from 2 options), and approved electives.

The final practicum course involves playing an active leadership role either with Venture or another (approved) outdoor program. Options could include: planning and leading a wilderness trip for Venture, leading groups at the Venture Challenge Courses, serving as a teaching assistant for one of the KOAL courses, working at another local program (e.g., the U.S. National Whitewater Center) delivering adventure programming, summer work in the adventure field, etc. A journal and regular check-in with the course instructor is included in this capstone experience.

Admission Requirements

Students matriculated at UNC Charlotte and planning to declare Outdoor Adventure Education as their minor must have an overall GPA of at least 2.0. To apply, students must submit, with a Change of Minor Form, a typed letter of application to the Venture Director, indicating why they are interested in the Minor, how they hope to use the experiences and skills gained through the Minor in their future, and what prior relevant experience they have that they believe will help them be successful in this Minor. The Venture Director recommends to the Kinesiology Department Chair those individuals who should be admitted into the Program.

Minor Requirements

The Minor in Outdoor Adventure Leadership requires the completion of 18 credit hours of approved courses as follows:

Introductory Course (2 credit hours)

KNES 1231 - Introduction to Outdoor Adventure (2)

Intensive Experience Courses (2 credit hours minimum)

Select at least one of the following:

KNES 2230 - Wilderness Experience (2)
KNES 2233 - Rock Climbing (2)
KNES 2236 - Challenge Course Activities (2)

Outdoor Leadership-Based Courses (3 credit hours minimum)

Select at least one of the following:

KNES 3230 - Wilderness Trip Leading (3)
KNES 3235 - Challenge Course Facilitation (3)

Other Required Courses (2-4 credit hours)

KNES 3236 - Theory and Foundations of Adventure Education (3)
KNES 4431 - Outdoor Adventure Leadership Practicum (2 to 4)

Elective Courses (4-6 credit hours minimum)

Approved elective options include any of the above classes not already taken (e.g., a student may take KNES 3230 and KNES 3235. One of these classes would count towards the 5 elective credit hours. The same applies to KNES 2230, KNES 2233, and KNES 2236).

Additional approved courses include the following:

KNES 2237 - Raft Guiding (2)
KNES 2238 - Whitewater Kayaking (2)
KNES 2239 - Rock Climbing Management (2)
KNES 2219 - Scuba Diving and Lab (3)
KNES 2220 - Advanced Scuba Diving (1)
KNES 2290 - Emergency Medical Response (3)
BIOL 3144 - Ecology (3)*
BIOL 3229 - Field Botany (3)*
COMM 2105 - Small Group Communication (3)**
COMM 2107 - Interpersonal Communication (3)**
COMM 3135 - Leadership, Communication, and Group Dynamics (3)
COMM 3136 - Leadership, Service, and Ethics (3)
EDUC 2100 - Introduction to Education and Diversity in Schools (3)
or EDUC 1100 - Foundations of Education and Diversity in Schools - Prospect Curriculum (4)
ESCI 2010 - National Parks: Science Behind the Scenery (3)
ESCI 3150 - Natural Environments of North America (3)*
MDSK 3160 - Learning and Development: Birth through Adolescence (3)*
PSYC 3111 - Psychology of Learning (3)*
PSYC 3130 - Social Psychology (3)*
SOCY 4263 - Sociology of Small Groups (3) (O, W)*
SOWK 2182 - Human Behavior in the Social Environment I (3)*
SOWK 2183 - Human Behavior in the Social Environment II (3)*

*These courses have prerequisites.
**These courses are currently restricted to certain majors.
Students may petition for other classes to count toward elective credits. Furthermore, credit for Independent Study in First Aid could be given for completing a certification in Wilderness First Responder (3 credit hours), or Wilderness Advanced First Aid (2 credit hours) or Wilderness First Aid (1 credit hour). This needs to be arranged through an approved provider. Additionally, credit for Independent Study in Outdoor Adventure could be given by taking one of the courses offered by Outward Bound, National Outdoor Leadership School, or similar program.

The ideal progression is to take the 1000-level, then 2000-level, etc.; with electives taken at any time. However, such a progression may not always be possible for students. It is highly recommended that students in the Minor confer with the Venture teaching staff when planning their personal course progression.

Minor Total = 18 Credit Hours

Grade Requirements
Students must attain an overall GPA of 3.0 in all coursework within the minor.

Early Entry: Master of Science in Athletic Training
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Minimum 3.5 GPA in Exercise Science courses
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School
- Grades of C or above in the following prerequisite courses:
  - Human Anatomy with laboratory
  - Human Physiology with laboratory
  - Chemistry with laboratory
  - Physics with laboratory*
  - Statistics
  - Exercise Physiology
  - Psychology
  - Nutrition
  - Biomechanics
  - Medical Terminology*
  - Introduction to Biology*
- 50 hours of observational experience with a Certified Athletic Trainer

*These courses are currently not required for the General Education program or for the B.S. in Exercise Science program.

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 10 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 10 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees. Those courses are:

<table>

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Early Entry: Master of Science in Kinesiology
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree. The Early Entry Program leads to completion of all requirements for the B.S. and M.S. degrees in only five academic years and one or two summers. Students should consult with the M.S. in Kinesiology Graduate Program Director about their eligibility for this program and to discuss requirements for selection of a research advisor during their Junior year.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.25 overall undergraduate GPA
- Minimum 3.25 GPA in the major
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Note: GRE scores are not required.

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and
Graduate School, prior to registering for graduate coursework each semester

- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees. Students may leave the program after four years with the B.S. degree, or they may complete an additional academic year and summer of full-time study and research to earn both the B.S. and M.S. degrees in Kinesiology.

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

---

Early Entry: Master of Science in Respiratory Care

Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements

- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Note: GRE scores are not required.

Continued Enrollment Requirements

- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees. The graduate courses are:

- RESP 5101 - Health Outcomes and Quality Assessment (3)
- RESP 6101 - Respiratory Care Leadership (3)
- RESP 6105 - Pulmonary Function Testing and Cardiopulmonary Rehabilitation (3)
- RESP 6115 - Respiratory Care Research Methods (3)

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
Undergraduate Programs

- B.S. in Nursing (BSN)
  - Honors Program
- B.S. in Nursing, RN-to-BSN
  - Honors Program
- Early Entry: M.S. in Nursing (MSN)

The UNC Charlotte School of Nursing prepares nursing professionals to serve as leaders, clinicians, and scholars through innovative educational programs designed to meet the healthcare needs of an evolving and diverse society. Their vision is to provide the highest quality of nursing education, scholarship and practice with a commitment to community engagement in order to promote health among citizens in the Charlotte region and beyond. The School of Nursing embraces five core values: integrity, innovation, collegiality, diversity, and scholarship.

The School of Nursing consists of both undergraduate and graduate programs. The undergraduate program offers the BSN degree, both at the Upper-Division Pre-Licensure level and the RN-to-BSN completion level. The graduate program offers the MSN degree with various specialty concentrations and the Doctor of Nursing Practice (DNP) degree. Options of traditional classroom education or individual access (online) education are available in the School of Nursing for the RN-to-BSN completion curriculum and some of the MSN specialty concentrations.

The baccalaureate degree program in nursing, master’s degree program in nursing, and the Doctor of Nursing Practice are accredited by the Commission on Collegiate Nursing Education (CCNE).

Bachelor of Science in Nursing

Admission Requirements

Freshmen

- Minimum GPA: n/a
- Pre-Major/Prerequisite Courses: Completion of prerequisite courses with a minimum grade of a C. Completion of prerequisite science and NURS courses with a minimum grade of a B. Completion of at least three (3) of the prerequisite science courses and their respective labs prior to applying to the Upper-Division Pre-Licensure Nursing Major. To be eligible for admission to the Upper-Division Pre-Licensure Nursing major, students must have a minimum prerequisite GPA of minimum of 3.3.

For the prerequisite science courses and respective labs and for NURS 2100 and NURS 2200, all of which require a grade of B or above, Pre-Nursing students can only have one grade of C or below for which they retook the course to earn a B or above prior to applying to Upper Division. Students earning more than one C in those prerequisite courses cannot remain in Pre-Nursing and must change their major, and are ineligible for admission to the Upper-Division Nursing major. Students applying for Spring admission must complete required prerequisite courses by the end of the Fall semester preceding their admission. Students applying for Fall admission must complete required prerequisite courses by the end of the Spring semester preceding their admission.

- WRDS 1103 or WRDS 1104
- CHEM 1203, CHEM 1203L, CHEM 1204, and CHEM 1204L or CHEM 1251, CHEM 1251L, CHEM 1252, and CHEM 1252L
- BIOL 2259
- BIOL 2259L
- BIOL 2273 and BIOL 2273L or KNES 2168 and KNES 2168L
- BIOL 2274 and BIOL 2274L or KNES 2169 and KNES 2169L
- MATH 1100
- STAT 1220, STAT 1221, or STAT 1222
- PSYC 1101
- SOCY 1101 or ANTH 1101
- NURS 2100
- NURS 2200

- Other: Students admitted to the Upper-Division Pre-Licensure Nursing major must be certified as a Nurse Aide I (CNA I) and listed in the North Carolina Nurse Aide Registry

- Declaration of Major: Freshmen seeking admission to the Upper Division Pre-Licensure Nursing Major may be admitted as Pre-Nursing. All students begin as Pre-Nursing majors and apply to Upper-Division once eligible. Freshmen who do not meet the criteria or have never applied for admission to Pre-Nursing may request a change of major to Pre-Nursing after completion of 30 credit hours at UNC Charlotte with an overall GPA of 3.0 or above.

An advising session is required prior to declaration. Application to the Upper-Division Pre-Licensure Nursing Major is online. Information about progression for Pre-Nursing majors and the online application process and deadlines is available on the School of Nursing website.

Transfers

- Minimum GPA: 3.0
- Pre-Major/Prerequisite Courses: Same as Freshmen listed above
- Other: Same as Freshmen listed above
- Transferable Credit Hours: 24
• **Declaration of Major:** Transfer students who have not completed all prerequisites may be admitted to UNC Charlotte as Pre-Nursing. In order to declare Pre-Nursing, transfer students admitted to the University must have an overall GPA of 3.0 based on all university/college coursework. Transfer students who do not meet the criteria or have never applied for admission as Pre-Nursing may request a change of major to Pre-Nursing after completion of the first full semester at UNC Charlotte (at least 15 credit hours; Summer not included) with an overall GPA of 3.0 or above. Application to the Upper-Division Pre-Licensure Nursing Major is online. Information about progression for pre-nursing majors and the online application process and deadlines is available on the School of Nursing website.

### Degree Requirements

The Bachelor of Science in Nursing degree (BSN) requires 120 credit hours for the Upper-Division Pre-Licensure Nursing curriculum and the RN-to-BSN completion curriculum. Students must earn the last 25% of baccalaureate degree requirements at UNC Charlotte.

**General Education Courses (12 credit hours)**

Some required Prerequisite Courses (listed above) and Major Courses (listed below) meet General Education requirements. Additionally required are four LBST courses. For details on required courses, refer to the General Education Program.

**Prerequisite Course Requirements (40-41 credit hours)**

See above list under Admission Requirements.

**Pre-Licensure Upper-Division Nursing Major Courses (61 credit hours)**

- NURS 3102 - Introduction to Nursing Science (3)
- NURS 3105 - Concepts of Professional Nursing (3)
- NURS 3107 - Pathophysiology: Clinical Concepts of Illness and Disease (3)
- NURS 3108 - Health Assessment and Application (3)
- NURS 3205 - Pharmacology in Health and Illness (3)
- NURS 3230 - Illness and Disease Management (3)
- NURS 3250 - Nursing Care of the Childbearing Family (2)
- NURS 3260 - Nursing Care of Children (2)
- NURS 3425 - Practicum in Concepts of Professional Nursing (2)
- NURS 3430 - Practicum in Illness and Disease Management (3)
- NURS 3440 - Practicum in Nursing Care of Children and the Childbearing Family (3)
- NURS 4100 - Nursing Care of the Aging Adult (3)
- NURS 4120 - Psychiatric Mental Health Nursing (3)
- NURS 4130 - Complex Illness and Disease Management (3)
- NURS 4203 - Leadership and Informatics for Nursing Practice (3)
- NURS 4240 - Population Focused Nursing (3)
- NURS 4420 - Practicum in Psychiatric Mental Health Nursing (3)
- NURS 4430 - Practicum in Complex Illness and Disease Management (3)
- NURS 4440 - Practicum in Population Focused Nursing (2)
- NURS 4450 - Design and Coordination of Care (3) (W)
- NURS 4600 - Professional Nursing: Trends, Issues, and Licensure (3)
- NURS 4900 - Research in Nursing Practice (2)

**Unrestricted Elective Courses (5-7 credit hours)**

As needed to complete the credit hours required for graduation.

### Bachelor of Science in Nursing, RN-to-BSN

**Admission Requirements**

**Freshmen**

- **Minimum GPA:** n/a

**Transfers**

- **Minimum GPA:** 2.0

**Pre-Major/Prerequisite Courses:** All students admitted to the RN-to-BSN completion curriculum need to have prerequisite computer knowledge in using e-mail, word processing (create/save/open/retrieve), file management, editing, formatting, and using an Internet browser (search and navigate). The RN-to-BSN nursing curriculum is currently offered through a totally web-based format (through Distance Education). The format is 10 courses and 31 credit hours in length. Applicants must complete nursing prerequisite courses with a minimum grade of C and General Education requirements by the end of the semester of application to the RN-to-BSN Completion program. A grade of B or above is required in any Science prerequisite coursework. Only 1 grade of C is allowed for a 3-credit hour prerequisite course which must be re-taken for a grade of B or above prior to applying to Upper-Division.

**Transferable Credit Hours: 24**

### Degree Requirements

All General Education and nursing prerequisite courses must be completed by the end of the semester preceding the semester for which the application is made.

**General Education Courses (37-41 credit hours)**

For details on required courses, refer to the General Education Program. Students in this major should plan on taking the following courses that meet general education, prerequisite, and major requirements.

- CHEM 1203 - Introduction to General, Organic, and Biochemistry I (3) or CHEM 1251 - General Chemistry I (3)
- CHEM 1203L - General, Organic, and Biochemistry I Lab (1) or CHEM 1251L - General Chemistry I Lab (1)
- MATH 1100 - College Algebra (3)
- PSYC 1101 - General Psychology (3)
- SOCY 1101 - Introduction to Sociology (3) or ANTH 1101 - Introduction to Anthropology (3)
- STAT 1222 - Introduction to Statistics (3) or STAT 1220 - Elements of Statistics I (BUSN) (3) or STAT 1221 - Elements of Statistics I (3)

**Licensure Exam Review Course**

Students must complete a nursing licensure exam (NCLEX) review course prior to graduation.

**Degree Total = 120 credit hours**

**Grade Requirements**

All Nursing major courses must be completed with a grade of C or above. Students must also have a minimum GPA of 2.0 overall.
Prerequisite Courses (12 credit hours)
Prior to admission to the nursing program, students are also required to complete:

- BIOL 2259 - Fundamentals of Microbiology (3)
- BIOL 2259L - Fundamentals of Microbiology Lab (1)
- BIOL 2273 - Human Anatomy and Physiology (3)
- or KNES 2168 - Human Anatomy and Physiology for the Health Professions (3)
- BIOL 2273L - Human Anatomy and Physiology Lab (1)
- or KNES 2168L - Human Anatomy and Physiology for the Health Professions Lab (1)
- BIOL 2274 - Human Anatomy and Physiology II (3)
- or KNES 2169 - Human Anatomy and Physiology for the Health Professions II (3)
- BIOL 2274L - Human Anatomy and Physiology II Lab (1)
- or KNES 2169L - Human Anatomy and Physiology for the Health Professions II Lab (1)

Note: Registered nurses seeking admission to the RN-to-BSN curriculum who need to complete nursing prerequisites and/or General Education courses may apply for admittance as a Pre-RN-to-BSN student. Applicants must have a cumulative GPA of at least 2.0 on all college work attempted.

Admission as a Pre-RN-to-BSN student does not automatically admit an applicant to the RN-to-BSN Program.

Prerequisites for Participation in Clinical Experiences
Immunization and Health Status
All RN-to-BSN students must meet the University’s immunization and health status requirements.

Professional Liability Insurance
All students must show proof of professional liability insurance for a Registered Nurse (RN).

Universal Precautions
All students must successfully complete a College computer-based exam on universal precautions each year of the professional program.

Drug Testing and Criminal Background Checks
To comply with clinical agency requirements, students in the nursing program may be required to undergo drug testing and have a criminal background check before being allowed to participate in clinical experiences. Students are responsible for the cost of drug testing and criminal background checks.

Requirements for Progression in the Nursing Program
1) The Progression Policy for upper-division nursing students is included in the School of Nursing handbooks, which are available online at nursing.uncc.edu under “Student Resources.”
2) No course in the Nursing major can be taken as transient study. Transfer credit for nursing courses will be considered on an individual basis.

Major Courses (28 credit hours)
- NURN 3103 - Concepts of Professional Nursing Science (3)
- NURN 3104 - Issues in Cultural Health (1)
- NURN 3108 - Health Assessment for Nurses (3)
- NURN 4100 - Aging and Health (3) (O)

Restricted Elective Course (3 credit hours)
Select one nursing elective course approved by the School of Nursing. The following course meets this requirement. To request another course to fulfill this requirement, contact the RN-to-BSN Coordinator for approval.

NURN 4192 Enhancing Clinical Judgment (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 credit hours

Grade Requirement
All Nursing major courses must be completed with a grade of C or above. Students must also have a minimum GPA of 2.0 overall.

North Carolina Articulation Agreement
The University of North Carolina RN to BSN programs and the NC Community college system have approved an articulation agreement for nursing students to complete their degrees. The agreement is available online at northcarolina.edu/college-transferarticulation-agreements/uniform-articulation-agreement-rn-bsn.

Honors Program in Nursing
The School of Nursing academic honors program emphasizes scholarship and leadership activities, such as identifying key issues impacting the nursing profession at the microsystem level.

Admission Requirements
All students who meet the admission criteria for the School of Nursing Honors Program, and who are unconditionally admitted to the upper division major, are eligible to apply for admission to the School of Nursing (SON) Honors Program. Through a competitive process, interested students may apply to the SON Honors Program during their first semester of upper division. To be eligible for admission to the SON Honors Program students must:

- Receive unconditional admission to the upper division major
- Have a nursing prerequisite minimum GPA of 3.7
- Submit an application that includes a typed statement (500 words or less) which addresses the following:
  - What key issues do you think are impacting the nursing profession?
  - What role do nurses play in shaping the future of healthcare?
  - How will participation in the School of Nursing Honors Program impact your academic/career goals?
  - What are your academic/career goals specifically related to nursing?

Applications are reviewed by the Admissions Committee and SON Honors faculty. Recommendations for admission are made to the SON Director.
and are based on academic achievement (GPA) and scoring of statement. Students with questions related to the admission decision to the SON Honors Program may direct them to the Admissions Committee. Upon acceptance, the student must sign the Honors College Student Code form.

Certification Requirements
Course Requirements
NURS 3700 - Creating and Sustaining Change in Nursing (2) *(taken during Junior year)*
NURS 4203 - Leadership and Informatics for Nursing Practice (3) *(Honors section; taken during Senior year)*

Other Requirements
Students must complete the Application to Candidacy process with the Honors College in order to graduate with honors.

To remain in the School of Nursing Undergraduate Honors program, students must meet SON progression criteria, receive no grade less than a B on all NURS courses and maintain a GPA of 3.7 or higher.

All honors students must adhere to SON and Honors College policies and procedures.

Grade Requirements
- Maintain a minimum GPA of 3.7
- Grades of B or above for all NURS courses
- Grade of A in NURS 4203 honors section test of change project

Early Entry: Master of Science in Nursing
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree. Students graduate with a BSN and then a MSN.

Note: Early Entry is only available for Advanced Clinical Nursing and Systems/Populations Nursing, Nurse Anesthesia Across the Lifespan, Family Nurse Practitioner, and Adult-Gerontology Acute Care Nurse Practitioner do not admit Early Entry students.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Completion of all criteria for admission to the RN-to-BSN Program (all prerequisites taken)
- One year of professional nursing practice is recommended
- Minimum 3.2 overall undergraduate GPA
- Acceptable scores on the appropriate graduate standardized test (e.g., GRE)
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Successful completion of the BSN with a GPA of 3.0 in the RN-to-BSN program
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 10 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 10 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

Credit hours for NURN 3103 are awarded upon successful completion of NURN 4450.

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
Undergraduate Programs
- B.S. in Health Systems Management
  o Honors Program
- B.S. in Public Health (BSPH)
- Minor in Public Health
- Early Entry: Master in Health Administration (MHA)
- Early Entry: Master in Public Health (MPH)

The Department of Public Health Sciences envisions “Healthy communities partnered with responsive population health systems.” Its mission is to advance health equity and well-being in an urbanizing world. The department is a premier academic unit providing collaborative and integrated approaches to improving health and healthcare with a focus on improving health disparities among vulnerable populations.

The Public Health baccalaureate, master’s, and doctoral degree programs are accredited by the Council on Education for Public Health (CEPH). The Master of Health Administration (MHA) degree program is accredited by the Commission on Accreditation of Healthcare Management Education (CAHME). The department is a member of the Association of Schools and Programs of Public Health and the Association of University Programs in Health Administration, and is an affiliate member of AcademyHealth.

Undergraduate Programs
- B.S. in Health Systems Management
  o Honors Program
- B.S. in Public Health (BSPH)
- Minor in Public Health
- Early Entry: Master in Health Administration (MHA)
- Early Entry: Master in Public Health (MPH)

The Department of Public Health Sciences envisions “Healthy communities partnered with responsive population health systems.” Its mission is to advance health equity and well-being in an urbanizing world. The department is a premier academic unit providing collaborative and integrated approaches to improving health and healthcare with a focus on improving health disparities among vulnerable populations.

The Public Health baccalaureate, master’s, and doctoral degree programs are accredited by the Council on Education for Public Health (CEPH). The Master of Health Administration (MHA) degree program is accredited by the Commission on Accreditation of Healthcare Management Education (CAHME). The department is a member of the Association of Schools and Programs of Public Health and the Association of University Programs in Health Administration, and is an affiliate member of AcademyHealth.

At the undergraduate level, the department offers the Bachelor of Science in Public Health, Bachelor of Science in Health Systems Management, and a Minor in Public Health.

At the graduate level, the department offers the Master of Public Health (MPH) degree, the Master of Health Administration (MHA), and doctoral degrees (Ph.D.) in Public Health Sciences and Health Services Research. Additionally, the department collaborates in a Master of Science (M.S.) degree in Health Informatics and Analytics. See the Graduate Catalog for details about the graduate programs, including early entry and dual degree options.

Bachelor of Science in Health Systems Management
The Health Systems Management major prepares students to be entry-level generalists in the health systems management field through interdisciplinary approaches guided by culturally relevant perspectives.

Medical and health systems manager positions entail planning, directing, or coordinating medical and health services in hospitals, clinics, managed care organizations, public health agencies, or similar organizations. Health systems managers may be involved within an entire facility, or specialize in a specific clinical area or department, or a medical practice for a group of physicians and healthcare professionals. Medical and health services managers work within healthcare facilities including hospitals, nursing homes, and group practices and must be adaptable to changes in healthcare laws, regulations, and technology.

Educational Objectives:
- Students will characterize the healthcare system and environment in which healthcare providers and professionals function.
- Students will apply healthcare technology applications and quality management within health and human services systems.
- Students will be able to communicate clearly through written and oral means to establish, maintain, and facilitate constructive interactions within the health and human services environment.
- Students will have foundational skills in leadership to promote organizational excellence, manage change within an organization, and understand the importance of a shared vision to meet an organization’s overall mission.
- Students will align their personal and professional conduct in accordance with ethical and professional standards.

Continued study in the Department of Public Health Sciences is also an option for those interested in graduate degrees in Public Health or Health Administration. The department also offers early-entry programs for exceptional students to both the MPH and MHA programs. For details on these programs, and other related graduate programs in health informatics, public administration, and public policy, see the UNC Charlotte Graduate Catalog.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Declaration of Major: Students may declare the major at any time if they are in good academic standing
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program

Major Courses (30 credit hours)
HSMT 2101 - Introduction to the Health Professions and Human Resources Management (3)
HSMT 2103 - Introduction to Human Resources Management (3)
HSMT 3103 - Introduction to the U.S. Healthcare System (3)
HSMT 3201 - Healthcare Leadership, Ethics, and Inter-Professional Communication (3) (O,W)
HSMT 3203 - Healthcare Accounting and Finance (3)
HSMT 4101 - Health System Organization Development and Behavior (3)
HSMT 4103 - Health Information Technology Management (3)
HSMT 4201 - Health Policy and Law (3)
HSMT 4202 - Quality Management and Improvement (3)
HSMT 4400 - Health Systems Management Capstone (3) (W)

Elective Courses (47-53 credit hours)
Students in the Health Systems Management major may wish to combine their major field of study with a related minor. UNC Charlotte offers a wide range of minors - although not required for the major - to complement and otherwise enrich student readiness for workplace
settings that demand effective communication, critical thinking and problem solving skills, digital literacy, and effective teamwork. Students are encouraged to consider completing a minor and a large number of options exist on campus that would serve to complement the Health Systems Management major including: biology, communication studies, gerontology, international studies, management information systems, political science, and public health.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
A grade of C or above in HSMT 2101, HSMT 2103, and HSMT 3103 is required to progress in the major. Furthermore, students are limited to two attempts* to achieve a grade of D or above in HSMT 3201, HSMT 3203, HSMT 4101, HSMT 4103, HSMT 4201, HSMT 4202, and HSMT 4400. A minimum GPA of 2.0 in the major and a cumulative GPA of 2.0 at the University are required in order to graduate. Health Systems Management majors who accumulate more than three grades of D, F, or W in required HSMT courses will be terminated from the program. Health Systems Management majors who fall below a GPA of 2.0 in the major will be placed on probation. A student on probation whose GPA in the major remains below 2.0 at the next evaluation will be terminated from the program.

*Each of the following is considered an attempt: Withdrawing from the course after the drop deadline (may be appealed); grade replacement; incompletes that convert to grades of F; and grades of A, B, C, D, or F.

Honors Program in Health Systems Management
The Department of Public Health Sciences offers outstanding students the opportunity to earn Honors in Health Systems Management. The program requires an overall GPA of at least 3.25 for all coursework completed at UNC Charlotte and a GPA of at least 3.5 in all HSMT courses; completion of an Internship or Study Abroad; and completion of a 2-course sequence in health care analytics. Honors students in Health Systems Management are eligible to participate in Honors College courses.

Admission Requirements
Students are eligible to participate in the Honors Program during their Junior and Senior years of study. Consideration for admission to the Honors Program may be initiated by the student or by any faculty member in the Department of Public Health Sciences.

To apply for admission, students must:

1) Have completed 60 hours of coursework including at least 15 hours of coursework in the Health Systems Management major
2) Have an overall GPA of 3.25 for all coursework completed at UNC Charlotte and a GPA of 3.5 in all completed HSMT courses
3) Submit a typed statement to the Honors Program Director (maximum length of 500 words) describing:
   - Personal academic and career goals within the context of the Health Systems Management major
   - How the Honors Program in Health Systems Management in the Department of Public Health Sciences is relevant to individual short-term and long-term academic and career interests

The Department Honors Program Committee reviews the materials of all eligible student applicants on an ad hoc basis and recommends to the Department Chair those individuals who should be admitted into the program.

Students may be removed without penalty from the Honors Program at any time upon their own request or upon recommendation of the Honors Program Committee in consultation with the Department of Public Health Sciences Chair.

Course Requirements
HSMT 4700 - Health Systems Management Internship
HSMT 4701 - Healthcare Analytics I
HSMT 4702 - Healthcare Analytics II
HSMT 4790 - Study Abroad

Certification Requirements
Honors programs are intended for academically talented and enthusiastic students. Selected students may complete an Honors Program in Health Systems Management and have this designation noted on their transcript. To earn Honors in Health Systems Management, a student must maintain an overall GPA of 3.25 for all coursework at UNC Charlotte and a GPA in all HSMT courses of 3.5, and complete additional requirements, as follows:

1) Successful completion of either an Internship (HSMT 4700) or Study Abroad (HSMT 4790) experience
2) Completion of a 2-course sequence in healthcare analytics with a grade of A in each course (HSMT 4701 and HSMT 4702)
3) Comply with all procedural and substantial requirements established by the Honors Council and the Faculty Council for graduating with Honors in a department.

Contact the Honors Coordinator for additional information. A full description of the Health Systems Management Honors Program is available in the Honors Advising Handbook.

A candidate for Honors in Health Systems Management must also complete an Application for Candidacy form that is supplied by UNC Charlotte’s Honors College. The form is filed during the semester before the student plans to graduate, and is usually accomplished when the student enrolls in HSMT 4702. The form and further information may be found on the Honors College website at honorscollege.uncc.edu.

All UNC Charlotte students also have the opportunity to participate in the University Honors Program through the Honors College. A student with appropriate credentials may participate in both the University Honors Program and Honors in Health Systems Management at the same time. The Honors College also provides information to all students about prestigious external scholarships and fellowships, and provides advising for students in pre-Health professions. More information about the full range of Honors programs at UNC Charlotte may be found on the Honors College website at honorscollege.uncc.edu.
Bachelor of Science in Public Health (BSPH)

Public health is the science and art of promoting health, preventing disease and injury, and prolonging life through organized efforts of society. Public health activities focus on entire populations rather than on individual patients, and public health professionals monitor and diagnose the health concerns of entire communities and promote healthy practices and behaviors to assure our populations stay healthy.

The Bachelor of Science in Public Health (BSPH) prepares students through didactic and practice experiences to apply core principles of public health education within a variety of community settings and to advance the public health profession. The BSPH program seeks to fulfill the Department of Public Health Science’s vision: "Healthy communities partnered with responsive population health systems." To support the department’s mission, "Advancing health equity and well-being in an urbanizing world," the BSPH program develops leaders in evidence-based practice who advance the public's health. The program values professional and academic integrity and ethics, collegiality, engagement with the community, and responsiveness and innovation in its pursuit of attaining the highest possible standards of health and well-being.

The BSPH program is designed to prepare scholar-practitioners with knowledge and skills in the core concepts of public health, including health behavior, research and statistics in health, environmental health, epidemiology, and health administration, as well as in the planning, evaluation, organization, and conduct of community and public health services. The planned course of study adopts an interdisciplinary focus and includes the development of tailored skills through the successful completion of a minor, electives, and experiential learning. The degree program prepares students who are interested in pursuing health-related careers in health promotion, program delivery, health communication, community organization, and behavior change for entry level to mid-level positions in service and research in health departments, public health agencies, community-based organizations, outreach education programs, hospitals, private health organizations, and corporate wellness settings. The program is designed to appeal to students with interests in "population" rather than "clinical" health. Continued study in the Department of Public Health Sciences is also an option for those interested in graduate degrees in Public Health or Health Administration. For details on these programs, see the UNC Charlotte Graduate Catalog.

Admission Requirements

Freshmen

- Minimum GPA: 2.5
- Declaration of Major: Students wishing to pursue the BSPH program initially begin as Pre-Public Health (PRPH) majors. Students changing to Pre-Public Health from another major must attend Change of Major workshop in CHHS Advising Center. Students must apply for admission to the upper-division Bachelor of Science in Public Health (BSPH) major through a competitive application process.
- Pre-Major/Prerequisite Courses: Completion of 60 credit hours prior to matriculation into BSPH program. This includes General Education courses and successful completion of PRPH courses as outlined below.
- Other: Applications for admission are accepted by the stated deadline each Spring, and include academic transcripts,

application, and a statement of future career goals.

Transfers

- Minimum GPA: 2.0
- Pre-Major/Prerequisite Courses: All incoming students begin as Pre-Public Health and apply to upper division once eligible
- Transferable Credit Hours: 24

Degree Requirements

A minimum of 120 total earned credit hours is required for the degree. The Bachelor of Science in Public Health requires 21 credit hours of coursework in the Pre-Public Health major, 33 credit hours of coursework in the BSPH major, plus completion of a minor or second major, and other requirements as listed below.

General Education Courses

For details on required courses, refer to the General Education program. Students majoring in Public Health should plan on taking the following courses that meet general education and major requirements:

MATH 1100 - College Algebra (3)
BIOL 1110 - Principles of Biology I (3)*
  or BIOL 1115 - Principles of Biology II (3)*
STAT 1222 - Introduction to Statistics (3)

Pre-Public Health Foundation Courses (21 credit hours)

Prerequisite Core Courses (15 credit hours)

HLTH 2101 - Healthy Lifestyles (3)
HLTH 2102 - Foundations of Public Health (3)
HLTH 2103 - Foundations of Global Health (3)
BIOL 1110 - Principles of Biology I (3)*
  or BIOL 1115 - Principles of Biology II (3)*
STAT 1222 - Introduction to Statistics (3)

*BIOI 1110L is not required for the Pre-Major, but may be required if taking BIOI 1110 or BIOI 1115 to fulfill the Natural Sciences with Lab requirement of the General Education Program.

Health-Related Communication Courses (6 credit hours)

Select two of the following:

COMM 1101 - Public Speaking (3)
COMM 2100 - Introduction to Communication Theory (3)
COMM 2105 - Small Group Communication (3)
COMM 2107 - Interpersonal Communication (3)
COMM 3115 - Health Communication (3)
COMM 3130 - Communication and Public Advocacy (3)
COMM 3135 - Leadership, Communication, and Group Dynamics (3)
COMM 3141 - Organizational Communication (3)

Public Health Major Core Courses (33 credit hours)

HLTH 3102 - Comparative Healthcare Systems (3)
HLTH 3103 - Behavior Change Theories and Practice (3)
HLTH 3104 - Research and Statistics in Health (3)
HLTH 3104L - Research and Statistics in Health Lab (1)
HLTH 3105 - Public Health Education and Promotion (3)
HLTH 3106 - Determinants of Health (3)
HLTH 3400 - Public Health Internship Preparation (1)
HLTH 4102 - Healthcare Administration (3)
HLTH 4104 - Epidemiology (3)
grades of A, B, C, D, or F.

Minor or Second Major
Students pursuing the BSPH degree are expected to pursue coursework complementary to Public Health through the completion of a minor or second major. The choice of minor or second major should be considered in terms of individual educational and professional aspirations. Students may choose any minor on campus except the Minor in Public Health, or choose a second major.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation. Study abroad courses are included.

Degree Total = 120 Credit Hours

Grade Requirements
To graduate with a BSPH degree, students must complete 120 credit hours including General Education, Pre-Public Health, Public Health, and minor or second major requirements. The cumulative GPA and the GPA in the Public Health major courses must a minimum of 2.5.

HLTH 2101, HLTH 2102, HLTH 2103, and HLTH 4104 may only be repeated with original grade of D, F, or W; and may not be attempted* more than twice.

*Each of the following is considered an attempt: Withdrawing from the course after the drop deadline (may be appealed); grade replacement; audits; Pass/No Credit; Incompletes that convert to grades of F; and grades of A, B, C, D, or F.

Minor in Public Health
The Minor in Public Health supports students interested in health-related careers or those seeking a health dimension within other career choices. Students in the minor come from biological, social, and behavioral sciences, as well as from health-related academic majors. The minor extends students' working knowledge of health applications that prepares them to be competitive in the job market and to make advanced degree choices.

Students seeking entry-level positions in health services or non-clinical health agencies and organizations after graduation will find this minor helpful in broadening their understanding of contemporary public health issues. Students in the minor are well positioned for graduate work in specific disciplines like psychology, sociology, social work, public health, health communication, or adult development and aging. The program also provides applied health content and added value to academic degrees of students seeking admission to dental, nursing, medical, pharmacy, physical therapy and other professional schools.

The Minor in Public Health fosters an interdisciplinary perspective of individual and population health. National health priorities in the first decade of the 21st century emphasize interdisciplinary training. As students develop specific healthcare competencies, undergraduate interdisciplinary experiences provide students better flexibility in working across disciplines as well as within their own major.

Admission Requirements
Students must have completed one Natural Sciences course from the list of the approved courses provided below to declare the Minor in Public Health. The course can be taken as part of the General Education Program requirements.

BINF 1101 - Introduction to Bioinformatics and Genomics (4)
BIOL 1110 - Principles of Biology I (3)
BIOL 1115 - Principles of Biology II (3)
BIOL 2273 - Human Anatomy and Physiology (3)
BIOL 2274 - Human Anatomy and Physiology II (3)
ESCI 1101 - Earth Sciences-Geography (3)
KNES 2168 - Human Anatomy and Physiology for the Health Professions (3)
KNES 2169 - Human Anatomy and Physiology for the Health Professions II (3)

Minor Requirements
The Minor in Public Health is awarded only to students completing an undergraduate major at UNC Charlotte. The minor consists of 21 credit hours: 15 credit hours must come from a set of required courses and 6 credit hours must come from the set of elective courses.

Required Natural Science Course (3 credit hours)
Choose a Natural Science course from listed above in the Admissions Requirements section. This is a prerequisite for declaring the Minor in Public Health. The course can be taken as part of the General Education Program requirements.

Required Core Courses (12 credit hours)
HLTH 2101 - Healthy Lifestyles (3)
HLTH 2102 - Foundations of Public Health (3)
HLTH 2103 - Foundations of Global Health (3)
HLTH 4104 - Epidemiology (3)

Elective Courses (6 credit hours)
Select two of the following. Students are encouraged to take electives outside their major department and college to gain a broader health perspective. Please note that some courses may have prerequisites or other requirements. Students are not allowed to “double count” the elective courses; i.e., students cannot use the elective course to fulfill their major or another minor requirement. Because additions and deletions of courses may be made to correspond to current University offerings, students are encouraged to consult with the Program Coordinator as they plan their schedules.

AFRS 3261 - Psychology of the Black Experience (3)
AFRS 4630 - Environmental and Public Health in Africa (3) (O)
ANTH 3222 - Culture, Health, and Disease (3) (W)
ANTH 3222 - Culture, Health, and Disease (3)
ANTH 4131 - Culture, Pregnancy, and Birth (3)
COMM 3115 - Health Communication (3)
ECON 3141 - Health Economics (3)
FINN 3271 - Principles of Risk Management and Insurance (3)
GRNT 3115 - Health and the Aging Process (3)
NURS 4191 - Women’s Health Issues (3)
PHIL 3230 - Healthcare Ethics (3)
POLS 3125 - Healthcare Policy (3)
SOCY 4168 - Sociology of Mental Health and Illness (3) (W)
WGST 4191 - Women’s Health Issues (3)
Any unrestricted HLTH 3000- or 4000-level course

Minor Total = 21 Credit Hours

Grade Requirements
To qualify for the Minor in Public Health upon graduation, students must have earned a GPA of at least 2.0 in courses applied to the minor. Students are required to have a grade of C or above in Required Core Courses. Students are allowed to attempt* these Core Courses in which they earned grades lower than a C no more than two times.

*Each of the following is considered an attempt: Withdrawing from the course after the drop deadline (may be appealed); grade replacement; audits; Pass/No Credit; Incompletes that convert to grades of F; and grades of A, B, C, D, or F.

Early Entry: Master of Health Administration
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.5 overall undergraduate GPA
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the The Graduate School

Note: the GRE is NOT required of Early Entry applicants to the Health Administration program. Instead, applicants must meet with the Graduate Program Director prior to submitting an application. Applicants must submit all other elements of a standard graduate application to the program.

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be “double counted” toward both the undergraduate and graduate degrees. Students may leave the program with their baccalaureate degree, or they may complete the remaining coursework required to earn the MPH. Students pursuing the Early Entry option can reduce the time needed to earn both degrees by one semester.

More Information
While admission is open to students pursuing any undergraduate major, students from health/health administration-related majors are this program’s focus. Interested students should consult with the MPH Graduate Program Director about their eligibility and competitiveness for this program before applying.

For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

School of Social Work
socialwork.uncc.edu

Undergraduate Programs
• Bachelor of Social Work (BSW)
  ○ Honors Program

The School of Social Work offers a major in Social Work leading to the Bachelor of Social Work (BSW) degree. On the graduate level, the Department offers the Master of Social Work (MSW) degree. See the UNC Charlotte Graduate Catalog for details on the MSW.

Bachelor of Social Work (BSW)
Social work is a profession devoted to helping people function as effectively as possible within their environment, be it a context such as a family, a group, an organization such as a job, or a community. The UNC Charlotte BSW Program is accredited by the Council on Social Work Education, the accrediting body for social work education programs. The BSW degree prepares students for generalist social work practice with individuals, families, groups, organizations, and communities. Generalist practice relates to utilizing multiple types of interventions that would be useful for different types of social systems and client populations. BSW graduates provide services such as assessment and intervention, counseling, crisis intervention, referral, mediation, and advocacy with diverse populations across all age groups. BSW graduates work in a broad array of settings including: hospitals; group homes; mental health, substance abuse, child welfare, youth and family service agencies; nursing homes; and schools. The degree is centered in professional social work values and ethics within an increasingly global environment and is designed to affirm the human rights of diverse groups of people, especially populations-at-risk and groups which have historically been oppressed due to race, ethnicity, socioeconomic status, gender, sexual orientation, age, and ability. BSW education also provides an excellent foundation for those who wish to pursue graduate study in social work.

Admission Requirements
Freshmen
• Minimum GPA: Declaring the Major (Lower Division): 2.0 GPA; Upper Division Admission: 2.5 GPA
• Pre-Major/Prerequisite Courses: Students changing to the lower-division Social Work major from another major must attend a Change of Major workshop. Students entering the B.S.W. program upper-division sequence must apply and be accepted into the B.S.W. program to progress to the upper-division sequence. The application process is competitive. To apply, students must demonstrate that they are on track for completing the following by the time of program entrance:
  ○ 60 credit hours
  ○ Completion of general education requirements
  ○ A grade of C or above in SOWK 2182, SOWK 2183, BIOL 1110, BIOL 1110L, POLS 1110, PSYC 1101, STAT 1222, and SOCY 1101
Transfers
- **Minimum GPA**: Declaring the Major (Lower Division): 2.0 GPA; Upper Division Admission: 2.5 GPA
- **Pre-Major/Prerequisite Courses**: All incoming students begin as Pre-Social Work and apply to upper-division once eligible
- **Transferable Credit Hours**: 24

Degree Requirements
The Major in Social Work leading to the BSW degree consists of 120 credit hours.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education program. Students majoring in Social Work should take the following courses that meet general education and major requirements:

<table>

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours
Honors Program in Social Work
The Social Work Honors Program is an academic honors program that emphasizes research, practice, and policy activities that align with the focus of the profession.

Admission Requirements
Students may apply for admission to the undergraduate Social Work Honors Program during the Fall semester of their first year of upper-division matriculation. The undergraduate admissions committee will determine the process for review of applications.

Admission criteria are as follows:
- Overall grade point average of 3.4
- Submit a social work honors application which includes an essay
- Submit a completed recommendation form
- Upon acceptance, the student must sign the Honors College Student Code form

Course Requirements
Social Work Honors students must submit a capstone project during the last year of their progression in the undergraduate social work program. This project demonstrates the collection, selection, and reflection of high-quality course assignments, research activities, and/or projects. This project is carried out in conjunction with the senior field education course (SOWK 3484). The information below provides further details regarding the capstone project.

- The capstone project must align with the Council on Social Work Education (CSWE) Educational Policy and Accreditation Standards and the student’s preferred target population for social work practice.
- Students prepare a proposal in the Fall semester of their last year in the program based on their preferred target population and detailing the methodology for their project which includes the following:
  - A literature review
  - A theoretical framework
  - Selection of three selected EPAS standards and detail regarding proposed artifacts that demonstrate proficiency including assignments, projects, and/or activities
  - The drafted proposal for the planned contents for the capstone project must be provided to the committee in the Fall semester of the final year of the program
- In the Spring semester of their last year in the program, honors students will ensure they have collected and selected high-quality content to demonstrate a high level of proficiency. They complete the following:
  - Provide a written paper which includes a literature review, theoretical framework, selection of EPAS standards, detailed explanation of artifacts utilized for the capstone project, and a synthesis of findings
  - The capstone project is orally defended before the committee in the Spring semester of the final year of the program

Certification Requirements
To remain in the Social Work Honors program, students must:
- Maintain a minimum of a 3.4 overall grade point average
- Maintain a minimum of a 3.4 cumulative grade point average in all Social Work courses counted toward the major

To graduate with Honors in Social Work, students must:
- Produce a written capstone project proposal in the Fall semester. It must be judged by a committee of readers and pass.
- Provide an oral defense of the capstone project before a committee. It must be judged by a committee of readers as A quality to pass.
- Comply with all procedural requirements established by the Honors College for graduating with honors in a department
- Have a minimum cumulative GPA of 3.4
- Earn a grade of A in the culminating senior field education course (SOWK 3484)
- Complete the Application to Candidacy process for graduating with honors, as directed by the Honors College; this is a two-semester process and students must apply in both the Fall and Spring

The honors notation will appear on a student’s official transcript and noted on the commencement program.

If all requirements are not met, students can still progress through the B.S.W. program and complete degree requirements but they will not graduate with designated honors.
College of Liberal Arts & Sciences
The College of Liberal Arts & Sciences (CLAS) is an academic community engaged in advancing the discovery, dissemination, and application of knowledge in the traditional areas of liberal arts and sciences and in emerging areas of study. As a community focused on learning and teaching, the College is guided by an unshakeable commitment to humanistic values and ethical conduct, by a creative and entrepreneurial frame of mind, and by an awareness of the global context in which the University exists.

The liberal arts are the core of the University's educational program, both for students majoring in liberal arts and sciences and for students majoring in professional degree programs. As a result, courses offered within the College of Liberal Arts & Sciences are frequently those designated to satisfy University General Education requirements (see General Education Requirements in the Degree Requirements and Academic Policies section of this Catalog).

Departments
The College of Liberal Arts & Sciences consists of these departments:

- Department of Aerospace Studies (Air Force ROTC)
- Department of Africana Studies
- Department of Anthropology
- Department of Biological Sciences
- Department of Chemistry
- Department of Communication Studies
- Department of Criminal Justice and Criminology
- Department of English
- Department of Geography and Earth Sciences
- Department of Global Studies
- Department of History
- Department of Languages and Culture Studies
- Department of Mathematics and Statistics
- Department of Military Science (Army ROTC)
- Department of Philosophy
- Department of Physics and Optical Science
- Department of Political Science and Public Administration
- Department of Psychological Science
- Department of Religious Studies
- Department of Sociology
- Department of Writing, Rhetoric, and Digital Studies

Interdisciplinary Programs
The College of Liberal Arts & Sciences also houses the following undergraduate interdisciplinary programs:

- American Studies
- Biotechnology
- Capitalism Studies
- Children’s Literature and Childhood Studies
- Film Studies
- Gerontology
- Health/Medical Humanities
- Humanities, Technology, and Science
- Latin American Studies
- Southern Studies
- Urban Studies
- Women’s and Gender Studies

Degree Programs
Majors

- Bachelor of Arts in Africana Studies
- Bachelor of Arts in Anthropology
- Bachelor of Arts in Biological Sciences
- Bachelor of Science in Biological Sciences
- Bachelor of Arts in Chemistry
- Bachelor of Science in Chemistry
- Bachelor of Arts in Communication Studies
- Bachelor of Arts in Criminal Justice
- Bachelor of Science in Earth and Environmental Sciences
- Bachelor of Arts in English
- Bachelor of Arts in Environmental Sciences
- Bachelor of Arts in French
- Bachelor of Arts in Geography
- Bachelor of Science in Geography
- Bachelor of Science in Geology
- Bachelor of Arts in German
- Bachelor of Arts in History
- Bachelor of Arts in International Studies
- Bachelor of Arts in Japanese
- Bachelor of Arts in Latin American Studies
- Bachelor of Arts in Mathematics
- Bachelor of Science in Mathematics
- Bachelor of Arts in Mathematics for Business
- Bachelor of Science in Mathematics for Business
- Bachelor of Arts in Meteorology
- Bachelor of Arts in Philosophy
- Bachelor of Arts in Physics
- Bachelor of Science in Physics
- Bachelor of Arts in Political Science
- Bachelor of Science in Psychology
- Bachelor of Arts in Religious Studies
- Bachelor of Arts in Sociology
- Bachelor of Arts in Spanish
- Bachelor of Arts in Writing, Rhetoric, and Digital Studies
Minors
- Actuarial Mathematics
- Aerospace Studies
- Africana Studies
- American Studies
- Arabic Studies
- Anthropology
- Biology
- Biotechnology
- Capitalism Studies
- Chemistry
- Children’s Literature and Childhood Studies
- Chinese
- Classical Studies
- Cognitive Science
- Communication Studies
- Criminal Justice
- Diverse Literatures and Cultural Studies
- Earth Sciences
- English
- Environmental Sciences
- Film Studies
- Francophone Studies
- French
- Geography
- Geology
- German
- Gerontology
- Health/Medical Humanities
- History
- Holocaust, Genocide, and Human Rights Studies
- Humanities, Technology, and Science
- International Studies
- Japanese
- Journalism
- Latin American Studies
- Legal Studies
- Linguistics
- Mathematics
- Military Science
- Philosophy
- Physics
- Political Science
- Psychology
- Religious Studies
- Russian
- Security and Intelligence Studies
- Sociology
- Southern Studies
- Spanish
- Statistics
- Technical and Professional Writing
- Urban Studies
- Women’s and Gender Studies
- Writing, Rhetoric, and Digital Studies

Undergraduate Certificates
- Actuarial Studies
- International Public Relations
- Languages and Culture Studies: Business French
- Languages and Culture Studies: Business German
- Languages and Culture Studies: Business Japanese
- Business Language: Spanish
- Languages and Culture Studies: German for Engineering
- Languages and Culture Studies: Hispanic Literary Studies

Although faculty within the College are committed to departmentally based programs, increased emphasis is being placed on providing strong interdisciplinary programs. The College also strives to promote intercultural understanding through its curriculum, as well as through student exchanges and travel opportunities.

Degree Requirements

General Education Requirements
Since all students entering the University must meet the same General Education requirements regardless of major, it is appropriate to concentrate on the completion of those requirements before committing to a specific major. Undeclared students have time to enroll in courses in several disciplines, which allows them to make a more informed judgment about future career decisions. Advisors have a broad working experience with the requirements for majors and offer assistance as students search for the education choice best suited to their individual needs.

Degree Programs/Majors and Minors Requirements
Students in the College of Liberal Arts & Sciences must satisfy the requirements for the degree program(s) in which they are enrolled. Students should consult with their chosen department to make certain they fully understand all degree requirements. Some departments in the College of Liberal Arts & Sciences require completion of a minor program of study in conjunction with their major degree program. Students should be familiar with the requirements of any minor program of study they attempt to complete.

Foreign Language Requirement
All students who earn a degree within the College of Liberal Arts & Sciences are required to demonstrate proficiency in the language of their choice through the 1202 level. Proficiency can be demonstrated in one of the following ways:

- Completing the required coursework at UNC Charlotte
- Completing three years of the same foreign language in high school through level three
- Achieving a satisfactory score on the foreign languages placement test (in Spanish, French, or German)
- Through approved transfer or transient credit earned at a college or university accredited by an accepted accrediting body
- By transferring in with an A.A., A.S. or A.F.A. degree
A combination of the above methods (e.g., placing out of or earning transfer or transient credit for 1201 and completing the 1202 course, completing 1201 and placing out of or earning transfer or transient credit for 1202)

The following courses meet the College of Liberal Arts & Sciences' foreign language requirement. Please note that the below courses also have prerequisites that students must meet prior to enrolling in the courses.

- ARBC 1202 - Elementary Arabic II (3)
- CHNS 1202 - Elementary Chinese II (3)
- FARS 1202 - Elementary Farsi II (3)
- FREN 1202 - Elementary French II (3)
- GERM 1202 - Elementary German II (3)
- GREK 1202 - Elementary Ancient Greek II (4)
- ITLN 1202 - Elementary Italian II (3)
- JAPN 1202 - Elementary Japanese II (3)
- LATN 1202 - Elementary Latin II (4)
- MDGK 1202 - Elementary Modern Greek II (4)
- PORT 1202 - Elementary Portuguese II (3)
- RUSS 1202 - Elementary Russian II (3)
- SPAN 1202 - Elementary Spanish II (4)
- SWAH 1202 - Elementary Swahili II (4)

This requirement applies to all students entering any degree program within the College of Liberal Arts & Sciences except those students whose primary major is in the College of Engineering and are enrolled in one of the Dual Degree Programs with Physics.

Additionally, students in select departments have to satisfy a proficiency requirement through the intermediate (2000) or advanced (3000) level for their major. All students in the College of Liberal Arts & Sciences should consult with their major department to determine whether or not they are required to complete the intermediate or advanced proficiency requirement as part of their major or related coursework.

Advising
The College of Liberal Arts & Sciences administers the Office of Advising and Student Services, an advising center for freshmen and transfer students who have enrolled in a major or pre-major within the college. Professional advisors are available to provide guidance on both first-year and/or pre-major requirements, as well as General Education requirements. The Student Services area of the College of Liberal Arts & Sciences oversees all student services functions for the college, which includes the review of student appeals and requests, as well as academic-related issues that arise among students within CLAS.

The advising team is dedicated to establishing relationships with all CLAS freshmen and pre-major transfer students that help them achieve their academic, personal, and professional goals. The advisors are also dedicated to connecting students to enrichment opportunities in the departments as well as across campus and beyond.

Experiential Learning and Service Opportunities
The college aims to inspire innovative thinking in undergraduate students and contribute to the development of creative problem solvers, innovative leaders, and engaged citizens through an initiative called LEADS. Students are also encouraged to participate in professional work experiences in support of their academic and career development through cooperative education, 49ership, departmental undergraduate research, community-engaged research and service, and internship programs offered to them. The partnership with the University Career Center expands experiential learning offerings so more students graduate with career-related experience. For more information about experiential learning opportunities, please see the University Career Center section of this Catalog.
The Department of Africana Studies curriculum focuses on four critical areas: history, culture, social policy (especially health and environment), and entrepreneurship, as these relate to the experiences of the peoples of African descent globally. The department offers a comprehensive liberal arts curriculum that enhances global awareness, engages social policies, fosters entrepreneurial skills in regional and transnational contexts, and develops the skills needed for success in the 21st century. Its interdisciplinary approach presents a stimulating diversity of perspectives integrated into a totality not available in other disciplines, programs, or departments. The curriculum is designed to provide a useful educational experience and academic skills for students who wish to consider graduate study or professional school and pursue careers in entrepreneurship; community development agencies; federal, state, and city civil service; business; museums and archives; health and environment fields; diplomatic and foreign service; as well as research, journalism, international organizations, and teaching.

Bachelor of Arts in Africana Studies
The Major in Africana Studies leading to a B.A. degree requires the completion of a minimum 30 credit hours in Africana Studies courses. The major is ideal for students who want to work in a field where background in liberal arts education is desirable such as social and community services, media, teaching, entrepreneurship, business, government service, international organizations, museums and archives, corporate and organization diversity, and not-for-profit agencies. The major is also relevant for students who are interested in graduate study or professional school.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Declaration of Major: Change of Major form accepted year-round; orientation/advising session while declaring major
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (15 credit hours)
AFRS 1100 - Introduction to Africana Studies (3)
AFRS 3290 - Research Methods (3)
AFRS 4000 - Senior Seminar in African Studies (3)
AFRS 4100 - African Diaspora Theory (3)

Plus one of the following:
AFRS 2156 - African Civilization (3)
AFRS 2160 - African American Experience through Civil War (3)
AFRS 2161 - African American Experience: Civil War to Civil Rights (3)

Restricted Elective Courses (15 credit hours)
Select five of the following:
AFRS 2050 - Topics in Africana Studies (3)
AFRS 2103 - Introduction to Hip Hop (3)
AFRS 2105 - Black Images in the Media in the U.S. (3)
AFRS 2107 - Global Hip Hop (3)
AFRS 2111 - Yoruba Language and Culture I (3)
AFRS 2112 - Yoruba Language and Culture II (3)
AFRS 2120 - African American Women (3)
AFRS 2156 - African Civilization (3)
AFRS 2160 - The African American Experience through Civil War (3)
AFRS 2161 - The African American Experience: Civil War to Civil Rights (3)
AFRS 2170 - Introduction to Health and Environmental Issues in the Africana World (3)
AFRS 2172 - Black Sexuality and Health (3)
AFRS 2174 - Environmental Literature in Africa and the Caribbean (3)
AFRS 2206 - African Literature, Music, and Art (3) (W)
AFRS 2207 - Pan-Africanism (3)
AFRS 2208 - Education and African Americans (3)
AFRS 2215 - Black Families in the United States (3) (W)
AFRS 2221 - Modern Africa (3)
AFRS 2225 - West African Dance and Percussion (3)
AFRS 2301 - Introduction to African American Literature (3)
AFRS 3050 - Topics in Africana Studies (3)
AFRS 3121 - Contemporary African Art (3)
AFRS 3150 - The African American Church and Civil Rights (3)
AFRS 3154 - Globalization in African History (3)
AFRS 3155 - Health and Healing in Africa (3)
AFRS 3158 - Gender and African American Literature (3)
AFRS 3159 - African American Poetry (3)
AFRS 3179 - African American Political Philosophy (3)
AFRS 3190 - Political Economy of the Caribbean (3)
AFRS 3192 - African Cinema (3)
AFRS 3200 - Folklore of Africa and the African Diaspora (3)
AFRS 3210 - Black Families in the Diaspora (3)
AFRS 3218 - Racial Violence, Colonial Times to Present (3)
AFRS 3220 - The Caribbean from Slavery to Independence (3)
AFRS 3230 - Poverty and Discrimination in African Diaspora in the Modern Era (3)
AFRS 3240 - African Americans and the Legal Process (3)
AFRS 3250 - African Americans and Health Communication (3)
AFRS 3260 - Slavery, Racism, and Colonialism in the African Diaspora (3)
AFRS 3261 - Psychology of the Black Experience (3)
AFRS 3264 - Business Culture and Entrepreneurship in Africa (3)
AFRS 3265 - African Economic Development (3)
AFRS 3270 - Afro-Latin American History (3) (W)
AFRS 3278 - Race in the History of Brazil (3)
AFRS 3280 - Blacks in Urban America (3)
AFRS 3328 - West African Art and Display (3)
AFRS 3395 - African American Art (3)
AFRS 3692 - Colloquium (3) (W)
AFRS 3830 - Philosophy and Race (3)
AFRS 3895 - Independent Study (1 to 3)
AFRS 3990 - Senior Project in Africana Studies (2 to 15)
AFRS 4050 - Topics in Africana Studies (3)
AFRS 4101 - Modern African Literature in English (3)
AFRS 4105 - African International Relations (3)
AFRS 4401 - Professional Internship in Africana Studies (3)
AFRS 4630 - Environmental and Public Health in Africa (3) (O)
AFRS 4640 - Environment, State, and Society in the Caribbean and Latin America (3)
AFRS 4652 - Race, Health, and the African Diaspora (3) (W)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirement
A minimum 2.0 grade point average is required in the 30 credit hours of the Major in Africana Studies.

Bachelor of Arts in Africana Studies with Concentration in Health and Environment

Students may, if desired, complete a Concentration in Health and Environment as part of the B.A. in Africana Studies. The concentration focuses on the cultural, social, ethical, psychological, historical, and policy dimensions of the pertinent health and environmental issues in the global Africana World. The concentration requires the completion of 30 credit hours in Africana Studies courses as follows.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Declaration of Major: Change of Major form accepted year-round; orientation/advising session while declaring major
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (18 credit hours)
AFRS 1100 - Introduction to Africana Studies (3)
AFRS 2170 - Introduction to Health and Environmental Issues in the Africana World (3)
AFRS 3290 - Research Methods (3)
AFRS 4000 - Senior Seminar in African Studies (3)
AFRS 4100 - African Diaspora Theory (3)

Select one of the following:
AFRS 2156 - African Civilization (3)
AFRS 2160 - African American Experience through Civil War (3)
AFRS 2161 - African American Experience: Civil War to Civil Rights (3)

Restricted Elective Courses (12 credit hours)
Three to four courses (9-12 credits) from the following and other AFRS courses approved by the department chair:

AFRS Elective Courses
AFRS 2172 - Black Sexuality and Health (3)
AFRS 3155 - Health and Healing in Africa (3)
or HIST 3155 - Health and Healing in Africa (3)
AFRS 3250 - African Americans and Health Communication (3)
AFRS 3261 - Psychology of the Black Experience (3)
AFRS 3895 - Independent Study (1 to 3)
AFRS 4630 - Environmental and Public Health in Africa (3)
AFRS 4640 - Environment, State, and Society in the Caribbean and Latin America (3)
AFRS 4652 - Race, Health, and the African Diaspora (3)

Other Elective Courses
One elective course (3 credit hours) MAY be taken from the following or any other related course approved by the department chair:
ANTH 2126 - World Population Problems (3) (W)
ANTH 3122 - Culture, Health and Disease (3) (W)
ANTH 3124 - Food, Nutrition and Culture (3)
ANTH 4131 - Culture, Pregnancy and Birth (3)
COMM 3051 - Topics in Health Communication (3)
COMM 3115 - Health Communication (3)
ESCI 2101 - The Environmental Dilemma (3)
GEOG 2103 - Elements of GIScience and Technologies (4)
GEOG 2120 - Geographic Information Systems: Survey of Applications and Techniques (4)
GEOG 3115 - Health and the Aging Process (3) (W)
HLTH 2101 - Healthy Lifestyles (3)
HLTH 3102 - Comparative Healthcare Systems (3)
HLTH 3103 - Behavior Change Theories and Practice (3)
HLTH 4090 - International Comparative Health Systems: Western Europe (3)
HLTH 4103 - Environmental Health: A Global Perspective (3)
HLTH 4104 - Epidemiology (3)
HLTH 4280 - Global Health Issues (3)
NURS 4191 - Women’s Health Issues (3) or WGST 4191 - Women’s Health Issues (3)
POLS 3125 - Health Care Policy (3)
SOCY 2169 - Sociology of Health and Illness (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Grade Requirement
A minimum 2.0 grade point average is required in the 30 credit hours of the Major in Africana Studies.

Research Project/Professional Internship
During their Junior or Senior year, students may design and work on a major research project or enroll in a professional internship program at places such as the Harvey B. Gantt Center for African American Arts + Culture; Charlotte City Hall; International House; Levine Museum of the New South; Planned Parenthood; Latibah Collard Green Museum; Neighborhood Good Samaritan Center, Inc.; Juneteeth Festival of the Carolinas; the Charlotte Observer; and the Charlotte Post.

Study Abroad
Students may take advantage of the opportunity to travel, work, and study abroad in an exchange program, especially in Africa, the Caribbean, and Europe, as well as with the Peace Corps and Operation Crossroads. For more information, visit the Office of Education Abroad at edabroad.uncc.edu.

Minor in Africana Studies
The Minor in Africana Studies requires the completion of 18 credit hours of Africana Studies courses.

Minor Requirements
Required Courses (6 credit hours)
AFRS 1100 - Introduction to Africana Studies (3)
AFRS 4100 - African Diaspora Theory (3)

Elective Courses (12 credit hours)
AFRS 2xxx - Africana Studies Elective (3)
AFRS 2xxx - Africana Studies Elective (3)
AFRS 3xxx-4xxx - Africana Studies Elective (3)
AFRS 3xxx-4xxx - Africana Studies Elective (3)

Grade Requirements
A minimum of 2.0 GPA is required for the 18 credit hours of the Minor in Africana Studies.

Total = 18 Credit Hours

Honors Program in Africana Studies
The Honors Program in Africana Studies provides opportunities for exceptional achievement in the Africana Studies major. The goal is to deepen the understanding of high-achieving and self-motivated students in the interdisciplinary field of Africana Studies. Students admitted into the Africana Studies honors program are required to successfully complete a research, creative, and/or community engagement project/thesis in the field of Africana Studies. The final product must demonstrate evidence of scholarly rigor, intellectual curiosity, and creative problem-solving.

Admission Requirements
- A declared Africana Studies major
- Completion of a minimum of 6 credit hours of AFRS courses with at least a B grade in each
- GPA of at least 3.25 in all Africana Studies courses counted toward the major and taken at UNC Charlotte
- GPA of at least 3.0 for all coursework at UNC Charlotte

Course Requirements
Research or Theory Course (3 credit hours)
Select one of the following:
AFRS 3290 - Research Methods (3) (O) (Honors section)
AFRS 4100 - African Diaspora Theory (3) (Honors section)

Project/Thesis Course (3 credit hours)
AFRS 4790 - Africana Studies Senior Honors Project/Thesis (3)

The honors project/thesis leads to a research, creative, and/or community engagement project/thesis. The honors project/thesis product may be in form of digital (e.g., web-based), textual (a minimum of 20-page paper), database development, or a creative work. The product must show evidence that the honors project/thesis is driven by the quest to solve an applied problem, or develop a better understanding of a theoretical or practical issue.
Certification Requirements
To graduate with honors in Africana Studies, students must:
• Comply with all of the requirements for a Major in Africana Studies
• Complete the Research or Theory course with grade of B or above
• Complete the Honors Project/Thesis with a grade of A
• Earn a minimum GPA of 3.25 in all Africana Studies courses counted toward the major and taken at UNC Charlotte
• Earn a minimum GPA of 3.0 for all coursework at UNC Charlotte
• Complete the Application to Candidacy process for graduating with honors, as directed by the Honors College

The honors notation will appear on a student’s official transcript.

Early Entry: Graduate Certificate in Africana Studies
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
• Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
• Minimum 3.2 overall undergraduate GPA
• Acceptable scores on the appropriate graduate standardized test (e.g., GRE)
• Submit application online at mygradschool.uncc.edu and provide supporting documents
• Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
• Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
• Maintain a minimum 3.0 overall undergraduate GPA
• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 6 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 6 credit hours of graduate coursework may be “double counted” toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
American Studies
americanstudies.uncc.edu

Undergraduate Programs
• Minor in American Studies

American Studies is an interdisciplinary program designed to develop in-depth knowledge of American society, past and present. Drawing its curriculum from approved courses in other departments and its own core courses, the program weaves traditionally divergent disciplines together so that students gain a broad understanding of American life and culture. The Minor in American Studies is open to students of all majors. Students may complete the program by fulfilling requirements for the minor.

Minor in American Studies
A Minor in American Studies consists of 18 credit hours: 6 credit hours of American Studies courses and 12 credit hours of American Studies courses or approved American-content courses from other departments.

Minor Requirements
Required Courses (6 credit hours)
AMST 3100 - Introduction to American Studies (3)
AMST 2xxx-4xxx - American Studies (3)*

*AMST 3100 may be repeated for credit, as decades vary.

Elective Courses (12 credit hours)
The following American-content courses have been approved for the minor. Because additions and deletions are made to correspond to current University offerings, students are advised to consult with the Program Director. Other courses that do not appear on the list, especially topics and independent study courses, may be approved if they are pertinent to the student’s program and deal with an American topic. A maximum of 6 credit hours of American-content courses may also be in the student’s major. If the student has additional majors or minors, no more than 6 credit hours of American-content courses from each of these may apply to the Minor in American Studies. These stipulations include cross-listed courses regardless of the program designation under which the course was taken. Exceptions may be approved by the Program Director and, if necessary, upon consultation with the other program in question. Note: Students exercising this option should be aware that the accuracy of the online degree audit may be affected.

Africana Studies
AFRS 1100 - Introduction to Africana Studies (3)
AFRS 2105 - Black Images in the Media in the U.S. (3)

**Minor Total = 18 Credit Hours**

**Grade Requirements**

All students must have a GPA of at least 2.0 in courses applied to the minor.
Undergraduate Programs
• B.A. in Anthropology
  ○ Applied Anthropology
  ○ Honors Program
• Minor in Anthropology
• Early Entry: M.A. in Anthropology

Anthropology is the study of humans and their cultures, and the exploration of human diversity in time and space. It is organized into four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. It emphasizes the comparative study of humans and the cross-cultural analysis of their social and cultural responses to fundamental human needs.

The study of anthropology is relevant for people whose goal is graduate study, as well as for people whose occupations and endeavors require a cross-cultural understanding of human nature and biology, human history and prehistory, and the variety of cultures humans have developed. It is particularly useful for teachers, medical personnel, social workers, and persons seeking careers in business and communications, as well as persons who plan to work in or with foreign countries. It provides competencies needed for employment in such organizations as museums, government agencies, school systems, corporations, police departments, the Park Service, and healthcare institutions.

Bachelor of Arts in Anthropology
A Major in Anthropology leading to the B.A. degree requires completion of 33-34 credit hours of anthropology coursework.

Admission Requirements
Freshmen and Transfers
• Minimum GPA: 2.0; students with a GPA below 2.0 should consult with departmental advisor
• Declaration of Major: Change of Major form accepted year-round, except during pre-registration periods; orientation/advising session required after declaration
• Transferable Credit Hours: 24 (a minimum of 12 credit hours of ANTH courses must be completed at UNC Charlotte)

Degree Requirements
General Education Courses (37-43 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-4 credit hours)
Students with a Major in Anthropology must complete either a 2000-level course in a foreign language that uses the Latin alphabet or a 1202-level course in a language that is not written in the Latin alphabet, or demonstrate proficiency at that level. Non-native speakers of English may complete the foreign language requirement by passing WRDS 1103, WRDS 1104, or the equivalent.

Latin Alphabet Courses
FREN 2200 - French for Reading Knowledge (3)
FREN 2201 - Intermediate French I (3)
GERM 2201 - Intermediate German I (3)
ITLN 2201 - Intermediate Italian I (3)
LATN 2201 - Latin Prose (3)
PORT 2201 - Intermediate Portuguese I (3)
SPAN 2105 - Spanish Communication Skills Development I (3) (O)
SPAN 2106 - Spanish Communication Skills Development II (3) (O)
SPAN 2200 - Spanish for Reading Knowledge (3)
SPAN 2201 - Intermediate Spanish I (3)
SPAN 2210 - Introduction to Spanish for Commerce (3)
SPAN 3221 - Spanish for Criminal Justice (3)
SPAN 3222 - Spanish for Medical and Healthcare (3)

Non-Latin Alphabet Courses
ARBC 1202 - Elementary Arabic II (4)
CHNS 1202 - Elementary Chinese II (4)
FARS 1202 - Elementary Farsi II (4)
GREK 1202 - Elementary Ancient Greek II (4)
JAPN 1202 - Elementary Japanese II (4)
RUSS 1202 - Elementary Russian II (4)

Major Courses (33-34 credit hours)
Required Courses (12 credit hours)
ANTH 1101 - Introduction to Anthropology (3)
ANTH 2171 - Action, Justice, and Change: An Introduction to Engaged and Applied Anthropology (3)
ANTH 3601 - Foundations of Anthropological Theory (3)
ANTH 4601 - Seminar in General Anthropology (3) (O,W)

Biological Anthropology or Archaeology Course (3-4 credit hours)
Select one of the following:
ANTH 2141 - Our Place in Nature: Introduction to Biological Anthropology (4)
and ANTH 2141L - Our Place in Nature: Introduction to Biological Anthropology Lab (0)
ANTH 2151 - Introduction to Archaeology (3)

Sociocultural or Linguistic Anthropology Course (3 credit hours)
Select one of the following:
ANTH 2121 - The Development of Topics and Themes in Sociocultural Anthropology (3)
ANTH 2161 - Introduction to Linguistic Anthropology (3)
Anthropological Methods Course (3 credit hours)
Select one of the following:
- ANTH 3141 - Human Osteology (3)
- ANTH 3153 - Archaeological Analysis (3)
- ANTH 4122 - Ethnographic Methods (3)
- ANTH 4140 - Field Biology of the Primates (3)
- ANTH 4141 - Forensic Anthropology (3)
- ANTH 4453 - Field Project in Archaeology (1 to 4)

Other Elective Courses (12 credit hours)
Select 12 credit hours of the following ANTH elective courses, including at least one elective at the 3000 level and one at the 4000 level. A second major course in each group above can count as an elective if not already taken above.

Cultural Anthropology Courses
- ANTH 2010 - Topics in Ethnography (3)
- ANTH 2020 - Topics in Cultural Anthropology (3)
- ANTH 2111 - Peoples of Africa (3)
- ANTH 2112 - North American Indians (3)
- ANTH 2113 - Cultures of Russia and East Europe (3)
- ANTH 2114 - Indians of the Southeastern United States (3)
- ANTH 2115 - Culture and Society in the Middle East (3)
- ANTH 2116 - Contemporary Latin America (3)
- ANTH 2117 - Cultures of the Caribbean (3)
- ANTH 2121 - The Development of Topics and Themes in Sociocultural Anthropology (3)
- ANTH 2122 - Beliefs, Symbols, and Rituals (3)
- ANTH 2123 - Women in Cross-Cultural Perspective (3)
- ANTH 2125 - Urban Anthropology (3)
- ANTH 2126 - World Population Problems (3) (W)
- ANTH 2127 - Environmental Anthropology (3)
- ANTH 2131 - Introduction to Peace, Conflict, and Identity Studies (3)
- ANTH 3020 - Topics in Cultural Anthropology (3)
- ANTH 3112 - Globalization and Culture (3)
- ANTH 3113 - Economic Anthropology (3)
- ANTH 3116 - Cultures and Conflicts (3)
- ANTH 3117 - Narratives and Conflicts (3)
- ANTH 3122 - Culture, Health, and Disease (3) (W)
- ANTH 3124 - Food, Nutrition, and Culture (3)
- ANTH 3125 - Food and Globalization (3)
- ANTH 3126 - Anthropology of Vampires, Ghosts, and Witchcraft (3)
- ANTH 3127 - Anthropology of Violence (3)
- ANTH 3132 - Aging and Culture (3) (W)
- ANTH 3135 - Origins of Globalization (3)
- ANTH 3136 - Globalization and Resistance (3)
- ANTH 3222 - Culture, Health, and Disease (3)
- ANTH 4020 - Topics in Cultural Anthropology (3)
- ANTH 4110 - American Ethnic Cultures (3)
- ANTH 4611 - Senior Seminar in Applied Anthropology (3) (O.W) (SL)
- ANTH 4122 - Ethnographic Methods (3)
- ANTH 4131 - Culture, Pregnancy, and Birth (3)
- ANTH 4615 - Readings in Middle East Ethnography (3)
- ANTH 4616 - Culture and Conflict in the Amazon (3)
- ANTH 4622 - Readings in the Anthropology of Religion (3)

Biological Anthropology Courses
- ANTH 2040 - Topics in Biological Anthropology (3)
- ANTH 2142 - Primate Behavioral Ecology (3)
- ANTH 2143 - The Fossil Evidence for Human Evolution (3)
- ANTH 2144 - Neanderthals and Us (3)
- ANTH 3040 - Topics in Biological Anthropology (3)
- ANTH 3141 - Human Osteology (3)
- ANTH 3143 - Race and Anthropology (3)
- ANTH 3144 - Evolutionary Anthropology (3)
- ANTH 3145 - Anthropological Genetics (3)
- ANTH 4040 - Topics in Biological Anthropology (3)
- ANTH 4140 - Field Biology of the Primates (3)
- ANTH 4141 - Forensic Anthropology (3)

Archaeological Anthropology Courses
- ANTH 2050 - Topics in Archaeology (3)
- ANTH 2151 - Introduction to Archaeology (3)
- ANTH 2152 - New World Archaeology (3)
- ANTH 2153 - Historic Archaeology (3)
- ANTH 2156 - African Civilization (3)
- ANTH 3050 - Topics in Archaeology (3)
- ANTH 3152 - Early Civilizations (3)
- ANTH 3153 - Archaeological Analysis (3)
- ANTH 3154 - European Prehistory (3)
- ANTH 3155 - Ancient Latin America (3)
- ANTH 3157 - South American Prehistory (3)
- ANTH 4050 - Topics in Archaeology
- ANTH 4453 - Field Project in Archaeology (1 to 4)

Linguistic Anthropology Courses
- ANTH 2161 - Introduction to Linguistic Anthropology (3)
- ANTH 3160 - Gender, Culture, and Communication (3)
- ANTH 4120 - Intercultural Communications (3)

General Anthropology Courses
- ANTH 2090 - Topics in Anthropology (1 to 3)
- ANTH 3090 - Topics in Anthropology (1 to 3)
- ANTH 3895 - Directed Individual Study (1 to 4)
- ANTH 4090 - Topics in Anthropology (1 to 3)
- ANTH 4480 - Internship in Anthropology (3)
- ANTH 4482 - Teaching Internship in Anthropology (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
A GPA of at least 2.0 is required in the 33-34 credit hours of anthropology required for the major. ANTH 3601 and ANTH 4601 must be completed with a grade of C or above.

Internships
Students should consult the department concerning internships and field schools in anthropology.

Bachelor of Arts in Anthropology with Concentration in Applied Anthropology
The Concentration in Applied Anthropology is designed to equip anthropology majors with the skills needed for a career in applied anthropology, an area with growing employment opportunities. Applied anthropologists work in educational institutions, museums, zoos, health...
care organizations, non-profits, the business world, and elsewhere. Preparation for a career in applied anthropology involves developing a special set of job skills, in addition to a breadth of anthropological knowledge. Students who pursue a Concentration in Applied Anthropology complete coursework that will help them develop these skills.

The Concentration in Applied Anthropology does not require more coursework than the traditional major. Instead, it requires specific coursework. Both options require a total of 33-34 credit hours in anthropology.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0; students with a GPA below 2.0 should consult with departmental advisor
- Declaration of Major: Change of Major form accepted year-round, except during pre-registration periods; orientation/advising session required after declaration
- Transferable Credit Hours: 24 (a minimum of 12 credit hours of ANTH courses must be completed at UNC Charlotte)

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-4 credit hours)
Students with a Major in Anthropology must complete either a 2000-level course in a foreign language that uses the Latin alphabet or a 1202-level course in a language that is not written in the Latin alphabet, or demonstrate proficiency at that level. Non-native speakers of English may complete the foreign language requirement by passing WRDS 1103, WRDS 1104, or the equivalent.

Latin Alphabet Courses
FREN 2200 - French for Reading Knowledge (3)
FREN 2201 - Intermediate French I (3)
GERM 2201 - Intermediate German I (3)
ITLN 2201 - Intermediate Italian I (3)
LATN 2201 - Latin Prose (3)
PORT 2201 - Intermediate Portuguese I (3)
SPAN 2105 - Spanish Communication Skills Development I (3) (O)
SPAN 2106 - Spanish Communication Skills Development II (3) (O)
SPAN 2200 - Spanish for Reading Knowledge (3)
SPAN 2200 - Intermediate Spanish I (3)
SPAN 2210 - Introduction to Spanish for Commerce (3)
SPAN 3221 - Spanish for Criminal Justice (3)
SPAN 3222 - Spanish for Medical and Healthcare (3)

Non-Latin Alphabet Courses
ARBC 1202 - Elementary Arabic II (4)
CHNS 1202 - Elementary Chinese II (4)
FARS 1202 - Elementary Farsi II (4)
GREK 1202 - Elementary Ancient Greek II (4)
JAPN 1202 - Elementary Japanese II (4)
RUSS 1202 - Elementary Russian II (4)

Major Courses (33-34 credit hours)

Required Courses (32 credit hours)

ANTH 1101 - Introduction to Anthropology (3)
ANTH 2171 - Action, Justice, and Change: An Introduction to Engaged and Applied Anthropology (3)
ANTH 3601 - Foundations of Anthropological Theory (3)
ANTH 4611 - Senior Seminar in Applied Anthropology (3) (O,W) (SL)

Biological Anthropology or Archaeology Course (3-4 credit hours)
Select one of the following:
ANTH 2141 - Our Place in Nature: Introduction to Biological Anthropology (4)
and ANTH 2141L - Our Place in Nature: Introduction to Biological Anthropology Lab (O)
ANTH 2151 - Introduction to Archaeology (3)

Sociocultural or Linguistic Anthropology Course (3 credit hours)
Select one of the following:
ANTH 2121 - The Development of Topics and Themes in Sociocultural Anthropology (3)
ANTH 2161 - Introduction to Linguistic Anthropology (3)

Anthropological Methods Course (3 credit hours)
Select one of the following in consultation with the department or academic advisor:
ANTH 3141 - Human Osteology (3)
ANTH 3153 - Archaeological Analysis (3)
ANTH 4122 - Ethnographic Methods (3)
ANTH 4140 - Field Biology of the Primates (3)
ANTH 4141 - Forensic Anthropology (3)
ANTH 4453 - Field Project in Archaeology (1 to 4)
or other approved course

Quantitative Skills Course (3 credit hours)
Select one of the following:
STAT 1221 - Introduction to Statistics (3)
STAT 1222 - Introduction to Statistics (3)
SOCY 4156 - Quantitative Analysis (4)
or another approved statistics course

Other Elective Courses (9 credit hours)
Select 9 credit hours of the following ANTH elective courses, including at least one elective at the 3000 level and one at the 4000 level. A second major course in each group above can count as an elective if not already taken above.

Cultural Anthropology Courses
ANTH 2010 - Topics in Ethnography (3)
ANTH 2020 - Topics in Cultural Anthropology (3)
ANTH 2111 - Peoples of Africa (3)

ANTH 2040 - Topics in Biological Anthropology (3)
ANTH 2142 - Primate Behavioral Ecology (3)
ANTH 2143 - The Fossil Evidence for Human Evolution (3)
ANTH 2144 - Neanderthals and Us (3)
ANTH 3040 - Topics in Biological Anthropology (3)
ANTH 3141 - Human Osteology (3)
ANTH 3143 - Race and Anthropology (3)
ANTH 3144 - Evolutionary Anthropology (3)
ANTH 3145 - Anthropological Genetics (3)
ANTH 4040 - Topics in Biological Anthropology (3)
ANTH 4140 - Field Biology of the Primates (3)
ANTH 4141 - Forensic Anthropology (3)

Archaeological Anthropology Courses
ANTH 2050 - Topics in Archaeology (3)
ANTH 2151 - Introduction to Archaeology (3)
ANTH 2152 - New World Archaeology (3)
ANTH 2153 - Historic Archaeology (3)
ANTH 2156 - African Civilization (3)
ANTH 3050 - Topics in Archaeology (3)
ANTH 3152 - Early Civilizations (3)
ANTH 3153 - Archaeological Analysis (3)
ANTH 3154 - European Prehistory (3)
ANTH 3155 - Ancient Latin America (3)
ANTH 3157 - South American Prehistory (3)
ANTH 4050 - Topics in Archaeology
ANTH 4453 - Field Project in Archaeology (1 to 4)

Linguistic Anthropology Courses
ANTH 2161 - Introduction to Linguistic Anthropology (3)
ANTH 3160 - Gender, Culture, and Communication (3)
ANTH 4120 - Intercultural Communications (3)

General Anthropology Courses
ANTH 2090 - Topics in Anthropology (1 to 3)

ANTH 3090 - Topics in Anthropology (1 to 3)
ANTH 3895 - Directed Individual Study (1 to 4)
ANTH 4090 - Topics in Anthropology (1 to 3)
ANTH 4480 - Internship in Anthropology (3)
ANTH 4482 - Teaching Internship in Anthropology (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirement
A GPA of at least 2.0 is required in the 33-34 hours of anthropology for the major. ANTH 3601 and ANTH 4611 must be completed with a grade of C or above.

Minor in Anthropology
The Minor in Anthropology requires the completion of 18 credit hours of anthropology courses.

Minor Requirements
Foundation Courses (6 credit hours)
ANTH 1101 - Introduction to Anthropology (3)
ANTH 2171 - Action, Justice, and Change: An Introduction to Engaged and Applied Anthropology (3)

Elective Courses (12 credit hours)
Select four of the following, with at least one course from the Cultural or Linguistic subfields, and one course from the Biological or Archaeological subfields:

Cultural Anthropology Courses
ANTH 2010 - Topics in Ethnography (3)
ANTH 2020 - Topics in Cultural Anthropology (3)
ANTH 2111 - Peoples of Africa (3)
ANTH 2112 - North American Indians (3)
ANTH 2113 - Cultures of Russia and East Europe (3)
ANTH 2114 - Indians of the Southeastern United States (3)
ANTH 2115 - Culture and Society in the Middle East (3)
ANTH 2116 - Contemporary Latin America (3)
ANTH 2117 - Cultures of the Caribbean (3)
ANTH 2121 - The Development of Topics and Themes in Sociocultural Anthropology (3)

- ANTH 4482 | Teaching Internship in Anthropology (3) |

**Minor Total = 18 Credit Hours**

**Grade Requirements**
A GPA of at least 2.0 is required for the 18 credit hours of anthropology courses.

**Honors Program in Anthropology**
The Department of Anthropology offers an honors program in Anthropology which provides opportunities for exceptional achievement in the Anthropology major.

**Admission Requirements**
- Declared Anthropology major
- Minimum GPA of 3.5 in Anthropology courses
- Minimum GPA of 3.2 overall

For further information, interested students should consult with the Department Chair.

**Course Requirements (9 credit hours)**
- ANTH 4701 | Honors Research in Anthropology (3) or ANTH 4611 | Senior Seminar in Applied Anthropology (3) (O,W) (SL) |
- ANTH 4702 | Honors Writing in Anthropology (3) |

**Experiential Learning Requirement (3 credit hours)**
An internship, field school, or semester-long study abroad program approved by the Departmental Honors Coordinator.

**Certification Requirements**
To graduate with honors in Anthropology, students must:
- Earn a minimum GPA of 3.5 in Anthropology courses
- Earn a minimum GPA of 3.2 overall
- Complete the Application to Candidacy process for graduating with honors, as directed by the Honors College

The honors notation appears on a student's official transcript.
Early Entry: Master of Arts in Anthropology

Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements

- Completion of at least 90 undergraduate credit hours and 18 credit hours of Anthropology courses (Students may apply with 80 credit hours completed and 10 credit hours in progress; however, they must have completed at least 90 credit hours prior to the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Minimum 3.5 GPA in Anthropology courses
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements

- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses

This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information

For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Department of Biological Sciences

Undergraduate Programs

- B.A. in Biology
  - Honors Program
- B.S. in Biology
  - Cell Biology/Physiology
  - Ecology/Environmental Biology
  - Microbiology
  - Honors Program
- Minor in Biology
- Early Entry: M.S. in Biology

We are in what has been called the “Century of Biology,” and Biological Sciences is one of the largest majors at UNC Charlotte. The program prepares students for a growing number of careers and professional and graduate programs in medicine and other allied health professions, dental and veterinary medicine, biotechnology, environmental management, conservation, research, science journalism, education, and more.

Undergraduate Programs

The Department of Biological Sciences’ B.A. and B.S. programs provide all students with a broad introduction to cell biology, ecology, evolution, genetics, and physiology. The B.A. degree provides a foundation in the basic principles of biology as background to understanding the biological world, and as preparation for many careers, such as secondary education; while the B.S. degree provides opportunity for advanced studies in academic or professional programs. For elective courses, students collaborate with their advisor to choose topics that interest them and provide a broad range of knowledge and skills to serve in the future. Throughout the curriculum, faculty provide hands-on research opportunities through the core labs, individualized research courses, internships, and the honors program.

The Minor in Biology is offered for students who desire some experience in biology as an adjunct to their major. The Minor in Biotechnology provides an interdisciplinary curriculum with an internship for students interested in this emerging field.

Graduate Programs

The department offers two Graduate Certificate programs; early entry Master’s, non-thesis-based Master’s and thesis-based Master’s programs; and an interdisciplinary Ph.D. program in Biological Sciences.
Bachelor of Arts in Biology
The B.A. in Biology is a liberal arts degree intended to provide a broad-based biological background but with enough flexibility to permit students to take more courses in areas of interest other than biology. This is especially good for students interested in teaching in secondary education (junior high and high school), or whose careers may be other than in an area of biology.

Admission Requirements
Freshmen
- **Minimum GPA:** 2.0; students with GPA below 2.0 should consult with departmental advisor; students with prior credit earned at UNC Charlotte must have a minimum overall and a Biology GPA of 2.0.
- **Pre-Major/Prerequisite Courses:** Complete the following with minimum grades of C:
  - BIOL 2120 or BIOL 2130
  - CHEM 1251
  - CHEM 1251L
- **Declaration of Major:** Students are eligible to declare a Major in Biology when enrolled in the above courses.

Transfers
- **Minimum GPA:** 2.0
- **Pre-Major/Prerequisite Courses:** All incoming students begin as Pre-Biology and declare upper-division once requirements are met.
- **Transferable Credit Hours:** 24

Degree Requirements
A Major in Biology leading to the B.A. degree requires a total of 120 credit hours, including 32 credit hours of BIOL courses. At least 12 credit hours of BIOL courses must be taken at UNC Charlotte. Biology courses at the 1000-level do not count toward major-level credit.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program. All Biology majors must take three hours of Writing Intensive (W) coursework in Biology at UNC Charlotte.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (32 credit hours)
**Foundation Courses (18 credit hours)**
- BIOL 2120 - General Biology I (3)
- BIOL 2130 - General Biology II (3)
- BIOL 2140L - General Biology Laboratory (2) (O,W)
- BIOL 3111 - Cell Biology (3)
- BIOL 3111L - Cell Biology Laboratory (1) (W)
- BIOL 3144 - Ecology (3)
- BIOL 3166 - Genetics (3)

**Physiology Course (3 credit hours)**
Select one of the following:
- BIOL 3272 - Plant Physiology (3)
- BIOL 3273 - Animal Physiology (3)

| BIOL 4272 - Comparative Animal Physiology (3) |

**Evolution-Oriented Course (3-4 credit hours)**
Select one of the following:
- BIOL 3000 - Special Topics in Biology (3) *(may include evolution-oriented topics)*
- BIOL 3222 - General Botany (3)
- BIOL 3231 - Invertebrate Zoology (4)
- BIOL 3233 - Vertebrate Zoology (4)
- BIOL 3235 - Biology of Insects (3)
- BIOL 3236 - General Zoology (3)
- BIOL 4000 - Special Topics in Biology (3) *(may include evolution-oriented topics)*
- BIOL 4040 - Stem Cells (3)
- BIOL 4111 - Evolution (3)
- BIOL 4235 - Mammalogy (4)
- BIOL 4242 - Biology of Birds (3)
- BIOL 4243 - Animal Behavior (3)
- BIOL 4244 - Conservation Biology (3) (W)
- BIOL 4260 - Population Genetics (3)
- BIOL 4272 - Comparative Animal Physiology (3)
- BIOL 4283 - Developmental Biology (3)
- BIOL 4293 - Comparative Vertebrate Anatomy (4)

**Laboratory Courses (minimum 2 credit hours)**
Select two of the following:
- BIOL 3144L - Ecology Laboratory (1)
- BIOL 3166L - Genetics Laboratory (1)
- BIOL 3202L - Horticulture Laboratory (1)
- BIOL 3222L - General Botany Laboratory (1)
- BIOL 3229 - Field Botany (3)
- BIOL 3231 - Invertebrate Zoology (4)
- BIOL 3233 - Vertebrate Zoology (4)
- BIOL 3234 - Field Entomology (3)
- BIOL 3236L - General Zoology Laboratory (1)
- BIOL 3239 - Comparative Vertebrate Anatomy (4)
- BIOL 3244 - Field Ecology (3)
- BIOL 3273L - Animal Physiology Laboratory (1) (W)
- BIOL 3900 - Undergraduate Research (1 to 3)
- BIOL 4121 - Biometry (4)
- BIOL 4144 - Advanced Ecology (4) (W)
- BIOL 4168 - Recombinant DNA Techniques (4) (W)
- BIOL 4235 - Mammalogy (4)
- BIOL 4242L - Biology of Birds Laboratory (1)
- BIOL 4244L - Conservation Biology Laboratory (1)
- BIOL 4250L - Microbiology Laboratory (1) (W)
- BIOL 4256L - Pathogenic Bacteriology Laboratory (1)
- BIOL 4257L - Microbial Physiology and Metabolism Lab (1)
- BIOL 4279L - Neurobiology Laboratory (1)
- BIOL 4293 - Comparative Vertebrate Anatomy (4)
- BIOL 4700 - Honors Research I (3)
- BIOL 4701 - Honors Research II (3) (O,W)
- BINF 3201 - Genomic Methods (4)

**Additional Biology Courses (5-6 credit hours)**
Select additional credit hours of Biology courses to reach 32 credit hours, excluding BIOL 1110, BIOL 1110L, BIOL 1115, BIOL 2259, BIOL 2259L, BIOL 2273, BIOL 2273L, BIOL 2274, BIOL 2274L, and BIOL 3271. Either CHEM 3165 or CHEM 4165 (but not both) may also count toward this requirement.
Related Courses (14 credit hours)
CHEM 1251 - General Chemistry I (3)
CHEM 1251L - General Chemistry I Laboratory (1)
CHEM 1252 - General Chemistry II (3)
CHEM 1252L - General Chemistry II Laboratory (1)
MATH 1100 - College Algebra (3)
or MATH 1103 - Precalculus Mathematics for Science and Engineering (3)
or MATH 1200 - Calculus I (3)
or MATH 1241 - Calculus I (3)
STAT 1220 - Elements of Statistics I (BUSN) (3)
or STAT 1221 - Elements of Statistics I (3)
or STAT 1222 - Introduction to Statistics (3)
or BINF 3121 - Statistics for Bioinformatics (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
Majors must earn a C or above in BIOL 2120 and BIOL 2130 before taking other Biology courses. Any student who earns less than a C may retake the course once, for a total of two attempts. After twice receiving a grade below C in BIOL 2120, BIOL 2130, or BIOL 2140L, students may not enroll in the course again and are ineligible for continuation in bachelor degree programs in Biology. Additionally, students who have two successive semesters with a cumulative GPA in Biology of less than 2.0 are ineligible for continuation in bachelor degree programs in Biology.

Bachelor of Science in Biology
The B.S. in Biology is recommended for students planning a career in an area of biology, or especially if planning to attend graduate school for a Master’s or Ph.D. degree. B.S. students have the option of designing their course of study to emphasize one subspecialty within the Biological Sciences. They may choose one of three concentrations: (1) Cell Biology/Physiology, (2) Ecology/Environmental Biology, or (3) Microbiology. Planning for one of the options should be done in consultation with an academic advisor.

Admission Requirements
Freshmen
- **Minimum GPA:** 2.0; students with GPA below 2.0 should consult with departmental advisor; students with prior credit earned at UNC Charlotte must have a minimum overall and a Biology GPA of 2.0.
- **Pre-Major/Prerequisite Courses:** Complete the following with minimum grades of C:
  - BIOL 2120 or BIOL 2130
  - CHEM 1251
  - CHEM 1251L
- **Declaration of Major:** Students are eligible to declare a Major in Biology when enrolled in the above courses.

Transfers
- **Minimum GPA:** 2.0
- **Pre-Major/Prerequisite Courses:** All incoming students begin as Pre-Biology and declare upper-division once requirements are met.
- **Transferable Credit Hours:** 24

Degree Requirements
The B.S. in Biology requires a total of 120 credit hours. In addition to the 32 credit hours of BIOL courses required for the B.A. in Biology degree, students working toward the B.S. degree are required to take additional credit hours in BIOL courses to reach a minimum of 44 credit hours.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program. All Biology majors must take 3 credit hours of Writing Intensive (W) coursework in Biology at UNC Charlotte.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (44 credit hours)

Foundation Courses (18 credit hours)
BIOL 2120 - General Biology I (3)
BIOL 2130 - General Biology II (3)
BIOL 2140L - General Biology Laboratory (2) (O,W)
BIOL 3111 - Cell Biology (3)
BIOL 3111L - Cell Biology Laboratory (1) (W)
BIOL 3144 - Ecology (3)
BIOL 3166 - Genetics (3)

Physiology Course (3 credit hours)
Select one of the following:
BIOL 3272 - Plant Physiology (3)
BIOL 3273 - Animal Physiology (3)
BIOL 4272 - Comparative Animal Physiology (3)

Evolution-Oriented Course (3-4 credit hours)
Select one of the following:
BIOL 3000 - Special Topics in Biology (3) *(may include evolution-oriented topics)*
BIOL 3222 - General Botany (3)
BIOL 3231 - Invertebrate Zoology (4)
BIOL 3233 - Vertebrate Zoology (4)
BIOL 3235 - Biology of Insects (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
Majors must earn a C or above in BIOL 2120 and BIOL 2130 before taking other Biology courses. Any student who earns less than a C may retake the course once, for a total of two attempts. After twice receiving a grade below C in BIOL 2120, BIOL 2130, or BIOL 2140L, students may not enroll in the course again and are ineligible for continuation in bachelor degree programs in Biology. Additionally, students who have two successive semesters with a cumulative GPA in Biology of less than 2.0 are ineligible for continuation in bachelor degree programs in Biology.

Bachelor of Science in Biology with Concentration in Cell Biology/Physiology
The B.S. in Biology is recommended for students planning a career in an area of biology, or especially if planning to attend graduate school for a Master's or Ph.D. degree. B.S. students have the option of designing their course of study to emphasize one subspecialty within the Biological Sciences. They may choose one of three concentrations: (1) Cell Biology/Physiology, (2) Ecology/Environmental Biology, or (3) Microbiology. Planning for one of the options should be done in consultation with an academic advisor.

Admission Requirements
Freshmen
- **Minimum GPA:** 2.0; students with GPA below 2.0 should consult with departmental advisor; students with prior credit earned at UNC Charlotte must have a minimum overall and a Biology GPA of 2.0.
- **Pre-Major/Prerequisite Courses:** Complete the following with minimum grades of C:
  - BIOL 2120 or BIOL 2130
  - CHEM 1251
  - CHEM 1251L
- **Declaration of Major:** Students are eligible to declare a Major in Biology when enrolled in the above courses.

Transfers
- **Minimum GPA:** 2.0
- **Pre-Major/Prerequisite Courses:** All incoming students begin as Pre-Biology and declare upper-division once requirements are met.
- **Transferable Credit Hours:** 24

Degree Requirements
The B.S. in Biology with a Concentration in Cell Biology/Physiology consists of 44 credit hours, including all required courses for a B.S. degree in Biology, plus an approved Physiology lab. The concentration also requires that students choose one course from each of the following topics areas: (1) Subcellular, (2) Structure and Function, and (3) Advanced Physiology.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program. All Biology majors must take three hours of Writing Intensive (W) coursework in Biology at UNC Charlotte.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

BIOI 2120 - General Biology I (3)
BIOI 2130 - General Biology II (3)
BIOI 2140L - General Biology Laboratory (2) (O, W)
BIOI 3111 - Cell Biology (3)
BIOI 3111L - Cell Biology Laboratory (1) (W)
BIOI 3144 - Ecology (3)
BIOI 3166 - Genetics (3)

Physiology Course and Lab (4 credit hours)
Select one of the following courses and its corresponding lab:
BIOI 3272 - Plant Physiology (3)
BIOI 3272L - Plant Physiology Laboratory (1)
BIOI 3273 - Animal Physiology (3)
BIOI 3273L - Animal Physiology Laboratory (1) (W)
BIOI 4272 - Comparative Animal Physiology (3)
BIOI 3273L - Animal Physiology Laboratory (1) (W)

Evolution-Oriented Course (3-4 credit hours)
Select one of the following:
BIOI 3000 - Special Topics in Biology (3) (may include evolution-oriented topics)
BIOI 3222 - General Botany (3)
BIOI 3231 - Invertebrate Zoology (4)
BIOI 3233 - Vertebrate Zoology (4)
BIOI 3235 - Biology of Insects (3)
BIOI 3236 - General Zoology (3)
BIOI 4000 - Special Topics in Biology (3) (may include evolution-oriented topics)
BIOI 4040 - Calculus (3)
BIOI 4111 - Evolution (3)
BIOI 4235 - Mammalogy (4)
BIOI 4242 - Biology of Birds (3)
BIOI 4243 - Animal Behavior (3)
BIOI 4244 - Conservation Biology (3) (W)
BIOI 4260 - Population Genetics (3)
BIOI 4272 - Comparative Animal Physiology (3)
BIOI 4283 - Developmental Biology (3)
BIOI 4293 - Comparative Vertebrate Anatomy (4)

Concentration Courses (9-10 credit hours)
Subcellular Elective Course (3 credit hours)
Select one of the following:
BIOI 4171 - Cell Physiology (3)
BIOI 4199 - Molecular Biology (3)
CHEM 4165 - Principles of Biochemistry I (3)

Structure and Function Elective Course (3-4 credit hours)
Select one of the following:
BIOI 4250 - Microbiology (3)
BIOI 4265 - Drugs: Molecular and Cellular Mechanisms (3)
BIOI 4293 - Comparative Vertebrate Anatomy (4)

Advanced Physiology Elective Course (3 credit hours)
Select one of the following:
BIOI 4251 - Immunology (3)
BIOI 4257 - Microbial Physiology and Metabolism (3)
BIOI 4276 - Cardiovascular Physiology (3)
BIOI 4277 - Endocrinology (3)
BIOI 4279 - Neurobiology (3)

Related Courses (22 credit hours)
CHEM 2131 - Organic Chemistry I (3)
CHEM 2131L - Organic Chemistry I Lab (1)
CHEM 2132 - Organic Chemistry II (3)
CHEM 2132L - Organic Chemistry II Lab (1)
PHYS 1101 - Introductory Physics I (3)
PHYS 1101L - Introductory Physics I Laboratory (1)
PHYS 1102 - Introductory Physics II (3)
PHYS 1102L - Introductory Physics II Laboratory (1)
MATH 1120 - Calculus (3)
MATH 1241 - Calculus I (3)
or equivalent Calculus course
STAT 1220 - Elements of Statistics I (BUSN) (3)
or STAT 1221 - Elements of Statistics I (3)
or STAT 1222 - Introduction to Statistics (3)
or BINF 3121 - Statistics for Bioinformatics (3)

Research/Honors Course (3 credit hours)
Students are encouraged to take one of the following courses under the direction of one of the Cell Biology or Physiology faculty:
BIOI 3900 - Undergraduate Research (3)
BIOI 4700 - Honors Research I (3)
BIOI 4701 - Honors Research II (3) (O, W)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Academic Advising
This course program should be planned in consultation with one of the Cell Biology/Physiology faculty advisors.

Grade Requirements
Majors must earn a C or above in BIOI 2120 and BIOI 2130 before taking other Biology courses. Any student who earns less than a C may retake the course once, for a total of two attempts. After twice receiving a grade below C in BIOI 2120, BIOI 2130, or BIOI 2140L, students may not enroll in the course again and are ineligible for continuation in bachelor degree programs in Biology. Additionally, students who have two successive semesters with a cumulative GPA in Biology of less than 2.0 are ineligible for continuation in bachelor degree programs in Biology.
Bachelor of Science in Biology with Concentration in Ecology/Environmental Biology

The B.S. in Biology is recommended for students planning a career in an area of biology, or especially if planning to attend graduate school for a Master’s or Ph.D. degree. B.S. students have the option of designing their course of study to emphasize one subspecialty within the Biological Sciences. They may choose one of three concentrations: (1) Cell Biology/Physiology, (2) Ecology/Environmental Biology, or (3) Microbiology. Planning for one of the options should be done in consultation with an academic advisor.

Admission Requirements

Freshmen

• Minimum GPA: 2.0; students with GPA below 2.0 should consult with departmental advisor; students with prior credit earned at UNC Charlotte must have a minimum overall and a Biology GPA of 2.0.

• Pre-Major/Prerequisite Courses: Complete the following with minimum grades of C:
  o BIOL 2120 or BIOL 2130
  o CHEM 1251
  o CHEM 1251L

• Declaration of Major: Students are eligible to declare a Major in Biology when enrolled in the above courses.

Transfers

• Minimum GPA: 2.0

• Pre-Major/Prerequisite Courses: All incoming students begin as Pre-Biology and declare upper-division once requirements are met.

• Transferable Credit Hours: 24

Degree Requirements

A B.S. degree in Biology with a Concentration in Ecology/Environmental Biology consists of 44 credit hours of biology courses, including all required courses for a B.S. degree in Biology. Students also take at least four courses in sub-areas of environmental biology.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program. All Biology majors must take three hours of Writing Intensive (W) coursework in Biology at UNC Charlotte.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (29-30 credit hours)

Foundation Courses (22 credit hours)

BIOL 2120 - General Biology I (3)
BIOL 2130 - General Biology II (3)
BIOL 2140L - General Biology Laboratory (2) (O,W)
BIOL 3111 - Cell Biology (3)
BIOL 3111L - Cell Biology Laboratory (1) (W)
BIOL 3144 - Ecology (3)
BIOL 3166 - Genetics (3)
BIOL 4121 - Biometry (4)

Physiology Course and Lab (4 credit hours)
Select one of the following courses and its corresponding lab:

BIOL 3272 - Plant Physiology (3)
BIOL 3272L - Plant Physiology Laboratory (1)

BIOL 3273 - Animal Physiology (3)
BIOL 3273L - Animal Physiology Laboratory (1) (W)

BIOL 4272 - Comparative Animal Physiology (3)
BIOL 3273L - Animal Physiology Laboratory (1) (W)

Evolution-Oriented Course (3-4 credit hours)
Select one of the following:

BIOL 3000 - Special Topics in Biology (3) (may include evolution-oriented topics)

BIOL 3222 - General Botany (3)
BIOL 3231 - Invertebrate Zoology (4)
BIOL 3233 - Vertebrate Zoology (4)
BIOL 3235 - Biology of Insects (3)
BIOL 3236 - General Zoology (3)
BIOL 4000 - Special Topics in Biology (3) (may include evolution-oriented topics)

BIOL 4040 - Stem Cells (3)
BIOL 4111 - Evolution (3)
BIOL 4235 - Mammalogy (4)
BIOL 4242 - Biology of Birds (3)
BIOL 4243 - Animal Behavior (3)
BIOL 4244 - Conservation Biology (3) (W)
BIOL 4260 - Population Genetics (3)
BIOL 4272 - Comparative Animal Physiology (3)
BIOL 4283 - Developmental Biology (3)
BIOL 4293 - Comparative Vertebrate Anatomy (4)

Concentration Courses (12-16 credit hours)
Select one sub-area below and complete four courses in that area:

Plant Ecology

BIOL 3202 - Horticulture (3)
BIOL 3229 - Field Botany (3)
BIOL 3234 - Field Entomology (3)
BIOL 4111 - Evolution (3)
BIOL 4144 - Advanced Ecology (4) (W)
BIOL 4250 - Microbiology (3)
ESCI 4210 - Soil Science (4)

Animal Ecology

BIOL 3231 - Invertebrate Zoology (4)
BIOL 3233 - Vertebrate Zoology (4)
BIOL 4235 - Mammalogy (4)
BIOL 3234 - Field Entomology (3)
BIOL 4111 - Evolution (3)
BIOL 4144 - Advanced Ecology (4) (W)
BIOL 4243 - Animal Behavior (3)
BIOL 4250 - Microbiology (3)

Environmental Assessment
BIOL 3229 - Field Botany (3)
BIOL 4000 - Special Topics in Biology (1 to 4)
BIOL 4144 - Advanced Ecology (4) (W)
BIOL 4250 - Microbiology (3)
ESCI 4210 - Soil Science (4)
ESCI 4140 - Hydrologic Processes (4)
ESCI 4155 - Fluvial Processes (4)
BIOL 4274 - Environmental Toxicology and Health (3)

Aquatic Ecology
BIOL 3231 - Invertebrate Zoology (4)
BIOL 4245 - Marine Biology (3)
BIOL 4274 - Environmental Toxicology and Health (3)
BIOL 4144 - Advanced Ecology (4) (W)
BIOL 4250 - Microbiology (3)
CHEM 3111 - Quantitative Analysis (4)
ESCI 4140 - Hydrologic Processes (4)
ESCI 4155 - Fluvial Processes (4)

Related Courses (22-25 credit hours)
ESCI 1101 - Earth Sciences-Geography (3) (recommended)
CHEM 2131 - Organic Chemistry I (3)
CHEM 2131L - Organic Chemistry I Lab (1)
CHEM 2132 - Organic Chemistry I (3)
CHEM 2132L - Organic Chemistry II Lab (1)
PHYS 1101 - Introductory Physics I (3)
or PHYS 2101 Physics for Science and Engineering I (3)
PHYS 1101L - Introductory Physics I Laboratory (1)
or PHYS 2101L - Physics for Science and Engineering I Laboratory (1)
PHYS 1102 - Introductory Physics II (3)
or PHYS 2102 - Physics for Science and Engineering II (3)
PHYS 1102L - Introductory Physics II Laboratory (1)
or PHYS 2102L - Physics for Science and Engineering II Laboratory (1)
MATH 1120 - Calculus (3)
or MATH 1241 - Calculus I (3)
or equivalent Calculus course
STAT 1220 - Elements of Statistics I (BUSN) (3)
or STAT 1221 - Elements of Statistics I (3)
or STAT 1222 - Introduction to Statistics (3)
or BINF 3121 - Statistics for Bioinformatics (3)

Research/Honors Course (3 credit hours)
Students are encouraged to take one of the following courses under the direction of one of the Environmental Biology faculty:
BIOL 3900 - Undergraduate Research (3)
BIOL 4700 - Honors Research I (3)
BIOL 4701 - Honors Research II (3) (O,W)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Academic Advising
This course program should be planned in consultation with one of the Ecology/Environmental Biology faculty.

Grade Requirements
Majors must earn a C or above in BIOL 2120 and BIOL 2130 before taking other Biology courses. Any student who earns less than a C may retake the course once, for a total of two attempts. After twice receiving a grade below C in BIOL 2120, BIOL 2130, or BIOL 2140L, students may not enroll in the course again and are ineligible for continuation in bachelor degree programs in Biology. Additionally, students who have two successive semesters with a cumulative GPA in Biology of less than 2.0 are ineligible for continuation in bachelor degree programs in Biology.

Bachelor of Science in Biology with Concentration in Microbiology
The B.S. in Biology is recommended for students planning a career in an area of biology, or especially if planning to attend graduate school for a Master’s or Ph.D. degree. B.S. students have the option of designing their course of study to emphasize one subspecialty within the Biological Sciences. They may choose one of three concentrations: (1) Cell Biology/Physiology, (2) Ecology/Environmental Biology, or (3) Microbiology. Planning for one of the options should be done in consultation with an academic advisor.

Admission Requirements
Freshmen
- Minimum GPA: 2.0; students with GPA below 2.0 should consult with departmental advisor; students with prior credit earned at UNC Charlotte must have a minimum overall and a Biology GPA of 2.0.
- Pre-Major/Prerequisite Courses: Complete the following with minimum grades of C:
  - BIOL 2120 or BIOL 2130
  - CHEM 1251
  - CHEM 1251L
- Declaration of Major: Students are eligible to declare a Major in Biology when enrolled in the above courses.
Transfers
- Minimum GPA: 2.0
- Pre-Major/Prerequisite Courses: All incoming students begin as Pre-Biology and declare upper-division once requirements are met.
- Transferable Credit Hours: 24

Degree Requirements
A Major in Biology leading to a B.S. degree with a Concentration in Microbiology consists of 44 credit hours of BIOL courses, including all of the required courses for a B.S. degree in Biology and Microbiology-specific coursework.

General Education Courses (37-43 credit hours)
For details on required courses, refer to the General Education Program. All Biology majors must take three hours of Writing Intensive (W) coursework in Biology at UNC Charlotte.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (25-26 credit hours)

**Foundation Courses (18 credit hours)**
- BIOL 2120 - General Biology I (3)
- BIOL 2130 - General Biology II (3)
- BIOL 2140L - General Biology Laboratory (2) (O,W)
- BIOL 3111 - Cell Biology (3)
- BIOL 3111L - Cell Biology Laboratory (1) (W)
- BIOL 3144 - Ecology (3)
- BIOL 3166 - Genetics (3)

**Physiology Course and Lab (4 credit hours)**
Select one of the following courses and its corresponding lab:
- BIOL 3272 - Plant Physiology (3)
- BIOL 3272L - Plant Physiology Laboratory (1)
- BIOL 3273 - Animal Physiology (3)
- BIOL 3273L - Animal Physiology Laboratory (1) (W)
- BIOL 4272 - Comparative Animal Physiology (3)
- BIOL 3273L - Animal Physiology Laboratory (1) (W)

**Evolution-Oriented Course (3-4 credit hours)**
Select one of the following:
- BIOL 3000 - Special Topics in Biology (3) *(may include evolution-oriented topics)*
- BIOL 3222 - General Botany (3)
- BIOL 3231 - Invertebrate Zoology (4)
- BIOL 3233 - Vertebrate Zoology (4)
- BIOL 3235 - Biology of Insects (3)
- BIOL 3236 - General Zoology (3)
- BIOL 4000 - Special Topics in Biology (3) *(may include evolution-oriented topics)*
- BIOL 4040 - Stem Cells (3)
- BIOL 4111 - Evolution (3)
- BIOL 4235 - Mammalogy (4)
- BIOL 4242 - Biology of Birds (3)
- BIOL 4243 - Animal Behavior (3)
- BIOL 4244 - Conservation Biology (3) (W)

**Concentration Courses (24 credit hours)**
- BIOL 4250 - Microbiology (3)
- BIOL 4250L - Microbiology Lab (1) (W)
- BIOL 4257 - Microbial Physiology and Metabolism (3)
- BIOL 4251 - Immunology (3)
- BIOL 4256 - Pathogenic Bacteriology (3)
- BIOL 4255 - Bacterial Genetics (3)
  or BIOL 4199 - Molecular Biology (3)

**Concentration Elective Courses (6 credit hours)**
Select 6 credit hours from the following (at least one of which must include a laboratory):
- BIOL 3000 - Special Topics in Biology (3) *(may include evolution-oriented topics)*
- BIOL 3222 - General Botany (3)
- BIOL 3231 - Invertebrate Zoology (4)
- BIOL 3233 - Vertebrate Zoology (4)
- BIOL 3235 - Biology of Insects (3)
- BIOL 3236 - General Zoology (3)
  or BIOL 4199 - Molecular Biology (3)
- BIOL 4257 - Microbial Physiology and Metabolism (3)
- BIOL 4251 - Immunology (3)
- BIOL 4256 - Pathogenic Bacteriology (3)
- BIOL 4255 - Bacterial Genetics (3)
  or BIOL 4199 - Molecular Biology (3)

**Related Courses (22 credit hours)**
- CHEM 2131 - Organic Chemistry I (3)
- CHEM 2131L - Organic Chemistry I Lab (1)
- CHEM 2132 - Organic Chemistry II (3)
- CHEM 2132L - Organic Chemistry II Lab (1)
- PHYS 1101 - Introductory Physics I (3)
  or PHYS 2101 - Physics for Science and Engineering I (3)
- PHYS 1101L - Introductory Physics I Laboratory (1)
  or PHYS 2101L - Physics for Science and Engineering I Laboratory (1)
- PHYS 1102 - Introductory Physics II (3)
  or PHYS 2102 - Physics for Science and Engineering II (3)
- PHYS 1102L - Introductory Physics II Laboratory (1)
  or PHYS 2102L - Physics for Science and Engineering II Laboratory (1)
- MATH 1120 - Calculus (3)
  or MATH 1241 - Calculus I (3)
  or equivalent Calculus course
- STAT 1220 - Elements of Statistics I (BUSN) (3)
  or STAT 1221 - Elements of Statistics I (3)
  or STAT 1222 - Introduction to Statistics (3)
  or BINF 3121 - Statistics for Bioinformatics (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours
Academic Advising
This course program should be planned in consultation with one of the Microbiology faculty.

Grade Requirements
Majors must earn a C or above in BIOL 2120 and BIOL 2130 before taking other Biology courses. Any student who earns less than a C may retake the course once, for a total of two attempts. After twice receiving a grade below C in BIOL 2120, BIOL 2130, or BIOL 2140L, students may not enroll in the course again and are ineligible for continuation in bachelor degree programs in Biology. Additionally, students who have two successive semesters with a cumulative GPA in Biology of less than 2.0 are ineligible for continuation in bachelor degree programs in Biology.

Minor in Biology
A Minor in Biology requires 18 credit hours in biology courses. Students are responsible for meeting all Biology course prerequisites and corequisites. At least 6 credit hours of BIOL courses must be taken at UNC Charlotte.

Minor Requirements
Select one of the two options to complete the Minor in Biology.

Option 1
Foundation Courses (8 credit hours)
BIOL 2120 - General Biology I (3)
BIOL 2130 - General Biology II (3)
BIOL 2140L - General Biology Lab (2)

Restricted Elective Courses (4-8 credit hours)
Lab Courses
Select at least one of the following:
BIOL 2259L - Fundamentals of Microbiology Laboratory (1)
BIOL 2273L - Human Anatomy and Physiology Laboratory (1)
BIOL 2274L - Human Anatomy and Physiology II Laboratory (1)
BIOL 3111L - Cell Biology Laboratory (1) (W)
BIOL 3144L - Ecology Laboratory (1) (W)
BIOL 3166L - Genetics Laboratory (1) (W)

BIOL 4293 - Comparative Vertebrate Anatomy (4)

Lecture Course Above 3000-Level
Select at least one of the following:
BIOL 3000 - Special Topics in Biology (1 to 4)
BIOL 3144 - Ecology (3)
BIOL 3202 - Horticulture (3) (W)
BIOL 3111 - Cell Biology (3)
BIOL 3161 - Introduction to Biotechnology (3)
BIOL 3166 - Genetics (3)
BIOL 3215 - Economic Botany (3) (W)
BIOL 3222 - General Botany (3)
BIOL 3229 - Field Botany (3)
BIOL 3231 - Invertebrate Zoology (4)
BIOL 3233 - Vertebrate Zoology (4)
BIOL 3234 - Field Entomology (3)
BIOL 3235 - Biology of Insects (3)
BIOL 3236 - General Zoology (3)
BIOL 3271 - Human Body in Health and Disease (3)
BIOL 3272 - Plant Physiology (3)
BIOL 3273 - Animal Physiology (3)
BIOL 4000 - Special Topics in Biology (1 to 4)
BIOL 4121 - Biometry (4)
BIOL 4144 - Advanced Ecology (4) (W)
BIOL 4168 - Recombinant DNA Techniques (4) (W)
BIOL 4233 - Parasitology (3)
BIOL 4235 - Mammalogy (4)
BIOL 4242 - Biology of Birds (3)
BIOL 4243 - Animal Behavior (3)
BIOL 4244 - Conservation Biology (3) (W)
BIOL 4245 - Marine Biology (3)
BIOL 4250 - Microbiology (3)
BIOL 4255 - Bacterial Genetics (3)
BIOL 4256 - Pathogenic Bacteriology (3)
BIOL 4257 - Microbial Physiology and Metabolism (3)
BIOL 4279 - Neurobiology (3)
BIOL 4293 - Comparative Vertebrate Anatomy (4)

Unrestricted Elective Courses (2-6 credit hours)
Select any additional BIOL courses, excluding BIOL 1110, BIOL 1110L, and BIOL 1115, to meet the credit hour requirements for the Minor in Biology. Either CHEM 3165 or CHEM 4165 (but not both) may also count toward the Minor in Biology.

Option 2
Foundation Courses (7 credit hours)
BIOL 1110 - Principles of Biology I (3)
BIOL 1115 - Principles of Biology II (3)
BIOL 1110L - Principles of Biology I Lab (1)

Restricted Elective Courses (4-8 credit hours)
Lab Courses
Select at least one of the following:
BIOL 2259L - Fundamentals of Microbiology Laboratory (1)
BIOL 2273L - Human Anatomy and Physiology Laboratory (1)
BIOL 2274L - Human Anatomy and Physiology II Laboratory (1)
BIOL 3111L - Cell Biology Laboratory (1) (W)
BIOL 3144L - Ecology Laboratory (1) (W)
BIOL 3166L - Genetics Laboratory (1) (W)
BIOL 3202L - Horticulture Laboratory (1)
BIOL 3222L - General Botany Laboratory (1)
BIOL 3229 - Field Botany (3)
BIOL 3233 - Vertebrate Zoology (4)
BIOL 3234 - Field Entomology (3)
BIOL 3236L - General Zoology Laboratory (1)
BIOL 3244 - Field Ecology (3)
BIOL 3272L - Plant Physiology Laboratory (1)
BIOL 3273L - Animal Physiology Laboratory (1) (W)
BIOL 4121 - Biometry (4)
BIOL 4144 - Advanced Ecology (4) (W)
BIOL 4168 - Recombinant DNA Techniques (4) (W)
BIOL 4235 - Mammalogy (4)
BIOL 4242L - Biology of Birds Laboratory (1)
BIOL 4244L - Conservation Biology Laboratory (1)
BIOL 4250L - Microbiology Laboratory (1) (W)
BIOL 4256L - Pathogenic Bacteriology Laboratory (1) (W)
BIOL 4257L - Microbial Physiology and Metabolism Lab (1)
BIOL 4279L - Neurobiology Laboratory (1)
BIOL 4293 - Comparative Vertebrate Anatomy (4)

Lecture Course Above 3000-Level
Select at least one of the following:
BIOL 3000 - Special Topics in Biology (1 to 4)
BIOL 3111 - Cell Biology (3)
BIOL 3144 - Ecology (3)
BIOL 3161 - Introduction to Biotechnology (3)
BIOL 3166 - Genetics (3)
BIOL 3202 - Horticulture (3) (W)
BIOL 3215 - Economic Botany (3) (W)
BIOL 3222 - General Botany (3)
BIOL 3229 - Field Botany (3)
BIOL 3231 - Invertebrate Zoology (4)
BIOL 3233 - Vertebrate Zoology (4)
BIOL 3234 - Field Entomology (3)
BIOL 3235 - Biology of Insects (3)
BIOL 3236 - General Zoology (3)
BIOL 3271 - Human Body in Health and Disease (3)
BIOL 3272 - Plant Physiology (3)
BIOL 3273 - Animal Physiology (3)
BIOL 4000 - Special Topics in Biology (1 to 4)
BIOL 4121 - Biometry (4)
BIOL 4144 - Advanced Ecology (4) (W)
BIOL 4168 - Recombinant DNA Techniques (4) (W)
BIOL 4233 - Mammalogy (4)
BIOL 4242 - Biology of Birds (3)
BIOL 4243 - Animal Behavior (3)
BIOL 4244 - Conservation Biology (3) (W)
BIOL 4245 - Marine Biology (3)
BIOL 4250 - Microbiology (3)
BIOL 4255 - Bacterial Genetics (3)
BIOL 4256 - Pathogenic Bacteriology (3)
BIOL 4257 - Microbial Physiology and Metabolism (3)
BIOL 4279 - Neurobiology (3)
BIOL 4293 - Comparative Vertebrate Anatomy (4)

Unrestricted Elective Courses (3-7 credit hours)
Select any additional BIOL courses, excluding BIOL 2120, BIOL 2130, and BIOL 2140L, to meet the credit hour requirements for the Minor in Biology. Either CHEM 3165 or CHEM 4165 (but not both) may also count toward the Minor in Biology.

Minor Total = 18 Credit Hours

Grade Requirements
A GPA of at least 2.0 in the minor is required.

Honors Program in Biology
The Honors Program is a research program for students majoring in Biology. Students interested in this program and who meet the admissions requirements should contact the Honors Coordinator in the Department of Biological Sciences.

Admission Requirements
Students are invited to participate in the program during their Junior year by the Department Honors Committee. Students must have a 3.2 overall GPA, a 3.4 GPA in BIOL courses and have completed BIOL 3111 with a grade of B or above to be eligible to apply for the Honors in Biological Sciences program. An Honors advisor and a supervisory committee are appointed for each student.

Required Courses
To graduate with Honors, students must complete the following courses with grades of A:

BIOL 4601 Honors Seminar (2)
BIOL 4700 Honors Research I (3)
BIOL 4701 Honors Research II (3) (O,W)

Certification Requirements
A cumulative GPA of 3.2 and a GPA of 3.4 or above in BIOL courses must be maintained. An Honors thesis is required and the student must present the results of their project in an appropriate forum. The honors notation will appear on a student’s official transcript.

Cooperative Education Program
Students majoring in Biology may obtain practical work experience while pursuing their degrees. The Cooperative Education Program allows qualified students either to alternate semesters of academic study with semesters of full-time work experience or to combine part-time academic study and part-time work during the same semester. Students who are in good standing with the University, have a minimum overall GPA of 2.5, and have completed 30 credit hours are eligible to apply. Transfer students are required to complete 12 credit hours at the University prior to application. The work experience is arranged by the University Career Center and must be approved by the Department of Biological Sciences. Placements are based on a student’s academic interests and on the availability of appropriate positions and are carried out under the supervision of a Biology faculty member who serves as co-op advisor. Work semesters are followed by participation in the Biology Cooperative Education Seminar.

Early Entry: Master of Science in Biology
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before
Completion of the baccalaureate degree.

**Admission Requirements**
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

**Continued Enrollment Requirements**
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

**Double-Counted Courses**
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

**More Information**
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

---

**Biotechnology**

**Undergraduate Programs**
- **Minor in Biotechnology**
  
The Minor in Biotechnology program is an interdisciplinary program housed within the College of Liberal Arts & Sciences and is designed for students interested in careers in the biotechnology field. The Minor in Biotechnology allows students to learn about the use of living systems and their components to resolve a problem or generate a product.

**Minor in Biotechnology**
To obtain a Minor in Biotechnology, students complete a series of required and optional interdisciplinary courses offered in the Departments of Biological Sciences, Chemistry, and Bioinformatics and Genomics, as well as complete a biotechnology-based internship in a regional government, industry, or academic laboratory. Students have some flexibility to choose courses that reflect their specific area of emphasis within the biotechnology field.

**Admission Requirements**
Students declare their intention to obtain this minor by meeting with the Biotechnology Minor Program Coordinator, typically at the beginning of their Junior year. A maximum of 9 credit hours applied towards a major degree program can also be applied towards the Minor in Biotechnology. The number of participating students is determined by the number of available internship positions.

**Minor Requirements (for Biology majors)**
The Minor in Biotechnology requires the completion of a minimum of 18 credit hours.

**Required Courses**
- BIOL 4405 Internship/Laboratory Research (1 to 3)
  or BIOL 4701 - Honors Research II (3) (O,W)
- BIOL 4162 - Advanced Biotechnology I (3) (W)
  or BIOL 4171 - Cell Physiology (3)
  or BIOL 4199 - Molecular Biology (3)

**Elective Courses**

**Group 1**
Select two or more of the following:
- BIOL 3161 - Introduction to Biotechnology (3)
- BIOL 4000 - Special Topics in Biology (3) (Advanced Immunology Technology)
- BIOL 4000 - Special Topics in Biology (3) (Advanced Physiology)
- BIOL 4000 - Special Topics in Biology (3) (Ecotoxicology)
- BIOL 4162 - Advanced Biotechnology I (3) (W)
- BIOL 4163 - Advanced Biotechnology II (3)

**Minor Total = 18 Credit Hours**

**Grade Requirements**
Students must have at least an overall GPA of 3.0 and a 3.0 GPA in their major to participate in the program.

---

**Capitalism Studies**
capitalismstudies.uncc.edu

**Undergraduate Programs**
- **Minor in Capitalism Studies**

Capitalism Studies is an interdisciplinary approach to the study of the history and present-day workings of the modern global economy.

**Minor in Capitalism Studies**
The purpose of the Minor in Capitalism Studies is to encourage students to gain a broad, well-rounded understanding of business, labor, government, and economics, by considering those subjects from multiple disciplines, across the social sciences and humanities. By demanding an interdisciplinary perspective, the minor requires students to combine quantitative and qualitative analysis; it encourages not only numeracy and financial literacy, but also historical, institutional, ethical, and cultural perspectives. It is designed to prepare students to work in a wide range of occupations in business, government, and the non-profit sector, and for the obligations of state, national, and global citizenship, in the 21st century.

**Admission Requirements**
The minor is open to all students at UNC Charlotte.

**Minor Requirements**

Minor Total = 18 Credit Hours

Grade Requirements
Students are required to complete the Introductory courses (CAPI 2100; and ECON 1101 or ECON 2101) with grades of C or above. An overall GPA of 2.0 in all courses that are counted toward the minor is also required, and no courses counted toward the minor may be taken as pass/no credit.

Undergraduate Programs
- **B.A. in Chemistry**
  - Honors Program
  - Teacher Licensure
- **B.S. in Chemistry**
  - Biochemistry
  - Honors Program
- **Minor in Chemistry**
- **Early Entry: M.S. in Chemistry**

Chemistry is a discipline fundamental to a wide variety of careers in industry, research, and the allied health fields. A strong foundation in chemistry is necessary for careers in medicine, molecular biology, biochemistry, industrial or government research, pharmacy, high school teaching, and chemical engineering. A background in chemistry may also be useful for careers in chemical sales, industrial management, business administration, and environmental management.

Degree Programs
The Department of Chemistry offers two B.S. in Chemistry degree programs approved by the American Chemical Society (ACS), two non-ACS-certified B.S. degree programs and a research-based M.S. degree, which provide the background necessary for a career in industry or for further graduate studies in chemistry and related fields. In addition, a B.A. in Chemistry degree program is available for students who plan to pursue a career in chemical industry, secondary education, or professional studies in areas such as medicine, dentistry, veterinary medicine, and optometry. The Minor in Chemistry is offered for students who desire some experience in chemistry as an adjunct to their major. Programs leading to careers in pharmacy and chemical engineering are available in cooperation with other institutions. Please see the "Preparation for Professional Schools" section in this Catalog for details.

Academic Advising
Students are urged to consult with their academic advisors every semester. Students should work with their academic advisors to develop a long-range plan for academic progress rather than merely selecting courses on a semester-by-semester basis.

Bachelor of Arts in Chemistry
The B.A. in Chemistry is recommended for students preparing for professional schools, a career in chemistry, and secondary teaching...
Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0; students with prior credit earned at UNC Charlotte must have a minimum overall and Chemistry GPA of 2.0
- Declaration of Major: Students are eligible to declare a B.A. in Chemistry major upon admission to UNC Charlotte
- Transferable Credit Hours: 24

Degree Requirements
A Major in Chemistry leading to the B.A. degree consists of a minimum of 32 credit hours of chemistry courses, 6 credit hours of mathematics courses, and 8 credit hours of physics courses.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program. Students with a Major in Chemistry should plan on taking the following courses that meet both general education and major requirements:

- MATH 1241 - Calculus I (3)
- MATH 1242 - Calculus II (3)
- CHEM 1251 - General Chemistry I (3)
- CHEM 1251L - General Chemistry I Laboratory (1)
- CHEM 1252 - General Chemistry II (3)
- CHEM 1252L - General Chemistry II Laboratory (1)
- CHEM 4695 - Chemistry Seminar II (1) (O, W)
- CHEM 4696 - Chemistry Seminar (1) (O, W)

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (32 credit hours)
- CHEM 1251 - General Chemistry I (3)
- CHEM 1251L General Chemistry I Lab (1)
- CHEM 1252 - General Chemistry II (3)
- CHEM 1252L - General Chemistry II Lab (1)
  or CHEM 1253L - Introduction to Modern Laboratory Methods (1)
- CHEM 2131 - Organic Chemistry I (3)
- CHEM 2131L - Organic Chemistry I Lab (1)
- CHEM 2132 - Organic Chemistry II (3)
- CHEM 2132L - Organic Chemistry II Lab (1)
  or CHEM 2136L - Organic Chemistry Lab (1)
- CHEM 2141 - Survey of Physical Chemistry (3)
- CHEM 3111 - Quantitative Analysis (4)
- CHEM 3121 - Inorganic Chemistry (3)
- CHEM 3695 - Chemistry Seminar (1) (W)
- CHEM 4695 - Chemistry Seminar (1) (O, W)
- CHEM 4696 - Chemistry Seminar (1) (O, W)

Restricted Elective Courses (3 credit hours)
Select from the following:
- CHEM 3112 - Modern Separation Techniques (4)
- CHEM 3113 - Survey of Instrumental Methods of Analysis (4)
- CHEM 3141 - Physical Chemistry I (3)
- CHEM 3141L - Physical Chemistry I Laboratory (1)
- CHEM 3142 - Physical Chemistry II (3)
- CHEM 3142L - Physical Chemistry II Laboratory (1)

Elective Course Notes:
- Pre-Professional Studies
Students majoring in Chemistry who are planning future studies in medicine, dentistry, or other allied health professions should choose CHEM 4165 and take as electives BIOL 2120 and BIOL 2130. At least one additional BIOL course at the 3000- or 4000-level is recommended.

Careers in Chemical Industry
Students planning to pursue employment in chemical industry or other careers requiring a background in chemistry should choose CHEM 3113 or CHEM 4111 as a chemistry elective.

Related Courses (14 credit hours)
- Mathematics Courses (6 hours)
  - MATH 1241 - Calculus I (3)
  - MATH 1242 - Calculus II (3)

- Physics Courses (8 hours)
  Select a sequence of four courses from one of the following options:
  
Option 1
- PHYS 1101 - Introductory Physics I (3)
- PHYS 1101L - Introductory Physics I Lab (1)
- PHYS 1102 - Introductory Physics II (3)
- PHYS 1102L - Introductory Physics II Lab (1)

Option 2
- PHYS 2101 - Physics for Science and Engineering I (3)
- PHYS 2101L - Physics for Science and Engineering I Lab (1)
- PHYS 2102 - Physics for Science and Engineering II (3)
- PHYS 2102L - Physics for Science and Engineering II Lab (1)

Option 3
- PHYS 2101 - Physics for Science and Engineering I (3)
- PHYS 2101L - Physics for Science and Engineering I Lab (1)
- PHYS 1102 - Introductory Physics II (3)
- PHYS 1102L - Introductory Physics II Lab (1)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours
Grade and Course Progression Requirements
Students who have declared a major in Chemistry remain in good academic standing within the department if the following criteria are met:

- The Chemistry GPA remains at or above 2.0
- Progression through CHEM 1251, CHEM 1251L, CHEM 1252, CHEM 1252L, CHEM 2131, CHEM 2131L, CHEM 2132, CHEM 2132L and CHEM 3111 occurs in no more than two attempts per course

A student whose Chemistry GPA is below 2.0 is placed on provisional continuation status. Should the Chemistry GPA remain below the required level after three successive semesters, the student is ineligible for continuation in bachelor degree programs in Chemistry. Students may declare the Chemistry major again if their Chemistry GPA rises to the requisite level if they were previously dropped from the major.

Students attempting CHEM 1251, CHEM 1251L, CHEM 1252, CHEM 1252L, CHEM 2131, CHEM 2131L, CHEM 2132, CHEM 2132L and CHEM 3111 for the third time are placed on provisional continuation status. Students who earn a grade of D, F or W in the third attempt are ineligible for continuation in bachelor degree programs in Chemistry.

Additionally, students must earn a C or above in all required chemistry courses for the major, including the chemistry elective course required for the B.A. degree. A student may petition for a one-time exemption to this requirement.

A minimum chemistry GPA of 2.0 is required to graduate.

Bachelor of Arts in Chemistry with Teacher Licensure
To meet North Carolina requirements to teach Chemistry at the secondary level (grades 9-12), students must complete a Major in Chemistry and a Minor in Secondary Education. The Major in Chemistry leading to the B.A. degree consists of 32 credit hours in chemistry courses.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0; students with prior credit earned at UNC Charlotte must have a minimum overall and Chemistry GPA of 2.0
- Declaration of Major: Students are eligible to declare a B.A. in Chemistry major upon admission to UNC Charlotte
- Other: Students interested in pursuing teaching licensure should consult an undergraduate advisor in the College of Education’s Office of Teacher Education Advising and Licensure (TEAL) for admission requirements and a detailed planning sheet of their professional education coursework. Licensure applications also are the responsibility of TEAL.
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-43 credit hours)
For details on required courses, refer to the General Education Program. Students with a Major in Chemistry should plan on taking the following courses that meet both general education and major requirements:

- MATH 1241 - Calculus I (3)
- MATH 1242 - Calculus II (3)
- CHEM 1251 - General Chemistry I (3)
- CHEM 1251L - General Chemistry I Laboratory (1)
- CHEM 1252 - General Chemistry II (3)
- CHEM 1252L - General Chemistry II Laboratory (1)
- CHEM 4695 - Chemistry Seminar II (1) (O, W)
- CHEM 4696 - Chemistry Seminar (1) (O, W)

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (29 credit hours)
- CHEM 1251 - General Chemistry I (3)
- CHEM 1251L General Chemistry I Lab (1)
- CHEM 1252 - General Chemistry II (3)
- CHEM 1252L - General Chemistry II Lab (1)
- CHEM 2131 - Organic Chemistry I (3)
- CHEM 2131L - Organic Chemistry I Lab (1)
- CHEM 2132 - Organic Chemistry II (3)
- CHEM 2132L - Organic Chemistry II Lab (1)
- CHEM 2141 - Survey of Physical Chemistry (3)
- CHEM 3111 - Quantitative Analysis (4)
- CHEM 3121 - Inorganic Chemistry (3)
- CHEM 3695 - Chemistry Seminar (1) (W)
- CHEM 4695 - Chemistry Seminar (1) (O, W)
- CHEM 4696 - Chemistry Seminar (1) (O, W)

Restricted Elective Courses (3 credit hours)
Select one of the following:
- CHEM 3112 - Modern Separation Techniques (4)
- CHEM 3113 - Survey of Instrumental Methods of Analysis (4)
- CHEM 3141 - Physical Chemistry I (3)
- CHEM 3141L - Physical Chemistry I Laboratory (1)
- CHEM 3142 - Physical Chemistry II (3)
- CHEM 3142L - Physical Chemistry II Laboratory (1)
- CHEM 4111 - Instrumental Analysis (4)
- CHEM 4121 - Advanced Inorganic Chemistry (4)
- CHEM 4133 - Methods of Organic Structure Determination (2)
- CHEM 4134 - Organic Reaction Mechanisms (2)
- CHEM 4135 - Concepts and Techniques in Organic Synthesis (2)
- CHEM 4165 - Principles of Biochemistry I (3)
- CHEM 4165L - Principles of Biochemistry I Laboratory (1)
- CHEM 4166 - Principles of Biochemistry II (3)
- CHEM 4167 - Structure and Mechanism in Protein Chemistry (3)

Mathematics Courses (6 credit hours)
- MATH 1241 - Calculus I (3)
- MATH 1242 - Calculus II (3)
Physics Courses (8 credit hours)
Select one of the following options:

**Option 1**
- PHYS 1101 - Introductory Physics I (3)
- PHYS 1101L - Introductory Physics I Lab (1)
- PHYS 1102 - Introductory Physics II (3)
- PHYS 1102L - Introductory Physics II Lab (1)

**Option 2**
- PHYS 2101 - Physics for Science and Engineering I (3)
- PHYS 2101L - Physics for Science and Engineering I Lab (1)
- PHYS 2102 - Physics for Science and Engineering II (3)
- PHYS 2102L - Physics for Science and Engineering II Lab (1)

**Option 3**
- PHYS 2101 - Physics for Science and Engineering I (3)
- PHYS 2101L - Physics for Science and Engineering I Lab (1)
- PHYS 1102 - Introductory Physics II (3)
- PHYS 1102L - Introductory Physics II Lab (1)

Geography and Earth Sciences Courses (4 credit hours)
Select one of the following courses and its corequisite laboratory:

- ESCI 1101 - Earth Sciences-Geography (3)
- ESCI 1101L - Earth Sciences-Geography Lab (1)
- GEOL 1200 - Physical Geology (3)
- GEOL 1200L - Physical Geology Lab (1)

Minor in Secondary Education (33 credit hours)
For details on required courses, refer to Minor in Secondary Education program.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120-128 Credit Hours

Grade and Course Progression Requirements
Students who have declared a major in Chemistry remain in good academic standing within the department if the following criteria are met:

- The Chemistry GPA remains at or above 2.0
- Progression through CHEM 1251, CHEM 1251L, CHEM 1252, CHEM 1252L, CHEM 2131, CHEM 2131L, CHEM 2132, CHEM 2132L and CHEM 3111 occurs in no more than two attempts per course

A student whose Chemistry GPA is below 2.0 is placed on provisional continuation status. Should the Chemistry GPA remain below the required level after three successive semesters, the student is ineligible for continuation in bachelor degree programs in Chemistry. Students may declare the Chemistry major again if their Chemistry GPA rises to the requisite level if they were previously dropped from the major.

Students attempting CHEM 1251, CHEM 1251L, CHEM 1252, CHEM 1252L, CHEM 2131, CHEM 2131L, CHEM 2132, CHEM 2132L and CHEM 3111 for the third time are placed on provisional continuation status. Students who earn a grade of D, F or W in the third attempt are ineligible for continuation in bachelor degree programs in Chemistry.

Additionally, students must earn a C or above in all required chemistry courses for the major, including the chemistry elective required for the B.A. degree. A student may petition for a one-time exemption to this requirement.

Bachelor of Science in Chemistry
The B.S. degree is recommended for students planning to begin careers as chemists with the baccalaureate degree and those preparing for graduate study in chemistry.

Admission Requirements
**Freshmen**
- **Minimum GPA:** 2.0; students with prior credit earned at UNC Charlotte must have a minimum overall and Chemistry GPA of 2.0
- **Prerequisite Courses:** Complete the following with minimum grades of C:
  - CHEM 2132 or CHEM 3111
  - MATH 1242
  - PHYS 2102
  - PHYS 2102L
- **Declaration of Major:** Students are eligible to declare a Major in Chemistry upon passing MATH 1242, PHYS 2102, and PHYS 2102L; and earning a grade of C or above in CHEM 2132 or CHEM 3111

**Transfers**
- **Minimum GPA:** 2.0
- **Pre-Major/Prerequisite Courses:** Complete the following with minimum grades of C:
  - CHEM 2132 or CHEM 3111
  - MATH 1242
  - PHYS 2102
  - PHYS 2102L
- **Declaration of Major:** Transfer students may declare the major if the above requirements were met at their previous institution(s)
- **Transferable Credit Hours:** 24

**Degree Requirements**
A B.S. in Chemistry requires a total of 120 credit hours. Students may choose from the ACS-certified B.S. degree or the non-certified degree.
The ACS-certified B.S. in Chemistry degree consists of a minimum of 46 credit hours of chemistry courses, 12 credit hours of mathematics courses, and 8 credit hours of physics courses. The non-certified B.S. in Chemistry degree consists of a minimum of 45 credit hours of chemistry courses, 12 credit hours of mathematics courses, and 8 credit hours of physics courses.

**General Education Courses (37-41 credit hours)**

For details on required courses, refer to the General Education Program. Students with a Major in Chemistry should plan on taking the following courses that meet both general education and major requirements:

**Unrestricted Elective Courses**

As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

**Grade and Course Progression Requirements**

Students who have declared a major in Chemistry remain in good academic standing within the department if the following criteria are met:

- The Chemistry GPA remains at or above 2.0
- Progression through CHEM 1251, CHEM 1251L, CHEM 1252, CHEM 1252L, CHEM 2131, CHEM 2131L, CHEM 2132, CHEM 2132L and CHEM 3111 occurs in no more than two attempts per course

A student whose Chemistry GPA is below 2.0 is placed on provisional continuation status. Should the Chemistry GPA remain below the required level after three successive semesters, the student is ineligible for continuation in bachelor degree programs in Chemistry. Students may declare the Chemistry major again if their Chemistry GPA rises to the requisite level if they were previously dropped from the major.

Students attempting CHEM 1251, CHEM 1251L, CHEM 1252, CHEM 1252L, CHEM 2131, CHEM 2131L, CHEM 2132, CHEM 2132L and CHEM 3111 for the third time are placed on provisional continuation status. Students who earn a grade of D, F or W in the third attempt are ineligible for continuation in bachelor degree programs in Chemistry.

Additionally, students must earn a C or above in all required chemistry courses for the major, including the chemistry elective required for the B.A. degree. A student may petition for a one-time exemption to this requirement.

**Bachelor of Science in Chemistry with Concentration in Biochemistry**

The B.S. degree with a Concentration in Biochemistry is recommended for students planning to begin careers as chemists with the baccalaureate degree and those preparing for graduate study in chemistry.

**Admission Requirements**

**Freshmen**

- **Minimum GPA:** 2.0; students with prior credit earned at UNC...
Charlotte must have a minimum overall and Chemistry GPA of 2.0

- **Prerequisite Courses**: Complete the following with minimum grades of C:
  - CHEM 2132 or CHEM 3111
  - MATH 1242
  - PHYS 2102
  - PHYS 2102L

- **Declaration of Major**: Students are eligible to declare a Major in Chemistry upon passing MATH 1242, PHYS 2102, and PHYS 2102L; and earning a grade of C or above in CHEM 2132 or CHEM 3111

### Transfers

- **Minimum GPA**: 2.0
- **Pre-Major/Prerequisite Courses**: Complete the following with minimum grades of C:
  - CHEM 2132 or CHEM 3111
  - MATH 1242
  - PHYS 2102
  - PHYS 2102L
- **Declaration of Major**: Transfer students may declare the major if the above requirements were met at their previous institution(s)
- **Transferable Credit Hours**: 24

### Degree Requirements

The B.S. in Chemistry with Concentration in Biochemistry requires a total of 120 credit hours. Students may choose from the ACS-certified degree or the non-certified degree. A Major in Chemistry leading to the ACS-certified B.S. degree with a Concentration in Biochemistry requires a minimum of 48 credit hours of chemistry courses, 12 credit hours of mathematics courses, and 8 credit hours of physics courses.

The non-certified B.S. degree with a Concentration in Biochemistry follows the same requirements as the ACS-certified degree with the following exceptions: (1) a minimum of 44 credit hours in chemistry are required, and (2) CHEM 4121 is not required.

### General Education Courses (37-41 credit hours)

For details on required courses, refer to the General Education Program. Students with a Major in Chemistry should plan on taking the following courses that meet both general education and major requirements:

- MATH 1241 - Calculus I (3)
- MATH 1242 - Calculus II (3)
- MATH 2241 - Calculus III (3)
- MATH 2242 - Calculus IV (3)
- MATH 2164 - Matrices and Linear Algebra (3)
- MATH 2171 - Differential Equations (3)
- STAT 3128 - Probability and Statistics for Engineers (3)

### Mathematics Courses (12 credit hours)

- Plus two of the following:
  - MATH 2421 - Calculus III (3)
  - MATH 2242 - Calculus IV (3)
  - MATH 2164 - Matrices and Linear Algebra (3)
  - MATH 2171 - Differential Equations (3)
  - STAT 3128 - Probability and Statistics for Engineers (3)

### Physics Courses (8 credit hours)

- PHYS 2101 - Physics for Science and Engineering I (3)
- PHYS 2101L - Physics for Science and Engineering I Lab (1)
- PHYS 2102 - Physics for Science and Engineering II (3)
- PHYS 2102L - Physics for Science and Engineering II Lab (1)

### Biology Courses (11 credit hours)

These courses are recommended:

- BIOL 2120 - General Biology I (3)
- BIOL 2130 - General Biology II (3)
- BIOL 2140L - General Biology Lab (2)
- BIOL 3111 - Cell Biology (3)

### Unrestricted Elective Courses

As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**
Grade and Course Progression Requirements
Students who have declared a major in Chemistry remain in good academic standing within the department if the following criteria are met:

- The Chemistry GPA remains at or above 2.0
- Progression through CHEM 1251, CHEM 1251L, CHEM 1252, CHEM 1252L, CHEM 2131, CHEM 2131L, CHEM 2132, CHEM 2132L and CHEM 3111 occurs in no more than two attempts per course

A student whose Chemistry GPA is below 2.0 is placed on provisional continuation status. Should the Chemistry GPA remain below the required level after three successive semesters, the student is ineligible for continuation in bachelor degree programs in Chemistry. Students may declare the Chemistry major again if their Chemistry GPA rises to the requisite level if they were previously dropped from the major.

Students attempting CHEM 1251, CHEM 1251L, CHEM 1252, CHEM 1252L, CHEM 2131, CHEM 2131L, CHEM 2132, CHEM 2132L and CHEM 3111 for the third time are placed on provisional continuation status. Students who earn a grade of D, F or W in the third attempt are ineligible for continuation in bachelor degree programs in Chemistry.

Additionally, students must earn a C or above in all required chemistry courses for the major, including the chemistry elective required for the B.A. degree. A student may petition for a one-time exemption to this requirement.

Minor in Chemistry
The Minor in Chemistry provides a means for students majoring in another discipline to develop a foundation of knowledge in selected areas of chemistry. Students with a major in science or non-science disciplines are welcome to pursue a Minor in Chemistry. A Minor in Chemistry consists of 23 credit hours of chemistry courses.

Minor Requirements
Required Courses (20 credit hours)
CHEM 1251 - General Chemistry I (3)*
CHEM 1251L - General Chemistry I Lab (1)*
CHEM 1252 - General Chemistry II (3)*
CHEM 1252L - General Chemistry II Lab (1)*
CHEM 2131 - Organic Chemistry I (3)*
CHEM 2131L - Organic Chemistry I Lab (1)*
CHEM 2132 - Organic Chemistry II (3)*
CHEM 2132L - Organic Chemistry II Lab (1)*
    or CHEM 2136L - Organic Chemistry Lab (1)
CHEM 3111 - Quantitative Analysis (4)*

Elective Courses (3 credit hours)
Select from the following:
CHEM 2141 - Survey of Physical Chemistry (3)
CHEM 3112 - Modern Separation Techniques (4)
CHEM 3121 - Inorganic Chemistry (3)
CHEM 3141 - Physical Chemistry I (3)
CHEM 4111 - Instrumental Analysis (4)
CHEM 4133 - Methods of Organic Structure Determination (2)
CHEM 4134 - Organic Reaction Mechanisms (2)
CHEM 4135 - Concepts and Techniques in Organic Synthesis (2)

CHEM 4165 - Principles of Biochemistry I (3)
CHEM 4185 - Chemical Fate of Pollutants (3)
CHEM 4200 - Computational Chemistry (4)

Total = 23 Credit Hours

Grade Requirements
A minimum GPA of 2.0 in the minor is required. Students may attempt courses in the minor a total of three times each. Withdrawing from the course after the Add/Drop deadline constitutes an attempt, as does receiving any letter grade.

Honors Program in Chemistry
This program is intended primarily for chemistry majors. It is a research-oriented program. Details are available from the Department of Chemistry and the department’s website at chemistry.uncc.edu.

Admission Requirements
Consideration for admission to the program may be initiated by the student or by any faculty member. The Honors Committee of the Department of Chemistry will formally approve admission. The student will formally enter the Honors Program at the beginning or halfway through the student’s Senior year; however, students should inquire about the Honors Program prior to the end of their Junior year.

Course Requirements
CHEM 4696 - Chemistry Seminar (1) (O,W)
CHEM 4900 - Directed Undergraduate Research (1 to 4)

Certification Requirements
To obtain Honors in Chemistry, a student must successfully complete at least three hours of CHEM 4900 at the Honors level, one semester of CHEM 4696 at the Honors level, prepare and successfully defend an honors thesis based on research, and complete the Application to Candidacy process for graduating with honors, as directed by the Honors College. The honors notation will appear on a student’s official transcript.

Cooperative Education Program
Students majoring in Chemistry may obtain practical work experience in chemistry before graduation by participating in the Chemistry Cooperative Education Experience any time after the completion of Sophomore year and CHEM 2132. A minimum GPA of 2.5 overall and 2.5 in chemistry is required. At least two semesters of full-time work assignments on alternating semesters must be completed concurrent with enrollment in CHEM 3500. Advisors will assist students to design a schedule that accommodates both work assignments and the upper-division chemistry courses which are normally offered on alternate semesters. Experiences are arranged in coordination with the University Career Center.
Early Entry: Master of Science in Chemistry

Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree. The Early Entry Program for the M.S. in Chemistry leads to completion of all requirements for the B.S. and M.S. degrees in only five academic years and one or two summers. Students should consult with the Chemistry M.S. Graduate Program Coordinator about their eligibility for this program and to discuss requirements for selection of a research advisor during their Junior year.

Admission Requirements

- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Completed the standard B.S. in Chemistry curriculum through at least Physical Chemistry
- Minimum 3.2 overall undergraduate GPA
- Minimum 3.0 GPA in chemistry, mathematics, and physics courses
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Note: GRE scores are not required.

Continued Enrollment Requirements

- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses

This Early Entry Program is also accelerated; up to 6 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 6 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees. Students may leave the program after four years with the B.S. degree, or they may complete an additional academic year and summer of full-time study and research to earn both the B.S. and M.S. degrees in Chemistry.

More Information

For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Cognitive Science

cognisci.uncc.edu

Undergraduate Programs

- Minor in Cognitive Science

Cognitive science is the interdisciplinary study of intelligent systems, both human and artificial. It aims to understand the processes and representations that are the basis for intelligent actions. Research questions center on cognition, memory, problem solving, vision, and their computational embodiment. The interdisciplinary program in Cognitive Science is designed to provide students with an introduction to the questions of cognitive science and the variety of approaches used to answer those questions, including approaches drawn from Psychology, Computing, Philosophy, Linguistics, and Cognitive Neuroscience. Students completing a minor will add an interdisciplinary perspective to the training received in their major, better preparing them for employment or further study in a variety of sciences and social sciences.

Minor in Cognitive Science

The Minor in Cognitive Science is awarded only to students completing an undergraduate major at UNC Charlotte. A Minor in Cognitive Science consists of 18 credit hours: 3 credit hours of required coursework, 9 credit hours of restricted elective courses outside of the student’s primary major, and the remaining 6 credit hours of unrestricted elective courses. Because additions and deletions of courses may be made to correspond to current University offerings, students are encouraged to consult with the Director as they plan their schedules.

Minor Requirements

Prerequisite Courses

It is recommended that students take the following prerequisite courses. However, these courses are not part of the minor and they do not count toward the Minor in Cognitive Science.

- PSYC 1101 - General Psychology (3)
- ITSC 1212 - Introduction to Computer Science I (4)
- ITSC 1212L - Programming Lab I (0)

Required Core Course (3 credit hours)

Select one of the following:

- PSYC 3216 - Introduction to Cognitive Science (3)
- ITSC 3216 - Introduction to Cognitive Science (3)

Restricted Elective Courses (9 credit hours minimum)

Students must take courses from 3 of the following 4 options of courses
outside of their major. [Students with a Major in Computer Science must fulfill the restricted elective courses in Psychology, Linguistics, and Philosophy. Students with a Major in Psychology must fulfill the restricted elective courses in Computing, Linguistics, and Philosophy.]

**Option 1 (Computing)**
Select one of the following:
- ITCS 1213 or above (excluding ITCS 1610) (3)
- ITSC 1213 or above (3)
- ITIS 2300 Web-Based Application Development (3)

**Option 2 (Linguistics)**
Select one of the following:
- ENGL 4167 - The Mind and Language (3)
- ENGL 4263 - Linguistics and Language Learning (3)

**Option 3 (Philosophy)**
Select one of the following:
- PHIL 3430 - Mind, Cognition, and Behavior (3)
- PHIL 3510 - Advanced Logic (3)

**Option 4 (Psychology)**
Select one of the following:
- PSYC 3111 - Psychology of Learning and Memory (3)
- PSYC 3115 - Sensation and Perception (3)
- PSYC 3116 - Human Cognitive Processes (3)

**Unrestricted Elective Courses (6 credit hours minimum)**
- ENGL 4161 - Modern English Grammar (3)
- ENGL 4167 - Mind and Language (3)
- ENGL 4263 - Linguistics and Language Learning (3)
- ITCS 3152 - Symbolic Programming (3)
- ITCS 3153 - Introduction to Artificial Intelligence (3)
- ITIS 3130 - Human Computer Interaction (3)
- PHIL 3430 - Mind, Cognition, and Behavior (3)
- PHIL 3510 - Advanced Logic (3)
- PSYC 3111 - Psychology of Learning and Memory (3)
- PSYC 3115 - Sensation and Perception (3)
- PSYC 3116 - Human Cognitive Processes (3)
- PSYC 3122 - Cognitive and Language Development (3)
- PSYC 3313 - Neuropsychology (3)
- PSYC 4316 - Cognitive Neuroscience (3)

**Minor Total = 18 Credit Hours**

**Grade Requirements**
To qualify for the Minor in Cognitive Science, students must have a GPA of at least 2.0 in courses applied to the minor.
course requirements. The concentrations are designed to provide students with the opportunity to pursue more extensive study in the communication context most relevant to their professional and social goals.

Students majoring in Communication Studies may pursue careers in areas such as public relations, marketing, personnel, nonprofit organization, social media management, and health administration. Coupled with another social science major, Communication Studies provides extra capital for careers in areas such as social work, counseling, politics, and management. This major is also excellent preparation for law school, usually combined with a concentration in Public Advocacy, a second major in Political Science, and a minor in Legal Studies. The program also offers a minor in Communication Studies and a minor in Journalism.

**Graduate Program**
Students can pursue graduate work in Communication Studies. For details, see the UNC Charlotte Graduate Catalog regarding the M.A. in Communication Studies program.

**Bachelor of Arts in Communication Studies with Concentration in Communication and Public Advocacy**
The Communication and Public Advocacy concentration is designed for those students desiring a well-developed background in the use, theory, construction, and analysis of public messages. The course of study provides training in individual public communication skills and provides a foundation for the analysis and evaluation of advocacy discourse.

**Admission Requirements**

**Freshmen and Transfers**
- **Minimum GPA:** 2.0
- **Pre-Major/Prerequisite Courses:** Students planning to change to or declare Communication Studies as their major must have met the foreign language requirement for the major, and received a minimum grade of C in the following:
  - COMM 1101
  - COMM 2100 (may be attempted a maximum of two times)
  - STAT 1220 or STAT 1222
- **Other:** Students who do not meet requirements for admission because of special circumstances may petition the Department of Communication Studies for acceptance into the program.
- **Declaration of Major:** Students are initially classified as Pre-Communication Studies (PCOM) majors until they meet the above requirements. Change of Major forms are accepted year-round after the student has attended a Communication Studies orientation/advising session.
- **Transferable Credit Hours:** 24

**Pre-Communication Studies**
Students who apply for the Communication Studies major are initially classified as Pre-Communication Studies majors until they meet the following requirements: cumulative GPA of 2.0 or above; successful completion of a foreign language course at the 2000-level or higher in a Latin alphabet language or American Sign Language or 1202 in a non-Latin alphabet language; and successful (grade C or above) completion of COMM 1101, COMM 2100, and either STAT 1220 or STAT 1222. Students matriculated at UNC Charlotte and planning to change or declare Pre-Communication Studies as their major must have an overall GPA of at least 2.0.

**Degree Requirements**
The program leading to the Bachelor of Arts degree in Communication Studies requires 120 credit hours.

**General Education Courses (37-41 credit hours)**
For details on required courses, refer to the General Education Program.

**Foreign Language Requirement (3-4 credit hours)**
Students with a Major in Communication Studies must complete either a 2000-level course in a foreign language that uses the Latin alphabet or a 1202-level course in a language that is not written in the Latin alphabet. Intermediate American Sign Language is also accepted. Non-native speakers of English may complete the foreign language requirement by passing WRDS 1103, WRDS 1104, or the equivalent.

**Latin Alphabet Courses**
- FREN 2201 - Intermediate French I (3)
- GERM 2201 - Intermediate German I (3)
- ITLN 2201 - Intermediate Italian I (3)
- LATN 2201 - Latin Prose (3)
- PORT 2201 - Intermediate Portuguese I (3)
- SPAN 2201 - Intermediate Spanish I (3)

**Non-Latin Alphabet Courses**
- ARBC 1202 - Elementary Arabic II (4)
- CHNS 1202 - Elementary Chinese II (4)
- FARS 1202 - Elementary Farsi II (4)
- GREK 1202 - Elementary Ancient Greek II (4)
- JAPN 1202 - Elementary Japanese II (4)
- RUSS 1202 - Elementary Russian II (4)

**Major Courses (24 credit hours)**
All students complete 24 credit hours of MajorCourses designed to provide a thorough understanding of fundamental communication processes. The Major Courses are structured into four categories:

**General Theory/Skills Courses (12 credit hours)**
- COMM 1101 - Public Speaking (3) (O)
- COMM 2100 - Introduction to Communication Theory (3)
- COMM 2101 - Introduction to Rhetorical Theory (3)
- COMM 3101 - Persuasion (3)

**Research Methodology Courses (6 credit hours)**
- COMM 3100 - Communication Research Methods (3) (W)
- STAT 1222 - Introduction to Statistics (3)

**Macro-Context Courses (3 credit hours)**
Select one of the following:
- COMM 3120 - Communication and Mass Media (3)
COMM 3130 - Communication and Public Advocacy (3)
COMM 3141 - Organizational Communication (3)

**Micro-Context Courses (3 credit hours)**
Select one of the following:
- COMM 2103 - Argumentation and Debate (3)
- COMM 2105 - Small Group Communication (3)
- COMM 2107 - Interpersonal Communication (3)

**Concentration Courses (12 credit hours)**

**Required Concentration Courses (6 credit hours)**
- COMM 2102 - Advanced Public Speaking (3)
- COMM 3130 - Communication and Public Advocacy (3)

**Elective Concentration Courses (6 credit hours)**
Select from the following:
- COMM 2102 - Advanced Public Speaking (3)***
- COMM 2103 - Argumentation and Debate (3)***
- COMM 3051 - Topics in Health Communication (3)
- COMM 3052 - Topics in Mass Media (3)
- COMM 3054 - Topics in Organizational Communication (3)
- COMM 3055 - Topics in Public Relations (3)
- COMM 3115 - Health Communication (3)
- COMM 3125 - New Media in Communications (3)
- COMM 3126 - Globalization and Digital Media (3)
- COMM 3127 - Global Media (3)
- COMM 3131 - African American Oratory (3)
- COMM 3403 - Debate Practicum (2)**
- COMM 3880 - Independent Study (1 to 3)*
- COMM 4101 - Media and the Law (3)
- COMM 4410 - Professional Internship (3 or 6)*

* Requires approval of advisor.
** May be repeated but no more than 3 credit hours will apply to meeting this elective requirement.
*** May not be used to satisfy both the required concentration course and the elective concentration course.

**Related Courses (18 credit hours)**
All students in the Mass Media, Organizational Communication, and Public Advocacy concentrations must complete 18 credit hours of related coursework excluding any courses applied to the Major Course requirements or Concentration requirements. Students in the Health Communication concentration must complete 9 hours of related coursework, excluding any courses applied to Major Course requirements or requirements within that concentration. Students in the Public Relations concentration must complete 6 hours of related coursework, excluding any courses applied to Major Course requirements or requirements within that concentration. All related coursework must be approved by the student’s advisor. An approved second major or a minor may be used to satisfy this requirement.

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

---

**Bachelor of Arts in Communication Studies with Concentration in Health Communication**

The Health Communication concentration is designed for students interested in studying the relationship between communication and the quality of health care received by the patients. Emphasis is placed on the promotion and maintenance of health, the prevention and treatment of illness, and the improvement of the healthcare system through effective communication.

**Admission Requirements**

**Freshmen and Transfers**
- **Minimum GPA:** 2.0
- **Pre-Major/Prerequisite Courses:** Students planning to change to or declare Communication Studies as their major must have met the foreign language requirement for the major, and received a minimum grade of C in the following:
  - COMM 2101
  - COMM 2100 (may be attempted a maximum of two times)
  - STAT 1220 or STAT 1222
- **Other:** Students who do not meet requirements for admission because of special circumstances may petition the Department of Communication Studies for acceptance into the program.
- **Declaration of Major:** Students are initially classified as Pre-Communication Studies (PCOM) majors until they meet the above requirements. Change of Major forms are accepted year-round after the student has attended a Communication Studies orientation/advising session.
- **Transferable Credit Hours:** 24

**Pre-Communication Studies**
Students who apply for the Communication Studies major are initially classified as Pre-Communication Studies majors until they meet the following requirements: cumulative GPA of 2.0 or above; successful completion of a foreign language course at the 2000-level or higher in a Latin alphabet language or American Sign Language or 1202 in a non-Latin alphabet language; and successful (grade C or above) completion of COMM 1101, COMM 2100, and either STAT 1220 or STAT 1222. Students matriculated at UNC Charlotte and planning to change or declare Pre-Communication Studies as their major must have an overall GPA of at least 2.0.

**Degree Requirements**
The program leading to the Bachelor of Arts degree in Communication Studies requires 120 credit hours.

**General Education Courses (37-41 credit hours)**
For details on required courses, refer to the General Education Program.

**Foreign Language Requirement (3-4 credit hours)**
Students with a Major in Communication Studies must complete either a 2000-level course in a foreign language that uses the Latin alphabet or a 1202-level course in a language that is not written in the Latin alphabet. Intermediate American Sign Language is also accepted. Non-native speakers of English may complete the foreign language requirement by passing WRDS 1103, WRDS 1104, or the equivalent.
Latin Alphabet Courses
FREN 2201 - Intermediate French I (3)
GERM 2201 - Intermediate German I (3)
ITAL 2201 - Intermediate Italian I (3)
LATN 2201 - Latin Prose (3)
PORT 2201 - Intermediate Portuguese I (3)
SPAN 2201 - Intermediate Spanish I (3)

Non-Latin Alphabet Courses
ARBC 1202 - Elementary Arabic II (4)
CHNS 1202 - Elementary Chinese II (4)
FARS 1202 - Elementary Farsi II (4)
GREK 1202 - Elementary Ancient Greek II (4)
JAPN 1202 - Elementary Japanese II (4)
RUSS 1202 - Elementary Russian II (4)

Major Courses (24 credit hours)
All students complete 24 credit hours of Major Courses designed to provide a thorough understanding of fundamental communication processes. The Major Courses are structured into four categories:

General Theory/Skills Courses (12 credit hours)
COMM 1101 - Public Speaking (3) (O)
COMM 2100 - Introduction to Communication Theory (3)
COMM 2101 - Introduction to Rhetorical Theory (3)
COMM 3101 - Persuasion (3)

Research Methodology Courses (6 credit hours)
COMM 3100 - Communication Research Methods (3) (W)
STAT 1222 - Introduction to Statistics (3)

Macro-Context Courses (3 credit hours)
Select one of the following:
COMM 3120 - Communication and Mass Media (3)
COMM 3130 - Communication and Public Advocacy (3)
COMM 3141 - Organizational Communication (3)

Micro-Context Courses (3 credit hours)
Select one of the following:
COMM 2103 - Argumentation and Debate (3)
COMM 2105 - Small Group Communication (3)
COMM 2107 - Interpersonal Communication (3)

Concentration Courses (21 credit hours)
Required Concentration Courses (12 credit hours)
COMM 3051 - Topics in Health Communication (3)
COMM 3115 - Health Communication (3)
COMM 4115 - Seminar in Health Communication (3)
COMM 4410 - Professional Internship (3)

Elective Concentration Courses (9 credit hours)
Select from the following:
ANTH 3122 - Culture, Health, and Disease (3) (W)
ANTH 3124 - Food, Nutrition, and Culture (3)
COMM 3051 - Topics in Health Communication (3)
COMM 4410 - Professional Internship (3)*
GRNT 3115 - Health and the Aging Process (3)
or HLTH 3115 - Health and the Aging Process (3)
HLTH 2101 - Healthy Lifestyles (3)
KNES 3260 - Nutrition for the Physically Active (3)
NURS 4000 - Topics in Nursing (1 to 3)*
NURS 4191 - Women’s Health Issues (3)
or WGST 4191 - Women’s Health Issues (3)
PHIL 3230 - Healthcare Ethics (3)
PSYC 2130 - Introduction to Social Psychology (3)
PSYC 2160 - Introduction to Health Psychology (3)
SOCY 2169 - Sociology of Health and Illness (3)
SOCY 4168 - Sociology of Mental Health and Illness (3) (W)

*Requires advisor approval.

Related Courses (9 credit hours)
Students in the Health Communication concentration must complete 9 credit hours of related coursework, excluding any courses applied to Major Course requirements or requirements within that concentration. All related coursework must be approved by the student’s advisor. An approved second major or a minor may be used to satisfy this requirement.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Bachelor of Arts in Communication Studies with Concentration in Mass Media
The Mass Media concentration is designed for students interested in the development and critical analysis of the media as a cultural force. Contemporary issues in media criticism are explored. Students may also receive limited exposure to media production.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Pre-Major/Prerequisite Courses. Students planning to change to or declare Communication Studies as their major must have met the foreign language requirement for the major, and received a minimum grade of C in the following:
  - COMM 1101
  - COMM 2100 (may be attempted a maximum of two times)
  - STAT 1220 or STAT 1222
- Other: Students who do not meet requirements for admission because of special circumstances may petition the Department of Communication Studies for acceptance into the program.
- Declaration of Major: Students are initially classified as Pre-Communication Studies (PCOM) majors until they meet the above requirements. Change of Major forms are accepted year-round after the student has attended a Communication Studies orientation/advising session.
- Transferable Credit Hours: 24

Pre-Communication Studies
Students who apply for the Communication Studies major are initially
classified as Pre-Communication Studies majors until they meet the following requirements: cumulative GPA of 2.0 or above; successful completion of a foreign language course at the 2000-level or higher in a Latin alphabet language or American Sign Language or 1202 in a non-Latin alphabet language; and successful (grade C or above) completion of COMM 1101, COMM 2100, and either STAT 1220 or STAT 1222. Students matriculated at UNC Charlotte and planning to change or declare Pre-Communication Studies as their major must have an overall GPA of at least 2.0.

**Degree Requirements**
The program leading to the Bachelor of Arts degree in Communication Studies requires 120 credit hours.

**General Education Courses (37-41 credit hours)**
For details on required courses, refer to the General Education Program.

**Foreign Language Requirement (3-4 credit hours)**
Students with a Major in Communication Studies must complete either a 2000-level course in a foreign language that uses the Latin alphabet or a 1202-level course in a language that is not written in the Latin alphabet. Intermediate American Sign Language is also accepted. Non-native speakers of English may complete the foreign language requirement by passing WRDS 1103, WRDS 1104, or the equivalent.

**Latin Alphabet Courses**
- FREN 2201 - Intermediate French I (3)
- GERM 2201 - Intermediate German I (3)
- ITLN 2201 - Intermediate Italian I (3)
- LATN 2201 - Latin Prose (3)
- PORT 2201 - Intermediate Portuguese I (3)
- SPAN 2201 - Intermediate Spanish I (3)

**Non-Latin Alphabet Courses**
- ARBC 1202 - Elementary Arabic II (4)
- CHNS 1202 - Elementary Chinese II (4)
- FARS 1202 - Elementary Farsi II (4)
- GREK 1202 - Elementary Ancient Greek II (4)
- JAPN 1202 - Elementary Japanese II (4)
- RUSS 1202 - Elementary Russian II (4)

**Major Courses (24 credit hours)**
All students complete 24 credit hours of Major Courses designed to provide a thorough understanding of fundamental communication processes. The Major Courses are structured into four categories:

**General Theory/Skills Courses (12 credit hours)**
- COMM 1101 - Public Speaking (3)
- COMM 2100 - Introduction to Communication Theory (3)
- COMM 2101 - Introduction to Rhetorical Theory (3)
- COMM 3101 - Persuasion (3)

**Research Methodology Courses (6 credit hours)**
- COMM 3100 - Communication Research Methods (3)
- STAT 1222 - Introduction to Statistics (3)

**Macro-Context Courses (3 credit hours)**
- COMM 3120 - Communication and Mass Media (3)

**Micro-Context Courses (3 credit hours)**
- COMM 2103 - Argumentation and Debate (3)
- COMM 2105 - Small Group Communication (3)
- COMM 2107 - Interpersonal Communication (3)

**Concentration Courses (12 credit hours)**

**Required Concentration Courses (6 credit hours)**
- COMM 3120 - Communication and Mass Media (3)
- COMM 4101 - Media and the Law (3)

**Elective Concentration Courses (6 credit hours)**
- ARTH 3393 - History of Photography (3)
- COMM 2120 - Black Images in the Media in the U.S. (3)
- COMM 3052 - Topics in Mass Media (3)
- COMM 3121 - Mass Communication and Society (3)
- COMM 3125 - New Media for Communications (3)
- COMM 3126/INTL 3115 - Globalization and Digital Media (3)
- COMM 3127 - Global Media (3)
- COMM 3880 - Independent Study (1 to 3)*
- COMM 4102 - Federal Interpretation of the First Amendment (3)
- COMM 4410 - Professional Internship (3)*
- ENGL 2106 - Film Criticism (4)
- FREN 4050 - Topics in French Film (3)
- GERM 3160 - Survey of German Films (3)
- HIST 3010 - Non-Western History and Culture through Film (3)
- JOUR 2160 - Introduction to Journalism (3)
- JOUR 3160 - Advanced News Reporting and Writing (3)
- JOUR 3161 - News Editing (3)
- LACS 3160 - European Cinema (3)
- POLS 3104 - Mass Media (3)
- RELS 3212 - Religion, Media, and Film (3)
- SOCY 2112 - Popular Culture (3)

*Requires advisor approval.

**Related Courses (18 credit hours)**
Students in the Mass Media concentration must complete 18 credit hours of related coursework excluding any courses applied to the Major Course requirements or Concentration requirements. All related coursework must be approved by the student’s advisor. An approved second major or a minor may be used to satisfy this requirement.

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

**Bachelor of Arts in Communication Studies with Concentration in Organizational Communication**
The Organizational Communication concentration is designed for students whose careers will benefit from an understanding of the communication processes that occur within organizational contexts.
Students explore both the theory and practice of organizational communication.

**Admission Requirements**

**Freshmen and Transfers**

- **Minimum GPA**: 2.0
- **Pre-Major/Prerequisite Courses**: Students planning to change to or declare Communication Studies as their major must have met the foreign language requirement for the major, and received a minimum grade of C in the following:
  - COMM 1101
  - COMMIT 2100 (may be attempted a maximum of two times)
  - STAT 1220 or STAT 1222

- **Other**: Students who do not meet requirements for admission because of special circumstances may petition the Department of Communication Studies for acceptance into the program.

- **Declaration of Major**: Students are initially classified as Pre-Communication Studies (PCOM) majors until they meet the above requirements. Change of Major forms are accepted year-round after the student has attended a Communication Studies orientation/advising session.

- **Transferable Credit Hours**: 24

**Pre-Communication Studies**

Students who apply for the Communication Studies major are initially classified as Pre-Communication Studies majors until they meet the following requirements: cumulative GPA of 2.0 or above; successful completion of a foreign language course at the 2000-level or higher in a Latin alphabet language or American Sign Language or 1202 in a non-Latin alphabet language; and successful (grade C or above) completion of COMM 1101, COMM 2100, and either STAT 1220 or STAT 1222. Students matriculated at UNC Charlotte and planning to change or declare Pre-Communication Studies as their major must have an overall GPA of at least 2.0.

**Degree Requirements**

The program leading to the Bachelor of Arts degree in Communication Studies requires 120 credit hours.

**General Education Courses (37-41 credit hours)**

For details on required courses, refer to the General Education Program.

**Foreign Language Requirement (3-4 credit hours)**

Students with a Major in Communication Studies must complete either a 2000-level or higher in a Latin alphabet language or American Sign Language or 1202 in a non-Latin alphabet language; and successful (grade C or above) completion of COMM 1101, COMM 2100, and either STAT 1220 or STAT 1222. Students matriculated at UNC Charlotte and planning to change or declare Pre-Communication Studies as their major must have an overall GPA of at least 2.0.

*Requires advisor approval.
Related Courses (18 credit hours)
Students in the Organizational Communication concentration must complete 18 credit hours of related coursework excluding any courses applied to the Major Course requirements or Concentration requirements. All related coursework must be approved by the student’s advisor. An approved second major or a minor may be used to satisfy this requirement.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Bachelor of Arts in Communication Studies
with Concentration in Public Relations
The Public Relations concentration is designed to provide students with a general background in public relations. Students examine both the theory and practice of public relations.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Pre-Major/Prerequisite Courses: Students planning to change to or declare Communication Studies as their major must have met the foreign language requirement for the major, and received a minimum grade of C in the following:
  - COMM 1101
  - COMM 2100 (may be attempted a maximum of two times)
  - STAT 1220 or STAT 1222
- Other: Students who do not meet requirements for admission because of special circumstances may petition the Department of Communication Studies for acceptance into the program.
- Declaration of Major: Students are initially classified as Pre-Communication Studies (PCOM) majors until they meet the above requirements. Change of Major forms are accepted year-round after the student has attended a Communication Studies orientation/advising session.
- Transferable Credit Hours: 24

Pre-Communication Studies
Students who apply for the Communication Studies major are initially classified as Pre-Communication Studies majors until they meet the following requirements: cumulative GPA of 2.0 or above; successful completion of a foreign language course at the 2000-level or higher in a Latin alphabet language or American Sign Language or 1202 in a non-Latin alphabet language; and successful (grade C or above) completion of COMM 1101, COMM 2100, and either STAT 1220 or STAT 1222. Students matriculated at UNC Charlotte and planning to change or declare Pre-Communication Studies as their major must have an overall GPA of at least 2.0.

Degree Requirements
The program leading to the Bachelor of Arts degree in Communication Studies requires 120 credit hours.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (3-4 credit hours)
Students with a Major in Communication Studies must complete either a 2000-level course in a foreign language that uses the Latin alphabet or a 1202-level course in a language that is not written in the Latin alphabet. Intermediate American Sign Language is also accepted. Non-native speakers of English may complete the foreign language requirement by passing WRDS 1103, WRDS 1104, or the equivalent.

*Requires advisor approval.

Related Courses (6 credit hours)
Students in the Public Relations concentration must complete 6 credit hours of related coursework, excluding any courses applied to Major Course requirements or requirements within that concentration. All related coursework must be approved by the student’s advisor. An approved second major or a minor may be used to satisfy this requirement.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Honors Program in Communication Studies
The B.A. in Communication Studies with Communication Studies Honors is the highest distinction the Department of Communication Studies offers. Earning this accolade from the Honors College attests to a candidate’s exemplary grade point average in their major, completion of honors coursework, and successful defense of a distinguished undergraduate honors thesis. Graduating with Honors in Communication Studies prepares students for graduate school and is a wonderful addition to a student’s resume.

The Honors Program in the Department of Communication Studies aims to identify, encourage, nurture, and recognize students with exceptional analytical, creative, and communicative skills potential. The program stresses guided but self-directed independent study, and each Honors Student will be evaluated by a faculty committee based upon uniquely developed criteria for each Honors Student.

Admissions Requirements
Petition for admission to the Honors Program may be initiated by the student or by a full-time faculty member of the Department of Communication Studies on behalf of the student. Students must have at minimum a 3.3 or above overall GPA and a 3.3 or above GPA in all Communication Studies and Journalism courses. They must have completed at least 30 credit hours at UNC Charlotte but not more than 90 credit hours at the time participation in the Honors Program will begin. Admission to the Communication Studies Honors Program is determined through a three step process: completion and submission of the Honors Program application form, review of the application by the Honors Director and Department Honors Committee, and approval for admission by that Committee.

Course Requirements
One three credit hour course chosen by the student from University Honors Program courses (not including experiential or project-based courses).

COMM 3890 - Honors Thesis I (3)
COMM 3891 - Honors Thesis II (3)

Certification Requirements
To graduate with honors, students must:

- Earn a minimum cumulative GPA of 3.3
- Earn a minimum GPA of 3.3 in Communication Studies and Journalism courses
- Complete an honors thesis and present the results of the project in an appropriate forum
- Complete the Application to Candidacy process for graduating with honors, as directed by the Honors College

The honors notation will appear on a student’s official transcript.
Minor in Communication Studies

The Minor in Communication Studies consists of 18 credit hours of COMM courses.

Admission Requirements

Students matriculated at UNC Charlotte and planning to declare Communication Studies as their minor must have an overall GPA of at least 2.0.

Minor Requirements

Required Courses (6 credit hours)

COMM 1101 - Public Speaking (3) (O)
COMM 2100 - Introduction to Communication Theory (3)

Elective Courses (12 credit hours)

COMM 1xxx-4xxx - Communication Studies Elective (3)
COMM 1xxx-4xxx - Communication Studies Elective (3)
COMM 3xxx-4xxx - Communication Studies Elective (3)
COMM 3xxx-4xxx - Communication Studies Elective (3)

Grade Requirements

Students must attain an overall GPA of 2.0 in all coursework within the minor.

Minor Total = 18 Credit Hours

Minor in Journalism

The Minor in Journalism provides an introduction to journalism areas such as writing, editing, feature writing, layout and design, and related communication and media issues. The minor consists of 18 credit hours of coursework.

Certificate in International Public Relations

Students electing the Certificate in International Public Relations must be enrolled as majors in the Public Relations concentration in the B.A. in Communication Studies. In addition to completing the standard core and required concentration courses, students must complete the following additional concentration courses, related coursework, and language requirements.

Certificate Requirements

Additional Concentration Course (3 credit hours)

Select one of the following:

COMM 4147 - International Public Relations
COMM 4050 - London Seminar in Public Relations

Related Coursework (9 credit hours)

Students may either complete a semester of study abroad earning at least 9 credit hours at a non-American university OR complete an additional 9 credit hours of related coursework selected from the following courses (or other appropriate courses approved by the student’s advisor). At least 3 credit hours must be taken at the 3000-level or above.

ANTH 2010 - Topics in Ethnography (3)
ANTH 2111 - Peoples of Africa (3)
ANTH 2115 - Culture and Society in the Middle East (3)
ANTH 2116 - Contemporary Latin America (3)
ANTH 4120 - Intercultural Communications (3)
COMM 3127 - Global Media (3)
HIST 2200 - Asian Civilization (3)
HIST 2201 - History of Modern Asia (3)
or INTL 2201 - Introduction to Asian Studies (3)
HIST 2207 - Modern Latin America (3)
or INTL 2401 - Introduction to Latin American Studies (3)
HIST 2211 - Modern Africa (3)
or INTL 2101 - Introduction to African Studies (3)
HIST 2240 - Twentieth Century Europe, 1913 to the Present (3)
or INTL 2301 - Introduction to European Studies (3)
INTL 1101 - Introduction to International Studies (3)
INTL 3000 - Topics in International Studies (3)
POLS 1130 - Comparative Politics (3)
POLS 1140 - International Relations (3)
POLS 3141 - European Politics (3)
POLS 3143 - African Politics (3)
POLS 3144 - Latin American Politics (3)
POLS 3148 - Chinese Politics (3)
POLS 3164 - U.S.-Latin American Relations (3)
POLS 3165 - East Asia in World Affairs (3)
POLS 3169 - African International Relations (3)
SPAN 3029 - Cultural Dimensions of Doing Business with Spanish-Speaking Countries (3)

Foreign Language Requirement (3-4 hours)
Students must complete one additional 2000-level foreign language course beyond the departmental foreign language requirement. The following courses would meet this requirement:

- FREN 2202 - Intermediate French II (3)
- FREN 2210 - Introduction to Business French (3)
- GERM 2202 - Intermediate German II (3)
- ITLN 2202 - Intermediate Italian II (3)
- JAPN 2201 - Intermediate Japanese I (4)
- PORT 2202 - Intermediate Portuguese II (3)
- RUSS 2201 - Intermediate Russian I (4)
- SPAN 2202 - Intermediate Spanish II (3)
- SPAN 2210 - Introduction to Spanish for Commerce (3)

International, non-native English speakers must score a minimum of 550 on the TOEFL, a minimum of 85 on the MELAB.

Total = 15 Credit Hours

Undergraduate Certificate in Leadership Studies
Students electing the Certificate in Leadership Studies may be enrolled in any undergraduate major. In addition to completing the standard core and required track courses for their majors, students must complete 18 credit hours of coursework as listed:

**Required Courses (9 credit hours)**
- COMM 3135 - Leadership Theory and Group Dynamics (3)
- COMM 3136 - Leadership, Service and Ethics (3)
- COMM 4410 - Professional Internship (3)

**Ethics Courses (3 credit hours)**
*One course from the following:*
- PHIL 3210 - Ethical Theory (3)
- PHIL 3340 - Business Ethics (3)
- POLS 3175 - Philosophy of Law (3)

**Elective Courses (6 credit hours)**
- AERO 3101 - Leadership and Management (O)
- AERO 3102 - Defense Administration and Military Management (O)
- COMM 2105 - Small Group Communication (3)
- COMM 2107 - Interpersonal Communication (3)
- INTL 1231 - Introduction to Outdoor Adventure (2)
- INTL 2236 - Challenge Course Activities (2)
- INTL 3230 - Wilderness Trip Leading (3)
- INTL 3235 - Challenge Course Facilitation (3)
- MGMT 3140 - Management and Organizational Behavior (3)
- MGMT 3287 - Managerial Leadership (3)
- PSYC 2171 - Introduction to Industrial/Organizational Psychology (3)
- POLS 3112 - The Presidency (3)
- POLS 4110 - North Carolina Student Legislature (3, O, W)

Certificate Total = 18 Credit Hours

Early Entry: Master of Arts in Communication Studies
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

**Admission Requirements**
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Acceptable scores on the appropriate graduate standardized test (e.g., GRE)
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

**Continued Enrollment Requirements**
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

**Double-Counted Courses**
This Early Entry Program is also accelerated; up to 6 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 6 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

**More Information**
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.
For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

- Minor in Criminal Justice
- Early Entry: M.S. in Criminal Justice

The undergraduate program in Criminal Justice and Criminology addresses issues confronting the entire criminal justice system, from the nature of crime and delinquency, to society’s varied responses to it. A Major in Criminal Justice provides a broad educational background emphasizing social science and basic knowledge regarding crime and social control. Students at UNC Charlotte learn about crime as a social problem, develop a critical understanding of the criminal justice system, and study the principles involved in achieving planned change.

The department also offers a Concentration in Crime Analytics, a Minor in Criminal Justice, and a Master of Science degree program in Criminal Justice. Please see the UNC Charlotte Graduate Catalog for details on the M.S. degree.

Bachelor of Arts in Criminal Justice

Undergraduate students pursuing the academic study of the criminal justice system, a career in the criminal justice field, or preparation for graduate study may select the criminal justice curriculum leading to a Bachelor of Arts degree.

Admission Requirements
Freshmen
- Minimum GPA: 2.0
- Pre-Major/Prerequisite Courses: Completion of the below courses with a grade of C or above in each course. Students are allowed no
more than two attempts at all core classes required to be admitted to the major (grades of D, F, and W all count as attempts).

- CJUS 1100
- CJUS 1200
- CJUS 2340
- CJUS 2370
- STAT 1222, STAT 1220, or STAT 1221

Declaration of Major: Current UNC Charlotte students interested in becoming a Criminal Justice major should refer to the Department of Criminal Justice website for specific instructions.

Transfers
- Minimum GPA: 2.0
- Pre-Major/Prerequisite Courses: Transfer students from a North Carolina community college can receive credit for the following courses. Transfer credit will only be awarded for courses completed with a grade of C or above.
  - CJUS 1100
  - CJUS 2350
  - CJUS 2360
  - CJUS 2361
  - CJUS 2380
  - STAT 1222, STAT 1220, or STAT 1221
- Other: Transfer students who have an A.A.S. degree in Criminal Justice receive General Education exemption and may be awarded up to 15 credit hours for criminal justice coursework completed with a grade of C or above. Transfer courses from four-year institutions or out-of-state community colleges will be evaluated on a case-by-case basis.

Degree Requirements
A Major in Criminal Justice requires 40 credit hours of coursework.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (40 credit hours)

Foundation Courses (10 credit hours)
- CJUS 1100 - Foundations of Criminal Justice (3)
- CJUS 1200 - Professionalism in Criminal Justice and Criminology (1)
- CJUS 2340 - Criminological Theory (3)
- CJUS 2370 - Research Methods in Criminal Justice (3)*

*Note: In lieu of CJUS 2370, students may also take one of the following options:
- POLS 2220 - Political Science Methods (4) (W)
- PSYC 2101 - Research Methodology I (3)
  and PSYC 2103 - Research Methodology II (3) (W)
- PSYC 2104 - Critical Thinking About Research (3) (W)
- SOCY 3155 - Sociological Research Methods (4)
  and SOCY 3155L - Sociological Research Methods Laboratory (O)

Statistics Course (3 credit hours)
Select one of the following:
- STAT 1220 - Elements of Statistics I (BUSN) (3)

Crime Analytics Course (3 credit hours)
Select one of the following:
- CJUS 4370 - Data Analytics and Crime (3) (W)
- CJUS 4371 - Criminal Data Sources, Data Management, and Cleaning (3) (W)
- CJUS 4372 - Drug Analytics (3) (W)
- CJUS 4373 - Intelligence Analysis and Security Analytics (3) (W)
- CJUS 4374 - Geospatial Analytics and Crime (3) (W)
- CJUS 4375 - Community-Oriented Policing, Problem-Solving, and Crime Analysis (3) (W)
- CJUS 4376 - Social Network Analysis (3) (W)
- CJUS 4377 - Crime Measurement and Data Visualization (3) (W)
- CJUS 4378 - Causes and Consequences of Crime (3) (W)

Major Elective Courses (24 credit hours)
Select eight of the following not already taken:
- CJUS 2320 - Introduction to Courts (3)
- CJUS 2350 - Introduction to Corrections (3)
- CJUS 2360 - Ethics and the Criminal Justice System (3)
- CJUS 2361 - Juvenile Justice (3)
- CJUS 2380 - Introduction to Law Enforcement (3)
- CJUS 3000 - Topics in Criminal Justice (3)
- CJUS 3220 - Criminal Justice and the Law (3)
- CJUS 3321 - Criminal Procedure (3)
- CJUS 3322 - Juvenile Law (3)
- CJUS 3323 - Correctional Law (3)
- CJUS 3340 - The Juvenile Offender (3)
- CJUS 3341 - The Criminal Offender (3)
- CJUS 3351 - Community Corrections (3)
- CJUS 3352 - Institutional Corrections (3)
- CJUS 3353 - Juvenile Corrections (3)
- CJUS 3354 - Punishment and Freedom (3)
- CJUS 3360 - Criminal Justice Learning Community I (3) (W)
- CJUS 3361 - Criminal Justice Learning Community II (3) (O)
- CJUS 3362 - Famous Criminal Trials of the Twentieth Century (3)
- CJUS 3363 - Mediation and Conflict Resolution (3) (O)
- CJUS 3364 - The Administration of Criminal Justice (3) (O,W)
- CJUS 3365 - Interviewing in Criminal Justice (3) (O)
- CJUS 3366 - Domestic Violence (3)
- CJUS 3367 - Problems and Decisions in Criminal Justice (3) (W)
- CJUS 3380 - Law Enforcement Behavioral Systems (3)
- CJUS 3381 - Security and Loss Prevention (3)
- CJUS 3382 - Community-Oriented Policing and Problem-Solving (3)
- CJUS 3400 - Criminal Justice Internship (1 to 6)
- CJUS 3800 - Directed Individual Study (1 to 4)
- CJUS 4000 - Topics in Criminal Justice (1 to 6)
- CJUS 4320 - Evidence (3) (O,W)
- CJUS 4340 - Seminar on Sexual Assault (3) (O)
- CJUS 4350 - Victims and the Criminal Justice System (3) (O)
- CJUS 4351 - Violence and the Violent Offender (3)
- CJUS 4352 - Serial Murder (3) (O)
- CJUS 4360 - Drugs, Crime, and the Criminal Justice System (3)
- CJUS 4361 - International Criminal Justice (3)
- CJUS 4362 - Computer Crime (3)
- CJUS 4363 - Gender, Race, and Justice (3) (O)
- CJUS 4364 - Elders and the Criminal Justice System (3)
- CJUS 4370 - Data Analytics and Crime (3) (W)
CJUS 4371 - Criminal Data Sources, Data Management, and Cleaning (3) (W)
CJUS 4372 - Drug Analytics (3) (W)
CJUS 4373 - Intelligence Analysis and Security Analytics (3) (W)
CJUS 4374 - Geospatial Analytics and Crime (3) (W)
CJUS 4375 - Community-Oriented Policing, Problem-Solving, and Crime Analysis (3) (W)
CJUS 4376 - Social Network Analysis (3) (W)
CJUS 4377 - Crime Measurement and Data Visualization (3) (W)
CJUS 4378 - Causes and Consequences of Crime (3) (W)
CJUS 4400 - Research Practicum (3)
CJUS 4700 - Honors Capstone Project in Criminal Justice (3)
SPAN 3221 - Spanish for Criminal Justice (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

**Grade Requirements**
A minimum of a C average in all criminal justice coursework and a minimum grade of C in CJUS 1100, CJUS 1200, CJUS 2340, CJUS 2370 (or POLS 2220; PSYC 2101 and PSYC 2103; PSYC 2104; or SOCY 3155 and SOCY 3155L); and STAT 1222 (or STAT 1220 or STAT 1221) are required.

**Internship**
While not required, students are encouraged to participate in internship programs available through the department. Internships provide opportunities to combine theory and practice in a realistic setting, and to make more judicious career decisions.

**Bachelor of Arts in Criminal Justice with Concentration in Crime Analytics**
This concentration provides students with an in-depth and deeper understanding of how data is used to address issues related to crime and the criminal justice system. Students seeking to earn the B.A. in Criminal Justice with a Concentration in Crime Analytics must complete 15 credit hours in analytically based courses.

**Admission Requirements**

**Freshmen**
- **Minimum GPA:** 2.0
- **Pre-Major/Prerequisite Courses:** Completion of the below courses with a grade of C or above in each course. Students are allowed no more than two attempts at all core classes required to be admitted to the major (grades of D, F, and W all count as attempts).
  - CJUS 1100
  - CJUS 1200
  - CJUS 2340
  - CJUS 2370
  - STAT 1222, STAT 1220, or STAT 1221
- **Declaration of Major:** Current UNC Charlotte students interested in becoming a Criminal Justice major should refer to the Department of Criminal Justice website for specific instructions.

**Transfers**
- **Minimum GPA:** 2.0
- **Pre-Major/Prerequisite Courses:** Transfer students from a North Carolina community college can receive credit for the following courses. Transfer credit will only be awarded for courses completed with a grade of C or above.
  - CJUS 1100
  - CJUS 2350
  - CJUS 2360
  - CJUS 2361
  - CJUS 2370
  - STAT 1222, STAT 1220, or STAT 1221
- **Other:** Transfer students who have an A.A.S. degree in Criminal Justice receive General Education exemption and may be awarded up to 15 credit hours for criminal justice coursework completed with a grade of C or above. Transfer courses from four-year institutions or out-of-state community colleges will be evaluated on a case-by-case basis.

**Degree Requirements**
A Major in Criminal Justice with a Concentration in Crime Analytics requires 40 credit hours of coursework; 15 of which must be taken from the Crime Analytics concentration elective courses.

**General Education Courses (37-41 credit hours)**
For details on required courses, refer to the General Education Program.

**Foreign Language Requirement (0-8 credit hours)**
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

**Major Courses (40 credit hours)**

**Foundation Courses (10 credit hours)**
CJUS 1100 - Foundations of Criminal Justice (3)
CJUS 1200 - Professionalism in Criminal Justice and Criminology (1) - CJUS 2340 - Criminological Theory (3)
CJUS 2370 - Research Methods in Criminal Justice (3)*

*Note: In lieu of CJUS 2370, students may also take one of the following options:
- POLS 2220 - Political Science Methods (4) (W)
- PSYC 2101 - Research Methodology I (3)
- and PSYC 2103 - Research Methodology II (3) (W)
- PSYC 2104 - Critical Thinking About Research (3) (W)
- SOCY 3155 - Sociological Research Methods (4)
- and SOCY 3155L - Sociological Research Methods Laboratory (0)

**Statistics Course (3 credit hours)**
Select one of the following:
STAT 1220 - Elements of Statistics I (BUSN) (3)
STAT 1221 - Elements of Statistics I (3)
STAT 1222 - Introduction to Statistics (3)

**Concentration Courses (12 credit hours)**
Select four of the following:
CJUS 4370 - Data Analytics and Crime (3) (W)
CJUS 4371 - Criminal Data Sources, Data Management, and Cleaning (3) (W)
CJUS 4372 - Drug Analytics (3) (W)
CJUS 4373 - Intelligence Analysis and Security Analytics (3) (W)
CJUS 4374 - Geospatial Analytics and Crime (3) (W)
CJUS 4375 - Community-Oriented Policing, Problem-Solving, and Crime Analysis (3) (W)
CJUS 4376 - Social Network Analysis (3) (W)
CJUS 4377 - Crime Measurement and Data Visualization (3) (W)
CJUS 4378 - Causes and Consequences of Crime (3) (W)

**Major Elective Courses (15 credit hours)**
Select five of the following not already taken:
CJUS 2320 - Introduction to Courts (3)
CJUS 2350 - Introduction to Corrections (3)
CJUS 2360 - Ethics and the Criminal Justice System (3)
CJUS 2361 - Juvenile Justice (3)
CJUS 2380 - Introduction to Law Enforcement (3)
CJUS 3000 - Topics in Criminal Justice (3)
CJUS 3320 - Criminal Justice and the Law (3)
CJUS 3321 - Criminal Procedure (3)
CJUS 3322 - Juvenile Law (3)
CJUS 3323 - Correctional Law (3)
CJUS 3340 - The Juvenile Offender (3)
CJUS 3350 - Criminal Justice and the Law (3)
CJUS 3351 - Community Corrections (3)
CJUS 3352 - Institutional Corrections (3)
CJUS 3353 - Juvenile Corrections (3)
CJUS 3354 - Punishment and Freedom (3)
CJUS 3360 - Criminal Justice Learning Community I (3) (W)
CJUS 3361 - Criminal Justice Learning Community II (3) (0)
CJUS 3362 - Famous Criminal Trials of the Twentieth Century (3)
CJUS 3363 - Mediation and Conflict Resolution (3) (O)
CJUS 3364 - The Administration of Criminal Justice (3) (0,W)
CJUS 3365 - Interviewing in Criminal Justice (3) (O)
CJUS 3366 - Domestic Violence (3)
CJUS 3367 - Problems and Decisions in Criminal Justice (3) (W)
CJUS 3380 - Law Enforcement Behavioral Systems (3)
CJUS 3381 - Security and Loss Prevention (3)
CJUS 3382 - Community-Oriented Policing and Problem-Solving (3)
CJUS 3400 - Criminal Justice Internship (1 to 6)
CJUS 3800 - Directed Individual Study (1 to 4)
CJUS 4000 - Topics in Criminal Justice (1 to 6)
CJUS 4320 - Evidence (3) (0,W)
CJUS 4340 - Seminar on Sexual Assault (3) (O)
CJUS 4350 - Victims and the Criminal Justice System (3) (0)
CJUS 4351 - Violence and the Violent Offender (3)
CJUS 4360 - Drugs, Crime, and the Criminal Justice System (3)
CJUS 4361 - International Criminal Justice (3)
CJUS 4362 - Computer Crime (3)
CJUS 4363 - Gender, Race, and Justice (3) (O)
CJUS 4364 - Elders and the Criminal Justice System (3)
CJUS 4370 - Data Analytics and Crime (3) (W)
CJUS 4371 - Criminal Data Sources, Data Management, and Cleaning (3) (W)
CJUS 4372 - Drug Analytics (3) (W)
CJUS 4373 - Intelligence Analysis and Security Analytics (3) (W)
CJUS 4374 - Geospatial Analytics and Crime (3) (W)
CJUS 4375 - Community-Oriented Policing, Problem-Solving, and Crime Analysis (3) (W)
CJUS 4376 - Social Network Analysis (3) (W)
CJUS 4377 - Crime Measurement and Data Visualization (3) (W)
CJUS 4378 - Causes and Consequences of Crime (3) (W)
CJUS 4400 - Research Practicum (3)
CJUS 4700 - Honors Capstone Project in Criminal Justice (3)

SPAN 3221 - Spanish for Criminal Justice (3)

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

**Grade Requirements**
A minimum of a C average in all criminal justice coursework and a minimum grade of C in CJUS 1100, CJUS 1200, CJUS 2340, CJUS 2370 (or POLS 2220; PSYC 2101 and PSYC 2103; PSYC 2104; or SOCY 3155 and SOCY 3155L); and STAT 1222 (or STAT 1220 or STAT 1221) are required.

**Internship**
While not required, students are encouraged to participate in internship programs available through the department. Internships provide opportunities to combine theory and practice in a realistic setting, and to make more judicious career decisions.

**Honors Program in Criminal Justice**
The Honors Program in Criminal Justice identifies the creative, imaginative, and/or exceptional student and encourages and recognizes the development of this student’s potential. The Honors Program in Criminal Justice encourage independent study and shall evaluate each student’s achievement in terms of her or his ability to proceed as a self-directed learner.

**Admission Requirements**
- Admission to program during Sophomore or Junior year
- Overall GPA of 3.2
- GPA of 3.5 in the Criminal Justice major

**Course Requirements**
- CJUS 4700
- 6 additional credit hours of honors coursework, either in HONR courses or in designated Honors sections

**Certification Requirements**
- A grade of A in CJUS 4700
- Overall GPA of 3.2
- GPA of 3.5 in the Criminal Justice major
- Complete the Application to Candidacy process for graduating with honors, as directed by the Honors College

The honors notation will appear on the student’s official transcript.

**Minor in Criminal Justice**
A Minor in Criminal Justice is available to all undergraduates except Criminal Justice majors and requires 18 approved credit hours.

**Minor Requirements**
**Required Courses (6 credit hours)**
CJUS 1100 - Foundations of Criminal Justice (3)
CJUS 2340 - Criminological Theory (3)

**Elective Courses (12 credit hours)**
Select four of the following courses. At least 6 of the 12 elective credit hours must be completed at the 3000- or 4000-levels.

Total = 18 Credit Hours

Grade Requirements
A GPA of at least 2.0 in CJUS courses is required to graduate, including a minimum grade of C in CJUS 1100 and CJUS 2340.

Early Entry: Master of Science in Criminal Justice
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Three letters of recommendation
- Completed online application at mygradschool.uncc.edu

Continued Enrollment Requirements
- Maintain a minimum 3.0 overall undergraduate GPA

Double-Counted Courses
Up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
Undergraduate Programs

- **B.A. in English**
  - Creative Writing
  - Language and Digital Technology
  - Literature and Culture
  - Pedagogy
  - Honors Program
- **Minor in Children’s Literature and Childhood Studies**
- **Minor in Diverse Literatures and Cultural Studies**
- **Minor in English**
- **Minor in Linguistics**
- **Minor in Technical/Professional Writing**
- **Early Entry: M.A. in English**

The Department of English fosters students’ abilities to think critically, to read analytically, and to communicate effectively in oral and written form. A Major in English helps students develop an “advanced literacy” that enables them to excel in analytical argumentation, problem-solving, and understanding diverse cultural perspectives.

Specifically, English classes teach students to engage critically with various kinds of “texts”: from daily language use to technical manuals, from Shakespearean drama to film, from lyric poetry to children’s literature. As a result, English majors learn:

- How to work critically and creatively with a diverse array of complex ideas and texts
- How to construct effective written texts of various kinds
- How to think flexibly about the world we occupy and to adapt written and oral communication accordingly
- How to move easily and confidently between the realms of written, spoken, visual, and electronic communication
- How to operate and communicate effectively across disciplines in the humanities and sciences
- How to understand the complex interactions between written texts and social worlds (real and virtual)
- How to locate, critically analyze, and make use of research materials
- How to engage with a variety of writing and digital technologies

Because advanced literacy skills are in high demand, students find careers in fields such as teaching, technical/professional writing, creative writing, editing, publishing, advertising, public relations, and nonprofits, as well as in business, financial services, and banking. Others pursue advanced degrees in literature, law, medicine, teaching, and business administration.

English graduate students often go on to pursue similar careers, but their advanced degrees give them additional opportunities for professional achievement. Master’s students are successful in their pursuit of Ph.D. degrees, as well as positions in professional writing, teaching, and administration. Please see the [UNC Charlotte Graduate Catalog](https://english.uncc.edu) for details on graduate programs.

---

**Bachelor of Arts in English**

A Major in English leading to the B.A. degree consists of 36 credit hours of coursework at the 2000-level or above beyond the General Education requirements. Students may also elect an optional concentration from one of four areas:

1) Creative Writing  
2) Language and Digital Technology  
3) Literature and Culture  
4) Pedagogy

**Admission Requirements**

**Freshmen and Transfers**

- **Minimum GPA:** 2.0  
- **Declaration of Major:** Change of Major forms accepted year-round; students must make an advising appointment during SOAR and when declaring the major
- **Transferable Credit Hours:** 24

**Degree Requirements**

Students in the major must complete a minimum of 36 credit hours in English courses, including 12 credit hours at the 4000-level. No more than 12 credit hours in ENGL at the 2000-level may be counted toward the major. Of the 36 required credit hours, at least 3 credit hours must be in a departmentally designated diversity course. English majors not electing a specific concentration must complete the following:

**General Education Courses (37-41 credit hours)**

For details on required courses, refer to the General Education Program.

**Foreign Language Courses**

Students with an English major (all concentrations) are required to demonstrate foreign language competency at the intermediate level. Intermediate proficiency requires completion of a 2000-level or above course in a foreign language that uses the Latin alphabet (e.g., French, German, Italian, Latin, Portuguese, Spanish) or a 1202-level course in a language that does not use the Latin alphabet (e.g., Chinese, Ancient Greek, Modern Greek, Hebrew, Japanese, Russian, etc.).

**Foundation Course (3 credit hours)**

**COMM 1101 - Public Speaking (3)**

**Major Courses (36 credit hours)**

**Creative Writing Courses**

Select two of the following:

- **ENGL 2125 - Imagined Worlds: Creative Writing Laboratory (3)**  
- **ENGL 2126 - Introduction to Creative Writing (3)**  
- **ENGL 2127 - Introduction to Poetry Writing (3)**  
- **ENGL 2128 - Introduction to Fiction Writing (3)**  
- **ENGL 2200 - Contemporary Literature (3)**  
- **ENGL 2201 - Contemporary Poetry (3)**  
- **ENGL 2202 - Contemporary Fiction (3)**  
- **ENGL 3201 - Intermediate Poetry Writing (3)**

ENGL 4262 - Language and Diversity (3)
ENGL 4270 - Studies in Writing, Rhetoric, and Identity (3)
ENGL 4273 - Studies in Writing, Rhetoric, and Identity (3)
ENGL 4325 - Trauma and Memory in Contemporary American Literature (3)

Minor Courses (18 credit hours)
A Major in English also requires completion of either a minor established at UNC Charlotte or an individually designed course of study consisting of a minimum of 18 credit hours in coursework selected from English and/or other departments, approved by the student’s Department of English advisor and undergraduate coordinator. Students with a second major in another department are considered to have satisfied the minor requirement.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
A GPA of 2.0 or above in all English courses above the 1000-level is required for graduation.

Bachelor of Arts in English with Concentration in Creative Writing

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Declaration of Major: Change of Major forms accepted year-round; students must make an advising appointment during SOAR and when declaring the major
- Transferable Credit Hours: 24

Degree Requirements
Students in the major must complete a minimum of 36 credit hours in English courses, including 12 credit hours at the 4000-level.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Courses
Students with an English major (all concentrations) are required to demonstrate foreign language competency at the intermediate level. Intermediate proficiency requires completion of a 2000-level or above course in a foreign language that uses the Latin alphabet (e.g., French, German, Italian, Latin, Portuguese, Spanish) or a 1202-level course in a language that does not use the Latin alphabet (e.g., Chinese, Ancient Greek, Modern Greek, Hebrew, Japanese, Russian, etc.).

Major Courses (21 credit hours)
Introductory Creative Writing Courses (6 credit hours)
Select two of the following:
ENGL 2125 - Creative Writing Laboratory (3)
ENGL 2126 - Introduction to Creative Writing (3) (W)
ENGL 2127 - Introduction to Poetry (3)
ENGL 2128 - Introduction to Fiction Writing (3)
ENGL 2200 - Contemporary Literature (3)
ENGL 2201 - Contemporary Poetry (3)
ENGL 2202 - Contemporary Fiction (3)

Intermediate Creative Writing Course (3 credit hours)
Select one of the following:
ENGL 3201 - Intermediate Poetry Writing (3)
ENGL 3202 - Intermediate Fiction Writing (3)

Advanced Creative Writing Courses (6 credit hours)
Select two of the following:
ENGL 4202 - Advanced Poetry Writing (3) (W)
or ENGL 4208 - Poetry Writing Workshop (3) (W)
ENGL 4203 - Advanced Fiction Writing (3) (W)
or ENGL 4209 - Fiction Writing Workshop (3) (W)
ENGL 4206 - Creative Nonfiction (3) (W)
ENGL 4207 - Writing Young Adult Fiction (3) (W)
ENGL 4290 - Advanced Creative Project (3) (O)

Literature Courses (6 credit hours)
Select one course from two of the following categories:

Pre-1800 British Literature
ENGL 3211 - Medieval Literature (3)
ENGL 3212 - British Renaissance Literature (3)
ENGL 3213 - British Literature of the Restoration and 18th Century (3)

Post-1800 British Literature
ENGL 3214 - Romantic British Literature, 1785-1832 (3)
ENGL 3215 - British Victorian Literature (3)
ENGL 3216 - British Literature in Transition, 1870-1914 (3)
ENGL 3217 - Modern British Literature (3)

Pre-1900 American Literature
ENGL 3231 - Early African American Literature (3)
ENGL 3232 - Early American Literature (3)
ENGL 3233 - American Literature of the Romantic Period (3)
ENGL 3234 - American Literature of the Realist and Naturalist Periods (3)

Post-1900 American Literature
ENGL 3125 - Introduction to U.S. Latinx Literature (3)
ENGL 3235 - Modern American Literature (3)
ENGL 3236 - African American Literature, Harlem Renaissance to Present (3)
ENGL 3237 - Modern and Recent U.S. Multiethnic Literature (3)
ENGL 4325 - Trauma and Memory in Contemporary American Literature (3)

Children’s Literature
ENGL 3102 - Literature for Young Children (3)
ENGL 3103 - Children’s Literature (3)
ENGL 3104 - Literature for Adolescents (3)
ENGL 4102 - British Children’s Literature (3)
ENGL 4103 - American Children’s Literature (3)
ENGL 4104 - Multiculturalism and Children’s Literature (3)

Restricted Elective Courses (15 credit hours)
Select fifteen additional credit hours in ENGL courses at the 2000-level or above.

Minor Courses (18 credit hours)
A Major in English also requires completion of either a minor established at UNC Charlotte or an individually designed course of study consisting of a minimum of 18 credit hours in coursework selected from English and/or other departments, approved by the student’s Department of English advisor and undergraduate coordinator. Students with a second major in another department are considered to have satisfied the minor requirement.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
A GPA of 2.0 or above in all English courses above the 1000-level is required for graduation.

Bachelor of Arts in English with Concentration in Language and Digital Technology

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Declaration of Major: Change of Major forms accepted year-round; students must make an advising appointment during SOAR and when declaring the major
- Transferable Credit Hours: 24

Degree Requirements
Students in the major must complete a minimum of 36 credit hours in English courses, including 12 credit hours at the 4000-level.

General Education Courses (37-41 credit hours)

ENGL 4165 - Multiculturalism and Language* (3)
ENGL 4167 - The Mind and Language (3)
ENGL 4181 - Writing and Designing User Documents (3)
ENGL 4204 - Expository Writing (3)
ENGL 4235 - History of the Book (3)
ENGL 4260 - History of Global Englishes (3)*
ENGL 4262 - Language and Diversity (3)*
ENGL 4263 - Linguistics and Language Learning (3)
ENGL 4270 - Studies in Writing, Rhetoric and Literacy - (3)*
ENGL 4272 - Studies in The Politics of Language and Writing (3) (W)
ENGL 4273 - Studies in Writing, Rhetoric, and Identity (3) (W)*
ENGL 4274 - Visual Rhetoric (3) (W)
ENGL 4275 - The Rhetoric of Technology (3) (W)
ENGL 4277 - Digital Literacies (3)
ENGL 4400 - Theory and Practice of Tutoring Writing (3)
ENGL 4405 - Literacy and Language (3)
ENGL 4410 - Professional Internship (3)

*Courses are designated Department of English Diversity “D” courses.

Restricted Elective Courses (9 hours)
Select nine additional credit hours in ENGL courses at the 2000-level or above.

Minor Courses (18 credit hours)
A Major in English also requires completion of either a minor established at UNC Charlotte or an individually designed course of study consisting of a minimum of 18 credit hours in coursework selected from English and/or other departments, approved by the student’s Department of English advisor and undergraduate coordinator. Students with a second major in another department are considered to have satisfied the minor requirement.
Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
A GPA of 2.0 or above in all English courses above the 1000-level is required for graduation.

Bachelor of Arts in English with Concentration in Literature and Culture

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Declaration of Major: Change of Major forms accepted year-round; students must make an advising appointment during SOAR and when declaring the major
- Transferable Credit Hours: 24

Degree Requirements
Students in the major must complete a minimum of 36 credit hours in English courses, including 12 credit hours at the 4000-level.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Courses
Students with an English major (all concentrations) are required to demonstrate foreign language competency at the intermediate level. Intermediate proficiency requires completion of a 2000-level or above course in a foreign language that uses the Latin alphabet (e.g., French, German, Italian, Latin, Portuguese, Spanish) or a 1202-level course in a language that does not use the Latin alphabet (e.g., Chinese, Ancient Greek, Modern Greek, Hebrew, Japanese, Russian, etc.).

Major Courses (6 credit hours)
ENGL 2100 - Writing about Literature (3) (W)
ENGL 3100 - Approaches to Literature (3) (W)

Concentration Required Courses (12 credit hours)
Students must satisfy the each of the following distribution requirements. Transfer courses will be considered, but only two courses at the 2000-level will be credited toward these distribution requirements. Approved alternatives at the 4000-level can be used to satisfy this requirement.

British Literature Before 1800
Select one of the following:
ENGL 3211 - Medieval Literature (3)
ENGL 3212 - British Renaissance Literature (3)
ENGL 3213 - British Literature of the Restoration and 18th Century (3)

British Literature After 1800
Select one of the following:
ENGL 3214 - Romantic British Literature, 1785-1832 (3)
ENGL 3215 - British Victorian Literature (3)
ENGL 3216 - British Literature in Transition, 1870-1914 (3)
ENGL 3217 - Modern British Literature (3)

American Literature Before 1900
Select one of the following:
ENGL 3231 - Early African American Literature (3)*
ENGL 3232 - Early American Literature (3)
ENGL 3233 - American Literature of the Romantic Period (3)
ENGL 3234 - American Literature of the Realist and Naturalist Periods (3)

American Literature After 1900
Select one of the following:
ENGL 3125 - Introduction to U.S. Latinx Literature (3)
ENGL 3235 - Modern American Literature (3)
ENGL 3236 - African American Literature, Harlem Renaissance to present (3)*
ENGL 3237 - Modern and Recent U.S. Multietnic Literature (3)*
ENGL 4325 - Trauma and Memory in Contemporary American Literature (3)

*Courses are designated Department of English Diversity “D” courses.

Concentration Elective Courses (9 credit hours)
Select three of the following:
ENGL 2072 - Topics in Literature and Film (3)
ENGL 2074 - Topics in Children's Literature, Media, and Culture (3)
ENGL 2100 - Writing About Literature (3) (W)

American Literature Survey Course (3 credit hours)
Select one of the following:
ENGL 3125 - Introduction to U.S. Latinx Literature (3)
ENGL 3231 - Early African American Literature (3)
ENGL 3232 - Early American Literature (3)
ENGL 3233 - American Literature of the Romantic Period (3)
ENGL 3234 - American Literature of the Realist and Naturalist Periods (3)
ENGL 3235 - Modern American Literature (3)
ENGL 3236 - African American Literature, Harlem Renaissance to Present (3)
ENGL 3237 - Modern and Recent U.S. Multiethnic Literature (3)

College of Liberal Arts & Sciences
2021-2022 UNC CHARLOTTE UNDERGRADUATE CATALOG
ENGL 4325 - Trauma and Memory in Contemporary American Literature (3)

British Literature Survey Course (3 credit hours)
Select one of the following:
ENGL 3211 - Medieval Literature (3)
ENGL 3212 - British Renaissance Literature (3)
ENGL 3213 - British Literature of the Restoration and 18th Century (3)
ENGL 3214 - Romantic British Literature, 1785-1832 (3)
ENGL 3215 - British Victorian Literature (3)
ENGL 3216 - British Literature in Transition, 1870-1914 (3)
ENGL 3217 - Modern British Literature (3)

American Literature or British Literature Survey Course (3 credit hours)
Select one additional course from the list of American Literature or British Literature Survey Courses above.

Linguistics Course (3 credit hours)
Select one of the following:
ENGL 2161 - Grammar for Writing (3)
ENGL 3132 - Introduction to Contemporary American English (3)
ENGL 4161 - Modern English Grammar (3)

World Literature Course (3 credit hours)
Select one of the following:
ENGL 4111 - Ancient World Literature (3) *
ENGL 4112 - Modern World Literature (3) *
or an approved course in World Literature at the 2000-level or above

Shakespeare Course (3 credit hours)
Select one of the following:
ENGL 4116 - Shakespeare's Early Plays (3)
ENGL 4117 - Shakespeare's Late Plays (3)
or an approved alternative

Writing and Rhetoric Course (3 credit hours)
Select one of the following:
ENGL 4270 - Studies in Writing, Rhetoric, and Literacy (3) (W)
ENGL 4271 - Studies in Writing, Rhetoric, and New Media (3) (W)
ENGL 4272 - Studies in the Politics of Language and Writing (3) (W)
ENGL 4273 - Studies in Writing, Rhetoric, and Identity (3) (W) *

*Courses are designated Department of English Diversity “D” courses.

Restricted Elective Course (3 credit hours)
Select one additional ENGL course at the 2000-level or above.

Minor Courses/Teacher Licensure
Students who elect the Pedagogy Concentration seeking Teacher Licensure must complete a Minor in Secondary Education. Students in the Pedagogy Concentration who are not seeking Teacher Licensure may substitute other approved courses at the 3000-level or above for ENGL 3104, ENGL 4111, ENGL 4112, and ENGL 4254.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours
Minor Requirements
The Minor in Children’s Literature and Childhood Studies consists of 18 credit hours at the 2000-level and above.

Required Core Course (3 credit hours)
ENGL 3103 - Children’s Literature (3)

Elective Courses (15 credit hours)
Children’s Literature Courses (6 credit hours)
Select two of the following:
- ENGL 2074 - Topics in Children’s Literature, Media, and Culture (3)
- ENGL 3074 - Topics in Children’s Literature, Media, and Culture (3)
- ENGL 3102 - Literature for Young Children (3)
- ENGL 3104 - Literature for Adolescents (3)
- ENGL 4074 - Topics in Children’s Literature, Media, and Culture (3)
- ENGL 4102 - British Children's Literature (3)
- ENGL 4103 - American Children's Literature (3)
- ENGL 4104 - Multiculturalism and Children’s Literature (3)
- ENGL 4207 - Writing Young Adult Fiction (3) (W)

Child-Related Courses (6 credit hours)
Select two of the following:
- AMST 3210 - Childhood in America (3) (recommended)
- ANTH 2090 - Topics in Anthropology (1 to 3) (related to CLCS)
- CHFD 2111 - Foundations in Child and Family Development (3)
- CHFD 2113 - Development: Prenatal to 36 Months (3)
- CJUS 2361 - Juvenile Justice (3)
- CJUS 3353 - Juvenile Corrections (3)
- EDUC 2100 - Foundations of Education and Diversity in Schools (3)
- EDUC 2150 - Human Development Across the Life Span (3)
- ENGL 4263 - Linguistics and Language Learning (3)
- MUSC 2191 - Incorporating Music Into the Elementary Classroom (3)
- NURS 2200 - Human Growth and Development (3)
- PHIL 3940 - Philosophy of Education (3)
- PSYC 2120 - Child Psychology (3)
- PSYC 2121 - Adolescent Psychology (3)
- SOCY 2132 - Sociology of Marriage and the Family (3)
- SPED 2100 - Introduction to Students with Special Needs (3)
- THEA 4360 - Theatre for Young Audiences (3)
- WGST 3130 - Perspectives on Motherhood (3)

Children’s Literature or Child-Related Course (3 credit hours)
Select one additional Children’s Literature or Child-Related Course not already taken from the above lists.

Minor Total = 18 Credit Hours

Grade Requirements
A GPA of 2.0 or above in all English courses taken is required for graduation.

Note: The Department of English allows English majors who minor in Children’s Literature and Childhood Studies, Diverse Literatures and Cultural Studies, Linguistics, or Technical/Professional Writing to count only two courses from the minor toward fulfillment of the major degree requirements.

---

Minor in Diverse Literatures and Cultural Studies
The Minor in Diverse Literatures and Cultural Studies provides students with an opportunity to study literatures and cultures in more contexts and forms of diversity. Students explore the ways in which the academic study of diverse literatures and cultures is linked to other disciplines that focus on particular aspects of diversity. Students may select from a wide range of courses in African American Literature and Culture, Africana Studies, American Indian Literature and Culture, Anthropology, Latino/Latina Literature and Culture, Women’s and Gender Studies, and History.

Minor Requirements
The Minor in Diverse Literatures and Cultural Studies consists of 18 credit hours at the 2000-level and above.

Foundation Course (3 credit hours)
ENGL 2100 - Writing About Literature (3) (W)

Elective Courses in the Department of English (9 credit hours)
Select three of the following:
- ENGL 2301 - Introduction to African American Literature (3)
- ENGL 3125 - Introduction to U.S. Latina Literature (3)
- ENGL 3157 - Twentieth Century Black American Literature: Prose (3)
- ENGL 3158 - Gender and African American Literature (3)
- ENGL 3159 - African American Poetry (3)
- ENGL 3231 - Early African American Literature (3)
- ENGL 3236 - African American Literature, Harlem Renaissance to Present (3)
- ENGL 3237 - Modern and Recent U.S. Multiethnic Literature (3)
- ENGL 4002 - Women and Literature (3)
- ENGL 4111 - Ancient World Literature (3)
- ENGL 4112 - Modern World Literature (3)
- ENGL 4104 - Multiculturalism and Children’s Literature (3)
- ENGL 4165 - Multiculturalism and Language (3)
- ENGL 4260 - History of Global Englishes (3)
- ENGL 4262 - Language and Diversity (3)
- ENGL 4267 - Language and Culture in Digital Spaces (3)
- ENGL 4270 - Studies in Writing, Rhetoric, and Literacy (3) (W)
- ENGL 4271 - Studies in Writing, Rhetoric, and New Media (3) (W)
- ENGL 4273 - Studies in Writing, Rhetoric, and Identity (3) (W)
- ENGL 4325 - Trauma and Memory in Contemporary American Literature (3)

Note: The below topics courses and/or other ENGL courses may be substituted if designated with a “D” in the course’s section number within Banner, or with the permission of Director of Undergraduate Studies.

- ENGL 2090 - Topics in English (3)
- ENGL 3050 - Topics in English (3)
- ENGL 4050 - Topics in English (3)
- ENGL 4072 - Topics in Literature and Film (3)
- ENGL 4074 - Topics in Children’s Literature, Media, and Culture (3)

Elective Courses in Other Departments (6 credit hours)
Select two of the following courses in a Diversity Subject Area from a department(s) outside of English:

**Minor Total = 18 Credit Hours**

**Grade Requirements**

A GPA of 2.0 or above in all English courses taken is required for graduation.

*Note: The Department of English allows English majors who minor in Children’s Literature and Childhood Studies, Diverse Literatures and Cultural Studies, Linguistics, or Technical/Professional Writing to count only two courses from the minor toward fulfillment of the major degree requirements.*

**Minor in Linguistics**

An interdisciplinary Minor in Linguistics provides students with an opportunity to study linguistics within an interdisciplinary context. This minor recognizes that the academic study of linguistics is linked to other disciplines that focus on particular aspects of language as the object of study. Students participating in this minor select from a range of courses in Anthropology, English, Computer Sciences, Communication Studies, Cognitive Science, Languages and Culture Studies, Philosophy, and Teaching English as a Second Language.

**Minor Requirements**

The Minor in Linguistics consists of 18 credit hours of coursework at the 2000-level and above.

**Foundation Course (3 hours)**

Minor in Technical/Professional Writing

Minor Requirements
The Minor in Technical/Professional Writing consists of 21 credit hours of coursework.

Required Courses (6 credit hours)
ENGL 3180 - Language and Digital Technology (3)
ENGL 4410 - Professional Internship (3)

Elective English Courses (9 credit hours)
Select three of the following:
ENGL 3162 - Language and the Virtual World (3)
ENGL 4008 - Topics in Advanced Technical Communication (3)
ENGL 4180 - Theories of Technical Communication (3)
ENGL 4181 - Writing and Designing User Documents (3)
ENGL 4182 - Information Design and Digital Publishing (3)
ENGL 4183 - Editing with Digital Technologies (3)

Note: ENGL 2116 is a prerequisite for some courses in the minor. Students should declare the minor before trying to enroll in ENGL 2116 to assure a place in the course.

Elective Technical/Scientific Courses (6 credit hours)
Select two of the following courses from the 2000-4000 level in a technical or scientific discipline that cannot also count towards General Education Requirements:
ACCT 2121 - Principles of Accounting I (3)
ACCT 2122 - Principles of Accounting II (3)

ANTH 4120 - Intercultural Communications (3)
ITSC 3688 - Computers and their Impact on Society (3) (O, W)
PHIL 3420 - Philosophy of Language (3)
PHIL 3430 - Mind, Cognition, Behavior (3)
PHIL 3510 - Advanced Logic (3)
PSYC 3122 - Cognitive and Language Development (3)
PSYC 3216 - Introduction to Cognitive Science (3)
PSYC 4316 - Cognitive Neuroscience (3)
SPAN 4231 - Spanish Phonetics (3)
SPAN 4232 - Spanish Linguistics (3)
SPAN 4233 - History of the Spanish Language (3)
TESL 4204 - Inclusive Classrooms for Immigrant Students (3)
TESL 4600 - Literacy Development for Second Language Learners (3)
TRAN 3601 - Introduction to Translation and Interpreting Studies (3)

Minor Total = 18 Credit Hours

Grade Requirements
A GPA of 2.0 or above in all English courses taken is required for graduation.

Note: The Department of English allows English majors who minor in Children’s Literature and Childhood Studies, Diverse Literatures and Cultural Studies, Linguistics, or Technical/Professional Writing to count only two courses from the minor toward fulfillment of the major degree requirements.

ANTH 2xxx-3xxx - Anthropology Elective (3)
ARSC 3000 - Topics in Arts and Sciences (3)
BINF 2111 - Introduction to Bioinformatics Computing (4)
BIOL 2120 - General Biology I (3)
BIOL 2130 - General Biology II (3)
BIOL 2259 - Fundamentals of Microbiology (3)
BIOL 2274 - Human Anatomy and Physiology II (3)
BLAW 3150 - Business Law I (3)
CHEM 2131 - Organic Chemistry I (3)
CHEM 2132 - Organic Chemistry II (3)
CHEM 2141 - Survey of Physical Chemistry (3)
CHEM 3090 - Special Topics in Chemistry (1 to 4)
CHEM 3111 - Quantitative Analysis (4)
CHEM 3121 Inorganic Chemistry (3)
CEGR 2101 - Civil Engineering Drawing (2)
CEGR 2102 - Engineering Economic Analysis (3)
CEGR 2104 - Surveying and Site Design (3)
CEGR 2154 - Design Project Lab (2) (O)
CHFD 2111 - Foundations in Child and Family Development (3)
CHFD 2113 - Development: Prenatal to 36 Months (3)
CHFD 3113 - Families as the Core of Partnerships (3)
CHFD 3114 - Responsive Approaches for Infants and Toddlers (3)
CHFD 3115 - An Ecological Approach to Learning and Development - Early Childhood to Pre-Adolescence (3) (W)

SEGR 2xxx-3xxx - Systems Engineering Elective (3)
SOCY 2xxx-3xxx - Sociology Elective (3)
TRAN 3601 - Introduction to Translation and Interpreting Studies (3)

Note: Students may request permission to take other appropriate courses from the Technical/Professional Writing Program Coordinator.

Minor Total = 21 Credit Hours

Grade Requirements
A GPA of 2.0 or above in all English courses taken is required for graduation.

Note: The Department of English allows English majors who minor in Children’s Literature and Childhood Studies, Diverse Literatures and Cultural Studies, Linguistics, or Technical/Professional Writing to count only two courses from the minor toward fulfillment of the major degree requirements.

Honors Program in English
The Department of English offers an Honors Program that consists of three courses.

Admission Requirements
Entry into all honors courses is by permission of the department only, and requires the completion of one ENGL 4000-level course with a grade of A, as well as a GPA of 3.0 in ENGL courses and 3.0 overall. Though English Honors requirements are normally completed in their final year, qualified students are urged to discuss the English Honors Program with the Department’s Honors Coordinator early in their career.

Course Requirements
Any or all of these three required courses may also be used toward a student’s electives in a concentration within the English major, applied as appropriate depending on the course content.

ENGL 4750 - English Honors Seminar (3)
ENGL 4751 - English Honors Thesis Seminar (3)
ENGL 4752 - English Honors Thesis (3)

Certification Requirements
To continue in the Honors Program, candidates must:
• Maintain a 4.0 GPA in honors courses

To be awarded honors in English, candidates must:
• Write an honors capstone thesis of “A” quality (i.e., a grade of A for either ENGL 4751 or ENGL 4752) as judged by a committee of three readers
• Receive a grade of A in ENGL 4750
• Achieve a minimum GPA of 3.50 in all ENGL courses
• Achieve a minimum overall GPA of 3.0
• In the semester before graduation, candidates must either present their capstone thesis at an undergraduate colloquium or submit the thesis to an undergraduate journal
• Formally apply and be approved for Honors Candidacy by the Honors College, a process that will be initiated as part of either ENGL 4751 or ENGL 4752

The honors notation will appear on a student’s official transcript.

Early Entry: Master of Arts in English
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
• Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
• Minimum 3.2 overall undergraduate GPA
• Submit application online at mygradschool.uncc.edu and provide supporting documents
• Recommendation by the Graduate Program Director and approved by the Graduate School

Note: Standardized test scores (e.g., GRE, MAT) are not required.

Continued Enrollment Requirements
• Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
• Maintain a minimum 3.0 overall undergraduate GPA
• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 6 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 6 credit hours of graduate coursework may be “double counted” toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry. For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
Film Studies
filmstudies.uncc.edu

Undergraduate Programs
• Minor in Film Studies
• Undergraduate Certificate in Video Production

Film Studies is an interdisciplinary program housed within the College of Liberal Arts & Sciences. Courses from Africana Studies, American Studies, Art, Communications, Dance, English, History, Languages and Culture Studies, Religious Studies, Theatre, and Women’s and Gender Studies are included.

Minor in Film Studies
The interdisciplinary Minor in Film Studies is designed to allow students to develop knowledge of film and video as an art form while fulfilling the requirements for one of the approved degree programs at the University. The Film Studies Minor offers courses that focus directly or implicitly on cinema. The program is designed for students who wish to understand film better as an art form, as popular culture, and as a major medium of communication. The courses that satisfy the minor represent different aspects of film and video art: (1) Culture, (2) History, (3) Theory, and (4) Production. Students have the option to also earn a Certificate in Video Production with the Minor in Film Studies by completing additional coursework in production.

Minor Requirements
The Minor in Film Studies requires the completion of 19 credit hours of approved courses.

Required Courses (4 credit hours)
FILM 2201 - Introduction to Film (3)
FILM 4690 - Capstone in Film Studies (1)

Elective Courses (15 credit hours)
Select five of the following:
AFRS 2105 - Black Images in the Media in the U.S. (3)
COMM 3050 - Topics in Communication Studies (3) (Film topic)
COMM 3052 - Topics in Mass Media (3)
COMM 3125 - New Media for Communications (3)
ENGL 2106 - Film Criticism (3)
ENGL 3050 - Topics in English (3) (Film topic)
FILM 3050 - Topics in Film (3) (W) (Includes screenwriting)
FILM 3051 - Topics in Film (3) (Includes video production)
FILM 3120 - The Fundamentals of Video/Film Production (3)
FILM 3121 - Intermediate Film/Video Production (3)
FILM 3220 - Introduction to Screenwriting (3) (W)
FILM 3221 - Intermediate Screenwriting: Feature Film (3) (W)
FILM 3800 - Directed Project in Film or Video (1 to 3)

Minor Total = 19 Credit Hours

Minor in Film Studies with an Undergraduate Certificate in Video Production
Students have the option to earn a Certificate in Video Production with the Minor in Film Studies by completing additional coursework in production.

Minor/Certificate Requirements
The Minor in Film Studies with a Certificate in Video Production requires the completion of 22 credit hours of approved courses.

Required Courses (10 credit hours)
FILM 2201 - Introduction to Film (3)
FILM 3120 - The Fundamentals of Video/Film Production (3)
FILM 3220 - Introduction to Screenwriting (3)
FILM 4690 - Capstone in Film Studies (1)

Elective Production Courses (6 credit hours)
Select two of the following:
FILM 3121 - Intermediate Film/Video Production (3)
FILM 3221 - Intermediate Screenwriting: Feature Film (3)
FILM 3800 - Directed Project in Film or Video (1 to 3)
FILM 4120 - Production and Directing (3)
FILM 4220 - Film Festivals: Production and Theory (3)
FILM 4410 - Professional Internship in Film Studies (1 to 6) (No more than 3 credit hours may count toward the minor)

Elective Interdisciplinary Courses (6 credit hours)
Select two courses from the departments and disciplines offering courses for the program in Film Studies. Courses that satisfy the minor are offered by Africana Studies, American Studies, Communication Studies, English, Film, French, German, History, Languages and Culture Studies, Religious Studies, and Women’s and Gender Studies. All courses counting toward the minor are listed on the Film Studies website before pre-registration in the semester before they are being offered.

Total = 22 Credit Hours
Undergraduate Certificate in Video Production

The Certificate in Video Production is designed for students who wish to develop practical skills in the art of filmmaking. It can be earned in conjunction with the Minor in Film Studies or as a stand-alone certificate. The courses that lead to a Certificate in Video Production represent different technical and aesthetic aspects of filmmaking, including screenwriting, directing, producing, acting, and cinematography using video.

Certificate Requirements

The Certificate in Video Production requires the completion of 16 credit hours of approved courses.

Required Courses (4 credit hours)

FILM 2201 - Introduction to Film (3)
FILM 4690 - Capstone in Film Studies (1)

Elective Courses (12 credit hours)

Select four of the following:

FILM 3120 - Introduction to Video Production
FILM 3121 - Intermediate Film/Video Production (3)
FILM 3220 - Introduction to Screenwriting
FILM 3221 - Intermediate Screenwriting: Feature Film Screenwriting (3)
FILM 4120 - Production and Directing (3)
FILM 4220 - Film Festivals: Production and Theory (3)
FILM 4410 - Professional Internship in Film Studies (1 to 6) (No more than 3 credit hours may count toward the minor)

Certificate Total = 16 Credit Hours

Undergraduate Programs

- B.S. in Earth and Environmental Sciences
  - Atmospheric Sciences
  - Environmental Sciences
  - Hydrological Sciences
  - Honors Program
- B.A. in Environmental Studies
  - Secondary Teaching
  - Honors Program
- B.A. in Geography
  - Comprehensive Social Studies Teacher Licensure
  - Honors Program
- B.S. in Geography
  - GIScience and Technology
  - Urban and Regional Planning
  - Urban, Social, and Economics (USE) Geography
  - Honors Program
- B.S. in Geology
  - Honors Program
- B.S. in Meteorology
  - Honors Program
- Minor in Earth Sciences
- Minor in Environmental Sciences
- Minor in Geography
- Minor in Geology
- Early Entry: M.S. in Earth Science
- Early Entry: M.A. in Geography

The Department of Geography and Earth Sciences is a cross-disciplinary unit offering different but related programs of study. Earth and Environmental Sciences include the study of the hydrosphere, atmosphere, biosphere, and surficial materials, and the influence of humans on those systems. Environmental Studies is concerned with the intersection of human activities and the environment with particular focus on policy and planning. Geography emphasizes the locational aspects of human activities as they are distributed over the Earth. Geology examines the composition, history, and structure of the whole Earth. Meteorology provides a rigorous study of the fundamental atmospheric processes that lead to weather and climate. A unique advantage of the department’s interdisciplinary curriculum is that all five programs of study are inter-related in many ways. For example, a geography student interested in land use planning might gain important experience and knowledge from coursework in soil science or hydrology. An Earth and Environmental Sciences major might better understand soil formation and chemical weathering with courses in petrology and optical mineralogy. Emphasis in one area should not preclude class work or
interest in another. In fact, this type of interdisciplinary work is often critical to the student’s program of study.

**Facilities**
The Department of Geography and Earth Sciences is housed in the McEniry building. Supported Geography and Earth Science teaching and research activities include the areas of hydrology, fluvial processes, hydrogeology, geochemistry, soils, petrology, mineralogy, sedimentology, geomorphology, structural geology, meteorology, and atmospheric science.

Numerous classrooms and laboratories are available for instructional and research purposes. An extensive collection of rock, mineral and fossil samples are available for use in teaching. Laboratory analytical capabilities present within the department include: ion chromatography, total carbon and nitrogen analysis, flow injection analysis, ICP-MS, atomic absorption spectroscopy, X-ray diffraction (XRD), laser particle size analysis, gas chromatography and water isotope analysis. Rock cutting and thin-sectioning equipment along with petrographic microscopes are available for studies in mineralogy and petrology. Field studies are supported with deployable equipment such as total stations, GPS, surface and groundwater sampling and monitoring devices, data loggers, soil boring equipment and ground penetrating radar. The Department has vans and a four-wheel drive truck available for transportation to field research sites and for class field trips.

The meteorology program includes a wide variety of resources for our students and faculty, including the meteorology computer lab (Linux with all standard packages, Matlab, and other analysis software), access to campus high performance computing resources, broadcast meteorology studio, rooftop weather station, additional weather stations for field deployment, a rooftop lightning sensor, weather balloon launch system, hand-held and laboratory-grade air quality monitoring equipment, hand-held Kestral weather monitors, solar flux monitors, and skew-T charts. Graduate and undergraduate researchers working with faculty enjoy a shared office space, and a conference room with touch-screen presentation display and video conferencing capability.

Students have access to four departmental computer labs, three PC labs and one Linux lab, three of which have pay-for-print printers. The three PC labs contain geographic information system (GIS) and remote sensing software, including ArcGIS and ENVI software packages. These workstations are used to support courses in GIS, remote sensing and image processing, and spatial decision support systems, as well as other classes in the department. The Linux lab is used for our meteorology classes and includes Matlab and other software.

**Earth and Environmental Sciences**
The Earth and Environmental Sciences program provides students with a foundation in data collection and processing methods, as well as relevant coursework that is integrated with applied chemistry, biology, and mathematics. Elective courses allow students to customize the degree toward specific interests or skills, and internships and independent research opportunities further enhance students’ preparedness. In addition to the basic degree, students can specialize in one of three concentrations: atmospheric, hydrologic, or environmental sciences. Graduates find employment in environmental consulting and the public sector as well as pursue graduate degrees. For details, see the Graduate Catalog regarding the M.S. in Earth Sciences program.

---

**Bachelor of Science in Earth and Environmental Sciences**
A Major in Earth and Environmental Sciences leading to a B.S. degree consists of a minimum of 64 credit hours of required and elective coursework. The General Degree consists of 21 credit hours of required Earth Science (ESCI), Geography (GEOG), and Geology (GEOL) courses, 18 credit hours of required extra-departmental coursework, and 25 credit hours of elective courses. Concentrations in Atmospheric Sciences, Environmental Sciences, and Hydrologic Sciences are also available with their own individual degree requirements.

**Admission Requirements**
- **Freshmen**
  - *Minimum GPA: n/a*
  - *Declaration of Major: Students may declare the major at any time before graduation.*
- **Transfers**
  - *Minimum GPA: 2.0*
  - *Transferable Credit Hours: 24*

**Degree Requirements**
- **General Education Courses (37-41 credit hours)**
  For details on required courses, refer to the General Education Program.  
- **Foreign Language Requirement (0-8 credit hours)**
  For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.
- **Major Courses (21 credit hours)**
  - ESCI 1101 - Earth Science-Geography (ESCI) (3)
  - ESCI 1101L - Earth Science-Geography Lab (1)
  - ESCI 2101 - The Environmental Dilemma (3)
  - ESCI 2210 - Field Methods in the Earth and Environmental Sciences (3)
  - ESCI 3101 - Global Environmental Change (3)
  - GEOG 3120 - Fundamentals of Geographic Information Systems (4)
  - GEOL 1200 - Physical Geology (3)
  - GEOL 1200L - Physical Geology Lab (1)
- **Related Courses (18 credit hours)**
  - CHEM 1251L - Principles of Chemistry Lab (1)
  - CHEM 1251L - Principles of Chemistry Lab (1)
  - MATH 1241 - Calculus I (3)
  - PHYS 1101 - Introductory Physics I (3)
  - PHYS 1101L - Introductory Physics Lab (1)

**Mathematics and Statistics Courses**
- Select one of the following:
  - MATH 1242 - Calculus II (3)
  - STAT 1220 - Elements of Statistics I (BUSN) (3)
  - STAT 1221 - Elements of Statistics I (3)
  - STAT 1222 - Introduction to Statistics (3)

**Science and Lab Courses**
- Select one of the following:
  - CHEM 1252 - Principles of Chemistry (3)
  - CHEM 1252L - Principles of Chemistry Lab (1)
  - PHYS 1102 - Introductory Physics II (3)
Bachelor of Science in Earth and Environmental Sciences with Concentration in Atmospheric Sciences

The B.S. in Earth Sciences with a Concentration in Atmospheric Sciences consists of a minimum of 38 credit hours of required Earth Science (ESCI), Geography (GEOG), Meteorology (METR) and Geology (GEOL) courses, 18 credit hours of required extra-departmental coursework, and 8 credit hours of elective courses.

Admission Requirements
Freshmen
- Minimum GPA: n/a
- Declaration of Major: Students may declare the major at any time before graduation.

Transfers
- Minimum GPA: 2.0
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (21 credit hours)
ESCI 1101 - Earth Science-Geography - (3)
ESCI 1101L - Earth Science-Geography Lab (1)
ESCI 2101 - The Environmental Dilemma (3)
ESCI 2210 - Field Methods in the Earth and Environmental Sciences (3)
GEOG 3120 - Fundamentals of Geographic Information Systems (4)
GEOL 1200 - Physical Geology (3)
GEOL 1200L - Physical Geology Lab (1)

Concentration Courses (17 credit hours)
ESCI 4170 - Fundamentals of Remote Sensing (4)
METR 3140 - Introduction to Meteorology and Climatology (3)
METR 3210 - Atmospheric Thermodynamics (3)
METR 3220 - Physical Meteorology (3)
METR 3245 - Synoptic Meteorology (4)

Related Courses (18 credit hours)

GEOL 1210L - Earth History Laboratory (1)
GEOL 3190 - Environmental Geology (3)
GEOL 4105 - Geomorphology (4)
METR 3140 - Introduction to Meteorology and Climatology (3)
METR 3245 - Synoptic Meteorology (4)

Total = 20 Credit Hours

Minor in Environmental Sciences
The Minor in Environmental Sciences is an interdisciplinary program in the College of Liberal Arts & Sciences that is designed for students pursuing any UNC Charlotte degree who are interested in careers related to studying or managing the environment.

Minor Requirements
To obtain a Minor in Environmental Sciences, students must complete 18 credit hours offered from the Department of Geography and Earth
Sciences and the Department of Biological Sciences. Participating students have some flexibility in choosing elective courses that reflect their specific area of interest within the environmental field. If students are Geography and Earth Sciences or Biological Science majors, they must take at least 9 of the 15 elective credits outside of their major. Prerequisites are required for most of the elective classes (notably GEOL 1200 and lab, ESCI 1101 and lab, BIOL 2120, and BIOL 2130 and lab). Courses that are required for a student’s major cannot be counted toward the minor as well, but electives taken for a major can also be counted for the minor.

**Foundation Course (3 credit hours)**
ESCI 2101 - Environmental Dilemma (3)

**Elective Courses (15 credit hours)**
Select from the following:

**Biological Sciences**
BIOL 3144 - Ecology (3)
BIOL 3202 - Horticulture (3) (W)
BIOL 3222 - General Botany (4)
BIOL 3229 - Field Botany (3)
BIOL 3231 - Invertebrate Zoology (4)
BIOL 3233 - Vertebrate Zoology (4)
BIOL 3235 - Biology of Insects (3) -
BIOL 3236 - General Zoology (3)
BIOL 4111 - Evolution (3)
BIOL 4162 - Advanced Biotechnology I (3) (W)
BIOL 4235 - Mammalogy (4)
BIOL 4242 - The Biology of Birds (3)
BIOL 4243 - Animal Behavior (3)

**Earth Sciences**
ESCI 3105 - Oceanography (3)
ESCI 3170 - Environmental Quality Management (3)
ESCI 3180 - Environmental Impact Analysis (3)
ESCI 4140 - Hydrological Processes (4)

GEOL 3190 - Environmental Geology (3)
GEOL 4145 - Fundamentals of Hydrogeology (4) (W)

**Meteorology**
METR 4150 - Applied Climatology (3) (W)
METR 4240 - Boundary-Layer Meteorology (3)

**Minor Total = 18 Credit Hours**

**Grade Requirements**
Students must have and maintain a GPA of at least 2.75 to participate in the program.

**Early Entry: Master of Science in Earth Sciences**
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

**Admission Requirements**
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Acceptable scores on the appropriate graduate standardized test (e.g., GRE)
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

**Continued Enrollment Requirements**
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

**Double-Counted Courses**
This Early Entry Program is also accelerated; up to 9 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 9 credit hours of graduate coursework may be “double counted” toward both the undergraduate and graduate degrees.

**More Information**
For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

**Environmental Studies**
The Environmental Studies program focuses on human interactions with the environment. Areas of study are broad, but focus on the natural and built environments and the relationship between them. Coursework covers areas such as environmental and land use planning, climate change, resource distribution and management, environmental policy,
population dynamics, environmental health, food security, and conservation.

Students majoring in Environmental Studies pursue careers in environmental consulting, environmental planning, land development planning, public policy, environmental law and advocacy, park services, and teaching. This degree also prepares students for graduate studies in environmental studies, public policy, and resource management. There are employment opportunities in both government and private industry with the greatest range of positions available to students who earn graduate degrees. For details, see the UNC Charlotte Graduate Catalog regarding the M.A. in Geography and M.S. in Earth Sciences program.

**Bachelor of Arts in Environmental Studies**

A Major in Environmental Studies leading to a B.A. degree consists of a minimum of 53 credit hours of required Earth Science (ESCI), Geology (GEOL), Geography (GEOG), and extra-departmental courses, and 16 hours of elective coursework. Students are responsible for meeting the course prerequisites for all extra-departmental coursework.

**Admission Requirements**

**Freshmen**
- **Minimum GPA:** n/a
- **Declaration of Major:** Students may declare the major at any time before graduation.

**Transfers**
- **Minimum GPA:** 2.0
- **Transferable Credit Hours:** 24

**Degree Requirements**

**General Education Courses (37-41 credit hours)**
For details on required courses, refer to the General Education Program.

**Foreign Language Requirement (0-8 credit hours)**
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

**Major Courses (37 credit hours)**
- ESCI 1101 - Earth Science-Geography (3)
- ESCI 1101L - Earth Science-Geography Lab (1)
- ESCI 2101 - The Environmental Dilemma (3)
- ESCI 4600 - Earth Sciences Seminar (1)
- GEOG 1105 - The Location of Human Activity (3)
- GEOG 2103 - Elements of GIScience & Technologies (4)
- GEOG 3215 - Environmental Planning (3) (W)
- GEOG 4215 - Urban Ecology (3)
- GEOL 1200 - Physical Geology (3)
- GEOL 1200L - Physical Geology Lab (1)
- GEOL 3190 - Environmental Geology (3)
- Select one of the following:
  - ESCI 2210 - Field Methods in the Earth and Environmental Sciences (3)
  - GEOG 2110 - Introduction to Geographic Research (3)

**Statistics Course**
- **Select one of the following:**
  - STAT 1220 - Elements of Statistics I (BUSN) (3)
  - STAT 1221 - Elements of Statistics I (3)
  - STAT 1222 - Introduction to Statistics (3)

**Restricted Elective Courses (16 credit hours)**
Sixteen credit hours of elective coursework may be selected from additional ESCI, GEOL, and GEOG courses, plus any of the following extra-departmental courses:
- BIOL 3144 - Ecology (3)
- BIOL 3144L - Ecology Laboratory (1) (W)
- PHIL 3520 - Philosophy of Science (3)
- STAT 2223 - Elements of Statistics II (3)

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

**Bachelor of Arts in Environmental Studies, Secondary Teaching Option**

Students preparing to teach high school earth science may become licensed by earning the B.A. in Environmental Studies degree including the Secondary Teaching Option.

**Admission Requirements**

**Freshmen**
- **Minimum GPA:** n/a
- **Declaration of Major:** Students may declare the major at any time before graduation.

**Transfers**
- **Minimum GPA:** 2.0
- **Transferable Credit Hours:** 24

**Degree Requirements**

**General Education Courses (37-41 credit hours)**
For details on required courses, refer to the General Education Program.

**Foreign Language Requirement (0-8 credit hours)**
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

**Major Courses (30 credit hours)**
- ESCI 1101 - Earth Sciences-Geography (3)
- ESCI 1101L - Earth Sciences-Geography Lab (1)
- ESCI 2101 - The Environmental Dilemma (3)
- ESCI 3105 - Oceanography (3)
- GEOG 3215 - Environmental Planning (3) (W)
- GEOL 1200 - Physical Geology (3)
- GEOL 1200L - Physical Geology Lab (1)
- GEOL 1210 - Earth History (3)
- GEOL 1210L - Earth History Lab (1)
The Geography program is oriented toward the concepts and methodologies of social science that stress the importance of location. Geography is the study of spatial variation – of how things vary from place to place on the surface of the earth; how places are connected to each other, and the factors that shape how places interact and change over time.

Geography is studied at many levels, from the local to the global, and from many perspectives (i.e., social, cultural, political, economic, and environmental). Conceptual treatment of geographic issues deal with urbanization; globalization; migration; sustainability; patterns of land use; transportation systems; the flow of goods, services, and information; business location; planning for the natural and built environment; and human-environmental interaction in both urban and rural settings. Special emphasis is placed on how these factors shape our world, the places we live and work, and the ways in which we interact. Geographic analysis involves information technology; mapping and statistical analysis; social area analysis; remote sensing and satellite imagery; and especially the use of Geographic Information Systems (GIS). A host of courses prepare students in both the concepts and methods of contemporary spatial analysis. The department also leads the interdisciplinary Minor in Urban Studies. Geography majors find careers in urban and regional planning, cartography, GIS applications and development, marketing research, transportation planning, real estate development, and teaching. While a wide range of career options are available to undergraduate geography majors, graduate studies provide additional options. For details, see the UNC Charlotte Graduate Catalog regarding the M.A. in Geography program.

Bachelor of Arts in Geography
A Major in Geography leading to a B.A. degree consists of 40 hours in Geography and Earth Sciences coursework.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Declaration of Major: Major can be declared on a rolling basis throughout the year. Students may declare the major at any time before graduation.
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (21 credit hours)
GEOG 1101 - World Regional Geography (3)
GEOG 1103 - Spatial Thinking (4)
GEOG 1105 - Location of Human Activity (3)
GEOG 1110 - Introduction to Urban and Regional Planning (3)
GEOG 2110 - Introduction to Geographic Research (3)
GEOG 4600 - Geography Professional Seminar (1)
ESCI 1101 - Earth Science-Geography (3)
ESCI 1101L - Earth Science-Geography Lab (1)

Restricted Elective Courses (19 credit hours)
Except for required courses, the B.A. degree requires 19 hours of elective coursework numbered 2000 or above, with at least six hours in course work at the 4000-level. Up to three elective courses may be selected from courses with the ESCI, GEOL, and METR prefix. Students are encouraged to take additional coursework in related disciplines or to select a second major.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Bachelor of Arts in Geography with Teacher Licensure in Comprehensive Social Studies
The Department of Geography and Earth Sciences, in collaboration with the College of Education and the Department of Middle, Secondary, and K-12 Education, offers a program of geography and professional education courses to prepare students for a North Carolina (9-12) teaching license. Students interested in teaching social studies in the public schools should declare this interest during the first semester of the sophomore year to obtain appropriate advising and prepare for
formal admission to the Minor in Secondary Education. Students should contact the advisor for teacher education within the Department, as well as the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education, for information about the requirements for admission to teacher education, coursework, and the culminating student teaching experience. Additional information about teacher education may be found in the College of Education section of this Catalog.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Declaration of Major: Major can be declared on a rolling basis throughout the year. Students may declare the major at any time before graduation.
- Transferable Credit Hours: 24

Degree Requirements
Students seeking teacher licensure in Comprehensive Social Studies must complete the requirements for the B.A. in Geography including 17 credit hours in required coursework and 19 elective credit hours.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (17 credit hours)
GEOG 1101 - World Regional Geography (3)
GEOG 1103 - Spatial Thinking (4)
GEOG 1105 - Location of Human Activity (3)
GEOG 1110 - Introduction to Urban and Regional Planning (3)
GEOG 2110 - Introduction to Geographic Research (3)
GEOG 4600 - Geography Professional Seminar (1)

Comprehensive Social Studies Courses (18 credit hours)
HIST 1160 - U.S. History to 1865 (3)
HIST 1161 - U.S. History Since 1865 (3)
HIST 1121 - European History Since 1660 (3)
HIST 2000 - Topics in U.S. History (3) or above (one Topics Course: Africa, Asia, or Latin America)
POLS 1110 - American Politics (3)
POLS 1130 - Comparative Politics (3)
or POLS 1150 - International Politics (3)

Restricted Elective Courses (19 credit hours)
Except for required courses, the B.A. degree requires 19 hours of elective coursework numbered 2000 or above, with at least six hours in coursework at the 4000-level. Up to three elective courses may be selected from courses with the ESCI, GEOL, and METR prefix. Students are encouraged to take additional coursework in related disciplines or to select a second major.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
In addition to requirements set by the College of Education, students must have earned a GPA of 2.5 or above in all social studies courses for admission to student teaching and ultimately for licensure.

Bachelor of Science in Geography
A Major in Geography leading to a B.S. degree consists of 49 credit hours of Geography and Earth Sciences and at least six credit hours of extra-departmental coursework (55 credit hours total).

Although students pursuing a B.S. in Geography are not required to declare a concentration, formal concentrations within the major include Urban, Social, and Economic Geography; Urban and Regional Planning; and GIScience and Technology. Other plans of study may be developed; students should contact their advisors to develop a program of study that matches their career objectives. Students should work closely with their academic advisors to ensure that their program of study is tailored to their career goals.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Declaration of Major: Major can be declared on a rolling basis throughout the year.
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (31 credit hours)
GEOG 1101 - World Regional Geography (3)
GEOG 1103 - Spatial Thinking (4)
GEOG 1105 - Location of Human Activity (3)
GEOG 1110 - Introduction to Urban and Regional Planning (3)
GEOG 2110 - Introduction to Geographic Research (3)
GEOG 4600 - Geography Professional Seminar (1)
ESCI 1101 - Earth Science-Geography (3)
ESCI 1101L - Earth Science-Geography Lab (1)
ENGL 2116 - Introduction to Technical Communication (3)
MATH or STAT course above MATH 1103 (3) (STAT 1221 or STAT 1222 strongly suggested)

Restricted Elective Courses (18 credit hours)
Select 18 credit hours of elective GEOG coursework at the 3000 or above level. Up to three elective courses may be selected from courses with the ESCI, GEOL, and METR prefix.

Note: this Elective Course requirement does not apply to students in the Concentration in GIScience and Technology.
Bachelor of Science in Geography with Concentration in GIScience and Technology

The Concentration in GIScience and Technology (GIS) focuses on the acquisition, representation, analysis, modeling and dissemination of geospatial information with cutting-edge computer technologies. Emphasis is placed on both fundamentals of GIScience concepts, and building expert knowledge in the use of geospatial technologies such as GIS, remote sensing, spatial analysis and modeling, database development and management, programming, Web GIS, and geovisualization. Students benefit from systematic training through technical and applied GIS coursework taught by GIScience faculty. Graduates with a Concentration in GIScience and Technology find themselves well-prepared to start a career in a geographic information technology field. Career opportunities have been growing fast as GIScience in high demand in a wide range of professions, including GIS analysts, GIS developers, cartographers, urban and city planners, location analysts, transportation planners and natural resource specialists. Strong connections between the department and local and state agencies offer excellent opportunities to help students achieve their career goals. Students pursuing the Concentration in GIScience and Technology are urged to select their courses in consultation with their advisor to develop an appropriate program of study in this rapidly evolving field to ensure it is tailored to their career goals.

Admission Requirements
Freshmen and Transfers
• Minimum GPA: 2.0
• Declaration of Major: Major can be declared on a rolling basis throughout the year.
• Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (31 credit hours)
GEOG 1101 - World Regional Geography (3)
GEOG 1103 - Spatial Thinking (4)
GEOG 1105 - Location of Human Activity (3)
GEOG 1110 - Introduction to Urban and Regional Planning (3)
GEOG 2110 - Introduction to Geographic Research (3)
GEOG 3120 - Fundamentals of Geographic Information Systems (4)
GEOG 4600 - Geography Professional Seminar (1)
ESCI 1101 - Earth Science-Geography (3)
ESCI 1101L - Earth Science-Geography Lab (1)
ENGL 2116 - Introduction to Technical Communication (3)
MATH or STAT course above MATH 1103 (3) *(STAT 1221 or STAT 1222 strongly suggested)

Concentration Courses (13-16 credit hours)
Foundation Course (4 credit hours)
GEOG 2102 - Introduction to Cartographic Design (4)

GIS Technique Courses (6-8 credit hours)
Select two of the following:
GEOG 4103 - Computer Programming for GIS Applications (3)
GEOG 4180 - Web GIS (3)
GEOG 4150 - Spatial Database Development with GPS and GIS (3)
ESCI 4180 - Digital Image Processing in Remote Sensing (4)

GIS Application Courses (3 credit hours)
Select one of the following:
GEOG 3260 - Medical Geography (3)
GEOG 4131 - Environmental Modeling with GIS (4)
GEOG 4132 - Spatial Modeling for Social and Economical Applications (3)
GEOG 4140 - Geographic Information Techniques for Community Planning (4)
GEOG 4155 - Retail Location (3)
ESCI 4170 - Fundamentals of Remote Sensing (4)
GEOG 4265 - Transportation Analysis Methods (3)

GIS Elective Courses (18 credit hours)
Select at least 13 credit hours of additional GIS-related coursework from the courses listed above and an additional 2 to 5 credit hours in elective courses at the 3000 or above level, for a total of 18 credit hours.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Bachelor of Science in Geography with Concentration in Urban and Regional Planning

Planners solve social and environmental problems in the built environment by translating knowledge into action. Planners work across cultural and disciplinary boundaries to create healthy, just, and sustainable communities. Therefore, the Concentration in Urban and Regional Planning supplies students with a trans-disciplinary perspective on major societal issues. Specific areas of instruction include land use, transportation and infrastructure, social justice, urban design, environmental preservation, and analytical methods. Knowledge, skills, and methods gained from the Concentration in Urban and Regional Planning afford students with opportunities for successful careers in public, private, and non-profit organizations. The concentration also prepares students for graduate studies in planning, geography, policy studies, and associated fields.

Admission Requirements
Freshmen and Transfers
• Minimum GPA: 2.0
• Declaration of Major: Major can be declared on a rolling basis throughout the year.
• Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

**Foreign Language Requirement (0-8 credit hours)**
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

**Major Courses (31 credit hours)**
- GEOG 1101 - World Regional Geography (3)
- GEOG 1103 - Spatial Thinking (4)
- GEOG 1105 - Location of Human Activity (3)
- GEOG 1110 - Introduction to Urban and Regional Planning (3)
- GEOG 2110 - Introduction to Geographic Research (3)
- GEOG 3120 - Fundamentals of Geographic Information Systems (4)
- GEOG 4600 - Geography Professional Seminar (1)
- ESCI 1101 - Earth Science-Geography (3)
- ESCI 1101L - Earth Science-Geography Lab (1)
- ENGL 2116 - Introduction to Technical Communication (3)
- MATH or STAT course above MATH 1103 (3) (STAT 1221 or STAT 1222 strongly suggested)

**Restricted Elective Courses (18 credit hours)**
Select 18 credit hours of elective GEOG coursework at the 3000 or above level. Up to three elective courses may be selected from courses with the ESCI, GEOL, and METR prefix.

**Concentration Courses (14 credit hours)**
Students in the Concentration in Urban and Regional Planning should select their courses in consultation with their advisor.

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

---

**Bachelor of Science in Geography with Concentration in Urban, Social, and Economic (USE) Geography**
From the local to the global, patterns of urban growth and development connect people to each other, their communities, and their work at every scale of life. Accordingly, this concentration emphasizes how cities grow, how urban populations change, how urban areas interact with one another as well as the implications of these transitions and interactions at the local, regional and international levels. Coursework is tailored to student interest and typically involves foundational courses in urban, social, and economic dynamics; population, migration, and labor studies; poverty, inequality, and housing; transportation and locational analysis; and global and globalizing cities and the impacts of globalization at all geographic scales. Through classroom and research-based activities, students become grounded in the theory and methods of applied geographical analysis in an increasingly interdependent world that: (1) informs stakeholders and the general public; (2) prepares them for careers in the public and private sectors with consultancies, non-profit agencies, international business, think tanks, transnational organizations, while; (3) preparing them for further academic study.

**Admission Requirements**
**Freshmen and Transfers**
- **Minimum GPA:** 2.0

---

**Degree Requirements**

**General Education Courses (37-41 credit hours)**
For details on required courses, refer to the General Education Program.

**Foreign Language Requirement (0-8 credit hours)**
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

**Major Courses (31 credit hours)**
- GEOG 1101 - World Regional Geography (3)
- GEOG 1103 - Spatial Thinking (4)
- GEOG 1105 - Location of Human Activity (3)
- GEOG 1110 - Introduction to Urban and Regional Planning (3)
- GEOG 2110 - Introduction to Geographic Research (3)
- GEOG 3120 - Fundamentals of Geographic Information Systems (4)
- GEOG 4600 - Geography Professional Seminar (1)
- ESCI 1101 - Earth Science-Geography (3)
- ESCI 1101L - Earth Science-Geography Lab (1)
- ENGL 2116 - Introduction to Technical Communication (3)
- MATH or STAT course above MATH 1103 (3) (STAT 1221 or STAT 1222 strongly suggested)

**Restricted Elective Courses (18 credit hours)**
Select 18 credit hours of elective GEOG coursework at the 3000 or above level. Up to three elective courses may be selected from courses with the ESCI, GEOL, and METR prefix.

**Concentration Courses (14 credit hours)**
Specific coursework for this Concentration in Urban, Social, and Economic Geography is developed in consultation with the student's advisor.

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

---

**Minor in Geography**
The Minor in Geography may be tailored to support a number of majors, such as architecture, business, computer science, and political science.

**Minor Requirements**
A Minor in Geography consists of 19 credit hours.

**Required Courses (10 credit hours)**
- GEOG 1101 - World Regional Geography (3)
- GEOG 1105 - Location of Human Activity (3)
- ESCI 1101 - Earth Science-Geography (3)
- ESCI 1101L - Earth Science-Geography Lab (1)

**Elective Courses (9 credit hours)**
Select three of the following:
- GEOG 2000 - Topics in Geography (14)
- GEOG 2102 - Introduction to Cartographic Design (4)
GEOG 2103 - Elements of GIScience and Technologies (4)
GEOG 2105 - Introduction to Economic Geography (3)
GEOG 2110 - Introduction to Geographic Research (3)
GEOG 2120 - Geographic Information Systems: Survey of Applications and Techniques (4)
GEOG 2121 - Introduction to Development Studies (3)
GEOG 2125 - Business Applications of GIS (3)
GEOG 2140 - Geography of North Carolina (3)
GEOG 2150 - Geography of Polar Regions (3)
GEOG 2155 - Geography of the U.S. and Canada (3)
GEOG 2160 - The South (3)
GEOG 2165 - Patterns of World Urbanization (3)
GEOG 2200 - Introduction to Urban Studies (3)
GEOG 3000 - Topics in Regional Geography (3)
GEOG 3100 - The City and Its Region (3)
GEOG 3105 - Geography of the Global Economy (3)
GEOG 3110 - Urban Political Geography (3)
GEOG 3115 - Urban Transportation Problems (3)
GEOG 3120 - Fundamentals of Geographic Information Systems (4)
GEOG 3150 - Manufacturing Geography (3)
GEOG 3161 - Migration and Borders in a Global World (3)
GEOG 3162 - Europe in the World (3)
GEOG 3190 - Biogeography (3)
GEOG 3200 - Land Use Planning (3)
GEOG 3205 - Internal Structure of the City (3)
GEOG 3210 - Regional Planning (3)
GEOG 3215 - Environmental Planning (3)
GEOG 3220 - Renewable Energy and Regional Energy Markets (3)
GEOG 3250 - World Food Problems (3)
GEOG 3260 - Medical Geography (3)
GEOG 3265 - Behavioral Geography (3)
GEOG 3500 - Geography Cooperative Education and 49ership Experience (0)
GEOG 3501 - Geography Cooperative Education Seminar (1)
GEOG 3605 - Geography of Europe (3)
GEOG 4000 - Topics in Geography (3)
GEOG 4040 - Transportation Topics (3)
GEOG 4101 - Cartographic Techniques (3)
GEOG 4102 - Cartographic Design and Map Construction (3)
GEOG 4103 - Computer Programming for GIS Applications (3)
GEOG 4108 - Sport, Place, and Development (3)
GEOG 4110 - GIS for Non-Majors (3)
GEOG 4130 - Advanced Geographic Information Systems (4)
GEOG 4131 - Environmental Modeling with GIS (4)
GEOG 4132 - Spatial Modeling for Social and Economical Applications (3)
GEOG 4140 - Geographic Information Techniques for Community Planning (4)
GEOG 4150 - Spatial Database Development with GPS and GIS (3)
GEOG 4155 - Retail Location (3)
GEOG 4160 - The Geography of Transportation Systems (3)
GEOG 4180 - Web GIS (3)
GEOG 4209 - Small Town Planning (3)
GEOG 4210 - Urban Planning Methods (3)
GEOG 4215 - Urban Ecology (3)
GEOG 4216 - Landscape Ecology (3)
GEOG 4220 - Housing Policy (3)
GEOG 4240 - Geography of Knowledge and Information (3)
GEOG 4255 - Applied Population Analysis (3)
GEOG 4260 - Transportation Policy Formulation (3)

GEOG 4250 - Urban Social Geography (3)
GEOG 4270 - Evaluation of Transportation Impacts (3)
GEOG 4275 - Urban Field Geography (3)

Total = 19 Credit Hours

Minor in Urban Studies
For details on the Minor in Urban Studies, please refer to the Urban Studies heading later in the College of Liberal Arts & Sciences section of this Catalog.

Early Entry: Master of Arts in Geography
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Acceptable scores on the appropriate graduate standardized test (e.g., GRE)
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 6 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 6 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
The Geology program provides students with a framework of geologic fundamentals integrated with applied chemistry, physics, biology, and mathematics. Elective courses allow students to tailor the degree toward specific interests or skills, and internships and independent research opportunities further enhance students' preparedness. Geology graduates find employment in environmental consulting, drilling or mining, and the public sector as well as pursue graduate degrees. For details, see the Graduate Catalog regarding the M.S. in Earth Sciences program.

Bachelor of Science in Geology

A Major in Geology leading to a B.S. degree consists of a minimum of 45 credit hours in geology and earth sciences and 18 credit hours of extradepartmental courses in chemistry, physics, and mathematics.

Admission Requirements

Freshmen

- Minimum GPA: n/a
- Declaration of Major: Major can be declared at any time before graduation.

Transfers

- Minimum GPA: 2.0
- Declaration of Major: Major can be declared at any time before graduation
- Transferable Credit Hours: 24

Degree Requirements

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (28 credit hours)
ESCI 1101 - Earth Sciences – Geography (3)
ESCI 1101L - Earth Sciences – Geography Lab (1)
GEOL 1200 - Physical Geology (3)
GEOL 1200L - Physical Geology Lab (1)
GEOL 1210 - Earth History (3)
GEOL 1210L - Earth History Laboratory (1)
GEOL 3115 - Mineralogy (4)
GEOL 3124 - Sedimentology (4)
GEOL 3130 - Structural Geology (4)
GEOL 4100 - Igneous and Metamorphic Petrology (4)

Restricted Elective Courses (17 credit hours)
Select from the following:
GEOL 3xx - Geology Electives (3)

MATH 1242 - Calculus II (3)

Select one of the following science courses and its related lab:
CHEM 1252 - Principles of Chemistry (3)
CHEM 1252L Principles of Chemistry Lab (1)
Recommended Courses
These optional courses are recommended for students planning to attend graduate school:
- GEOL 4125 - Field Camp (6)
- GEOL 4800 - Individual Study in Geology (3)
- STAT 2122 - Introduction to Probability and Statistics (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Minor in Geology
A Minor in Geology consists of a minimum of 20 credit hours in Geology courses. The minor can be tailored to support a number of majors, such as engineering, biological sciences, chemistry, or physics. Upper-division earth sciences courses can be applied to the minor with permission of the department.

Minor Requirements
Required Courses (8 hours)
- GEOL 1200 - Physical Geology (3)
- GEOL 1200L - Physical Geology Lab (1)
- GEOL 1210 - Earth History (3)
- GEOL 1210L - Earth History Laboratory (1)

Elective Courses (Select 12 hours)
- GEOL 3115 - Mineralogy (4)
- GEOL 3120 - Geochemistry (3)
- GEOL 3124 - Sedimentology (4)
- GEOL 3130 - Structural Geology (4)
- GEOL 3140 - Paleontology (3)
- GEOL 3190 - Environmental Geology (3)
- GEOL 3190L - Environmental Geology Lab (1)
- GEOL 4410 - Applied Soil Science (4) (O)
- GEOL 4100 - Igneous and Metamorphic Petrology (4)
- GEOL 4105 - Geomorphology (4)
- GEOL 4110 - Stratigraphy (4)
- GEOL 4115 - Applied Geophysics (4) (O)
- GEOL 4120 - Geologic Mapping and Interpretation (4)
- GEOL 4125 - Geologic Summer Field Camp (6)
- GEOL 4130 - Optical Mineralogy (3)
- GEOL 4135 - Tectonics (4)
- GEOL 4145 - Fundamentals of Hydrogeology (4) (W)

- GEOL 4400 - Internship in Geology (3 to 6)
- GEOL 4800 - Individual Study in Geology (1 to 4)

Earth Sciences Courses that May Be Applied to the Minor in Geology with Departmental Permission
- ESCI 4210 - Soil Science (3)
- ESCI 3105 - Oceanography (3)
- ESCI 4140 - Hydrologic Processes (4)
- ESCI 4600 - Earth Sciences Seminar (1)
- ESCI 4155 - Fluvial Processes (4)

Total = 20 Credit Hours

Meteorology
The Meteorology program provides students with an understanding of the atmosphere and the development of methods for applying that knowledge to practical problems. Meteorology is an applied science that combines the fields of physics, chemistry, mathematics, and computer science into an application of understanding the atmosphere. The program exposes students to all of these disciplines, while in parallel applying these science concepts to mesoscale, synoptic, and global scale phenomena.

Students graduate with the skills and experience they need for professional employment within industry, private consulting firms, television, government, and the armed forces or for further study toward graduate degrees. Meteorology also has significant ties to environmental, agricultural, oceanic, and hydrological sciences and, being in an interdisciplinary Geography and Earth Sciences department, allows students to explore these classes and possible minors.

Bachelor of Science in Meteorology
The primary goal of the Bachelor of Science in Meteorology is to advance our understanding of the atmospheric processes that influence weather and climate. This pursuit inherently involves an interdisciplinary approach through the combination of advanced coursework in mathematics, chemistry, physics, statistics, computer science, geology, earth sciences, and meteorology with emphasis on recent basic and applied research. The program is designed to provide the next generation of meteorologists with sufficient knowledge and skills to: (1) effectively monitor and analyze the atmospheric state across a spectrum of temporal and geospatial scales; (2) provide accurate and timely forecasts of ordinary and severe weather; and (3) address relevant contemporary challenges such as global and region climate change, human interactions with the natural environment, and the development of resilient and sustainable communities. To this end, the core meteorological curriculum is composed of courses that collectively provide a broad treatment of multi-scale atmospheric processes, including atmospheric thermodynamics and physics as well as synoptic, dynamic, and mesoscale meteorology.
Admission Requirements
Freshmen
- Minimum GPA: n/a
- Declaration of Major: Major can be declared at any time before graduation.

Transfers
- Minimum GPA: 2.0
- Declaration of Major: Major can be declared at any time before graduation
- Transferable Credit Hours: 24

Degree Requirements
The major comprises a minimum of 70 total credit hours with 34 credit hours of required departmental courses, 9 credit hours of elective departmental courses, and 27 credit hours of required extra-departmental courses. Students are also encouraged to take additional coursework in related disciplines. Students enrolled in the program must complete a total of 120 credit hours.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (34 credit hours)
METR 1102 - Introduction to Meteorology (3)
METR 3140 - Fundamentals of Meteorology (3)
METR 3210 - Atmospheric Thermodynamics (3)
METR 3220 - Physical Meteorology (3)

PHYS 2102 - Physics for Science II (3)
PHYS 2102L - Physics for Science II Lab (1)
STAT 2122 - Introduction to Probability and Statistics (3)
or STAT 3122 - Probability and Statistics I (3)
or MATH 3122 - Probability and Statistics I (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Honors Program in Geography, Geology, Earth and Environmental Sciences, Environmental Studies, or Meteorology
To graduate with Honors in Geography, Geology, Earth and Environmental Sciences, Environmental Studies, or Meteorology, students must meet the following requirements:

1) Satisfy all the requirements for the degree sought and for the major in Geography, Geology, Earth and Environmental Sciences, Environmental Studies, or Meteorology.

2) Maintain at least a 3.2 GPA overall and a 3.2 GPA in all geography, geology, earth sciences, and meteorology courses taken at UNC Charlotte to satisfy major requirements.

3) As part of the final 15 hours of coursework, students must: (a) register for at least 3 hours of the Honors section of GEOG 4800, GEOL 4800, ESCI 4800, or METR 4800 (Individual Study in Geography/Geology/Earth Sciences/Meteorology), and (b) complete a research project and an Honors thesis to be submitted to the Department Honors Committee composed of department faculty that certifies that the project merits Honors distinction. Candidates must earn a grade of A on the thesis research (Honors section of 4800) and present the results in a public forum. To be certified as Honors quality, projects must contain original research and demonstrate a high degree of scholarship.

Students seeking the Honors designation must notify the Department Honors Committee of their proposed research plan during the semester prior to undertaking the research project and must submit an Application for Admission to Candidacy to the Honors Council. Both the Department Honors Committee and the Honors Council must approve the proposed research plan before the student can be admitted to candidacy as an
Honors student.

Faculty members who serve on the Department Honors Committee will not evaluate projects completed under their supervision. Instead, another faculty member will be asked to evaluate the project in question along with the other members of the Department Honors Committee. Should the Department Honors Committee agree to confer Honors on the student’s project, it will certify this to the Department Chair and to the Honors Council. Should the Department Honors Committee decide that the project does not warrant Honors, students will still receive whatever grade the faculty member supervising the project assigns.

The honors notation will appear on a student’s official transcript.

Cooperative Education Program

Students in the Geography and Earth Sciences programs may obtain practical work experience while pursuing their degrees by participating in the Cooperative Education program. The work experience is approved by the department and is closely related to the student’s field of study. The Cooperative Education Program allows qualified students either to alternate semesters of academic study with semesters of full-time work experience or to combine part-time academic study and part-time work during the same semester. Students who are in good standing with the University, have a minimum overall GPA of 2.5, and have completed 30 credit hours are eligible to apply. Transfer students are required to complete 12 credit hours at the University prior to application. Students interested in learning more about participating in this program should contact the Department of Geography and Earth Sciences or the University Career Center.

Gerontology

Undergraduate Programs

- Minor in Gerontology
- Early Entry: Graduate Certificate in Gerontology

The interdisciplinary program in Gerontology is designed to provide students with academic and field experiences in the area of aging. An understanding of the basic processes of aging and of its social consequences is valuable not only for students who wish to pursue careers directly related to gerontology but also for students interested in traditional careers in other areas and interested in their own aging. As the number of older persons in our society continues to increase, it will be important for people in every occupation and profession to have a basic understanding of the aging process. The goal of the program is to provide students with that basic understanding.

Gerontology is both an interdisciplinary and a multidisciplinary field. Invariably, the best research, training, and service programs in gerontology have developed when professionals from a variety of traditional academic disciplines have been afforded the opportunity to work together, each contributing a unique expertise while benefiting from the expertise of others.

Minor in Gerontology

The Minor in Gerontology is built around a core sequence of interdisciplinary and multidisciplinary courses that are taught from a variety of different academic disciplines. This approach is designed to bring together information from multidisciplinary sources, integrate theoretical and applied concepts in gerontology, and communicate to students the need for an integrated approach to meeting the needs of older persons.

A Minor in Gerontology can be useful in combination with a broad range of majors. With the aging population growing rapidly in the U.S. and globally, there are consequences that translate into diverse career options. Projections indicate opportunities in city planning, administration, management, recreation, counseling, physical therapy, social work, program development, research, long-term care administration, and healthcare, for example.

Minor Requirements

The Minor in Gerontology is awarded only to students completing an undergraduate major at UNC Charlotte. A total of 18 credit hours in gerontology courses is required.
Foundation Course (3 credit hours)
GRNT 2100 - Aging and the Lifecourse (3) (SL)
or SOCY 2100 - Aging and the Lifecourse (3) (SL)

*Note: Transfer credit is not accepted for these courses.*

Primary Elective Courses (6 credit hours)
Select at least two of the following:
- GRNT 2124 - Psychology of Aging (3)
or PSYC 2124 - Psychology of Aging (3)
- GRNT 3115 - Health and the Aging Process (3)
or HLTH 3115 - Health and the Aging Process (3)
or NURN 4100 - Aging and Health (3) (O)
or NURS 4100 - Nursing Care of the Aging Adult (3)
- GRNT 4110 - Sociology of Aging (3)
or SOCY 4110 - Sociology of Aging (3)
- GRNT 4250 - Aging Programs and Services (3)
- GRNT 4366 - Minorities and Aging (3)
or SOCY 4366 - Minorities and Aging (3)

Secondary Elective Courses (6 credit hours)
Secondary elective courses may be chosen from the following list of approved courses related to gerontology in consultation with the Gerontology Undergraduate Coordinator. Additional primary elective courses may also count toward this requirement. Other appropriate courses may be chosen as electives in consultation with the Gerontology Undergraduate Coordinator.

- GRNT 3125 - Older Worker and Retirement (3)
or PSYC 3125 - Older Worker and Retirement (3)
or SOCY 3125 - Older Worker and Retirement (3)
- GRNT 3132 - Aging and Culture (3) (W)
or ANTH 3132 - Aging and Culture (3) (W)
- GRNT 3267 - Sociology of Dying, Death and Bereavement (3)
or SOCY 3267 - Sociology of Dying, Death and Bereavement (3)
- GRNT 3800 - Independent Study in Gerontology (1 to 8) (a total of 3 credit hours may be counted toward the minor requirements)
- GRNT 4050 - Topics in Gerontology (1 to 4)
- GRNT 4134 - Families and Aging (3)
or SOCY 4134 - Families and Aging (3)
- GRNT 4150 - Older Individual and Society (3)
or SOCY 4150 - Older Individual and Society (3)
- GRNT 4260 - Women: Middle Age and Beyond (3)
or HLTH 4260 - Women: Middle Age and Beyond (3)
or WGST 4260 - Women: Middle Age and Beyond (3)
- GRNT 4270 - Intergenerational Relationships and Programs (3)
- GRNT 4280 - The Experience of Dementia (3)
- GRNT 4353 - Environments for Aging (3)
- GRNT 4364 - Elders and the Criminal Justice System (3)
or CJUS 4364 - Elders and the Criminal Justice System (3)
- GRNT 4365 - Grief and Loss Across the Lifespan (3)
or SOWK 4365 - Grief and Loss Across the Lifespan (3)
- GRNT 4366 - Minorities and Aging (3)
or SOCY 4366 - Minorities and Aging (3)
- PHIL 3230 - Healthcare Ethics (3)
- POLS 3125 - Healthcare Policy (3)
- SOCY 2169 - Sociology of Health and Illness (3)
- SOWK 4101 - Social Work Practice with Elderly (3)

Senior Seminar (3 credit hours)
Participation in a preliminary orientation session a semester in advance is required to receive a permit for this course. Students must be declared minors who have completed GRNT 2100, two primary elective courses, and one secondary elective courses (preferably two), and should take this course as close to graduation as possible. Transfer credit is not accepted for this course.

GRNT 3600 - Senior Seminar and Field Experience in Aging (3) (W)

**Minor Total = 18 Credit Hours**

**Grade Requirements**
An overall GPA of 2.5 in GRNT courses is required. Students must earn a C or above in courses that are counted toward the minor.

**Notes**
Because this is designed to be an interdisciplinary minor, no more than three courses in the student’s major may count toward the minor.

Students who have earned a bachelor’s degree from UNC Charlotte may be readmitted to pursue a Minor in Gerontology, just as they may be readmitted to pursue a second major. (For further information on readmission, see the Admission to the University section of this Catalog.)

Students who have earned a bachelor's degree from an institution other than UNC Charlotte may not receive a Minor in Gerontology from UNC Charlotte (unless they earn a second baccalaureate degree from UNC Charlotte). Such students may request a letter from the program and/or a transcript notation that acknowledges completion of courses specified for the minor but indicates that the minor can only be awarded upon completion of a degree.

---

**Early Entry: Graduate Certificate in Gerontology**
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

**Admission Requirements**
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

*Note: GRE scores are not required.*

**Continued Enrollment Requirements**
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree.

**Double-Counted Courses**
This Early Entry Program is also accelerated; up to 6 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 6 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees. Graduate courses may not double count toward the Minor in Gerontology.

**More Information**
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this certificate program, see the program listing in the Graduate Catalog.

---

**Department of Global Studies**

**Undergraduate Programs**

- **B.A. in International Studies**
  - Asian Studies
  - Development and Sustainability
  - European Studies
  - Holocaust, Genocide, and Human Rights
  - Peace, Conflict, and Identity
  - Honors Program
- **Minor in Holocaust, Genocide, and Human Rights Studies**
- **Minor in International Studies**

The Department of Global Studies brings together perspectives from the social sciences and the humanities to study cultural, economic, political and geographic issues from around the world. It provides a truly interdisciplinary worldview to address the most pressing global challenges of the 21st century. An undergraduate major (B.A.) in International Studies, as well as minors in International Studies and Holocaust, Genocide, and Human Rights are offered. The Global Studies major encourages students to concentrate on critical issues of a global nature – peace and conflict, development and sustainability, comparative genocide and human rights. Advanced foreign language competency is also emphasized to enhance a student’s research and communication. Finally, students are encouraged to participate in an international experience which can take the form of experiential learning (e.g., an internship abroad), an exchange program at a foreign university, or a study abroad experience. These experiences are intended to broaden students’ appreciation of the distinctiveness of other environments and cultures while augmenting their preparation for future study or participation in an increasingly globalized workforce.
Bachelor of Arts in International Studies
with Concentration in Asian Studies

The International Studies major draws upon the faculty and courses of the Department of Global Studies, as well as a number of other departments, and is structured to give students skills and knowledge to understand and analyze societies outside the United States in the context of the rapidly changing and increasingly interdependent world. By integrating courses on world affairs from a variety of disciplines, the program allows students interested in studying other cultures and societies to focus attention across traditional disciplinary boundaries. International Studies is of particular value to those with career objectives in government, law, journalism, teaching, business, trade, or military service. It also serves those who will seek employment with international organizations such as the United Nations or with non-governmental agencies with an international or cross-cultural focus.

International Studies graduates work for employers such as local, state, and federal governments; international organizations; private sector businesses; nonprofit organizations; colleges and universities; elementary and secondary schools; think tanks; the military; newspapers and magazines; law firms; financial institutions; public relations firms; and the travel industry. They also find careers as foreign service officers, professors, teachers, travel/tourism promoters, military officers, and government or business consultants, ESL administrators/instructors, Customs officers, cultural liaisons, journalists, business managers, missionaries.

Admission Requirements
Freshmen
- **Minimum GPA:** 2.0; students with GPA below 2.0 should consult with departmental advisor
- **Declaration of Major:** Change of Major form accepted year-round; orientation/advising session required after declaration.

Transfers
- **Minimum GPA:** 2.0
- **Declaration of Major:** Change of Major form accepted year-round; orientation/advising session required after declaration.
- **Transferable Credit Hours:** 24

Degree Requirements
A Major in International Studies requires a minimum of 30 credit hours in courses approved for International Studies credit. Majors must also complete related work in foreign language and an international experience as stipulated in the core curriculum. Each student, in consultation with an advisor, will prepare a Plan of Study for completion of these requirements upon declaration of the major.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Courses
Students are expected to demonstrate competency in a foreign language appropriate to their selected concentration by completing the equivalent of two courses at the 3000-level or above. Language courses at the 3000-level offered in English do not apply to the foreign language requirement.

**Core Course (3 credit hours)**
INTL 1101 - Introduction to International Studies (3)

**Concentration Courses (15 credit hours)**

*Foundation Concentration Course (3 credit hours)*
Select one of the following:
- INTL 2201 - Introduction to Asian Studies (3)
- HIST 2201 - History of Modern Asia (3)

**Elective Concentration Courses (12 credit hours)**
Select four of the following:
- INTL 3005 - Topics in Asian Studies (3)
- HIST 3160 - History of Modern China (3)
- HIST 3162 - Revolutionary Movements in Modern China (3)
- HIST 3165 - History of Modern Japan (3)
- HIST 3169 - Central Asia from 1800 to the Present (3)
- JAPN 2209 - Introduction to Japanese Civilization and Culture (3) (O)
- JAPN 3130 - Business and Culture in Japan (3)
- JAPN 3140 - Anime and Japanese Popular Culture (3)
- JAPN 3160 - Topics in Japanese Film (3)
- POLS 3148 - Chinese Politics (3)
- POLS 3165 - East Asia in World Affairs (3)
- RELS 2102 - Introduction to Asian Religions (3)
- RELS 2154 - Hinduism (3)
- RELS 2157 - South Asian Buddhism (3)
- RELS 2166 - Daoism (3)
- RELS 2169 - Mahāyāna Buddhism in East Asia (3)

**Restricted Elective Courses (9 credit hours)**
Select three elective courses outside of the above selected concentration.

- INTL xxxx - International Studies Elective (3)
- INTL xxxx - International Studies Elective (3)
- INTL xxxx - International Studies Elective (3)

**Seminar Course (3 credit hours)**
INTL 4601 - International Studies Seminar (3)

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**International Experience**
Students are required to complete an international experience related to the area studies concentration they have selected. This may be fulfilled through participation in a formal education abroad program or through foreign-based work, service, or internship activities. This experience must be specified and approved by an advisor. Academic credit hours earned may be applied to the requirements of the major. A U.S.-based experience of an international nature or prior international experience may be considered in certain circumstances, subject to the approval of an advisor.

**Second Majors**
Students pursuing a second major may apply up to 9 credit hours from courses in that major toward requirements for the major in International
Studies. Exceptions may be approved by an advisor upon consultation with the other program in question. Without exception, courses that are used to fulfill the foreign language requirement for International Studies cannot be used to fulfill other requirements for the major.

**Degree Total = 120 Credit Hours**

**Grade Requirement**
A GPA of 2.0 is required.

Restricted Elective Courses (9 credit hours)
Select three elective courses outside of the above selected concentration.

INTL xxxx - International Studies Elective (3)
INTL xxxx - International Studies Elective (3)
INTL xxxx - International Studies Elective (3)

Seminar Course (3 credit hours)
INTL 4601 - International Studies Seminar (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

International Experience
Students are required to complete an international experience related to the area studies concentration they have selected. This may be fulfilled through participation in a formal education abroad program or through foreign-based work, service, or internship activities. This experience must be specified and approved by an advisor. Academic credit hours earned may be applied to the requirements of the major. A U.S.-based experience of an international nature or prior international experience may be considered in certain circumstances, subject to the approval of an advisor.

Second Majors
Students pursuing a second major may apply up to 9 credit hours from courses in that major toward requirements for the major in International Studies. Exceptions may be approved by an advisor upon consultation with the other program in question. Without exception, courses that are used to fulfill the foreign language requirement for International Studies cannot be used to fulfill other requirements for the major.

Degree Total = 120 Credit Hours

Bachelor of Arts in International Studies

with Concentration in European Studies

The International Studies major draws upon the faculty and courses of the Department of Global Studies, as well as a number of other departments, and is structured to give students skills and knowledge to understand and analyze societies outside the United States in the context of the rapidly changing and increasingly interdependent world. By integrating courses on world affairs from a variety of disciplines, the program allows students interested in studying other cultures and societies to focus attention across traditional disciplinary boundaries. International Studies is of particular value to those with career objectives in government, law, journalism, teaching, business, trade, or military service. It also serves those who will seek employment with international organizations such as the United Nations or with non-governmental agencies with an international or cross-cultural focus.

International Studies graduates work for employers such as local, state, and federal governments; international organizations; private sector businesses; nonprofit organizations; colleges and universities; elementary and secondary schools; think tanks; the military; newspapers and magazines; law firms; financial institutions; public relations firms; and the travel industry. They also find careers as foreign service officers, policy analysts, international trade specialists, diplomats, United Nations staffers, lobbyists, intelligence specialists, translators/interpreters, U.S. Customs officers, cultural liaisons, journalists, business managers, government or business consultants, ESL administrators/instructors, professors, teachers, travel/tourism promoters, military officers, and missionaries.

Admission Requirements

Freshmen
- Minimum GPA: 2.0; students with GPA below 2.0 should consult with departmental advisor
- Declaration of Major: Change of Major form accepted year-round; orientation/advising session required after declaration.

Transfers
- Minimum GPA: 2.0
- Declaration of Major: Change of Major form accepted year-round; orientation/advising session required after declaration.
- Transferable Credit Hours: 24

Degree Requirements

A Major in International Studies requires a minimum of 30 credit hours in courses approved for International Studies credit. Majors must also complete related work in foreign language and an international experience as stipulated in the core curriculum. Each student, in consultation with an advisor, will prepare a Plan of Study for completion of these requirements upon declaration of the major.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Courses
Students are expected to demonstrate competency in a foreign language appropriate to their selected concentration by completing the equivalent of two courses at the 3000-level or above. Language courses at the 3000-level offered in English do not apply to the foreign language requirement.
Core Course (3 credit hours)

**Honors Program in Global Studies**

The Honors Program in Global Studies provides select International Studies majors with the opportunity to deepen their understanding of the field. Upon successful completion of the program, students will graduate with an honors notation on their official transcript. Students admitted to the program will conduct intensive research on a topic relevant to Global Studies, and their concentration within the major, produce a thesis paper that demonstrates a high level of academic rigor and creative thinking, and present and defend it to a committee of Global Studies faculty.

**Admission Requirements**

International Studies majors are eligible to apply for departmental honors if they meet the following requirements:

- Minimum 3.5 GPA in International Studies courses
- Completed the International Experience requirement

Admission to the Honors Program is by permission of the Department of Global Studies. Eligible students should submit a letter of intent and one-page research proposal to the Director of Undergraduate Studies by Week 6 of the semester in which they are taking the Senior Seminar. The Director of Undergraduate Studies will review applications and determine admission to the Honors Program.

**Course Requirements**

In order to graduate with departmental honors, students must:

- Complete the course requirements for the International Studies major
- Complete INTL 4601 by producing a detailed research proposal and literature review; this will serve as a prerequisite for advancement to INTL 4701
- Complete INTL 4701 by writing an original research/thesis paper focused on their major concentration and successfully defending the thesis before a three-person Honors Committee of Global Studies faculty

The Honors project should produce a final paper of at least 20-25 pages and address a well-defined problem or research question with the goal of developing greater understanding of a theoretical or practical global issue.

Students must formally apply for Honors Candidacy through the Honors College by Reading Day the semester prior to graduation.

**Grade Requirements**

In order to graduate with Honors in Global Studies, students must:

- Maintain a minimum GPA of 3.5 in the International Studies major
- Maintain a minimum GPA of 3.25 overall
- Achieve a grade of A in INTL 4601
- Pass the thesis defense and achieve a grade of A in INTL 4701

**Minor in Holocaust, Genocide, and Human Rights Studies**

The interdisciplinary Minor in Holocaust, Genocide, and Human Rights Studies (HGHR) consists of a minimum of 18 credit hours, including a 3-hour introductory course and 15 hours divided among subjects in Holocaust Studies and subjects in Genocide and Human Rights Studies. Students must take at least two courses from each subject area.

**Minor Requirements**

**Introductory Course (3 credit hours)**

HGHR 2100 - Introduction to Holocaust, Genocide, and Human Rights Studies (3)

**Holocaust Studies Courses (minimum 6 credit hours)**

Students may choose from the following courses to satisfy the requirement of subjects in this area. An advisor for the Minor in HGHR may give permission for other courses to count toward fulfilling this requirement.
HGHR 3050 - Topics in Holocaust, Genocide, and Human Rights (3) (appropriate sections)
HGHR 3110 - Resistance During the Holocaust (3)
GERM 3150 - The Holocaust Through German Literature and Film (3)
HIST 3147 - The Third Reich (3)
HIST 3148 - The Holocaust (3)

Genocide and Human Rights Studies Courses (minimum 6 credit hours)
Select courses from the following to satisfy requirements of subjects in this area. An advisor for the Minor in HGHR may give permission for other courses to count toward fulfilling this requirement.

HGHR 3050 - Topics in Holocaust, Genocide, and Human Rights (3) (appropriate sections)
HGHR 3220 - The U.S.-Vietnam War and the Global Upheaval of the 1960s-1970s (3)
INTL 3000 - Topics in International Studies (3) (appropriate sections)
INTL 3120 - Women’s Studies International (3)
or WGST 4120 - Women’s Studies International (3)
INTL 3137 - International Human Rights (3)
or POLS 3137 International Human Rights (3)
INTL 3171 - Comparative Genocide (3)
or HIST 3171 - Comparative Genocide (3)
INTL 3172 - Political Repression and Rebellion in the Contemporary World (3)
or HIST 3172 - Political Repression and Rebellion in the Contemporary World (3)
AFRS 3218 - Racial Violence, Colonial Times to Present (3)
or HIST 3218 - Racial Violence, Colonial Times to Present (3)
AFRS 3220 - The Caribbean from Slavery to Independence (3)
or HIST 3180 - Caribbean History (3)
or LTAM 3220 - The Caribbean from Slavery to Independence (3)
AFRS 3230 - Poverty and Discrimination in African Diaspora in the Modern Era (3)

AFRS 3278 - Race in the History of Brazil (3)
or HIST 3178 - History of Brazil (3)
or LTAM 3278 - History of Brazil (3)
HIST 2105 - American Slavery and Emancipation (3)
POLS 3162 - International Law (3)
RELS 3150 - African American Church and Civil Rights (3)
or AFRS 3150 - African American Church and Civil Rights (3)
RELS 3230 - Race, Religion, and Murder (3)

Minor Total = 18 Credit Hours

Minor in International Studies
A Minor in International Studies requires completion of 18 credit hours (plus 6 to 8 credit hours of foreign language courses at the 2000-level). All students pursuing the minor must have their curriculum approved by an advisor.

Minor Requirements
Foundation Course (3 credit hours)
INTL 1101 Introduction to International Studies (3)

Foreign Language Courses (6-8 credit hours)
Select 6-8 credit hours of foreign language courses at the 2000-level, typically the 2201 and 2202 courses. If 2201 and 2202 courses are not available, 1201 and 1202 courses in a second appropriate language may be considered, if approved by a departmental advisor.

Elective Courses (15 credit hours)
Select from the following:
INTL 2100 - Introduction to Holocaust, Genocide, and Human Rights Studies (3)
or HGHR 2100 - Introduction to Holocaust, Genocide, and Human Rights Studies (3)
INTL 2121 - Introduction to Development Studies (3)
INTL 2131 - Peace, Conflict, and Identity (3)
or ANTH 2131 - Peace, Conflict, and Identity (3)
INTL 2201 - Introduction to Asian Studies (3)
INTL 2301 - Introduction to European Studies (3)
INTL 3000 - Topics in International Studies (3)
INTL 3111 Politics and Culture in Literature (3)
INTL 3112 - Globalization and Culture (3)
or ANTH 3112 Globalization and Culture (3)
INTL 3115 - Globalization and Digital Media (3)
or COMM 3126 - Globalization and Digital Media (3)

or POLS 3137 - International Human Rights (3)
INTL 3151 - International Political Economy (3)
or POLS 3151 - International Political Economy (3)
INTL 3161 - Migration and Borders in a Global World (3)
GEOG 3161 - Migration and Borders in a Global World (3)
INTL 3162 - Europe and the World (3)
or GEOG 3162 - Europe and the World (3)
INTL 3171 - Comparative Genocide (3)
or HIST 3171 - Comparative Genocide (3)
INTL 3172 - Political Repression and Rebellion in the Contemporary World (3)  
or HIST 3172 - Political Repression and Rebellion in the Contemporary World (3)

Note: Lists are subject to additions and deletions. Other courses may be considered, subject to approval of an advisor.

**Minor Total = 18 Credit Hours**

**Education Abroad**
Although not required for the minor, education abroad is encouraged and recommended. The Office of International Programs offers a range of programs of varying duration. Academic credit hours earned may be applied to the requirements of the minor, subject to approval by an advisor.

**Grade Requirements**
A GPA of 2.0 is required.

---

**Health/Medical Humanities**
clas.uncc.edu

**Undergraduate Programs**
- **Minor in Health/Medical Humanities**

Health/Medical Humanities is an interdisciplinary field that uses humanistic perspectives to understand health and healthcare. The humanities have the potential to teach us about the embodied human experience, including suffering, healing, well-being, and flourishing. The Minor in Health/Medical Humanities complements the movement toward primary and patient-centered care in healthcare and provides an interdisciplinary approach to understanding the effects of health, wellness, and illness on patients, on health professionals, and on the social worlds in which they live and work. The program explores the experience of illness, mortality, fragility, health, and healthcare settings through literature, the arts, and the social sciences. The minor supports the University’s health and medical-related programs by offering a cross-disciplinary approach that promises to enhance observation, empathy, communication, cultural understanding, human compassion and sensitivity, and creativity, among future healthcare providers. In short, the minor immerses students in the human side of medicine and health, and leads to greater enhanced interpersonal relationships between patients and practitioners. The minor supports the concept of "person-centered medicine," and thus leads to an enhanced appreciation of the personhood and inherent humanness of patients and clients. The minor is also intended to enhance personal reflection, critical thinking skills, and the ability to understand the personal, social, historical, and cultural contexts of health, illness, and medical care. The minor is supported by faculty and courses across the College of Liberal Arts & Sciences, including from departments of and majors in Africana Studies, Anthropology, Chemistry, Communication Studies, Criminal Justice, History, Language and Cultural Studies, and Philosophy.

**Admission Requirements**
Admission is limited and only Fall admission is accepted. Students from any major may apply. Applicants should submit to the program director their GPA, transcript, statement of purpose explaining how this minor brings together their areas of interest, and one faculty recommendation. Deadline to apply for Fall admission is the Monday after Spring Break.

**Minor Requirements**
The Minor in Health/Medical Humanities requires 19 credit hours. Students take two required courses. Between these two courses, students take 5 approved elective courses from a range of departments from the social sciences, humanities, arts, and natural sciences. Throughout, students investigate questions of health, healing, and disease from multiple disciplinary perspectives and integrate their insights in an interdisciplinary portfolio as a capstone project. Because this is designated to be an interdisciplinary minor, no more than three courses in the student’s major may count toward the minor.
Introductory Course (3 credit hours)
HHUM 2100 - Introduction to Health/Medical Humanities (3)

Elective Courses (15 credit hours)
Select from the following:
AFRS 2050 - Topics in Africana Studies (3) (Topics: Religion and Racism)
AFRS 3218 - Racial Violence, Colonial Times to Present (3)
AFRS 3260 - Slavery, Racism, and Colonialism in the African Diaspora (3)
AFRS 3278 - Race in the History of Brazil (3)
AFRS 3692 - Colloquium (3) (W)
AFRS 4050 - Topics in Africana Studies (3)
AMST 2050 - Topics in American Studies (3) (Topics: Race in the U.S. and Latin America)
AMST 3000 - Seminar in American Studies (3) (0,W) (Topics: Love to Love You Baby: The Sexual Revolution of the 1960s and 1970s; Difference in America; Southern Foodways: Back in the World: The Vietnam War in American Culture)
AMST 3020 - Seminar in American Studies (3) (W) (Topics: Food in America; Ghosts in American Film and Culture)
AMST 3050 - Topics in American Studies (3)
ANTH 2020 - Topics in Cultural Anthropology (3) (Topics: Religion and Food)
ANTH 3050 - Topics in Archaeology (3) (Topics: Cemetery Studies)
COMM 2107 - Interpersonal Communication (3)
HIST 2140 - Disease and Medicine in History (3)
LTAM 2002 - Topics in Latin American Studies (3) (Topics: Gender and Sexuality in Latin American History)
LTAM 2003 - Topics in Latin American Studies (3) (Topics: Gender and Sexuality in Latin American History)
PHIL 3990 - Topics and Identity/Society (3) (Topics: Ecofeminism; Philosophy of Sport)
RELS 2000 - Topics in Religious Studies (1 to 3) (Topics: Religions and Food; Racism and Religion; Death and the Afterlife in Asian Religions)
SOCY 2090 - Topics in Sociology (1 to 3) (Topics: Sociology of Gender)
SOCY 2169 - Sociology of Health and Illness (3)
SOCY 2171 - Social Problems (3)
SOCY 3110 - American Minority Groups (3)
SOCY 3125 - Older Worker and Retirement (3)
SOCY 3132 - Sociology of Sport (3)
SOCY 3261 - Human Sexuality (3)
SOCY 3267 - Sociology of Dying, Death, and Bereavement (3)
WSST 2050 - Topics in Women's Studies (1 to 3)
WSST 2130 - Masculinity and Manhood (3)
WSST 2160 - Introduction to LGBTQ+ Studies (3)
WSST 3050 - Topics in Women's Studies (3)
WSST 3102 - Changing Realities of Women's Lives (3) (W)
WSST 3140 - Domestic Violence (3)
WSST 3310 - Gender and Sexuality (3)

Health/Medical Humanities Courses
The following courses may be repeated for credit with change of topic:
HHUM 3020 - Topics in Health/Medical Humanities (3)
HHUM 3030 - Health/Medical Humanities Study Abroad (3)

Other Courses
Other courses may be substituted for the above Health/Medical Humanities elective courses in consultation with the advisor or program director. Examples of courses that would satisfy the requirements of the minor include (but are not limited to):
AFRS 2170 - Introduction to Health and Environmental Issues in the Africana World (3)
AFRS 4652 - Race, Health, and the African Diaspora (3) (W)
ANTH 2122 - Beliefs, Symbols, and Rituals (3)
ANTH 2126 - World Population Problems (3) (W)
ANTH 2127 - Environmental Anthropology (3)
ANTH 2141 - Our Place in Nature: Introduction to Biological Anthropology (4)
ANTH 2142 - Primate Behavioral Ecology (3)
ANTH 2143 - The Fossil Evidence for Human Evolution (3)
ANTH 2144 - Neanderthals and Us (3)
ANTH 3090 - Topics in Anthropology (1 to 3) (Topics: Anthropology of Childhood, Anthropology of Violence, Cemetery Studies, Human Osteology)
ANTH 3122 - Culture, Health, and Disease (3) (W)
ANTH 3125 - Food and Globalization (3)
ANTH 3143 - Race and Anthropology (3)
ANTH 3144 - Evolutionary Anthropology (3)
ANTH 3145 - Anthropological Genetics (3)
ANTH 3222 - Culture, Health, and Disease (3)
ANTH 4090 - Topics in Anthropology (1 to 3)
ANTH 4131 - Culture, Pregnancy, and Birth (3)
ANTH 4140 - Field Biology of the Primates (3)
ANTH 4141 - Forensic Anthropology (3)
CHEM 1111 - Chemistry in Today's Society (3)
COMM 3051 - Topics in Health Communication (3) (Topics: Healthcare Narratives; End of Life Communication; Gender and Health; Media and Health; Health, Communication, and Marginal Communities; The Social Construction of Health and Illness)
HIST 2140 - Disease and Medicine in History (3)
HIST 3155 - Health and Healing in Africa (3)
PHIL 1001 - Philosophy of Death and Dying (3)
PHIL 3210 - Ethical Theory (3)
PHIL 3230 - Healthcare Ethics (3)
PHIL 3520 - Philosophy of Science (3)
PHIL 3920 - Philosophy of Technology (3)
PHIL 3930 - Philosophy of Body (3)
SPAN 3222 - Spanish for Medical and Healthcare (3)
SPAN 4050 - Selected Topics in Spanish (1 to 3) (Topics: Medical Interpreting)

Capstone Course (1 credit hour)
HHUM 4800 - Health/Medical Humanities Portfolio Capstone (1)

Minor Total = 19 Credit Hours

Grade Requirements
Students must attain an overall GPA of 2.0 in all coursework within the minor. No courses counted toward the minor may be taken Pass/No Credit.
Undergraduate Programs

- B.A. in History
  - History and Social Studies Teacher Licensure
  - Honors Program
- Minor in History
- Early Entry: M.A. in History

History is the broadest and most integrative of all disciplines concerned with human beings and society. Today’s historians use the research tools of the social sciences to understand and explain major events and changes in human experience over time. Yet history has always been considered one of the humanities, and it remains so because historians are concerned with issues of value and meaning, with the significance that historical events had for the lives of individuals and groups. Students of history gain an understanding of people, groups, and society and a sensitivity both to detailed research and the “big picture.” Through the study of history, students can become better prepared for life in a rapidly changing world and a rapidly evolving economy.

Professions like law and medicine have always considered history an ideal undergraduate major because it emphasizes the essential intellectual skills: critical thinking, research, writing, and speaking. For these reasons history also remains a sound preparation for almost any undergraduate and a good choice for the typical student in America, who graduates with a basic education rather than specific job training. Whether students plan to teach, work in archives or museums, or pursue a career in government, law, international organizations, or business, the skills learned as a historian will prove invaluable. The Department of History offers majors the premier track in Comprehensive Social Studies Teacher Licensure. Through the master’s program, history majors can pursue their interests at the graduate level. (See the UNC Charlotte Graduate Catalog.)

Study Abroad
Arrangements can be made for study abroad in Asia, Africa, Canada, Europe, Latin America, or the Middle East.

Bachelor of Arts in History
A Major in History leading to the B.A. degree requires a minimum of 30 credit hours of history courses.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Declaration of Major: Advising session required when declaring major
- Transfer students are required to take at least 15 credit hours of History major coursework at UNC Charlotte

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Introductory Courses (6 credit hours)
HIST 1121 - European History since 1660 (3)
HIST 1160 - U.S. History to 1865 (3)
or HIST 1161 - U.S. History Since 1865 (3)

History Methodology Sequence Courses (9 credit hours)
The courses in this sequence cannot be taken at the same time. A grade of C or above in HIST 2600 is required to progress to HIST 400x. A grade of C or above in HIST 400x is required to progress to HIST 4600.

History Skills Seminar (3 credit hours)
HIST 2600 - History Skills Seminar (3) (W)

Historiography Seminar (3 credit hours)
Select one of the following:
- HIST 4000 - Topics in American Historiography (3)
- HIST 4001 - Topics in European Historiography (3) (O)
- HIST 4002 - Topics in Non-Western Historiography (3) (O)
- HIST 4003 - Topics in Transnational Historiography (3) (O)
- HIST 4004 - Topics in Applied Historiography (3) (O)
- HIST 4797 - Topics in Honors Historiography and Methodology (3) (O)
  (permission required)

Senior Seminar (3 credit hours)
Select one of the following:
- HIST 4600 - Senior Research Seminar (3) (W)
- HIST 4799 - Honors Research and Thesis (3) (W)

Restricted Elective Courses (15 credit hours)
History 1000/2000/3000 Level Course (3 credit hours)
HIST 1xxx/2xxx/3xxx - History Elective (3)

History 2000/3000 Level Courses (6 credit hours)
HIST 2xxx/3xxx - History Elective (3)
HIST 2xxx/3xxx - History Elective (3)

History 3000 Level Courses (6 credit hours)
HIST 3xx - History Elective (3)
HIST 3xxx - History Elective (3)

Additional Stipulations
Students working toward a second major may count up to 9 hours of credit from courses fulfilling requirements in that major towards requirements for the History degree. Students working toward a major/minor combination may count up to 6 credit hours from courses used in the minor towards requirements for the Major in History. These stipulations include cross-listed courses, regardless of program designation under which the course was taken. Exceptions may be approved by the Department Chair upon consultation with the other major program. Students exercising this option should be aware that the accuracy of the online degree audit may be affected.

Non-Western History Requirements
These courses also fulfill requirements in the History Methodology Sequence and/or Restrictive Elective requirements. Select two of the following:

HIST 2002 - Topics in Non-Western History (3)
HIST 2092 - Topics in Non-Western History (3) (W)
HIST 2200 - Asian Civilization (3)
HIST 2201 - History of Modern Asia (3)
HIST 2206 - Colonial Latin America (3)
HIST 2207 - Modern Latin America (3)
HIST 2210 - Pre-Colonial Africa (3)
HIST 2211 - Modern Africa (3)
HIST 2215 - A History of Muslim Societies (3)
HIST 2216 - The Modern Middle East (3)
HIST 3002 - Topics in Non-Western History (3)
HIST 3010 - Non-Western History and Culture through Film (3)
HIST 3092 - Topics in Non-Western History (3) (W)
HIST 3154 - Globalization in African History (3)
HIST 3155 - Health and Healing in Africa (3)
HIST 3160 - History of Modern China (3)
HIST 3162 - Revolutionary Movements in Modern China (3)
HIST 3165 - History of Modern Japan (3)
HIST 3168 - Gandhi and Radical Dissent in the Modern World (3)
HIST 3169 - Central Asia from 1800 to the Present (3)
HIST 3174 - Resistance and Adaptation: Indian Peoples Under Spanish Rule (3)
HIST 3175 - Reform, Riots, and Rebellions in Colonial Spanish America, 1692-1825 (3)
HIST 3176 - History of Mexico (3)
HIST 3177 - The Cuban Revolution (3)
HIST 3178 - History of Brazil (3)
HIST 3179 - Authoritarianism in Latin America (3)
HIST 3180 - Caribbean History (3)
HIST 3181 - Afro-Latin American History (3) (W)
HIST 3190 - Slavery, Racism, and Colonialism in the African Diaspora (3)
HIST 4002 - Topics in Non-Western Historiography (3) (O)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Senior Seminar Course (3 credit hours)
HIST 4600 - Senior Research Seminar (3) (W)

Degree Total = 120 Credit Hours

Grade Requirements
Students must achieve a cumulative GPA of 2.0 in all history courses. Grades of C or above are required in HIST 2600 and either HIST 4000, HIST 4001, HIST 4002, HIST 4003, or HIST 4004.

Bachelor of Arts in History with Teacher Licensure in History and Social Studies
The Department of History, in collaboration with the College of Education, offers the premier track to a North Carolina Professional I status Teaching License in History and Social Studies. The coursework for this licensure includes nearly equal numbers of content area courses in history and affiliated social studies supervised by the Department of History, and education courses supervised by the Department of Middle, Secondary, and K-12 Education. Students interested in teacher licensure should declare their intent with the Department of History as soon as possible to prevent unnecessary delays.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Declaration of Major: Orientation/advising session required while declaring major
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Introductory Courses (6 credit hours)
Licensure students need both HIST 1160 and HIST 1161 (one will count as a Restrictive Elective course).

HIST 1121 - European History Since 1660 (3)
HIST 1160 - U.S. History to 1865 (3)

History Methodology Sequence Courses (9 credit hours)
The courses in this sequence cannot be taken at the same time. A grade of C or above in HIST 2600 is required to progress to HIST 400x. A grade of C or above in HIST 400x is required to progress to HIST 4600.

HIST 2600 - History Skills Seminar (3 credit hours)
HIST 4000 - History Skills Seminar (3) (W)

Historiography Seminar (3 credit hours)
Select one of the following:
HIST 4000 - Topics in American Historiography (3)
HIST 4001 - Topics in European Historiography (3) (O)
HIST 4002 - Topics in Non-Western Historiography (3) (O)
HIST 4003 - Topics in Transnational Historiography (3) (O)
HIST 4004 - Topics in Applied Historiography (3) (O)
HIST 4797 - Topics in Honors Historiography and Methodology (3) (O) (permission required)
Senior Seminar (3 credit hours)
HIST 4600 - Senior Research Seminar (3) (W)

Restricted Elective Courses (15 credit hours)
History 1000/2000/3000 Level Course (3 credit hours)
HIST 1161 - U.S. History Since 1865 (3)

History 2000/3000 Level Courses (6 credit hours)
HIST 2xxx/3xxx - History Elective (3)
HIST 3xxx - History Elective (3)

History 3000 Level Courses (6 credit hours)
HIST 3xxx - History Elective (3)
HIST 3000 level (3)

Social Studies Courses (12 credit hours)
ECON xxxx - Economics Elective (3)
GEOG 1101 - World Regional Geography (3)
POLS 1110 - American Politics (3)
POLS 1130 - Comparative Politics (3)
or POLS 1150 - International Politics (3)

Restricted Elective Courses (15 credit hours)
Select from the following. At least 6 credit hours must be in Non-Western History (Asia, Africa, Latin America, or Middle East).

HIST 2000-3000 level (3)
HIST 2000-3000 level (3)
HIST 3000 level (3)
HIST 3000-4004 (3)

Minor in Secondary Education (32 credit hours)
Students must have a Minor in Secondary Education to obtain teaching licensure.

Admission Requirements
- 45 earned credit hours with 2.7 overall GPA
- Complete MDSK 2100 and the Praxis Core test

Graduation Requirements
- 2.75 overall GPA and in content background/licensure courses (with grades of C or above)

See the Minor in Secondary Education in the College of Education section of this Catalog for more details. Licensure applications are the responsibility of the student and the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education.

Non-Western History Requirements
These courses also fulfill requirements in the History Methodology Sequence and/or Restrictive Elective requirements. Select two of the following:
HIST 2002 - Topics in Non-Western History (3)
HIST 2092 - Topics in Non-Western History (3) (W)
HIST 2200 - Asian Civilization (3)
HIST 2201 - History of Modern Asia (3)
HIST 2206 - Colonial Latin America (3)
HIST 2207 - Modern Latin America (3)

HIST 2210 - Pre-Colonial Africa (3)
HIST 2211 - Modern Africa (3)
HIST 2215 - A History of Muslim Societies (3)
HIST 2216 - The Modern Middle East (3)
HIST 3002 - Topics in Non-Western History (3)
HIST 3010 - Non-Western History and Culture through Film (3)
HIST 3092 - Topics in Non-Western History (3) (W)
HIST 3154 - Globalization in African History (3)
HIST 3155 - Health and Healing in Africa (3)
HIST 3160 - History of Modern China (3)
HIST 3162 - Revolutionary Movements in Modern China (3)
HIST 3165 - History of Modern Japan (3)
HIST 3168 - Gandhi and Radical Dissent in the Modern World (3)
HIST 3169 - Central Asia from 1800 to the Present (3)
HIST 3174 - Resistance and Adaptation: Indian Peoples Under Spanish Rule (3)
HIST 3175 - Reform, Riots, and Rebellions in Colonial Spanish America, 1692-1825 (3)
HIST 3176 - History of Mexico (3)
HIST 3177 - The Cuban Revolution (3)
HIST 3178 - History of Brazil (3)
HIST 3179 - Authoritarianism in Latin America (3)
HIST 3180 - Caribbean History (3)
HIST 3181 - Afro-Latin American History (3) (W)
HIST 3190 - Slavery, Racism, and Colonialism in the African Diaspora (3)
HIST 4002 - Topics in Non-Western Historiography (3) (O)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Senior Seminar Course (3 credit hours)
HIST 4600 - Senior Research Seminar (3) (W)

Degree Total = 120 Credit Hours

Grade Requirements
Students must achieve a cumulative GPA of 2.0 in all History courses. Grades of C or above are required in HIST 2600 and either HIST 4000, HIST 4001, HIST 4002, HIST 4003, or HIST 4004. To be eligible for licensure, students must obtain a grade of C or above for all History, Social Studies, and Education courses, as well as a cumulative GPA of 2.5 or above for admission to the College of Education, and a 2.75 GPA in History and Social Studies coursework.

Honors Program in History
The B.A. in History with History Honors is the highest distinction the Department of History offers. This Honors College-sanctioned accolade attests to a candidate’s exemplary grade point average in their major, the completion of honors coursework; as well as the successful defense of a distinguished undergraduate thesis. Honors in History is a great preparation for graduate school, and/or a stellar addition to a student’s resume.

Admission Requirements
Entry into all honors courses is by permission of the department only, and requires the completion of HIST 2600 with a grade of A, as well as a GPA of 3.50 in History and 3.0 overall.
Because HIST 4797 is taught only in the Fall semester, students must complete their application to the History Honors Program well before their expected graduation. For this reason, qualified students are urged to discuss the History Honors Program with the Department’s Honors Director early in their career.

Course Requirements
HIST 4797 - Topics in Honors Historiography and Methodology (3) (O)
HIST 4799 - Honors Research and Thesis (3) (W)

HIST 4799 is normally taken in the semester before graduation. Students considering Honors in History should note that HIST 4797 will fulfill the requirement for HIST 4000, HIST 4001, HIST 4002, HIST 4003, or HIST 4004; and completion of HIST 4799 will fulfill the requirement for HIST 4600.

Certification Requirements
To be awarded Honors in History, candidates must write an honors thesis of A quality (and thus a grade of A for HIST 4799) as judged by a committee of readers. In addition, the student must complete HIST 4797 and HIST 4799 with a 3.50 GPA or above, obtain a GPA of 3.50 or above in History courses, and an overall GPA of at least 3.0. Finally, students must formally apply and be approved for Honors Candidacy by the Honors College, a process which will be initiated as part of HIST 4797.

The honors notation will appear on a student’s official transcript.

Minor in History
A Minor in History consists of 18 credit hours.

Minor Requirements
Foundation Course (3 credit hours)
HIST 1121 - European History Since 1660 (3)

Restricted Elective Courses (15 credit hours)
History 1000/2000/3000 Level Courses (6 credit hours)
HIST 1xxx/2xxx/3xxx - History Elective (3)
HIST 1xxx/2xxx/3xxx - History Elective (3)

History 2000/3000 Level Courses (9 credit hours)
HIST 2xxx/3xxx - History Elective (3)
HIST 2xxx/3xxx - History Elective (3)
HIST 2xxx/3xxx - History Elective (3)

Non-Western Requirement
At least 3 Restricted Elective hours must be in Non-Western History (Asia, Africa, Latin America, or Middle East). Select one of the following:
HIST 2002 - Topics in Non-Western History (3)
HIST 2092 - Topics in Non-Western History (3) (W)
HIST 2200 - Asian Civilization (3)
HIST 2201 - History of Modern Asia (3)
HIST 2206 - Colonial Latin America (3)
HIST 2207 - Modern Latin America (3)
HIST 2210 - Pre-Colonial Africa (3)
HIST 2211 - Modern Africa (3)
HIST 2215 - A History of Muslim Societies (3)
HIST 2216 - The Modern Middle East (3)
HIST 3002 - Topics in Non-Western History (3)
HIST 3010 - Non-Western History and Culture through Film (3)
HIST 3092 - Topics in Non-Western History (3) (W)
HIST 3154 - Globalization in African History (3)
HIST 3155 - Health and Healing in Africa (3)
HIST 3160 - History of Modern China (3)
HIST 3162 - Revolutionary Movements in Modern China (3)
HIST 3165 - History of Modern Japan (3)
HIST 3168 - Gandhi and Radical Dissent in the Modern World (3)
HIST 3169 - Central Asia from 1800 to the Present (3)
HIST 3174 - Resistance and Adaptation: Indian Peoples Under Spanish Rule (3)
HIST 3175 - Reform, Riots, and Rebellions in Colonial Spanish America, 1692-1825 (3)
HIST 3176 - History of Mexico (3)
HIST 3177 - The Cuban Revolution (3)
HIST 3178 - History of Brazil (3)
HIST 3179 - Authoritarianism in Latin America (3)
HIST 3180 - Caribbean History (3)
HIST 3181 - Afro-Latin American History (3) (W)
HIST 3190 - Slavery, Racism, and Colonialism in the African Diaspora (3)
HIST 4002 - Topics in Non-Western Historiography (3) (O)

Grade Requirements
Students must obtain a minimum GPA of 2.0 in HIST courses counted toward the minor. Before taking HIST 2600, students must have completed 9 credit hours of HIST courses. Transfer students are required to take at least 6 credit hours of Minor in History coursework at UNC Charlotte.

Minor Total = 18 Credit Hours

Early Entry: Master of Arts in History
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
• Submit application online at mygradschool.uncc.edu and provide supporting documents
• Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
• Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
• Maintain a minimum 3.0 overall undergraduate GPA
• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Accelerated Master’s Program
(for High School Seniors and UNC Charlotte Undergraduate Freshmen)
Academically talented high school seniors and UNC Charlotte undergraduate freshmen are encouraged to apply to an Accelerated Master’s Program to begin work toward both undergraduate and graduate degrees in their Freshman year.

Admission Requirements
• Minimum high school GPA of 3.75 (on a 4.0 scale)
• Minimum score of 1220 on SAT

Continued Enrollment Requirements
Students must maintain a strong academic record at both the undergraduate and graduate levels with a cumulative GPA of 3.0 or above.

Double-Counted Courses
Up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on the Accelerated Master’s Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog.
Humanities, Technology, and Science

Undergraduate Programs
- Minor in Humanities, Technology, and Science

Minor in Humanities, Technology, and Science
The interdisciplinary Minor in Humanities, Technology, and Science examines the interrelationships among three of the major dimensions of our culture: its science, its technology, and its humanistic orientation.

Minor Requirements
A minimum of 18 credit hours are required for this minor.

Foundation Course (3 credit hours)
HTAS 2100 - Introduction to Humanities, Technology, and Science (3)

History and/or Philosophy of Science or Technology Courses (6 credit hours)
HIST 2110 - Technology and Science in Society I: Before the Industrial Revolution (3)
HIST 2111 - Technology and Science in Society II: Since the Industrial Revolution (3)
PHIL 3520 - Philosophy of Science (3)
PHIL 3920 - Philosophy of Technology (3)

Elective Courses (9 credit hours)
ANTH 2151 - Introduction to Archaeology (3)
ANTH 3122 - Culture, Health, and Disease (3) (W)
ANTH 3124 - Food, Nutrition, and Culture (3)
ANTH 3152 - Early Civilizations (3)
ANTH 3222 - Culture, Health, and Disease (3)
CJUS 3354 - Punishment and Freedom (3)
CJUS 4362 - Computer Crime (3)
COMM 3052 - Topics in Mass Media (3)
COMM 3120 - Communication and Mass Media (3)
COMM 3121 - Mass Communication and Society (3)
ENGL 2116 - Introduction to Technical Communication (3) (W)
ENGL 3180 - Language and Digital Technology (3)
ENGL 4008 - Topics in Advanced Technical Communication (3)
ESCI 2101 - The Environmental Dilemma (3)
GEOG 3250 - World Food Problems (3)
HIST 2120 - American Military History (3)
HIST 2140 - Disease and Medicine in History (3)
HIST 3155 - Health and Healing in Africa (3)
HONR 3701 - Science, Technology, and Human Values (3)
HTAS 3800 - Independent Study in Humanities, Technology, and Science (3)

ITIS 3130 - Human-Centered Design (3)
ITSC 3688 - Computers and Their Impact on Society (3) (O, W)
POLS 3154 - Cyberspace and Politics (3)

Other courses that do not appear on the above list, especially topics and independent study courses, will be approved if they are pertinent to the student’s program and deal with an HTAS topic. Examples of such courses approved by their departments for enrollment by HTAS students are:

ARCH 4050 - Architecture Topics (1 to 4)
HIST 3001 - Topics in European History (3)
HIST 3002 - Topics in Non-Western History (3)
POLS 3030 - Topics in Comparative or International Politics (1 to 4)
THEA 4001 - Topics in Theatre (1 to 6) (W)

Minor Total = 18 Credit Hours

• Early Entry: Graduate Certificate in Languages and Culture Studies: Translation and Interpreting Studies, Spanish-English

The Department of Languages and Culture Studies has designed its programs to develop language skills and to provide insights into foreign cultures through the study of language, culture, literature, and translation. In addition to the majors, minors, and undergraduate certificates, courses in Ancient and Modern Greek, Farsi, Hebrew, Latin, Portuguese, Swahili, and other languages are offered on demand or through the NC Language Exchange.

Students interested in foreign language study are encouraged to explore the following options:

• A single major in French, German, Japanese, or Spanish, based on the standard liberal arts model, with or without teaching licensure

• A double major in a foreign language and another discipline or in two languages

• A foreign language minor in Arabic, Chinese, Classics, Francophone Studies, French, German, Italian, Japanese, Russian, or Spanish

• A concentration in one or more languages to complement a major in another academic area

• A concentration of courses leading to a certificate

Scholarships, Study Abroad, Awards

Scholarships for study and employment abroad are available to UNC Charlotte students of Chinese, French, German, Italian, Japanese, and Spanish. As a rule, applicants are required to be language majors or minors, or students in a departmental certificate program, to be eligible, and they must have completed the equivalent of at least two years of study in the language they propose to use abroad. The department strongly encourages all students to participate in a study abroad program and sponsors exchange programs with universities in Brazil, Chile, China, France, Germany, Japan, Mexico, Poland, Russia, and Spain. The department regularly presents the following awards: the Pierre Macy Award for Excellence in French and the Gabriel/Reimer/Cernyak-Spatz Scholarships for Excellence in German and Service to the German Program. For detailed information, contact the Department of Languages and Culture Studies.
French

Bachelor of Arts in French
A Major in French requires 31 credit hours, after elementary courses are completed.

Admission Requirements
Freshmen and Transfers
- **Minimum GPA**: 2.0
- **Other**: All incoming students except learners of French may take a UNC Charlotte Placement Exam in the language they wish to study if they have had previous experience with that language. Foreign language majors and minors may also take a placement exam to help them determine at what level they should begin studying their chosen language. Students should consult the department’s webpages for more specific guidelines regarding placement.
- **Transferable Credit Hours**: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Major Courses (27 credit hours)
*Select 9 of the following, 2 of which must be at the 4000 level:*
- FREN 2201 - Intermediate French I (3)
- FREN 2202 - Intermediate French II (3)
- FREN 3201 - French Grammar and Conversation (3) (O)
- FREN 3202 - French Grammar and Composition (3)
- FREN 3203 - Introduction to French Literature (3)
- FREN 3207 - French Phonetics (3)
- FREN 3209 - France Today (3)
- FREN 3210 - Introduction to Business French (3)
- FREN 4003 - Studies in French Literature (3)
- FREN 4005 - Studies in the French Language (3)
- FREN 4007 - Studies in French Culture and Civilization (3)
- FREN 4201 - Survey of French Literature I (3)
- FREN 4202 - Survey of French Literature II (3)

*Notes:*
- FREN 2201, FREN 2202, FREN 3201, and FREN 3202 are mandatory for non-native speakers of French; however, FREN 2201 and FREN 2202 may be waived for those who have placed out of them. Native speakers are exempted from FREN 2201 and FREN 2202. All majors must take FREN 3209.

Approved Elective Course Substitutions
Non-native speakers may substitute one of the following elective courses for a major requirement. Native speakers may substitute up to three, and up to five if they do not take FREN 3201 and FREN 3202.

- FRAN 3001 - Advanced Topics in Francophone Studies (Economy and Society) (3)
- FRAN 3002 - Advanced Topics in Francophone Studies (Historical Context) (3)
- FRAN 3003 - Advanced Topics in Francophone Studies (Arts and Literature) (3)
- FRAN 3004 - Advanced Topics in Francophone Studies (Film) (3)
- FRAN 3005 - Advanced Topics in Francophone Studies (Philosophy and Intellectual History) (3)
- FREN 3050 - Topics in French (1 to 3)
- FREN 4050 - Topics in French (1 to 3)
- FREN 4120 - Advanced Business French I (3)
- FREN 4121 - Advanced Business French II (3)
- FREN 4410 - Professional Internship in French (1 to 6)
- TRAN 4402 - Practicum in Translating I - French (3)
- TRAN 4403 - Practicum in Translating II - French (3)

Writing Intensive Course (3 hours)
Select one of the following or an equivalent course approved by the department:

- FREN 2209 - French Civilization (3) (W)
- TRAN 4404 - Practicum in Translating III - French (3) (W)

Senior Seminar (1 credit hour)
LACS 4690 - Senior Seminar (1)

Degree Total = 120 Credit Hours

Grade Requirements
GPA of 2.0 is required. Introductory language courses may not be taken on a Pass/No Credit Basis if they are being used to fulfill a college or departmental foreign language requirement. Students with a Foreign Language major or minor may not take required courses in the department on a Pass/No Credit Basis.

Teacher Licensure
The Department of Languages and Culture Studies, in collaboration with the Department of Middle, Secondary, and K-12 Education, offers a program to prepare students for K-12 teacher licensure in North Carolina. Students seeking licensure to teach a foreign language must fulfill the General Education requirements, the foreign language major, two foreign language teaching methods courses, and satisfy all other requirements specified by the College of Education. Students planning to specialize in foreign language education should apply through the Coordinator for Foreign Language Education during the first semester of the Sophomore year to obtain appropriate advising. Licensure applications are the responsibility of the student and the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education.

Minor in Francophone Studies
The Minor in Francophone Studies allows students interested in topics
related to the French-speaking world the opportunity to acquire a basic level of cultural competency by taking courses taught in English and offered across a range of disciplines; including, but not limited to: Africana Studies, Film, History, Latin American Studies, Languages and Culture Studies, Philosophy, and Women’s Studies. In addition to fostering critical thinking and other transferable skills, the broad base of knowledge about Francophone-related topics that students acquire in this minor positions them to work for companies and agencies that serve the growing Francophone population in our region and worldwide. Career possibilities include: 1) the foreign service, the military, and other governmental agencies; 2) non-governmental organizations with an emphasis on international or cross-cultural orientations; and 3) international business.

**Minor Requirements**

Students must complete a minimum of 15 credit hours in courses approved for Francophone Studies credit.

**Core Course (3 credit hours)**

FRAN 2200 - French Civilization (3)

**Elective Courses (12 credit hours)**

Students must choose four of the following electives, three of which must be taken at the 3000-level or above. 3000-level courses may be repeated with a change of topic.

- FRAN 2050 - Topics in Francophone Studies (3)
- FRAN 3001 - Advanced Topics in Francophone Studies (Economy and Society) (3)
- FRAN 3002 - Advanced Topics in Francophone Studies (Historical Context) (3)
- FRAN 3003 - Advanced Topics in Francophone Studies (Arts and Literature) (3)
- FRAN 3004 - Advanced Topics in Francophone Studies (Film) (3)
- FRAN 3005 - Advanced Topics in Francophone Studies (Philosophy and Intellectual History) (3)

**Minor Total = 15 Credit Hours**

**Foreign Language Requirement**

Students must demonstrate linguistic competency equivalent to three semesters of French language (FREN 2200, FREN 2201, or equivalent) prior to completion of the minor.

**Study Abroad Experience**

Courses taken while studying abroad may count toward the Minor in Francophone Studies. To learn more about programs in Martinique and Limoges, France, contact the program director.

**Minor in French**

A Minor in French requires 21 credit hours (7 courses) above the FREN 1202 level.

**Required Courses**

Select seven of the following *:

- FREN 2201 - Intermediate French I (3)
- FREN 2202 - Intermediate French II (3)

**Certificate Total = 15 Credit Hours**

**Undergraduate Certificate in Languages and Culture Studies: Business French**

The Certificate in Languages and Culture Studies: Business Languages program (CBL) provides classroom, overseas (optional), and practical training in French for international business, which may also be recognized by international examinations. The certificate requires 15 credit hours. Beginning with an alternative fourth-semester course, the sequence continues with advanced-level coursework that includes a two-semester component in advanced business French. Majors in any field are welcome.

**Certificate Requirements**

**Required Courses (6 credit hours)**

- FREN 4120 - Advanced Business French I (3)
- FREN 4121 - Advanced Business French II (3)
- FREN 4410 - Professional Internship in French (1 to 6)
- TRAN 4402 - Practicum in Translating I - French (3)
- TRAN 4403 - Practicum in Translating II - French (3)
- TRAN 4404 - Practicum in Translating III - French (3) (W)

**Elective Courses (9 credit hours)**

Select any three FREN courses at the 3000 level or above. FREN 4410 will also be accepted.

**Certificate Total = 15 Credit Hours**
Grade Requirements
In order to be awarded the CBL, each course that counts for the certificate must be completed with a grade of B or above.

Undergraduate Certificate in Languages and Culture Studies: Translating French-English
An Undergraduate Certificate in Languages and Culture Studies: Translating (CT) is not equivalent to a major in a foreign language; rather it represents a theory-based skill developed at the bachelor’s degree level. The CT may complement a major in any field, and is especially recommended for Majors and Minors in French, International Studies, or International Business. All courses for the CT involve, but are not limited to, translating into English from the source text. A CT in French-English may be earned by completing 12 credit hours.

Certificate Requirements
TRAN 3601 - Introduction to Translation and Interpreting Studies (3)
TRAN 4402 - Practicum in Translating I - French (3)
TRAN 4403 - Practicum in Translating II - French (3)
TRAN 4404 - Practicum in Translating III - French (3) (W)

Certificate Total = 12 Credit Hours

Grade Requirements
All courses must be completed with a grade of B or above.

German

Bachelor of Arts in German
A Major in German leading to a B.A. degree requires 31 credit hours of German coursework above GERM 1202.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Other: All incoming students except learners of Japanese may take a UNC Charlotte Placement Exam in the language they wish to study if they have had previous experience with that language. Foreign language majors and minors may also take a placement exam to help them determine at what level they should begin studying their chosen language.
- Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Major Courses (31 credit hours)
Core Major Courses (15 credit hours)
GERM 2201 - Intermediate German I (3)
GERM 2202 - Intermediate German II (3)
GERM 3201 - Advanced German Language and Culture I (3) (O)
GERM 3202 - Advanced German Language and Culture II (3)

Core Content Course (3 credit hours)
GERM 3650 - The Holocaust in German Literature and Film (3) (W)

Elective 3000-Level Courses (6 credit hours)
Select two of the following:
GERM 3050 - Topics in German Culture: German Culture (English) (3)
GERM 3051 - Topics in German Culture: German Culture (German) (3)
GERM 3651 - Seminar: German Youth and Pop Cultures (3)

GERM 4051 - Topics in German Culture (1 to 3)
GERM 4061 - Topics in German Language (1 to 3)
GERM 4410 - Professional Internship in German (3)
GERM 4651 - Advanced Seminar: Germany After 1945 (3)
GERM 4661 - Advanced Seminar in Business German I (3)
GERM 4671 - Advanced Seminar in Business German II (3)
GERM 4681 - Advanced Seminar in German for Engineering (3)
GERM 4800 - Directed Individual Study (1 to 3)
HIST 2281 - Modern Germany (3)
HIST 3147 - The Third Reich (3)
TRAN 4412 - Practicum in Translating I - German (3)
TRAN 4413 - Practicum in Translating II - German (3)
TRAN 4414 - Practicum in Translating III - German (3) (W)

Senior Seminar (1 credit hour)
LACS 4690 - Senior Seminar (1)

Add-On Certificates
Students with a Major in German may choose to add three undergraduate certificates to their major. Up to 9 credit hours may be double-counted for the major and certificate.

- Undergraduate Certificate in Languages and Culture Studies: German for Engineering (12 credit hours)
- Undergraduate Certificate in Languages and Culture Studies: Business German (12 credit hours)
- Undergraduate Certificate in Languages and Culture Studies: Translating German-English (12 credit hours)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
GPA of 2.0 is required. Introductory language courses may not be taken on a Pass/No Credit Basis if they are being used to fulfill a college or departmental foreign language requirement. Students with a Foreign Language major or minor may not take required courses in the department on a Pass/No Credit Basis.

Teacher Licensure
The Department of Languages and Culture Studies, in collaboration with the Department of Middle, Secondary, and K-12 Education, offers a program to prepare students for K-12 teacher licensure in North Carolina. Students seeking licensure to teach a foreign language must fulfill the General Education requirements, the foreign language major, two foreign language teaching methods courses, and satisfy all other requirements specified by the College of Education. Students planning to specialize in foreign language education should apply through the Coordinator for Foreign Language Education during the first semester of the Sophomore year to obtain appropriate advising. Licensure applications are the responsibility of the student and the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education.

Minor in German
A Minor in German requires six courses (18 credit hours) above GERM 1202.

Minor Requirements
Core Courses (12 credit hours)
GERM 2201 - Intermediate German I (3)*
GERM 2202 - Intermediate German II (3)*
GERM 3201 - Advanced German Language and Culture I (3) (O)
GERM 3202 - Advanced German Language and Culture II (3)

*Students waived from GERM 2201 and/or GERM 2202 must take the equivalent number of credit hours in 3000- or 4000-level courses.

Elective Courses (6 credit hours)
GERM 3xxx-4xxx - German Elective (3)
GERM 3xxx-4xxx - German Elective (3)

Minor Total = 18 Credit Hours

Undergraduate Certificate in Languages and Culture Studies: Business German
The Undergraduate Certificate in Languages and Culture Studies: Business Languages program (CBL) provides classroom, overseas (optional), and practical training in German for international business, which may also be recognized by international examinations. The certificate requires 12 credit hours. The sequence contains a two-semester component in advanced business German. Majors in any field are welcome. GERM 3670, GERM 3680, and GERM 3690, which are taught in English, can double count towards the German Major and Minor.

Certificate Requirements
Courses Taught in German (6 credit hours)
GERM 4661 - Advanced Seminar in Business German I (3)
GERM 4671 - Advanced Seminar in Business German II (3)

Courses Taught in English (6 credit hours)
Select two of the following:
GERM 3670 - Seminar: German-American Culture for Business and Engineering I (English) (3) (W)
GERM 3680 - Seminar: German-American Culture for Business and Engineering II (English) (3)

JAPN 3202 - Upper Intermediate Japanese II (3)
JAPN 4206 - Advanced Spoken Business Japanese (3)
TRAN 4422 - Practicum in Translating I - Japanese (3)

Minor Total = 15 Credit Hours

Grade Requirements
In order to be awarded the CBL, each course that counts for the certificate must be completed with a grade of B or above.

Undergraduate Certificate in Languages and Culture Studies: Translating Japanese-English
An Undergraduate Certificate in Languages and Culture Studies: Translating (CT) is not equivalent to a major in a foreign language; rather it represents a theory-based skill developed at the bachelor’s degree level. The CT may complement a major in any field, and is especially recommended for Majors and Minors in Japanese, International Studies, or International Business. All courses for the CT involve, but are not limited to, translating into English from the source text. A CT in Japanese-English may be earned by completing 12 credit hours.

Certificate Requirements
TRAN 3601 - Introduction to Translation and Interpreting Studies (3)
TRAN 4422 - Practicum in Translating I - Japanese (3)
TRAN 4423 - Practicum in Translating II - Japanese (3)
TRAN 4424 - Practicum in Translating III - Japanese (3) (W)*

Certificate Total = 12 Credit Hours

Grade Requirements
All courses must be completed with a grade of B or above.

Russian

Minor in Russian
A Minor in Russian consists of six courses (20 credit hours) above the RUSS 1202 level.

Minor Requirements
Required Courses (20 credit hours)
RUSS 2201 - Intermediate Russian I (3)
RUSS 2201L - Intermediate Russian I Lab (1)
RUSS 2202 - Intermediate Russian II (3)
RUSS 2202L - Intermediate Russian II Lab (1)
RUSS 3201 - Advanced Russian Grammar, Composition, and Conversation I (3)
RUSS 3202 - Advanced Russian Grammar, Composition, and Conversation II (3)
RUSS 3204 - Masterpieces of Russian Literature (3) (W)*
RUSS 3209 - Russian Civilization and Culture (3) (W)*

*RUSS 3060 and/or RUSS 3061, when taken for 3 credit hours, may count toward the minor instead of the required Russian courses.

Minor Total = 20 Credit Hours

Undergraduate Certificate in Languages and Culture Studies: Translating Russian-English
An Undergraduate Certificate in Languages and Culture Studies: Translating (CT) is not equivalent to a major in a foreign language; rather it represents a theory-based skill developed at the bachelor’s degree level. The CT may complement a major in any field, and is especially recommended for Majors and Minors in Russian, International Studies, or International Business. SPAN 4410 - Professional Internship in Spanish (1 to 6)
SPAN 4800 - Directed Individual Study (1 to 3)
SPAN 4xxx - Spanish Elective (3)
LACS 4700 - Honors Project (3) (W)
TRAN 4442 - Practicum in Translating I - Spanish (3)
TRAN 4443 - Practicum in Translating II - Spanish (3)
TRAN 4444 - Practicum in Translating III - Spanish (3) (W)

Note: The following courses may also double count as a 4000-level Concentration Elective course:
TRAN 4444 - Practicum in Translating III - Spanish (3) (W)
LACS 4700 - Honors Project (3) (W)

Senior Seminar (1 credit hour)
LACS 4690 - Senior Seminar (1)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
A GPA of 2.0 is required. Introductory language courses may not be taken on a Pass/No Credit Basis if they are being used to fulfill a college or departmental foreign language requirement. Students with a Foreign Language major or minor may not take required courses in the department on a Pass/No Credit Basis.

Only courses in which a student has earned a grade of C or above may count toward the Spanish major.
Teacher Licensure
The Department of Languages and Culture Studies, in collaboration with the Department of Middle, Secondary, and K-12 Education, offers a program to prepare students for K-12 teacher licensure in North Carolina. Students seeking licensure to teach a foreign language must fulfill the General Education requirements, the foreign language major, two foreign language teaching methods courses, and satisfy all other requirements specified by the College of Education. Students planning to specialize in foreign language education should apply through the Coordinator for Foreign Language Education during the first semester of the Sophomore year to obtain appropriate advising. Licensure applications are the responsibility of the student and the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education.

Bachelor of Arts in Spanish
with Concentration in Literature and Culture
The B.A. in Spanish degree offers three concentrations:

1) Applied Language (Business Spanish and Translating)
2) Literature and Culture
3) Hispanic Studies

All concentrations consist of 30 credit hours of language and content courses, plus a one-credit hour Senior Seminar. Students with a Major in Spanish are strongly encouraged to take courses in another language at least through the Intermediate level.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0

TRAN 4444 - Practicum in Translating III - Spanish (3) (W)

3000- or 4000-Level Elective Course (3 credit hours)
The elective course may double count for the second major if it has Hispanic content, or it may be a course offered in English, such as the following:

SPAN 3029 - Cultural Dimension of Doing Business with Spanish-Speaking Countries (3)

SPAN 3030 - Business and Culture in the Hispanic Caribbean Region (3) (W)
SPAN 3160 - Studies in Hispanic Film (3) (W)
TRAN 3601 - Introduction to Translation and Interpreting Studies (3)
3000- or 4000-level course with Hispanic content from another department or major (3)

Or the elective course can be an additional course from the department:
SPAN 3xxx-4xxx - Elective Course (3)
TRAN 3xxx-4xxx - Elective Course (3)

The elective may also double count as a (W) course in the major if it has Hispanic content, such as the following:
SPAN 3009 Masterpieces of Hispanic Literature in English (3) (W)
SPAN 3019 Hispanic Women Writers in English Translation (3) (W)

Second Major Requirement
Students must complete a second major to be awarded a B.A. in Spanish with Concentration in Hispanic Studies. With approval of an advisor, the choice of second major should be considered in terms of the fulfillment of individual educational and vocational aspirations.

Senior Seminar (3 credit hours)
LACS 4690 - Senior Seminar (1)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
A GPA of 2.0 is required. Introductory language courses may not be taken on a Pass/No Credit Basis if they are being used to fulfill a college or departmental foreign language requirement. Students with a Foreign Language major or minor may not take required courses in the department on a Pass/No Credit Basis.

Only courses in which a student has earned a grade of C or above may count toward the Spanish major.

Teacher Licensure
The Department of Languages and Culture Studies, in collaboration with the Department of Middle, Secondary, and K-12 Education, offers a program to prepare students for K-12 teacher licensure in North Carolina. Students seeking licensure to teach a foreign language must fulfill the General Education requirements, the foreign language major, two foreign language teaching methods courses, and satisfy all other requirements specified by the College of Education. Students planning to specialize in foreign language education should apply through the Coordinator for Foreign Language Education during the first semester of the Sophomore year to obtain appropriate advising. Licensure applications are the responsibility of the student and the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education.
Minor in Spanish
A Minor in Spanish consists of five courses above the 2202 level.

Minor Requirements
Required Courses (9 credit hours)
SPAN 3201 - Advanced Spanish Grammar and Composition I (3)*
SPAN 3202 - Advanced Spanish Conversation and Composition II (3)*
SPAN 3208 - Introduction to Literary Analysis (3)

Elective Courses (6 credit hours)
Select two of the following:
SPAN 3xxx-4xxx - Spanish Elective Course (3)
SPAN 3xxx-4xxx - Spanish Elective Course (3)

*Native and heritage speakers of Spanish may take SPAN 3203 (Spanish for Heritage Speakers) in lieu of SPAN 3201 and SPAN 3202, but they must also take one additional 3000- or 4000-level Spanish course.

Minor Total = 15 Credit Hours

Grade Requirements
A grade of C or above is required for all courses in the minor.

Undergraduate Certificate in Languages and Culture Studies: Business Spanish
The Certificate in Business Languages (CBL) provides classroom, overseas (optional), and practical training in Spanish for international business, which may also be recognized by international examinations. The Undergraduate Certificate in Languages and Culture Studies: Business Spanish (CBLS) requires 12 credit hours. Majors in any field are welcome.

Certificate Requirements
Required Courses (9 credit hours)
SPAN 3220 - Spanish for Business and International Trade (3)
SPAN 4120 - Advanced Business Spanish I (3)
SPAN 4121 - Advanced Business Spanish II (3)

Elective Course (3 credit hours)
Select one of the following:
SPAN 3xxx - Spanish Elective (3)
SPAN 4xxx - Spanish Elective (3)
TRAN 4402S - Practicum in Translating I - Spanish (3)
TRAN 4403S - Practicum in Translating II - Spanish (3)
TRAN 4404S - Practicum in Translating III - Spanish (3)

Certificate Total = 12 Credit Hours

Grade Requirements
In order to be awarded the CBL, each course that counts for the certificate must be completed with a grade of B or above.

Undergraduate Certificate in Languages and Culture Studies: Hispanic Literary Studies
The Undergraduate Certificate in Languages and Culture Studies: Hispanic Literary Studies emphasizes the study of literatures written in Spanish from Latin America and Spain within the broader context of the language and culture studied in the major. Literature courses in Spanish enrich students’ perspectives by engaging them in the study of history, culture, and philosophy, enabling them to understand other people as well as encouraging introspection and a better understanding of the self and their place in the world. The certificate adds an additional credential to any major concentration and may be added to the existing Certificates in Languages and Culture Studies: Business Spanish and Translating Spanish-English.

Admission Requirements
To be admitted into this certificate program, students must meet the general University requirements for admission into undergraduate certificate programs.

In addition, the program expects students to have taken SPAN 3201 and SPAN 3202, or SPAN 3203, or show that they have advanced level proficiency in reading Spanish.

Certificate Requirements
Required Courses (9 credit hours)
SPAN 3208 - Introduction to Literary Analysis (3)
SPAN 4208 - Survey of Spanish Peninsular Literature (3)
SPAN 4209 - Survey of Spanish American Literature (3)

Elective Courses (6 credit hours)
Select two of the following:
SPAN 4201 - Nineteenth Century Spanish Literature (3)
SPAN 4202 - Twentieth Century Spanish Literature (3)
SPAN 4205 - Novel of the Golden Age (3)
SPAN 4206 - Theater of the Golden Age (3)
SPAN 4210 - Studies in Spanish American Poetry (3)
SPAN 4211 - Studies in Spanish American Prose Fiction (3)
SPAN 4212 - Studies in Spanish American Theater (3)
SPAN 4213 - Cervantes (3)
SPAN 4214 - Studies in Hispanic Children’s Literature (3)
SPAN 4215 - Studies in Regional Literature of the Americas (3)
SPAN 4216 - Social, Political, Cultural, Economic Issues in Hispanic Literature (3)
SPAN 4050 - Selected Topics in Spanish (3) (only if approved by advisor)

Certificate Total = 15 Credit Hours

Undergraduate Certificate in Languages and Culture Studies: Translating Spanish-English
An Undergraduate Certificate in Languages and Culture Studies: Translating (CT) is not equivalent to a major in a foreign language; rather it represents a theory-based skill developed at the bachelor’s degree...
level. The CT may complement a major in any field, and is especially recommended for Majors and Minors in Spanish, International Studies, or International Business. All courses for the CT involve, but are not limited to, translating into English from the source text. A CT in Spanish-English may be earned by completing 12 credit hours.

**Certificate Requirements**

TRAN 3601 - Introduction to Translation and Interpreting Studies (3)  
TRAN 4442 - Practicum in Translating I - Spanish (3)  
TRAN 4443 - Practicum in Translating II - Spanish (3)  
TRAN 4444 - Practicum in Translating III - Spanish (3) (W)

**Certificate Total = 12 Credit Hours**

**Grade Requirements**

All courses must be completed with a grade of B or above.

---

**Early Entry: Master of Arts in Spanish**

Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

**Admission Requirements**

- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)  
- Minimum 3.2 overall undergraduate GPA  
- Minimum 3.0 GPA in the Department of Languages and Culture Studies  
- Submit application online at mygradschool.uncc.edu and provide supporting documents  
- Recommendation by the Graduate Program Director and approved by the Graduate School

*Note: Standardized test scores (e.g., GRE, MAT) are not required.*

**Continued Enrollment Requirements**

- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester  
- Maintain a minimum 2.75 overall undergraduate GPA and minimum 3.0 GPA for their Junior/Senior years  
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

**Double-Counted Courses**

This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

**More Information**

For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog.
Other Languages and Cultures

Minor in Arabic Studies
The Minor in Arabic Studies consists of 20 credit hours (6 courses) above the 1202 level.

Admission Requirements
Students must be in good academic standing with a minimum GPA of 2.0.

Minor Requirements
Intermediate Level Courses (8 credit hours)
ARBC 2201 - Intermediate Arabic I (3)
ARBC 2201L - Intermediate Arabic I Lab (1)
ARBC 2202 - Intermediate Arabic II (3)
ARBC 2202L - Intermediate Arabic II Lab (1)

Advanced Level Courses (6 credit hours)
ARBC 3201 - Advanced Arabic I (3)
ARBC 3202 - Advanced Arabic II (3)

Elective Courses (6 credit hours)
Students choose two elective classes at the 3000-level in Arabic language, literature, film, and/or culture, taken either at UNC Charlotte or abroad. Select from the following:

ARBC 3050 - Topics in Arabic Language and Culture (3) (W)
ARBC 3051 - Topics in Arabic Language and Culture (1 to 3)
HIST 2215 - A History of Muslim Societies (3)
HIST 2216 - The Modern Middle East (3)
RELS 2000 - Topics in Religious Studies (1 to 3) (Islam in America)
RELS 2131 - Islam (3)
RELS 3000 - Special Topics in Religious Studies (3) (Islam: History, Traditions, and Politics)

Minor Total = 20 Credit Hours

Grade Requirements
A grade of C or above must be received in all courses applied toward the minor.

Minor in Chinese
The Minor in Chinese consists of a minimum of 20 credit hours (6 courses) above the CHNS 1202 level (i.e., above beginning language instruction).

Minor Requirements
Intermediate Level Courses (8 credit hours)
CHNS 2201 - Intermediate Chinese I (3)
CHNS 2201L - Intermediate Chinese I Lab (1)
CHNS 2202 - Intermediate Chinese II (3)
CHNS 2202L - Intermediate Chinese II Lab (1)

Advanced Level Courses (6 credit hours)
CHNS 3201 - Chinese Grammar and Conversation I (3)
CHNS 3202 - Chinese Grammar and Conversation II (3)

Elective Courses (6 credit hours)
Students choose two elective classes at the 3000-level in Chinese language, literature, film, and/or culture, taken either at UNC Charlotte or abroad. The elective classes must either be taught in the language or be accompanied by a one-hour additional language component in order to count toward the minor.

Minor Total = 20 Credit Hours

Minor in Classical Studies
The Minor in Classical Studies focuses a student’s interest in ancient Mediterranean history and provides a foundation for advanced work in other academic disciplines as well as professional programs in law, medicine, and finance. The minor gives students an opportunity to develop a keener perception and better understanding of the cultural forces at work in the contemporary world. By presenting a broad selection of courses in the various disciplines of literature, philosophy, and history, the minor provides students with a sound overview of Western antiquity.

Minor Requirements
The minor requires a minimum of 18 credit hours of coursework distributed over at least three of the following five areas of study:

Languages
GREK 1202 - Elementary Ancient Greek II (4)
LATN 1202 - Elementary Latin II (4)

Ancient Material Culture
ANTH 2152 - New World Archaeology (3)
ANTH 3152 - Early Civilizations (3)
ARTH 3320 - Ancient Egyptian and Near Eastern Art (3)
ARTH 3322 - Ancient Greek Art (3)
ARTH 3323 - Ancient Roman Art I (3)

Ancient History
HIST 2221 - History of Greece (3)
HIST 2222 - History of Rome (3)

Greek and Roman Literature
ENGL 4111 - Ancient World Literature (3)

Greek and Roman Thought
PHIL 3010 - Ancient Philosophy (3)
iPHIL 3110 - Medieval Philosophy (3)
POLS 3171 - History of Classical Political Philosophy (3)

Minor Total = 18 Credit Hours

Grade Requirements
GPA of 2.0 is required.
Minor in Italian
A Minor in Italian consists of 18-20 credit hour (six 3-credit hour courses and up to two 1-credit hour courses) above the ITLN 1202 level.

Minor Requirements
Required Courses (12 credit hours)
ITLN 2201 - Intermediate Italian I (3)
ITLN 2202 - Intermediate Italian II (3)
ITLN 3201 - Italian Grammar and Conversation (3)
ITLN 3202 - Italian Grammar and Composition (3)

Elective Courses (6-8 credit hours)*
Select from the following:
ITLN 3050 - Topics in Italian (3) (W)
ITLN 3051 - Topics in Italian (1 to 3) -

*Students may take ITLN 3050 and ITLN 3051, ITLN 3050 twice, or ITLN 3051 twice, for a total of 6 credit hours. When the topics classes are not taught in Italian, they must be taken concurrently with a one-credit hour additional language component (ITLN 3051 (1)) in order to count toward the minor.

Minor Total = 18-20 Credit Hours

Early Entry: Graduate Certificate in Languages and Culture Studies: Business Language
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
• Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
• Minimum 3.2 overall undergraduate GPA
• Submit application online at mygradschool.uncc.edu and provide supporting documents
• Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
• Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
• Maintain a minimum 3.0 overall undergraduate GPA
• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Honors Program

Honors Program in Languages and Culture Studies

The Honors Program in the Department of Languages and Culture studies provides a unique opportunity to majors and minors in any of its language and culture disciplines to conduct field research through study abroad or applied internships. After taking a course that prepares students to do and write up research, they have the opportunity to do experiential learning either on a study abroad or an internship, and later write up their findings. Students have the opportunity to share their findings either through an honors project or thesis. This is the highest distinction that the department bestows on its majors and minors; honors in Languages and Culture Studies is an excellent preparation for graduate school, and it is a great addition to student resumes.

Admission Requirements
To be admitted to the Languages and Culture Studies honors program, students must have:

- 3.0 overall GPA
- Completed the 2201 course level in their language of choice with a grade of B or above
- Permission of the Honors Director

Certification Requirements
Honors candidates must participate in at least 3 credit hours of either study abroad or a department-approved internship or experiential learning opportunity.

In order to graduate with departmental honors, students must:

- Complete the Application to Candidacy through the Honors College
- Complete LACS 3700 with a grade of A or a grade of B with approval of the Honors Director
- Complete a study abroad or program-approved internship and/or experiential learning opportunity of at least 3 credit hours
- Complete LACS 4700 with a grade of A to receive honors (Students earning a lower grade can still earn elective credit)
- Maintain an overall GPA of 3.5 in the Languages and Culture Studies major or minor

Latin American Studies

Undergraduate Programs
- B.A. in Latin American Studies
  - Honors Program
- Minor in Latin American Studies
- Early Entry: M.A. in Latin American Studies

Latin American Studies is an interdisciplinary program which involves a variety of fields, including African American studies, anthropology, Spanish and Portuguese language, literature and culture, history, philosophy, and political science. It also includes substantial training and education in Spanish and/or Portuguese. Students may either earn a Major (Bachelor of Arts) or a Minor in Latin American Studies.

Graduates of Latin American Studies (1) pursue graduate study in the humanities, social sciences, and law; (2) work for companies and agencies serving the growing Hispanic population of our region; and (3) find careers in the Foreign Service, the military, and other governmental agencies; in non-governmental organizations with an international or cross-cultural orientation; and in international business.

Bachelor of Arts in Latin American Studies

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0
- Other: Students who do not meet requirements for admission to the program because of special circumstances may petition the coordinator for acceptance into the program
- Transferable Credit Hours: 24

Degree Requirements
The program leading to the Bachelor of Arts degree in Latin American Studies is a 120 credit hour program, including completion of all General Education Requirements and at least 30 credit hours in courses approved for Latin American Studies credit.

Students may earn LTAM credit in a course section with a non-LTAM prefix so long as it is cross-listed with a LTAM section.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.
Foreign Language Courses (6 credit hours)
Students are expected to demonstrate competency in either Spanish (SPAN) or Portuguese (PORT) by completing the equivalent of two courses at the 3000-level or above. The program director may waive this requirement for native and heritage speakers following a determination of equivalent foreign language proficiency.

Foundation Course (3 credit hours)
LTAM 1100 Introduction to Latin America (3 hours)

Major Courses (minimum 24 credit hours)
Select two to three courses from each of the following three perspectives:

Economy and Society Courses (6-9 credit hours)
Courses in this perspective emphasize social science approaches to the study of contemporary Latin America such as anthropology, political science, and business language.

Select 2-3 of the following:
- LTAM 2001 - Topics in Latin American Studies (3)
- LTAM 2116 - Contemporary Latin America (3)
- LTAM 2117 - Cultures of the Caribbean (3)
- LTAM 3001 - Advanced Topics in Latin American Studies (3)
- LTAM 3110 - Black Families in the Diaspora (3)
- LTAM 3120 - Spanish for Business and International Trade (3)
- LTAM 3129 - Cultural Dimension of Doing Business with Spanish-Speaking Countries (3)
- LTAM 3144 - Latin American Politics (3)
- LTAM 3154 - Political Economy of Latin America (3)
- LTAM 3164 - U.S.-Latin American Relations (3)
- LTAM 3190 - Political Economy of the Caribbean (3)
- LTAM 3220 - The Caribbean from Slavery to Independence (3)
- LTAM 4116 - Culture and Conflict in the Amazon (3)
- LTAM 4120 - Advanced Business Spanish I (3)
- LTAM 4121 - Advanced Business Spanish II (3)

Historical Context Courses (6-9 credit hours)
Courses in this perspective focus on the historical development of Latin America since Pre-Columbian times, and they include courses in History and Archaeology.

Select 2-3 courses from the following. At least one course must focus on the pre-colonial and/or colonial periods.
- LTAM 2002 - Topics in Latin American Studies (3)
- LTAM 2206 - Colonial Latin America (3)
- LTAM 2207 - Modern Latin America (3)
- LTAM 2252 - New World Archaeology (3)
- LTAM 3002 - Advanced Topics in Latin American Studies (3)
- LTAM 3220 - The Caribbean from Slavery to Independence (3)
- LTAM 3255 - Ancient Latin America (3)
- LTAM 3257 - South American Prehistory (3)
- LTAM 3260 - Slavery, Racism, and Colonialism in the African Diaspora (3)
- LTAM 3270 - Afro-Latin American History (3)
- LTAM 3274 - Resistance and Adaptation: Indian Peoples Under Spanish Rule (3)
- LTAM 3275 - Reform, Riots, and Revolutions in Colonial Spanish America, 1692-1825 (3)
- LTAM 3276 - History of Mexico (3)
- LTAM 3277 - The Cuban Revolution (3)
- LTAM 3278 - History of Brazil (3)
- LTAM 3279 - Authoritarianism in Latin America (3)

Literature and the Arts Courses (6-9 credit hours)
Courses in this perspective study the cultural production of Latin American peoples such as the arts, literature and film, and they include courses in Art History, Spanish, and Film Studies.

Select 2-3 of the following:
- LTAM 2003 - Topics in Latin American Studies (3)
- LTAM 3003 - Advanced Topics in Latin American Studies (3)
- LTAM 3300 - Maya Art (3)
- LTAM 3301 - Mexico (Aztec) Art (3)
- LTAM 3302 - Andean Art (3)
- LTAM 3309 - Masterpieces of Hispanic Literature in English Translation (3)
- LTAM 3310 - Spanish American Civilization and Culture (3)
- LTAM 3313 - Pre-Columbian Art (3)
- LTAM 3319 - Hispanic Women Writers in English Translation (3)
- LTAM 3360 - Studies in Hispanic Film (3)
- LTAM 4302 - Caribbean Literature in English (3)
- LTAM 4309 - Introduction to Spanish American Literature (3)
- LTAM 4310 - Studies in Spanish American Poetry (3)
- LTAM 4311 - Studies in Spanish American Prose Fiction (3)
- LTAM 4312 - Studies in Spanish American Theater (3)
- LTAM 4314 - Studies in Hispanic Children’s Literature (3)
- LTAM 4315 - Studies in Regional Literature of the Americas (3)
- LTAM 4316 - Social, Political, Cultural, Economic Issues in Hispanic Literature (3)
- LTAM 4317 - Topics in Hispanic Culture and Civilization (3)
- LTAM 4318 - Cuban Literature (3)
- LTAM 4322 - Studies in Advanced Business Spanish (3)
- LTAM 4350 - Studies in Latin American Literature (3)

Note: Students may take LTAM 2001, LTAM 2002, or LTAM 2003 (Topics in Latin American Studies); or LTAM 3001, LTAM 3002, or LTAM 3003 (Advanced Topics in Latin American Studies) to help fulfill these requirements. As the topics of these courses vary, students may repeat them for credit. An advisor will determine which perspective(s) a given course in Latin American Studies may count toward requirements in that major towards requirements for the Latin American Studies degree. Students doing a major/minor combination may count up to 6 hours credit from courses used in the minor towards the requirements for the Major in Latin American Studies.

Senior Seminar Course (3 credit hours)
LTAM 4600 - Seminar in Latin American Studies (3)

This seminar may only be taken after completion of at least 18 hours in the major, including LTAM 1100, and fulfillment of the language requirement. As the topic of this course varies, it may be taken more than once to fulfill an elective requirement. In that case, the first LTAM 4600 will fulfill a thematic requirement, and the second course will fulfill the capstone requirement.

Second Major (up to 9 credit hours)
Students with a second major may count up to 9 credit hours from courses fulfilling requirements in that major towards requirements for the Latin American Studies degree. Students doing a major/minor combination may count up to 6 hours credit from courses used in the minor towards the requirements for the Major in Latin American Studies.
These stipulations include cross-listed courses regardless of program designation under which the course was taken. Exceptions may be approved by an advisor upon consultation with the other program or department. Note: Students exercising this option should be aware that the accuracy of the online degree audit may be affected.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Transfer Credit (up to 64 credit hours)
Up to 64 credit hours may be accepted from a two-year institution. There is no limit on the number of hours that may be accepted from four-year institutions. All students must complete their last 30 credit hours in residence at UNC Charlotte, including the last 12 hours of the major. At the discretion of an advisor, prior life, study, or work experience may be considered in exempting a student from this requirement.

Degree Total = 120 Credit Hours

Grade Requirements
To graduate, students majoring in Latin American Studies must have an overall GPA of at least 2.0, including a GPA of at least 2.0 in the major.

Honors Program in Latin American Studies
This optional credential may be awarded to students with a minimum overall GPA of 3.25 and a GPA of at least 3.25 in Latin American Studies courses. To receive honors in Latin American Studies, a student must be approved by the Latin American Studies Honors Committee. Students who plan to graduate with "Honors in Latin American Studies" must complete the Application to Candidacy process for graduating with honors, as directed by the Honors College, beginning the semester prior to the semester they plan to graduate. They must register for 3 credit hours of LTAM 4700 during their Senior year and present an honors thesis based on in-depth research in primary sources to a committee composed of three members of the Latin American Studies faculty. One of these faculty members will serve as the student's primary honors thesis adviser. Following an oral defense of the thesis, the committee shall award a grade. A thesis awarded a grade of A is acceptable for curricular honors. Students may also obtain honors through the University Honors Program.

Minor in Latin American Studies
A Minor in Latin American Studies consists of 18 credit hours.

Minor Requirements
Foundation Course (3 credit hours)
LTAM 1100 - Introduction to Latin America (3)

Foreign Language Requirement
Students are expected to demonstrate competency in Portuguese or Spanish by completion of two courses at the 2000-level or above. Additional language training and/or study-abroad is strongly recommended.

Economy and Society Courses (3-9 credit hours)
These courses in this perspective emphasize social science approaches to the study of contemporary Latin America such as anthropology, political science, and business language.

Select 1-3 of the following:
LTAM 2116 - Contemporary Latin America (3)
LTAM 2117 - Cultures of the Caribbean (3)
LTAM 3110 - Black Families in the Diaspora (3)
LTAM 3120 - Spanish for Business and International Trade (3)
LTAM 3129 - Cultural Dimension of Doing Business with Spanish-Speaking Countries (3)
LTAM 3144 - Latin American Politics (3)
LTAM 3154 - Political Economy of Latin America (3)
LTAM 3164 - U.S.-Latin American Relations (3)
LTAM 3190 - Political Economy of the Caribbean (3)
LTAM 4116 - Culture and Conflict in the Amazon (3)
LTAM 4120 - Advanced Business Spanish I (3)
LTAM 4121 - Advanced Business Spanish II (3)

Historical Context Courses (3-9 credit hours)
Courses in this perspective focus on the historical development of Latin America since Pre-Columbian times, and they include courses in History and Archaeology.

Select 1-3 courses from the following. At least one course must focus on the pre-colonial and/or colonial periods.
LTAM 2206 - Colonial Latin America (3)
LTAM 2207 - Modern Latin America (3)
LTAM 2252 - New World Archaeology (3)
LTAM 3220 - The Caribbean from Slavery to Independence (3)
LTAM 3255 - Ancient Latin America (3)
LTAM 3257 - South American Prehistory (3)
LTAM 3260 - Slavery, Racism, and Colonialism in the African Diaspora (3)
LTAM 3270 - Afro-Latin American History (3)
LTAM 3274 - Resistance and Adaptation: Indian Peoples Under Spanish Rule (3)
LTAM 3275 - Reform, Riots, and Rebellions in Colonial Spanish America, 1692-1825 (3)
LTAM 3276 - History of Mexico (3)
LTAM 3277 - The Cuban Revolution (3)
LTAM 3278 - History of Brazil (3)
LTAM 3279 - Authoritarianism in Latin America (3)

Literature and the Arts Courses (3-9 credit hours)
Courses in this perspective study the cultural production of Latin American peoples such as the arts, literature and film, and they include courses in Art History, Spanish, and film studies.

Select 1-3 of the following:
LTAM 3300 - Maya Art (3)
LTAM 3301 - Mexica (Aztec) Art (3)
LTAM 3302 - Andean Art (3)
LTAM 3309 - Masterpieces of Hispanic Literature in English Translation (3)
LTAM 3310 - Spanish American Civilization and Culture (3)
LTAM 3313 - Pre-Columbian Art (3)
LTAM 3319 - Hispanic Women Writers in English Translation (3)
LTAM 3360 - Studies in Hispanic Film (3)
LTAM 4302 - Caribbean Literature in English (3)
LTAM 4309 - Introduction to Spanish American Literature (3)
LTAM 4310 - Studies in Spanish American Poetry (3)
LTAM 4311 - Studies in Spanish American Prose Fiction (3)
LTAM 4312 - Studies in Spanish American Theater (3)
LTAM 4314 - Studies in Hispanic Children’s Literature (3)
LTAM 4315 - Studies in Regional Literature of the Americas (3)
LTAM 4316 - Social, Political, Cultural, Economic Issues in Hispanic Literature (3)
LTAM 4317 - Topics in Hispanic Culture and Civilization (3)
LTAM 4318 - Cuban Literature (3)
LTAM 4322 - Studies in Advanced Business Spanish (3)
LTAM 4350 - Studies in Latin American Literature (3)

Minor Total = 18 Credit Hours

Notes: Among the credit hours required for the minor, not more than 6 credit hours may be double counted with another major or minor. This stipulation includes cross-listed courses, regardless of program designation under which the course was taken. Exceptions may be approved by an advisor upon consultation with the other program or department. Students exercising this option should be aware that the accuracy of the online degree audit may be affected.

Students may take LTAM 2001, LTAM 2002, or LTAM 2003 (Topics in Latin American Studies); or LTAM 3001, LTAM 3002, or LTAM 3003 (Advanced Topics in Latin American Studies) to help fulfill these requirements. As the topics of these courses vary, students may repeat them for credit. An advisor will determine which perspective(s) a given section of LTAM 2001, LTAM 2002, LTAM 2003, LTAM 3001, LTAM 3002, or LTAM 3003 fulfills. With the approval of an advisor, students may also apply up to three credit hours of LTAM 3800 (Independent Study) toward these requirements.

Early Entry: Master of Arts in Latin American Studies
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Note: GRE scores are not required.

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be “double counted” toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Accelerated Master’s Program
(for High School Seniors and UNC Charlotte Undergraduate Freshmen)
Academically talented high school seniors and UNC Charlotte undergraduate freshmen are encouraged to apply to an Accelerated Master’s Program to begin work toward both undergraduate and graduate degrees in their Freshman year.

Admission Requirements
- Minimum high school GPA of 3.75 (on a 4.0 scale)
- Minimum score of 1220 on SAT

Continued Enrollment Requirements
Students must maintain a strong academic record at both the undergraduate and graduate levels with a cumulative GPA of 3.0 or above.

Double-Counted Courses
Up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on the Accelerated Master’s Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/accelerated-masters.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.
LEADS Program

Undergraduate Programs

• Undergraduate Certificate in Leadership, Innovation, Technology, and Diversity

LEADS (Leadership/Entrepreneurship/Applied/Development/Skills) is an innovative, transdisciplinary program designed to help students in the College of Liberal Arts & Sciences grow into critical thinkers, imaginative leaders, and engaged citizens who are well-prepared for their future careers.

With the opportunities provided through LEADS, students have access to unique programming and experiential learning that complements their major and enhances their personal and professional development. There are several points of entry for LEADS, and students have the flexibility to choose from the LEADS options that best meet their needs and interests, and to proceed at their own pace. Participation in LEADS positions you to be well-rounded and competitive prepared for wherever your next steps take you.

LEADS provides programming that:

• supplements and complements students’ major curriculum
• fosters learning across disciplines
• enhances communication skills
• provides space for practicing critical skills
• allows students to gain valuable experience
• leads to personal and professional development
• prepares students for their next step after UNC Charlotte

LEADS is open to new freshmen, continuing students, and transfer students.

Undergraduate Certificate in Leadership, Innovation, Technology, and Diversity

The Undergraduate Certificate in Leadership, Innovation, Technology, and Diversity is offered by the LEADS program within the College of Liberal Arts & Sciences. It provides students with an additional layer of experiential learning and individualized support to supplement their major curriculum. Through transdisciplinary courses and experiences, students practice innovation thinking, critical thinking, and professional communication as they identify and develop their personal leadership style. Students who complete the LEADS certificate in Leadership, Innovation, Technology, and Diversity develop and execute a professional plan of action and are well prepared to translate their experiences and abilities as they prepare to enter their career or graduate/professional studies. The certificate may be pursued concurrently with any undergraduate degree programs at UNC Charlotte.

Certificate Requirements

LEADS Foundation Course (1 credit hours)
CLAS 2600 - LEADS Colloquium (1)

LEADS Elective Courses (3 credit hours)
Select two of the following:
CLAS 3000 - Topics in Liberal Arts & Sciences (3)
CLAS 3400 - Non-Residential Studies (1 to 15)
CLAS 3480 - Citizenship and Service Practicum (3) (O,W)
CLAS 3500 - Liberal Arts & Sciences Cooperative Education Experience (0)
LBST 2301 - Critical Thinking and Communication (3)

Notes:
• LBST 2301 credit should be through LEADS specific sections.
  Students who have received credit for a non-LEADS section of LBST 2301 may substitute an additional LEADS elective course.
• CLAS 3000 may be repeated for credit with change in topics.
• LEADS elective credit may also be earned through departmental credits for LEADS approved courses.

LEADS Capstone Course (3 credit hours)
Students should complete their capstone experience during their Senior year, following completion of all other requirements.
CLAS 4800 - LEADS Capstone Project (3) (W)

Certificate Total = 10 Credit Hours

Grade Requirements

Students must earn grades of C or above in all LEADS courses. Students must earn a grade of B or above in CLAS 4800.
Legal Studies

Undergraduate Programs
- Minor in Legal Studies

Legal Studies is an interdisciplinary approach to the study of law and society and business.

Minor in Legal Studies
The Minor in Legal Studies enhances a liberal arts education across traditional disciplines, focusing on the theory and operation of law and legal institutions. The courses in the Minor in Legal Studies expose students to the many facets of law as a social phenomenon - its evolution, function, motivating ideas, and effects. In addition to fostering critical thinking and other transferable skills, the broad base of knowledge about law-related topics that students acquire in this minor better positions them for employment in governmental and nonprofit agencies, as well as business, in which legal knowledge is beneficial.

Minor Requirements
The minor consists of 18 credit hours. Students must take at least 3 credit hours in a Legal Skills course and the remaining 12 credit hours may consist of additional Legal Studies substance courses. A maximum of 6 of these credit hours may be in the student’s major. In addition, students may not take more than 6 credit hours from any one major area (e.g., AFRS, CJUS, COMM, PHIL, POLS, PSYC, SOCY).

Foundation Course (3 credit hours)
LEGL 1100 - Introduction to Law and the Legal System (3)

Substantive Area Courses (12 credit hours)
Select 12 credit hours from the following for a maximum of 6 credit hours from each major area:

LEGL 1105 - Critical Thinking (3) (W)
LEGL 1106 - Critical Thinking (3)
LEGL 2103 - Argumentation and Debate (3)
LEGL 2105 - Deductive Logic (3)
LEGL 2131 - Introduction to Forensic Psychology (3)
LEGL 2320 - Introduction to Courts (3)
LEGL 3000 - Topics in Legal Studies (3)
LEGL 3100 - Topics in Legal Skills (3)
LEGL 3113 - Constitutional Law and Policy (3)
LEGL 3115 - Civil Rights and Liberties (3)
LEGL 3116 - Judicial Process (3)
LEGL 3117 - Gender and the Law (3)
LEGL 3137 - International Human Rights (3)
LEGL 3141 - Organizational Communication (3)
LEGL 3162 - International Law (3)
LEGL 3175 - Philosophy of Law (3)
LEGL 3239 - Ethics Bowl Prep (3) (O,W)
LEGL 3240 - Ethics Bowl (3) (O,W)
LEGL 3241 - African Americans and the Legal Process (3)
LEGL 3320 - Criminal Justice and the Law (3)
LEGL 3321 - Criminal Procedure (3)
LEGL 3354 - Punishment and Freedom (3)
LEGL 3363 - Mediation and Conflict Resolution (3)
LEGL 3510 - Advanced Logic (3)
LEGL 3810 - Social and Political Philosophy (3)
LEGL 4101 - Media and the Law (3)
LEGL 4110 - North Carolina Student Legislature (3) (O,W)
LEGL 4265 - Social Psychology of Law (3) (W)
LEGL 4320 - Evidence (3) (O,W)

Skills Area Courses (3 credit hours)
Select one of the following not already taken to fulfill the Substantive Area Course requirement above:

LEGL 1105 - Critical Thinking (3) (W)
LEGL 1106 - Critical Thinking (3)
LEGL 2103 - Argumentation and Debate (3)
LEGL 2105 - Deductive Logic (3)
LEGL 3100 - Topics in Legal Skills (3)
LEGL 3239 - Ethics Bowl Prep (3) (O,W)
LEGL 3240 - Ethics Bowl (3) (O,W)
LEGL 3363 - Mediation and Conflict Resolution (3)
LEGL 3510 - Advanced Logic (3)
LEGL 4110 - North Carolina Student Legislature (3) (O,W)
LEGL 4320 - Evidence (3) (O,W)

Minor Total = 18 Credit Hours

Grade Requirements
Students are required to earn a C or above in all courses that are counted toward the minor. No courses counted toward the minor may be taken with Pass/No Credit grading.
Undergraduate Programs

- **B.A. in Mathematics**
  - Actuarial Science
  - Statistics
  - Teacher Licensure
  - Honors Program
- **B.S. in Mathematics**
  - Actuarial Science
  - Statistics
  - Teacher Licensure
  - Honors Program
- **B.A. in Mathematics for Business**
- **B.S. in Mathematics for Business**
- **Minor in Actuarial Mathematics**
- **Minor in Mathematics**
- **Minor in Statistics**
- **Undergraduate Certificate in Actuarial Studies**
- **Early Entry: M.S. in Mathematics**

Mathematics has important applications to numerous areas ranging from economics and other social sciences to physics and engineering. It is a challenging and interesting area to study in its own right with a broad and varied curriculum. Of course, graduates with a major in mathematics can become teachers and are in very high demand. However, according to a recent national survey, the majority are employed in careers with private for-profit employers. The leading occupations include:

- Accounting and Finance
- Computer Programming
- Sales and Marketing
- Management and Related Positions
- Actuarial
- Computer Systems Analysis
- Statistical and Mathematical Modeling
- Health and Social Services

Career choices for students who concentrate in Statistics would also include those related to the environment, food and drug industry, and the energy sector. Mathematics majors rank the highest in performance on both the LSAT and the GMAT standardized tests for law school and graduate level business programs, respectively.

Degree Programs

The Department of Mathematics and Statistics offers a B.A. and B.S. in Mathematics (with optional concentrations in Actuarial Mathematics and Statistics); a B.A. and B.S. in Mathematics for Business; three minors: Mathematics, Actuarial Mathematics, and Statistics; a certificate in Actuarial Studies; teacher licensure; and an Honors program.

For further studies, the department offers graduate programs leading to master’s and doctoral degrees. The Ph.D. degree is available in Applied Mathematics. The M.A. degree is available in Mathematics Education. The M.S. degree in Mathematics has concentrations in General Mathematics, Applied Mathematics, and Applied Statistics. Additional information on these programs can be found in the UNC Charlotte Graduate Catalog.

Bachelor of Arts in Mathematics

A Major in Mathematics for the B.A. degree consists of a minimum of 34 credit hours of approved Mathematics (MATH), Operations Research (OPRS), or Statistics (STAT) courses, one programming course in Computer Science (ITCS), and 18 credit hours of approved related coursework in an area outside of the department or an approved University minor from outside the department.

Admission Requirements

Freshman and Transfers

- **Minimum GPA:** 2.0
- **Prerequisite Courses:** GPA of at least 2.0 in each of the following categories:
  - All MATH, STAT, and OPRS courses taken
  - All 2000-level and above MATH, STAT, and OPRS courses taken
- **Declaration of Major:** Change of Major forms accepted year-round; orientation/advising session required after declaration
- **Transferable Credit Hours:** 24

Degree Requirements

**General Education Courses (37-41 credit hours)**

For details on required courses, refer to the General Education Program.

**Foreign Language Requirement (0-8 credit hours)**

For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

**Major Courses (26-28 credit hours)**

MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2171 - Differential Equations (3)
MATH 2241 - Calculus III (3)
MATH 2242 - Calculus IV (3)
MATH 3163 - Introduction to Modern Algebra (3) (W)
MATH 3688 - Mathematics Awareness Seminar (0)
MATH 3689 - Mathematics Project Seminar (1) (O)
or MATH 3791 - Senior Honors Tutorial (3)
ITCS 1212 - Introduction to Computer Science (4)
ITCS 1212L - Programming Lab I (1)

**Restricted Mathematics Elective Courses (12 credit hours)**

Select 12 credit hours of approved courses from MATH, STAT, or OPRS at
Coursework in this program provides students with the core foundation. Actuaries design and price insurance policies and pension programs. Service organizations, large corporations, and consulting firms. are employed by insurance companies, government agencies, health.

If needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
An overall GPA of at least 2.0 and a GPA of at least 2.0 in all math courses is required.

Bachelor of Arts in Mathematics with Concentration in Actuarial Science
The Department of Mathematics and Statistics offers an undergraduate program of study leading to a Bachelor of Arts (B.A.) degree in Mathematics with a Concentration in Actuarial Science. This program provides students a comprehensive course of study to learn the concepts and skills needed to begin a career path in actuarial science. Actuaries are employed by insurance companies, government agencies, health service organizations, large corporations, and consulting firms. Actuaries design and price insurance policies and pension programs. Coursework in this program provides students with the core foundation for several of the professional actuarial exams (P, FM, IFM, LTAM). Required courses in economics, finance, and applied statistical methods also meet the Society of Actuaries requirements for Validation by Educational Experience (VEE).

Admission Requirements
Freshman and Transfers
• Minimum GPA: 2.0
• Prerequisite Courses: GPA of at least 2.0 in each of the following categories:
  o All MATH, STAT, and OPRS courses taken
  o All 2000-level and above MATH, STAT, and OPRS courses taken
• Declaration of Major: Change of Major forms accepted year-round; orientation/advising session required after declaration
• Transferable Credit Hours: 24

Degree Requirements
The B.A. in Mathematics with a Concentration in Actuarial Science degree program consists of a minimum of 40 credit hours of mathematics and statistics courses, one programming course in computer science, and 18 credit hours of related courses for VEE (Validation by Educational Experience) credit and Technical Skills. Students are also required to satisfy the Foreign Language requirement of the College of Liberal Arts & Sciences. The required General Education coursework (outside of the Department of Mathematics and Statistics) consists of an additional 28 or 29 credit hours. All UNC Charlotte students must have at least 120 earned credit hours in order to graduate.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (35 credit hours)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2171 - Differential Equations (3)
MATH 2241 - Calculus III (3)
MATH 2242 - Calculus IV (3)
MATH 3163 - Introduction to Modern Algebra (3) (W)
MATH 3689 - Mathematics Project Seminar (1) (O)
MATH 4051 - Computer Exploration and Generation of Data (3) (O)
STAT 3122 - Probability and Statistics I (3)
STAT 3123 - Probability and Statistics II (3)
ITSC 1212 - Introduction to Computer Science I (4)

Concentration Courses (9 credit hours)
MATH 2228 - Actuarial Science IA (3)
MATH 3228 - Actuarial Science IB (3)
MATH 4228 - Actuarial Science IIA (3)
MATH 4229 - Actuarial Science IIB (3) (Exam LTAM)

Note: The following courses prepare students for the following Actuarial Exams:
MATH 2228 - Actuarial Science IA (3) (Exam FM)
MATH 3228 - Actuarial Science IB (3)
MATH 4228 - Actuarial Science IIA (3)
MATH 4229 - Actuarial Science IIB (3) (Exam LTAM)
STAT 3122 - Probability and Statistics I (3) (Exam P)
STAT 3123 - Probability and Statistics II (3) (Exam P and VEE Credit for Statistics)

Restricted Elective Courses (18 credit hours)
Select from the following:
ACCT 2121 - Principles of Accounting I (3)
ACCT 2122 - Principles of Accounting II (3)
ECON 2101 - Principles of Economics - Macro (3)
ECON 2102 - Principles of Economics - Micro (3)
FINN 3120 - Financial Management (3)
FINN 3222 - Investments (3)
FINN 3226 - Financial Theory and Practice (3)
FINN 3271 - Principles of Risk Management and Insurance (3)
INFO 2130 - Introduction to Business Computing (3)

Notes:
MATH 4226 - Mathematics of Financial Markets (3) (prep course for actuarial Exam IFM)
FINN 3222 - Investments (3) (prep course for actuarial Exam IFM)
ECON 2101 - Principles of Economics - Macro (3) (VEE course for economics)
ECON 2102 - Principles of Economics - Micro (3) (VEE course for economics)
ACCT 2121 - Principles of Accounting I (3) (VEE course for financial management and accounting)
FINN 3120 - Financial Management (3) (VEE course for financial management and accounting)
Students who receive a grade of B or above in these ACCT, ECON, and FINN courses may apply to have the Validation by Educational Experience (VEE) credit applied to their record.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation. Suggested courses include:

MATH 4226 - Mathematics of Financial Markets (3)
MATH 4229 - Actuarial Science IIB (3)
STAT 3110 - Applied Regression (3) (W)
STAT 3150 - Time Series Analysis (3)
STAT 4116 - Statistical Computing (3)

Degree Total = 120 Credit Hours

Grade Requirements
An overall GPA of at least 2.0 and a GPA of at least 2.0 in all math courses is required.

Bachelor of Arts in Mathematics with Concentration in Statistics

Admission Requirements
Freshman and Transfers
- Minimum GPA: 2.0
- Prerequisite Courses: GPA of at least 2.0 in each of the following categories:
  - All MATH, STAT, and OPRS courses taken
  - All 2000-level and above MATH, STAT, and OPRS courses taken
- Declaration of Major: Change of Major forms accepted year-round; orientation/advising session required after declaration
- Transferable Credit Hours: 24

Degree Requirements
A Bachelor of Arts degree in Mathematics with a Concentration in Statistics consists of a minimum of 34 hours of Mathematics (MATH) and Statistics (STAT) courses, one programming course in Computer Science (ITCS), and 18 hours of approved related coursework in an area outside of the department or an approved University minor from outside the department.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Bachelor of Science in Mathematics

Admission Requirements
Freshman and Transfers
- Minimum GPA: 2.0
- Prerequisite Courses: GPA of at least 2.0 in each of the following categories:
  - All MATH, STAT, and OPRS courses taken
  - All 2000-level and above MATH, STAT, and OPRS courses taken
- Declaration of Major: Change of Major forms accepted year-round; orientation/advising session required after declaration
- Transferable Credit Hours: 24

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (38 credit hours)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 2241 - Calculus III (3)
MATH 2242 - Calculus IV (3)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 3688 - Mathematics Awareness Seminar (0)
MATH 3689 - Mathematics Project Seminar (1) (O)
STAT 2122 - Introduction to Probability and Statistics (3)*
STAT 2223 - Elements of Statistics II (3)*
STAT 3110 - Applied Regression (3) (W)
ITCS 1212 - Introduction to Computer Science (4)
ITCS 1212L - Programming Lab I (0)

Plus three of the following four Statistics courses: -
STAT 3140 - Design of Experiments (3)
STAT 3150 - Time Series Analysis (3)
STAT 3160 - Applied Multivariate Analysis (3)
STAT 4116 - Statistical Computing (3)

*STAT 2122 and STAT 2223 may be replaced by MATH 3122/STAT 3122 and STAT 3123, or by STAT 3128 and STAT 3123.

Restricted Elective Courses (18 credit hours)
Select 18 credit hours of electives in related courses. Elective courses should be chosen from related disciplines or an approved minor in another discipline. Students should select courses in consultation with the department and/or their advisor.

Recommended Course (3 credit hours)
ITCS 3160 - Data Design and Implementation (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
An overall GPA of at least 2.0 and a GPA of at least 2.0 in all math courses is required.
Degree Requirements
A Major in Mathematics for the B.S. degree consists of a minimum of 40 credit hours of approved Mathematics (MATH), Operations Research (OPRS), or Statistics (STAT) courses; and one course in Computing and Informatics (ITSC). In addition to the requirements for the B.A. in Mathematics degree, the Major in Mathematics for the B.S. degree requires the completion of six additional hours of approved MATH, OPRS, or STAT courses numbered 3000 or above (exclusive of MATH 3163), and a minimum of 11 credit hours of science courses.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Required Major Courses (minimum 35 credit hours)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2171 - Differential Equations (3)
MATH 2241 - Calculus III (3)
MATH 2242 - Calculus IV (3)
MATH 3141 - Advanced Calculus of One Variable (3)
MATH 3142 - Advanced Calculus of Several Variables (3)
MATH 3163 - Introduction to Modern Algebra (3)
MATH 3166 - Combinatorics (3)
MATH 3171 - Applied Mathematics (3)
MATH 3176 - Numerical Analysis (3)
MATH 3181 - Fundamental Concepts of Geometry (3)
MATH 3228 - Actuarial Science I (3)
MATH 3800 - Directed Individual Study in Mathematics (1 to 3)

Optional Mathematics Elective Courses (9 credit hours)
Select from the following:
MATH 3050 - Selected Topics in Mathematics (23)
MATH 3116 - Graph Theory (3)
MATH 3122 - Probability and Statistics I (3)
MATH 3123 - Probability and Statistics II (3)
MATH 3141 - Advanced Calculus of One Variable (3)
MATH 3142 - Advanced Calculus of Several Variables (3)
MATH 3146 - Introduction to Complex Analysis (3)
MATH 3163 - Introduction to Modern Algebra (3)
MATH 3171 - Applied Mathematics (3)
MATH 3176 - Numerical Analysis (3)
MATH 3181 - Fundamental Concepts of Geometry (3)
MATH 3228 - Actuarial Science I (3)
MATH 3800 - Directed Individual Study in Mathematics (1 to 3)

MATH 4000 - Topics in Foundations or History of Mathematics (23)
MATH 4040 - Topics in Analysis (23)
MATH 4051 - Computer Exploration and Generation of Data (3)
MATH 4060 - Topics in Algebra (23)
MATH 4080 - Topics in Geometry and Topology (3)
MATH 4109 - History of Mathematical Thought (3)
MATH 4122 - Probability and Stochastic Models (3)
MATH 4128 - Risk Theory (3)
MATH 4161 - Number Theory (3)
MATH 4163 - Modern Algebra (3)
MATH 4164 - Abstract Linear Algebra (3)
MATH 4181 - Introduction to Topology (3)
MATH 4226 - Mathematics of Financial Markets (3)
MATH 4228 - Actuarial Science I (3)
MATH 4229 - Actuarial Science II (3)
MATH 4691 - Seminar (16)
MATH 4692 - Seminar (16)

Operations Research (OPRS)
OPRS 3111 - Operations Research: Deterministic Models (3)
OPRS 3113 - Operations Research: Probabilistic Models (3)
OPRS 4010 - Topics in Decision Mathematics (23)
OPRS 4113 - Game Theory (3)
OPRS 4114 - Dynamic Programming (3)

Statistics (STAT)
STAT 3110 - Applied Regression (3)
STAT 3122 - Probability and Statistics I (3)
STAT 3123 - Probability and Statistics II (3)
STAT 3126 - Applied Statistical Methods (3)
STAT 3128 - Probability and Statistics for Engineers (3)
STAT 3140 - Design of Experiments (3)
STAT 3150 - Time Series Analysis (3)
STAT 3160 - Applied Multivariate Analysis (3)
STAT 4116 - Statistical Computing (3)
STAT 4123 - Applied Statistics I (3)
STAT 4124 - Applied Statistics II (3)

Restricted Science Elective Courses (11 credit hours)
Select a minimum of 11 credit hours of approved science courses. Any science course from BIOL, CHEM, ESCI, GEOL, PHYS, or PSYC 1101 and PSYC 1101L is permissible.

Restricted Related Elective Courses (18 credit hours)
Select 18 credit hours of electives in related courses. Elective courses should be chosen from related disciplines or an approved minor in another discipline. Students should select courses in consultation with the department and/or their advisor.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
An overall GPA of at least 2.0 and a GPA of at least 2.0 in all math courses is required.
Bachelor of Science in Mathematics with Concentration in Actuarial Science

The Department of Mathematics and Statistics offers an undergraduate program of study leading to a Bachelor of Science (B.S.) degree in Mathematics with a Concentration in Actuarial Science. This program provides students with a comprehensive course of study to learn the concepts and skills needed to begin a career path in actuarial science. Actuaries are employed by insurance companies, government agencies, health service organizations, large corporations, and consulting firms. Actuaries design and price insurance policies and pension programs. Coursework in this program provides students with the core foundation for several of the professional actuarial exams (P, FM, IFM, LTAM). Required courses in economics, finance, and applied statistical methods also meet the Society of Actuaries requirements for Validation by Educational Experience (VEE).

Admission Requirements
Freshman and Transfers
- Minimum GPA: 2.0
- Prerequisite Courses: GPA of at least 2.0 in each of the following categories:
  - All MATH, STAT, and OPRS courses taken
  - All 2000-level and above MATH, STAT, and OPRS courses taken
- Declaration of Major: Change of Major forms accepted year-round; orientation/advising session required after declaration
- Transferable Credit Hours: 24

Degree Requirements
The B.S. in Mathematics with a Concentration in Actuarial Science degree program consists of a minimum of 43 credit hours of mathematics and statistics courses, one programming course in computer science, and 21 credit hours of related courses for VEE (Validation of Educational Experience) credit and Technical Skills. Students are also required to satisfy the Foreign Language requirement of the College of Liberal Arts & Sciences. The required General Education coursework (outside of the Department of Mathematics and Statistics) consists of an additional 28 or 29 credit hours. All UNC Charlotte students must have at least 120 earned credit hours in order to graduate.

General Education Courses (27-28 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (35 credit hours)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2171 - Differential Equations (3)
MATH 2241 - Calculus III (3)
MATH 2242 - Calculus IV (3)
MATH 3163 - Introduction to Modern Algebra (3) (W)
MATH 3689 - Mathematics Project Seminar (1) (O)
MATH 4051 - Computer Exploration and Generation of Data (3) (O)
STAT 3122 - Probability and Statistics I (3)
STAT 3123 - Probability and Statistics II (3)
ITSC 1212 - Introduction to Computer Science I (4)

Concentration Courses (12 credit hours)
MATH 2228 Actuarial Science IA (3)
MATH 3228 Actuarial Science IB (3)
MATH 4228 Actuarial Science IIA (3)
MATH 4229 Actuarial Science IIB (3)

Note: The following courses prepare students for the following Actuarial Exams:
MATH 2228 - Actuarial Science IA (3) (Exam FM)
MATH 3228 - Actuarial Science IB (3) (Exam FM)
MATH 4228 - Actuarial Science IIA (3) (Exam LTAM)
MATH 4229 - Actuarial Science IIB (3) (Exam LTAM)
STAT 3122 - Probability and Statistics I (3) (Exam P)
STAT 3123 - Probability and Statistics II (3) (Exam P and VEE Credit for Statistics)

Restricted Elective Courses (18 credit hours)
Select from the following:
ACCT 2121 - Principles of Accounting I (3)
ACCT 2122 - Principles of Accounting II (3)
ECON 2101 - Principles of Economics - Macro (3)
ECON 2102 - Principles of Economics - Micro (3)
FINN 3120 - Financial Management (3)
FINN 3222 - Investments (3)
FINN 3226 - Financial Theory and Practice (3)
FINN 3271 - Principles of Risk Management and Insurance (3)
INFO 2130 - Introduction to Business Computing (3)

Notes:
MATH 4226 - Mathematics of Financial Markets (3) (prep course for actuarial Exam IFM)
FINN 3222 - Investments (3) (prep course for actuarial Exam IFM)
ECON 2101 - Principles of Economics - Macro (3) (VEE course for economics)
ECON 2102 - Principles of Economics - Micro (3) (VEE course for economics)
ACCT 2121 - Principles of Accounting I (3) (VEE course for financial management and accounting)
FINN 3120 - Financial Management (3) (VEE course for financial management and accounting)

Students who receive a grade of B or above in these ACCT, ECON, and FINN courses may apply to have the Validation by Educational Experience (VEE) credit applied to their record.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation. Suggested courses include:

- MATH 4226 - Mathematics of Financial Markets (3)
- MATH 4229 - Actuarial Science IIIB (3)
- STAT 3110 - Applied Regression (3) (W)
- STAT 3150 - Time Series Analysis (3)
- STAT 4116 - Statistical Computing (3)

Degree Total = 120 Credit Hours

Grade Requirements
An overall GPA of at least 2.0 and a GPA of at least 2.0 in all math courses is required.

Cooperative Education Program
Students may participate in the Mathematics Cooperative Education Program in either the parallel or alternate track. The parallel track combines part-time academic study and part-time cooperative experience during the same semester, while the alternate track alternates semesters totally devoted to work with semesters totally devoted to academic study. Students in the Mathematics Cooperative Education Program must participate in a minimum of two semesters in the program. Students who are in good standing with the University, have a minimum overall GPA of 2.5, and have completed 30 credit hours are eligible to apply. Transfer students are required to complete 12 credit hours at the University prior to application. Students interested in participating in the program should contact the Coordinator of Undergraduate Programs in the Department of Mathematics and Statistics or the University Career Center for information.

Bachelor of Science in Mathematics with Concentration in Statistics

Admission Requirements
Freshman and Transfers
- Minimum GPA: 2.0
- Prerequisite Courses: GPA of at least 2.0 in each of the following categories:
  - All MATH, STAT, and OPRS courses taken
  - All 2000-level and above MATH, STAT, and OPRS courses taken
- Declaration of Major: Change of Major forms accepted year-round; orientation/advising session required after declaration
- Transferable Credit Hours: 24

Degree Requirements
A Bachelor of Science degree in Mathematics with a Concentration in Statistics consists of a minimum of 40 hours of Mathematics and Statistics courses, one programming course in Computer Science (ITCS), and 18 hours of approved related coursework in an area outside of the department or an approved University minor from outside the department.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (44 credit hours)
- MATH 1241 - Calculus I (3)
- MATH 1242 - Calculus II (3)
- MATH 2241 - Calculus III (3)
- MATH 2242 - Calculus IV (3)
- MATH 2164 - Matrices and Linear Algebra (3)
- MATH 3141 - Advanced Calculus of One Variable (3)
- MATH 3688 - Mathematics Awareness Seminar (0)
- MATH 3689 - Mathematics Project Seminar (1)
- STAT 2122 - Introduction to Probability and Statistics (3)*
- STAT 3110 - Applied Regression (3) (W)
- STAT 3122 - Probability and Statistics I (3)
- STAT 3123 - Probability and Statistics II (3)
- ITCS 1212 - Introduction to Computer Science (4)
- ITCS 1212L - Programming Lab I (0)

Plus three of the following four Statistics courses:
- STAT 3140 - Design of Experiments (3)
- STAT 3150 - Time Series Analysis (3)
- STAT 3160 - Applied Multivariate Analysis (3)
- STAT 4116 - Statistical Computing (3)

Restricted Elective Courses (18 credit hours)
Select 18 credit hours of electives in related courses. Elective courses should be chosen from related disciplines or an approved minor in another discipline. Students should select courses in consultation with the department and/or their advisor.

Recommended Course (3 credit hours)
- ITCS 3160 - Data Design and Implementation (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
An overall GPA of at least 2.0 and a GPA of at least 2.0 in all math courses is required.
Bachelor of Arts in Mathematics for Business

Admission Requirements
Freshman and Transfers
- **Minimum GPA: 2.0**
- **Prerequisite Courses:** GPA of at least 2.0 in each of the following categories:
  - All MATH, STAT, and OPRS courses taken
  - All 2000-level and above MATH, STAT, and OPRS courses taken
- **Declaration of Major:** Change of Major forms accepted year-round; orientation/advising session required after declaration
- **Transferable Credit Hours:** 24

Degree Requirements
A Major in Mathematics for Business for the B.A. degree consists of a minimum of 36 hours of approved Mathematics (MATH), Operations Research (OPRS), or Statistics (STAT) courses, one programming course in Computer Science (ITCS), and 18 hours of approved related coursework in an area outside of the department or an approved University minor from outside the department.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (31 credit hours)
- MATH 1120 - Calculus (3)
- MATH 2120 - Intermediate Applied Calculus (3)
- MATH 2164 - Matrices and Linear Algebra (3)
- MATH 2228 - Actuarial Science IA (3)
- MATH 4051 - Computer Exploration and Generation of Data (3) (O)
- OPRS 3111 - Operations Research: Deterministic Models (3)
- STAT 1220 - Elements of Statistics I (BUSN) (3)
- STAT 2223 - Elements of Statistics II (3)
- STAT 3110 - Applied Regression (3) (W)
- ITCS 1212 - Introduction to Computer Science (4)
- ITCS 1212L - Programming Lab I (0)

Restricted Mathematics Elective Courses (9 credit hours)
Select 9 credit hours of approved courses from MATH, STAT, or OPRS at the 3000-level or above.

Restricted Related Elective Courses (18 credit hours)
Select 18 credit hours of electives in related courses. Elective courses should be chosen from related disciplines or an approved minor in another discipline. Students should select courses in consultation with the department and/or their advisor.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
An overall GPA of at least 2.0 and a GPA of at least 2.0 in all math courses is required.

Bachelor of Science in Mathematics for Business

The Department of Mathematics and Statistics offers an undergraduate program of study leading to a Bachelor of Science (B.S.) degree in Mathematics for Business. This degree is a practical applied mathematics program that tightens the focus on business applications to better prepare students for a successful career path in the areas of insurance, finance, banking, and economics. Graduates of the Mathematics for Business program are valuable assets to the business community. They bring expertise in Mathematics, Statistics, and Operation Research, along with excellent analytic skills to businesses, financial institutions, insurance firms, and government agencies.

Admission Requirements
Freshman and Transfers
- **Minimum GPA: 2.0**
- **Prerequisite Courses:** GPA of at least 2.0 in each of the following categories:
  - All MATH, STAT, and OPRS courses taken
  - All 2000-level and above MATH, STAT, and OPRS courses taken
- **Declaration of Major:** Change of Major forms accepted year-round; orientation/advising session required after declaration
- **Transferable Credit Hours:** 24

Degree Requirements
A Major in Mathematics for Business for the B.S. degree consists of a minimum of 45 hours of approved Mathematics (MATH), Operations Research (OPRS), or Statistics (STAT) courses, one programming course in Computer Science (ITCS), and 18 hours of approved related coursework in an area outside of the department or an approved University minor from outside the department.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Major Courses (37 credit hours)
- MATH 1241 - Calculus I (3)
- MATH 1242 - Calculus II (3)
- MATH 2164 - Matrices and Linear Algebra (3)
- MATH 2228 - Actuarial Science IA (3)
- MATH 2241 - Calculus III (3)
- MATH 4051 - Computer Exploration and Generation of Data (3) (O)
- OPRS 3111 - Operations Research: Deterministic Models (3)
- STAT 1220 - Elements of Statistics I (BUSN) (3)
- STAT 2223 - Elements of Statistics II (3)
- STAT 3110 - Applied Regression (3) (W)

Degree Total = 120 Credit Hours
STAT 3122 - Probability and Statistics I (3)
ITCS 1212 - Introduction to Computer Science (4)
ITCS 1212L - Programming Lab I (0)

Concentration Courses (12 credit hours)
Students majoring in Mathematics for Business must select one of the three concentrations:

Concentration in Economics/Finance
Required Courses
MATH 4122 - Probability and Stochastic Models (3)
MATH 4128 - Risk Theory (3)
STAT 3150 - Time Series Analysis (3)

Elective Course
Select one of the following:
MATH 3xxx - Mathematics Elective (3)
MATH 4xxx - Mathematics Elective (3)
STAT 3xxx - Statistics Elective (3)
STAT 4xxx - Statistics Elective (3)
OPRS 3xxx - Operations Research Elective (3)
OPRS 4xxx - Operations Research Elective (3)

Concentration in Actuarial Science
Required Courses
MATH 3228 - Actuarial Science IB (3)
MATH 4228 - Actuarial Science IIA (3)
STAT 3150 - Time Series Analysis (3)

Elective Course
Select one of the following:
MATH 3xxx - Mathematics Elective (3)
MATH 4xxx - Mathematics Elective (3)
STAT 3xxx - Statistics Elective (3)
STAT 4xxx - Statistics Elective (3)
OPRS 3xxx - Operations Research Elective (3)
OPRS 4xxx - Operations Research Elective (3)

Notes:
Recommended Actuarial courses:
MATH 4226 - Mathematics of Financial Markets (3)
MATH 4229 - Actuarial Science IIB (3)

The following courses prepare students for the following Actuarial Exams:
STAT 3122 - Probability and Statistics I (3) (Exam P)
STAT 3123 - Probability and Statistics II (3) (Exam P)
MATH 2228 - Actuarial Science IA (3) (Exam FM)
MATH 3228 - Actuarial Science IB (3) (Exam FM)
MATH 4228 - Actuarial Science IIA (3) (Exam LTAM)
MATH 4229 - Actuarial Science IIB (3) (Exam LTAM)
MATH 4226 - Mathematics of Financial Markets (3) (Exam IFM)
FINN 3222 - Investments (3) (Exam IFM)
STAT 3123 - Probability and Statistics II (3) (VEE Credit for Statistics)

Concentration in Operations Research
Required Courses
OPRS 3113 - Operations Research: Probabilistic Models (3)
OPRS 4113 - Game Theory (3)

OPRS 4114 - Dynamic Programming (3)

Elective Course
Select one of the following:
MATH 3xxx - Mathematics Elective (3)
MATH 4xxx - Mathematics Elective (3)
STAT 3xxx - Statistics Elective (3)
STAT 4xxx - Statistics Elective (3)
OPRS 3xxx - Operations Research Elective (3)
OPRS 4xxx - Operations Research Elective (3)

Restricted Elective Courses (18 credit hours)
Select six of the following. Elective courses should be chosen from related disciplines or an approved minor in another discipline. Students should select courses in consultation with the department and/or their advisor.

ACCT 2121 - Principles of Accounting I (3)
ACCT 2122 - Principles of Accounting II (3)
ECON 2101 - Principles of Economics - Macro (3)
ECON 2102 - Principles of Economics - Micro (3)
FINN 3120 - Financial Management (3)
FINN 3222 - Investments (3)
FINN 3226 - Financial Theory and Practice (3)
FINN 3271 - Principles of Risk Management and Insurance (3)
INFO 2130 - Introduction to Business Computing (3)

Notes: Students in the Actuarial Science Concentration must take the following courses from the list above. With a grade of B or above in these courses, they will receive Validation by Educational Experience (VEE) credit in Economics, Financial Management, and Accounting.

ACCT 2121 - Principles of Accounting I (3)
ECON 2101 - Principles of Economics - Macro (3)
ECON 2102 - Principles of Economics - Micro (3)
FINN 3120 - Financial Management (3)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
An overall GPA of at least 2.0 and a GPA of at least 2.0 in all math courses is required.

Teacher Licensure in Mathematics
Students preparing for licensure to teach mathematics in secondary school (grades 9-12) must Major in Mathematics. They may select either the B.A. or the B.S. degree track, but their coursework must include:

Required Courses
MATH 3181 - Fundamental Concepts of Geometry (3)
MATH 4109 - History of Mathematical Thought (3)
MAED 4103 - Using Technology to Teach Secondary School Mathematics (3)
MAED 4105 - High School Mathematics from an Advanced Standpoint (3)
MAED 4252 - Teaching Mathematics to Secondary School Learners (3)

STAT course together with a Minor in Secondary Education

Before the end of their Sophomore year, students should complete MDSK 2100 (Foundations of Education in Secondary Schools) and obtain an application for formal admission to the teacher education program in the Department of Middle, Secondary, and K-12 Education. Once they are approved for the Teacher Education program, students are enrolled in the Minor in Secondary Education. The minor requires 4 additional courses from the College of Education and one semester of student teaching. Detailed information is available in the Department of Mathematics and Statistics office. Licensure applications are the responsibility of the student and the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education.

Minor in Mathematics
A Minor in Mathematics requires 18 credit hours

Minor Requirements
Required Courses (9 credit hours)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 2164 - Matrices and Linear Algebra (3) -
    and/or MATH 2171 - Differential Equations (3)

Restricted Elective Course (3 credit hours)
Select one of the following:
MATH 2241 - Calculus III (3)
MATH 2242 - Calculus IV (3)
MATH 2164 - Matrices and Linear Algebra (3) -
    MATH 2171 - Differential Equations (3)
STAT 2122 - Introduction to Probability and Statistics (3)
MATH 3xxx-4xxx - Mathematics Elective (3)
STAT 3xxx-4xxx - Statistics Elective (3)
OPRS 3xxx-4xxx - Operations Research Elective (3)

Unrestricted Elective Courses (6 credit hours)
Select two of the following:
MATH 3xxx-4xxx - Mathematics Elective (3)
STAT 3xxx-4xxx - Statistics Elective (3)
OPRS 3xxx-4xxx - Operations Research Elective (3)

Minor Total = 18 Credit Hours

Grade Requirements
A minimum GPA of at least 2.0 in all courses is required.

Minor in Actuarial Mathematics
An actuary is a business professional who uses mathematical skills to aid in the design and pricing of insurance policies and pension programs. Actuaries are employed by insurance companies, government agencies, health service organizations, large corporations, and consulting firms.

Minor Requirements
A Minor in Actuarial Mathematics requires 21 credit hours.

Required Courses (21 credit hours)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2228 - Actuarial Science IA (3)
MATH 2241 - Calculus III (3)
MATH 3122 - Probability and Statistics I (3)
    or STAT 3122 - Probability and Statistics I (3)
MATH 3228 - Actuarial Science IB (3)

Actuarial Examinations
Completion of these courses helps prepare students for the first two actuarial examinations administered by the Society of Actuaries and the Casualty Actuarial Society. The first actuarial exam should be taken after completing MATH 3122 or MATH 3123, and the second examination after completing MATH 3228. Further examinations cover material contained in MATH 4228 (Actuarial Science IIA).

Minor Total = 21 Credit Hours

Grade Requirements
A minimum GPA of at least 2.0 in all courses is required.

Minor in Statistics
A Minor in Statistics requires 18 credit hours. This minor is not available to students majoring in a mathematics program.

Minor Requirements
Calculus Courses (6 credit hours)
Select one of the following:
MATH 1120 - Calculus (3)
MATH 1121 - Calculus for Engineering Technology (3)
MATH 1241 - Calculus I (3)*

Select one of the following:
MATH 2120 - Intermediate Applied Calculus (3)
MATH 2241 - Calculus III (3)*

*Note: MATH 1241 is a prerequisite for MATH 2241.

Statistics Courses (9 credit hours)
Select one of the following:
STAT 1220 - Elements of Statistics I (BUSN) (3)
STAT 1221 - Elements of Statistics I (3)
STAT 1222 - Introduction to Statistics (3)
STAT 2122 - Introduction to Probability and Statistics (3)
Required Course:
STAT 2223 - Elements of Statistics II (3)

Select one of the following:
STAT 3110 - Applied Regression (3) (W)
STAT 3140 - Design of Experiments (3)
STAT 3150 - Time Series Analysis (3)
STAT 3160 - Applied Multivariate Analysis (3)

Major Course (3 credit hours)
Select one course from the student’s major:
BINF 2121 - Statistics for Bioinformatics (3)
CJUS 2370 - Research Methods in Criminal Justice (4) (W)
COMM 3100 - Communication Research Methods (3) (W)
ECON 3112 - Econometrics (3)
OPER 3206 - Quality Assurance and Management (3)
POLS 2220 - Political Science Methods (4) (W)
PSYC 3140 - Basic Processes in Psychological Assessment (3)
SOWK 3900 - Social Work Research I (3)
SOCY 4156 - Quantitative Analysis (4)

If a student’s major is not listed above, then they may take a second course from the following:
STAT 3110 - Applied Regression (3) (W)
STAT 3140 - Design of Experiments (3)
STAT 3150 - Time Series Analysis (3)
STAT 3160 - Applied Multivariate Analysis (3)

Minor Total = 18 Credit Hours

Undergraduate Certificate in Actuarial Studies
An actuary is a business professional who uses mathematical skills to aid in the design and pricing of insurance policies and pension programs. Actuaries are employed by insurance companies, government agencies, health service organizations, large corporations, and consulting firms.

The Certificate in Actuarial Studies prepares undergraduate and post-baccalaureate students for a career as an actuary. The coursework provides students with the background knowledge that they need to successfully pass two or three of the professional actuarial exams and obtain Validation by Educational Experience (VEE) credit that is required to become an Associate of the Society of Actuaries (SOA) or the Casualty Actuarial Society (CAS). Coursework towards the Certificate in Actuarial Studies can be used for credit towards the Bachelor’s degree in Mathematics. Students in the certificate program have access to resources provided by the UNC Charlotte Actuarial Science program, such as information sessions by employers, presentations by actuaries, and networking events. The certificate may be pursued concurrently with any of the undergraduate degree programs at UNC Charlotte.

Admission Requirements
To be admitted into the Certificate in Actuarial Studies program, students who already have completed a bachelor’s degree must meet the general University requirements for admission into Undergraduate Certificate Programs. Their undergraduate coursework must include Calculus I, II, and III. These courses are prerequisites for the first two required courses in the program. Undergraduate students at UNC Charlotte must apply for the Actuarial Concentration in either the B.A. or B.S. in Mathematics or the B.S. in Mathematics for Business. Both of these programs require the three calculus courses that are prerequisites for the required actuarial and statistics courses. For students in these programs, a form to declare the certificate is available in the Department of Mathematics and Statistics.

Certificate Requirements
The certificate requires 18 credit hours of mathematics coursework that prepare students for Actuarial Exams and VEE Credits. Note that MATH 2228 and MATH 3228 are prep courses for Exam FM (Financial Mathematics), STAT 3122 and STAT 3123 for Exam P (Probability), MATH 4228 and MATH 4229 for Exam LTAM (Long-Term Actuarial Mathematics), and MATH 4226 for Exam IFM (Investment and Financial Markets).

Core Courses (12 credit hours)
MATH 2228 - Actuarial Science IIA (3)
MATH 3228 - Actuarial Science IB (3)
MATH 4226 - Actuarial Science IIA (3)
STAT 3122 - Probability and Statistics I (3)

Elective Courses (6 credit hours)
Select two of the following:
MATH 4051 - Computer Exploration and Generation of Data (3) (O)
MATH 4226 - Mathematics of Financial Markets (3)
MATH 4229 - Actuarial Science IIB (3)
STAT 3110 - Applied Regression (3) (W)
STAT 3123 - Probability and Statistics II (3)
STAT 3150 - Time Series Analysis (3)

Optional Courses
Students registered in the Certificate for Actuarial Studies program are eligible and encouraged to take additional courses for VEE Credits and Technical Skills from the following:
ACCT 2121 - Principles of Accounting I (3)
ECON 2101 - Principles of Economics - Macro (3)
ECON 2102 - Principles of Economics - Micro (3)
FINN 3120 - Financial Management (3)
FINN 3222 - Investments (3)
MATH 4122 - Probability and Stochastic Models (3)
MATH 4128 - Risk Theory (3)
STAT 4116 - Statistical Computing (3)

Certificate Total = 18 Credit Hours

Honors Program in Mathematics
The honors program in mathematics stimulates the imagination and deepen the understanding of students by encouraging independent study, and to provide recognition of exceptional achievements in mathematics. Students who complete the requirements of the program graduate with honors in mathematics.

Admission Requirements
Admission to the Honors Program in Mathematics is granted by the Department of Mathematics and Statistics, based on the following minimum requirements:
• At least 20 credit hours in major related courses, including 9 credit hours from:
  o MATH 2120 or MATH 2241
  o MATH 2164 or MATH 2171
  o MATH 3163 or STAT 3110
• A minimum GPA of 3.25 in all mathematics (MATH), statistics (STAT), and operations research (OPRS) courses
• A minimum overall GPA of 3.0

Interested students must contact the Honors Director of the Department of Mathematics and Statistics for admission to the program. Once the Director verifies the minimum requirements, the student must select a mathematics faculty member who is willing to serve as an honors advisor to develop a research project culminating in a thesis. The student must also choose one or two readers for the thesis. In order to graduate with honors, the University requires that students be admitted to honors candidacy at least two semesters before graduation.

Course Requirements
Enrollment in MATH 3790 indicates that the student is officially enrolled in the Mathematics Honors Program. MATH 3791 must culminate in an honors thesis approved by the advisor and the readers. Note that MATH 3791 replaces MATH 3689.

• MATH 3790 - Junior Honors Seminar (3)
• MATH 3791 - Senior Honors Tutorial (3)

Certification Requirements
The requirements for graduation with honors are:
• Completion of all requirements for a Major in Mathematics or Mathematics for Business with a minimum GPA of 3.25 in the major
• Completion of the Senior Honors Seminar (MATH 3791) with a grade of A and a minimum GPA of 3.5 in both Honors Seminars
• Oral presentation of the honors thesis
• Recommendation by the Honors Director of the Department of Mathematics and Statistics that the student can graduate with honors
• Completion of the Application to Candidacy process for graduating with Honors, as directed by the Honors College

Cooperative Education Program
A student may participate in the Mathematics Cooperative Education Program in either the parallel or alternate track. The parallel track combines part-time academic study and part-time cooperative experience during the same semester, while the alternate track alternates semesters totally devoted to work with semesters totally devoted to academic study. Students in the Mathematics Cooperative Education Program must participate in a minimum of two semesters in the program. Students who are in good standing with the University, have a minimum overall GPA of 2.5, and have completed 30 credit hours are eligible to apply. Transfer students are required to complete 12 credit hours at the University prior to application. Students interested in participating in the program should contact the Coordinator of Undergraduate Programs in the Department of Mathematics and Statistics or the University Career Center for information.

Early Entry: Master of Science in Mathematics
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
• Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
• Minimum 3.2 overall undergraduate GPA
• Minimum 3.3 GPA in the major
• Acceptable scores on GRE, but exceptional undergraduate students with Junior or Senior standing and a cumulative GPA of 3.5 or above may receive an automatic waiver of the GRE requirement
• Submit application online at mygradschool.uncc.edu and provide supporting documents
• Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
• Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
• Maintain a minimum 3.0 overall undergraduate GPA
• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

Early Entry: Master of Science in Mathematical Finance
For details, see the College of Business section of this Catalog under the “Department of Finance” heading.
Undergraduate Programs

- B.A. in Philosophy
  - Honors Program
- Minor in Philosophy
- Early Entry: M.A. in Ethics and Applied Philosophy

Philosophy is reasoned inquiry about the nature of persons, reality, thought, knowledge, values, and beauty. It seeks to establish standards of evidence, to provide rational methods of resolving conflicts, and to create techniques for evaluating fundamental ideas, principles and arguments in all areas of human existence and knowledge. Equally concerned with human endeavor in both the arts and the sciences, philosophy continues to reside at the core of a liberal education.

Students major or minor in philosophy because of their desire to pursue fundamental ideas, principles, and arguments in general or in relation to other disciplines. Philosophy helps students develop strong skills in writing, critical thinking, reading, and understanding complex texts. These skills are indispensable for any committed and concerned citizen. The study of philosophy also provides a deeper understanding and enjoyment of the challenges and issues people face throughout their personal and professional lives.

Bachelor of Arts in Philosophy

Admission Requirements

Freshmen and Transfers

- Minimum GPA: 2.0
- Declaration of Major: Change of Major form accepted year-found; orientation/advising session required in order to declare
- Transferable Credit Hours: 24

Degree Requirements

A Major in Philosophy leading to a B.A. degree consists of a minimum of 33 credit hours in philosophy, at least 18 of which are earned at UNC Charlotte with a grade of C or above, with no more than 9 credit hours below the 3000-level counting toward the major.

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Foundation Courses (9 credit hours)

PHIL 1105 - Critical Thinking (3) (W)
PHIL 3620 - Senior Seminar (3) (O,W)

Plus select one of the following:

PHIL 1001 - Philosophy of Death and Dying (3)
PHIL 1002 - Philosophy of Love and Sex (3)
PHIL 1101 - Introduction to Philosophy (3)
PHIL 1102 - Introduction to Philosophy - Writing Intensive (3) (W)

Major Courses (24 credit hours)

Required Major Courses (12 credit hours)
Select one course from each of the following four categories:

History/Genealogy Courses
PHIL 3010 - Ancient Philosophy (3)
PHIL 3020 - Modern Philosophy (3)
PHIL 3030 - Twentieth Century Philosophy (3)
PHIL 3110 - Medieval Philosophy (3)
PHIL 3120 - Nineteenth Century Philosophy (3)
PHIL 3130 - American Philosophy (3)
PHIL 3140 - Existentialism (3)
PHIL 3170 - Major Figure (3)
PHIL 3190 - Topics in History/Genealogy (3)
PHIL 4190 - Advanced Topics in History/Genealogy (3)

Ethics/Aesthetics Courses
PHIL 3210 - Ethical Theory (3)
PHIL 3220 - Aesthetics (3)
PHIL 3230 - Healthcare Ethics (3)
PHIL 3239 - Ethics Bowl Prep (3) (O, W)
PHIL 3240 - Ethics Bowl I (3) (O, W)
PHIL 3310 - IT Ethics (3)
PHIL 3320 - Engineering Ethics (3)
PHIL 3330 - Philosophy and Literature (3)
PHIL 3340 - Business Ethics (3)
PHIL 3390 - Topics in Ethics/Aesthetics (3)
PHIL 4390 - Advanced Topics in Ethics/Aesthetics (3)

Knowledge/Language Courses
PHIL 3410 - Knowledge and Reality (3)
PHIL 3420 - Philosophy of Language (3)
PHIL 3430 - Mind, Cognition, and Behavior (3)
PHIL 3510 - Advanced Logic (3)
PHIL 3520 - Philosophy of Science (3)
PHIL 3530 - Philosophy of Religion (3)
PHIL 3590 - Topics in Knowledge/Language (3)
PHIL 4590 - Advanced Topics in Knowledge/Language (3)

Identity/Society Courses
PHIL 3810 - Social and Political Philosophy (3)
PHIL 3820 - Feminist Philosophy (3)
PHIL 3830 - Philosophy and Race (3)
PHIL 3910 - Philosophy of War and Peace (3)
PHIL 3920 - Philosophy of Technology (3)
PHIL 3930 - Philosophy of Body (3)
PHIL 3940 - Philosophy of Education (3)
PHIL 3990 - Topics in Identity/Society (3)
PHIL 4990 - Advanced Topics in Identity/Society (3)

Elective Major Courses (12 credit hours)
The final 12 credit hours of major courses may be from any combination of the four categories listed above and/or include courses from the following:

PHIL 2105 - Deductive Logic (3)
PHIL 3480 - Internship in Ethics and Philosophy (3)
PHIL 3610 - Independent Study (1 to 3)
PHIL 3791 - Honors Thesis (3)

Note: Students with multiple majors may double-count one 3-credit hour, 3000 or 4000 level course from another major as part of the final 12 credit hours in the Major in Philosophy, with approval of the Philosophy Undergraduate Program Director.

Degree Total = 120 Credit Hours

Grade Requirements
A GPA of 2.0 is required for all philosophy courses applied to the major.

Minor in Philosophy
A Minor in Philosophy consists of 18 credit hours of philosophy courses.

Minor Requirements
Foundation Courses (6 credit hours)
PHIL 1105 - Critical Thinking (3) (W)

PHIL 1001 - Philosophy of Death and Dying (3)
PHIL 1002 - Philosophy of Love and Sex (3)
PHIL 1101 - Introduction to Philosophy (3)
PHIL 1102 - Introduction to Philosophy - Writing Intensive (3) (W)

Required Courses (6 credit hours)
Select one course from two of the following four categories:

History/Genealogy Courses
PHIL 3010 - Ancient Philosophy (3)
PHIL 3020 - Modern Philosophy (3)
PHIL 3030 - Twentieth Century Philosophy (3)
PHIL 3110 - Medieval Philosophy (3)
PHIL 3120 - Nineteenth Century Philosophy (3)
PHIL 3130 - American Philosophy (3)
PHIL 3140 - Existentialism (3)
PHIL 3170 - Major Figure (3)
PHIL 3190 - Topics in History/Genealogy (3)
PHIL 4190 - Advanced Topics in History/Genealogy (3)

Ethics/Aesthetics Courses
PHIL 3210 - Ethical Theory (3)
PHIL 3220 - Aesthetics (3)
PHIL 3230 - Healthcare Ethics (3)
PHIL 3239 - Ethics Bowl Prep (3) (O, W)
PHIL 3240 - Ethics Bowl I (3) (O, W)
PHIL 3310 - IT Ethics (3)
PHIL 3320 - Engineering Ethics (3)
PHIL 3330 - Philosophy and Literature (3)
PHIL 3340 - Business Ethics (3)
PHIL 3390 - Topics in Ethics/Aesthetics (3)
PHIL 4390 - Advanced Topics in Ethics/Aesthetics (3)

Knowledge/Language Courses
PHIL 3410 - Knowledge and Reality (3)
PHIL 3420 - Philosophy of Language (3)
PHIL 3430 - Mind, Cognition, and Behavior (3)
PHIL 3510 - Advanced Logic (3)
PHIL 3520 - Philosophy of Science (3)
PHIL 3530 - Philosophy of Religion (3)
PHIL 3590 - Topics in Knowledge/Language (3)
PHIL 4590 - Advanced Topics in Knowledge/Language (3)

Identity/Society Courses
PHIL 3810 - Social and Political Philosophy (3)
PHIL 3820 - Feminist Philosophy (3)
PHIL 3830 - Philosophy and Race (3)
PHIL 3910 - Philosophy of War and Peace (3)
PHIL 3920 - Philosophy of Technology (3)
PHIL 3930 - Philosophy of Body (3)
PHIL 3940 - Philosophy of Education (3)
PHIL 3990 - Topics in Identity/Society (3)
PHIL 4990 - Advanced Topics in Identity/Society (3)

Elective Courses (6 credit hours)
The final 6 credit hours of courses may be from any combination of the four categories listed above and/or include courses from the following:

PHIL 2105 - Deductive Logic (3)
PHIL 3480 - Internship in Ethics and Philosophy (3)
PHIL 3610 - Independent Study (1 to 3)

Minor Total = 18 Credit Hours

Grade Requirements
At least 12 credit hours from the Minor in Philosophy must be earned at UNC Charlotte with grades of C or above.

Honors Program in Philosophy

What is Honors in Philosophy?
Philosophy majors may pursue Honors in Philosophy either in addition to or instead of University Honors. Honors in Philosophy includes a combination of GPA requirements, coursework, independent study, and a thesis project. Only students whose projects have been approved by both the department honors committee and the Honors College may graduate with honors.

Why do Honors in Philosophy?
There are two main benefits: (1) credentials on one’s official transcript (“Graduation with Honors”), and (2) the more important benefit of scholarly growth. Honors projects are basically practice for the more intensively researched, extensively written type of work students will need to do in graduate programs in philosophy and other humanities disciplines (such as literature, cultural studies, etc.). They are also excellent opportunities to develop a stellar writing sample for graduate school applications. Moreover, through intensive work with faculty, students will have the opportunity to both receive one-on-one mentorship (which often helps faculty write extra-detailed letters of recommendation).

Admission Requirements
• A declared Major in Philosophy
• Minimum GPA of 3.5 in all PHIL courses counted toward the major
• Minimum GPA of 3.5 for all departmental and Honors College courses submitted towards graduation with honors

Course Requirements
• PHIL 3791 - Honors Thesis (3)
• One 3 credit hour course chosen by the student from Honors College courses (while ideally this course should be in philosophy, it does not have to be)

Certification Requirements
• Students must compose a thesis committee consisting of three UNC Charlotte faculty. At least two of the members must be in the Department of Philosophy; the third may be from a relevant department or program (e.g., WGST if writing on gender, CHHS if writing on bioethics).
• One member of the committee must be affiliated with the Honors College if and only if a student is also submitting the thesis to University Honors.
• Students should select one member of the committee as the thesis director. The director must be a member of the Department of Philosophy.
• Complete the Application to Candidacy process for graduating with honors, as directed by the Honors College. There are two stages to this:
  o Part one is completed when the student proposes a thesis project
  o Part two is completed when the student successfully completes the thesis project

• Oral Thesis Defense
• Once PHIL 3791 is completed and the written thesis is submitted to the thesis committee, the student orally defends the thesis before his or her committee, other faculty, and students. See Steps/Procedures for more details on the oral defense.

The honors notation will appear on a student’s official transcript.

Early Entry: Master of Science in Ethics and Applied Philosophy
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Program to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
• Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
• Minimum 3.2 overall undergraduate GPA
• Submit application online at mygradschool.uncc.edu and provide supporting documents
• Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
• Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
• Maintain a minimum 3.0 overall undergraduate GPA
• Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

Double-Counted Courses
This Early Entry Program is also accelerated; up to 9 credit hours earned at the graduate level may be substituted for required undergraduate
hours. In other words, up to 9 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

More Information
For additional details on Early Entry to Graduate Programs, see the "Degree Requirements and Academic Policies" section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

---

Department of Physics and Optical Science

Undergraduate Programs

- B.A. in Physics
  - Honors Program
- B.S. in Physics
  - Honors Program
- B.S. Dual Degree in Physics and Computer Engineering
- B.S. Dual Degree in Physics and Electrical Engineering
- B.S. Dual Degree in Physics and Mechanical Engineering
- Minor in Physics
- Early Entry: M.S. in Applied Physics
- Early Entry: M.S. in or Ph.D. in Optical Science and Engineering

A Major in Physics can lead to many challenging, exciting, and productive careers. Students majoring in physics enter a variety of technical fields, attend medical school, teach in high school, or attend graduate school. Research physicists work in industry and government, in laboratories and hospitals, and on university campuses.

The Department of Physics and Optical Science offers both a Bachelor of Arts (B.A.) and a Bachelor of Science (B.S.) degree. These degrees are intended for students interested in working in industry or attending graduate school in physics or a related field.

The Bachelor of Art degree is appropriate for students seeking an in-depth understanding of physics within the context of a broader education. This curriculum allows the greatest freedom in choosing electives offered by other departments and is ideal for students wishing to pursue double majors, matching physics with another discipline or who plan to teach physics in high school.

The Bachelor of Science degree is appropriate for students planning to pursue physics as a professional career working in a technical industry, either immediately after graduation or after graduate study in physics or a related field.

In addition, the department offers dual degree programs in Physics and Computer, Electrical, or Mechanical Engineering, where Engineering students at UNC Charlotte have the opportunity to earn both an engineering degree and a B.S. in Physics degree simultaneously.

All of the degrees in physics are very structured – one class builds on another. Students should declare the major in their freshman or early in
their sophomore year, so that all required classes can be completed in 4 years.

**Bachelor of Arts in Physics**

The Bachelor of Art degree is appropriate for students seeking an in-depth understanding of physics within the context of a broader education. This curriculum allows the greatest freedom in choosing electives offered by other departments, and is ideal for students wishing to pursue double majors, matching physics with another discipline.

**Admission Requirements**

**Freshmen**
- Minimum GPA: n/a
- Declaration of Major: Students should declare a Physics major in their Freshman or Sophomore year.

**Transfers**
- Minimum GPA: 2.0
- Transferable Credit Hours: 24

**Degree Requirements**

A Major in Physics leading to the B.A. degree consists of at least 39 credit hours of physics courses (PHYS).

**General Education Courses (37-41 credit hours)**

For details on required courses, refer to the General Education Program.

**Foreign Language Requirement (0-8 credit hours)**

For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

**Foundation Courses (22 credit hours)**

Plus one of the following lab courses:
- PHYS 3282 - Advanced Laboratory in Modern Physics (O, W)
- PHYS 3283 - Advanced Laboratory in Classical Physics (W)

**Restricted Elective Courses (6 credit hours)**

Select two of the following not already taken as a Major Course:**

- PHYS 3160 - Stellar Astrophysics
- PHYS 3282 - Advanced Laboratory in Modern Physics
- PHYS 3283 - Advanced Laboratory in Classical Physics
- PHYS 4110 - Introduction to Biomedical Optics
- PHYS 4140 - Nuclear Physics
- PHYS 4151 - Thermal Physics
- PHYS 4181 - Solid State Physics
- PHYS 4222 - Classical Mechanics II
- PHYS 4232 - Electromagnetic Theory II
- PHYS 4242 - Quantum Mechanics II
- PHYS 4271 - Waves and Optics
- PHYS 4281 - Advanced Laboratory in Modern Optics

**PHYS 3000, PHYS 3900, PHYS 4000, or PHYS 4800 may be used to fulfill the PHYS course requirements only if approved in advance for this purpose by the Undergraduate Studies Committee.

**Unrestricted Elective Courses**

As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

**Grade Requirements**

Major courses must be completed with grades of C or above.

**Teacher Licensure**

Students interested in teaching physics in high school should take both PHYS 3282 and PHYS 3283. In addition to meeting the requirements for the physics degree, students who plan to become licensed teachers must have a Minor in Secondary Education. These students should contact the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education regarding teacher licensure.
Bachelor of Science in Physics

The Bachelor of Science degree is appropriate for students planning to pursue physics as a professional career, either immediately after graduation in a physics-related industry or after graduate study in physics or a related field.

Admission Requirements
Freshmen
- Minimum GPA: 2.0 (cumulative and Physics)
- Pre-Major/Prerequisite Courses: Complete the following with grades of C or above and no more than 2 attempts per course:
  - PHYS 2101
  - PHYS 2102
  - PHYS 3101
- Declaration of Major: Students should declare a Physics major in their Freshman or Sophomore year. Current UNC Charlotte undergraduate students seeking to change their major to physics may request to declare a Major in Physics leading to the B.S. degree if they have completed the above requirements.

Transfers
- Minimum GPA: 2.0 (cumulative and Physics)
- Pre-Major/Prerequisite Courses: Complete the following with grades of C or above and no more than 2 attempts per course:
  - PHYS 2101
  - PHYS 2102
  - PHYS 3101
- Declaration of Major: Transfer students may request to declare a Major in Physics leading to the B.S. degree if the above requirements were met at their previous institution(s). Otherwise, they are eligible to declare the major after completing the above requirements.
- Transferable Credit Hours: 24

Degree Requirements
A Major in Physics leading to the B.S. degree consists of a minimum of 54 credit hours of physics courses (PHYS).

General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

Foundation Courses (22 credit hours)
PHYS 1000 - New Student Seminar (1)
PHYS 2101 - Physics for Science and Engineering II (3)
PHYS 2101L - Physics for Science and Engineering II Laboratory (1)
PHYS 2102 - Physics for Science and Engineering II (3)
PHYS 2102L - Physics for Science and Engineering II Laboratory (1)
CHEM 1251 - General Chemistry I (3)
CHEM 1251L - General Chemistry I Lab (1)
MATH 1241 - Calculus I (3)**
MATH 1242 - Calculus II (3)
MATH 2241 - Calculus III (3)

**Freshmen should complete MATH 1241 before the beginning of their second year.

Major Courses (42 credit hours)
PHYS 3101 - Topics and Methods of General Physics (3)
PHYS 3102 - Physics for Science and Engineering III (3)
PHYS 3121 - Classical Mechanics I (3)
PHYS 3141 - Introduction to Modern Physics (3)
PHYS 3210 - Introduction to Computational Physics (3)
PHYS 3220 - Mathematical Methods in Physics (3)
PHYS 3282 - Advanced Laboratory in Modern Physics (3)/(0,W)
PHYS 4151 - Thermal Physics (3)
PHYS 4222 - Classical Mechanics II (3)
PHYS 4232 - Electromagnetic Theory II (3)
PHYS 4231 - Electromagnetic Theory I (3)
PHYS 4241 - Quantum Mechanics I (3)
PHYS 4271 - Waves and Optics (3)
PHYS 4281 - Advanced Laboratory in Modern Optics (3)/(W)

Restricted Elective Courses (6 credit hours)
Select two of the following**: 
PHYS 3160 - Stellar Astrophysics (3)
PHYS 3283 - Advanced Laboratory in Classical Physics (3)/(W)
PHYS 4110 - Introduction to Biomedical Optics (3)
PHYS 4140 - Nuclear Physics (3)
PHYS 4181 - Solid State Physics (3)
PHYS 4242 - Quantum Mechanics II (3)

**PHYS 3000, PHYS 3900, PHYS 4000, or PHYS 4800 may be used to fulfill the PHYS course requirements only if approved in advance for this purpose by the Undergraduate Studies Committee. Students planning for graduate study in physics are strongly advised to take PHYS 4242 as part of their 3000/4000 level elective credit hours.

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
Courses in physics (PHYS) toward the major must all be completed with grades of C or above.

Teacher Licensure
In addition to meeting the requirements for the physics degree, students who plan to become licensed teachers must have a Minor in Secondary Education. These students should contact the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education regarding teacher licensure.

Bachelor of Science in Physics and Bachelor of Science in Computer Engineering Dual Degree
The Department of Physics and Optical Science offers two dual degree opportunities with the Department of Electrical and Computer Engineering. These dual degrees are designed to broaden and enhance the education of students in engineering degree programs. Students can obtain a B.S. Physics and B.S. Electrical Engineering dual degree or a B.S.
Physics and B.S. Computer Engineering dual degree.

Admission Requirements
Freshmen and Transfers
- **Minimum GPA:** 2.0 (cumulative and Physics)
- **Pre-Major/Prerequisite Courses:** Complete the following with grades of C or above and no more than 2 attempts per course:
  - PHYS 2101
  - PHYS 2102
  - MATH 2241
- **Declaration of Major:** Engineering majors wishing to declare the B.S. in Physics degree are eligible to do so after meeting the above requirements.

Degree Requirements
To obtain a dual B.S. degree in Computer Engineering and Physics, undergraduate students must complete all requirements for the B.S.Cp.E. degree as established by the Department of Electrical and Computer Engineering. In addition, students must complete 12 credit hours of upper-division PHYS courses specified by the Department of Physics and Optical Science with an average grade of C or above. A B.S. in Physics under this program will not be awarded in advance of the engineering degree.

Students in this dual degree program are not required to fulfill the College of Liberal Arts & Sciences foreign language requirement (see the College of Liberal Arts & Sciences section of this Catalog for additional information).

General Education Courses (18-19 credit hours)
For details on required LBST and UWRT courses, refer to the General Education program. Students in this major should plan on taking the following course that meets both general education and major requirements.

ECON 2101 - Principles of Economics - Macro (3)
  or ECON 2102 - Principles of Economics - Micro (3)

Pre-Major Courses (14 credit hours)
ENGR 1201 - Introduction to Engineering Practices and Principles I (2)
ENGR 1202 - Introduction to Engineering Practices and Principles II (2)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
PHYS 2101 - Physics for Science and Engineering I (3)
PHYS 2101L - Physics for Science and Engineering I Lab (1)

Major Courses (53 credit hours)
ECGR 2103 - Computer Utilization in C++ (3)
ECGR 2104 - Computer Engineering Programming II (3)
ECGR 2111 - Network Theory I (3)
ECGR 2112 - Network Theory II (3)
ECGR 2155 - Instrumentation and Networks Laboratory (1) (W)
ECGR 2156 - Logic and Networks Laboratory (1) (W)
ECGR 2181 - Logic Systems Design (3)
ECGR 2254 - Analytical Foundations of Electrical and Computer Engineering (3)
ECGR 3101 - Embedded Systems (3)
ECGR 3111 - Signals and Systems (3)
ECGR 3123 - Data Communications and Networking (3)
ECGR 3131 - Fundamentals of Electronics and Semiconductors (3)
ECGR 3155 - Systems and Electronics Laboratory (1) (W)
ECGR 3157 - ECE Junior Design (3) (O)
ECGR 3159 - Professional Practice (1)
ECGR 3180 - Data Structures and Algorithms in C++ (3)
ECGR 3183 - Computer Organization (3)
ECGR 4124 - Digital Signal Processing (3)
ECGR 4251 - Computer Engineering Senior Design I (2) (O,W)
ECGR 4252 - Computer Engineering Senior Design II (2) (O,W)
ECGR 4433 - VLSI Systems Design (3)

Related Courses (20 credit hours)
ENGR 3295 - Multidisciplinary Professional Development (1)
MATH 1165 - Introduction to Discrete Structures (3)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2171 - Differential Equations (3)
MATH 2241 - Calculus III (3)
PHYS 2102 - Physics for Science and Engineering II (3)
PHYS 2102L - Physics for Science and Engineering II Lab (1)
STAT 3128 - Probability and Statistics for Engineers (3)

Technical Elective Courses (15 credit hours)
1) Select three ECGR 4000-level courses that are not required as part of the B.S.Cp.E. curriculum.
2) The remaining two technical elective courses may be chosen from any of the following that are not part of the B.S.Cp.E. degree requirements. A maximum of one PHYS 3000/4000 level course may be used to satisfy this elective requirement.

CEGR 3000-level courses
CEGR 4000-level courses
ECGR 3000-level courses
ECGR 4000-level courses
ITCS 3000-level courses
ITCS 4000-level courses
MATH 3000-level courses
MATH 4000-level courses
MEGR 3000-level courses
MEGR 4000-level courses
PHYS 3000-level courses
PHYS 4000-level courses
SEGR 3000-level courses
SEGR 4000-level courses

Physics Courses (12 credit hours)
PHYS 3121 - Classical Mechanics I (3)
PHYS 3141 - Introduction to Modern Physics (3)
PHYS 4231 - Electromagnetic Theory I (3)
PHYS 4241 - Quantum Mechanics I (3)

Degree Total = 129-132 credit hours

Grade Requirements
A GPA of 2.0 or above in PHYS and engineering courses and an overall GPA of 2.0 or above is required. A grade of C or above is required in most PHYS courses before students can progress to the next PHYS course.
Bachelor of Science in Physics and Bachelor of Science in Electrical Engineering Dual Degree

The Department of Physics and Optical Science offers two dual degree opportunities with the Department of Electrical and Computer Engineering. These dual degrees are designed to broaden and enhance the education of students in engineering degree programs. Students can obtain a B.S. Physics and B.S. Electrical Engineering dual degree or a B.S. Physics and B.S. Computer Engineering dual degree.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0 (cumulative and Physics)
- Pre-Major/Prerequisite Courses: Complete the following with grades of C or above and no more than 2 attempts per course:
  - PHYS 2101
  - PHYS 2102
  - MATH 2241
- Declaration of Major: Engineering majors wishing to declare the B.S. in Physics degree are eligible to do so after meeting the above requirements.

Degree Requirements
To obtain a dual B.S. degree in Electrical Engineering and Physics, undergraduate students must complete all requirements for the B.S.E.E. degree as established by the Department of Electrical and Computer Engineering. In addition, students must complete 12 credit hours of upper-division PHYS courses specified by the Department of Physics and Optical Science with an average grade of C or above. A B.S. in Physics under this program is awarded at the same time as or after the B.S.E.E.; the B.S. in Physics degree will not be awarded in advance of the engineering degree.

Students in this dual degree program are not required to fulfill the College of Liberal Arts & Sciences foreign language requirement (see the College of Liberal Arts & Sciences section of this Catalog for additional information).

General Education Courses (18-19 credit hours)
For details on required LBST and UWRT courses, refer to the General Education program. The liberal studies electives must be chosen to satisfy the University General Education Requirements and to meet the objectives of a broad education consistent with the educational goals of the profession. Students in this major should also plan on taking the following course that meets both general education and major requirements.

ECON 2101 - Principles of Economics – Macro (3)
  or ECON 2102 - Principles of Economics – Micro (3)

Pre-Major Courses (14 credit hours)
ENGR 1201 - Introduction to Engineering Practices and Principles I (2)
ENGR 1202 - Introduction to Engineering Practices and Principles II (2)
MATH 1241 - Calculus I (3)
MATH 1242 - Calculus II (3)
PHYS 2101 - Physics for Science and Engineering I (3)
PHYS 2101L - Physics for Science and Engineering I Lab (1)

Major Courses (51 credit hours)
ECGR 2103 - Computer Utilization in C++ (3)
ECGR 2111 - Network Theory I (3)
ECGR 2112 - Network Theory II (3)
ECGR 2155 - Instrumentation and Networks Laboratory (1) (W)*
ECGR 2156 - Logic and Networks Laboratory (1) (W)*
ECGR 2181 - Logic Systems Design (3)
ECGR 2254 - Analytical Foundations of Electrical and Computer Engineering (3)
ECGR 3111 - Signals and Systems (3)
ECGR 3112 - System Analysis II (3)
ECGR 3121 - Introduction to Electromagnetic Fields (3)
ECGR 3122 - Electromagnetic Waves (3)
ECGR 3131 - Fundamentals of Electronics and Semiconductors (3)
ECGR 3132 - Electronics (3)
ECGR 3142 - Electrical Energy Conversion (3)
ECGR 3155 - Systems and Electronics Laboratory I (W)*
ECGR 3156 - Electromagnetic and Electronic Devices Laboratory I (W)*
ECGR 3157 - ECE Junior Design (3) (O)
ECGR 3159 - Professional Practice (1)
ECGR 4123 - Analog and Digital Communication (3)
  or ECGR 4124 - Digital Signal Processing (3)
ECGR 4241 - Electrical Engineering Senior Design I (2) (O,W)
ECGR 4242 - Electrical Engineering Senior Design II (2) (O,W)

*The laboratory courses are designed to: (1) teach the basic techniques of instrumentation; (2) develop skills in communications; and (3) relate the analytical methods developed in the classroom to the performance of real physical systems.

Related Courses (19 credit hours)
ENGR 3295 - Multidisciplinary Professional Development (1)
MATH 2164 - Matrices and Linear Algebra (3)
MATH 2171 - Differential Equations (3)
MATH 2241 - Calculus III (3)
ECGR 3112 - System Analysis II (3)
PHYS 2102 - Physics for Science and Engineering II (3)
PHYS 3141 - Introduction to Modern Physics (3)
STAT 3128 - Probability and Statistics for Engineers (3)

Restricted Elective Courses (18 credit hours)
Technical Elective Courses (12 credit hours)
Select four ECGR 4000-level courses that are not required as part of the B.S.E.E. curriculum.

Elective Courses (6 credit hours)
Select two courses from the following that are not already part of the B.S.E.E. curriculum. A maximum of one PHYS 3000/4000 level course may be used to satisfy this elective requirement.

CEGR 3000-level courses
CEGR 4000-level courses

Physics Courses (12 credit hours)

Required Physics Courses (6 credit hours)
PHYS 3121 - Classical Mechanics I (3)
PHYS 4241 - Quantum Mechanics I (3)

Elective Physics Courses (6 credit hours)
Select two of the following:
PHYS 3160 - Stellar Astrophysics (3)
PHYS 3220 - Mathematical Methods in Physics (3)
PHYS 3900 - Undergraduate Research (1 to 3) (requires permission of Department of Physics and Optical Science)
PHYS 4110 - Introduction to Biomedical Optics (3)
PHYS 4140 - Nuclear Physics (3)
PHYS 4181 - Solid State Physics (3)
PHYS 4222 - Classical Mechanics II (3)
PHYS 4242 - Quantum Mechanics II (3)
PHYS 4271 - Waves and Optics (3)

Degree Total = 129-132 credit hours

Bachelor of Science in Physics and Bachelor of Science in Mechanical Engineering Dual Degree

The Department of Physics and Optical Science and Department of Mechanical Engineering and Engineering Science offer a dual degree designed to broaden and enhance the education of students in the mechanical engineering and physics degree programs. Students can obtain a B.S. in Physics and B.S. in Mechanical Engineering dual degree.

Admission Requirements
Freshmen and Transfers
- Minimum GPA: 2.0 (cumulative and Physics)
- Pre-Major/Prerequisite Courses: Complete the following with grades of C or above and no more than 2 attempts per course:
  - PHYS 2101
  - PHYS 2102
  - MATH 2241
- Declaration of Major: Engineering majors wishing to declare the B.S. in Physics degree are eligible to do so after meeting the above requirements.

Degree Requirements
To obtain a dual B.S. degree in both Physics and Mechanical Engineering, undergraduate students must complete all requirements for the B.S.M.E. degree as established by the Department of Mechanical Engineering and Engineering Science. In addition, students must complete 12 credit hours of upper-division PHYS courses specified by the Department of Physics and Optical Science with an average grade C or above. A B.S. in Physics under this program will be awarded at the same time as or after the B.S.M.E. The B.S. in Physics degree will not be awarded in advance of the B.S. in Mechanical Engineering degree.

Students in this dual degree program are not required to fulfill the College of Liberal Arts & Sciences foreign language requirement (see the College of Liberal Arts & Sciences section of this Catalog for additional information).

General Education Courses (18-19 credit hours)
For details on required LBST and UWRT courses, refer to the General Education program. Students in this major should plan on taking the following courses that meet general education and major requirements.

Bachelor of Science in Physics and Bachelor of Science in Mechanical Engineering Dual Degree

ECON 2101 - Principles of Economics – Macro (3)
ECON 2102 - Principles of Economics – Micro (3)

Foundation Courses (24 credit hours)
MEGR 1100 - Foundations of Math and Science for Engineers (4)
CHEM 1251 - General Chemistry I (3)
CHEM 1251L - General Chemistry I Lab (1)

Major Courses (57 credit hours)
MEGR 2141 - Engineering Mechanics I (3)
MEGR 2144 - Introduction to Solid Mechanics (3)
MEGR 2156 - Design Projects I Lab (2)
MEGR 2180 - Manufacturing Systems (3)
MEGR 2194 - Introduction to Heat Transfer (3)
MEGR 2195 - Design Project Lab II (2)
MEGR 3111 - Thermodynamics I (3)
MEGR 3112 - Thermodynamics II (3)
MEGR 3114 - Fluid Mechanics (3)
MEGR 3161 - Introduction to Engineering Materials (3)
MEGR 3171 - Introduction to Measurements and Instrumentation (2)
MEGR 3171L - Instrumentation Lab (2) (W)
MEGR 3251 - Thermals/Fluids Lab (2) (W)
MEGR 3255 - Senior Design I (2)
MEGR 3256 - Senior Design II (2) (O)

Restricted Elective Courses (21 credit hours)
**Design Elective Course (3 credit hours)**
Select one of the following:
- MEGR 3216 - Thermal/Fluid Design (3)
- MEGR 3221 - Machine Analysis and Design I (3)

Note: Students are required to satisfy the Design Elective with either MEGR 3216 or MEGR 3221. Students may take MEGR 3216 and MEGR 3221 in order to satisfy the Design Elective and one Technical Elective (in which case MEGR 3216 satisfies the Design Elective and MEGR 3221 satisfies a Technical Elective or Concentration Elective for any concentration).

**Science Elective Course (3 credit hours)**
Select one of the following:
- BIOL 1110 - Principles of Biology I (3)
- CHEM 1252 - General Chemistry II (3)
- GEOL 1200 - Physical Geology (3)
- PHYS 1130 - Introduction to Astronomy (3)

**Math Elective Course (3 credit hours)**
Select one of the following options:

*Option 1:*
- STAT 3128 - Probability and Statistics for Engineers (3)

*Option 2:*
- MEGR 3282 - Statistical Process Control and Metrology (3) *(also counts as one Technical Elective)*

and
- MATH 2164 - Matrices and Linear Algebra (3)
- or MATH 3171 - Applied Mathematics (3) *(may count as a Math Elective or a Technical Elective, but not both)*

**Technical Elective Courses (12 credit hours)**
Select four of the following. At least three of the four must be MEGR courses.
- MEGR 3090 - Special Topics in Mechanical Engineering (1 to 4) *(if the topic is relevant)*
- MEGR 3092 - Special Topics in Motorsports Engineering (1 to 4) *(if the topic is relevant)*
- MEGR 3094 - Special Topics in Energy Engineering (1 to 4) *(if the topic is relevant)*
- MEGR 3097 - Special Topics in Biomedical Engineering (3) *(if the topic is relevant)*
- MEGR 3162 - Mechanical Behavior and Strengthening of Solids (3)
- MEGR 3210 - Automotive Power Plants (3)
- MEGR 3211 - Road Vehicle Dynamics (3)
- MEGR 3214 - Refrigeration and Air/Conditioning (3)
- MEGR 3221 - Machine Analysis and Design I (3) *(may count as a Technical Elective only if MEGR 3216 is completed to fulfill the Design Elective)*
- MEGR 3222 - Machine Analysis and Design II (3)
- MEGR 3225 - Introduction to Finite Element Analysis (3)
- MEGR 3231 - Advanced CAD/CAM (3)
- MEGR 3232 - Plastic Part Design (3)
- MEGR 3233 - Introduction to Biomaterials (3)
- MEGR 3234 - Introduction to Biodynamics (3)
- MEGR 3235 - Waves and Optics (3)
- MEGR 3236 - Introduction to Nanoscale Science and Engineering (3)
- MEGR 3237 - Introduction to Control Systems (3)
- MEGR 3238 - Microscopy for Engineering (3)
- MEGR 3240 - Advanced Automotive Powerplants (3)
- MEGR 3241 - Advanced Motorsports Instrumentation (3)
- MEGR 3242 - Applied Vehicle Aerodynamics (3)
- MEGR 3243 - Automotive Powertrain Laboratory (3)
- MEGR 3244 - Tire Mechanics (3)
- MEGR 3245 - Advanced Experimental Methods (3)
- MEGR 3260 - Clean Coal Technology (3)
- MEGR 3261 - Sustainable Energy (3)
- MEGR 3262 - Turbomachinery (3)
- MEGR 3270 - Biomedical Fluidics: Microfluidics (3)
- MEGR 3271 - Biomedical Manufacturing: 3D Biofabrication (3)
- MEGR 3272 - Introduction to Bio-Polymers and Composites (3)
- MEGR 3282 - Statistical Process Control and Metrology (3)
- MEGR 3283 - Metrology and Precision Engineering (3)
- MEGR 3451 - Stationary Power Plant Systems (3)
- MEGR 3452 - Introduction to Nuclear Engineering (3)
- MEGR 4127 - Introduction to Robotics (3)
- MEGR 4143 - Discrete Mechanical Vibrating Systems (3)

**Degree Total = 129-132 credit hours**

**Grade Requirements**
Students must have a 2.0 or above GPA in PHYS courses in order to graduate. A grade of C or above is required in most PHYS courses before students can progress to the next PHYS course. Students must also have a 2.0 overall GPA in engineering courses.
Minor in Physics
A Minor in Physics requires a minimum of 17 credit hours of physics courses.

Minor Requirements
Students may select from two options to complete the Minor in Physics. Option 1 is for students who have completed the calculus-based introductory physics course. Option 2 is for students who have completed the algebra-based introductory physics course.

Option 1
PHYS 2101 - Physics for Science and Engineering I (3)
PHYS 2101L - Physics for Science and Engineering I Lab (1)
PHYS 2102 - Physics for Science and Engineering II (3)
PHYS 2102L - Physics for Science and Engineering II Lab (1)
PHYS 3101 - Topics and Methods of General Physics (3)
PHYS 3141 - Introduction to Modern Physics (3)
PHYS xxxx - Physics Elective Course (3)*

Option 2
PHYS 1101 - Introductory Physics I (3)
PHYS 1101L - Introductory Physics I Laboratory (1)
PHYS 1102 - Introductory Physics II (3)
PHYS 1102L - Introductory Physics II Laboratory (1)
PHYS 3101 - Topics and Methods of General Physics (3)
PHYS 3141 - Introduction to Modern Physics (3)
PHYS xxxx - Physics Elective Course (3)*

*Elective Courses
The PHYS elective course must be selected from the list below of approved PHYS courses at the 3000- or 4000-level.

PHYS 3101 - Topics and Methods of General Physics (3)
PHYS 3102 - Physics for Science and Engineering III (3)
PHYS 3121 - Classical Mechanics I (3)
PHYS 3141 - Introduction to Modern Physics (3)
PHYS 3160 - Stellar Astrophysics (3)
PHYS 3210 - Introduction to Computational Physics (3)
PHYS 3220 - Mathematical Methods in Physics (3)
PHYS 3282 - Advanced Laboratory in Modern Physics (3)
PHYS 3283 - Advanced Laboratory in Classical Physics (3)
PHYS 4110 - Introduction to Biomedical Optics (3)
PHYS 4140 - Nuclear Physics (3)
PHYS 4151 - Thermal Physics (3)
PHYS 4181 - Solid State Physics (3)
PHYS 4222 - Classical Mechanics II (3)
PHYS 4231 - Electromagnetic Theory I (3)
PHYS 4232 - Electromagnetic Theory II (3)
PHYS 4241 - Quantum Mechanics I (3)
PHYS 4242 - Quantum Mechanics II (3)
PHYS 4271 - Waves and Optics (3)
PHYS 4281 - Advanced Laboratory in Modern Optics (3)

Note: PHYS 3000, PHYS 3900, PHYS 4000, or PHYS 4800 may also be used to fulfill the 17-credit hour requirement only if approved in advance for this purpose by the Undergraduate Studies Committee.

Minor Total = 17 Credit Hours

Grade Requirements
PHYS courses must be completed with a GPA of C or above.

Honors Program in Physics
To obtain a degree with honors in physics, students must:

- Maintain a minimum GPA of 3.0 in all physics courses
- Complete PHYS 3900
- Successfully present the results of their project to a panel of faculty members
- Complete the Application to Candidacy process for graduating with honors, as directed by the Honors College

The honors notation will appear on a student’s official transcript. Details are available on the Department of Physics and Optical Science website.

Cooperative Education Program
In the Cooperative Education Program, students complete their lower-division coursework and, after being formally accepted as a co-op student, alternates periods of academic coursework with periods of full-time paid employment in an area mutually agreed upon by the student, an employer, and the University. Students who are in good standing with the University, have a minimum overall GPA of 2.5, and have completed 30 credit hours are eligible to apply. Transfer students are required to complete 12 credit hours at the University prior to application. Further information regarding the application procedure for admission into this program can be obtained from the University Career Center.

Early Entry: Master of Science in Applied Physics
Exceptional undergraduate students at UNC Charlotte may apply to this Early Entry Programs to begin work toward a graduate degree before completion of the baccalaureate degree.

Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Acceptable scores on the appropriate graduate standardized test (e.g., GRE) (Note: The GRE requirement is waived for Early Entry Program applicants who are Physics majors and meet all other requirements)
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
### Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

### Double-Counted Courses
These Early Entry Programs are also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

### More Information
For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

### Accelerated Master’s Program
(for High School Seniors and UNC Charlotte Undergraduate Freshmen)
Academically talented high school seniors and UNC Charlotte undergraduate freshmen are encouraged to apply to an Accelerated Master’s Program to begin work toward both undergraduate and graduate degrees in their Freshman year.

#### Admission Requirements
- Minimum high school GPA of 3.75 (on a 4.0 scale)
- Minimum score of 1220 on SAT

#### Continued Enrollment Requirements
Students must maintain a strong academic record at both the undergraduate and graduate levels with a cumulative GPA of 3.0 or above.

#### Double-Counted Courses
Up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

### More Information
For additional details on the Accelerated Master’s Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/accelerated-masters.

For details about the full requirements for this degree program, see the program listing in the Graduate Catalog.

### Early Entry: Master of Science or Ph.D. in Optical Science and Engineering
Exceptional undergraduate students at UNC Charlotte may apply to one of these Early Entry Programs to begin work toward a graduate degree before completion of the baccalaureate degree.

#### Admission Requirements
- Completion of at least 75 undergraduate credit hours (although it is expected that close to 90 credit hours will have been earned by the time the first graduate course is taken)
- Minimum 3.2 overall undergraduate GPA
- Acceptable scores on the GRE General Test (Note: The GRE General Test requirement is waived for Early Entry Program applicants who have a minimum 3.4 GPA in the major)
- Submit application online at mygradschool.uncc.edu and provide supporting documents
- Recommendation by the Graduate Program Director and approved by the Graduate School

#### Continued Enrollment Requirements
- Completion of Early Entry Program Form, and approved by the Undergraduate Coordinator, Graduate Program Director, and Graduate School, prior to registering for graduate coursework each semester
- Maintain a minimum 3.0 overall undergraduate GPA
- Undergraduate students are allowed to take only 15 hours of graduate credit before they have completed their baccalaureate degree

#### Double-Counted Courses
These Early Entry Programs are also accelerated; up to 12 credit hours earned at the graduate level may be substituted for required undergraduate hours. In other words, up to 12 credit hours of graduate coursework may be "double counted" toward both the undergraduate and graduate degrees.

### More Information
For additional details on Early Entry to Graduate Programs, see the “Degree Requirements and Academic Policies” section of the Graduate Catalog and the Graduate Admissions website at gradadmissions.uncc.edu/admissions/early-entry.

For details about the full requirements for these degree programs, see the individual program listings in the Graduate Catalog.
Department of Political Science and Public Administration

politicalscience.uncc.edu

Undergraduate Programs

- **B.A. in Political Science**
  - Security and Intelligence Systems
  - Comprehensive Social Studies Teacher Licensure
  - Honors Program
- **Minor in Political Science**
- **Minor in Security and Intelligence Studies**
- **Early Entry: Master of Public Administration (MPA)**

Political science is the study of politics: government, law, political behavior, public policy, and political philosophy. The political science curriculum is designed primarily to afford broad and modern training in the study of political institutions and political behavior for students in the liberal arts and majors planning graduate work. It also affords career-oriented or pre-professional training for teaching, law, business, public relations, or work in the mass media, domestic and foreign government service, the military, teaching, and a variety of active roles in politics.

The B.A. in Political Science offers a concentration and minor in Security and Intelligence Studies. The B.A. in Political Science with Concentration in Security and Intelligence Studies encourages students to gain a broad, well-rounded understanding of the ethics, processes, priorities, and outcomes of national security policy, with a focus on the role of information and intelligence in the policymaking process. The minor’s interdisciplinary approach enables students to select courses across a wide range of disciplines. It is designed to prepare students to work in a wide range of occupations in the government, private, non-profit sectors that deal with national security broadly understood, and for the obligations of state, national, and global citizenship in the 21st century.

The Department, in collaboration with the College of Education, offers the B.A. in Political Science with Comprehensive Social Studies Teacher Licensure. The coursework for this licensure includes nearly equal numbers of courses in political science and affiliated social studies supervised by the Department of Political Science and Public Administration, and education courses supervised by the Department of Middle, Secondary, and K-12 Education. Students interested in the teacher licensure should declare their intent with the Department of Political Science and Public Administration to seek advising and academic progression.

Careers with Political Science

Political science majors gain analytical skills and communication abilities that are valued in a wide spectrum of potential career areas. An undergraduate degree in political science can lead to interesting careers in local, state, or federal government; law; private businesses; international organizations; the military; nonprofit organizations; political campaigns; journalism; teaching; public office; research and teaching at universities.

Graduate Programs

On the graduate level, the Department of Political Science and Public Administration offers the Master of Public Administration, a professional degree for persons seeking training in public administration with specialization in local government and non-profit management. Students in the Gerald G. Fox MPA Program have the option to concentrate their studies in several specialized areas: Nonprofit Management, Urban Management & Policy, Arts Administration, Emergency Management, and Public Budgeting and Finance. (For more information, see the Graduate Catalog.) The department is also one of the social science departments that offers an interdisciplinary Ph.D. in Public Policy. (For more information, see the Graduate Catalog.)

Bachelor of Arts in Political Science

Admission Requirements

**Freshmen and Transfers**

- **Minimum GPA:** 2.0
- **Declaration of Major:** Change of Major form accepted year-round; students declaring the major should meet with the assigned academic advisor before registering for the next semester
- **Transferable Credit Hours:** 24

Degree Requirements

A Major in Political Science for the B.A. degree requires 30 credit hours of political science courses.

General Education Courses (37-41 credit hours)

For details on required courses, refer to the General Education Program.
**Foreign Language Requirement (0-8 credit hours)**
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirements at the beginning of this section.

**Major Courses (30 credit hours)**

**Major Core Courses (13 credit hours)**

**Introductory Courses (9 credit hours)**
- POLS 1110 - American Politics (3) *
- POLS 1130 - Comparative Politics (3) **
- POLS 1150 - International Politics (3)

* Students who receive an evaluation of Qualified (3) or above on the Advanced Placement examination in American Politics will receive credit for POLS 1110.

** Students who receive an evaluation of Qualified (3) or above on the Advanced Placement examination in Comparative Politics will receive credit for POLS 1130.

**Methods Course (3-4 credit hours)**
Select one of the following. POLS 2220 should be taken unless there is a double major, as indicated. POLS 2220 and one of the Senior courses listed below fulfill the writing intensive courses (W) required for graduation. If an equivalent social science methods course is taken that is not a writing intensive course, then another writing intensive course will need to be taken.

- POLS 2220 - Political Science Methods (4) (W)
- COMM 3100 - Communication Research Methods (3) (W) (for double major in Political Science and Communication Studies)
- CJUS 2370 - Research Methods in Criminal Justice (3) (for double major in Political Science and Criminal Justice)
- PSYC 2103 - Research Methodology II (3) (W) (for double major in Political Science and Psychological Science)
- SOCY 3155 - Sociological Research Methods (4) (for double major in Political Science and Sociology)

**Political Science Elective Courses (11-14 credit hours)**
Select any POLS courses to achieve a total of 30 credit hours in POLS courses.***

*** No more than 9 credit hours from POLS 3400, POLS 3800, POLS 4110, and POLS 4163 may be used to fulfill major requirements.

**Unrestricted Elective Courses**
As needed to complete the credit hours required for graduation.

**Degree Total = 120 Credit Hours**

**Grade Requirements**
Students must earn a minimum GPA of 2.0 in all Political Science courses.

---

**Bachelor of Arts in Political Science with Concentration in Security and Intelligence Systems**

The B.A. in Political Science with Concentration in Security and Intelligence Studies encourages students to gain a broad, well-rounded understanding of the ethics, processes, priorities, and outcomes of national security policy, with a focus on the role of information and intelligence in the policymaking process. The concentration is designed to prepare students to work in a wide range of occupations in the government, private, non-profit sectors that deal with national security broadly understood, and for the obligations of state, national, and global citizenship in the 21st century.

**Admission Requirements**
- Minimum GPA: 2.0 in POLS courses
- Other Requirements: Political Science major
- Declaration of Major: Change of Major form accepted year-round; students declaring the major should meet with the assigned academic advisor before registering for the next semester

**Degree Requirements**

**Major Courses (30 credit hours)**

**Major Core Courses (12-13 credit hours)**

- Required Core Courses (9 credit hours)
  - POLS 1110 - American Politics (3) *
  - POLS 1130 - Comparative Politics (3) **
  - POLS 1150 - International Politics (3)

**Elective Core Course (3-4 credit hours)**
Select one of the following:
- POLS 2220 - Political Science Methods (4) (W)
Bachelor of Arts in Political Science with Comprehensive Social Studies Teacher Licensure

The Department of Political Science and Public Administration, in collaboration with the College of Education, offers a concentration to a North Carolina Teaching License in Social Studies. The coursework for this program includes 30 credit hours of coursework in political science (which is close to the 32 credit hours in education supervised by the Department of Middle, Secondary, and K-12 Education), and up to 21 credit hours of content in other social science disciplines. Students interested in teacher licensure should declare their intent with the Department of Political Science and Public Administration as soon as possible to prevent unnecessary delays.

Admission Requirements
Freshmen and Transfers
Minimum GPA: 2.0
Declaration of Major: Teaching license orientation/advising session required upon declaration of major
Transferable Credit Hours: 24

Degree Requirements
General Education Courses (37-41 credit hours)
For details on required courses, refer to the General Education Program.

Foreign Language Requirement (0-8 credit hours)
For details, refer to the College of Liberal Arts & Sciences Foreign Language Requirement.

Foundation Courses (9 credit hours)
POLS 1110 - American Politics (3)
POLS 1130 - Comparative Politics (3)
POLS 1150 - International Politics (3)

Restricted Elective Courses (9-10 credit hours)
Select at least one course from each list.

Methods Course (3-4 credit hours)
Select one of the following. POLS 2220 should be taken unless there is a double major, as indicated. POLS 2220 and one of the Senior Courses listed below fulfill the writing intensive courses (W) required for graduation. If an equivalent social science methods course is taken that is not a writing intensive course, then another writing intensive course will need to be taken.
POLS 2220 - Political Science Methods (4) (W)
CJUS 2370 - Research Methods in Criminal Justice (3) (for double major in Political Science and Criminal Justice)
COMM 3100 - Communication Research Methods (3) (W) (for double major in Political Science and Communication Studies)
PSYC 2103 - Research Methodology II (3) (W) (for double major in Political Science and Psychological Science)
SOCY 3155 - Sociological Research Methods (4) (for double major in Political Science and Sociology)

Unrestricted Elective Courses
As needed to complete the credit hours required for graduation.

Degree Total = 120 Credit Hours

Grade Requirements
A minimum GPA of 2.0 in concentration courses is required.
POLS 3070 - Topics in Political or Legal Philosophy (3)
POLS 3171 - History of Classical Political Philosophy (3)
POLS 3172 - African American Political Philosophy (3)
POLS 3173 - History of Modern Political Philosophy (3)
POLS 3175 - Philosophy of Law (3)
POLS 3176 - Fascism and Communism (3)
POLS 3177 - Social and Political Philosophy (3)

Non-Western Political Science Course (3 credit hours)
Select a minimum of one of the following:
POLS 3133 - Middle East Politics (3)
POLS 3143 - African Politics (3)
POLS 3144 - Latin American Politics (3)
POLS 3148 - Chinese Politics (3)

Senior Course (3 credit hours)
Select one of the following:
POLS 4110 - North Carolina Student Legislature (3) (O, W)
POLS 4163 - Advanced Model United Nations (3) (O, W)
POLS 4600 - Senior Seminar (3) (O, W)
POLS 4700 - Honors Thesis (3) (O, W)
POLS 4990 - Senior Thesis (3) (O, W)

Unrestricted Political Science Elective Courses (8-9 credit hours)
Select any POLS courses to achieve a total of 30 credit hours in POLS courses. No more than 9 credit hours from POLS 3400, POLS 3800, POLS 4110, and POLS 4163 may be used to fulfill major requirements.

Social Studies Courses (18 credit hours)
GEOG 1101 - World Regional Geography (3)
HIST 1121 - European History Since 1660 (3)
HIST 1160 - U.S. History to 1865 (3)
HIST 1161 - U.S. History Since 1865 (3)
HIST xxxx - Non-Western History Course (e.g., HIST 2201, HIST 2207, HIST 2215, or HIST 2216)
ECON xxxx - Economics Course (ECON 1101 is recommended)

Minor in Secondary Education (32 credit hours)
Students must have a Minor in Secondary Education to obtain teaching licensure. See the College of Education section of this Catalog for details on the requirements for the minor.

Licensure applications are the responsibility of the student and the Office of Teacher Education Advising and Licensure (TEAL) in the College of Education.

Degree Total = 120 Credit Hours

Minor in Political Science
The Minor in Political Science requires 18 credit hours of political science with a combined GPA of at least 2.0 for all POLS courses.

Minor Requirements
Required Courses (9 credit hours)
POLS 1110 - American Politics (3)
POLS 1130 - Comparative Politics (3)
POLS 1150 - International Politics (3)

Elective Courses (9 credit hours)
Select at least three POLS elective courses. Although students may repeat POLS 3400, POLS 3800, POLS 4110, or POLS 4163 for credit, no more than three hours of credit from any one of these courses may be used to fulfill the requirements for the Minor in Political Science.

Minor Total = 18 Credit Hours

Minor in Security and Intelligence Studies
Security and Intelligence Studies is an interdisciplinary approach to the study of national security policy. The Minor in Security and Intelligence Studies encourages students to gain a broad, well-rounded understanding of the ethics, processes, priorities, and outcomes of national security policy, with a focus on the role of information and intelligence in the policymaking process. The minor’s interdisciplinary approach enables students to select courses across a wide range of disciplines. It is designed to prepare students to work in a wide range of occupations in the government, private, non-profit sectors that deal with national security broadly understood, and for the obligations of state, national, and global citizenship in the 21st century.

Minor Requirements
Required Courses (9 credit hours)
POLS 4380 - Intelligence in a Democratic Society (3)
POLS 4381 - Critical Thinking Skills for Intelligence (3)
POLS 4382 - Intelligence Cycle (1)
POLS 4383 - Analytic Writing and Briefing (2)

Elective Courses (9 credit hours)
Select courses from the following topics:

Terrorism and Political Violence
POLS 3030 - Topics in Comparative or International Politics (1 to 4)
POLS 3135 - Terrorism (3)
POLS 3137 - International Human Rights (3)
POLS 3139 - Civil Wars and Political Violence (3)

Africa
AFRS 2221 - Modern Africa (3)
AFRS 3154 - Globalization in African History (3)
AFRS 3179 - African American Political Philosophy (3)
AFRS 3190 - Political Economy of the Caribbean (3)
AFRS 3265 - African Economic Development (3)
AFRS 4105 - African International Relations (3)
AFRS 4630 - Environmental and Public Health in Africa (3) (O)
AFRS 4640 - Environment, State, and Society in the Caribbean and Latin America (3)
HIST 2211 - Modern Africa (3)  
POLS 3143 - African Politics (3)  
POLS 3169 - African International Relations (3)  
SWAH 1201 - Elementary Swahili I (4)  
SWAH 1202 - Elementary Swahili II (4)  

Middle East  
ARBC 1201 - Elementary Arabic I (3)  
ARBC 1202 - Elementary Arabic II (3)  
FARS 1201 - Elementary Farsi I (3)  
FARS 1202 - Elementary Farsi II (3)  
HIST 2216 - The Modern Middle East (3)  
POLS 3166 - Politics of the Islamic World (3)  

Europe and Russia  
FREN 1201 - Elementary French I (3)  
FREN 1202 - Elementary French II (3)  
GERM 1201 - Elementary German I (3)  
GERM 1202 - Elementary German II (3)  
HIST 2252 - Russian History from 1861 to the Present (3)  
ITLN 1201 - Elementary Italian I (3)  
ITLN 1202 - Elementary Italian II (3)  
POLS 3153 - European Union (3)  
RUSS 1201 - Elementary Russian I (3)  
RUSS 1202 - Elementary Russian II (3)  

Latin America  
AFRS 3190 - Political Economy of the Caribbean (3)  
HIST 2207 - Modern Latin America (3)  
POLS 3144 - Latin American Politics (3)  
POLS 3155 - Latin American Political Economy (3)  
POLS 3164 - U.S.-Latin American Relations (3)  
SPAN 1101 - Elementary Spanish I (3)  
SPAN 1102 - Elementary Spanish II (3)  
SPAN 1201 - Elementary Spanish I (4)  
SPAN 1202 - Elementary Spanish II (4)

Minor Total = 18 Credit Hours  

Grade Requirements  
Minimum GPA of 2.0 in all courses taken toward the minor.

Honors Program in Political Science  

Admission Requirements  
To be admitted into the Political Science Honors Program, a student must:  
- Complete POLS 2220 with a grade of A  
- Have an overall GPA at UNC Charlotte of at least 3.25  
- Have a GPA of at least 3.5 in all Political Science classes taken at UNC Charlotte  

Students can seek admission to the Political Science Honors Program upon fulfilling these requirements.

Course Requirements  
The Political Science Honors Program consists of a two-course sequence:  
1) POLS 3700 in which the student does a literature review and develops a research design  
2) POLS 4700 in which the student completes the research and finalizes the thesis. The student must do an oral defense of the thesis in front of a committee that includes the topic advisor and two other faculty members.

Certification Requirements  
To be awarded honors in Political Science, a student must:
